PREFACE

The 1979 edition of the *Michigan Administrative Code*, published pursuant to Act No. 193 of the Public Acts of 1970, being §§8.41 to 8.48 of the *Michigan Compiled Laws*, is the third in a series of compilations of Michigan administrative rules.

The administrative rules of Michigan were first compiled in 1944 under the supervision of the Secretary of State by authority of former Act No. 88 of the Public Acts of 1943. The rules were arranged in alphabetical order by promulgating agency and published in one volume entitled *Michigan Administrative Code*.

A second compilation of administrative rules was completed in 1954 by the Michigan Compilation Commission under the supervision of the Secretary of State, again by authority of former Act No. 88 of the Public Acts of 1943. The 1954 compilation, also published in one volume, contained the rules of the 1944 compilation as amended, added to, or rescinded by rules appearing in 39 quarterly supplements to the 1944 edition of the *Michigan Administrative Code*.

A uniform numbering system was implemented in 1954, with each rule being assigned a compilation number, or "R" number, which appears in boldface type at the beginning of a rule. This system resulted in a change from an alphabetical arrangement of rules by promulgating agency to a sequential arrangement of rules by R number. The number to the left of the decimal point in the R number originally corresponded to the chapter of the *Michigan Compiled Laws* under which the promulgating agency was created, but the value of this taxonomy depreciated following the adoption of the *Constitution of the State of Michigan of 1963*, wherein Article 5, §2, required the allocation of executive and administrative agencies among and within not more than 20 principal departments. Since that time, the number to the left of the decimal point has generally corresponded to the chapter of the *Michigan Compiled Laws* containing the statutory authority under which an agency promulgates rules. Many

rules promulgated by the Department of Agriculture and by the Department of Natural Resources exhibit R numbers containing 2 decimal points. In the case of the Department of Agriculture, the number between the 2 decimal points corresponds to a general regulation number assigned by that department. In the case of the Department of Natural Resources, the number between the 2 decimal points corresponds to a regulation number assigned each county by that department.

The 1979 edition of the *Michigan Administrative Code*, published in 3 volumes, includes rules contained in the 1954 edition as amended, added to, or rescinded by rules appearing in 101 quarterly supplements to the 1954 edition, covering the filing periods for administrative rules beginning October 1, 1954, and ending November 30, 1979. No attempt has been made to indicate any implied effect which one rule may have upon another.

The origin and amendments of each rule are indicated in a history note following the text of the rule. The effective date of each rule promulgated after September 30, 1954, is also indicated in the history note, an editorial feature incorporated for the first time in the 1979 edition of the *Michigan Administrative Code*. Principal abbreviations used in history notes, as well as in editor's notes, are as follows:

AC	Administrative Code
ACS	Administrative Code Supplement
AACS	Annual Administrative Code Supplement
Eff.	Effective

Other editorial features include the appearance of uniform authority paragraphs at the beginning of each set of rules in the Code containing citations to acts authorizing the promulgation of those rules; boldface catchlines preceding each rule indicating major topics covered in the rule; editor's notes furnishing information considered helpful to the reader; and the conversion of internal references by rule number to the corresponding R number.

Editorial revisions mandated by §8.43 of the *Michigan Compiled Laws* include the addition of catchlines to rules that appeared without catchlines in the 1954 edition of the Code; changes in the form and style of rules to correspond to current drafting practices; modification of agency headings, when feasible, to reflect executive reorganization of agencies; and the correction of obvious grammatical, typographical, and clerical errors.

A table of contents for the 1979 edition of the *Michigan Administrative Code* appears at the beginning of each volume. This table is arranged

sequentially by R number, with principal executive departments highlighted in boldface capital letters.

Volume III contains a comprehensive index of all administrative rules appearing in the 1979 edition of the *Michigan Administrative Code.* Detailed index entries are arranged alphabetically under general subject matter headings and under principal executive department headings. Cross-references are liberally employed to aid the reader and to minimize unnecessary repetition of entries.

The 1979 edition of the *Michigan Administrative Code* will be updated each calendar quarter with the publication of a paperback supplement. This quarterly supplement will contain the full text of all permanent rules promulgated during the current quarter, together with notices of emergency rules promulgated during the same period.

In addition to quarterly supplements, an annual supplement will be published each year containing those permanent rules which previously appeared in the 4 quarterly supplements covering that calendar year. This annual supplement will also contain line references to all other permanent rules promulgated since the publication of the 1979 edition of the Code.

Both quarterly and annual supplements to the *Michigan Administrative Code* are published pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the *Michigan Compiled Laws.*

To the People of the State of Michigan, who enact the laws pursuant to which the administrative rules of Michigan are promulgated, these volumes are respectfully dedicated.

Herbert A. Finnegan
Legal Editor

DEPARTMENT OF COMMERCE

MICHIGAN TRAVEL COMMISSION

GRANT AWARDS

(By authority conferred on the Michigan travel commission by section 3 of Act No. 106 of the Public Acts of 1945, as amended, being §2.103 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 2.101 Definitions; A to C.

Rule 1. (1) "Act" means Act No. 106 of the Public Acts of 1945, as amended, being §2.101 et seq. of the Michigan Compiled Laws.

(2) "Bureau" means the travel bureau created by section 2a of the act.

(3) "Business" or "business meeting" means a business or corporate meeting which requires overnight accommodations.

(4) "City and surrounding area" means a city and the surrounding urbanized area if the city is located within an urbanized area as defined by the United States department of commerce, bureau of the census, in the 1970 census of population, number of inhabitants, Michigan issue, July, 1971. Copies of this document are available from the bureau at cost and from the United States department of commerce, bureau of the census. It also means a city and the county in which the city is located if the city is not located within an urbanized area.

(5) "Commission" means the Michigan travel commission created by section 2 of the act.

(6) "Convention" means a meeting sponsored by an organization for the express purpose of providing the membership of the organization with the opportunity to conduct the business of the organization or to discuss common problems or subjects of interest to the membership, including social, religious, economic, political, and other problems and subjects. A meeting for groups of less than 50 attendees, or a meeting which does not require overnight accommodations for a majority of attendees, is not considered to be a convention.

(7) "Convention bureau" means an organization in Michigan which has been created for the primary purpose of attracting conventions and business meetings to the area which it serves and which:

(a) Has, through itself, or through its parent organization, a voluntary board of directors or similar governing body representing a broad cross section of the area it serves.

(b) Is chartered, or is part of a parent organization which is chartered, as a nonprofit corporation under the laws of this state.

(c) Has a separate treasury and financial accounting system.

(d) Is not an organization normally considered as a trade association representing a particular segment of business, labor, or industry.

History: 1954 ACS 88, p. 5, Eff. Aug. 18, 1976.

R 2.102 Definitions; D to N.

Rule 2. (1) "Department" means the department of commerce.

(2) "Director" means director of the travel bureau.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

(3) "Eligible agency" means an organization eligible to receive a grant or other assistance authorized by the act. The expression "eligible agencies" means the same thing that the expression "eligible agencies and authorities" means as that expression is used in the act.

(4) "Local funds" means funds which originate from local sources. State and federal general revenue sharing funds that a local government unit may give to an eligible agency are local funds. Funds received by a local agency which are derived from a federal or state grant program are not local funds. Interest income and other funds received as payment for specific special services are not local funds. Funds derived from accommodation taxes are not considered to be local funds for the awarding of grants for the state's fiscal year of 1977-78 and thereafter.

(5) "New employee" means an employee who has not been employed more than 1,500 hours during the 12 months preceding the date of hiring by the agency claiming that person as a new employee.

History: 1954 ACS 88, p. 6, Eff. Aug. 18, 1976.

R 2.103 Definitions; P to S.

Rule 3. (1) "Program grant" means a grant which is made to provide continuing basic support of advertising and promotional efforts designed to encourage travel for the purposes of resort and recreational tourism, business meetings, and conventions, as well as sightseeing and entertainment. The expression "program grant" means the same thing that the expression "basic support grant" means as that expression is used in the act.

(2) "Regional tourist association" means the east Michigan tourist association, the west Michigan tourist association, the Upper Peninsula travel and recreation association, or the southeast Michigan travel and tourist association.

(3) "Special grant of local funds" means local funds received by an eligible agency which are not expected to be received from year to year on an ongoing basis.

(4) "Special program grant" means a discretionary grant which may be made to an eligible applicant for a travel development and marketing project based upon the extent of the anticipated impact of the project, upon employment, economic stability, and real per capita income. The expression "special program grant" means the same thing that the expression "discretionary grant" means as that expression is used in the act.

History: 1954 ACS 88, p. 6, Eff. Aug. 18, 1976.

PART 2. PROGRAM GRANTS

R 2.111 General purpose.

Rule 11. (1) The general purpose of the program grants is to enhance the economic viability of the state through development, improvement, and promotion of the travel, tourism, and convention industry of the state. This purpose is achieved by providing eligible agencies with continuing support of advertising and promotional efforts designed to encourage travel for purposes of resort and recreational tourism, business and conventions and sightseeing and entertainment. This purpose is further achieved by maximizing coordination between the programs of the bureau and grant recipients.

(2) Specific goals and objectives of the program grants, which are within the context of the general purpose and guidelines of the commission, may be delineated and publicly announced by the bureau from time to time as necessary.

History: 1954 ACS 88, p. 6, Eff. Aug. 18, 1976.

R 2.112 Application; contents; staff assistance.

Rule 12. (1) The bureau shall provide application forms to potential applicants on request and shall announce annually the date by which completed applications shall be submitted to the director.

(2) The application for a program grant shall be on the form provided by the bureau and shall include the following information:

(a) A description of the applicant's overall program plan for the period during which the grant is to be used.

(b) A detailed description of how the grant funds are to be spent.

(c) A description of the applicant's budget and programs during the year prior to that for which the grant is sought.

(d) Such other information and supporting documentation as the bureau may deem necessary to enable it to assess eligibility and to determine the amount of the grant.

(3) The bureau staff may provide assistance to an applicant in complying with the requirements of the act and these rules.

History: 1954 ACS 88, p. 7, Eff. Aug. 18, 1976.

R 2.113 Eligible agencies.

Rule 13. (1) A program grant or part of a program grant shall not be awarded or disbursed to an applicant until such time as the applicant is an eligible agency.

(2) Regional tourist associations and convention bureaus which meet the other criteria of this rule are eligible agencies for program grants.

(3) In order to qualify for a program grant, an otherwise eligible agency shall demonstrate to the bureau that it has at least the minimum level of local support determined by the bureau to be necessary to effectively carry out the purposes of the program grants. This necessary level of local support shall be announced annually by the bureau for fiscal years subsequent to 1977-78, except that this level shall not be less than $30,000.00 in local funds and any funds derived from accommodation taxes and at least 2 full-time employees paid from local funds and any funds derived from accommodation taxes for its most recent fiscal year.

(4) In order to qualify for a program grant for the state's fiscal year of 1976-77, an otherwise eligible agency shall demonstrate to the bureau a minimum level of local support of at least $25,000.00 in local funds and any funds derived from accommodation taxes and at least 1 full-time employee paid from local funds and any funds derived from accommodation taxes for its most recent fiscal year.

(5) In order to qualify for a program grant for the state's fiscal year of 1977-78, an otherwise eligible agency shall demonstrate to the bureau a minimum level of local support of at least $30,000.00 in local funds and any funds derived from accommodation taxes and at least 2 full-time employees paid from local funds and any funds derived from accommodation taxes for its most recent fiscal year.

(6) Program grants shall not be available to agencies during their initial year of operation.

(7) Program grants may only be awarded to 1 convention bureau within any 1 city and surrounding area. Where 2 or more convention bureaus within a city and surrounding area meet all eligibility requirements, program grants shall be awarded to the convention bureau found by the bureau to be best able to carry out the purposes of the program grants. In making this determination, the bureau shall consider the amount of local funding support, the number of delegates attracted to non-state conventions in previous years, and the extent to which the competing convention bureaus represent the broad interests of the areas they serve.

History: 1954 ACS 88, p. 7, Eff. Aug. 18, 1976.

R 2.114 Evaluation and awarding of grants.

Rule 14. (1) The bureau shall review and evaluate the applications for program grants, and the director shall award the grants not later than the first day of the second month of the state fiscal year, or 30 days after the appropriations bill for the present fiscal year is signed into law, whichever is later. Ninety percent of the total amount of each grant shall be immediately paid to grant recipients. The remaining 10% shall be withheld by the bureau until grant recipients have complied with the reporting requirements of the bureau.

(2) If the bureau determines that the program of an otherwise eligible agency does not comply with the purpose of the program grants, as defined in R 2.111, funds shall not be paid to that agency until such time as the agency modifies its program to comply with the purpose of the program grants.

History: 1954 ACS 88, p. 7, Eff. Aug. 18, 1976.

R 2.115 Amount of grant.

Rule 15. (1) The regional tourist associations which qualify for program grants shall each receive equal amounts of the funds appropriated annually for regional tourist association program grants.

(2) Program grants for convention bureaus shall be awarded from funds appropriated annually for convention bureau program grants according to the following formula: a convention bureau which qualifies for a program grant shall receive an amount equal to the ratio of the sum of its local funds for its most recent fiscal year to the sum of all local funds for the most recent fiscal year of all convention bureaus which qualify for program grants. However, a convention bureau which qualifies according to this formula for more than 50% of the total funds appropriated shall receive not more than 50% of those funds; the difference shall be reallocated, according to the formula, to the other eligible convention bureaus.

History: 1954 ACS 88, p. 8, Eff. Aug. 18, 1976.

R 2.116 Eligible expenditures.

Rule 16. (1) Program grants may be used to fund the direct cost of advertising and promotional efforts designed to attract travel, tourism, and conventions to the state. Program grants may be used to fund the operating expenses of eligible agencies where those expenses are related to advertising and promotional efforts.

(2) Program grants shall only be used to fund eligible costs and expenditures arising during the state fiscal year for which grants are awarded.

(3) An amount up to, but not more than, $10,000.00, or 20% of the total amount of a program grant, whichever is greater, may be used to compensate new employees or an employee who was previously compensated with program grant funds for time spent working directly on eligible advertising and promotional efforts.

History: 1954 ACS 88, p. 8, Eff. Aug. 18, 1976.

R 2.117 Ineligible expenditures; guidelines.

Rule 17. (1) Program grants shall not be used for administrative expenses, office furniture or equipment, efforts to solicit other funds, or to compensate an officer or administrative employee.

(2) Program grants shall not be used to attract state conventions to a local area within the state or to attract a business meeting to a specific local area when the business meeting is typically held somewhere within the state.

(3) Program grants shall not be used to promote within the state a specific state area in direct competition with another state area.

(4) Program grants shall not be used to promote a specific area for a specific convention or business meeting in direct competition with another area within the state.

(5) Guidelines as to what constitutes direct competition for the purpose of this rule shall be developed by the bureau for the approval of the commission.

History: 1954 ACS 88, p. 8, Eff. Aug. 18, 1976.

R 2.118 Conditions under which funds shall be repaid or reduced.

Rule 18. (1) All program grant funds received by an agency shall be expended or encumbered by the last day of the state's fiscal year during which the grant was awarded. Program grant funds not expended or encumbered by this date shall be returned to the bureau. Encumbered funds shall be expended by the thirtieth day of the state's next fiscal year or shall be returned to the bureau.

(2) If the actual amount of local funds received by a grant recipient in its most recent fiscal year is less than the amount of local funds specified in the agency's application, the agency shall reimburse the bureau in the amount of the difference between the amount of local funds specified in the application and the actual amount of local funds received, up to the total amount of the program grant.

(3) If the total amount of income from local funds and any funds derived from accommodation taxes received by a grant recipient in its most recent fiscal year is less than 80% of the average total amount of income from local funds and any funds derived from accommodation taxes for the grant recipient's 3 fiscal years which immediately precede its most recent fiscal year, or fiscal years immediately preceding its most recent fiscal year if the agency has not completed 3 preceding fiscal years, the agency shall reimburse the bureau in the amount of the difference between the 80% level and the actual amount of income from local funds and any funds derived from accommodation taxes up to the total amount of the program grant.

(4) If an agency has already completed its most recent fiscal year and has its final financial records for that fiscal year available prior to the time an application is sent to the bureau, the amount by which the actual amount of income received from local funds and any funds derived from accommodation taxes is less than the 80% level shall be subtracted from the amount of the program grant that the eligible agency would otherwise be awarded. The amount subtracted shall be distributed among the other eligible agencies according to the formulas of R 2.115, exclusive of the reimbursing agency.

(5) An eligible agency may request that a special grant of local funds, which it received during one of its previous fiscal years, be excluded from the determination of the 80% level. The bureau shall make this exclusion only if the eligible agency previously excluded the amount of this grant from the total amount of local funds specified in the eligible agency's application for a program grant.

(6) If an eligible agency falls below the requirements of R 2.113(3), (4), or (5), the total amount of the program grant shall be reimbursed to the bureau.

(7) An expenditure of program grant funds for ineligible expenditures, or an expenditure determined by the bureau to be unauthorized by the act or these rules, shall be reimbursed to the bureau.

(8) An agency shall reimburse the bureau within 30 days of the receipt of written notification from the director that the reimbursement is required in accordance with this rule.

History: 1954 ACS 88, p. 8, Eff. Aug. 18, 1976.

R 2.119 Reallocation of reimbursed funds.

Rule 19. Funds reimbursed to the bureau under R 2.118 during the state fiscal year during which the funds were originally awarded shall be reallocated within 15 days to other eligible agencies according to the formulas of R 2.115, exclusive of the reimbursing agency.

History: 1954 ACS 88, p. 9, Eff. Aug. 18, 1976.

R 2.120 Reporting requirements and guidelines; change in use of funds.

Rule 20. (1) A copy of the grant recipient's annual audit shall be sent to the bureau not more than 30 days after the grant recipient's audit is completed.

(2) The bureau shall develop, in consultation with the commission, reporting requirements and guidelines within the context of these rules in order to insure that the information necessary to evaluate the use and impact of the program grants is obtained, and to insure that the requirements of the rules are complied with by program grant recipients. These reporting requirements and guidelines shall be transmitted to all grant recipients at the time a grant is awarded.

(3) A major change in the use of program grant funds after a grant is awarded shall be approved by the bureau prior to further expenditure of grant funds.

History: 1954 ACS 88, p. 9, Eff. Aug. 18, 1976.

PART 3. SPECIAL PROGRAM GRANTS

R 2.131 General purpose.

Rule 31. The general purpose of the special program grants is to fund travel development and marketing projects to increase the positive impact of travel, tourism, and the convention industry on the employment, economic stability, and increase in real per capita income of the state.

History: 1954 ACS 88, p. 9, Eff. Aug. 18, 1976.

R 2.132 Specific purposes.

Rule 32. (1) Specific purposes to be achieved by the special program grants, in terms of specific goals and objectives, may be delineated by the bureau from time to time as necessary.

(2) Specific goals and objectives announced by the bureau shall follow the policy of the commission regarding marketing, promotion, and advertising strategies, as well as travel promotion development priorities.

(3) Specific goals and objectives shall maximize coordination among programs of the bureau and grant recipients, and shall minimize competition among the programs of grant recipients.

(4) The bureau shall publicly announce any specific purpose to be achieved by the special program grants.

History: 1954 ACS 88, p. 9, Eff. Aug. 18, 1976.

R 2.133 Application; contents; staff assistance.

Rule 33. (1) The bureau shall provide application forms to potential applicants on request, and shall announce annually the date or dates by which completed applications shall be submitted to the director.

(2) The application for a special program grant shall be on the form provided by the bureau, and shall include the following information:

(a) A detailed description of the program or project for which a grant is requested, including a statement of how the proposed program or project relates to an ongoing travel, tourism, or convention program and its long-range goals and objectives.

(b) The amount of the grant requested and a detailed description of how it is to be spent.

(c) A proposed plan for evaluating the impact of the program or project for which a grant is requested.

(d) Such other information and supporting documentation as the bureau may deem necessary to enable it to assess the merit and feasibility of grant proposals.

(3) Bureau staff may provide assistance to an applicant in complying with the requirements of the act and these rules.

History: 1954 ACS 68, p. 10, Eff. Aug. 18, 1976.

R 2.134 Eligible agencies.

Rule 34. (1) A special program grant or part of a special program grant shall not be awarded or disbursed to an applicant until such time as the applicant is an eligible agency.

(2) Regional tourist associations, convention bureaus, local and regional public agencies, and private nonprofit agencies within the state which meet the other criteria of this rule are eligible agencies for special program grants.

(3) Otherwise eligible agencies shall have governing bodies which can demonstrate to the bureau their support of, and commitment to, an ongoing long-range travel, tourism, or convention program.

(4) Otherwise eligible agencies shall have governing bodies which can demonstrate to the bureau their support for the program or project for which a special program grant is sought.

(5) Otherwise eligible agencies shall demonstrate to the bureau that they have sufficient local funds to assure the successful completion of the program or project if a special program grant is awarded.

History: 1954 ACS 68, p. 10, Eff. Aug. 18, 1976.

R 2.135 Evaluation and awarding of grants.

Rule 35. (1) Special program grants shall be awarded on the basis of the positive impact expected on employment, economic stability, and real per capita income.

(2) The bureau shall review and evaluate the applications for special program grants, and the director shall award special program grants only for those programs or projects which clearly meet the requirements of these rules for eligible programs. The bureau may advise eligible agencies in making such revisions in their applications and proposed programs as may be appropriate and necessary to assure compliance with the requirements of these rules.

(3) During a state fiscal year for which funds are appropriated for special program grants, the grants shall be awarded on those dates which the director deems appropriate. Not more than 50% of the total funds available for special program grants for the state fiscal year shall be awarded during the first 6 months of that fiscal year.

(4) Payment of grants shall be made in accordance with a schedule worked out between the bureau and grant recipients, except that 10% of each grant may be withheld by the bureau until the recipient complies with the reporting requirements of these rules.

History: 1954 ACS 68, p. 10, Eff. Aug. 18, 1976.

R 2.136 Amount of grant.

Rule 36. (1) The amount of a special program grant award may be less, but may not be more, than the amount requested by an eligible agency. The amount

of the grant shall be determined by the bureau, based on the requirements of the proposed project or program and based also upon the expected positive impact on employment, economic stability, and real per capita income.

(2) No more than 25% of the total funds appropriated for special program grants in a state fiscal year may be awarded for any one program or project or to any one eligible agency.

History: 1954 ACS 88, p. 10, Eff. Aug. 18, 1976.

R 2.137 Eligible expenditures.

Rule 37. (1) Special program grants shall be used to fund the direct cost of programs and projects of travel product development and marketing which have a direct positive impact on employment, economic stability, and real per capita income.

(2) Special program grants shall only be used to fund a program or project which is consistent with the bureau's ongoing travel, tourism, or convention programs and its long-range goals and objectives.

(3) Appropriate travel development projects include:

(a) Feasibility, financial analysis, or environmental impact studies where such studies are likely to result in the development of a new or substantially improved travel product, or where such studies are necessary in order to secure financing or final approval for such a product.

(b) Development and start-up costs for new festivals and special events.

(c) Capital expenditures, including costs of facility construction and remodeling, where some type of local or state matching funds are needed to secure additional construction funds and at least ½ of the matching funds are provided from other sources.

(d) Other special travel product development, marketing, promotion, and advertising programs and projects which carry out the purposes of the act and these rules.

(4) Special program grants may be used to compensate new employees, other than officers or administrative employees, for time spent working directly on the program or project for which a special program grant was awarded.

History: 1954 ACS 88, p. 11, Eff. Aug. 18, 1976.

R 2.138 Ineligible expenditures.

Rule 38. (1) Special program grants shall not be used for administrative expenses, office furniture or equipment, efforts to solicit other funds, or to compensate an officer or administrative employee.

(2) Special program grants shall not be used to attract state conventions to a local area within the state, or to attract a business meeting to a specific local area when the business meeting is typically held somewhere else within the state.

(3) Special program grants shall not be used to promote within the state a specific state area in direct competition with another state area.

(4) Special program grants shall not be used to promote a specific area for a specific convention or business meeting in direct competition with another area within the state.

(5) Guidelines as to what constitutes direct competition for the purposes of this rule shall be developed by the bureau for the approval of the commission.

History: 1954 ACS 88, p. 11, Eff. Aug. 18, 1976.

R 2.139 Reimbursement of funds.

Rule 39. (1) An expenditure of special program grant funds for ineligible expenditures, or any expenditures determined by the bureau to be unauthorized by the act or these rules, shall be reimbursed to the bureau.

(2) An agency shall reimburse the bureau within 30 days of the receipt of written notification from the director that the reimbursement is required in accordance with this rule.

History: 1954 ACS 88, p. 11, Eff. Aug. 18, 1976.

R 2.140 Reporting requirements; change in use of funds.

Rule 40. (1) A copy of the grant recipient's annual audit shall be sent to the bureau not more than 30 days after the grant recipient's audit is completed.

(2) Each grant recipient shall provide the bureau with interim progress and financial reports in accordance with a schedule worked out between the grant recipient and the bureau. The report shall detail progress and expenditures made to date in the project or program for which a grant was awarded and contain such other documentation as may be requested by the bureau in order to determine compliance with the act and these rules.

(3) Not more than 45 days after the completion of a program or project for which a special program grant was awarded, the grant recipient shall provide the bureau with a final written report which includes:

(a) An itemized program expenditure statement, with a detailed explanation of how the grant funds were used.

(b) A description and evaluation of the program's impact on employment, economic stability, and real per capita income.

(c) Other information as may be requested by the bureau in order to determine compliance with the act and these rules.

(4) A major change in the use of special program grant funds after a grant is awarded shall be approved by the bureau prior to further expenditure of grant funds.

DEPARTMENT OF STATE

PROCEDURE FOR CONDUCTING HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 11.1 Definitions.

Rule 1. The term "secretary of state" as used in these rules shall be deemed to mean:

(a) The secretary of state or the deputy secretary of state.

(b) Any employee of the department of state charged by law with conducting hearings.

(c) Any employee of the department of state authorized by the secretary of state to conduct any hearing or hearings.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.2 Notice of hearing.

Rule 2. Notification of any hearing before the secretary of state will be by registered mail, and will state the date, time, place, issues involved and reasons for holding said hearing. Such notice will be mailed at least 10 days prior to said hearing. Unless indicated otherwise, all hearings will be held in the office of the secretary of state, State Capitol, Lansing, Michigan.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.3 Appearance.

Rule 3. When an appearance is made at a hearing, it shall be made either in person or by a duly authorized representative, or by counsel.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.4 Answer; oral statement on charges; written briefs or arguments.

Rule 4. The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral statement on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served upon the secretary of state and opposite parties at least 5 days prior to the date set for the hearing.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.5 Failure to appear at hearing.

Rule 5. If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the secretary of state may proceed with a hearing of the cases brought before him and may, on the evidence presented, make his decision.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.6 Statement of facts.

Rule 6. Any person who requests a hearing, shall submit in writing a full and accurate statement of facts upon which his request is made to the secretary of

state and to all interested parties and such statement of facts shall be accepted in evidence.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.7 Adjournment or continuance of hearing.

Rule 7. No hearing shall be adjourned or continued, except upon order of the secretary of state or his agent conducting the hearing. All motions and requests for an adjournment, or continuance, shall be accompanied by a statement of the reasons therefor. No motion or request for an adjournment or continuance will be considered unless same is filed with the secretary of state at least 5 days prior to the date assigned for the hearing, except that the secretary of state or his agent may accept such request during a hearing or may waive the 5-day notification if proper showing is made that for reasons not within the control of the person or parties making the motion or request, the motion or request could not be filed within such time limit.

History: 1944 ACS 37, p. 31; 1954 AC, p. 201.

R 11.8 Stipulations.

Rule 8. The parties to any hearing before the secretary of state, may, by stipulation in writing, filed with the secretary of state, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence on the hearing. Parties are requested to thus agree upon the facts whenever practicable.

History: 1944 ACS 37, p. 31; 1954 AC, p. 202.

R 11.9 Depositions.

Rule 9. Depositions shall only be taken upon written authority of the secretary of state when it appears to the secretary of state that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being Michigan Statutes Annotated, Section 27.854, et seq., with all parties given an opportunity to cross-examine the witness under oath.

History: 1944 ACS 37, p. 31; 1954 AC, p. 202.

PROCEDURE FOR CONDUCTING HEARINGS HELD BY LICENSE APPEAL BOARD

R 11.51—R 11.55 Rescinded.

History: 1954 ACS 7, pp. 21, 22, Eff. Aug. 14, 1956; 1954 ACS 89, p. 5, Eff. Nov. 3, 1976.

BUREAU OF ACCIDENT CLAIMS

ASSIGNED CLAIMS PLAN

(By authority conferred on the secretary of state by section 3171 of Act No. 218 of the Public Acts of 1956, as amended, being §500.3171 of the Michigan Compiled Laws)

R 11.101 Definitions.

Rule 1. As used in these rules:

(a) "Act" means chapter 31 of Act No. 218 of the Public Acts of 1956, as amended, being §§500.3101 to 500.3179 of the Michigan Compiled Laws.

Digitized by Google Original from UNIVERSITY OF MICHIGAN

(b) "Assigned claims facility" means the facility organized and maintained by the secretary of state to carry out the assigned claims function set forth in the act.

(c) "Claimant" means a person entitled to claim because of accidental bodily injury arising out of the ownership, operation, maintenance, or use of a motor vehicle as a motor vehicle in this state.

(d) "Department" means the department of state.

(e) "Insurer" means an insurance company, the assigned claims facility, or a self-insurer obligated to pay benefits to persons eligible under sections 3114 and 3172 of the act, which benefits are subject to repayment under section 3177 of the act.

(f) "Repayment" means an amount due to the assigned claims facility by virtue of benefits paid either directly or indirectly by the facility to a person for bodily injury suffered in an accident.

(g) "Self-insurer" means a person certified by the secretary of state pursuant to section 531 of Act No. 300 of the Public Acts of 1949, being §257.531 of the Michigan Compiled Laws.

(h) "Servicing insurer" means an insurer or self-insurer designated to service an assigned claim under the assigned claims plan.

History: 1954 ACS 81, p. 5, Eff. Nov. 13, 1974; 1954 ACS 99, p. 5, Eff. Apr. 25, 1979.

R 11.102 Assigned claims facility.

Rule 2. The secretary of state shall create an assigned claims facility in the department for the purpose of accepting application for personal protection benefits, assigning claims to servicing insurers, assessing fees from member insurers and self-insurers, and performing other duties under the act.

History: 1954 ACS 81, p. 5, Eff. Nov. 13, 1974; 1954 ACS 99, p. 5, Eff. Apr. 25, 1979.

R 11.103 Selection of servicing insurers.

Rule 3. (1) The secretary of state shall designate a sufficient number of insurers to participate as servicing insurers for the assigned claims plan. Servicing insurers are responsible for the payment or other lawful disposition of claims as assigned to them by the assigned claims facility.

(2) Periodically the secretary of state shall review the servicing insurer membership and the volume of claims assigned to ascertain any defects in the administration or operation of the assigned claims plan for the purpose of formulating and implementing changes in the basis for designating servicing insurers or assigning claims.

History: 1954 ACS 81, p. 5, Eff. Nov. 13, 1974; 1954 ACS 99, p. 5, Eff. Apr. 25, 1979.

R 11.104 Claimant eligibility.

Rule 4. A person suffering from accidental bodily injury resulting from the ownership, operation, maintenance, or use of a motor vehicle in this state may apply for personal protection benefits from the assigned claims facility in any of the following cases:

(a) A personal protection insurance is not applicable to the injury.

(b) A personal protection insurance applicable to the injury cannot be identified.

(c) The only identifiable personal protection insurance applicable to the injury is inadequate to provide maximum benefits prescribed because of the financial inability of 1 or more insurers to fulfill their obligation.

History: 1954 ACS 81, p. 5, Eff. Nov. 13, 1974; 1954 ACS 99, p. 5, Eff. Apr. 25, 1979.

R 11.105 Defaulting insurer liability.

Rule 5. The assigned claims facility or a servicing insurer to which a claim is assigned is entitled to repayment from a defaulting insurer for unpaid benefits due.

History: 1954 ACS 81, p. 5, Eff. Nov. 13, 1974; 1954 ACS 99, p. 6, Eff. Apr. 25, 1979.

R 11.106 Application for personal protection benefits.

Rule 6. (1) A claimant shall make application for basic personal protection reparation benefits from the assigned claims facility as soon as practicable, but in any event not more than 1 year after an accident.

(2) Application shall be made upon a form prescribed by the secretary of state. Application forms are available upon request from a member insurer or secretary of state branch office.

(3) The application form shall be completed in full, signed by the claimant, accompanied by available documentation of loss, and submitted to the Assigned Claims Facility, Department of State, Lansing, Michigan 48918. If the claimant is a minor, the application shall be signed by a parent or legal guardian.

History: 1954 ACS 81, p. 5, Eff. Nov. 13, 1974; 1954 ACS 99, p. 6, Eff. Apr. 25, 1979.

R 11.107 Documentation of loss.

Rule 7. (1) Application for a claim shall be accompanied by documentation of loss, if available, and the amount of loss sustained. Documentation of loss, if available at the time of application, shall include a copy of the police report of the accident, a medical examination report, medical bills, work loss verification, and additional information as required by the assigned claims facility or servicing insurer.

(2) A medical examination report shall include the date of examination, probable cause and diagnosis of injury, treatment and prescribed medication, prognosis and probable date the patient may return to work where applicable, and signature, name, address and professional designation of the person furnishing the medical services or preparing the medical report.

(3) A medical bill shall contain an itemized list of dates and services rendered or medication supplied with charges. The bill shall contain identifying information of the person or organization furnishing the services or medication.

(4) An application for survivor's benefits shall be accompanied by a copy of the death certificate of the deceased person.

(5) If the claimant is eligible for benefits because of being engaged full time in a formal program of academic or vocational education or training, a letter from the school registrar, or other appropriate person, verifying enrollment is required. The letter shall be required at the beginning of each term, or at 6-month intervals, whichever is more frequent. The letter shall be sent to the assigned claims facility or the servicing insurer, whichever is applicable.

History: 1954 ACS 81, p. 6, Eff. Nov. 13, 1974; 1954 ACS 99, p. 6, Eff. Apr. 25, 1979.

R 11.108 Assignment of claims.

Rule 8. (1) Upon receipt of an application for basic personal protection reparation benefits, the assigned claims facility shall make an initial determination of the claimant's eligibility for benefits.

(2) An obviously ineligible claim received by the assigned claims facility shall be denied summarily. The claimant shall be notified promptly in writing of the denial and the reasons therefor.

(3) An eligible claim shall be assigned promptly by the assigned claims facility to a servicing insurer. The facility shall notify the claimant of the identity and address of the servicing *insurer to which the claim is* assigned.

(4) In assigning claims, the assigned claims facility shall consider the resources of the servicing insurer relative to the claim and the convenience for the claimant.

History: 1954 ACS 81, p. 6, Eff. Nov. 13, 1974; 1954 ACS 99, p. 6, Eff. Apr. 25, 1979.

R 11.109 Payment for loss.

Rule 9. (1) Upon receipt of an application for a claim from the assigned claims facility, the servicing insurer shall investigate the claim expeditiously and make prompt payment for loss within the time prescribed by the act.

(2) Interest due for late payment of a claim shall be paid by the servicing insurer to which the claim is assigned. A servicing insurer shall not be reimbursed for the amount of interest paid.

(3) A servicing insurer may require an additional medical examination of a claimant. Failure of a claimant to comply with the request may be cause for denial of benefits.

(4) Payment for allowable expenses incurred shall be made pursuant to section 3112 of the act.

(5) Payment for work loss shall be made to the claimant pursuant to section 3112 of the act. Written verification from an employer may be required by a servicing insurer prior to payment.

(6) Payment for survivor's loss benefits shall be made to the surviving spouse or eligible dependents pursuant to section 3112 of the act. If there is no surviving spouse, benefits for a minor shall be paid to a guardian appointed by a court of competent jurisdiction. A certified copy of guardian appointment may be required by a servicing insurer prior to payment.

History: 1954 ACS 81, p. 6, Eff. Nov. 13, 1974; 1954 ACS 99, p. 6, Eff. Apr. 25, 1979.

R 11.110 Indemnity rights.

Rule 10. A servicing insurer to which a claim has been assigned shall preserve and enforce rights to indemnity or reimbursement from third parties, including the securing of a judgment against an uninsured vehicle owner or registrant or the estate of the owner or registrant. These rights shall be assigned to the assigned claims facility at the time the servicing insurer closes the claim and transmits the claim records to the assigned claims facility.

History: 1954 ACS 81, p. 7, Eff. Nov. 13, 1974; 1954 ACS 99, p. 7, Eff. Apr. 25, 1979.

R 11.111 Claim records.

Rule 11. (1) Assigned claim records are open for inspection by a representative of the secretary of state, both as to claim handling and claim and expense payments. The secretary of state shall prepare an inspection report. A copy of the report shall be furnished to the servicing insurer and the commissioner of insurance.

(2) Deviations from acceptable claim handling practices shall be corrected upon receipt of the report. Excessive expense payments or items not covered under the act shall be charged to the servicing insurer in addition to its assessment at the next annual assessment.

(3) A servicing insurer shall transmit to the assigned claims facility the complete claim records when benefits are paid and the claim is closed. Claim records shall be retained by the assigned claims facility for not less than 3 years.

History: 1954 ACS 81, p. 7, Eff. Nov. 13, 1974; 1954 ACS 99, p. 7, Eff. Apr. 25, 1979.

R 11.112 Assessment of member insurers.

Rule 12. The assigned claims facility shall assess each member insurer and self-insurer an annual fee for the purpose of allocating among member insurers

Digitized by Google

annual expenses and claim payments incurred in the administration of the assigned claims plan based upon the reasonable expenses and claim payments incurred by servicing insurers and the assigned claims facility.

History: 1954 ACS 81, p. 7, Eff. Nov. 13, 1974; 1954 ACS 99, p. 7, Eff. Apr. 25, 1979.

R 11.113 Statement of expenditures.

Rule 13. Prior to March 1 of each year, a servicing insurer shall submit to the assigned claims facility a statement of expenses and claim payments incurred in administration and payment of claims assigned to it by the assigned claims facility. The statement shall contain an itemized list of assigned claims, personal protection reparation benefits paid, allocated expenses, and such other information and documentation as the secretary of state requires.

History: 1954 ACS 81, p. 7, Eff. Nov. 13, 1974; 1954 ACS 99, p. 7, Eff. Apr. 25, 1979.

R 11.114 Assessment formula.

Rule 14. (1) After determination of the total amount of each year's assessment, the assigned claims facility shall collect that amount from member insurers and self-insurers in the following manner:

(a) Each member insurer and self-insurer shall be charged a basic annual assessment of $20.00. The aggregate of the $20.00 basic fee shall be subtracted from the total amount to be assessed before the calculation of the amounts in subdivisions (b) and (c).

(b) Each self-insurer's portion of the total assessment shall be determined by multiplying the total assessment by a fraction of the numerator of which is the number of motor vehicles the self-insurer has self-insured and the denominator the total number of motor vehicles registered in the state.

(c) After subtracting the amounts in subdivisions (a) and (b), the balance of the assessment shall be paid by member insurers in proportion of their direct written premiums in this state for motor vehicle liability and personal protection insurance as reported by the commissioner of insurance for the most recent year for which they are available.

(2) Payment for benefits and expenditures approved by the assigned claims facility shall be deducted from the assessment of a servicing insurer. If payments from claims and expenses exceed the assessment, the assigned claims facility shall reimburse the servicing insurer for the balance of costs incurred.

History: 1954 ACS 81, p. 7, Eff. Nov. 13, 1974; 1954 ACS 99, p. 7, Eff. Apr. 25, 1979.

R 11.115 Collection of assessment fees.

Rule 15. (1) The assigned claims facility shall prepare and send to each member insurer and self-insurer an assessment bill. The bill shall be accompanied by an annual financial statement of the assigned claims plan.

(2) Assessment fees shall be paid within 30 days of billing.

(3) An insurer who fails to pay an assessment within 30 days shall be reported as delinquent to the commissioner of insurance.

History: 1954 ACS 81, p. 8, Eff. Nov. 13, 1974; 1954 ACS 99, p. 8, Eff. Apr. 25, 1979.

R 11.116 Repayments.

Rule 16. When obtained by the assigned claims facility, a judgment for repayment shall be forwarded to the state treasurer for collection. The costs associated with collection may be interaccounted by the state treasurer to the assigned claims facility.

History: 1954 ACS 99, p. 8, Eff. *Apr. 25, 1979.*

DEPARTMENT OF ATTORNEY GENERAL

CHARITABLE TRUST DIVISION

R 14.1—R 14.5 Rescinded.

History: 1954 ACS 37, pp. 5-7, Eff. Feb. 14, 1964; rescinded 1954 ACS 47, p. 6, Eff. Aug. 14, 1966.

CHARITABLE TRUSTS

(By authority conferred on the department of the attorney general by sections 6, 7, and 10 of Act No. 101 of the Public Acts of 1961, as amended, and section 52 of Act No. 380 of the Public Acts of 1965, being §§14.256, 14.257, 14.260, and 16.152 of the Michigan Compiled Laws)

R 14.11 Enforcement of rules.

Rule 1. These rules shall be enforced by the attorney general and his representatives to protect the interests of the people of this state in the administration, operation and disposition of the assets of all charitable trusts in this state.

History: 1954 ACS 47, p. 5, Eff. Aug. 14, 1966.

R 14.12 Registration statements.

Rule 2. A trustee subject to Act No. 101 of the Public Acts of 1961, as amended, within 2 months after receiving possession or control of property for charitable purposes, shall file with the attorney general a registration statement on a form which shall be supplied by the attorney general on request. Such trustee shall also file with the attorney general a copy of the instrument providing for its title, powers or duties and an inventory of the assets of the charitable trust.

History: 1954 ACS 47, p. 5, Eff. Aug. 14, 1966.

R 14.13 Annual reports.

Rule 3. (1) A trustee of a charitable trust subject to Act No. 101 of the Public Acts of 1961, as amended, which solicits money from the public, within 6 months after the close of its fiscal year, shall file with the attorney general a copy of its certified audit report for such year, containing a balance sheet, a statement of receipts and disbursements, and a list of assets including securities held. In lieu of a certified audit report, such a trustee may file its sworn statement setting forth such information in accordance with the form prescribed by the attorney general.

(2) A trustee, except a trustee of a charitable trust which solicits money from the public, subject to Act No. 101 of the Public Acts of 1961, as amended, shall file with the attorney general annual periodic written reports, in accordance with the form prescribed by the attorney general. A copy of the account filed in any court having jurisdiction of the charitable trust, if the account is substantially the same as such form, may be filed as an annual periodic report.

(3) The first annual periodic report of a charitable trust shall cover the first calendar or fiscal year ending after the trust became subject to such act. The first annual periodic report shall be due on or before the expiration of 6 months after the close of the first calendar year or fiscal year after the trust became subject to the act. Thereafter, subsequent annual periodic reports shall be due on or before the expiration of 6 months after the close of the charitable trust calendar or fiscal year.

(4) A charitable trust required to file annual periodic written reports with the attorney general may file in lieu thereof an audit certified as being true and correct and in accordance with generally accepted accounting principles by a certified public accountant and containing substantially the information required on the annual periodic report form of the attorney general.

(5) A statement indicating whether or not a creator of the trust or a contributor to the trust or a trustee, in his individual capacity, or a person related either by consanguinity or by affinity to such creator, contributor or trustee, has entered into any transaction involving the purchase, sale, transfer or loan of any of the trust's assets, shall accompany the annual periodic report.

(6) Complete details regarding all transactions in which a trustee, employees of a trustee, or persons related to a trustee, or related to employees of a trustee, either by consanguinity or by affinity, have personally benefitted from operating and management of the trust or received any part of the income or corpus of the trust, other than the normal and reasonable trustee fee, shall be disclosed in a statement accompanying the report.

History: 1954 ACS 47, p. 5, Eff. Aug. 14, 1966.

R 14.14 Suspension of annual reports.

Rule 4. A trustee of a charitable trust may be granted a suspension from the requirement of filing annual periodic reports on written application supported by good and sufficient reasons. If a suspension is granted, reports may be required on the happening of specified events or contingencies or at stipulated future report dates. Ordinarily a suspension will not be granted when reports on the operation of the charitable trust are required to be made to a court or to other governmental agencies.

History: 1954 ACS 47, p. 6, Eff. Aug. 14, 1966.

R 14.15 Investigations.

Rule 5. Either the attorney general or an assistant attorney general designated by the attorney general may hear information under oath and receive books, memoranda, papers, documents of title and evidence of assets, liabilities, receipts or disbursements produced pursuant to an order of the attorney general issued by the attorney general as provided by the act.

History: 1954 ACS 47, p. 6, Eff. Aug. 14, 1966.

R 14.16 Inspection of records.

Rule 6. The charitable trust register, copies of instruments and the reports filed with the attorney general shall be available for inspection during regular business hours at the charitable trust division of the office of the attorney general in Lansing, Michigan, subject to the following requirements:

(a) An individual desiring to inspect the register, copies of instruments and the reports filed with the attorney general shall submit a request in writing setting forth his name, address and indicating his interest in the charitable trust records desired to be reviewed. If such request is approved by the attorney general, the authorized review of the register, copies of instruments and reports filed with the attorney general shall be made in the presence of the attorney general or his representative.

(b) If the charitable trust is to be used for both private and charitable purposes, only those portions of the documents pertaining to charitable purposes, and only if such charitable purposes have matured and come into being, shall be available for public inspection.

History: 1954 ACS 47, p. 6, Eff. Aug. 14, 1966.

R 14.17 Repeal.

Rule 7. Sections 1 to 5 of the rules relating to charitable trusts, being R 14.1 to R 14.5 of the Michigan Administrative Code, and appearing on pages 2757 to 2759 of the 1963 Annual Supplement to the Code, are repealed.

History: 1954 ACS 47, p. 6, Eff. Aug. 14, 1966.

CONSUMER PROTECTION DIVISION

GENERAL RULES

(By authority conferred on the attorney general by section 3 of Act No. 331 of the Public Acts of 1976, being §445.903 of the Michigan Compiled Laws)

R 14.51 Definitions.

Rule 1. As used in these rules:

(a) "Act" means the Michigan consumer protection act.

(b) "Attorney general" means the elected attorney general or an assistant attorney general.

History: 1954 ACS 93, p. 5, Eff. Nov. 5, 1977.

R 14.52 Consumer protection division; enforcement and administration of act; location; assistant attorney general in charge; powers and duties; investigative agent.

Rule 2. (1) The Michigan consumer protection act shall be regularly enforced and administered by the department of attorney general, consumer protection division, or such other division of the department as from time to time is authorized by the attorney general.

(2) The consumer protection division is located at the Law Building, Lansing, Michigan 48913.

(3) The consumer protection division shall be headed by the assistant attorney general in charge thereof as appointed by the attorney general, which assistant in charge shall have the care, custody, and control of the files and records of the division. In addition, the assistant attorney general in charge shall administer the act and approve all applications for subpoenas, initiation of investigations, commencement and disposition of actions, acceptance of assurances of discontinuances, and promulgation of rules pursuant to the consumer protection act. In the absence of, or when designated by, the assistant in charge, the first assistant attorney general of the consumer protection division may act in the place of the assistant in charge. The assistant in charge is hereby authorized to delegate to such persons within the division such other duties, functions, and responsibilities under the act as he determines from time to time to be appropriate.

(4) Any investigative agent of the attorney general, prosecuting attorney, or any person selected by the officers described in sections 17 to 21 of the act have authority and power to serve a subpoena or other process.

History: 1954 ACS 93, p. 5, Eff. Nov. 5, 1977.

R 14.53 Notice of intended action; "positive action to cease and desist" defined.

Rule 3. (1) Unless otherwise waived by the court upon good cause shown, the attorney general shall 10 days prior to the commencement of an action under section 5 of the act, serve a notice of intended action upon the person or persons named therein which shall advise the person or persons:

(a) Of the opportunity to confer with the attorney general in person or by other authorized representative or a stated member of the staff, or

(b) Of the opportunity to cease and desist or take positive action to cease and desist from the alleged unlawful methods, acts, or practice, and,

(c) That an action is about to be commenced against the person or persons named in the notice.

(2) The 10-day period shall begin to run from the time the person or persons receive the notice.

(3) A notice may be served upon a person either personally or by certified mail, return receipt requested.

(4) A notice shall be followed by either the commencement of an action, an assurance of discontinuance, or a determination of no cause for action.

(5) For the purposes of this rule, "Positive action to cease and desist" means that the person to whom the notice is directed shall immediately upon receipt begin a course of conduct leading to the complete and total cessation of the alleged methods, acts, and practices; and, in fact, such cessation actually occurs within a reasonable period of time.

History: 1954 ACS 93, p. 5, Eff. Nov. 5, 1977.

R 14.54 Investigation; subpoena; confidentiality of information; disclosure; copies of documents and reported testimony; representation by counsel of person compelled to appear; investigative agent; powers and duties; "investigative agent" defined.

Rule 4. (1) Investigations of a violation of the act may be initiated by the attorney general, or by other governmental agencies or persons specified in sections 15, 17, 18, 19, 20, and 21 of the act.

(2) Any person may request the attorney general to institute an investigation in respect to any matter over which the attorney general has jurisdiction. Such request may be in the form of a signed statement setting forth the alleged violation of the act with such supporting information as is available and the name and address of the person or persons complained of. No forms or formal procedures are required. A complaint from the public may also be treated by the attorney general as a request for an investigation.

(3) The attorney general or prosecuting attorney may make an application for a subpoena in aid of an investigation under the act.

(4) The receipt of testimony or documentary material pursuant to a subpoena is hereby designated as an investigational proceeding, which shall be either electronically or stenographically recorded or identified in case of documentary material.

(5) All information obtained as the result of a subpoena shall be confidential to the office of the attorney general or prosecuting attorney. A request for disclosure by such persons as are authorized access thereto shall be in writing setting forth the description of the information sought, the persons to whom it relates, and the use to which it will be put. The attorney general or prosecuting attorney may decline access upon determination that disclosure is not in the public interest. Upon a determination that the information may be disclosed to such authorized persons, the attorney general or prosecuting attorney may require that the actual costs of reproduction thereof be borne by the person seeking access. An order of the court of competent jurisdiction requiring access and disclosure shall be presumed to be in the public interest.

(6) Upon determination by the attorney general that disclosure to an authorized person is appropriate under the act, the attorney general shall notify the person who supplied the information or materials pursuant to a subpoena of the identity of the person seeking the *information and materials*, and that it shall be disclosed

to that person 10 days from the date of the notice. The notice shall be given by certified mail, return receipt requested.

(7) Any person compelled to produce documentary material or to testify in response to a subpoena may retain or, on payment of prescribed costs of copying, procure a copy of any document submitted by him and of his own testimony as reported.

(8) Any person compelled to appear in person may be accompanied, represented, and advised by counsel as follows:

(a) The counsel for a person shall file with the attorney general an appearance setting forth that the attorney is representing that person.

(b) Counsel for a person may advise his client, in confidence and upon the initiative of either himself or the person, with respect to any question asked of the person, that the person refuse to answer a question. Then counsel may briefly state on the record that he has advised the person not to answer the question and the legal grounds for such refusal.

(c) Where it is claimed that the testimony or other evidence sought from a person is outside the scope of the subpoena or investigation, or that the person is privileged to refuse to answer the question or to produce other evidence, counsel for the person may object on the record to the question or requirement and may state briefly and precisely the grounds therefor.

(d) Following the completion of an examination of a person, the person may on the record be given an opportunity to clarify answers which may need clarification, in order that they may not be left equivocal or incomplete.

(9) For the purposes of conducting an investigation pursuant to section 7 of the act, an investigative agent of the attorney general is hereby authorized to administer oaths and affirmations and conduct investigations, including taking of testimony and receiving documentary material produced by a person.

(10) An "investigative agent" means a regular civil service employee appointed by the attorney general as an investigator whose duties, functions, and responsibilities include the investigation of any civil or criminal law.

History: 1954 ACS 93, p. 6, Eff. Nov. 5, 1977.

R 14.55 Assurance of discontinuance.

Rule 5. (1) When the attorney general or prosecuting attorney has information indicating that a person or persons may have engaged, are engaging, or are about to engage in a method, act, or practice which may involve violation of the act, and if he deems the public interest shall be fully safeguarded thereby, may afford such person or persons the opportunity to negotiate informally an assurance of discontinuance.

(2) In determining whether the public interest shall be safeguarded by such assurance, the attorney general or prosecuting attorney shall consider:

(a) The nature and gravity of the alleged violation.

(b) The prior record and good faith of the parties involved.

(c) Other factors, including, where appropriate, adequate assurance of voluntary compliance.

(3) An assurance of discontinuance is accepted and final upon signing by the attorney general or prosecuting attorney.

(a) It shall include:

(i) A description of the methods, acts, and practices which a person agrees to permanently discontinue.

(ii) A reference to the provisions of the act or these rules as are applicable.

(iii) A statement that the person does not admit any issue of law or fact.

(b) In addition, the assurance may include:

(i) An agreement to pay the costs of investigation.

(ii) An agreement to hold in escrow an amount pending the outcome of litigation.

(iii) An agreement for an amount of restitution to an aggrieved person.

(4) An assurance may not be introduced in any other proceeding brought by a person other than the parties to the assurance who may introduce it in a proceeding to modify its terms or to enforce its terms in whole or in part.

History: 1954 ACS 93, p. 7, Eff. Nov. 5, 1977.

R 14.56 Prosecuting attorney; powers and duties.

Rule 6. A prosecuting attorney may initiate and conduct investigations, make ex parte application to the circuit court for a subpoena, and seek such relief as provided in sections 5, 6, 7, 8, 10, and 15 of the act in the same manner and subject to the same restrictions as the attorney general, provided:

(a) Prior to making the application for the subpoena, or the filing of an action, the prosecutor gives to the attorney general 15 days' notice that he, the prosecutor, intends to make such an application or file an action. The 15-day notice may be waived by the attorney general.

(b) The notice shall contain:

(i) The identity of the person or persons against whom the action is to be commenced or the subpoena is to be served or enforced.

(ii) A description of the alleged violation of the act or these rules.

(iii) A brief statement of the relief to be sought.

(iv) If known, a statement of any past or pending actions or subpoenas brought or served against such person under the act.

(c) A legal action shall not be commenced with respect to any course of action taken in good faith reliance upon the ruling, where all relevant facts were fully, completely, and accurately presented to the attorney general.

History: 1954 ACS 93, p. 7, Eff. Nov. 5, 1977.

R 14.57 Declaratory ruling.

Rule 7. (1) Any person may request a ruling from the attorney general as specified in section 63 of Act No. 306 of the Public Acts of 1969, being §24.263 of the Michigan Compiled Laws, with respect to a course of action to determine whether the action is in compliance with the act or these rules. It is the policy of the attorney general to consider such requests and, where practical, make such a ruling. A request for a ruling shall ordinarily be considered inappropriate where:

(a) The same, or substantially the same, course of action is under investigation or is, or has been, the subject of a current action, order, judgment, or decree initiated or obtained by the attorney general, a prosecuting attorney, or another governmental agency.

(b) The course of action, or its effects, may be such that an informed decision thereon cannot be made or could be made only after extensive investigation, clinical study, testing, or collateral inquiry.

(2) A request for a ruling shall be submitted in writing to the attorney general and include full and complete information regarding the course of action. Citations of legal authority supporting the theory or position of the requester may accompany the request.

(3) Any ruling given is without prejudice to the right of the attorney general to reconsider the questions involved, and where the public interest requires, to prospectively change the ruling. *Sixty days' notice of* prospective change shall be

given to the requester so that the person may discontinue the course of action taken in reliance upon the ruling.

History: 1954 ACS 93, p. 7, Eff. Nov. 5, 1977.

R 14.58 Request for evidence of facts on which claims made to consumers are based.

Rule 8. To implement section 5(2) of the act, in connection with a determination to issue a notice of intended action or initiation of an investigation pursuant to a determination of violation of a provision of the act or these rules, the attorney general or a prosecuting attorney may make written request to a person doing business in Michigan, or in whose behalf claims are made to consumers in Michigan, to provide to the attorney general or prosecuting attorney making the request evidence of the facts on which such claims are based, if such claims:

(a) Purport to be based on factual, objective, or clinical evidence, or that

(b) Compare that product's or service's characteristics, ingredients, uses, benefits, effectiveness, price, or safety to that of other products or services, except to the extent such claims are statements of opinion.

History: 1954 ACS 93, p. 8, Eff. Nov. 5, 1977.

R 14.59 Complaint.

Rule 9. (1) Any person may complain to the attorney general or prosecuting attorney, alleging an actual or suspected violation of the act or these rules. The complaint shall be in writing on the form prescribed or approved by the attorney general. A person, upon signing the complaint, verifies that the facts set forth therein are true to the best of his information, knowledge, and belief.

(2) A complaint form shall include:

(a) The name, address, telephone number, and zip code of the complainant and respondent.

(b) A space for the identification of the subject matter of the complaint, by violation code number.

(c) A space for the identification of the respondent, by standard industrial classification number.

(d) A space for the identification of the property or services involved, by a standard keyword.

(e) The name and address of the agency receiving the complaint.

(3) A complaint, or a record thereof, filed with a prosecuting attorney shall be promptly duplicated and a copy shall be forwarded to the attorney general, consumer protection division.

(4) A complaint filed with a prosecuting attorney shall be a public record and be open for inspection in the same manner as public records of the attorney general and as provided in these rules.

History: 1954 ACS 93, p. 8, Eff. Nov. 5, 1977.

R 14.60 Publication of information; subscription; fees; waiver.

Rule 10. (1) The consumer protection division shall publish, on a subscription basis, the following information:

(a) Rules promulgated pursuant to the act.

(b) Copies of final judgments rendered under the act, provided to the division by clerks of the courts pursuant to section 12(1) of the act.

(c) Assurances of discontinuance.

(d) Declaratory rulings rendered by the attorney general.

(e) Forms prescribed by the attorney general.

(2) A person desiring to subscribe to the information set forth in subrule (1) shall forward to the consumer protection division a written request therefor setting forth therein the material to which subscription is sought, and accompanying the request a fee in the appropriate amount, which fee shall be determined by reference to subrule (3). The division shall determine the correctness of the fee and may advise the person as to the correct fee. Failure to pay the correct fee shall be sufficient grounds to reject the request for subscription.

(3) The following fees shall be paid by a person annually:

(a) One of the items in subrule (1)	$ 25.00
(b) Two of the items in subrule (1)	$ 50.00
(c) Three of the items in subrule (1)	$ 75.00
(d) Four of the items in subrule (1)	$100.00
(e) All material described in subrule (1)	$125.00

History: 1954 ACS 93, p. 8, Eff. Nov. 5, 1977.

R 14.61 Investigation by regulatory board or officer.

Rule 11. (1) Whenever a regulatory board or officer identified in sections 17 to 21 of the act proposes to conduct an investigation, requiring the use of a subpoena to be issued under the act, of a method, act, or practice for which the board or officer has probable cause to believe there is a violation of the act or a rule promulgated thereunder, the regulatory board or officer shall:

(a) File with the attorney general an application therefor, stating in substance:

(i) The person or persons to be subpoenaed.

(ii) A reasonably precise description of the documentary material to be produced.

(iii) A reasonably precise description of the method, act, or practice to be investigated.

(iv) The pertinent provisions of the act or rule which the method, act, or practice violates.

(v) What steps have been taken to secure the recordation or transcription of testimony taken and who shall bear the costs thereof.

(vi) What safeguards shall be undertaken to keep confidential any documentary material or information obtained, describing what procedures shall be followed to prevent such material or information from being disclosed to any other person than the board or officer or the attorney general.

(b) Designate from among the staff of the board or officers an investigating officer or officers who shall be in charge of conducting the investigation pursuant to the subpoena.

(c) Take such steps and procure, if necessary, such devices to secure from public inspection or copying any material or information obtained under subpoena, except as otherwise provided in section 7(6) of Act No. 331 of the Public Acts of 1976, being §445.907(6) of the Michigan Compiled Laws.

(2) A regulatory board or officer specified in sections 17 to 21 of Act No. 331 of the Public Acts of 1976 shall not disclose any documentary material or information to any person, unless consented to by the attorney general.

(3) Upon conclusion of an investigation, the regulatory board or officer specified in sections 17 to 21 of Act No. 331 of the Public Acts of 1976 shall make a full report to the attorney general, which report shall contain as a minimum:

(a) The identity of the person or persons investigated.

(b) A summary of the information obtained, or in lieu thereof, complete and legible copies of all transcriptions, reports, and documentary material.

(c) A concise statement *of any alleged violations* of the act, together with a

reference to any support therefor, found in any testimony or documentary material.

(d) A concise statement of a proposed course of action.

(e) Recommendation for action.

History: 1954 ACS 93, p. 9, Eff. Nov. 5, 1977.

R 14.62 Public records.

Rule 12. (1) All records compiled, received, or maintained by the consumer protection division are public records, except those otherwise exempt pursuant to Act No. 331 of the Public Acts of 1976 and Act No. 442 of the Public Acts of 1976.

(2) Upon submitting an oral or written request which describes the record sufficiently to enable the appropriate staff member of the attorney general to find the record, a person has the right to inspect, copy, or receive copies of the record.

(3) A person may subscribe to future issuances of public records which are issued on a regular basis. A subscription shall be valid for 6 months and shall be renewable.

(4) Records may be inspected during regular office hours at a place designated by the attorney general, which shall, as far as possible, be convenient to the person who wishes to inspect the record.

(5) Where a request to inspect a public record is made, the attorney general may, with consent of the party requesting the record, provide the person with a copy of the record without charge in lieu of providing a place for inspection. Where a person requests 1 or more copies of a public record and the cost of providing copies is substantial, a reasonable fee may be imposed, but such fee shall not exceed the maximum charges allowable by section 4 of Act No. 442 of the Public Acts of 1976, being §15.234 of the Michigan Compiled Laws.

(6) Where more than 1 person wishes to inspect the same public record at the same time, the attorney general may limit the number of persons who may inspect the record at 1 time to a reasonable number.

(7) A person inspecting a record shall not write anything upon the record nor fold nor mutilate it. Violation of this requirement shall subject a person to criminal penalties imposed by section 491 of Act No. 328 of the Public Acts of 1931, as amended, being §750.491 of the Michigan Compiled Laws.

(8) A person inspecting a public record shall promptly return the record to the custodian after completion of the inspection.

History: 1954 ACS 93, p. 9, Eff. Nov. 5, 1977.

PRICING AND ADVERTISING OF CONSUMER ITEMS

(By authority conferred on the attorney general by section 9(6) of Act No. 449 of the Public Acts of 1976, being §445.359(6) of the Michigan Compiled Laws)

R 14.201 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 449 of the Public Acts of 1976, being §445.351 et seq. of the Michigan Compiled Laws.

(b) "Clearance sale" means an offer by a person to sell all offered in-stock consumer items at a price reduced from that person's regular price if the person intends to sell out all such items during the advertised period of sale, but will nevertheless reorder the same or substantially similar items to be again sold by that person not less than 90 days after the reorder.

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(c) "Close out sale" means an offer by a person to sell offered in-stock consumer items at a price reduced from the person's regular price if consumer items will not be offered by that person again due to various factors, such as:

(i) The item is no longer manufactured.

(ii) The source of supply is out of business.

(iii) The person unilaterally refuses to carry the item.

(d) "Raincheck" means a written guarantee to deliver a specific consumer item.

(e) "Sale price" means a price offer for a consumer item appearing in advertising by use of the word "sale," or words of similar meaning, which suggest to a reader, listener, or viewer that the consumer item is being offered for purchase at a reduction in price, at a bargain price, or at a savings compared with some other person's or the advertiser's regular or customary higher price.

History: 1954 ACS 98, p. 5, Eff. Aug. 1, 1978.

R 14.202 Sale or reduced price advertisements; disclosures.

Rule 2. An offer of a consumer item, except baked goods, fresh fruit, and fresh vegetables as provided in section 5(4) of the act, for retail sale at a sale price, special price, or at a price reduced by an amount or proportion, by means of an advertisement disseminated in the trade area served by any of the advertisers' retail outlets covered by the advertisement, shall disclose clearly and conspicuously, in conjunction therewith, either of the following:

(a) The dates the consumer item is available for purchase.

(b) The numerical quantity available for each consumer item, and where there is a limitation on how many of the advertised consumer items may be purchased by any 1 person, a statement in numerical amount of how many a consumer may buy of each advertised consumer item.

History: 1954 ACS 98, p. 5, Eff. Aug. 1, 1978.

R 14.203 Disclosing exceptions, limitations, or restrictions; rainchecks and substitutions.

Rule 3. (1) If an advertisement does not state the quantity of a consumer item available, and the consumer item cannot be sold throughout the advertised period of sale, the advertisement shall disclose all the seller's exceptions, limitations, or restrictions with respect to stores, consumer items, or prices otherwise included in the advertisement, and the advertiser shall make available a raincheck which obligates the advertiser to deliver and sell to the consumer in possession of the raincheck the consumer item specified in the raincheck, at the advertised price stated in the raincheck, and at the future date stated in the raincheck, not in excess of 90 days, or at an earlier time upon notification to the consumer by the advertiser. After notification to the consumer is given, the advertiser may dispose of the item upon failure of the consumer to pick up the item in the time specified in section 5(2) of the act.

(2) An advertiser, instead of providing the consumer with a raincheck, may substitute for the unavailable advertised consumer item a similar consumer item of equal or greater monetary value. This rule does not modify a person's obligations under section 5(3) of the act.

(3) If an advertiser elects to substitute a consumer item of equal or greater monetary value because the advertiser is unable to redeem a raincheck due to the unavailability of the advertised consumer item, the advertiser may substitute either a similar item bearing a substantially equivalent regular price at the advertised lower price, or a similar item bearing a higher regular price at a price equal to the regular price of the higher-priced item, less the percentage reduction offered for the unavailable consumer item.

Example: An advertisement indicates a consumer item regularly sells for $50.00, but is on sale this week for only $30.00. The advertiser does not disclose the quantity available. The advertiser runs out of the advertised item during the period of sale and knows that the item cannot be obtained again to redeem a raincheck. The advertiser may then offer to a consumer either of the following substitute similar items:

(a) Another similar $50.00 item at $30.00.

(b) Another similar item regularly selling for $75.00 at a comparable savings or reduction in price; that is, 40% off or $45.00.

(4) An advertiser shall not limit the obligation to redeem a raincheck by including a date in a raincheck less than 90 days from the date of the raincheck. For example, a raincheck which provides for its redemption on or before a date less than 90 days thereafter is insufficient compliance with the act if the purpose of the earlier date is to evade compliance in the event the guarantee cannot be honored in the shorter time. An advertiser may, however, redeem the raincheck earlier than 90 days upon notification to the consumer.

(5) A raincheck shall contain, but not be limited to, the following:

(a) Space for a description of the unavailable item.

(b) Space for the price to be paid for the unavailable item of the consumer.

(c) Space for the signature or initials of a person authorizing the raincheck.

(6) The raincheck shall be executed in duplicate, 1 copy to be given to the consumer, the other to be retained by the merchant.

History: 1954 ACS 96, p. 5, Eff. Aug. 1, 1978.

R 14.204 Successive advertisements.

Rule 4. Where an advertiser disseminates successive advertisements, either to the same or different consumer groups, and each advertisement contains the disclosures required by section 5 of the act and these rules, the advertiser is not obligated to recount or redetermine the quantity of consumer items then remaining available for each successive advertisement if the advertiser clearly and conspicuously discloses that the consumer items advertised and available in the quantities stated are subject to prior sale due to previous advertising during prior periods of time, and states the date the advertising first appeared.

History: 1954 ACS 96, p. 6, Eff. Aug. 1, 1978.

R 14.205 Determination of violation.

Rule 5. In determining whether a violation of the act has occurred, the following shall be considered:

(a) All circumstances surrounding nondelivery of advertised consumer items which were actually ordered in quantities sufficient to meet, or are reasonably related to the intended response to, the advertisement, but were not delivered due to circumstances beyond the advertiser's control.

(b) All circumstances surrounding failure to make advertised consumer items conspicuously and readily available for sale at or below the advertised prices if the consumer items were not made available at those prices due to circumstances beyond the control of the advertiser. In such cases, the making available of a raincheck shall be considered; however, the mere existence of a "policy" to provide a raincheck, in and of itself, does not constitute compliance.

(c) Whether the advertiser instructed each of the advertiser's employees, agents, or servants of the existence of a raincheck; whether the advertiser required those persons to inform consumers of its availability; whether, upon learning of

the unavailability of a particular consumer item, the advertiser posted a notice, proximate to the location of the unavailable item, stating the procedure for obtaining a raincheck; and whether the advertiser posted, in a clear and conspicuous central location in the advertiser's store, a notice respecting the store's obligations to deliver a raincheck or substitute.

History: 1954 ACS 98, p. 6, Eff. Aug. 1, 1978.

R 14.206 Catalogs, media commercials, circulars, or newspaper inserts prepared prior to dissemination.

Rule 6. (1) When an advertiser prepares, or causes to be prepared, an advertisement in the form of a catalog, television or radio commercial, circular, or an insert to a newspaper, which advertisement must be printed or submitted not less than 10 days prior to its dissemination to the public, and the advertisement offers to sell consumer items at a sale price, a special price, or at a price reduced by an amount or proportion, and the consumer items are readily and conspicuously made available for sale at a price other than the advertised sale price, special price, or reduced price during the interim period between the time of printing and the dissemination of the advertisement to the public, the advertiser is not required to disclose in the advertisement the numeric quantity available if the advertiser:

(a) Clearly and conspicuously discloses the period of time the consumer items are available for sale.

(b) Makes available a raincheck to any person who seeks to purchase the consumer item during the advertised period of sale, or substitutes an equal or greater monetary value for the advertised item, if the consumer items are not intended to be liquidated as part of a clearance or close out sale, or a sale of similar import or meaning.

(2) Where the consumer items are not made readily and conspicuously available for sale during the interim period, the advertiser may, instead of subrule (1)(a) and (b) above, disclose the numeric quantity available at time of sale.

History: 1954 ACS 98, p. 7, Eff. Aug. 1, 1978.

R 14.207 Clearance and close out sales.

Rule 7. (1) In connection with advertising offering consumer items pursuant to either a clearance or close out sale, where the advertiser is, or will be, unable to either give a raincheck or substitute an item of equal or greater monetary value, the advertiser shall disclose the quantity on hand and available during a disclosed period of sale. However, where the sale is announced in an advertisement required to be produced not less than 10 days prior to publication, the numeric quantity to be disclosed is that amount on hand at the time of preparation of the advertisement if the sale items are in fact made readily and conspicuously available for sale during the interim period between preparation and publication and the advertisement discloses as of what date that numeric quantity was determined; but if the sale items are not made readily and conspicuously available during the interim period, then the numeric quantity stated in the advertisement shall be equal to the greater of those actually on hand at time of preparation of the advertisement or actually on hand at time of publication.

(2) In connection with a "clearance" or "close out" sale, an advertiser with more than 1 store, branch, or outlet participating in the sale shall make readily and conspicuously available in each store, branch, or outlet a reasonable number of each consumer item subject to the sale, unless a disclaimer, as provided in R 14.208(2)(a) or (b), is set forth.

History: 1954 ACS 98, p. 7, Eff. Aug. 1, 1978.

R 14.208 General and specific disclaimers; evasions of act or rules.

Rule 8. (1) General disclaimers in advertising relating to product availability shall not constitute compliance with the disclosure provisions of the act or these rules where the disclaimers, when used, are relied upon by a participating dealer or store to evade the obligations imposed by the act or these rules. Examples of such "general disclaimers" include the following:

(a) "Not all items available at all stores."

(b) "Available at most stores."

(c) "Available at participating stores."

(2) Specific disclaimers in advertising relating to consumer item availability only in certain stores are in compliance with the disclosure requirements of the act and these rules. Examples of a specific disclaimer include the following:

(a) "Available only at stores featuring delicatessen departments."

(b) "Available at the following participating stores: (name and address of each)."

(3) In determining whether a clearance or close out sale is used as a device to evade the act or these rules, the following criteria shall be considered:

(a) Whether the advertiser regularly or repeatedly uses the terms "clearance sale" or "close out sale" in connection with advertising of consumer items.

(b) Whether the advertiser has in fact made readily and conspicuously available for sale all of the consumer items offered as part of the clearance or close out sale.

(c) Whether the clearance or close out sale is merely a temporary reduction in prices, and there is an increase in prices on the same consumer items after the sale.

(d) Whether the advertiser has, prior to or during the sale, ordered or acquired all or part of the advertised consumer items, other than from existing inventory, for the purposes of the sale.

(e) Whether the advertiser has reordered the consumer items which are the subject of the sale for the purposes of replacing the inventory of sold items so as to make them available for sale within 90 days of the advertised clearance or close out sale.

(4) In order to avoid leading a consumer to believe, in connection with an advertisement disclosing numerical quantities where more than 1 store, outlet, or dealership is participating, that each store, outlet or dealership has in fact the numerical quantity listed for the consumer item, and in fact there is a variance in quantity among such store, outlets, or dealerships, the advertiser may do either of the following:

(a) Have readily and conspicuously available in each store, outlet, or dealership a reasonable number of each consumer item subject to the sale advertising.

(b) Provide to each store, outlet, or dealership a quantity of consumer items equal to the quantity disclosed for each item.

History: 1954 ACS 96, p. 7, Eff. Aug. 1, 1978.

R 14.209 Enforcement and administration of act and rules.

Rule 9. (1) The act and rules shall be enforced and administered by the department of attorney general, consumer protection division, or such other division of the department as from time to time is designated by the attorney general.

(2) The consumer protection division is located at the Law Building, Lansing, Michigan 48913.

History: 1954 ACS 96, p. 8, Eff. Aug. 1, 1978.

R 14.210 Assurance of discontinuance.

Rule 10. (1) When the attorney general or prosecuting attorney has information indicating that a person may have engaged, is engaging, or is about to engage in a method, act, or practice which may involve violation of the act, and if he deems the public interest shall be fully safeguarded thereby, the attorney general or prosecuting attorney may afford the person the opportunity to negotiate informally an assurance of discontinuance.

(2) In determining whether the public interest is safeguarded by an assurance of discontinuance, the attorney general shall consider:

(a) The nature and gravity of the alleged violation.

(b) The prior record and good faith of the parties involved.

(c) Other factors, including, where appropriate, adequate assurance of voluntary compliance.

(3) An assurance of discontinuance is accepted and final upon signing by the attorney general or prosecuting attorney.

(4) An assurance of discontinuance shall include:

(a) A description of the methods, acts, and practices which a person agrees to permanently discontinue.

(b) A reference to applicable provisions of the act or these rules.

(c) A statement that the person does not admit an issue of law or fact.

(5) An assurance of discontinuance may include:

(a) An agreement to pay the costs of investigation.

(b) An agreement to hold in escrow an amount pending the outcome of litigation.

(c) An agreement for an amount of restitution to an aggrieved person.

(6) An assurance of discontinuance shall not be introduced in a proceeding by a person other than a party to the assurance, who may introduce it in the proceeding to modify its terms or to enforce its terms in whole or in part.

History: 1954 ACS 96, p. 8, Eff. Aug. 1, 1978.

R 14.211 Declaratory ruling.

Rule 11. (1) A person may request a declaratory ruling from the attorney general as specified in section 63 of Act No. 306 of the Public Acts of 1969, being §24.263 of the Michigan Compiled Laws, with respect to determining whether a course of action is in compliance with the act or these rules. The attorney general shall consider the requests and, where practical, make a declaratory ruling. A request for a declaratory ruling is inappropriate where:

(a) The same, or substantially the same, course of action is under investigation, or is, or has been, the subject of a current action, order, judgment, or decree initiated or obtained by the attorney general.

(b) The course of action, or its effects, may be such that an informed decision thereon cannot be made, or can be made only after extensive investigation, clinical study, testing, or collateral inquiry.

(2) A request for declaratory ruling shall be submitted in writing to the attorney general, and shall include full and complete information regarding the course of action. Citations of legal authority supporting the theory or position of the requester may accompany the request.

(3) A declaratory ruling given by the attorney general is without prejudice to the right of the attorney general to reconsider the questions involved, and, where the public interest requires, to prospectively change the ruling. Sixty days' notice of a prospective change in a declaratory ruling shall be given to the requester so that a person may discontinue a course of action taken in reliance upon the ruling.

EXECUTIVE OFFICE

BOARD OF ETHICS

PRACTICE AND PROCEDURE

(By authority conferred on the board of ethics by section 6 of Act No. 196 of the Public Acts of 1973, being §15.346 of the Michigan Compiled Laws)

R 15.1 Definitions.

Rule 1. (1) "Act" means Act No. 196 of the Public Acts of 1973, being §§15.341 to 15.348 of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules.

(2) "Advisory opinion" means an opinion of the board concerning the possible unethical conduct of the person requesting the opinion or the possible unethical conduct of an employee or public officer working under the jurisdiction or supervision of the person requesting the opinion.

(3) "Complaint" means a written document charging a public officer or employee with a violation of the act.

(4) "Complaint decision" means a determination of unethical conduct by a public officer or employee made by the board on the complaint of a person or entity.

(5) "Executive secretary" means the person designated as such in accordance with subsection (3) of section 4 of the act.

History: 1954 ACS 93, p. 10, Eff. Nov. 15, 1977.

R 15.2 Complaints and answers.

Rule 2. (1) The complaint shall be in writing and acknowledged before a person authorized to administer oaths. The complainant shall certify that he has read the complaint and knows its contents, and that the same is true of his own knowledge, except as to those matters stated to be on the information and belief, and as to those, he believes them to be true.

(2) A complaint shall be filed at the board office with the executive secretary, who shall serve a copy of the complaint upon the person charged.

(3) Within 15 days after service of the complaint upon him, the respondent shall file his written verified answer with the executive secretary who shall serve a copy upon the complainant.

(4) Upon expiration of the time provided for answer, the executive secretary shall present the complaint and answer to the board for its consideration at its next scheduled meeting. Upon presentation of a complaint and answer, the board may direct the executive secretary or attorney general to make inquiry as to any factual allegations therein. The results of the inquiry are confidential until revealed by the board.

History: 1954 ACS 93, p. 10, Eff. Nov. 15, 1977.

R 15.3 Probable cause.

Rule 3. (1) At any time, the board may determine on its own initiative that it lacks jurisdiction or that there is no probable cause to believe that a violation has occurred or is occurring, and dismiss the complaint stating the reasons in its order. The executive secretary shall transmit copies of the dismissal order to the complainant, the respondent, and such other persons as the board directs.

(2) If the board determines that probable cause exists to believe that a violation has occurred or is occurring and that a substantial question of fact has been presented, it shall schedule a public hearing on the complaint.

History: 1954 ACS 93, p. 11, Eff. Nov. 15, 1977.

R 15.4 Notice of public hearing.

Rule 4. Not less than 30 days before the date of the public hearing, the executive secretary shall notify, by certified mail, the complainant, the respondent, the appointing authority of the respondent, and such other persons as the board may direct. The notice shall state the time, place, and date of the hearing and shall set forth:

(a) The provision of the act claimed to have been violated.

(b) The nature of the conduct alleged to constitute a violation.

(c) The name and position of the complainant.

(d) A statement that the hearing will be public, that the parties may be represented by counsel, that the parties may present witnesses, that all witnesses may be sworn and subjected to cross-examination and that the board may request the attendance of witnesses whose testimony, in the judgment of the board, will aid in the conduct of the investigation.

History: 1954 ACS 93, p. 11, Eff. Nov. 15, 1977.

R 15.5 Advisory opinions.

Rule 5. (1) A request for an advisory opinion shall be filed at the board office with the executive secretary who shall present it to the board for consideration at its next scheduled meeting. Requests for advisory opinions need not be verified.

(2) Upon presentation of a request, the board may direct the executive secretary or attorney general to make inquiry as to any information therein. The results of the inquiry are confidential until revealed by the board.

(3) At its discretion, the board may schedule a public hearing on a matter raised in a request for an advisory opinion.

History: 1954 ACS 93, p. 11, Eff. Nov. 15, 1977.

R 15.6 Investigations by the board.

Rule 6. (1) On its own initiative, the board may direct the executive secretary or request the attorney general to make an informal investigation of any practice that could affect ethical conduct of a public official or employee. The investigation and its results shall not be disclosed except to the board and the persons making the investigation shall take all actions reasonably necessary to maintain the confidentiality of the investigation.

(2) Upon completion of the investigation, if the board determines that there is reasonable cause to conclude that the practice could affect ethical conduct of a public officer or employee and that substantial factual matters are in dispute, it shall schedule a public hearing on the practice. The executive secretary shall send notices of the hearing to all those determined by the board to be parties in interest. If the board determines that there is no reasonable ground to conclude that the practice could affect ethical conduct, it shall terminate the investigation and the executive secretary shall give prompt written notice of the termination to all persons of whom inquiry was made. The board may issue a report of its actions.

History: 1954 ACS 93, p. 11, Eff. Nov. 15, 1977.

R 15.7 Hearings.

Rule 7. (1) Hearings may be held before the entire board, before 1 or more designated voting members of the board, or before a hearing officer designated to conduct the hearing. The chairman of the board, or in his absence the members of the board, shall appoint the hearing officer or presiding officer. A member of the board, a hearing officer, agent or employee of the board shall not have direct or indirect ex parte communication with any person in connection with any issue involved in a hearing except with other members of the board or its agents or employees.

(2) The presiding or hearing officer shall regulate the conduct of a hearing, administer oaths, request the attendance and testimony by witnesses and the production of books, papers, and other documentary evidence, fix the time and form for the submission of evidence or argument, and adjourn a hearing for good cause to such time, date, and place as he determines to be appropriate. The rules of evidence applicable in the courts of the state need not be applied strictly in any hearing. At the conclusion of the hearing, the presiding or hearing officer may request additional evidence or written argument concerning the subject matter to be submitted within such time and form as he directs. The additional evidence or argument shall be disclosed to all interested parties.

(3) The complainant, the person requesting an advisory opinion, or the attorney general, as determined by the board, shall have the burden of proving the alleged unethical conduct. The respondent shall have the right to be present, to be represented by counsel, to testify, to produce and examine witnesses, to cross-examine adverse witnesses, and to introduce such other evidence as may be material and relevant to the issues.

(4) All proceedings shall be recorded but need not be transcribed unless requested by the board or a party. The board shall determine the amount and source of payment for the transcript. The board shall prepare an official record of such hearing which shall include the notice of hearing, all documents considered by the board and may also include a transcript of evidence presented at the hearing.

History: 1954 ACS 93, p. 11, Eff. Nov. 15, 1977.

R 15.8 Complaint decisions and advisory opinions.

Rule 8. (1) If the board finds from a preponderance of the evidence that a violation of the act has occurred or is occurring, if the case was initiated by a complaint or by investigation of the board on its own initiative, the board shall issue a written complaint decision specifying its recommended action; or if the case was initiated by a request for an advisory opinion, the board shall issue an advisory opinion. The board shall transmit a copy of the complaint decision or advisory opinion to the person whose conduct is involved, to the appointing authority of the person whose conduct is involved, to the person requesting the advisory opinion, and to such other persons as the board deems appropriate.

(2) If the board finds that a violation of the act has not occurred or is not occurring, it shall issue an opinion to that effect and dismiss the complaint or terminate the investigation. The board shall transmit a copy of the advisory opinion and order of dismissal or termination to all parties and to such other persons as the board deems appropriate. After the determination and for the protection of individual rights, the executive secretary, at the direction of the board, shall suppress or expunge all records and files concerning any dismissed complaint or terminated investigation.

(3) The board shall publish its decisions and opinions, including dissents, and make them available for public inspection at its office and the state libraries.

History: 1954 ACS 93, p. 12, Eff. Nov. 15, 1977.

R 15.9 Meetings of board.

Rule 9. (1) The board shall hold regular meetings at least 4 times a year and such additional meetings as it deems necessary. All meetings of the board are open to the public except that the board may hold closed, deliberative sessions when, in the opinion of a majority of the board, it has reached the final deliberation stage of a proceeding based on a complaint, request for advisory opinion or investigation. In determining the propriety of a closed, deliberative session, the board shall consider whether the protection of individual rights is involved.

(2) The chairman shall preside at all meetings and in his absence the members of the board present at any meeting at which a quorum is present shall designate a temporary chairman to preside. The executive secretary shall record the minutes of all meetings and shall keep journals thereof. Minutes of closed, deliberative sessions shall be kept in a separate journal. The executive secretary shall distribute minutes of all public meetings to each member of the board and shall make them available to the public. The executive secretary shall stamp as confidential each page of minutes of closed, deliberative sessions and distribute them only to members of the board.

History: 1954 ACS 93, p. 12, Eff. Nov. 15, 1977.

R 15.10 Witnesses; fees.

Rule 10. Persons attending a meeting or hearing at the request of the board and any witness called by the respondent have the right to be accompanied and represented at all times by legal counsel. Witnesses called by the board are entitled to the fees allowed witnesses in the circuit court.

History: 1954 ACS 93, p. 12, Eff. Nov. 15, 1977.

DEPARTMENT OF MANAGEMENT AND BUDGET

FEDERAL SURPLUS PROPERTY PROGRAM

(By authority of Act No. 139 of the Public Acts of 1961, being §18.251 et seq. of the Michigan Compiled Laws)

DEFINITIONS

R 18.1 "Federal surplus property" defined.

Rule 1. "Federal surplus property" means personal and real property, including equipment, materials, supplies, land and buildings declared surplus by an agency of the federal government and donated to the state for distribution and utilization within the state in accordance with the federal act.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

R 18.2 "Federal surplus property section" defined.

Rule 2. "Federal surplus property section" means the organizational unit of the purchasing division of the state department of administration which has been designated to receive, warehouse and distribute federal surplus property for the state of Michigan.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

R 18.3 "Federal act" defined.

Rule 3. "Federal act" means the federal property and administrative services act of 1949, Public Law No. 152 of 1949, as amended.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

R 18.4 Eligible donees.

Rule 4. "Eligible donees"—Personal property may be acquired for educational purposes, including research, by tax supported school systems, schools, colleges or universities or nonprofit schools, colleges or universities. It may also be acquired for public health purposes, including research, by tax-supported or nonprofit medical institutions, hospitals, clinics, or health centers. Nonprofit institutions must be exempt from taxation under section 501(c)(3) of the 1954 Internal Revenue Code (or section 101(6) of the 1939 Internal Revenue Code). Personal property may also be acquired by civil defense organizations of political subdivisions and intrumentalities of a state which are established pursuant to state law. The act is specific with respect to the types of organizations which are eligible; types not mentioned above are not eligible to acquire federal surplus personal property through the donation program administered by the department of health, education and welfare.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

R 18.5 "D. H. E. W." defined.

Rule 5. "D. H. E. W." means the United States department of health, education and welfare.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

RULES

R 18.11 General.

Rule 1. All rules and regulations of the state are superseded by the rules and regulations as promulgated by the federal act.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

R 18.21 Eligibility.

Rule 2. (1) Health and educational institutions, requesting eligibility, shall contact the federal surplus property section, department of administration, Lansing, Michigan, for application forms:

(a) SASP Form #1 will be completed by the applicant for eligibility determination with eligibility questionnaire form SASP #19.

(b) SASP Form #1 will be completed by the applicant for eligibility determination with eligibility questionnaire form SASP #35.

(2) On the basis of the information submitted, the federal surplus property section will approve or disapprove the application, pursuant to the federal act. For borderline cases, the application will be forwarded to DHEW, who has the final authority for eligibility determination.

(3) Approved applicants will receive a certificate of eligibility with an identification card authorizing access to designated state warehouses for selection of surplus property.

(4) Civil defense organizations shall make application for certification of eligibility to the Michigan office of civil defense, Michigan state police, East Lansing, Michigan, on forms provided for this purpose. Upon notification of approval by the Michigan office of civil defense, the federal surplus property section will issue to the applicant, a certification of eligibility and an identification card authorizing access to designated state warehouse, for selection of surplus property.

History: 1954 ACS 38, p. 5, Eff. May 15, 1964.

R 18.31 Distribution of property.

Rule 3. Federal surplus property is secured by eligible donees, by selection at state surplus warehouses. The central warehouse is located at Jackson, Michigan, with regional warehouses at Cadillac and Escanaba, Michigan.

(a) Common-use items (handtools, furniture, hardware, textiles, office machines and supplies, etc.) shall be made available on a first-come, first-serve basis, within reasonable limits depending on the size and utilization possibilities of the applicant.

(b) Special equipment items (machine tools, motor vehicles, construction equipment, etc.) shall be made available on the basis of "want lists" of desired equipment which shall be submitted to the federal surplus property section in accordance with procedures established for this purpose. Available special equipment shall be distributed in chronological order according to date of receipt of the "want list". Emergency requests (due to fire, flood, tornado, disaster, etc.) will be given special consideration for "want list" property.

(c) Final authority. The federal surplus property section will make the final determination as to kind and quantity of personal property that may be received by health and educational eligibles, in accordance with the provisions of the federal act. Allocations to civil defense eligibles will be under the authority of the Michigan office of civil defense, Michigan state police.

(d) Removal. Donees receiving property are required to provide their own transportation in removing such property from the warehouses.

(e) Limitations. The federal surplus property section reserves the right to limit the quantity of articles available for each donee, where such limitation results in a fair and equitable distribution of property in limited supply.

History: 1954 ACS 38, p. 6, Eff. May 15, 1964.

R 18.41 Service charges.

Rule 4. Service charges for all personal property received by an eligible donee shall be reasonable and sufficient to cover all administrative expenses incurred by the federal surplus property section. The amount of such charges will be indicated on the articles or bins containing articles located at the distribution warehouses. Such service charges shall be paid by the donee within 60 days after the date of billing. Failure to pay service charges within 60 days shall be sufficient cause to refuse distribution of additional property to the donee, until settlement is made.

History: 1954 ACS 38, p. 6, Eff. May 15, 1964.

R 18.51 Eligible donee contract.

Rule 5. (1) At the time of property transfer, a "warehouse application and delivery agreement (W.A.D.A.)" form will be signed by the eligible donee. The W.A.D.A. states the terms and conditions applicable to all property donated.

(2) The basic terms and conditions are as follows:

(a) The eligible donee will not sell, trade, lease, or otherwise dispose of any federal surplus property, or remove same from its premises or from the state of Michigan without prior approval of the federal surplus property section.

(i) In accordance with the federal act, all property with an original government acquisition cost of $2,500.00 or more must be used for health or educational purposes for a period of 4 years. After the use restriction has been completed, the donee then has free and clear title to the property.

(ii) On items with an original government acquisition cost of less than $2,500.00 the use restriction is 2 years.

(iii) Rules and regulations regarding the use of government surplus donated for civil defense purposes are governed by the Michigan office of civil defense and the federal office of civil defense.

(b) All property acquired by the eligible donee shall be on an "as is, where is basis" without warranty of any kind.

(c) The eligible donee agrees to all terms and conditions governing the transfer of federal surplus property, as set forth on the original certificate of eligibility, and in accordance with the rules of the federal act.

(d) The donee certifies that funds are available to pay the cost of care and handling incident to donation, including packing and handling, preparation for shipment, loading and transporting of such property.

History: 1954 ACS 38, p. 6, Eff. May 15, 1964.

R 18.61 Utilization.

Rule 6. (1) In accordance with the federal act, the federal surplus property section will make periodic on-site inspections of property donated for health and educational purposes. If the property is not being used for an eligible purpose, corrective action will be taken by the federal surplus property section or the DHEW, or both, in accordance with the federal act.

(2) Civil defense donee utilization inspection will be conducted by the Michigan office of civil defense.

History: 1954 ACS 38, p. 7, Eff. May 15, 1964.

R 18.71 Real property.

Rule 7. (1) Real property may consist of land, land and buildings and appurtenant improvements; or buildings only, with or without accompanying and related personal property. It may be a portion or all of a surplus government installation.

(2) Real and related personal property may be acquired for educational use, or for use in the protection of public health, including research, by states and their political subdivisions and instrumentalities, by tax-supported institutions, and by nonprofit institutions which have been held exempt from taxation under section 101(6) of the 1939 Internal Revenue Code (or section 501(c)(3) of the 1954 Internal Revenue Code). Public libraries, water and sanitary units and vocational and medical rehabilitation centers may be eligible for real property.

(3) The federal surplus property section will receive real property offerings from DHEW on all available surplus real property located in the state of Michigan. At that time, all eligible donees in the area will be circularized relative to the availability of specific real property. All interested applicants should then notify, in writing, the federal surplus property section of their interest.

(4) Depending on the type of transfer, appropriate application formats will be given to all interested applicants. Upon completion of these applications, the federal surplus property section will forward the applications to DHEW.

(5) From this point forward, the federal surplus property section acts as a conduit for DHEW in carrying out the federal act with respect to real property. DHEW representatives are responsible under the federal act to make final determinations on all applications; and, DHEW executes the final transfer of title with the ultimate donee.

(6) All inquiries regarding real property transfers should be directed to the federal surplus property section.

History: 1954 ACS 38, p. 7, Eff. May 15, 1964.

OFFICE SERVICES DIVISION

MICROFILM STANDARDS

(By authority conferred on the department of administration by section 1 of Act No. 105 of the Public Acts of 1964 and section 102 of Act No. 380 of the Public Acts of 1965, being §§691.1101 and 16.202 of the Michigan Compiled Laws)

R 18.101 Scope.

Rule 1. (1) These rules establish minimum standards for microfilm recordings, processing, indexing and storage by all state agencies, political subdivisions and municipal courts of record.

(2) Cited throughout are standards approved by the American standards association. Copies of these standards are kept on file at the Department of Administration, Office Services Division, State Records Center, 3405 North Logan St., Lansing, Michigan. Copies of these standards are available from the American Standards Association, 10 East 40th St., New York 16, New York.

(3) Facilities are available at the records center to test the archival quality, density and resolution of processed microfilm.

History: 1954 ACS 47, p. 6, Eff. Aug. 14, 1968.

R 18.102 Definitions; A to D.

Rule 2. (1) Archival quality (archival standards) are standards of permanence for photographic films *established by the American* standards association. See

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

Digitized by Google Original from UNIVERSITY OF MICHIGAN

ASA PH 1.28. There are separate standards for raw film and for processed film. See ASA PH 4.8 for method of determining thiosulfate content.

(2) Blurred is not sharp or distinct; an indistinct or double-outlined image is blurred.

(3) Burn-in is the act of exposing sensitized material or the act of increasing the exposure of a specific area of a sensitized material.

(4) Camera is a photographic device, employing an optical system, used for exposing light sensitive material.

(5) Camera, planetary (flat-bed) is a type of microfilm camera in which the document being photographed and the film remain in a stationary position during the exposure.

(6) Camera, rotary (flow) is a type of microfilm camera that photographs documents while they are being moved by some form of transport mechanism. The document transport mechanism is connected to a film transport mechanism, and the film also moves during exposure so there is no relative movement between the film and the image of the document.

(7) Camera microfilm is the microfilm used to take the photograph of the document, and is also called first generation microfilm.

(8) Densitometer is an instrument used to measure the density of film images.

(9) Density is the light-absorbing quality of a photographic image (degree of opacity for film and blackness for prints), usually as the logarithm of the opacity.

History: 1954 ACS 47, p. 7, Eff. Aug. 14, 1966.

R 18.103 Definitions; F to P.

Rule 3. (1) Field is the area covered or "seen" by the lens of a camera.

(2) Fog—nonimage photographic density is a defect due to the action of stray light, improperly compounded processing solutions, or wrongly stored or outdated photographic materials.

(3) Humidity is the degree of wetness of the atmosphere. Absolute humidity is the weight of water vapor contained in a given volume of air, as grains per cubic foot.

(4) Hypo, residual is the amount of ammonium or sodium thiosulfate (fixer) that remains in film or paper after washing.

(5) Indexing film is a system using targets, flash cards, lines, or bars, etc., for locating information appearing on a reel of microfilm. It enables rapid location of the section of film which contains the desired image on the reel without the necessity of examining each image sequentially.

(6) Lens is 1 or more pieces of optical glass precisely ground for the purpose of directing light rays by refraction to form an image.

(7) Overexpose is to permit too much exposure of a photographic copy. This may be caused by too brilliant light, too large an aperture or too much exposure time.

(8) Overlap is a defect in which one image or document partially covers and obscures another. In planetary cameras, this is caused by improper pull-down setting, causing the images to overlap. In rotary cameras, overlap is caused by improper setting of the document stop or improper clutch adjustment.

(9) Processing is the chemical or physical treatment of exposed photographic material to make the latent image visible. A series of steps consisting of developing, fixing, washing and drying.

(10) Processor is any machine which performs the various operations necessary to process photographic material.

History: 1954 ACS 47, p. 7, Eff. Aug. 14, 1966.

R 18.104 Definitions; R to T.

Rule 4. (1) Reader is a projection device for viewing an enlarged microimage with the unaided eye.

(2) Reduction is a measure of the number of times a given linear dimension of an object is reduced when photographed, expressed as 16X, 24X, etc.

(3) Reduction ratio is the ratio of the linear measurement of a document to the linear measurement of the image of the same document expressed as 16:1, 24:1, etc.

(4) Residual thiosulfate (residual hypo) is ammonium or sodium thiosulfate (hypo) remaining on film or paper after washing. Since residual hypo has a deleterious effect and reduces permanence, careful control shall be maintained in processing to insure that permissible limits are not exceeded.

(5) Resolution is the ability to render visible fine detail of an object, a measure of sharpness of an image, expressed as the number of lines per millimeter, discernible in an image. Resolution in processed microfilm is a function of the film emulsion, exposure, camera lens, adjustment, camera vibration and film processing. Resolution is measured by examining a microfilmed resolution test chart under a microscope to determine the smallest pattern in which lines can be distinguished both horizontally and vertically.

(6) Safety film is a comparatively noninflammable film support (base) composed mainly of cellulose esters of acetic, propionic or butyric acids and which meets the ASA specifications for safety film. See ASA PH 1.28.

(7) Scratch is a linear abrasion which is considered a defect in film. Scratches in the base generally appear as black lines when observed in a reader, but they have a clear appearance, except for dirt accumulation, when observed with the unaided eye or with a viewer. Scratches in the emulsion may appear light when viewed on a reader, but may appear dark or clear when viewed with the unaided eye. Dark lines in the emulsion are caused by scratches occurring prior to developing, while clear lines are generally caused by scratches occurring after development.

(8) Splice is a joint made by cementing or welding (heat splice) 2 pieces of film or paper together so they will function as a single piece when passing through a camera, processing machine, projector or other apparatus. Cemented splices are called lap splices since 1 piece overlaps the other. Most welds are called butt splices since the 2 pieces are butted together without any overlap. Some butt splices also use tape.

(9) Target is a document or chart containing identification information, coding and test charts.

History: 1954 ACS 47, p. 7, Eff. Aug. 14, 1966.

R 18.105 Preparation of documents.

Rule 5. Before microfilming records the files should be complete and in proper order. If the records are in bound form, the bindings should be cut to eliminate the shadow caused by the middle crease in the book. If it is not possible to cut the binding then a book cradle should be used to keep the shadowing and distortion to a minimum.

History: 1954 ACS 47, p. 8, Eff. Aug. 14, 1966.

R 18.106 Cameras.

Rule 6. (1) A planetary camera shall be equipped with a lens capable of producing a minimum *resolution of 100 lines per millimeter*. A voltage regulator

Digitized by Google UNIVERSITY OF MICHIGAN

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

and lightmeter shall also be available to insure proper photography of various colored documents.

(2) A rotary camera shall be capable of producing a minimum resolution of 80 lines per millimeter. A rotary camera shall also be equipped with a voltage regulator to enable proper exposure of various documents.

History: 1954 ACS 47, p. 8, Eff. Aug. 4, 1966.

R 18.107 Microfilm.

Rule 7. (1) Raw microfilm shall meet with American standards association specifications PH 1.28, 1957 "Photographic Films for Permanent Records," or the latest revision. Film stock shall have the capacity to produce a minimum resolution of 125 lines per millimeter. Film stock shall be non-perforated, panchromatic and safety type microfilm.

(2) Microfilm shall have a density ranging from 0.9 to 1.2, except where the original document is faded or contains light pencil notes. A density of 0.9 to 1.2 may tend to "burn out" or overexpose the microfilm image. To prevent this, the density shall be decreased in the microrecording process to retain the image on microfilm.

(3) The national bureau of standards' resolution chart shall be used in determining the resolution of the microfilm. The microfilmed charts shall be examined with no less than a 40 power lens to determine the resolution. Microfilm exposed on a planetary camera shall have a minimum resolution of 100 lines per mm. On planetary camera microfilming charts shall be placed on all 4 corners and in the center of the photographic field. Microfilm exposed on a rotary camera shall have a minimum resolution of 80 lines per millimeter.

History: 1954 ACS 47, p. 8, Eff. Aug. 14, 1966.

R 18.108 Reduction ratio.

Rule 8. (1) Generally, the minimum reduction ratio is determined by the size of the original document and the size of the microfilm to be used. The 35mm microfilm is 1.25 inches wide and the 16mm microfilm is 0.590 inch wide. The formula for determining the minimum reduction ratio is as follows:

$$\text{Reduction ratio (R)} = \frac{\text{Original Size of Document (O)}}{\text{Image Size (I)}}$$

The dimensions used are the width of the original document (O) and the width of the microfilm for the image size (I).

Example: A 24" wide document is to be microfilmed on 35mm microfilm (35mm microfilm is 1.25 inches wide). The calculations are as follows:

$$\text{Reduction ratio (R)} = \frac{24''\ (O)}{1.25''\ (I)} = 19.2 \text{ minimum reduction ratio}$$

(2) The most popular reductions used are 24X and 40X. Letter size (8½ x 11) or legal size (8½ x 13) records are generally microfilmed at 24 to 1. Checks or warrants are generally microfilmed at 40 to 1 to enable the microfilming of the front and back of the checks simultaneously.

(3) There are 2 major factors that determine the reduction ratio on planetary cameras: the size of the document and the equipment on which the microfilm is to be used. The most popular reduction ratios for planetary cameras are 16X and 24X. Newspapers, books, land records and taxation records are generally filmed at 16X. Engineering drawings, maps and specifications are generally filmed at 24X.

History: 1954 ACS 47, p. 9, Eff. Aug. 14, 1966.

R 18.109 Image arrangement and splicing.

Rule 9. (1) The images on the film shall be arranged according to American standards association specification PH 5.3, 1958, "Specification for 16mm and 35mm Microfilms on Reel or in Strips," or the latest revision thereof.

(2) A splice made on roll microfilm shall be a butt splice or a tape splice. A cemented lap-splice shall not be used.

History: 1954 ACS 47, p. 9, Eff. Aug. 14, 1966.

R 18.110 Indexing.

Rule 10. Roll microfilm shall have the following identifying targets:

(a) A start target indicating start of the roll.

(b) A title target describing the records that are microfilmed on the roll. This target shall contain the name of the government unit responsible for the record, title of the record, roll number, reduction ratio, date microfilmed and the camera operator's name.

(c) Miscellaneous targets consisting of cards used to identify corrections, omissions, retakes and additions.

(d) An end target consisting of the last image on the film. It shall contain the word "END" and also state the first and last document on the roll of microfilm.

History: 1954 ACS 47, p. 9, Eff. Aug. 14, 1966.

R 18.111 Microfilm processing and inspection.

Rule 11. (1) Microfilm to be retained permanently shall be processed in accordance with the American standards association specification PH 4.8, 1958, "Thiosulfate Content of Processed Black and White Photographic Films and Plates," or the latest revision thereof.

(2) Microfilm shall be inspected for fogged, blurred, scratched or overlapped images. Improperly filmed records shall be refilmed and either spliced onto the roll of microfilm or indexed to another roll of microfilm. Documents microfilmed shall not be destroyed until the film has been inspected.

(3) Microfilm in storage should be inspected at least once a year for possible deterioration.

History: 1954 ACS 47, p. 9, Eff. Aug. 14, 1966.

R 18.112 Storage.

Rule 12. (1) Microfilm and microfilm reels shall be stored in accordance with the American standards association specification PH 5.4, 1957, "Storage of Microfilm," or the latest revision thereof.

(2) Microfilm shall be stored in cartons with a low acid content. A PH of 6.0 or better is required.

(3) The relative humidity shall be maintained between 40% and 50% and the temperature shall range from 60 degrees to 80 degrees.

(4) When microfilm is to be retained permanently a second or security copy shall be produced. The security roll shall be retained in a building other than the one where the original film will be retained.

History: 1954 ACS 47, p. 9, Eff. Aug. 14, 1966.

R 18.113 Microfilm readers.

Rule 13. Microfilm readers to be used for roll microfilm shall meet the specifications set forth in the American standards association specification PH 5.1, 1959, "Microfilm Reader for 16mm and 35mm Film on Reels," or the latest revision thereof.

History: 1954 ACS 47, p. 10, Eff. Aug. 14, 1966.

PROPERTY MANAGEMENT DIVISION

CONDUCT ON STATE PROPERTY

(By authority conferred on the department of administration by section 1 of Act No. 80 of the Public Acts of 1905, sections 4 and 13 of Act No. 51 of the Public Acts of the First Extra Session of 1948, as amended, and section 102 of Act No. 380 of the Public Acts of 1965, being §§19.141, 18.4, 18.13, and 16.202 of the Michigan Compiled Laws)

R 18.201 Definitions.

Rule 1. (1) "Capitol security force" includes regular state police officers, state police civilian guards, and other civilian guards employed by the department.

(2) "Department" means the department of administration.

(3) "State buildings" and "state grounds" means buildings and lands dedicated and appropriated to the public use over which the department has jurisdiction or control, including buildings or parts of buildings and other real estate occupied by the state as lessee.

History: 1954 ACS 68, p. 5, Eff. June 15, 1971.

R 18.202 Access to buildings.

Rule 2. (1) State employees are not permitted in state buildings at any time other than their normal working hours unless appropriate authorization has been submitted to the building superintendent. Proper identification of employees may be demanded by any member of the capitol security force, and employees may be required to sign a registration sheet.

(2) Except the capitol building and other buildings which are posted otherwise, visiting hours for the public in state buildings are from 8:00 a.m. to 5:00 p.m., daily, except Saturdays, Sundays and holidays, unless prior written consent has been obtained from the department. When determined by the department, visitors shall be required to sign a registration sheet.

(3) The department may lock entrances to any building at any time and may require that such entrances may be used from within only as a means of egress in case of emergency. A person shall not enter or attempt to enter a state building through an entrance closed under this rule.

History: 1954 ACS 68, p. 5, Eff. June 15, 1971.

R 18.203 Removal of property.

Rule 3. (1) A person shall not remove state property from state buildings or grounds unless the removal has been previously authorized in writing by the head of the principal department or in the case of the legislature by the speaker of the house or the president of the senate or their designees to which the property has been assigned, or by a person designated by such department head to give such authorization.

(2) Capitol security force guards may inspect brief cases, packages or other items being transported into or out of state buildings, grounds or parking facilities.

History: 1954 ACS 68, p. 6, Eff. June 15, 1971.

R 18.204 Obstructions, solicitations, and sales.

Rule 4. (1) A person shall not occupy a corridor, sidewalk, areaway, driveway or room in a state building or on state grounds in such manner as to hamper or obstruct the proper use or movement of personnel or vehicles or the proper conduct of state government.

Digitized by Google

(2) A person is not permitted in state buildings or on state grounds for the purpose of solicitation of funds or the sale of any article, except that the department may authorize such conduct, confined to the entrances and lobby areas of state buildings, by charitable organizations.

History: 1954 ACS 68, p. 6, Eff. June 15, 1971.

R 18.205 Animals, vehicles, and camping.

Rule 5. (1) Except as may be required in the course of state business, animals are not permitted in state buildings. The owner or person having an animal under his control shall be responsible. Guide dogs used by the blind are permitted in state buildings.

(2) A vehicle is not permitted on the plaza level of the state government complex without prior approval by the department.

(3) A person shall not erect a tent, or unless authorized in writing by the state administrative board any other temporary structure, on state grounds. A person shall not camp on state grounds.

History: 1954 ACS 68, p. 6, Eff. June 15, 1971.

R 18.206 Enforcement.

Rule 6. (1) A person openly and wilfully refusing to conform to these rules, in addition to criminal penalties provided by law, is subject to immediate removal from a state building or state grounds, or both, by the capitol security force, the building superintendent, or any other person designated by the superintendent.

(2) Nothing contained in these rules shall be construed as limiting prosecution under an existing or future penal law.

History: 1954 ACS 68, p. 6, Eff. June 15, 1971.

BUILDING DIVISION

PUBLIC BUILDING ACCOMMODATIONS FOR PHYSICALLY HANDICAPPED PERSONS

(By authority conferred on the state building division by section 4 of Act No. 1 of the Public Acts of 1966, as amended, being §125.1354 of the Michigan Compiled Laws)

R 18.301 Scope and purpose.

Rule 1. (1) These rules govern the new construction of, and major remodeling and additions to, public buildings and buildings used by the public.

(2) These rules are intended to make such buildings accessible to and functional for any physically handicapped person employed, visiting, or on the building premises for any reason.

History: 1954 ACS 70, p. 5, Eff. Mar. 16, 1972.

R 18.302 Definitions.

Rule 2. (1) The terms defined in Act No. 1 of the Public Acts of 1966, as amended, being §§125.1351 to 125.1356 of the Michigan Compiled Laws, which act is implemented by these rules, are applicable to these rules.

(2) "Appropriate number" means the number of a specific item necessary to serve the needs of the anticipated number of physically handicapped persons who will use the building.

(3) "Building division" means the building division of the department of administration.

(4) "Contracting officer" means the responsible administrative officer representing the unit of government or private agency that contracts for the construction of a building.

(5) "Department of education" means the school management services division of the bureau of administrative services of the department of education.

(6) "Ramp" means a smooth, hard prepared, sloped surface joining 2 different levels.

(7) "Walk" means a smooth, hard prepared surface of concrete, bituminous concrete, brick, stabilized gravel, or other suitable material with the ground immediately adjacent thereto at the same level.

History: 1954 ACS 70, p. 5, Eff. Mar. 16, 1972.

R 18.303 Parking lots, building approaches, and entrances.

Rule 3. (1) A parking lot servicing an entrance described in subrule (2) shall have an appropriate number of parking spaces adjacent to a walkway and identified by signs as reserved for physically handicapped persons. Each reserved parking space shall be surfaced suitably for wheelchair travel and shall be not less than 12 feet wide, unless paralleling a walk. Where a curb exists between a parking lot surface and a sidewalk surface, an inclined curb approach or a curb cut with a gradient of not more than 1 foot in 3 feet (33⅓%) and a width of not less than 4 feet shall be provided for wheelchair access.

(2) At least 1 primary entrance to the building conforming with the requirements of R 18.304(3) shall be accessible from the parking lot or the nearest street by way of a walk uninterrupted by steps or abrupt changes in level and having a width of not less than 5 feet and a gradient of not more than 1 foot in 20 feet (5%) or a ramp meeting the requirements of R 18.304(2).

History: 1954 ACS 70, p. 5, Eff. Mar. 16, 1972.

R 18.304 Stairs, ramps, doors, and multilevel floors.

Rule 4. (1) Outside or inside stairs shall have risers not more than 7½ inches and nosing with a radius of not less than ⅛ inch. Stairs shall have handrails 2 feet 8 inches above the stair nosing on both sides. The handrail on the wall side of main landings shall extend 1 foot 6 inches beyond the top and bottom step and the handrails at intermediate landings shall be continuous on both sides. Stairs and landings shall have surfaces that are not slippery.

(2) An outside or inside ramp shall have a gradient of not more than 1 foot in 12 feet (8⅓%) with a level platform 5 feet long at the top and bottom, at turns and at an interval of not more than 30 feet on long runs; and shall have a clear width (inside handrails) of not less than 3 feet. A ramp, including platforms, shall have handrails 2 feet 8 inches high on both sides with the handrail extended 1 foot beyond the top and bottom of the ramp on at least 1 side. Ramps, including platforms, shall have surfaces that are not slippery.

(3) A door shall have a clear width of not less than 2 feet 8 inches when open. In case of double doors without a mullion, 1 of the pair shall meet the 2 foot 8 inch width requirement. The floor shall be level for a distance of 5 feet from the door in the direction of the door swing and shall extend 1 foot to the side of the latch jamb of the door. A threshold shall have a minimum rise and shall have an incline to facilitate wheelchair travel.

(4) All areas on the same floor shall have a common level or be connected by a ramp meeting the requirements of subrule (2).

History: 1954 ACS 70, p. 5, Eff. Mar. 16, 1972.

R 18.305 Sanitary facilities.

Rule 5. (1) At least 1 toilet room and units within such room shall be accessible to, and usable by, physically handicapped persons. A toilet room shall have a clear space, excluding door swing, of not less than 5 feet by 4 feet to permit a wheelchair to be turned around. The clear width between the face of a water closet stall and a wall shall be not less than 4 feet. A water closet stall shall be not less than 3 feet wide and 4 feet 8 inches deep and have an outswinging door, or an opening 2 feet 8 inches wide. Handrails shall be provided on both sides of a water closet (on partitions) that are not less than 3 feet 6 inches long and mounted 2 feet 9 inches (lower for children) above and parallel to the floor. A water closet shall have a narrow understructure that recedes sharply from the front (the trap shall not extend in front of, or be flush with, the lip of the bowl). A lavatory shall be wall mounted with the space under the unit open and unobstructed. A lavatory shall have a narrow apron with the bowl near the front to permit use by a person in a wheelchair. A wall-mounted urinal shall have the basin opening not more than 1 foot 7 inches above the floor and shall not be the type with extended shields. A shelf, disposal unit and the lower edge of a mirror shall be not more than 3 feet 4 inches above the floor. A towel dispenser (paper level) shall be not more than 4 feet above the floor.

(2) An appropriate number of drinking fountains or other water dispensing means shall be accessible to, and usable by physically handicapped persons. A wall-mounted or semirecessed (fully recessed not acceptable) drinking fountain or cooler shall have a spout and control at the front of the unit with the basin located not more than 3 feet above the floor. A floor model water cooler shall have a side-mounted fountain 2 feet 6 inches above the floor that is accessible to a person in a wheelchair.

History: 1954 ACS 70, p. 6, Eff. Mar. 16, 1972.

R 18.306 Telephones, elevators, and switches.

Rule 6. (1) An appropriate number of telephones shall be accessible to, and usable by, physically handicapped persons. Such telephones shall be located outside a conventional phone booth and have the dial and handset not more than 4 feet above the floor. An appropriate number of telephones shall be equipped to assist persons with a hearing disability and be so designated with instruction for use.

(2) At least 1 elevator shall be provided in a multistory building to serve the floor containing the entrance meeting the requirements of R 18.303(2) and all other floors accessible to the public. The elevator cab shall have a clear area of not less than 25 square feet. However, with the approval of the administrative authority, an elevator cab with a clear area of not less than 23 square feet and a clear length or width of not less than 3 feet 8 inches may be used in a building that is not more than 3 stories in height and which except for the requirements of this act would not normally have an elevator. An elevator door shall have a minimum clear width of 2 feet 8 inches when open. Braille plates (metal, plastic or other suitable material) shall be provided for floor selection and other controls, such as open door, stop car, and emergency signal, adjacent to standard floor and control buttons within the cab. The maximum height of floor and control buttons shall be 60 inches above the floor with banked button arrangement where necessary. Braille plates (metal, plastic or other suitable material) shall be provided for floor designation on each floor, 5 feet above the floor, on the fixed jamb at the open side of the elevator door.

(3) Light switches shall be located not more than 4 feet above the floor.

History: 1954 ACS 70, p. 6, Eff. Mar. 16, 1972.

R 18.307 Overhead obstructions, corridors, room identification, and hazardous areas.

Rule 7. (1) Light fixtures, protruding signs, door closers and other similar hanging objects or signs and fixtures shall be not less than 6 feet 6 inches above the floor.

(2) Corridors shall be not less than 4 feet wide and the end of a corridor shall have an area of not less than 5 feet square to permit a wheelchair to be turned around.

(3) Room identification plates (metal, plastic or other suitable material) with raised letters or numbers, similar to a so-called "super sign," shall be affixed to the wall surface approximately 5 feet above the floor in a horizontal line, adjacent to the latch side of a door. Doors that lead to hazardous areas such as fire escapes, loading platforms, switch rooms and mechanical rooms shall be equipped with knobs, handles or push bars that have been knurled. The knurling shall cover the back half of a doorknob (not less than 1 inch wide) and the total surface of a handle or push bar.

History: 1954 ACS 70, p. 7, Eff. Mar. 16, 1972.

R 18.308 Special rooms.

Rule 8. A room with a sloped floor or fixed seats or both, such as an auditorium or lecture room, shall have accommodations for persons in wheelchairs. Such areas shall be accessible from a common level floor or by a ramp meeting the requirements of R 18.304(2). The wheelchair spaces shall not interfere with normal or required traffic flow.

History: 1954 ACS 70, p. 7, Eff. Mar. 16, 1972.

R 18.309 Administration and enforcement.

Rule 9. (1) The department of education will administer and enforce these rules for those instructional and supporting service buildings through the twelfth grade level that are administered by public school and intermediate school districts. The building division will administer and enforce these rules for all other buildings that are constructed with funds of the state or its political subdivisions. The building and inspection department or agency of the local administrative authority with the responsibility and duty of issuing building permits will administer and enforce these rules for those buildings used by the public that are constructed with private funds.

(2) An apparent conflict between the application of these rules to a building and other state laws pertaining to the design of public buildings shall be reported to the department of education or the building division for resolution. An apparent conflict between the application of these rules to a building and other local laws pertaining to the design of buildings used by the public shall be reported to the building and inspection department or agency of the local administrative authority with the responsibility and duty of issuing building permits for resolution.

(3) The contracting officer shall forward, or have forwarded by the architect or engineer, 1 set of completed plans and specifications (including those for site development) to the proper administering agency for review. Two weeks shall be allowed for their review. If all areas of the building and its approaches are not in conformance with these rules, the plans and specifications shall be accompanied by a statement signed by the contracting officer describing the conditions or situations that warrant the exceptions and requesting that the exceptions be

approved. The exceptions will be approved only when it is clearly evident that equivalent facilities and protection are provided.

(4) A notice of approval of the plans and specifications as submitted or a letter requesting changes therein will be sent to the contracting officer. The notice of approval shall be secured by the contracting officer prior to the award of construction contracts.

(5) A change in plans or specifications affecting any part of the building covered by these rules subsequent to approval by the administering agency shall be resubmitted for approval before construction.

History: 1954 ACS 70, p. 7, Eff. Mar. 16, 1972.

R 18.319 Rescission.

Rule 19. The rules entitled "Public Building Accommodations for the Physically Handicapped," being R 10.501 to R 10.509 of the Michigan Administrative Code and appearing on pages 4071 to 4073 of the 1967 Annual Supplement to the Code and page 5 of Supplement No. 66 to the Code, are rescinded.

History: 1954 ACS 70, p. 7, Eff. Mar. 16, 1972.

PURCHASING DIVISION

STATE PRINTING — PREVAILING WAGE RATES

(By authority conferred on the department of management and budget by section 33 of Act No. 306 of the Public Acts of 1969, as amended, being §24.233 of the Michigan Compiled Laws)

R 24.61 Definitions.

Rule 1. (1) "Act" means Act No. 153 of the Public Acts of 1937, as amended, being §24.61 et seq. of the Michigan Compiled Laws.

(2) "Conditions prevalent" means the cost of providing benefits to employees pursuant to an enforceable commitment to carry out a financially responsible plan or program which was communicated in writing to the employees affected, including plans or programs for medical or hospital care, pensions on retirement or death, compensation for injuries or illness or resulting from occupational activity, or insurance to provide any of the foregoing for supplemental unemployment benefits, life insurance, disability and sickness insurance, or accident insurance, for vacation and holiday pay, the costs of other approved paid absences for defraying costs of apprenticeship or other similar programs.

(3) "Employees" means all individuals who are engaged in any operation preparatory or necessary to or in the performance of a contract awarded by the state.

(4) "Locality" means the geographic determination as delineated on the map attached hereto as appendix A.

(5) "Prevailing wage rate and conditions prevalent" means the market rate, which is generally current; the mode received by employees in the locality evidenced by all information available to the department of management and budget at the time the determination is to be made.

(6) "Responsible bidder" means:

(a) A company having use of the allied printing trades council label.

(b) A company which pays its employees in accordance with a collective bargaining agreement with an organization which is in no way influenced or controlled by the management.

(c) A company filing with the secretary of state a sworn statement to the effect that its employees are receiving the prevailing wage rate and are working under conditions prevalent in the locality in which the work will be produced.

(7) "Wages" means:

(a) The basic hourly rate of pay and adjustments thereto.

(b) The conditions for receiving, and amount of, premium pay.

History: 1954 ACS 88, p. 12, Eff. Aug. 4, 1976.

APPENDIX A

History: 1954 ACS 88, p. 15, Eff. Aug. 4, 1976.

R 24.62 Implementation.

Rule 2. These rules shall be implemented in a particular case only if a challenge to a bidder's status as a responsible bidder is received by the department of management and budget not later than 10 working days after the opening of bids.

History: 1954 ACS 88, p. 12, Eff. Aug. 4, 1976.

R 24.63 Prevailing wage rate and conditions prevalent.

Rule 3. In determining the prevailing wage rate and conditions prevalent, the department of management and budget shall review current information submitted or available to it but shall not be required to look beyond that information, except in the case of a contested bid. In that case, the challenged bidding firm may be required to furnish additional wage information.

History: 1954 ACS 88, p. 12, Eff. Aug. 4, 1976.

R 24.64 Obtaining and compiling relevant information.

Rule 4. (1) Whenever necessary and for the purpose of making prevailing wage rate and conditions prevalent determinations, the department of manage-

ment and budget shall endeavor to obtain and compile information regarding wages and conditions prevalent.

(2) The department of management and budget shall encourage the voluntary submission of data by printing firms, trade associations, labor organizations, public officials, and other interested parties, reflecting wages and conditions prevalent.

(3) The following types of information shall be considered in making determinations of prevailing wage rates and conditions prevalent:

(a) Signed collective bargaining agreements.

(b) Information furnished by federal and state agencies.

(c) Other information pertinent to the determination of prevailing wage rates and conditions prevalent.

(4) The department of management and budget may supplement this information.

History: 1954 ACS 88, p. 13, Eff. Aug. 4, 1976.

R 24.65 Determination of responsible bidders.

Rule 5. (1) The responsibility of determining whether or not a bidder is a responsible bidder under the act rests in the first instance with the purchasing division of the department of management and budget.

(2) In the event of a challenge, the challenged bidder may withdraw its bid within 3 working days after notification of the challenge. If the challenged bidder does not withdraw, he shall furnish such additional information as the purchasing division requests with respect to wages and conditions prevalent.

(3) The responsible bidder determination of the purchasing division shall be final unless 1 of the parties requests a hearing.

History: 1954 ACS 88, p. 13, Eff. Aug. 4, 1976.

R 24.66 Challenges.

Rule 6. (1) The grounds upon which a bidder may be challenged are:

(a) That a bidder is not authorized to use the allied printing trades council label.

(b) That the collective bargaining agreement of a bidder is with a labor organization influenced or controlled by management.

(c) That the employees of a bidder who has filed a sworn affidavit with the secretary of state are not receiving the prevailing wage rate and working under conditions prevalent in the locality in which the work will be produced.

(2) A challenge shall be filed at the office of the purchasing division with the director of the division and shall be accompanied by an affidavit of service on the challenged bidder by certified mail, return receipt requested. The challenger shall make clear, specific, and detailed factual statements to support the grounds alleged and verify the same.

(3) Within 7 days after service of the challenge upon him, the challenged bidder shall serve his written verified answer upon the director of the purchasing division by certified mail, return receipt requested.

(4) Upon expiration of the time provided for an answer, the director of the purchasing division may direct an inquiry as to the validity of the challenge. The information gathered and results of the inquiry are confidential unless a public hearing is requested.

(5) If a challenge is not resolved to the satisfaction of any challenger or any challenged bidder, a public hearing, if requested by either party, shall be held.

History: 1954 ACS 88, p. 13, Eff. Aug. 4, 1976.

R 24.67 Notice of public hearing.

Rule 7. Not less than 7 working days before the date of a public hearing, the director of the purchasing division shall notify, by certified mail, the challenger, the challenged bidder, and any other persons he names. The notice shall state the time, place, and date of the hearing, and shall set forth:

(a) The nature of the conduct alleged which is not in compliance with the act.

(b) The name and address of the challenger.

(c) A statement that the hearing will be public, that the party may be represented by counsel, that the party may present witnesses, that all witnesses may be called and subjected to cross-examination, and that the hearing officer may request the attendance of witnesses and the production of evidence, which, in the judgment of the director of the purchasing division, will aid in the conduct of the investigation.

History: 1954 ACS 88, p. 13, Eff. Aug. 4, 1976.

R 24.68 Hearings.

Rule 8. (1) Hearings shall be held before a hearing officer designated by the director of the purchasing division. The hearing officer and his agents or employees shall not have direct or indirect ex parte communication with any person in connection with the issues involved in a hearing.

(2) The hearing officer shall regulate the conduct of the hearing, administer oaths, request the attendance and testimony of witnesses and production of books, papers, and other documentary evidence, fix the time and form for the submission of evidence or argument, and adjourn a hearing for good cause to such time, date, and place as he deems appropriate.

(3) The rules of evidence applicable in the courts of the state need not be applied strictly in a hearing.

(4) At the conclusion of the hearing, the hearing officer may request additional evidence or written arguments concerning the subject matter to be submitted within such time and form as he directs. The additional evidence or argument shall be disclosed to all interested parties.

(5) The party requesting a hearing shall have the burden of proving a challenge. The party requesting the hearing shall have the right to be present, to be represented by counsel, to testify, to produce and examine witnesses, to cross-examine adverse witnesses, and to introduce such other evidence as may be material and relevant to the issues.

(6) Proceedings shall be recorded, but need not be transcribed unless requested by the purchasing division or a party. The purchasing division shall determine the amount and source of payment for the transcript. The purchasing division shall prepare an official record of the hearing, which shall include the notice of hearing and all documents considered by the hearing officer, and may include a transcript of the evidence presented at the hearing.

History: 1954 ACS 88, p. 14, Eff. Aug. 4, 1976.

R 24.69 Challenge opinions.

Rule 9. If the hearing officer finds from a preponderance of the evidence that a challenged bidder has not complied with the act or that the moving party has failed to demonstrate that its position is meritorious, he shall issue a written decision specifying recommended action. The hearing officer shall transmit a copy of the decision to the person whose conduct is involved, to the person who challenged the proposed award, and to other persons who have filed a written request for a copy of the opinion.

History: 1954 ACS 88, p. 14, Eff. Aug. 4, 1976.

DEPARTMENT OF STATE POLICE

INSTALLATION AND CONSTRUCTION OF TUBULAR AND SPIRAL SLIDE FIRE ESCAPES

(By authority of sections 3 and 20 of Act No. 207 of the Public Acts of 1941, being §§29.3 and 29.20 of the Michigan Compiled Laws)

GENERAL PROVISIONS

R 28.51 Applicability; modifications; installation.

Rule 1. (1) These rules shall apply to any school, hospital, public buildings, private building, or person who erects a tubular or spiral fire escape. No person shall install a tubular or spiral fire escape unless in conformity with these rules.

(2) Any person, or his duly authorized agent, confronted with practical difficulties in the carrying out of the strict letter of these rules, may apply to the commissioner for the modification thereof. The decision of the commissioner, including the particulars of any such application, shall be entered upon the records of the Michigan state police, and a signed copy thereof shall be furnished the applicant.

(3) All tubular sliding type fire escapes shall be installed by the manufacturer. Defective workmanship or faulty installation, upon the request of the commissioner, shall be corrected.

History: 1944 AC, p. 1396; 1954 AC, p. 301.

R 28.52 Definitions.

Rule 2. For the purpose of these rules the following definitions shall be applied:

(a) The word "department" shall mean the Michigan state police.

(b) The word "commissioner" shall mean the commissioner of the Michigan state police, or his duly authorized representative.

(c) The word "manufacturer" shall mean any manufacturer of tubular or spiral fire escapes.

(d) The word "person" shall mean any natural person or persons, firm, partnership, company, corporation or association.

History: 1944 AC, p. 1396; 1954 AC, p. 301.

R 28.53 Exit doors and fire escapes.

Rule 3. Every exit door or fire escape shall swing outward and shall be so hung that, when open, it will not block any part of the required width of said exit or fire escape opening; and shall be provided with an anti-panic lock which causes the door to open outward when pressure is applied to the horizontal bar. When double exit doors are used, the horizontal release bars of the anti-panic lock shall act as 1 unit.

History: 1944 AC, p.1397; 1954 AC, p. 301.

R 28.54 Location of fire escapes.

Rule 4. All fire escapes shall be as far removed from interior buildings exits as practical and shall be so placed as best to assure the safety of persons using the fire escapes.

History: 1944 AC, p. 1397; 1954 AC, p. 301.

R 28.55 Plans and specifications.

Rule 5. The owner or his duly appointed representative shall submit plans and specifications as to location and design to the commissioner for his approval. All plans for fire escapes shall include floor plans of all floors of the building above the first floor; these floor plans to show hallways, stairways, rooms and proposed locations of the fire escapes. The elevations of the fire escapes shall be shown on the elevation plan of the building. The elevation plan of the building shall include all windows and doors, and all wall openings affected shall show a marking upon the drawings indicating the required fire-resistive construction. They shall also show the dimensions of the fire escape and the sizes of all material.

History: 1944 AC, p. 1397; 1954 AC, p. 301.

R 28.56 Spiral and tubular fire escapes; type; listing.

Rule 6. All spiral and tubular fire escapes must be the approved type and listed as standard.

History: 1944 AC, p. 1397; 1954 AC, p. 302.

R 28.57 Spiral and tubular fire escapes; installation.

Rule 7. All installation of tubular or spiral fire escapes, including cutting of wall openings, and installing doors with approved panic bolts, shall be made by the manufacturer who will be held responsible for any deficiencies or failures. Defective workmanship or faulty construction or installation, upon the request of the commissioner, shall be corrected.

History: 1944 AC, p. 1397; 1954 AC, p. 302.

R 28.58 Completion of installation; notice; inspection.

Rule 8. Manufacturers shall notify the commissioner upon completion of fire escape installations, after which an inspection shall be made for final approval.

History: 1944 AC, p. 1397; 1954 AC, p. 302.

R 28.59 Construction of escapes.

Rule 9. Escapes shall be rigidly constructed with brackets, hangers, braces, horizontal braces, and sway braces provided wherever necessary. Tubular sliding type fire escapes shall be constructed of not lighter than no. 20 U.S. gauge copperbearing galvanized steel and shall have a slope (depending on height of floors to be served) of not less than 25 degrees nor more than 35 degrees for schools and institutions, and for hospitals the slope shall be not less than 38 degrees nor more than 42 degrees. Slope of fire escapes shall be such as to assure a safe landing speed at grade, depending on class of occupancy of building.

History: 1944 AC, p. 1397; 1954 AC, p. 302.

R 28.60 Fire escape entrances.

Rule 10. Entrance to fire escape shall be at floor level and shall be not less than 30″ wide and 42″ high for schools and institutions and not less than 40″ wide and 42″ high for hospitals. Securely built into the wall, said entrance shall be closed with double doors, equipped with anti-panic bar and locks, and operated with push bars. Doors shall be weather-stripped. Doors shall swing into entrance of escape. Sections shall be not less than 30″ in diameter and not more than 38″ long and have a 1¼″ x ⅛″ angle iron band riveted to each end. All rivets shall be tinned and have countersunk heads and those exposed to the sliding surface shall be soldered over and then scraped perfectly smooth. Sheet of upper section shall lap

Digitized by Google

over sheet of lower section so occupants slide with the lap. Sections shall be joined together by bolting outside faces of the angle iron bands together with 5/16" x 1" machine bolts, spaced not more than 8" apart. A steel washer shall be placed over the head of each bolt. A channel iron band, not less than 5/8" x 1/16" shall be placed over the joint formed by the upright faces of the angle iron bands to make them watertight. All joints shall be so constructed that they are watertight. No putty, cement or other substance shall be resorted to in order to make the joints waterproof. When more than 1 entrance is provided for schools and institutions, the diameter of the main tube shall be increased to 36" at the first entrance below the upper entrance of the fire escape and continue at the 36" diameter to the lower end. Ventilator shall be provided in each entrance.

History: 1944 AC, p. 1397; 1954 AC, p. 302.

R 28.61 Fire escape supports.

Rule 11. Fire escapes shall be amply supported by brackets attached to the wall of the building or to standpipe or iron structural supports (embedded in concrete) from the ground. One set of brackets shall be provided for every 4 sections, or fraction thereof, exclusive of entrance, elbow and easement. Hanger brace shall be secured to the wall of the building with a through bolt not less than 3/4" in diameter with a washer 4" x 4" embedded in the plastering on the inside of the wall. A horizontal swing bar constructed of 3/4" pipe shall be placed at the entrance to the tubular escape and be securely fastened to the passageway housing.

History: 1944 AC, p. 1397; 1954 AC, p. 302.

R 28.62 Elbows.

Rule 12. Elbows as required at entrance or other points shall be the same diameter as the main tube and of proper radius or sweep to accommodate conditions. Elbow joints shall be double seamed. No welding of galvanized material shall be permitted.

History: 1944 AC, p. 1397; 1954 AC, p. 303.

R 28.63 Easement.

Rule 13. Easement or lower end of escape shall be round or oval shape and shall rest on metal supports embedded in concrete holding the easement not less than 14" nor more than 18" above grade level, depending on occupancy.

History: 1944 AC, p. 1397; 1954 AC, p. 303.

R 28.64 Tubes.

Rule 14. Where tubes are to be placed for the purpose of escape from hospitals, the same shall be constructed as set forth in the foregoing specifications except that the main tube shall be not less than 36" in diameter and the exit end of the escape shall be provided with an extended easement of approximately 6' resting on metal supports embedded in concrete, holding easement not more than 4" above grade level.

History: 1944 AC, p. 1398; 1954 AC, p. 303.

R 28.65 Spiral sliding-type fire escapes; cylinder; center core.

Rule 15. (1) Spiral sliding-type fire escapes shall be constructed entirely of steel and be not less than 5' in diameter for schools and institutions, and not less than 7' in diameter for hospitals.

Digitized by Google

(2) The cylinder shall be of no. 12 U.S. gauge sheet steel for the lower 36", the next upper section of no. 14 gauge and the remainder of no. 16 gauge.

(3) The center core shall be composed of a 3" I.D. standard black pipe enclosed in a thimble constructed of no. 18 gauge, galvanized copperbearing steel, or a 4½" O.D. pipe, tapped and threaded for attaching down flanges or wings with cap screws.

History: 1944 AC, p. 1398; 1954 AC, p. 303.

R 28.66 Spiral slide.

Rule 16. Spiral slide shall be constructed of no. 16 gauge, galvanized copperbearing sheet steel and shall be formed of tapered segments. Tapered segments shall overlap in direction of travel and be securely riveted together with tinned rivets or down flanged and bolted. Such rivets shall be recessed and exposed edges of sheet ground smooth. Inner edge of segments shall be securely riveted to the thimble of the center core and the outer edge to the cylinder, or down flanged and bolted. The slide shall be banked not less than 5" from a point not less than 12" from the outer housing, and of such degree of pitch as to insure proper descent of persons sliding through the escape.

History: 1944 AC, p. 1398; 1954 AC, p. 303.

R 28.67 Sliding-type fire escape; roof.

Rule 17. Roof of the spiral sliding-type fire escape shall be constructed of not lighter than no. 16 gauge steel, be conical in shape and be provided with a ventilator.

History: 1944 AC, p. 1398; 1954 AC, p. 303.

R 28.68 Access to spiral chute.

Rule 18. Access to a spiral chute at any point shall be through a fully enclosed platform passage between the entrance doorway and the tubular shell, or the sliding surface of the spiral shall be extended to the thresholds of the entrance doorway.

History: 1944 AC, p. 1398; 1954 AC, p. 303.

R 28.69 Enclosed platform passage.

Rule 19. The enclosed platform passage shall be not less than 36" wide and 7'0" high for schools and institutions, and not less than 48" wide and 7'0" high for hospitals. The floor of the platform shall be on a level with the interior floor and shall be constructed of not less than ¼" firm tread steel plate and be supported by not less than 2" x 2" x ⅜" angle iron frame or equivalent. The angle iron frame shall be securely fastened to the wall of the building and the shell of the spiral escape. The sides and roof of the passageway shall be constructed of not lighter than no. 20 U.S. standard gauge copperbearing galvanized steel. The center of the enclosed passageway shall be in line with the center of the sliding surface of the spiral slide either to the right or left of the center pole. A horizontal swing bar constructed of ¾" pipe shall be placed at the entrance to the spiral slide and be securely fastened to the passageway housing.

History: 1944 AC, p. 1398; 1954 AC, p. 303.

R 28.70 Extended sliding surface; escape entrance.

Rule 20. The extension to the sliding surface of the spiral escape to the threshold of the entrance door for schools and institutions shall be either round (not less than 29" diameter) or rectangular (not less than 30" wide by 42" high) in

shape and shall have a slope of not greater than 26 degrees with the horizontal, constructed of not less than no. 20 U.S. gauge copperbearing galvanized steel. The same shall apply to hospitals except that the extended sliding surface, if round, shall not be less than 36″ in diameter and, if rectangular, not less than 40″ wide by 42″ high. The extended sliding surface shall be securely riveted to the shell of the escape at 1 end and built into the door frame at the other end. Entrance to escape shall be at floor level and shall be not less than 30″ wide and 42″ high for schools and institutions, and not less than 40″ wide and 42″ high for hospitals. Securely built into the wall, said entrance shall be closed with double doors equipped with anti-panic bar and locks, and operated with push bars. Doors shall swing into entrance of escape. Doors shall be weather-stripped. A horizontal swing bar ¾″ pipe shall be placed at the entrance doorway and be securely fastened to the door frame.

History: 1944 AC, p. 1398; 1954 AC, p. 304.

R 28.71 Sliding surface for hospitals.

Rule 21. A straight section or ramp not less than 7′ long by 45″ wide shall be provided at the extreme end of the spiral sliding surface for hospitals.

History: 1944 AC, p. 1398; 1954 AC, p. 304.

R 28.72 Automatic exit doors.

Rule 22. Automatic exit doors at the lower end of all slide escapes shall be provided with exterior locking device which will permit entrance from the outside with key but which will in no way interfere with operation of doors from the inside.

History: 1944 AC, p. 1398; 1954 AC, p. 304.

R 28.73 Spiral fire escape foundation.

Rule 23. Spiral fire escapes shall rest on a concrete foundation of sufficient strength and depth as to carry live and dead loads without settlement.

History: 1944 AC, p. 1398; 1954 AC, p. 304.

LICENSING THE SELLING, PURCHASING, POSSESSING, AND CARRYING OF CERTAIN FIREARMS

(By authority of sections 2 and 6 of Act No. 372 of the Public Acts of 1927, as amended, being §§28.422 and 28.426 of the Michigan Compiled Laws)

R 28.91 Submitting letter in lieu of fingerprints to commissioner.

Rule 1. In cases where the chief of police, or sheriff, is satisfied to his own knowledge that the applicant for renewal has not been convicted of, or involved in, any criminal act, it is not necessary to submit fingerprints, provided that a letter in duplicate is sent to the commissioner of state police setting forth the fact that to his knowledge the applicant has not been involved in any criminal act or conviction since fingerprints submitted to the state bureau at East Lansing.

History: 1944 AC, p. 1399; 1954 AC, p. 304.

R 28.92 Responsibility for applicant's endorsement.

Rule 2. In all cases where this letter is submitted in lieu of fingerprints the full responsibility for the endorsement of the applicant, as to not having been involved in a criminal act or conviction, is upon the chief of police or sheriff submitting above-mentioned letter.

History: 1944 AC, p. 1399; 1954 AC, p. 304.

PLACES OF PUBLIC ASSEMBLAGE

(By authority of sections 3 and 5 of Act No. 207 of the Public Acts of 1941, being §§29.3 and 29.5 of the Michigan Compiled Laws)

GENERAL PROVISIONS

R 28.101 Scope of rules.

Rule 1. (1) These rules shall apply to the construction or remodeling of buildings for public assembly; to school auditoriums and any other room in a school where an assemblage of people may gather; and to new and existing buildings where an assemblage of more than 50 people may congregate. (Section 9 shall apply regardless of the number of persons that may congregate.)

(2) Any person, or his duly authorized agent, confronted with practical difficulties in carrying out of the strict letter of these rules, may apply to the commissioner for modification thereof. Only such modifications as will not constitute a distinct hazard to life or property will be considered. The decision of the commissioner, including the particulars of any such application, shall be entered upon the records of the Michigan state police and a signed copy thereof shall be furnished the applicant.

History: 1944 AC, p. 1399; 1954 AC, p. 305.

R 28.102 Definitions.

Rule 2. For the purposes of these rules the following definitions shall be applied:

(a) The term "place of assembly" as used in these rules shall mean a room or space in which provision is made for the assembly of persons for religious, recreational, educational, political, social or amusement purposes, or for the consumption of food, or drink, or for any other purpose, whether such gatherings be of public, restricted or private nature. Such room or space shall include any occupied connecting rooms or space in the same story, or stories above, or below, where entrance is common to the room, or space occupied. Private homes, used as dwellings, are exempt from these rules.

(b) The term "means of egress" shall mean the exit doorway or doorways, or such doorways together with connecting hallways, passageways, or stairways, or other spaces through which persons may pass safely from the place of assembly to an open, uncovered, unobstructed yard, court or space leading to a public street or alley. Means of egress from any room may lead through other rooms of the same tenancy provided they are properly marked and lighted.

(c) The term "exit door" shall mean the doorway or other opening through which persons may pass in using a means of egress.

(d) The term "panic hardware" shall mean a type of locking device which will automatically release the door or doors upon which it is placed, when pushed against from the inside without the use of a key or the unfastening or loosening of any bolts, latches, catches, bars or hasps, or any similar fastening device requiring a special knowledge to operate.

(e) The word "department" shall mean the Michigan state police.

(f) The word "commissioner" shall mean the commissioner of the Michigan state police or his duly authorized representative.

(g) The word "inspector" shall mean a state police officer or fire chief, or any member of the fire department assigned to inspect premises, equipment and conditions relative to public assembly.

(h) The term "fire chief" shall mean any duly confirmed fire chief of any political subdivision of this state. Said fire chief may designate any member of the fire department to make inspection.

(i) The term "approved" shall mean acceptable to the commissioner or local fire chief.

History: 1944 AC, p. 1399; 1954 AC, p. 305.

R 28.103 Capacity of assembly.

Rule 3. (1) Basis of determining capacity: The basis of capacity requirements shall be 1 person to each 15 square feet of gross area occupied, not including store rooms, unless otherwise stipulated herein. In computing the seating of public assembly in which the table is not used, an allowance of 6 square feet of floor area shall be made for each person, and all space between the walls or partitions of such building, tent, room, hall or space shall be included in this computation, provided, however, that in computing the seating capacity of church pews or benches and other places of public assembly, an allowance of 20 inches of the pew or bench length shall be considered as equivalent to one individual seat.

(2) Placard indicating capacity: Necessary placards indicating the capacity of any place of assembly in number of occupants, other than employees shall be displayed in a conspicuous place in the room or rooms. An establishment in excess of this capacity will be in violation of these rules. The placards are to read as follows: THE TOTAL CAPACITY IS LIMITED TO ____ PERSONS. (No additional wording shall be permitted on this placard.)

History: 1944 AC, p. 1400; 1954 AC, p. 306.

R 28.104 Means of egress.

Rule 4. (1) Minimum: Every place of assembly shall be provided with at least 2 separate and independent means of egress located as far apart as practical; and in no case less than 50% of the longest dimension of the room or space in which the public assembly is operated.

(2) Capacity table: All places of assembly shall be provided with means of egress in accordance with the following table showing the capacity of the place of assembly and the minimum required number and width of exits:

Capacity	Required
Under 100 persons	2 exits, each 2'6"
100 to 150 persons	2 exits, each 2'9"
150 to 200 persons	2 exits, each 3'
200 to 250 persons	2 exits, each 3'6"
250 to 300 persons	2 exits, each 4'
300 to 400 persons	2 exits, each 4'6"
400 to 500 persons	2 exits, each 5'
500 to 600 persons	3 exits, each 4'
600 to 750 persons	3 exits, each 4'6"

For capacity greater than 750 persons, the required width of exits shall be determined at the rate of 20 inches for each additional 100 persons or fraction thereof, and the exits shall be reasonably well distributed around or about the place of assembly.

(3) Where several narrow exits are provided in lieu of 1 wider exit, the combined width of the several narrow exits shall be 1 and ¼ times the required minimum width of 1 exit.

(4) Where the floor or story, upon which such place of assembly is operated, is located above, or below, the level of the surrounding ground, or the adjacent streets or alleys, suitable stairways, or ramps, or fire escapes, shall be provided to give safe and easy access to the ground, or to the street, or alley. The location and arrangement of all such stairways, or ramps, or fire escapes shall be in accordance with and will conform to the requirements of the city building codes, or state specifications for fire escapes.

(5) All exit doors and doors leading to, or a part of, a means of egress shall swing in the direction of egress. Where screen doors, grates or grills are provided in addition to, or in place of, doors, these shall also swing in the direction of egress. Nothing in these rules shall be construed as prohibiting an exit door which swings both inward and outward.

(6) Adequate aisles, corridors, passageways and space shall be provided and maintained open and unobstructed at all times so as to give access to all exits and means of egress. There shall be no standing in the aisles at any time. For each room or space used with chairs alone, or with tables and chairs, the arrangement shall be such as will provide for ready access by aisles to each exit doorway. Aisles leading directly to exit doorways shall in no circumstances be less in width than the exit doorway, and said aisles shall not be obstructed by chairs or tables or other objects. Such cross aisles, or other aisles, deemed necessary by the commissioner, any of his assistants, the fire chief of the community in which the building is located, shall be provided.

(7) Printed or painted exit signs having letters not less than 6 inches in height shall be provided over all exit doors, means of egress and the courts thereto; except as hereinafter provided.

(8) All places of assembly where the area of the dance floor exceeds 400 square feet located below, or above the first floor; or where the capacity exceeds 300 persons, shall have electrically illuminated exit signs with letters not less than 3 inches in height and shall be wired and fused on a separate circuit.

(9) Movable seats are prohibited in balconies or galleries having floors with steps. Where exits are located at the sides of places of public assembly having movable seats, there shall be a cross aisle giving access to same.

(10) Aisles in place of public assembly having movable seats shall have in the aggregate a width of at least 20 inches for each 100 persons of the seating capacity, and for fractional parts of 100, a proportionate part of 20 inches shall be added, provided however, that no aisle shall be in any part less than 36 inches in width.

(11) Seats and aisles: In buildings containing halls or auditoriums for 200 or more persons, all seats may be permanently fixed to the floor. Movable seats of the standard or folding type may be used, provided, that not more than 7 seats on each side of aisle or 14 seats between any 2 aisles are provided. The seats are to be spaced not less than 26 inches from back to back. Where movable seats are used, such seats must be secured together in groups of not less than 3. Aisles are to be not less than 3 feet wide in clear at any point.

(12) No flammable liquids, or other materials that are dangerous to human life or present a fire hazard, shall be kept or stored in any place of assembly, or in any room located under any place of assembly, or under any means of egress therefrom, or in any room or space communicating by doors, windows, or other openings, with any place of assembly, or a means of egress therefrom.

History: 1944 AC, p. 1400; 1954 AC, p. 306.

R 28.105 Doors and exits.

Rule 5. (1) All doors required or provided for exit purposes, or designated as exits, shall be kept unlocked and available for instant opening in emergency at all

times during which the place of assembly is open or in use. No such door shall be so fastened that it cannot be opened from the inside by the use of the ordinary doorknob or by pressure on the door on a panic release device. The use of hooks and eyes, bolts, bars and similar devices is expressly prohibited on doors provided for exit purposes, or designated as exits.

(2) All places of public assembly having a dance floor area greater than 400 square feet, or having a dance floor above, or below, the first story, with a capacity of over 300 persons, shall have panic hardware on exit doors and doors of egress as hereinbefore defined, except on front or main entrance door when such main entrance is through a single door. In all cases in which a doorway used for exit purposes has a pair of doors, either or both of which are equipped with hardware for locking or holding, such hardware actuating the top and bottom bolts on the standing leaf shall be of the panic hardware type.

History: 1944 AC, p. 1401; 1954 AC, p. 307.

R 28.106 Revolving doors.

Rule 6. (1) Revolving doors shall not be used in required means of egress in existing buildings occupied for public assembly except under 1 or more of the following conditions:

(a) Where the place of assembly is in a building of fireproof construction with no hangings, draperies, furnishings, or decorations of cloth or paper other than allowed frameproofed materials.

(b) Where the place of assembly and the remainder of the building are protected by an automatic sprinkler system.

(c) Where the place of assembly has a capacity of not over 200 persons and had no hangings, furnishings, draperies, or decorations of cloth or paper other than allowed flameproofed materials, and there is an exit door of the swinging type adjacent to each revolving door.

(2) In new structures to be used for public assembly, or in the event of change of occupancy of an existing structure so that the new occupancy is to be 1 of a public assembly, no revolving doors will be allowed in required means of egress except under the following conditions:

(a) Where there is an exit door or doors of swing type adjacent to and within at least 15 feet of each revolving door.

(b) All revolving doors and means of egress shall be of approved type which will collapse under pressure, and only the width of 1 leaf shall be considered in computing exit requirements.

(3) In all cases all revolving doors in a means of egress shall be of approved type which will collapse under pressure, and only the width of 1 leaf shall be considered in determining exit requirements. Employees shall be instructed in the method of collapsing revolving doors, and the doors shall be tested by collapsing at least once a month.

(4) Revolving doors shall be used in means of egress only at points of egress from the first story above grade.

History: 1944 AC, p. 1402; 1954 AC, p. 307.

R 28.107 Exits lighted.

Rule 7. All passageway outlets leading to streets or spaces connected therewith, including vestibules, lobbies, stairways, ramps, passageways, corridors, courts, fire escapes, and the outside of all exits, shall be well lighted whenever the premises are occupied by the public, and shall be so lighted until the public has entirely left the premises. Proper guards shall be installed to protect the outside lights.

History: 1944 AC, p. 1402; 1954 AC, p. 308.

R 28.108 Use and placement of decorations; obstructing view of exit signs.

Rule 8. No architectural treatment, mirrors, false windows, doors or other decorations shall be so used as to give the appearance of door or exit where no door or exit exists; or so placed as to decrease the width or impair the use of the exit. Nothing shall be hung or placed in front of exit signs which will obstruct or prevent a clear view of the exit signs from all parts of the premises.

History: 1944 AC, p. 1402; 1954 AC, p. 308.

R 28.109 Prohibited decorations; combustible furnishings.

Rule 9. (1) It shall be unlawful to use in any building described herein, used or intended to be used for the purposes of assembly, amusement or instruction, or any building or portion of a building defined as a place of assembly, flimsy decorations of any type, such as paper, paper streamers, cloth, artificial plants, trees, flowers, vines, leaves, moss, shrubs, grass, cotton batten or any other material or a combination of such materials, for decorative purposes or for the covering of ceilings, walls, windows or doors, or for soundproofing, acoustical, insulating, artistic enhancement, or any other similar purpose, that will produce a quick or fast burning fire, regardless of whether it is flameproofed or not.

(2) Nothing in this section shall prohibit the use of cut flowers or of natural trees, plants, shrubs or grass for artistic enhancement or decorative purposes, provided such trees, plants, flowers, shrubs, or grass are in soil and are maintained in a healthy condition.

(3) The provisions of this rule shall not apply to table linen, chairs, tables or other portable incidental furniture.

(4) Nothing in this rule shall be construed to apply to merchandise for sale or displayed for sale.

(5) Combustible furnishings, such as drapes, shall be treated with a flameproof solution, unless said material is of all wool and at least 1/16 of an inch thick, then this treatment will not be necessary. Any other type of furnishings, which in the opinion of the commissioner or fire chief, may produce a quick or fast burning fire, shall be treated with a flameproof solution in accordance with the specifications of the commissioner. All stage scenery, drapes, drops, of any type shall be treated with flameproof solution in accordance with the specifications of the commissioner. The use of paper tablecloths is prohibited where smoking is permitted or where lighted candles are used. The use of imitation leather (or other material) consisting of or coated with a pyroxylin base is prohibited.

History: 1944 AC, p. 1402; 1954 AC, p. 308.

R 28.110 Fire appliances.

Rule 10. (1) The commissioner, or any of his assistants, or the local fire chief, shall survey, or cause to be surveyed, each place of assembly and shall designate suitable fire appliances in and near boiler rooms, kitchens, storage rooms and other occupied areas where such appliances are deemed necessary. Such fire appliances may consist of automatic fire alarm systems, automatic sprinkler, standpipe and hose or portable extinguishers. All fire appliances shall be kept in working condition, and all extinguishers and hose and similar appliances shall be visible and handy at all times.

(2) It shall be the duty of the owner or operator of each place of public assembly to provide and properly train sufficient regular employees in the use of fire appliances, so that such appliances can be quickly put into operation. It shall

be the duty of the owner or operator of each place of public assembly to institute and maintain, under the direction of the commissioner or the fire chief, monthly fire drills so that each employee shall be trained to do a certain portion of the work of preventing or extinguishing fire and providing for the safety of human life. Drill work shall include inspections of the stage, vents, exit doors, other means of egress, and all fire devices or appliances.

History: 1944 AC, p. 1403; 1954 AC, p. 309.

R 28.111 Ashtrays and match receivers; metal receptacle.

Rule 11. Where smoking is permitted, there shall be provided on each table and at other convenient places suitable noncombustible ashtrays and match receivers. A self-closing metal receptacle (with an air space underneath) shall be provided for the emptying of ashtrays.

History: 1944 AC, p. 1403; 1954 AC, p. 309.

R 28.112 Presumption.

Rule 12. All persons recorded as having an interest in either the management or ownership of said business, or responsible for the place of assembly, shall be conclusively presumed to have known of and ordered all such changes and alterations. Should it appear from the statement required in obtaining a permit or license that such business is owned or managed either wholly or in part by a corporation, the officers thereof shall be conclusively presumed to have known of and ordered such changes or alterations.

History: 1944 AC, p. 1403; 1954 AC, p. 309.

STORAGE AND HANDLING OF EXPLOSIVES

(By authority of sections 3 and 5 of Act No. 207 of the Public Acts of 1941, being §§29.3 and 29.5 of the Michigan Compiled Laws)

GENERAL PROVISIONS

R 28.131 Scope of rules.

Rule 1. (1) These rules shall apply to dealers and others who store explosives and to the manufacture, use, possession, storage, transportation, sale, distribution or gift of explosives.

(2) Any person, or his duly authorized agent, confronted with practical difficulties in the carrying out of the strict letter of these rules, may apply to the commissioner for modification thereof. Only such modifications as will not constitute a distinct hazard to life or property will be considered. The decision of the commissioner, including the particulars of any such application, shall be entered upon the records of the Michigan state police, and a signed copy thereof shall be furnished the applicant.

History: 1944 AC, p. 1403; 1944 ACS 38, p. 38; 1954 AC, p. 309.

R 28.132 Definitions.

Rule 2. For the purposes of these rules the following definitions shall be applied:

(a) The word "department" shall mean the Michigan state police.

(b) The word "commissioner" shall mean the commissioner of the Michigan state police, or his duly authorized representative.

(c) The word "highway" shall mean any public street or highway.

(d) The word "railroad" or "railway" shall mean any public steam, electric or other railroad of whatever motive power, but shall not include auxiliary tracks, spurs and sidings installed and primarily used in serving any mine quarry or plant.

(e) The word "manufacturer" shall mean any manufacturer of explosives or any person who otherwise produces any explosives for sale or distribution in the state, or who may ship explosives into or out of this state.

(f) The word "distributor" shall mean any person acting as a manufacturer's agent or jobber who deals in explosives and sells to retail dealers or to consumers.

(g) The word "dealer" shall mean any person, not a manufacturer, engaged in the business of buying and selling explosives.

(h) The word "magazine" shall mean a building or box specially designed, constructed and used only for the storage of explosives; magazines shall be of 4 classes: A, B, C, and D, as outlined in R 28.139.

(i) The word "barricade" shall mean natural features of the ground such as hills, timber of sufficient density that the surrounding exposures cannot be seen when the trees are bare of leaves or an efficient artificial barricade consisting of an artificial mound or properly revetted wall of earth of a minimum thickness of 3 feet.

(j) The word "person" shall mean any natural person or persons, firm, partnership, company, corporation, or association.

(k) The word "village" shall mean an incorporated village.

(l) The word "inspector" shall mean a state police officer assigned to inspect premises, equipment and conditions relative to the manufacture, storage, transportation, and use of explosives.

(m) The word "explosives" shall mean any and all of the following explosives: Gun powders, powders used for blasting, nitroglycerine, all forms of high explosives, blasting materials, fuses, detonators and other detonating agents, smokeless powders, any chemical compound of any mechanical mixture containing any oxidizing and combustible units or other ingredients in such proportion, quantities or packing that an ignition by fire, friction, concussion or detonation of any part of the compound or mixture may cause sudden generation of highly heated gases so that the resultant gaseous pressures are capable of producing destructive effects upon life, limb, or contiguous objects; but does not include gasoline, kerosene, naphtha, turpentine, benzine, butane, propane, colloided nitrocellulose in sheets or rods or grains not under ⅛ of an inch in diameter, wet nitrocellulose and wet nitrostarch containing 20% or more moisture or wet picric acid containing or being in 10% or more moisture. Manufactured articles, such as fixed ammunition for small arms, firecrackers, safety fuses, matches, et cetera, shall not be held to be explosives when the individual units contain explosives in such limited quantity of such nature in such packing that it is impossible to produce simultaneous or destructive explosion of such units to the injury of life, limb, or property.

(n) The term "approved" shall mean acceptable to the commissioner.

History: 1944 AC, p. 1404; 1954 AC, p. 310.

R 28.133, R 28.134 Rescinded.

History: 1944 AC, p. 1404; rescinded 1944 ACS 38, p. 39.

R 28.135 Persons selling or giving away explosives; written history of transaction; right to refuse certain persons permission to purchase explosives.

Rule 5. (1) Every person selling or giving away any explosives shall keep at his *principal* office or place of business a journal or book of record setting forth in

legible writing a complete history of the transaction including the name and quantity of the explosives, the name, residence and business address of the purchaser, and the name and address of the person taking the explosive away, including the license number of automobile or truck. Such journal or book of record shall be open at all times for inspection by the commissioner, the sheriff or police officers of any city or village.

(2) If any person is disloyal or hostile to the United States or any state thereof, or advocates the overthrow by means of force and violence, or has been convicted of a crime punishable by imprisonment for a term of more than 1 year, the commissioner shall have the right to refuse such person or persons permission to purchase explosives in the state of Michigan.

History: 1944 AC p. 1405; 1944 ACS 38, p. 38; 1954 AC, p. 311.

R 28.136, R 28.137 Rescinded.

History: 1944 AC, p. 1405; rescinded 1944 ACS 38, p. 39.

R 28.138 Storage of explosives.

Rule 8. No explosives in any quantity whatsoever shall be stored or kept in any industrial plant or in any building used in whole or in part as dwelling, school, theater or other place of public assemblage or gathering, or within 500 feet of the same, without a special permit from the commissioner, nor shall any explosive be stored in any residential section.

History: 1944 AC, p. 1405; 1954 AC, p. 311.

R 28.139 Permanent storage magazines.

Rule 9. Permanent storage magazines shall be of 4 classes to be called class A, class B, class C, and class D, as follows:

(a) Class A. A magazine to contain over 3,000 pounds of explosives.

(These magazines shall be constructed of either of the following:

(i) Soft brick laid in lime mortar, walls to be 6 inches thick.

(ii) Iron of not less than 14 gauge, lined with soft brick laid in lime mortar or lined with tongue and grooved hardwood of not less than ⅞ inch in thickness or no. 1 ship lap and filled with a mixture consisting of 1 part cement and 10 parts sand and not less than 6 inches in thickness.

(iii) Wood walls, not less than 6 inches apart, inside wall to be of tongue and grooved hardwood not less than ⅞ inch thick or no. 1 ship lap and tight, outside wall to be covered with not less than 26 gauge iron carried to not less than 6 inches below base of the foundation. Walls shall be filled with coarse dry sand or a mixture of 1 part cement and 10 parts sand.)

(b) Class B. A magazine to contain not over 3,000 pounds of explosives.

(These magazines shall be constructed similar to class A magazines but may be erected on wheels or skids so they may be moved.)

(c) Class C. A magazine to contain not over 300 pounds of explosives.

(These magazines shall be constructed of double wood walls with sides not less than 5 inches apart, studs to be staggered and filled with coarse dry sand or a mixture of 1 part cement and 10 parts sand, and shall be covered with not less than 26 gauge iron, or of steel of suitable weight with inside wood wall of satisfactory material and filled with coarse dry sand or a mixture of 1 part cement and 10 parts sand.)

(d) Class D. A magazine to contain not over 50 pounds of explosives.

(Magazines of this type shall be constructed of 2-inch hardwood plank securely bolted together and built in the shape of an ordinary contractor's toolbox, having a cover of the same material, this cover to hang over edge of box not less than 1 inch on all sides and to be covered with sheet metal, or of steel of suitable weight and proper dimensions.)

History: 1944 AC, p. 1405; 1954 AC, p. 311.

R 28.140 Magazines generally.

Rule 10. Magazines must be of ample size, be fire-resisting and as near bullet-proof as possible, and provide conditions whereby explosives may be safely kept with a minimum of deterioration.

History: 1944 AC, p. 1406; 1954 AC, p. 312.

R 28.141 Magazines; location.

Rule 11. All such magazines shall be suitably located, and wherever possible effort should be made to get a natural barricade which will cover the most important exposure to hazards. Where such natural barricade is not available artificial barricades may be required, depending upon the location and the contiguous hazards. The land immediately adjacent to any magazine for at least 50 feet in each direction shall be cleared and kept clear of all brush and combustible matter.

History: 1944 AC, p. 1406; 1954 AC, p. 312.

R 28.142 Foundations.

Rule 12. (1) Class A magazines may be of brick, concrete, stone or posts. They shall be of substantial construction and provide a minimum distance of 12 inches between ground and floor of magazine. Openings spaced not less than 5 feet apart, of not less than 6 inches in width and 4 inches in height, screened with ¼ inch rust resisting mesh or perforated iron or steel plates with openings not larger than ¼ inch.

(2) Class B and C magazines may be similar to class A, but shall provide a minimum of 12 inches between ground and floor of magazine.

History: 1944 AC, p. 1406; 1954 AC, p. 312.

R 28.143 Doors.

Rule 13. (1) Class A magazine doors shall be constructed of 3 thicknesses of ⅞-inch tongue and grooved hardwood, laid diagonally and covered with a wrought iron or steel plate of not less than ⅜ inch thick, or its equivalent.

(2) Class B magazine doors shall be constructed similar to class A or may be of 5 thicknesses of ⅞-inch tongue and grooved hardwood laid diagonally and covered with 26 gauge iron or its equivalent.

(3) Class C magazine doors or top for same shall be constructed of not less than 4 thicknesses of ⅞-inch tongue and grooved hardwood laid diagonally. These may be constructed similar to doors for class A magazines, or its equivalent.

History: 1944 AC, p. 1406; 1954 AC, p. 312.

R 28.144 Roof.

Rule 14. (1) Class A magazines shall be of a metal of not less than 26 gauge corrugated iron, lapped 2 corrugations unless covered with flat steel with standing seams. If roof is not bulletproof and location is such that it can be shot through, there shall be not less than 4 inches of sand between roof and contents of magazine.

(2) Class B magazines shall be similar to class A or may be constructed of 4 thicknesses of ⅞-inch tongue and grooved hardwood covered with 26 gauge iron.

(3) Class C roof or top shall be constructed of not less than 3 thicknesses of ⅞-inch tongue and grooved hardwood laid diagonally and covered with 26 gauge iron.

History: 1944 AC, p. 1406; 1954 AC, p. 312.

R 28.145 Ventilation.

Rule 15. (1) Class A magazines shall be provided with interior ventilation by leaving a space 2 inches in width between the edge of the floor and wall about the entire perimeter of the floor, except at the door opening, and providing a similar space 2 inches in width around the entire perimeter of the ceiling or lining or by having floor planking separated ¼ inch in order to provide free circulation of air from ventilators located below floor level in foundation and through ventilators located above content line of the magazine or in roof.

(2) Class B magazines shall be ventilated similar to class A.

(3) Class C magazines shall have bottom floorboards spaced ¼ inch apart to provide for necessary ventilation.

History: 1944 AC, p. 1406; 1954 AC, p. 312.

R 28.146 Locks.

Rule 16. (1) Class A shall be of special construction for magazines or of substantial construction with a hasp that cannot be cut with a hack saw. Eyes or staples shall be bolted through the sides of the magazines with round head bolts.

(2) Class B magazines shall have locks similar to those specified for class A.

(3) Class C magazines shall have substantial padlocks similar to those specified in class A.

(4) Class D magazines shall have a substantial lock.

(5) Each explosive magazine shall be securely locked at all times except when explosives are being placed therein or being removed therefrom.

History: 1944 AC, p. 1406; 1954 AC, p. 313.

R 28.147 Door hinges.

Rule 17. (1) Class A magazines shall have hinges bolted through the side of the magazine with round head bolts or inside hinges used.

(2) Class B magazines shall have hinges similar to those specified for class A.

(3) Class C magazines shall have substantial hinges bolted through the side of the magazine and round head bolts used.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.148 Signs.

Rule 18. (1) Class A and B magazines shall have signs posted approximately parallel to each side of the magazine at a distance not less than 50 feet and not more than 200 feet from magazine reading: "EXPLOSIVES—KEEP OFF." Letters shall be not less than 6 inches high.

(2) Class C and D magazines shall have painted on each side and top in letters not less than 4 inches high the words: "EXPLOSIVES—KEEP OFF."

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.149 Additional magazine.

Rule 19. All dealers and others having a permanent storage of explosives shall have an additional *magazine of suitable size and 1* of the above-described types

of construction for the storage of blasting caps and electric blasting caps. Such magazine, if located on the same premises, or storing more than 5,000 pounds, shall be at least 100 feet distant from any other magazine if unbarricaded and 50 feet if barricaded, location to be approved by the commissioner.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.150 Magazines for storage of dynamite or similar explosives.

Rule 20. Magazines for the storage of dynamite or similar explosives shall not be erected within 200 feet of each other if unbarricaded and 100 feet if barricaded.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.151 Storage of blasting caps, detonators, and blasting supplies.

Rule 21. Blasting caps and electric blasting caps, detonators, and blasting supplies shall not be stored with other explosives, regardless of quantity. They shall be kept in separate magazines.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.152 Opening packages of high explosives.

Rule 22. No package of high explosives shall at any time be opened within 50 feet of any magazine. A wooden wedge and mallet shall be used for the opening of explosive cases.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.153 Smoking.

Rule 23. No person shall smoke within 50 feet of any explosive magazine.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.154 Empty high explosive containers.

Rule 24. All empty high explosive containers shall be removed from magazines and destroyed by fire. Each magazine shall be kept free and clear from all paper, rubbish and grit, and debris of any kind, and shall be used exclusively for storage of explosives. No metal tools shall be kept in magazines. Inside of magazines shall not have any exposed or protruding metal parts.

History: 1944 AC, p. 1407; 1954 AC, p. 313.

R 28.155 Artificial light or heat in explosive magazines.

Rule 25. No artificial light other than portable electric dry cell battery lamps or lanterns may be used in explosive magazines. At no time shall an explosive magazine be provided with artificial heat.

History: 1944 AC, p. 1407; 1954 AC, p. 314.

R 28.156 Repairs or alterations.

Rule 26. Before any repairs or alterations are made to the interior of any explosive magazine, the explosives must be removed therefrom and the magazine shall be thoroughly cleaned and the commissioner notified.

History: 1944 AC, p. 1407; 1954 AC, p. 314.

R 28.157 Condemned or leaking dynamite.

Rule 27. (1) Condemned or leaking dynamite shall not be repacked and offered for shipment unless the repacking is done by a competent person in the presence of or with the written consent of an inspector or with the written authority of the United States bureau of explosives.

(2) Leaking dynamite which is unsuitable for repacking shall be destroyed under the supervision of a competent person.

History: 1944 AC, p. 1407; 1954 AC, p. 314.

R 28.158 Removal of explosives; watchman.

Rule 28. The commissioner may, in his discretion, at any time he deems it necessary for public safety, require the removal of any explosives, or that a watchman be placed continuously in charge of any explosives.

History: 1944 AC, p. 1407; 1954 AC, p. 314.

R 28.159 Reporting accidents, thefts, fires, or explosions.

Rule 29. All accidents, thefts, fires, or explosions, no matter how small, occurring in connection with the keeping, storage, manufacture, sale, transportation or use of explosives shall be reported to the proper police authorities and to the commissioner at once by telegraph or telephone, and be supplemented by a detailed written statement to the commissioner.

History: 1944 AC, p. 1407; 1954 AC, p. 314.

R 28.160 New buildings, railroads, or highways near magazine.

Rule 30. Whenever new buildings are erected or new railroads or highways are constructed near a magazine, the permissive capacity of such magazine shall be reduced in conformity with the standard table of distances, as follows:

Standard Table of Distances

Blasting Caps and Electricity Caps		Other Explosives		Inhabited Bldg.	Public Ry.	Public Hwy.
No. Over	No. not Over	Lbs. Over	Lbs. not Over	*Barricaded Feet		
1,000	5,000			15	10	5

R 28.161 Inspections.

Rule 31. Every magazine and the records of sales, etc., of all explosives shall be subject to inspection at any time by any police officer or the commissioner or his duly authorized representative.

History: 1944 AC, p. 1409; 1954 AC, p. 315.

R 28.162 Intent.

Rule 32. These rules concerning the storage of explosives in substantial quantities are intended to set up proper standards for safety, and no variations will be permitted which lower the factor of safety from these standards.

History: 1944 AC, p. 1409; 1954 AC, p. 315.

R 28.163 Reporting violation to prosecuting attorney and commissioner.

Rule 33. Any sheriff, police officer, or fire chief finding evidence of violation of these rules shall bring it to the immediate attention of the prosecuting attorney of the county where violation occurs and a report of such violation shall be submitted to the commissioner immediately.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.164 Inspection of magazines existing as of January 1, 1942.

Rule 34. All magazines existing as of January 1, 1942, will be inspected by the commissioner or his duly authorized representative, and any magazines which do not have factors of safety equal to magazines prescribed in these rules will be subject to orders for improvement or abandonment. Owners of defective magazines will be given 60 days in which to comply with such orders as may be made relative to their magazines.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.165 Ordinances, rules, and regulations of cities and municipalities.

Rule 35. Any existing ordinance, rule or regulation of any city or municipality which is more restrictive than these rules governing the manufacture, storage, sale, use or transportation of explosives, shall not be affected by anything contained herein, nor shall anything contained herein affect, modify, or limit the power of cities or municipalities in this state to make ordinances, rules or regulations more restrictive than these rules governing the manufacture, storage, sale, use, or transportation of explosives within their respective corporate limits, provided that R 28.131, R 28.133, and R 28.134 shall be complied with.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.166 Temporary construction; magazine.

Rule 36. For temporary construction work, a magazine having a capacity not to exceed 1 ton of dynamite may be constructed in accordance with any of the following specifications.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.167 Construction of temporary magazine; outer and inner boxes.

Rule 37. The principles of construction of a temporary magazine is simply that of placing 1 substantial box inside of another substantial box with a 5-inch space filled with coarse dry sand (not gravel or crushed rock). The outer box shall be built on the order of any ordinary contractor's toolbox equipped with a sloping hinged lid. It shall be constructed of ⅞-inch sheathing and covered with not less

than 24 gauge galvanized sheet iron. The outer box shall be 1 foot longer, 1 foot wider, and 6 inches deeper than the interior box so that when the interior box is set inside the outer box the tops will be level with each other and there will be a 5-inch space on all sides for sand filling. The interior box shall be built of ⅞-inch sheathing properly surfaced on the inside and constructed so that no nail, bolt or metal screw head shall be exposed on the inside of the box. The cover to be of 2-inch hardwood plank covered with 12 gauge flat iron, and should overhang the edge of the box 1 inch on all sides. To prevent sand from falling into the storage space or shifting position, a cover may be placed over the sand space.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.168 Construction of hardwood magazine.

Rule 38. For similar purpose, a magazine may be built of 2-inch hardwood plank securely bolted together on all sides and built in the shape of an ordinary contractor's toolbox having cover of the same material as the other parts of the box, this cover to overhang the edge of the box 1 inch on all sides, all of which is to be covered with not less than 12 gauge flat iron.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.169 Construction of steel magazine.

Rule 39. For similar purpose, a magazine well and truly constructed of steel of suitable weight and proper dimensions may be used.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.170 Magazine foundation.

Rule 40. All such magazines shall be set on substantial foundation at least 6 inches off the ground and equipped with strong hinges securely bolted on the inside and with 2 strong hasps and with 2 suitable padlocks.

History: 1944 AC, p. 1409; 1954 AC, p. 316.

R 28.171 High explosives; storage limitations.

Rule 41. (1) Not more than 50 pounds of dynamite or similar high explosives shall be stored in any store, place of business, or building in this state, wherever storage is allowed in quantities of 50 pounds or less, the explosive shall then be stored and kept in a magazine well and suitably built of fire-resisting material or of wood not less than 2 inches thick covered with sheet iron. Such magazine shall be equipped with strong hinges, a good lock, suitable handles, and shall be mounted on casters or wheels and kept on the first floor of the building at a location to be determined by the commissioner or fire chief of the city or village in which building is located.

(2) In case explosives are to be stored outside the corporate limits of a city or village, similar approval must be obtained from the sheriff of the county where explosives are to be stored.

(3) In no event shall there be any storage of explosives in any city or village that has an ordinance prohibiting such storage.

History: 1944 AC, p. 1409; 1954 AC, p. 317.

R 28.172 Vehicles generally.

Rule 42. Every dealer in, or transporter of, explosives (who makes deliveries of explosives) shall have 1 or more suitable vehicles for such purpose.

History: 1944 AC, p. 1409; 1954 AC, p. 317.

R 28.173 Vehicle; body.

Rule 43. The body of each such vehicle used for the transportation of explosives shall be entirely enclosed. The doors shall be equipped with strong hinges securely bolted on the inside and provided with 2 suitable padlocks which shall be kept locked at all times when explosives are carried. The entire body shall be constructed that no bolts, screws, nails, or any metal shall be exposed on the inside thereof. In quantities not to exceed 6,000 pounds it shall be satisfactory to use securely fastened tarpaulin for the cover.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.174 Vehicle; signs.

Rule 44. Each such vehicle shall bear signs on the front, rear and each side reading: "EXPLOSIVES" in white letters upon a red background, which letters shall not be less than 5 inches in height.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.175 Vehicle; fire extinguishers.

Rule 45. Each such vehicle so used shall be equipped with 2 approved fire extinguishers which shall be properly charged and in good working order at all times.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.176 Vehicle; mechanical condition; loading.

Rule 46. Each vehicle used in the transportation of explosives shall be in good mechanical condition and at no time shall it be loaded beyond its capacity.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.177 Vehicle; inspections.

Rule 47. Each owner or operator of such vehicle, if it be a motor vehicle, shall make daily inspections of his vehicle and see that the fire extinguishers are in good condition, that the chassis, motor and pan are free from grease and oil, and that all of the mechanical parts are in good working order.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.178 Vehicle; driving past fires.

Rule 48. At no time shall any vehicle be driven past fires of any kind burning on or near the highway or other thoroughfare until after due caution shall have been taken to ascertain that such passing may be made safely.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.179 Transporting explosives in trailer prohibited.

Rule 49. Explosives shall not be transported in any form of trailer, nor shall any trailer be attached to any vehicle which is carrying explosives.

History: 1944 AC, p. 1410; 1954 AC, p. 317.

R 28.180 Transportation of dynamite and blasting caps.

Rule 50. Not more than 50 pounds of dynamite, nor more than 100 blasting caps or electric blasting caps, shall be transported in any vehicle which does not comply with the foregoing requirements.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.181 Transportation of more than 100 blasting caps.

Rule 51. Not more than 100 blasting caps of any kind shall be transported in any vehicle unless stored in a separate compartment constructed of 2-inch wood covered with sheet metal of not less than no. 8 gauge with heavy hinges on the door or cover, and when other explosives are transported in the same vehicle, the maximum number of blasting caps which may be carried in this compartment is 5,000.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.182 Loading and unloading explosives.

Rule 52. In loading or unloading explosives care shall be given to the handling of same and in loading these cases shall be placed or stowed as to prevent displacement during transit. No bail-hook or metal tools shall be used in loading or unloading.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.183 Packing explosives; marking.

Rule 53. When explosives are being transported they shall be packed in strong wooden boxes or other containers suitable for that purpose. Each box or case shall be plainly marked stating the make and type of explosives contained therein.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.184 Vehicle operators.

Rule 54. Only careful, capable and reliable persons shall operate vehicles carrying explosives.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.185 Vehicle operators; familiarity with state law, regulations, and ordinances.

Rule 55. Each such operator shall be familiar with the state law and regulations and with the local ordinances relating to the transportation of explosives.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.186 Stopping and parking vehicles.

Rule 56. Vehicles shall not make unnecessary stops and shall not be parked in any public street or highway or in any repair shop or garage or near any church, school, or other place of public assembly, unless for emergency repairs to the vehicle.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.187 Vehicle speed; route.

Rule 57. Vehicles carrying explosives shall not travel faster than 35 miles per hour and shall not coast down any hill. Such vehicles must use the least traveled main thoroughfares through the cities or towns through which it is necessary to pass.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.188 Minimum age of vehicle operator.

Rule 58. No vehicle carrying explosives shall be operated by any person under 21 years of age.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.189 Acts prohibited in vehicle.

Rule 59. The operator of a vehicle carrying explosives shall not smoke, carry matches, or use intoxicating liquors while so engaged or permit any other person on such vehicle to do so.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.190 Passengers or unnecessary persons.

Rule 60. No passengers or unnecessary persons shall be permitted to ride on vehicles carrying explosives.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.191 Materials and items prohibited in vehicles.

Rule 61. No metal, metal tools, carbides, oils, matches, firearms, electric storage batteries, inflammable substances, acids, oxidizing, or corrosive compounds shall be carried in the bed or body of any motor truck or vehicle transporting explosives.

History: 1944 AC, p. 1410; 1954 AC, p. 318.

R 28.192 Interstate transportation of explosives into state.

Rule 62. There shall be no interstate transportation of explosives into this state except in accordance with the rules and regulations prepared and published by the interstate commerce commission.

History: 1944 AC, p. 1410; 1954 AC, p. 319.

R 28.193 Unloading railroad cars.

Rule 63. All railroad cars loaded with explosives shall be properly unloaded and their contents transported to magazines in vehicles which comply with these rules. Except during actual unloading, such cars shall be securely locked.

History: 1944 AC, p. 1410; 1954 AC, p. 319.

R 28.194 Transporting explosives on vessels.

Rule 64. No explosive shall be carried or transported on the waters of the state of Michigan on any vessel which is carrying passengers, except according to federal regulations governing steamboats.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

R 28.195 Loading and unloading explosives on boats.

Rule 65. The loading and unloading of explosives on boats at any dock shall not be permitted without special permission in writing from the commissioner. These officials shall have the right to prescribe the requirements pertaining to storage of explosives in any port warehouse, or any dock, or in any freight warehouse, such storage not to exceed 24 hours.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

R 28.196 Disapproval by commissioner of storage location.

Rule 66. The commissioner shall have the right to disapprove any location he deems unfit or dangerous for storing explosives and refuse permission to store explosives in such location.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

R 28.197 Right to refuse or revoke applicant's permission to handle explosives.

Rule 67. When any applicant is found to be unreliable or inexperienced in the handling of explosives, the commissioner shall have the right to refuse such applicant permission to store, keep, sell, or deal in explosives; or if permission was obtained through fraud, misrepresentation or mistake, such permission may be immediately revoked.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

R 28.198 Reporting suspicious persons to police.

Rule 68. A vendor of explosives shall immediately report to the most available police officer any person who desires to purchase explosives of whom he is suspicious and shall withhold the sale until after proper investigation is made by police authorities.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

R 28.199 Right to refuse certain persons permission to handle explosives.

Rule 69. (1) If any individual, or members of a firm or partnership, or any director, is disloyal or hostile to the United States or any state thereof, or advocates the overthrow thereof by means of force and violence, or has been convicted of a crime punishable by imprisonment for a term of more than 1 year, the commissioner shall have the right to refuse such person or persons permission to store, keep, sell, or deal in explosives in the state of Michigan.

(2) The commissioner shall also in his discretion refuse to issue any permit under these rules in such instances as the commissioner shall determine to be for the safety of the state of Michigan.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

R 28.200 Applicability.

Rule 70. The provisions of these rules shall not apply to the armed forces of the United States or to the national guard.

History: 1944 AC, p. 1411; 1954 AC, p. 319.

FIRE MARSHAL DIVISION

FLAMMABLE LIQUIDS

R 28.221—R 28.308 Rescinded.

History: 1944 AC, pp. 1412-1426; 1954 AC, pp. 320-338; rescinded 1954 ACS 74, p. 5, Eff. Mar. 8, 1973.

LIQUEFIED PETROLEUM GASES

R 28.401—R 28.561 Rescinded.

History: 1944 ACS 10, pp. 30-52; 1944 ACS 30, pp. 21-53; 1954 AC, pp. 338-373; rescinded 1954 ACS 22, p. 5, Eff. May 13, 1960.

FLAMMABLE LIQUIDS

(By authority conferred on the department of state police by sections 3, 3a, 3c, 5, and 5a of Act No. 207 of the Public Acts of 1941, as amended, being §§29.3, 29.3a, 29.3c, 29.5, and 29.5a of the Michigan Compiled Laws)

GENERAL PROVISIONS

R 28.601 Scope of rules.

Rule 1. (1) These rules shall apply to all persons, firms, copartnerships, corporations and voluntary associations transporting, storing, handling, selling,

Digitized by Google UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

using or processing flammable liquids, and shall also apply to the owner of any building or premises, in or on which flammable liquids are stored or kept, and to the owner of any equipment used in transporting, storing, handling, selling or processing flammable liquids, and to the state of Michigan, or any political subdivision thereof. The word "owner" shall be given its ordinary meaning and be held to include any trustee, a board of trustees of such property, or any person having a freehold interest in property, but a mortgagee of such property shall not be deemed an owner thereof.

(2) These rules shall apply to the construction or remodeling of buildings and plants for flammable liquids and shall apply to new installation of and replacement of equipment for flammable liquids. These rules shall also apply to existing buildings, plants or equipment hereafter used for flammable liquids, but shall not be construed to require structural alterations to existing buildings, plants or equipment now used for flammable liquids, except as specifically required by these rules, unless the commissioner shall determine the conditions constitute a distinct hazard to life or property.

(3) Any person or his duly authorized agent, confronted with practical difficulties in carrying out the strict letter of these rules, may apply to the commissioner for modification thereof. Only such modifications as will not constitute a distinct hazard to life or property will be considered. The decision of the commissioner, including the particulars of any such application, shall be entered upon the records of the Michigan state police, and a signed copy thereof shall be furnished the applicant.

History: 1954 ACS 5, p. 5, Eff. Feb. 15, 1956.

R 28.602 Definitions.

Rule 2. As used in these rules:

(a) "Aircraft service station" means that portion of an airport where a flammable liquid used as aircraft fuel is stored or dispensed, and includes facilities essential to that storage or dispensing.

(b) "Approved" means a device, method, or piece of equipment which meets the applicable standards prescribed by the underwriters' laboratories, inc., national board of fire underwriters, national fire protection association, American petroleum institute, American society of mechanical engineers, American society for testing materials, American standards association, or an organization designated by the state fire marshal, but only for those standards which are deemed acceptable by the state fire marshal.

(c) "Approved permanently attached extinguishing system" means a fixed foam or other recognized extinguishing system acceptable to the state fire marshal.

(d) "Automotive service station" means that portion of a property where flammable liquids used as motor fuels are stored and dispensed from fixed equipment into the fuel tanks of motor vehicles or internal combustion engines.

(e) "Baffle" means a nonliquid-tight transverse partition in a cargo tank.

(f) "Barrel" means a volume of 42 U.S. gallons, unless the context indicates a different meaning.

(g) "Building" means a structure, framework, or housing, public or private.

(h) "Bulk plant" means that portion of a property where a flammable liquid is received by tank vessel, pipeline, *tank car, or tank* vehicle, and is stored or

Digitized by Google Original from UNIVERSITY OF MICHIGAN

blended in bulk for distribution of the liquids by tank vessel, pipeline, tank car, tank vehicle, or container.

(i) "Cargo tank" means a container having a liquid capacity of more than 100 gallons mounted permanently or otherwise on a tank vehicle, but only while the container contains a flammable liquid. "Cargo tank" does not include a container used solely for the purpose of supplying fuel for the propulsion of the tank vehicle on which it is mounted.

(j) "Chemical plant" means a plant engaged in the manufacture or production of chemicals to the extent that a flammable liquid is involved in the processing, compounding, or formulating of the chemicals.

(k) "Closed container" means a container sealed in a manner which prevents liquids and vapors from escaping at temperatures at or above -30 degrees Fahrenheit but not above 130 degrees Fahrenheit.

(l) "Commercial or industrial establishment" means a place in which the storage, handling, or use of a flammable liquid is incidental to the principal business or process.

(m) "Commissioner" means the director of the department of state police or a representative designated by the director.

(n) "Compartment" means a liquid-tight division in a cargo tank.

(o) "Container" means a can, bucket, receptacle, barrel, drum, or portable tank, but does not include a tank, cargo tank, or tank car.

(p) "Crude petroleum" means a hydrocarbon mixture that has a flash point below 150 degrees Fahrenheit and which has not been processed in a refinery.

(q) "Flammable liquid" means a liquid that has a flash point below 200 degrees Fahrenheit and that has a vapor pressure of not more than 40 pounds per square inch (absolute) at 100 degrees Fahrenheit. Flammable liquids shall be divided into 3 classes as follows:

(i) Class I includes liquids that have flash points at or below 20 degrees Fahrenheit.

(ii) Class II includes liquids that have flash points above 20 degrees Fahrenheit but at or below 70 degrees Fahrenheit.

(iii) Class III includes liquids that have flash points above 70 degrees Fahrenheit and below 200 degrees Fahrenheit. The volatility of flammable liquids is increased when artificially heated to temperatures equal to or higher than their flash points. When so heated, class II or III flammable liquids shall be subject to the applicable requirements for class I or II flammable liquids. These rules shall also be applied to a liquid which has a flash point at or above 200 degrees Fahrenheit if heated to a temperature equal to or above the liquid's flash point temperature.

(r) "Flash point" means the minimum temperature, in degrees Fahrenheit, at which a flammable liquid gives off flammable vapor as determined by the appropriate test procedure and apparatus as specified below:

(i) The flash point of a flammable liquid having a flash point below 175 degrees Fahrenheit shall be determined in accordance with the "standard method of test for flash point by means of the tag closed tester" as published in the American society for testing materials in pamphlet D56-77 of 1977.

(ii) The flash point of a flammable liquid having a flash point of 175 degrees Fahrenheit or above shall be determined in accordance with the "standard method of test for flash point by means of the Pensky-Martens closed tester" as published in the American society for testing materials in pamphlet D93-77 of 1977

Representative examples of the classes of flammable liquids are:

I	II	III
Ether	Denatured alcohol	Kerosene
Acetone	Toluol	Turpentine
Benzol	Methyl alcohol	Amyl alcohol
Gasoline		Mineral spirits
Methyl acetate		Stoddard solvent
Collodion		Fuel oil
Carbon bisulphide (Disulphide)		Whiskey

A manufactured liquid commodity, such as paint, varnish, dryer, cleaning solution, or polishing liquid, which contains flammable liquid shall be considered a flammable liquid and shall be classified, as provided in subdivision (q)(i), (ii), (iii), according to the flash point of the mixture.

(s) "Head" or "bulkhead" means a liquid-tight transverse closure at the end of a cargo tank or between compartments of a cargo tank.

(t) "Marine service station" means that portion of property on which a flammable liquid used to fuel the motors of floating craft is stored and dispensed whether on shore, on piers, on wharves, or on barges, and includes all facilities used in connection with that storage or dispensing.

(u) "Processing plant" means that portion of property in which a flammable liquid is mixed, heated, separated, or otherwise processed as the principal business.

(v) "Refinery" means a plant in which a flammable liquid is produced on a commercial scale from crude petroleum, natural gasoline, or any other hydrocarbon source.

(w) "Safety can" means an approved container of not more than 5-gallon capacity which has a spring-closing lid and spout cover.

(x) "Tank" means a vessel used to store a flammable liquid and fixed in place or connected to a piping system.

(y) "Tank vehicle" means a vehicle used for the bulk transportation of a flammable liquid, including a tank truck, tank trailer, tank semitrailer or a combination of tank trucks, tank trailers, and tank semitrailers.

(z) "Vapor pressure" means the pressure, measured in pounds per square inch (absolute), exerted by a volatile liquid as determined by the "standard method of test for vapor pressure of petroleum products (Reid method)" as published in the American society for testing materials in pamphlet D323-72 of 1972.

(aa) "Semitrailer" means a vehicle with or without motive power, other than a pole-trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests on, or is carried by, another vehicle.

(bb) "Supply depot" means that portion of a property where a flammable liquid is received by marine vessel, pipeline, railroad car, truck, truck pulling a trailer, truck tractor pulling a semitrailer, or truck tractor pulling a semitrailer and trailer combination, and is stored or blended in bulk for the purpose of distributing the liquid by marine vessel, pipeline, railroad car, truck, truck pulling a trailer, truck tractor pulling a semitrailer, or truck tractor pulling semitrailer and trailer combination.

(cc) "Trailer" means a vehicle with or without motive power, other than a pole-trailer, designed for carrying persons or property and for being drawn by a

motor vehicle and so constructed that no part of its weight rests on the towing vehicle.

(dd) "Truck" means a motor vehicle designed, used, or maintained primarily for the transportation of property.

(ee) "Truck tractor" means a motor vehicle designed and used primarily for drawing other vehicles and not constructed to carry a load other than a part of the weight of the vehicle and load so drawn.

(ff) "Vehicle" means a device in, on, or by which any person or property is or may be transported or drawn upon a highway, excepting devices exclusively moved by human power or used exclusively on stationary rails or tracks.

History: 1954 ACS 5, p. 5, Eff. Feb. 15, 1956; 1954 ACS 99, p. 8, Eff. May 10, 1979.

R 28.602a Adoption by reference.

Rule 2a. The standards and regulations listed in this rule are incorporated by reference and adopted as part of these rules. Copies of the adopted standards and regulations are available for inspection and distribution at cost either at the office of the State Police Fire Marshal Division, 7150 Harris Drive, Lansing, Michigan 48913, or from the organization listed in the appropriate subdivision.

(a) The following standards and regulations may be obtained from the National Fire Protection Association, 60 Batterymarch, Boston, Massachusetts 02110, at the stated cost:

(i) "National electric code," pamphlet no. 70, 1978. $3.25.

(ii) "Standards for the installation of portable fire extinguishers," pamphlet no. 10,1978. $3.25.

(b) The following standards and regulations may be obtained from the American Society for Testing Materials, 1916 Race Street, Philadelphia, Pennsylvania 19103, at the stated cost:

(i) "Standard method of test for flash point by means of the Pensky-Martens closed tester," pamphlet no. D93-77, 1977. $1.75.

(ii) "Standard method of test for flash point by means of the tag closed tester," pamphlet no. D56-77, 1977. $1.75.

(iii) "Standard method of test for vapor pressure of petroleum products (Reid method)," pamphlet no. D323-72, 1972. $1.75.

History: 1954 ACS 74, p. 5, Eff. Mar. 8, 1973; 1954 ACS 99, p. 10, Eff. May 10, 1979.

R 28.603 Right to refuse delivery.

Rule 3. (1) Any person may refuse to deliver flammable liquid into any type of container to any other person who in his judgment is not of sufficient age or sufficiently responsible to understand the proper use of the product or when he has reason to believe that the intended use of the flammable liquid would constitute a hazard to life or property.

(2) Any person shall refuse to deliver flammable liquids into any tank or container or under any circumstances prohibited by these regulations.

History: 1954 ACS 5, p. 7, Eff. Feb. 15, 1956.

R 28.604 Enforcement.

Rule 4. Enforcement of these regulations shall be by the procedure established by Act No. 207 of the Public Acts of 1941, as amended.

History: 1954 ACS 5, p. 7, Eff. Feb. 15, 1956.

R 28.604a Rescission.

Rule 4a. The rules entitled "Flammable Liquids Regulations," being R 28.221 to R 28.308 of the Michigan Administrative Code and appearing on pages 320 to 338 of the 1954 Michigan Administrative Code, are rescinded.

History: 1954 ACS 74, p. 5, Eff. Mar. 8, 1973.

DIVISION I
TRANSPORTATION OF FLAMMABLE LIQUIDS

R 28.605 Application.

Rule 5. (1) No person shall transport any flammable liquids, other than motor fuel in the fuel supply tank of a vehicle, on any highway, street or alley in the state of Michigan except in a tank vehicle or containers as hereinafter provided, or in a tank vehicle complying with requirements of the interstate commerce commission.

(2) R 28.606 to R 28.635 shall apply to the transportation of flammable liquids by and the dispensing of flammable liquids from tank vehicles.

(3) R 28.636 and R 28.637 shall apply to flammable liquids in containers.

History: 1954 ACS 5, p. 7, Eff. Feb. 15, 1956.

R 28.606 Tank specifications.

Rule 6. (1) Cargo tanks for the transportation of flammable liquids shall be constructed of material as provided for in this rule.

(2) Cargo tanks constructed of mild steel.

All sheets for such cargo tanks shall be of mild steel to meet the following requirements:

Yield point, minimum ..... 25,000 pounds per square inch
Ultimate strength, minimum ..... 45,000 pounds per square inch
Minimum elongation, standard 2-inch sample 20%

The minimum thicknesses of tank sheets shall be limited by the volume capacity of the tank expressed in terms of gallons per inch in length; and by the distance between bulkheads, baffles or other shell stiffeners, as well as by the radius of shell curvature in case of shell sheets, as follows:

Minimum Thickness of Head, Bulkhead, and Baffle Sheets

Mild steel

Heads, Bulkheads, or Baffles	Dished	Corrugated	Reinforced	Rolled
Volume capacity of tank in gallons per inch of length	10 or Less	Over 10 to 14	Over 14 to 18	Over 18
U.S. standard gauge no.	14	13	12	11

Thickness of exterior head sheets shall never be less than the maximum requirements for shell sheets *in any specific unit.*

Minimum Thickness of Shell Sheets
Mild steel

Volume capacity of tank in gallons per inch of length	Distance between attachments of bulkheads, baffles, or other shell stiffeners		
U.S. standard gauge for maximum shell radius of less than 70 inches:	36 inches or less	Over 36 inches to 54 inches	Over 54 inches
10 gallons or less	14	14	14
Over 10 to 14 gallons	14	14	13
Over 14 to 18 gallons	14	13	12
Over 18 gallons	13	12	11
U.S. standard gauge for maximum shell radius of 70 inches or more, but less than 90 inches:			
10 gallons or less	14	14	13
Over 10 to 14 gallons	14	13	12
Over 14 to 18 gallons	13	12	11
Over 18 gallons	12	11	10
U.S. standard gauge for maximum shell radius of 90 inches or more, but not over 125 inches:			
10 gallons or less	14	13	12
Over 10 to 14 gallons	13	12	11
Over 14 to 18 gallons	12	11	10
Over 18 gallons	11	10	9
U.S. standard gauge for maximum shell radius of 125 inches or more:			
10 gallons or less	13	12	11
Over 10 to 14 gallons	12	11	10
Over 14 to 18 gallons	11	10	9
Over 18 gallons	10	9	8

(3) Cargo tanks constructed of low alloy low carbon (high tensile) steel.

All sheets for such cargo tanks shall be of low alloy, low carbon steel, commonly known as high tensile, meeting the following requirements:

Yield point, minimum ..... 50,000 pounds per square inch
Ultimate strength, minimum ..... 65,000 pounds per square inch
Maximum elongation, standard 2-inch sample 20%

The minimum thicknesses of tank sheets shall be limited by the volume capacity of the tank, expressed in terms of gallons per inch of length; and by the distance between bulkheads, baffles, or other shell stiffeners, as well as by the radius of shell curvature in the case of shell sheets, as follows:

Minimum Thickness of Head, Bulkhead, and Baffle Sheets
Low alloy low carbon (high tensile) steel

Heads, Bulkheads, or Baffles	Dished	Corrugated	Reinforced	Rolled
Volume capacity of tank in gallons per inch of length	10 or Less	Over 10 to 14	Over 14 to 18	Over 18
U.S. standard gauge no.	15	14	13	12

Thickness of exterior head sheets shall never be less than the maximum *requirements* for shell sheets in any specific unit.

	0.0673	15
	0.0747	14
	0.0897	13
	0.1046	12
1/8	0.1196	11
	0.1345	10
	0.1495	9

(4) Joints shall be made in accordance with recognized good practice and the efficiency of any joint shall be not less than 85% of that of the adjacent metal in the tank. Low alloy, low carbon (high tensile) steel sheets, however, shall be joined by fusion welding.

(5) Mild steel and low alloy, low carbon steel may be used in the construction of a single tank, provided each material, where used, shall comply with the minimum requirements of its respective specifications for that section of the tank.

(6) Cargo tanks constructed of aluminum alloys for high strength welded construction.

(a) All sheets for shell, heads and bulkheads of such cargo tanks shall be of aluminum alloys GR20A (5052 commercial designation), GR40A (5154 commercial designation) or GM40A (5086 commercial designation), conforming to American society for testing materials specification B178-54T.

(b) All heads, bulkheads, baffles, and other shell stiffeners may use O temper (annealed) or stronger tempers. All shells shall be of H32 temper or H34 temper, except that when shell thicknesses of 0.250 inch or thicker are used, the H112 temper is additionally permitted.

(c) The minimum nominal thicknesses of tank sheets shall be limited by the volume capacity of the tank, expressed in terms of gallons per inch of length; and by the distance between bulkheads, baffles, or other shell stiffeners, as well as by the radius of shell curvature in the case of shell sheets, as follows:

Minimum Thickness of Head, Bulkhead, and Baffle Sheets*
(Aluminum Alloys GR20A, GR40A, and GM40A)

Heads, Bulkheads, or Baffles	Dished	Corrugated	Reinforced	Rolled
Volume capacity of tank in gallons per inch of length	10 or Less	Over 10 to 14	Over 14 to 18	Over 18
Thickness in decimals of inches	.096	.109	.130	.151

*Thickness of exterior head sheets shall never be less than the maximum requirements for shell sheets.

Minimum Thickness of Shell Sheets
(Aluminum Alloys GR20A, GR40A, and GM40A)

Volume capacity of tank in gallons per inch of length	Distance between attachments of bulkheads, baffles, or other shell stiffeners		
Inch decimal thickness for maximum shell radius of less than 70 inches:	36 inches or less	Over 36 inches to 54 inches	Over 54 inches
10 gallons or less	.087	.087	.096
Over 10 to 14 gallons	.087	.096	.109
Over 14 to 18 gallons	.096	.109	.130
Over 18 gallons	.109	.130	.151
Inch decimal thickness for maximum shell radius of 70 inches or more, but less than 90 inches:			
10 gallons or less	.087	.096	.109
Over 10 to 14 gallons	.096	.109	.130
Over 14 to 18 gallons	.109	.130	.151
Over 18 gallons	.130	.151	.173
Inch decimal thickness for maximum shell radius of 90 inches or more, but less than 125 inches:			
10 gallons or less	.096	.109	.130
Over 10 to 14 gallons	.109	.130	.151
Over 14 to 18 gallons	.130	.151	.173
Over 18 gallons	.151	.173	.194

(d) Note: Typical mechanical properties of alloys GR20A, GR40A and GM40A are as follows:

Typical Mechanical Properties of Aluminum Alloys GR20A (Alloy 5052), GR40A (Alloy 5154), and GM40A (Alloy 5086)••

Alloy and Temper		Ultimate Strength Lb./Sq. In.	Yield Strength (Offset = 0.2%)• Lb./Sq. In.	Elongation % in 2 In. Sheet Specimen
GR20A-O	(5052-O)	28,000	13,000	25
GR20A-H112	(5052-H112)••	28,000	16,000	7
GR20A-H32	(5052-H32)	33,000	28,000	12
GR20A-H34	(5052-H34)	38,000	31,000	10
GR40A-O	(5154-O)	35,000	18,000	27
GR40A-H112	(5154-H112)••	32,000	18,000	8
GR40A-H32	(5154-H32)	39,000	30,000	15
GR40A-H34	(5154-H34)	42,000	33,000	13
GM40A-O	(5086-O)	38,000	17,000	22
GM40A-H112	(5086-H112)••	36,000	18,000	8
GM40A-H32	(5086-H32)	42,000	30,000	12
GM40A-H34	(5086-H34)	47,000	37,000	10

•The term "Offset = 0.2%" is mentioned in this table, since it is the accepted aluminum association standard for determining the yield strength of all aluminum alloys.

••Mechanical properties listed for H112 temper are minimum values in the thickness range of 0.250—0.500 inch.

(e) In cargo tanks constructed of aluminum alloys, all joints in and to tank shells, heads and bulkheads shall be welded. All welded aluminum joints shall be made in accordance with recognized good practice, and the efficiency of a joint shall not be less than 85% of the annealed properties of the material in question. Aluminum alloys for high strength welded construction shall be joined by an inert gas arc welding process using filler metals R-GR40A, E-GR40A (5154 alloy) and R-GM50A, E-GM50A (5356 alloy) as conforming to American society of testing materials specification no. B285-54T (American welding society specification no. A5.10-54T).

(6) Materials other than mild steel, low alloy low carbon (high tensile) steel or aluminum may be used for the construction of cargo tanks which will provide strength and safety qualities equal to or exceeding the requirements of this rule.

History: 1954 ACS 5, p. 7, Eff. Feb. 15, 1956.

R 28.607 Test.

Rule 7. (1) At the time of manufacture every cargo tank shall be tested by a minimum air or hydrostatic pressure of 3 pounds per square inch applied to each compartment, or to the whole tank if it be not divided into compartments. Such pressure shall be maintained for a period of at least 5 minutes, during which, if the test is by air pressure, the entire exterior surface of all the joints shall be coated with a solution of soap and water, heavy oil, or other material suitable for the

purpose, foaming or bubbling of which will indicate the presence of leaks. Hydrostatic pressure, if used, shall be gauged at the top of the tank; and the tank shall be inspected at the joints for the issuance of liquid to indicate leaks. Any leakage discovered by either of the methods above described, or by any other method, shall be deemed as evidence of failure to meet the requirements of this specification.

(2) Every cargo tank which has been out of transportation service for a period of 1 year or more, or any cargo tank which has been involved in an accident which resulted in damage to said cargo tank, or any cargo tank which has been repaired due to structural failure which resulted in a leak shall be retested in accordance with the requirements stated herein.

History: 1954 ACS 5, p. 12, Eff. Feb. 15, 1956.

R 28.608 Tank outlets.

Rule 8. Outlets shall be substantially made and attached to the tank and shall be so constructed as to permit complete drainage.

History: 1954 ACS 5, p. 12, Eff. Feb. 15, 1956.

R 28.609 Bulkheads and baffles.

Rule 9. (1) Every compartment over 90 inches in length shall be provided with baffles, the number of which shall be such that the linear distance between any 2 adjacent baffles or between any tank head or bulkhead and the baffles nearest it shall in no case exceed 60 inches.

(2) The cross sectional area of each baffle shall be not less than 80% of the cross sectional area of the tank and the thickness of such baffle shall be not less than that required for heads and bulkheads of the cargo tank in which installed.

(3) Cargo tanks with compartments carrying flammable liquids of different classes shall be provided with an air space between compartments and this air space shall be equipped and maintained with drainage facilities operative at all times.

History: 1954 ACS 5, p. 12, Eff. Feb. 15, 1956.

R 28.610 Tank vehicle tank vents.

Rule 10. (1) Each tank or compartment of a tank vehicle shall be provided with a vacuum and pressure operating vent with a minimum effective opening of 0.44 square inches.

(2) Each tank or compartment of a tank vehicle shall also be provided with an emergency venting opening having a net area in square inches equal to 1.25 plus 0.0025 times the capacity of the tank or compartment in gallons. If the emergency venting facility operates in response to elevated temperatures, the critical temperature for such operating shall not exceed 200 degrees Fahrenheit.

History: 1954 ACS 5, p. 12, Eff. Feb. 15, 1956.

R 28.611 Valve and faucet connections.

Rule 11. Draw-off valves and faucets shall have discharge ends threaded, or they shall be designed so as to permit being tightly connected to hose extending to fill pipe.

History: 1954 ACS 5, p. 12, Eff. Feb. 15, 1956.

R 28.612 Emergency-discharge control.

Rule 12. (1) The outlets of each cargo tank or compartment hereafter put in service for transportation of flammable liquids shall be equipped with a reliable

and efficient shut-off valve located inside the shell; or in the sump when it is an integral part of the shell; and designed so that the valve must be kept closed except during loading and unloading operations; provided however, that all tank vehicles over 2,000 gallons total capacity now in service for class I and II flammable liquids shall also be equipped within 1 year from the date of the adoption of these regulations.

(2) The operating mechanism for the valve shall be provided with a secondary control, remote from the fill openings and discharge faucets, for use in the event of accidents or fire during delivery operations.

(3) The control mechanism shall be provided with a fusible section which will permit valves to close automatically in case of fire.

(4) In every case there shall be provided between the shut-off valve seat and discharge faucet a shear section which will break under strain unless the discharge piping is so arranged as to afford the same protection and leave the shut-off valve seat intact.

History: 1954 ACS 5, p. 12, Eff. Feb. 15, 1956.

R 28.613 Can boxes and buckets.

Rule 13. Can boxes and buckets shall be kept clean and in good state of repair.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.614 Tires.

Rule 14. All tank vehicles shall be equipped with pneumatic tires.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.615 Mounting cargo tanks.

Rule 15. Every cargo tank shall be adequately supported upon and securely attached to or be a part of the tank vehicle upon which it is carried.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.616 Wheels.

Rule 16. Tank vehicles shall not be operated except on a minimum of 4 wheels; provided, however, that nothing in this rule shall prohibit the operation of a tank semitrailer.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.617 Static protection.

Rule 17. Cargo tanks and vehicle chassis shall be electrically bonded.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.618 Protection against accidental damage.

Rule 18. (1) Draw-off valves or faucets projecting beyond the frame at the rear of a tank vehicle shall be adequately protected against collision by bumpers or similar means.

(2) All closures for filling openings shall be protected from damage in the event of overturning of the tank vehicle, by being enclosed within the body of the tank or dome attached thereto or by the use of suitable metal guards securely attached to the tank or the frame of the motor vehicle. If the overturn protection is so constructed as to permit accumulation of liquid on the top of the tank, it shall be provided with drainage facilities which will provide a positive means to prevent such drainage from contacting the exhaust and electrical systems of the tank vehicle.

R 28.619 Lighting.

Rule 19. No lighting device other than electric lights shall be used on tank vehicles. Lighting circuits shall have suitable overcurrent protection (fuses or automatic circuit breakers). The wiring shall have sufficient carrying capacity and mechanical strength and shall be secured, insulated, and protected against physical damage in keeping with recognized good practice.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.620 Fuel system.

Rule 20. (1) Fuel tanks shall be so designed, constructed and installed as to present no unusual hazard and shall be so arranged as to vent during filling operations and permit drainage without removal from their mountings.

(2) All portions of the fuel-feed system including carburetor, pumps and all auxiliary mechanisms and connections shall be constructed and installed in a workmanlike manner and so constructed and located as to minimize the fire hazard with no readily combustible materials used therein and shall, except for diesel fuel connections, be well separated from the engine exhaust system. A pressure-release device shall be provided where necessary. The fuel-feed lines shall be made of materials not adversely affected by the fuel to be used or by other materials likely to be encountered, of adequate strength for their purpose, well secured to avoid chafing or undue vibration, having a readily accessible and reliable shut-off valve or stop-cock. Joints depending upon solder for mechanical strength and liquid tightness shall not be used in the fuel system at or near the engine or its accessories unless the solder has a melting point of not less than 340 degrees Fahrenheit, or unless a self-closing, thermally controlled valve set to operate at not exceeding 300 degrees Fahrenheit, or other equivalent automatic device, shall be installed in the fuel line on the fuel-tank side of such joint.

History: 1954 ACS 5, p. 13, Eff. Feb. 15, 1956.

R 28.621 Exhaust system.

Rule 21. (1) The exhaust system including muffler and exhaust line shall have ample clearance from the fuel system and combustible materials and shall not be exposed to leakage or spillage of product or accumulations of grease, oil or gasoline.

(2) The exhaust system, including all units, shall be constructed and installed in a workmanlike manner. A muffler cut-out shall not be used.

History: 1954 ACS 5, p. 14, Eff. Feb. 15, 1956.

R 28.622 Trailers and semitrailers.

Rule 22. (1) Trailers shall be firmly and securely attached to the vehicle drawing them in a manner conforming with recognized good practice.

(2) Each trailer and semitrailer shall be equipped with reliable brakes on all wheels and adequate provision shall be made for their efficient operation from the driver's seat of the vehicle drawing the trailer or semitrailer.

(3) Trailer connections shall be such as to prevent the towed vehicle from being deflected more than 6 inches from the path of the towing vehicle.

History: 1954 ACS 5, p. 14, Eff. Feb. 15, 1956.

R 28.622a Transportation; truck tractor pulling a semitrailer and trailer combination; flash point at or below 70 degrees Fahrenheit; vehicle requirements.

Rule 22a. (1) Notwithstanding R 28.634a(1), a truck tractor pulling a semitrailer and trailer combination shall not transport a flammable liquid, in bulk,

which has a flash point at or below 70 degrees Fahrenheit within this state, unless the truck tractor, semitrailer, and trailer combination meet the following requirements:

(a) Are equipped with a device which restricts the horizontal and vertical rotation of the dolly assemblage of the vehicle combination in a manner which maintains the longitudinal tracking of the dolly and semitrailer.

(b) Are equipped with stops in the spring hangers of each semitrailer and trailer in the vehicle combination in a manner which improves the stability of the vehicle combination by reducing the free play of the leaf spring suspension to a maximum of ¾ inch when the spring passes from tension to compression.

(2) The device described in subrule (1)(b) shall be welded to the vehicle. The welds shall be in accordance with recognized good practice and the efficiency of a weld shall not be less than 85% of the mechanical properties of the adjacent metal in the chassis.

(3) This rule shall expire on November 1, 1981.

History: 1954 ACS 99, p. 11, Eff. May 10, 1979.

R 28.622b Transportation; truck pulling a trailer; flash point at or below 70 degrees Fahrenheit; vehicle requirements.

Rule 22b. (1) Notwithstanding R 28.634a(2), a truck pulling a trailer shall not transport a flammable liquid, in bulk, which has a flash point at or below 70 degrees Fahrenheit within this state, after November 1, 1978, unless the truck and trailer combination meets the following requirements:

(a) Are equipped with a device which restricts the horizontal and vertical rotation of the dolly assemblage of the vehicle combination in a manner which maintains the longitudinal tracking of the dolly and the truck.

(b) Are equipped with stops in the spring hangers of each semitrailer and trailer in the vehicle combination in a manner which improves the stability of the vehicle combination by reducing the free play of the leaf spring suspension to a maximum of ¾ inch when the spring passes from tension to compression.

(2) The device described in subrule (1)(a) shall be welded to the vehicle. The welds shall be in accordance with recognized good practice and the efficiency of a weld shall not be less than 85% of the mechanical properties of the adjacent metal in the chassis.

History: 1954 ACS 99, p. 11, Eff. May 10, 1979.

R 28.622c Transportation; flash point above 70 and below 200 degrees Fahrenheit; vehicle requirements.

Rule 22c. (1) A truck tractor pulling a semitrailer and trailer combination or a truck pulling a trailer shall not transport a flammable liquid, in bulk, which has a flash point above 70 degrees Fahrenheit and below 200 degrees Fahrenheit within this state, after November 1, 1981, unless the truck tractor, semitrailer, and trailer combination or truck and trailer combination meet the following requirements:

(a) Are equipped with a device which restricts the horizontal and vertical rotation of the dolly assemblage of the vehicle combination in a manner which maintains the longitudinal tracking of the dolly and semitrailer in a truck tractor, semitrailer, and trailer combination or the dolly and the truck in a truck and trailer combination.

(b) Are equipped with stops in the spring hangers of each semitrailer and trailer in the vehicle combination in a manner which improves the stability of the vehicle combination by reducing the free play of the leaf spring suspension to a maximum of ¾ inch when the spring passes from tension to compression.

(2) The device described in subrule (1)(a) shall be welded to the vehicle. The welds shall be in accordance with recognized good practice and the efficiency of a weld shall not be less than 85% of the mechanical properties of the adjacent metal in the chassis.

History: 1954 ACS 99, p. 11, Eff. May 10, 1979.

R 28.622d Vehicle device; approval criteria prior to installation.

Rule 22d. Before a device manufactured to be installed on a vehicle combination described in R 28.622a, R 28.622b, or R 28.622c is installed, the manufacturer of the device shall submit the plans and specifications of the device to the state fire marshal. If the device is approved in writing by the state fire marshal, the device may be installed on a vehicle combination.

History: 1954 ACS 99, p. 12, Eff. May 10, 1979.

R 28.622e Approved device; manufacturer identification; notice of installation.

Rule 22e. (1) A manufacturer of a device approved under R 28.622d shall affix to the device a means of permanent identification, either by means of a stamp or an identification plate. The stamp or identification plate shall identify the manufacturer's name and a number designated by the manufacturer to distinguish the device from all other the manufacturer produces.

(2) If the manufacturer of a device approved under R 28.622d installs the device on a vehicle combination described in R 28.622a, R 28.622b, or R 28.622c, the manufacturer shall forward to the state fire marshal a notice of the installation, which notice shall include the following:

(a) The name of the manufacturer of the device.

(b) The number designated for the device by the manufacturer under subrule (1).

(c) The date of the installation of the device.

(d) The name of the owner of each of the vehicles in the vehicle combination on which the device was installed.

(3) If a person other than the manufacturer of the device installs a device approved under R 28.622d on a vehicle combination described in R 28.622a, R 28.622b, or R 28.622c, the person shall forward to the state fire marshal a notice of the installation, which notice shall include the following:

(a) The name of the manufacturer of the device.

(b) The number designated for the device by the manufacturer under subrule (1).

(c) The date of the installation of the device.

(d) The name of the owner of each of the vehicles in the vehicle combination on which the device was installed.

(e) A statement by the installer that the installation of the device was in accordance with the manufacturer's plans and specifications of the device submitted to the state fire marshal under R 28.622d.

History: 1954 ACS 99, p. 12, Eff. May 10, 1979.

R 28.623 Standard for installation of portable fire extinguishers.

Rule 23. (1) Each tank vehicle shall be provided with at least 1 portable fire extinguisher having at least a 20-B, C rating or when more than 1 is provided, each extinguisher shall have at least a 10-B, C rating. Ratings shall be in accordance with the 1970 edition of national fire protection association pamphlet no. 10, entitled "Standard for Installation of Portable Fire Extinguishers."

(2) Fire extinguishers shall be kept in good operating condition at all times, and they shall be located in an accessible place on each tank vehicle.

History: 1954 ACS 5, p. 14, Eff. Feb. 15, 1956; 1954 ACS 35, p. 5, Eff. Aug. 14, 1963; 1954 ACS 74, p. 5, Eff. Mar. 8, 1973.

R 28.624 Auxiliary internal combustion engines.

Rule 24. (1) Internal combustion engines other than those providing propulsive power, installed or carried upon a tank vehicle transporting flammable liquids for the purpose of providing power for the operation of pumps or other devices, shall comply with this rule.

(2) The engine air intake shall be equipped with an effective flame arrester, or an air cleaner having effective flame arrester characteristics, substantially installed and capable of preventing emission of flame from the intake side of the engine in event of backfiring.

(3) The fuel system shall be so located or constructed as to minimize the fire hazard. If the fuel tank is located above or immediately adjacent to the engine, suitable shielding shall be provided to prevent spillage during the filling operation or leakage from the tank or fuel system from coming in contact with the engine or any parts of the ignition and exhaust systems. All parts of the fuel system shall be constructed and installed in a workmanlike manner.

(4) Pumps and other appurtenances carrying or containing flammable liquids shall be so located in relation to the engine that spillage or leakage from such parts shall be prevented from coming in contact with the engine or any parts of the ignition and exhaust system or adequate shielding shall be provided to attain the same purpose. The engine cooling fan shall be so positioned, rotated or shielded as to minimize the possibility of drawing flammable vapors toward the engine.

(5) When the engine is located in a position where spillage from the cargo tank or its appurtenances or from side racks might constitute a hazard, suitable shielding shall be provided to prevent such spillage from contacting the engine or engine exhaust system and for draining such spillage away from the vicinity of the engine.

(6) Where the engine is carried within an enclosed space adequate provision shall be made for air circulation at all times to prevent accumulation of explosive vapors and to avoid overheating.

(7) The exhaust system shall be substantially constructed and installed and free from leaks. The exhaust line and muffler shall have adequate clearance from combustible materials and the exhaust gases shall be discharged at a location which will not constitute a hazard. When engines are carried as in subrule (6), the exhaust gases shall be discharged outside of each such enclosed space.

(8) The ignition wiring shall be substantially installed with firm connections and spark plug and all other terminals shall be suitably insulated to prevent sparking in event of contact with conductive materials. The ignition switch shall be of an enclosed type.

(9) Internal combustion engines for tank vehicles used exclusively for class III flammable liquids are exempted from requirements of subrules (2) and (8) of this rule.

History: 1954 ACS 5, p. 14, Eff. Feb. 15, 1956.

R 28.625 Electrical equipment; auxiliary electric generators and motors.

Rule 25. (1) Electrical equipment installed or carried upon a tank vehicle transporting flammable liquids, for the operation of pumps or other devices used for the handling of flammable liquids, shall comply with this rule.

(2) Electric generators driven from a power take-off connected to the vehicle transmission or to an auxiliary transmission or by an auxiliary internal combustion engine shall be of the explosionproof type.

(3) Electric motors shall be of the explosionproof type.

(4) Wiring shall be adequate and substantially installed with all terminals firmly connected and insulated to prevent sparking from vibration or in event of contact with conductive materials. Wires shall have oilproof insulation. If overload protection is provided it shall be of the explosionproof type. All switches or other sparking devices shall be of the explosionproof type and all conduit entrances shall be sealed.

(5) Where the generator or motor is located within an enclosed space, adequate provision shall be made for air circulation to prevent overheating and possible accumulation of explosive vapors.

(6) Electrical equipment and wiring shall be located so as to prevent contact with spillage from cargo tank.

(7) Electrical equipment installed or carried upon a tank vehicle for the operation of pumps or other devices used exclusively for handling of class III flammable liquids is exempted from requirements as to being explosionproof type.

History: 1954 ACS 5, p. 15, Eff. Feb. 15, 1956.

R 28.626 Marking of tank vehicles, faucets, and buckets.

Rule 26. (1) Every tank vehicle used for the transportation of any flammable liquid regardless of the quantity being transported or whether loaded or empty shall be conspicuously and legibly marked on each side and the rear thereof in letters at least 3 inches high on a background of sharply contrasting color, optionally as follows:

(a) With a sign or lettering on the tank vehicle with the word "FLAMMABLE."; or

(b) With the common name of the flammable liquid being transported; or

(c) With the name of the carrier or his trademark when and only when such name or mark clearly indicates the flammable nature of the cargo.

(2) All discharge faucets on tank vehicles hauling 2 or more classes of flammable liquids shall be marked to clearly designate the contents of the compartment to which they are connected.

(3) Containers filled or sold containing gasoline, benzine or naphtha shall be painted vermilion bright red and shall be lettered or labeled with the word "GASOLINE," "BENZINE" or "NAPHTHA." No kerosene shall be put into or sold in a container painted vermilion bright red as provided in Act No. 37 of the Public Acts of 1909, known as the "Red Can Act."

History: 1954 ACS 5, p. 15, Eff. Feb. 15, 1956.

R 28.627 Condition of tank vehicles.

Rule 27. Tank vehicles shall not be operated unless they are in proper repair, devoid of accumulation of grease, oil or other flammables and free of leaks.

History: 1954 ACS 5, p. 15, Eff. Feb. 15, 1956.

R 28.628 Filling and discharging tank vehicles.

Rule 28. (1) The driver, operator or attendant of any tank vehicle shall not leave the vehicle while it is being filled or discharged. Delivery hose, when attached to a tank vehicle shall be considered to be part of the tank vehicle.

Digitized by Google Original from UNIVERSITY OF MICHIGAN

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

When delivering to an underground storage tank, the driver, operator or attendant of any tank vehicle shall be outside of the vehicle and shall not be further than 5 feet from the vehicle or the delivery hose(s) of the vehicle, and shall keep the point of filling under constant supervision and observation during such delivery.

(2) Motors of tank trucks or tractors shall be shut down during filling at loading racks. Tank truck or tractor motors or auxiliary motors shall not be used for filling a cargo tank or transferring flammable liquids from one compartment to another except in an emergency. Motors shall be shut down during making or breaking hose connections. If unloading is done without the use of the tank truck or tractor motor, such motors shall be shut down throughout the unloading operations.

(3) The cargo tank shall be bonded to the fill pipe when loading. The bond-wire connection shall be made prior to opening the dome covers. It shall be maintained in place during the entire filling operation and the dome covers shall be securely closed before the bond-wire is disconnected from the cargo tank.

(4) In every cargo tank or compartment sufficient space shall be left vacant to prevent leakage or distortion by expansion of the contents due to rise in temperature in transit. No cargo tank or compartment shall be loaded to a volume in excess of 99% of its total capacity.

(5) Tank vehicles shall not be filled from tank cars or boats.

(6) Flammable liquids shall not be handled by bucket in any location where there is an open flame or other source of ignition.

(7) To prevent static sparks, metallic contact shall be maintained between faucet and bucket during filling of bucket and between bucket and container during pouring from bucket.

(8) During the filling of fuel tanks of power equipment or vehicles, except fire apparatus in use at a fire, the motors of such equipment or vehicles shall be stopped.

(9) Simultaneous delivery to underground tanks from 2 or more hoses shall be made by liquid tight connections between the hose and the fill pipe. When any storage tank fill pipe and the tank vehicle are equipped with compatible connections for tight fill, the tight fill connection shall be made on all deliveries.

History: 1954 ACS 5, p. 16, Eff. Feb. 15, 1956; 1954 ACS 35, p. 5, Eff. Aug. 14, 1963.

R 28.629 Smoking prohibited.

Rule 29. Smoking in, on or within 15 feet of any tank vehicle is prohibited at all times. This shall apply to anyone driving the vehicle, making deliveries, filling or making any repairs to any tank vehicle, or any other person while loading or unloading.

History: 1954 ACS 5, p. 16, Eff. Feb. 15, 1956.

R 28.630 Caution near fire.

Rule 30. Delivery of flammable liquids from tank vehicles shall not be made when there are open fires or flames in dangerous proximity.

History: 1954 ACS 5, p. 16, Eff. Feb. 15, 1956.

R 28.631 Dome covers.

Rule 31. (1) Manholes or dome covers shall be fitted with gaskets or otherwise made liquid tight and shall be firmly held in a closed position while the tank vehicle is in transit.

(2) During filling operations, dome covers of compartments not being filled shall be kept closed.

History: 1954 ACS 5, p. 16, Eff. Feb. 15, 1956.

R 28.632 Protection against inter-mixing.

Rule 32. (1) No tank vehicles, or any compartment thereof, which has been utilized for class I or class II flammable liquid, shall be loaded with class III flammable liquid until such tank or compartment and all piping, and hose connected thereto have been completely drained. A tank, compartment, piping, or hose which does not drain completely or which is equipped with a pump or meter shall be flushed with a quantity of class III flammable liquid equal to twice the capacity of piping, pump, meter, and hose, to clear any residue of class I or class II flammable liquid from the system. Such flushing shall be done at the truck terminal where approvable facilities and equipment are available or at the point of loading and not during the course of field deliveries.

(2) Tank vehicles transporting class I or II flammable liquids in 1 or more compartments and class III flammable liquids in other compartment or compartments , shall be equipped with separate piping, pumps, meters and hoses for such classes of product. Vehicles now in service shall comply within 1 year from the date of the adoption of these regulations.

History: 1954 ACS 5, p. 16, Eff. Feb. 15, 1956; 1954 ACS 35, p. 5, Eff. Aug. 14, 1963.

R 28.633 Leakage from tank vehicle.

Rule 33. (1) In the event of leakage of flammable liquids from any tank vehicle, which develops or is discovered after the commencement of transportation, any 1 of the following means or any means equally effective shall be employed in order to minimize further hazard.

(2) Transport the tank vehicle only the minimum distance to reach a place where the contents of the tank or compartment which is leaking may be disposed of with safety, meanwhile employing every available means to prevent the leakage or spillage of flammable liquids upon the highway.

(3) In the event the leak is of such a character as to make further transportation of the tank vehicle unsafe, to draw off the traveled portion of the highway and to employ available means for the safe disposal of the leaking liquid, preventing, so far as practicable, its spread over a wide area; by digging trenches to drain to a hole or depression in the ground; by diverting the liquid away from streams and sewers if possible, unless under the direction of the local fire departments, or by catching the liquid in containers if practicable.

(4) So far as practicable, every available means shall be employed to prevent the congregation of spectators and to prevent smoking. Fires or flames in the vicinity of the leaking tank shall be extinguished.

History: 1954 ACS 5, p. 16, Eff. Feb. 15, 1956.

R 28.634 Prohibited deliveries and transfers.

Rule 34. (1) No class I or II flammable liquids shall be transferred from tank vehicles to containers on any highway, road, street, or alley.

(2) No class I or II flammable liquids shall be transferred from tank vehicles to the fuel tanks of motor vehicles or marine craft at any location.

(3) No class I or II flammable liquids shall be transferred from one tank vehicle to another tank vehicle at any location.

(4) Subrules (1), (2), and (3) shall be subject to the following specific exceptions:

(a) In case of emergency provided all practicable means shall be taken to protect and warn against the hazards involved in such transfer or the emergency *making* such transfer necessary.

(b) Fueling machinery or vehicles used in construction or road maintenance at the site of use, subject to the approval as to location by the local authority having jurisdiction and may be subject to the approval of the commissioner.

(c) Fueling fire apparatus or vehicles or equipment used by the armed services of the United States.

(d) Fueling operations for special events under the direction and with the written approval of local fire authorities having jurisdiction.

(e) Transfer from one tank vehicle to another tank vehicle at a bulk plant.

(5) Motors of machinery or vehicles, excepting fire apparatus in use at a fire, shall be shut down during refueling.

(6) No container shall be filled with flammable liquid while inside a passenger-carrying vehicle. Containers shall be removed from the interior of passenger cars and from the cab or enclosed portion of other vehicles during filling.

History: 1954 ACS 5, p. 17, Eff. Feb. 15, 1956; 1954 ACS 35, p. 5, Eff. Aug. 14, 1963.

R 28.634a Transportation; time; place; quantity.

Rule 34a. (1) A truck tractor pulling a semitrailer and trailer combination shall not transport, except between the hours of midnight to 6 a.m. and on the routes specified in R 28.634b, a flammable liquid, in bulk, which has a flash point at or below 70 degrees Fahrenheit within a county having a population of 600,000 or more.

(2) A truck, a truck pulling a trailer, or a truck tractor pulling a semitrailer shall not transport, except between the hours of midnight to 6 a.m. and on the routes specified in R 28.634b, a flammable liquid, in bulk, which has a flash point at or below 70 degrees Fahrenheit in a quantity of more than 9,000 gallons within a county having a population of 600,000 or more.

(3) The vehicles and vehicle combination specified in subrules (1) and (2) may transport the flammable liquids described in those subrules only for the purposes of picking up or delivering those flammable liquids at a supply depot located on a route specified in R 28.634b.

(4) This rule shall expire on November 1, 1981.

History: 1954 ACS 99, p. 12, Eff. May 10, 1979.

R 28.634b Transportation; routes.

Rule 34b. The following are the only routes on which the flammable liquids described in R 28.634a may be transported by the vehicles specified in R 28.634a.

(a) The following highways located within Macomb, Oakland, and Wayne counties are designated routes, except for those portions on which the transportation of a flammable liquid which has a flash point at or below 70 degrees Fahrenheit is prohibited by law effective on August 1, 1978:

(i) Interstate—75
(ii) Interstate—94
(iii) Interstate—96
(iv) Interstate—275
(v) Interstate—375
(vi) Interstate—696
(vii) U.S. 10
(viii) M-39
(ix) M-59
(x) Davison expressway

(b) The exit and entrance ramps of interstate-94 at the Middlebelt road interchange, then south on Middlebelt road to Wick road, and then east to the supply depots located at 28432 Wick road or 29120 Wick road.

(c) The exit and entrance ramps of interstate-75 at the Holbrook avenue interchange, then east on Holbrook avenue to the supply depot located at 3884 Holbrook avenue.

(d) The exit and entrance ramps of interstate-94 at the Wyoming avenue interchange, then north on Wyoming avenue to Ford road, and then west to the supply depot located at 10500 Ford road.

(e) The exit and entrance ramps of interstate-75 at the Schaefer road interchange, then southeast on Schaefer road to Jefferson avenue, then north to Marion, and then east to the supply depot located at 210 Marion.

(f) The exit and entrance ramps of interstate-75 at the Schaefer highway interchange, then north on Schaefer road to Oakwood boulevard, then west on Oakwood boulevard to south Dix avenue, and then north to the supply depot located at 500 south Dix avenue.

(g) The exit and entrance ramps of interstate-94 at the Oakwood boulevard interchange, then east on Oakwood boulevard to south Dix avenue, then north to the supply depot located at 500 south Dix avenue.

(h) The exit and entrance ramps of interstate-94 at the Ecorse road interchange, then west on Ecorse road to Inkster road, then south on Inkster road to Citrin drive, and then west to the supply depot located at 28001 Citrin drive.

(i) The exit and entrance ramps of interstate-94 at the Ecorse road interchange, then west on Ecorse road to Inkster road, and then south to the supply depots located at 7155 Inkster road or 8625 Inkster road.

(j) The exit and entrance ramps of interstate-94 at the Ecorse road interchange, then east on Ecorse road to Holland road, and then south to the supply depot located at 7965 Holland road.

(k) The exit and entrance ramps of interstate-75 at the West road interchange, and then east to the supply depot located at 20089 West road.

(l) The exit and entrance ramps of interstate-94 at the Ecorse road interchange, then east on Ecorse road to south Beech-Daly road, and then south to the supply depot located at 8000 south Beech-Daly road or 8300 south Beech-Daly road.

(m) The exit and entrance ramps of interstate-94 at the Ecorse road interchange, then east to the supply depots located at 22970 Ecorse road, 24501 Ecorse road, or 24801 Ecorse road.

(n) The exit and entrance ramps of interstate-94 at the Wyoming avenue interchange, and then north to the supply depot at 6011 Wyoming avenue.

(o) The exit and entrance ramps of interstate-94 at the Dequindre road interchange, then south on Dequindre road to Commor street, and then west to the supply depot located at 1530 Commor street.

(p) The exit and entrance ramps of interstate-96 at the Novi road interchange, then south on Novi road to Grand River avenue and then east to the supply depot located at 40600 Grand River avenue.

(q) Thirty-two mile road from the St. Clair-Macomb county line west to the supply depots located at 37530 32-mile road or 37401 32-mile road.

(r) The exit and entrance ramps of interstate-75 at the Schaefer road interchange, then southeast on Schaefer road to Fort street, then northeast on Fort street to Toronto avenue, then west to the supply depot located at 12800 Toronto avenue.

(s) The exit and entrance ramps of interstate-75 at the Fort street interchange, then northeast on Fort street to Toronto avenue, then west to the supply depot located at 12800 Toronto avenue.

(t) The exit and entrance ramps of interstate-94 at the M-19 interchange, then north on M-19 to 32-mile road, then east on 32-mile road to the supply depots located at 37401 32-mile road and 37530 32-mile road.

(u) The exit and entrance ramps of interstate-75 at the Schaefer road interchange, then southeast on Schaefer road to Fort street, then northeast on Fort

R 28.635 Repairs to cargo tanks of tank vehicles.

Rule 35. Repairs or maintenance which either require the use of heat or produce heat in the process, shall not be made to any cargo tank unless such tank has been completely drained and made gas free by a method prescribed in American petroleum institute accident prevention manual no. 13 of March, 1951, or by some other equally effective method.

History: 1954 ACS 5, p. 17, Eff. Feb. 15, 1956.

CONTAINERS

R 28.636 Containers for transportation.

Rule 36. (1) Containers for transportation of flammable liquids shall be of substantial construction or be substantially packed so they will not be readily

broken or punctured in transportation or handling. Containers shall be of sound metal construction, having a tight closure with screwed or spring cover, except that:

(a) Suitable plastic or glass containers having an individual capacity of not more than 1 pint may be used for flammable liquids.

(b) Suitable plastic or glass containers having an individual capacity of not more than 1 gallon may be used for medicines, beverages, foodstuff, and toiletries that are flammable liquids.

(c) Suitable plastic or glass containers having an individual capacity of not more than 1 gallon may be used for flammable liquids whose chemical purity would be contaminated by metal containers.

(2) Containers for flammable liquids being transported either full or empty shall be tightly closed to prevent the escape of liquid or vapor.

(3) No container or containers holding in excess of 6 gallons total capacity of class I and/or class II flammable liquids shall be carried in passenger vehicles or in commercial vehicles if carrying passengers in the same portion of the vehicle as the flammable liquid container.

(4) Whenever any flammable liquid is escaping from a container, all practical means shall be taken to prevent such liquid from spreading over a wide area, from flowing into sewers and streams and from becoming ignited.

(5) Precautions similar to those outlined in R 28.633 for leaking truck tanks insofar as applicable, shall be taken for the disposition of any leaking container or its contents.

(6) Containers filled or sold containing gasoline, benzine or naphtha shall be painted vermilion bright red and shall be lettered or labeled with the word "GASOLINE," "BENZINE" or "NAPHTHA." No kerosene shall be put into or sold in a container painted vermilion bright red as provided in Act No. 37 of the Public Acts of 1909, known as the "Red Can Act."

(7) Containers for flammable liquids other than gasoline, benzine, or naphtha shall be clearly marked with the name of the product contained therein and in conformity with the labeling standards of the national fire protection association pamphlet no. 326 of 1951, entitled "Warning Labels for Containers of Flammable Liquids."

(8) No person shall place class III flammable liquids in a container which has previously contained class I or II flammable liquids unless such container has been thoroughly cleaned of such class I or II flammable liquid. If washing or some equally satisfactory method is not employed, the container should be flushed with sufficient class III flammable liquid to wash out any residue of class I or II flammable liquids and the container should then be completely filled with the class III flammable liquid.

the vehicle, nor shall it prevent stops for meals or conduct of business during the day or night if the street is well lighted at the point of parking and where such parking is permitted under the local ordinances.

(2) Tank vehicles containing flammable liquids or vapors shall not be parked out of doors at any 1 point for longer than 1 hour, except off the streets and at least 25 feet from any public assembly, institutional or residence building.

(3) Tank vehicles shall not be parked or garaged in any buildings other than those specifically approved for such use at the bulk plant or truck terminal except that this shall not be construed to prohibit servicing of such tank vehicles in garages.

History: 1954 ACS 5, p. 18, Eff. Feb. 15, 1956.

DIVISION II

STORAGE OF FLAMMABLE LIQUIDS

R 28.639 Application.

Rule 39. (1) No person shall store any flammable liquids in the state of Michigan except in compliance with this division unless such storage is permitted otherwise elsewhere in these regulations.

(2) R 28.640 to R 28.654 shall apply to the storage of flammable liquids above ground.

(3) R 28.655 to R 28.663 shall apply to the storage of flammable liquids underground, enclosed and inside buildings.

History: 1954 ACS 5, p. 18, Eff. Feb. 15, 1956.

ABOVE GROUND STORAGE

R 28.640 Applies to over 100 gallons.

Rule 40. Any above ground storage of flammable liquids in individual containers or tanks of greater than 100 gallons capacity each shall conform to the provisions of this division unless the storage is permitted otherwise by an applicable division.

History: 1954 ACS 5, p. 18, Eff. Feb. 15, 1956.

R 28.641 Plans, specifications, and permit required.

Rule 41. (1) A complete set of plans and specifications for any proposed installation of or addition to a present installation of above ground storage tanks having a total capacity exceeding 1,000 gallons of class I and II flammable liquids or exceeding 10,000 gallons of class III flammable liquids shall be submitted in duplicate to the commissioner. If plans and specifications conform to these regulations and comply with local ordinances, and permission has been granted by the local authorities, approval will be granted by the commissioner for such installation or addition which will expire 1 year from date of issuance.

(2) When the addition or installation is completed, the owner shall notify the commissioner and an inspection shall be made to determine if the installation or addition complies with these rules.

(3) Nothing contained in subrule (1) of this rule shall exempt the owner of a proposed flammable liquids installation consisting of less than 1,000 gallons of class I and II flammable liquids, or of a proposed installation of less than 10,000 gallons of class III flammable liquids from complying with all other rules of these regulations or from complying with applicable local ordinances.

History: 1954 ACS 5, p. 19, Eff. Feb. 15, 1956.

R 28.642 Restricted locations.

Rule 42. (1) Except as elsewhere provided in these rules all above ground storage shall be located outside buildings.

(2) No storage tank shall hereafter be erected less than 300 feet away from any mine shaft, air or escape shaft for any mine, any school, church, hospital, theater or public hall, a public hall being any place which is regularly used for public meetings or assembling of people for amusement, instruction or religious worship.

(3) Nothing in this rule shall prevent alterations or additions to existing plants already storing flammable liquids providing such alterations or additions are in compliance with these regulations.

(4) No above ground tank(s) or loading operations shall be installed closer than 25 feet plus 1 inch per 1,000 volts, measured horizontally, from the center line of electric power lines, nor under electric power lines, except that service entrance and service lines may be closer than 25 feet but not over the tanks or loading area. This subrule shall not apply to fuel oil tanks up to 275 gallons individual capacity or 550 gallons aggregate capacity used for heating purposes.

(5) No above ground storage tank for class III flammable liquids used in connection with or connected by piping to heating or power devices shall exceed 275 gallons individual capacity or 550 gallons aggregate capacity.

(6) Nothing contained in subrule (5) shall prohibit installation of a tank with capacity of more than 275 gallons, provided it is installed in accordance with the provisions of division II, above ground storage.

History: 1954 ACS 5, p. 19, Eff. Feb. 15, 1956.

R 28.643 Distances to property lines and buildings.

Rule 43. (1) The minimum distance from a tank for the storage of flammable liquids other than crude petroleum having a capacity of 50,000 gallons or less to the line of adjoining property, which is built upon or may be built upon, shall depend upon the capacity of the tank as shown in the following table:

Capacity of Tank	Class of Flammable Liquid	Minimum Distance
101 to 275 gallons	III	0 feet
276 to 750 gallons	III	5 feet
61 to 750 gallons	I and II	10 feet
751 to 12,000 gallons	III	10 feet
751 to 12,000 gallons	I and II	15 feet
12,001 to 24,000 gallons	I, II, and III	15 feet
24,001 to 30,000 gallons	I, II, and III	20 feet
30,001 to 50,000 gallons	I, II, and III	25 feet

(2) Above ground tanks for flammable liquids other than crude petroleum with capacities in excess of 50,000 gallons, when equipped with an approved floating roof or an approved permanently attached extinguishing system shall be so located that the distance from the shell of the tank to a line of adjoining property that is or may be built upon shall not be less than the greatest dimension of diameter or height of the tank, except that such distance need not exceed 120 feet.

(3) Above ground tanks for flammable liquids other than crude petroleum with a capacity in excess of 50,000 gallons without an approved floating roof and not equipped with an approved permanently attached extinguishing system shall be so located that the distance from the shell of the tank to a line of adjoining

property that is or may be built upon shall be at least 1½ times the greatest dimension of diameter or height of the tank, except that such distance need not exceed 175 feet.

(4) Above ground tanks for crude petroleum shall be located at least twice the distance from property lines that are or may be built upon as required for other flammable liquids in subrules (1), (2), and (3) of this rule.

(5) These distances shall also apply between tanks and buildings or structures on the property, except those necessarily connected with the installation, such as a pumphouse.

(6) Above ground tanks shall be located not nearer than 10 feet or ¼ the distance, specified in subrules (1), (2), (3), and (4) of this rule, whichever is greater, to highways, streets or railway lines other than switch tracks, provided, however, that the total distance between the shell of any tank and the line of any other property that is or may be built upon shall not be less than required by subrules (1), (2), (3), and (4) of this rule.

History: 1954 ACS 5, p. 19, Eff. Feb. 15, 1956.

R 28.644 Spacing between tanks.

Rule 44. (1) The location of a tank having a capacity of over 275 gallons for the storage of any flammable liquid with respect to any such other tank shall be such that the distance between them shall be not less than 3 feet.

(2) For tanks above 50,000 gallons individual capacity storing any flammable liquid other than crude petroleum in producing areas, the distance between tanks shall be not less than ½ the diameter of the smaller tank, except that such distance shall not be less than 10 feet.

(3) For tanks storing crude petroleum above 126,000 gallons (3,000 bbls.) individual capacity, the distance between tanks shall be not less than the diameter of the smaller tank.

(4) The minimum separation between a liquefied petroleum gas container and a flammable or combustible liquid storage tank shall be 20 feet. Diversion curbs, grading, or other means shall be used to prevent the accumulation of flammable or combustible liquids under adjacent liquefied petroleum gas containers. When a flammable or combustible liquid storage tank is within a diked area, a liquefied petroleum gas container shall be outside the diked area and at least 10 feet away from the center line of the wall of the diked area. The foregoing provisions shall not apply when liquefied petroleum gas containers of 125 gallons or less capacity are installed adjacent to 1 or more fuel oil supply tanks of 550 gallons or less capacity.

History: 1954 ACS 5, p. 20, Eff. Feb. 15, 1956; 1954 ACS 27, p. 5, Eff. Aug. 14, 1961; 1954 ACS 74, p. 5, Eff. Mar. 8, 1973.

R 28.645 Foundations and supports.

Rule 45. (1) All tanks shall have a firm, noncombustible foundation. Tanks placed above the level of the ground, except tanks having an individual capacity of 275 gallons or less for the storage of class III flammable liquids, shall have supports and saddles of poured reinforced concrete, masonry, or protected steel. Steel shall be protected by fire-resistive materials having a rating of not less than 2 hours which shall be adequately waterproofed. Steel cross guys shall be similarly protected unless masonry or concrete piers or columns and beams provide adequate stability. The owner shall provide engineering certification of stability if required. Steel saddles on concrete or masonry piers or beams not exceeding 6

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

inches in height at the nearest point between the tank shell and such pier or beam, at existing installations, shall not require fireproofing.

(2) The commissioner may specify additional precautions which must be taken to protect a tank to be located in an area subject to flooding.

(3) Tanks other than those provided for in division III, for temporary use such as to provide fueling for machinery or vehicles used in construction and earth moving projects, shall be designed, installed, and used in accordance with these regulations, subject to the following provisions:

(a) They shall be located remote from buildings and areas used by the public and shall be subject to approval as to location by the local authority having jurisdiction and may be subject to approval of the commissioner.

(b) If they are to be used at a given general location for a temporary period not to exceed 6 months, they need not have masonry or protected steel foundations or saddles, but shall have adequate ferrous metal supports consisting of attached metal legs resting on skids or runners to be at least 1 tank diameter apart, which rest upon the ground, designed so that the tank is supported in a stable position with the outside bottom of the tank shell not more than 24 inches above the surface of the ground, and so that the entire tank and its supports may be moved as a unit.

(c) Tanks shall be designed and equipped to prevent the discharge of product in the event of damage to dispensing lines or hoses. Alternate methods as follows may be used:

(i) All openings shall be in the top of the tank with dispensing by internal or external pump. An anti-siphoning device shall be installed on any line extending below the liquid level.

(ii) A pump suction line may enter the end of the tank below the liquid level provided it is protected by an internal emergency valve equipped with a manual and thermal release device; the pump shall be securely attached to the tank or skids; and the discharge from the pump shall be through a spring loaded valve which will remain closed until discharge pressure is 3 p.s.i. or more.

(d) Pumps may be operated manually, or by electrical equipment complying with R 28.686(a), (b), and (c), or by internal combustion engines complying with the applicable provisions of R 28.624.

(e) When tanks are not permanently located on masonry foundations, piping connections shall be sufficiently flexible to minimize possibility of breakage or leakage of connections if tank settles, moves, or is otherwise displaced.

History: 1954 ACS 5, p. 20, Eff. Feb. 15, 1956; 1954 ACS 35, p. 6, Eff. Aug. 14, 1963.

R 28.646 Stairs, platforms, and walkways.

Rule 46. Stairways to and walks on top of tanks may be of wood, metal, or concrete construction as approved by the commissioner.

History: 1954 ACS 5, p. 20, Eff. Feb. 15, 1956.

R 28.647 Dikes.

Rule 47. (1) A tank or group of tanks containing crude petroleum shall be diked or other approved means taken to prevent discharge of liquid from endangering adjoining property or reaching waterways. The capacity of such dike or other approved means shall be not less than 125% of the tank or tanks.

(2) Tanks containing flammable liquids installed on the bank of a river, or other stream, or on sloping ground exposing property below, or any tank containing

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

flammable liquids not subject to boil over, of a capacity of 50,000 gallons or more in a single tank, shall be diked or other approved means shall be provided to prevent discharge of liquid from reaching waterways or adjoining property.

(3) Dikes or other approved means shall be provided for any tank or tanks when deemed necessary by the commissioner for the protection of life and property because of topography or where, for unusual reasons, an extreme hazard is created by such tank storage or due to any other special conditions.

(4) Where an enclosure by dikes or other approved means are required under this rule, capacity of enclosure shall be equal, after settlement if constructed of earth, to 100% of the capacity of the largest tank plus 25% of the capacity of all other tanks served by the enclosure. Tanks at waterfront shall be provided with dike capacity of 100% of all tanks. Where a dike serving a group of tanks would confine escaping liquid around several tanks, cross dikes shall be provided to limit any one area, except around a single tank, to not more than 10,000 square feet. Cross dikes shall also be provided for any individual tank exceeding 210,000 gallons capacity. The height of such cross dikes shall not be less than 50% of the height of the dikes surrounding the entire group.

(5) All dikes shall be continuous with no openings for piping or roadway. This subrule shall not be interpreted to prohibit piping from running through a dike when the piping is solidly embedded in the dike.

(6) No building shall be located within a diked area.

(7) No provisions shall be made for the automatic draining of a diked area. Liquids shall be removed from within a dike by means of a siphon or a pump approved for use in hazardous locations only. Nothing in this rule shall be construed to prevent natural seepage or evaporation.

(8) Dikes when required by this rule shall be preferably of earth, or may be of poured reinforced concrete designed to be liquid-tight and to withstand a full hydraulic head and so constructed as to provide the required protection.

(a) Earthen dikes shall be firmly and compactly built of good earth from which stones, vegetable matter and other foreign materials have been removed. Earthen dikes 3 feet or more in height shall have a flat section at the top not less than 2 feet wide. The slope shall be consistent with the angle of repose of the material of which the dikes are constructed. Earthen dikes shall be no higher than ½ the height of the tank or tanks enclosed. The distance from any tank to the inside wall of a dike shall be equal to at least ¼ the height of the tank, except that tanks containing liquid that is subject to boil-over shall be not less than 50 feet from a dike.

(b) Poured reinforced concrete dikes shall be liquid-tight, properly reinforced, and constructed on footings below the frost line. Concrete dikes shall be provided with approved expansion joints. Dikes shall not be more than 6 feet in height. The distance from any tank to the inside wall of a dike shall be equal to at least ¼ the height of such tank.

History: 1954 ACS 5, p. 20, Eff. Feb. 15, 1956.

R 28.648 Design and construction of tanks.

Rule 48. (1) No open tanks shall be used for the storage of flammable liquids.

(2) Tanks shall be built of steel or concrete unless character of liquid stored requires other materials. Steel commonly known as "mill seconds" shall not be used. Tanks built of materials other than steel or concrete shall be designed to specifications embodying safety factors equivalent to those herein specified for steel tanks.

(3) Concrete tanks shall be built in accordance with sound engineering practice. For general requirements, reference should be made to the standards for the design and construction of concrete fuel oil storage tanks (national fire protection association pamphlet no. 30D—1922). Such unlined concrete tanks shall only be used for storage of fuel oil having a gravity of 40 degrees American petroleum institute or heavier. Concrete tanks with special linings may be used for other services provided the design is approved by the commissioner.

(4) Vertical tanks erected in the field shall be built in accordance with American petroleum institute standard no. 12A, 7th edition, March, 1941, entitled "Specification for Standard Tanks with Riveted Shells for Oil Storage," or American petroleum institute standard no. 12C, 11th edition, October, 1952, entitled "Specifications for Welded Oil Storage Tanks."

(5) Vertical tanks erected in the field not exceeding 126,000 gallons (3,000 bbls.) individual capacity when used for crude petroleum storage in oil producing areas, may be built in accordance with American petroleum institute standard no. 12B, 5th edition, September, 1944, entitled "Specification for Standard Bolted Tanks," and standard 12D, 3rd edition, September, 1944, entitled "Welded Production Tanks," and supplement no. 2, August, 1947, thereto.

(6) Shop built vertical tanks not over 1,100 gallons capacity shall meet the following standards:

Capacity (gallons)	Minimum thickness of steel U.S. standard
1 - 60	18 gauge
61 - 350	16 gauge
351 - 560	14 gauge
561 - 1,100	12 gauge

(7) Shop built vertical tanks over 1,100 gallons capacity shall meet the following standards:

(a) For tanks up to 25 feet in height, the shell shall be not less than 3/16 inch thick. For tanks from 25 to 30 feet high, the bottom ring shall be not less than 1/4 inch thick and the remainder of the shell not less than 3/16 inch thick. For tanks between 30 and 35 feet high, the first 2 rings shall be not less than 1/4 inch thick and the remainder of the shell not less than 3/16 inch thick. All 1/4-inch thick rings shall be not less than 5 feet wide.

(b) The tops of tanks shall be either dished or cone-shaped and of not less than no. 10 U.S. standard gauge steel.

(c) Tanks shall be welded, or riveted and caulked, or otherwise made tight in a workmanlike manner. The roof of the tanks shall be securely fastened to the top ring of the shell with a joint having the same tightness as the joints between rings. The joint between roof and shell shall be weaker than any other joints in the shell of the tank. Joints in the roof shall be welded or riveted or made tight by other process satisfactory to the commissioner. Roofs of tanks shall have no unprotected openings.

(8) Shop built horizontal tanks shall be constructed in accordance with accepted engineering practice and shall meet the following minimum requirements: Joints shall be riveted and caulked, riveted and welded, or welded. Tank heads over 6 feet in diameter shall be dished, stayed, braced or reinforced.

(a) Shop built horizontal tanks not over 1,100 gallons capacity shall meet the following standards:

Capacity (gallons)	Minimum thickness of steel U.S. standard
1 - 60	18 gauge
61 - 275	14 gauge
276 - 550	12 gauge
551 - 1,100	10 gauge

(b) Shop built horizontal tanks over 1,100 gallons capacity having a diameter of not over 6 feet made of steel shall be 3/16 inch or greater nominal thickness. Tanks having a diameter of over 6 feet and not more than 12 feet, made of steel shall be 1/4 inch or greater nominal thickness.

(9) Where tanks are of welded construction the commissioner may require evidence of the integrity and responsibility of the firm or individual doing the work.

(10) On all new installations, the commissioner may order any tank or tanks tested by filling with water.

(a) All shop built tanks shall be tested at a pressure of not less than 5 pounds per square inch measured at the top of the tank for a period of at least 10 minutes without leakage or permanent deformation.

(11) Field erected vertical tanks constructed as required in subrules (4) and (5) of this rule shall be presumed to have a safe working pressure not to exceed 3 inches of water, which is approximately 1¾ ounces per square inch.

(12) Tanks constructed in accordance with subrules (6), (7), and (8) of this rule shall be presumed to have a safe working pressure of 1 pound per square inch.

History: 1954 ACS 5, p. 21, Eff. Feb. 15, 1956.

R 28.649 Vents.

Rule 49. (1) Tanks shall have normal venting capacity sufficient to permit the filling and emptying of such tanks, plus their breathing due to temperature changes, without distortion of the tank.

(2) All openings above the liquid level other than vents shall be provided with a cover of a manually or automatically closed type. Manholes, gauge caps and other manually closed openings shall be kept tight.

(3) Each tank for storing class I or II flammable liquids shall be equipped with either venting devices, which shall be normally closed when not under pressure or vacuum, or with a permanently open vent provided with an approved corrosive resistant flame arrester so attached as to completely protect the opening except that tanks under 126,000 gallons (3,000 bbls.) capacity for crude oil in producing areas may have unprotected open vents, or tanks storing products which tend to render vents or flame arresters inoperative due to condensation or crystallization may have unprotected open vents during seasons when such condensation or crystallization occurs.

(4) Every storage tank shall be provided with relief venting of adequate capacity to relieve excessive pressure in the tank in the event of exposure to fire. The area of the emergency relief vents, combined with the area of the normal breather vents, shall be sufficient to relieve excess pressure within the tank without distortion of the tank. Self-closing manhole covers or gauge hatch covers may serve as excess-pressure vents provided they are arranged to open under pressure within the safe working pressure of the tank and will remain closed during the normal breathing of the tank.

Required total pressure relief capacity of vents shall be according to the following table:

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

Capacity of tank Gallons	42-Gallon Barrels	Total pressure relief capacity (Cu. Ft. of free air per hour)	Diameter in inches of free circular opening for various pressures 3 In. of Water*	1 PSI**	2½ PSI***	5 PSI***
1,000 or less	23.8	25,300	4	2¼	2	1½
4,000	95.2	69,500	6¾	3¾	3	2½
18,000	428	139,000	9½	5½	4¼	3¾
25,000	595	166,000	10¼	6	4¾	4
56,000	1,330	253,000	12¾	7¼	5¾	5
100,000	2,380	363,000	15¼	8¾	7	6
155,000	3,690	458,000	17¼	9¾	7¾	6½
222,000	5,290	522,000	18¼	10½	8¼	7
475,000	11,300	624,000	20	11¼	9	7¾
735,000	17,500	648,000	20	11½	9¼	7¾
Unlimited		648,000	20	11½	9¼	7¾

Departmental note: *Three inches of water which is approximately 1⅝ ounces per square inch is probably the maximum pressure which should be placed on the ordinary type of cone roof on vertical steel tanks.

**One pound per square inch is probably conservative for the pressure to be allowed in the ordinary type of horizontal tanks.

***These columns refer to tanks especially constructed to withstand the working pressure given and are not commonly in use.

The area of vents to relieve excess pressure for tanks with intermediate capacities shall be determined by proportional interpolation.

(5) Venting equipment installed for normal operation may serve as emergency relief provided that it has the requisite capacity under the pressure limitation fixed by the table in subrule (4) of this rule.

(6) Pressure relief devices and vents shall be maintained in proper operating condition at all times.

History: 1954 ACS 5, p. 23, Eff. Feb. 15, 1956.

R 28.650 Valves and piping.

Rule 50. (1) Each pipe attached to a tank below liquid level shall be provided with a valve at the tank, with no branches or outlets between the tank and valve. In case 2 or more tanks are cross-connected, there shall be a valve at each tank in each cross-connection.

(2) In addition to the valve required by subrule (1) of this rule, all below liquid level openings in tanks to which piping is attached shall be protected by the installation of an approved heat actuated internal quick closing valve which will automatically prevent the flow of liquid from the tank in the event of fire, except that such valves shall not be required on crude oil tanks or on pipe openings equipped with swing lines. Such internal valves may also be omitted, when approved by the commissioner where there is provision made for transfer of flammable liquids by pumping.

(3) Internal valves as required in subrule (2) shall be maintained in a proper operating condition at all times.

(4) Swing lines when accepted in lieu of the internal valves required by subrule (2) shall be securely supported above the liquid level of the tank except when actually in use.

(5) Water drain valves shall be of an approved non-freeze type and shall be locked or otherwise secured in a closed position when not in use.

History: 1954 ACS 5, p. 23, Eff. Feb. 15, 1956.

R 28.651 Vapor lines.

Rule 51. Vapor lines are prohibited except when specifically approved by the commissioner and, when permitted, shall be provided with heat actuated dampers installed as close as possible to the shell of each tank.

History: 1954 ACS 5, p. 24, Eff. Feb. 15, 1956.

R 28.652 Protection and care of tank yard.

Rule 52. (1) The area which embraces the tank yard, including dike and all above ground pipe lines, shall be properly fenced with a metal fence to discourage trespassing when required by the commissioner.

(2) Property shall be kept free from weeds, high grass, rubbish, and litter, and shall be kept neat, clean, and orderly throughout at all times.

(3) Open light or flame shall be kept away from the vicinity of tanks or piping containing flammable liquids.

(4) No barrels or drums, empty or full, and no combustible materials shall be permitted under or within 10 feet of any storage tank or within a dike.

History: 1954 ACS 5, p. 24, Eff. Feb. 15, 1956.

R 28.653 Above ground tanks labeled.

Rule 53. Each tank used for the storage of flammable liquids shall be conspicuously and legibly marked in letters at least 3 inches high on a background of sharply contrasting color, or signs to the same effect may be posted adequately serving the tanks installed, as follows: "FLAMMABLE LIQUIDS—KEEP FIRE AWAY."

History: 1954 ACS 5, p. 24, Eff. Feb. 15, 1956.

R 28.654 Change in tank service.

Rule 54. No person shall place a class III flammable liquid in a tank of 3,000 gallons capacity or less which has previously contained a class I or II flammable liquid unless the tank has been thoroughly cleaned of such class I or II flammable liquid. If washing or some equally satisfactory method is not employed, the tank should be flushed with sufficient class III flammable liquid to wash out any residue of the class I or II flammable liquid and the tank should then be completely filled with the class III flammable liquid.

History: 1954 ACS 5, p. 24, Eff. Feb. 15, 1956.

UNDERGROUND, ENCLOSED, AND INSIDE STORAGE

R 28.655 Locations outside of buildings.

Rule 55. (1) No underground tanks shall be installed less than 300 feet from any mine shaft, air or escape shaft for any mine.

(2) An underground tank for flammable liquids shall be located not less than 3 feet measured horizontally from the nearest point of the shell to the nearest line of adjoining property that may be built upon and the nearest outside wall of any basement, cellar or pit, of which the floor is lower in elevation than the top of such tank.

(3) Tanks for storage of flammable liquid may be installed under the lowest floor of a building in compliance with these regulations.

History: 1954 ACS 5, p. 24, Eff. Feb. 15, 1956.

R 28.656 Locations inside of buildings.

Rule 56. (1) Tanks for storage of class I and II flammable liquids shall not be installed inside buildings except as provided elsewhere in these regulations.

(2) Class III flammable liquids may be stored inside buildings in tanks which shall not be located within 5 feet horizontally, of any fire or flame. Such tanks shall not be located in buildings above the lowest story, cellar, or basement, except in commercial, industrial or process plants where storage on a higher floor is required by the process.

(3) Tanks for class III flammable liquid exceeding 275 gallons individual capacity or 550 gallons aggregate capacity in an individual building or in a section of a building separated by firewalls shall be installed in an enclosure constructed as follows: The walls of the enclosure shall be constructed of reinforced concrete at least 6 inches thick or of brick at least 8 inches thick. Such enclosures shall be installed only on concrete or other fire-resistive floors and shall be bonded to the floors. Enclosures shall have tops of reinforced concrete at least 6 inches thick or equivalent fire-resistive construction, except that where floor or roof construction above the enclosure is concrete or other fire-resistive construction, the walls may be extended to and bonded to the underside of the construction above in lieu of the provision of a separate top. No openings shall be permitted in walls of such enclosures unless provided with an approved fire door and frame installed at a height above potential liquid level, if tank contents should be discharged into vault. The area of the enclosure shall be of a size to accommodate the tank or tanks plus a distance of 3 feet to any inside wall of the enclosure, 1 foot to any outside wall of the enclosure and 1 foot between the top of the tank and the top of the enclosure. If the top of the vault is to be driven over, it must be designed to safely bear the weight of the vehicle. The maximum gross capacity of tanks installed in this manner shall not exceed 15,000 gallons.

History: 1954 ACS 5, p. 24, Eff. Feb. 15, 1956.

R 28.657 Setting of tanks.

Rule 57. (1) Underground tanks shall be set on firm foundation and surrounded on all sides with not less than 6 inches of noncorrosive inert material such as clean sand, earth or gravel well tamped in place. Tanks shall be covered with a minimum of 2 feet of earth, or shall be covered with not less than 1 foot of earth on top of which shall be placed a slab of reinforced concrete not less than 4 inches thick. When subjected to traffic or likely to be so subjected in the future, tanks shall be protected against damage from vehicles passing over them by at least 3 feet of earth cover, or 18 inches of well-tamped earth, plus either 8 inches of asphaltic concrete or 6 inches of reinforced concrete. When asphaltic or reinforced concrete paving is used as part of the protection, it must extend at least 1 foot horizontally beyond the outline of the tank in all directions.

(2) In no case shall tanks be placed in such proximity to footings, nor shall footings be placed in such proximity to tanks as to cause bearing stress on the tanks.

(3) Inside storage tanks shall be securely supported on noncombustible material to prevent settling, sliding or lifting.

(4) The commissioner may specify additional precautions which must be taken to protect a tank to be located in an area subject to flooding.

History: 1954 ACS 5, p. 25, Eff. Feb. 15, 1956; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.658 Design and construction of tanks.

Rule 58. (1) Underground or enclosed tanks shall be designed and constructed to withstand safely the service to which subjected. Material other than steel, if

used, shall be of suitable durability and of thicknesses providing equivalent strength to that provided by steel. Steel commonly known as "mill seconds" shall not be used. Steel tanks shall be of a minimum U.S. standard gauge in accordance with the following table:

Capacity (gallons)	Minimum thickness of material U.S. standard gauge	Pounds per square foot
1 to 285	No. 14	3.125
286 to 560	No. 12	4.375
561 to 1,100	No. 10	5.625
1,101 to 4,000	No. 7	7.50
4,001 to 12,000	¼ in.	10.00
12,001 to 20,000	5/16 in.	12.50
20,001 to 30,000	⅜ in.	15.00

If adequate internal bracing is provided, tanks of 12,001 to 30,000 gallons capacity may be built of ¼ inch plate.

(2) Unenclosed tanks installed inside buildings used for class III flammable liquids shall not exceed 275 gallons individual capacity. They may be cylindrical or of a special form which has been demonstrated by appropriate tests to possess strength and tightness of an acceptable degree. Material other than steel, if used, shall be of suitable durability and thickness to provide strength equivalent to that provided by steel. Steel commonly known as "mill seconds" shall not be used. Steel tanks shall be of a minimum U.S. standard gauge in accordance with the following table:

Capacity (gallons)	Minimum thickness of material U.S. standard gauge	Pounds per square foot
1 to 180	No. 16	2.50
181 to 275	No. 14	3.125

(3) All joints of tanks shall be riveted and caulked, brazed, welded, or made tight by some equally satisfactory process. Shells of tanks shall be properly reinforced where connections are made. All connections to tanks covered by subrule (1) of this rule shall be made through the tops of the tanks above the liquid level.

History: 1954 ACS 5, p. 25, Eff. Feb. 15, 1956.

R 28.659 Vents.

Rule 59. (1) Vent pipes from tanks storing class I or class II flammable liquids shall be so located that the discharge point is outside of buildings, higher than the fill pipe opening, not less than 12 feet above the adjacent ground level, and not within 5 feet measured horizontally or vertically from any window or other opening into a building or any source of ignition. Vent pipes shall discharge only upward or horizontally. Vent pipe outlets shall be so located that flammable vapors will not enter building openings, or be trapped under eaves or other obstructions. Vent pipes 2 inches or less inside diameter shall not be obstructed by devices that will reduce their capacity. If the vent pipe is greater than 2 inches inside diameter, the outlet shall be provided with a vacuum and pressure relief device or an approved flame arrester.

(2) Vent pipes from tanks storing class III flammable liquids shall terminate outside of buildings and at least 2 feet higher than the fill pipe opening and of such greater height as is necessary to assure it being above snow level. Vent pipes shall

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

be fitted with return bends, coarse screens or other devices to minimize ingress of foreign material.

(3) All vent pipes shall be at least 1¼ inches inside diameter and in no case less than ½ the diameter of the fill pipe; or, if the tank is filled by pump with tight connection, the vent pipe shall be equal in size to the fill pipe.

(4) Vent pipes shall be so laid as to drain toward the tank without sags or traps in which liquid can collect. They shall be located so that they will not be subjected to physical damage above ground. The lower end of a vent pipe shall enter the tank through the top and shall not extend into the tank more than 1 inch.

(5) Vent pipes from a battery of tanks containing the same type of liquid may be manifolded if the manifolding connection is at least 1 foot above the top of the highest reservoir from which the tanks may be filled through continuous piping or hose. The size of the header in this case shall be equal to the combined cross-sectional area of the 2 largest vents connected to the header.

History: 1954 ACS 5, p. 28, Eff. Feb. 15, 1956.

R 28.660 Fill pipes, gauge openings, and manholes.

Rule 60. (1) Tanks shall be filled only through fill pipes terminating outside buildings and at a point at least 5 feet away from any doorway, window or other opening into a building.

(2) Fill pipes, gauge openings and manholes shall be closed liquid-tight when not in use and shall be protected against mechanical damage by location, design or a cover.

(3) Fill pipes shall be identified by a color code or marking to identify the product for which the tank is used. In addition, tanks storing class III flammable liquids for sale and in the same immediate location with tanks for class I and II flammable liquids shall be provided with some positive means, such as different pipe sizes, fill devices, or special locks or other method designed to prevent the erroneous delivery of gasoline or any other class I or II flammable liquid into such tanks used for class III flammable liquids.

(4) Where fill pipe does not permit gauging, a separate gauge opening shall be provided. Gauge openings, if independent of fill pipe, shall be provided with liquid-tight cap or cover. Where class I or class II liquids are stored under a building, such gauge opening shall be protected against vapor release or liquid overflow by means of a spring-loaded check valve, a sealed gauge or other approved device.

(5) During filling operations, no opening shall be allowed to the tank except fill pipes and vent pipes.

(6) The filling and discharge lines from all underground and enclosed tanks for flammable liquids shall enter tanks only through the top and shall have a pronounced slope downward towards the tank. The discharge pipes from all tanks permitted by R 28.656(2) to be installed unenclosed inside of a building may discharge by gravity from below liquid level.

History: 1954 ACS 5, p. 28, Eff. Feb. 15, 1956.

R 28.661 Filling underground, enclosed, or inside tanks.

Rule 61. (1) Underground, enclosed or inside tanks for class I or II flammable liquids shall not be filled by gravity from above ground storage tanks.

(2) Any person in charge of filling tanks shall be in immediate and constant attendance and means shall be provided for promptly stopping the flow to such tanks at the point of filling.

History: 1954 ACS 5, p. 27, Eff. Feb. 15, 1956.

R 28.662 Testing underground, enclosed, and inside tanks.

Rule 62. (1) Before being covered or placed in use, new tanks and piping connected thereto must pass a test for tightness of 5 pounds per square inch, either air or hydrostatic.

(2) The commissioner may require tests of any underground, enclosed or inside tank and/or its piping whenever he shall have reason to believe that the tank and/or its piping is defective. Tests shall be provided by the owner or person in control of the premises on which the tank or piping is located.

(3) Tests shall be by a hydrostatic standpipe test or other suitable means as approved by the commissioner.

(4) Tests shall be conducted in the presence of the enforcing officer or the results of the test shall be reported to the commissioner in the form of an affidavit.

History: 1954 ACS 5, p. 27, Eff. Feb. 15, 1956.

R 28.663 Abandonment of tanks.

Rule 63. (1) A temporarily out-of-use tank shall be a tank in good condition that is out of use on property on which other underground tanks are being used; or such a tank out of use on occupied property where only seasonal demand necessitates use of the tank. Temporarily out-of-use tanks shall be emptied of their contents down to the bottom of the suction line and all lines to the tank, except the vent line, securely capped. Vent lines shall be maintained as required for tanks in use. Temporarily out-of-use tanks shall be safeguarded by the person, firm, or corporation in control of the premises on which the tanks are located.

(2) An indefinitely out-of-use tank shall be a tank in good condition that is out of use on unoccupied property; or such a tank out of use on occupied property where no other underground tanks are used for storage of flammable liquids. Indefinitely out-of-use tanks shall be filled to overflowing with water; then the water expelled from the piping, and the piping filled up to ground level with a nonfreezing liquid having a flash point above 100 degrees Fahrenheit. All lines, except the vent line, shall be securely capped, and access to a line leading directly to the tank shall be maintained for inspection purposes. Such tanks shall be maintained in this manner until restored to use, removed, or permanently safeguarded. Indefinitely out-of-use tanks shall be safeguarded by the owner of the property on which the tanks are located, unless the last user of the tanks is in control of the property, in which case it shall be his responsibility so long as he remains in control of the premises.

(3) A permanently out-of-use tank shall be a tank that has become defective and is not suitable for flammable liquid storage; or a tank that is out of use because it is no longer of incidental use to the type of occupancy on the property; or a tank that is classified as indefinitely out-of-use but which is not maintained in the manner approved herein for such tanks. Permanently out-of-use tanks shall be removed from the ground and the excavation backfilled to grade level. When practical difficulty or unnecessary hardship precludes removal of the tank, as in the case of structures above, or subgrade structures near the tank, the tank may be completely filled with sand or other approved material through an opening in the top of the tank. When it is impracticable to safeguard a tank in the foregoing manner mentioned in this paragraph, and the corrosion of the tank will not later endanger floors or foundations above or near the tank, the commissioner may permit the tank to be safeguarded by completely emptying it of its flammable contents and rendering it gas-free by an approved method. Permanently out-of-use tanks shall be safeguarded by the owner of the property on which the tanks

are located, unless the last user of the tank is in control of the property, in which case it shall be his responsibility to so safeguard the tanks.

(4) If a tank is to be disposed of as junk, it shall be rendered gas-free and a sufficient number of holes or openings shall be made in it to render it unfit for further use.

History: 1954 ACS 5, p. 27, Eff. Feb. 15, 1956.

DIVISION III

FLAMMABLE LIQUIDS FOR PRIVATE USE

R 28.664 Application.

Rule 64. No person shall store flammable liquids for private use unless such flammable liquids are stored, handled, and used as hereinafter provided in this division. Such storage shall not be located within the corporate limits of any city or village unless approval of local authorities has been obtained. This division of these rules does not apply to the storage of fuel oil for heating purpose.

History: 1954 ACS 5, p. 28, Eff. Feb. 15, 1956.

R 28.665 Approved methods of storage, handling, and use.

Rule 65. (1) Flammable liquids for private use may be stored, handled, and used as provided by the acceptable regulations for underground and above ground storage in division II of these rules.

(2) Flammable liquids for private use may also be stored in and dispensed from containers having a capacity of less than 551 gallons as provided for in this division.

History: 1954 ACS 5, p. 28, Eff. Feb. 15, 1956.

R 28.666 Individual containers of 60 gallons or less capacity.

Rule 66. (1) Containers for the storage of flammable liquids having an individual capacity of 60 gallons or less shall be of substantial, closed, metal construction.

(2) Storage of flammable liquids in residences shall be for private use only and except for material necessary for decorating or maintenance of the premises, shall be limited to not more than a total of 6 gallons of class I and II liquids in approved safety cans or original sealed containers and not more than a total of 10 gallons of class III flammable liquids in closed containers. Such storage must be in a room with direct ventilation to the outside and remote from flame or open fire. Storage of class I or II flammable liquids must not be in any cellar, basement, or pit. Decorating and maintenance material shall be stored only in such quantities as are necessary for the building and shall be kept in closed containers remote from sources of ignition.

(3) Except as provided for in subrule (2), this class of container for storage of class I and II flammable liquids shall be limited to a total storage of not more than 300 gallons and shall be stored outside at least 40 feet from any building or combustible material and at least 25 feet from property lines, high level water line of any stream, river, or lake, and shall be so located to prevent spillage from draining to any building, combustible material, or waterway. Containers for the storage of any class flammable liquids may be stored inside of a building used exclusively for the storage of flammable liquids provided that the building is located at least 40 feet from any other building, property line or other combustible material and has cross ventilation at floor level with at least 2 vents of 64 square inches area each. Illumination, if provided, shall be by electricity installed as

required by the 1962 national electrical code for class I, division I, hazardous locations. Heating, if provided, shall be by indirect steam or hot water only. No open flame, heat generating appliance or electrical device other than approved for hazardous locations shall be permitted in such buildings. The door to such a building shall be conspicuously marked in letters at least 3 inches high on a background of sharply contrasting color with the words, "FLAMMABLE LIQUIDS—KEEP FIRE AWAY."

(4) Flammable liquids in containers covered by this rule shall not be discharged by any method or device requiring pressure on the container.

(5) Dispensing flammable liquids from containers of 30 gallons or more inside a building shall be by a well maintained pump.

(6) Individual containers in this category shall not be interconnected.

History: 1954 ACS 5, p. 28, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963.

R 28.667 Containers or tanks of 61 to 550 gallons capacity each.

Rule 67. (1) Class I and II flammable liquids in above ground containers of 61 to 550 gallons individual capacity shall be stored outside of buildings and at least 40 feet from any building, property line, combustible material, high level water line of any stream, river or lake, and shall be located so as to prevent spillage from draining to any building, combustible material or waterway.

(2) Such containers shall be of single compartment design and constructed throughout of steel of not less than no. 14 U.S. standard gauge and made vapor- and liquid-tight. Such tanks shall be welded, or riveted and caulked or otherwise made tight in a workmanlike manner.

(3) A fill opening shall be provided and shall be equipped with a closure designed so that it may be locked.

(4) A vent shall be provided having a free opening of not less than 1¼ inch in diameter.

(5) Containers to which this rule applies shall be mounted on supports of noncombustible material of adequate strength to properly support the tank and contents and so designed as to provide a stable support. Such containers shall be so supported that they will be protected from corrosion and not in contact with the ground.

(6) Containers to which this rule applies may be provided with top openings only and when so designed, the contents shall be discharged by a tightly and permanently attached approved pumping device having an approved hose. Either the pump or the hose shall be equipped so that it may be locked to discourage tampering. An effective antisiphon device shall be included in the pump discharge. Discharging of the contents by means of siphons or internal pressure is prohibited. Containers in this category may also be designed for gravity discharge and when so designed, all below liquid level openings shall be protected by installation of an approved heat actuated internal quick-closing valve which will automatically prevent the flow of liquid from the tank in the event of fire and which likewise may be readily closed manually. Gravity discharge outlets shall be provided with an approved hose equipped with a self-closing valve at the discharge end of a type that can be locked to its hanger to discourage tampering.

(7) If more than 1 tank of this type is installed on the same property, a distance of not less than 3 feet shall be maintained between tanks.

(8) Containers of this capacity shall not be interconnected.

(9) Not more than 4 containers of the type provided for in this rule may be installed on any premises.

History: 1954 ACS 5, p. 28, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963.

R 28.668 Protection and care of tank area.

Rule 68. The storage area shall be maintained free from weeds, high grass, rubbish, and litter, and shall be kept neat, clean, and orderly at all times.

History: 1954 ACS 5, p. 29, Eff. Feb. 15, 1956.

R 28.669 Marking containers.

Rule 69. (1) Containers filled or sold containing gasoline, benzine or naphtha shall be painted vermilion bright red and shall be lettered or labeled with the word "GASOLINE," "BENZINE" or "NAPHTHA." No kerosene shall be put into or sold in a container painted vermilion bright red as provided in Act No. 37 of the Public Acts of 1909, known as the "Red Can Act."

(2) Containers for storage of flammable liquids other than gasoline, benzine or naphtha shall be clearly marked with the common or brand name of the product which they contain and, "FLAMMABLE LIQUIDS—KEEP FIRE AWAY."

History: 1954 ACS 5, p. 29, Eff. Feb. 15, 1956.

DIVISION IV

PIPING, VALVES, AND DISCHARGE SYSTEMS

R 28.670 Application.

Rule 70. (1) The provisions of division IV shall apply to all flammable liquid installations, except pipelines as outlined under subrule (2) of this rule.

(2) Pipelines shall be constructed in accordance with standards established by the American standards association (code for pressure piping, B31.1-1955) and operated in accordance with good engineering practice.

History: 1954 ACS 5, p. 29, Eff. Feb. 15, 1956.

R 28.671 Material.

Rule 71. All piping shall be standard full weight wrought iron, steel or brass pipe with standard fittings, or approved seamless copper, aluminum, brass or other approved nonferrous tubing with approved fittings or other material suitable for use with flammable liquid being handled, provided that approved flexible metal hose may be used where rigid connections are not practical. For working pressures in excess of 250 pounds, extra heavy pipe and fittings, or equivalent thereof, shall be used. Where wrought iron or steel pipe is used, internal diameter shall be not less than ⅛ inch, except that such pipe of ¼ inch minimum internal diameter may be used for domestic oil burner installations. In lieu of the above, piping shall comply with American standards association (code for pressure piping, B31.1-1955.)

History: 1954 ACS 5, p. 29, Eff. Feb. 15, 1956.

R 28.672 Runs.

Rule 72. Piping shall be run as directly as practicable and proper allowance made for expansion and contraction.

History: 1954 ACS 5, p. 30, Eff. Feb. 15, 1956.

R 28.673 Protection of piping above ground.

Rule 73. (1) Pipe systems shall be substantially supported and protected against physical damage and excessive stresses arising from settlement, vibration, expansion, or contraction.

(2) Supports for piping shall be of noncombustible material.

Digitized by Google Original from UNIVERSITY OF MICHIGAN

(3) All above ground piping shall be tested for leaks under air pressure of 50% in excess of the maximum working pressure.

(4) Piping subject to external corrosion shall be painted or otherwise protected.

History: 1954 ACS 5, p. 30, Eff. Feb. 15, 1956.

R 28.674 Protection of piping underground.

Rule 74. (1) Underground piping shall not be surrounded or covered by cinders or other material of a corrosive nature. All underground piping shall be protected from corrosion.

(2) Where underground piping is subject to traffic or is likely to be subject in the future, it shall be protected against damage from vehicles passing over it.

(3) New piping shall be properly hydrostatically tested before being put in operation. Repair of piping should be properly tested for leaks prior to back fill.

(4) Wherever piping from an underground tank extends through a concrete slab, there shall be a sleeve or expansion material provided in the slab around the pipe. If a fitting on a pipe extending from an underground tank is embedded in the slab, the opening in the slab shall be larger than the largest part of the fitting.

(5) Underground systems shall be designed and installed to relieve stress on the piping.

History: 1954 ACS 5, p. 30, Eff. Feb. 15, 1956.

R 28.675 Piping inside buildings excluding bulk plant pumphouse.

Rule 75. (1) All piping systems used for handling flammable liquids shall be installed outside of buildings, either above ground or underground, except where manufacturing processes require pipelines for delivery of such liquids inside of buildings.

(2) All piping systems in buildings shall be so designed that flammable liquids will not continue to flow by gravity or siphoning from storage tank in case of breakage of pipe or fitting.

(3) Suitable shut-off valves shall be installed at strategic locations in all piping used for flammable liquid so that the flow of such liquid may be stopped at time of emergency, i.e., fire, line breakage, or building collapse. These valves shall be so located that they can be readily and safely operated at any time. The operation of the shut-off valve may be automatic or manual or both, depending upon the extent and severity of the hazard involved. Shut-off valves shall be installed on the suction side of all pumps handling flammable liquids whether installed inside or outside of a building.

(4) Where the degree and extent of the hazard is abnormally severe, the shut-off valves installed in the pipelines supplying flammable liquids to the area may be equipped with heat actuating devices such that the valve trips shut and must be manually reset in the open position. These automatic valves shall also be equipped with manual trips for closing.

(5) The requirements of this rule shall not apply to piping systems feeding fuel oil burning or heat generating equipment.

History: 1954 ACS 5, p. 30, Eff. Feb. 15, 1956.

R 28.676 Joints.

Rule 76. (1) Joints may be welded, brazed, flanged, or of ordinary screw type made up with an approved joint compound.

(2) Soldered joints in copper piping may be used underground only.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.677 Protection against intermixing.

Rule 77. (1) No class III flammable liquid shall be handled through a line used for class I or II flammable liquids, except through lines at refineries, marine or pipeline terminals, or where mixing of liquids is necessary to produce a finished product. This does not prohibit a permanent change in the use of a pipeline providing lines are thoroughly drained and flushed before making such change.

(2) Piping or tanks containing class I or II flammable liquids shall not be cross-connected to pipes or tanks containing class III flammable liquids except at refineries, marine or pipeline terminals or where mixing of flammable liquids is necessary to produce a finished product.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.678 Identification of pipelines and valves.

Rule 78. All exposed piping and valves carrying flammable liquids shall be identified by color scheme or durable tags or markings to indicate the type of flammable liquid carried.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.679 Defective piping.

Rule 79. Defective or leaking piping shall be made tight immediately, or replaced.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

VALVES

R 28.680 Antisiphoning devices.

Rule 80. Overhead draw-off lines shall be equipped with antisiphoning devices installed at the highest point of the line.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.681 Normal valves.

Rule 81. Each pipe attached to an above ground storage tank below liquid level shall be provided with a valve as near the tank as practicable, with no branches or outlets between the valve and the tank, except expansion by-pass connections. Such valves shall be of steel or have steel bodies. Fittings between such valves and the tank shall be of steel, except that brass or bronze internal emergency check valves may be used. For liquids not compatible with steel, other materials may be used, except that such valves and fittings shall not be of cast iron.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.682 Pump valves.

Rule 82. (1) Pumps delivering to or taking supply from above ground storage tanks shall be provided with valves on both suction and discharge side of pump, and a check valve on the discharge side when delivering to a tank.

(2) Pumps of the piston, rotary, and gear type shall be provided with relief valve or by-pass set to prevent excessive pressure being created in pipelines or tanks.

(3) Connections to pipelines, by which equipment such as tank cars or tank trucks discharge flammable liquids into above ground storage tanks, shall be provided with check valves for automatic protection against back-flow.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.683 Piping valves.

Rule 83. Pipe systems shall contain a sufficient number of valves to properly control the flow of liquid in normal operation and in the event of physical damage.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.684 Valves and fittings.

Rule 84. Valves and fittings used in connection with flammable liquid piping shall be of a type suitable for such use and shall be maintained free from leaks.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

DISCHARGE SYSTEMS

R 28.685 Protection against intermixing.

Rule 85. Pumps used for class III flammable liquids shall not be used for class I and class II flammable liquids except where necessary at refineries and marine or pipeline terminals or where mixing of liquids is necessary to produce a finished product.

History: 1954 ACS 5, p. 31, Eff. Feb. 15, 1956.

R 28.686 Pumps and motors.

Rule 86. (1) Pumps used for transferring flammable liquids shall be of a type suitable for such use and shall be maintained in good repair and free of excessive leakage.

(2) Pumps handling flammable liquids shall be installed in the open, or in a building constructed and located as required by R 28.687.

(3) Motors, electric wiring, devices, and electric equipment shall comply with the 1971 edition of the national electrical code.

(4) Pump power, other than electrical, shall be designed and installed as approved by the commissioner so as not to create an ignition hazard.

(5) This rule shall not apply to motors and pumps used on fuel oil burning equipment.

History: 1954 ACS 5, p. 32, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.687 Pump houses and rooms.

Rule 87. (1) Pumps and motors handling flammable liquids when not installed in the open, shall be in a separate building of noncombustible construction not less than 10 feet from tanks, buildings, and property lines which may be built upon and outside of any diked area.

(2) When necessary to install such pumps in buildings used for any other purpose, such as industrial or commercial establishments, such pumps shall be installed in a separate room built according to R 28.694 except, however, that the commissioner may permit the use of approved portable pumps outside such rooms when the nature of the operation precludes permanent installation.

(3) Ventilation shall be provided for all rooms, buildings or enclosures in which flammable liquids are pumped or dispensed. Design of ventilation systems shall take into account the relative specific gravity of the vapors. Ventilation may be provided by adequate openings in outside walls at floor level unobstructed except by louvers or coarse screens. Where natural ventilation is impracticable, approved mechanical ventilation shall be provided.

(4) Artificial lighting and heating for building and rooms, if provided, shall be of a type approved for use in *such locations.*

R 28.689 Pneumatic pressure discharge.

Rule 89. Discharge of flammable liquids from tanks or containers by means of pressure on the tank or container is prohibited unless the containers involved are designed and approved as pressure vessels and the piping system is designed to withstand the pressure involved. In no case shall air pressure be used except in power spraying.

History: 1954 ACS 5, p. 32, Eff. Feb. 15, 1956.

R 28.690 Tests of piping systems.

Rule 90. (1) The commissioner may require tests of any piping system whenever he shall have reason to believe the piping system is defective. Tests shall be provided by the owner or person in control of the premises on which the piping system is located.

(2) Tests shall be by liquid pressure at 5 pounds per square inch or 50% in excess of the working pressure, whichever is greater, or other approved test methods may be used.

(3) Tests shall be conducted in the presence of the enforcing officer or the results of the test shall be reported to the commissioner in the form of an affidavit.

History: 1954 ACS 5, p. 32, Eff. Feb. 15, 1956.

DIVISION V
BULK PLANTS

R 28.691 Application.

Rule 91. This division shall apply to all bulk plants as defined in these rules. Nothing shall prevent alterations or additions to existing bulk plants providing such alterations or additions are in compliance with these rules and all such additions or alterations are approved by the local authorities.

History: 1954 ACS 5, p. 33, Eff. Feb. 15, 1956.

R 28.692 Storage.

Rule 92. (1) Class I flammable liquids shall be stored in above ground tanks outside of buildings, underground tanks, or closed containers provided that containers inside buildings shall not exceed a capacity of 1 gallon each and that there shall be no transfer of liquids within buildings except as provided for in R 28.694.

(2) Class II flammable liquids shall be stored in above ground tanks outside buildings, underground tanks or closed containers provided that containers stored inside shall not exceed 60 gallons capacity each and that there shall be no transfer of liquids within a building except as provided for in R 28.694.

(3) Class I and II flammable liquids shall not be stored on any floor below grade level.

(4) Class III flammable liquids shall be stored in above ground tanks outside of buildings, underground tanks or in containers.

(5) Containers of flammable liquids stored outside shall be segregated by an open space of at least 10 feet from roadways, sidewalks and structures. Containers piled one upon the other shall be separated by dunnage sufficient to provide stability and to prevent excessive stress on container walls. The height of piles shall be consistent with stability. Drums and barrels stored on their side shall have their heads facing aisles so that leakage of bungs may be detected. Containers storing flammable liquids shall have caps, plugs or bungs replaced immediately after use and when the container is empty.

(6) Containers in excess of 1 gallon individual capacity, whether full or empty, used for class I flammable liquids shall be stored in the open. This is not to be interpreted to prohibit the storage of such containers on an open platform with a canopy roof. Such container storage shall be located in relation to a tank as required for plant buildings.

(7) Containers or other material shall not be stored beneath any tank or within a diked area.

(8) No tank vehicle shall be used or operated as a bulk plant storage facility.

History: 1954 ACS 5, p. 33, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963.

R 28.693 Warehouse buildings.

Rule 93. (1) Warehouse buildings used only for storage provided in R 28.692 and/or for the storage of tank vehicles shall be of noncombustible construction, or have walls of 8-inch masonry construction and a spark-resistant roof.

(2) Floors shall be of noncombustible construction and shall have no pits, holes, pockets, or floor drains direct to sewers unless equipped with an approved type flammable liquids interceptor.

(3) All stairways shall be enclosed in walls of 8-inch masonry construction and openings into such enclosures shall be protected by an approved fire door.

(4) If located more than 5 feet but less than 10 feet from adjoining property lines, which may be built upon, the exposed wall of the building shall be of blank masonry construction or have windows of fixed metal sash, glazed with wired glass and a door opening, if provided, shall be protected by an approved fire door.

(5) If located 5 feet or less from adjoining property line, which may be built upon, the exposed wall of the building shall be of blank masonry construction.

(6) Electrical wiring shall comply with the 1971 edition of the national electrical code.

(7) Heating, if provided, for rooms used for the storage and handling of flammable liquids or for the housing of tank vehicles, shall be by steam or hot water only. The boiler shall be located in a detached building or in a room constructed of an assemblage of materials having at least 1 hour's resistance to fire. Openings between the boiler room and such rooms shall be separated by a distance of at least 10 feet. This subrule shall not be interpreted to prohibit the use of approved unit heaters installed at least 8 feet above floor level or any other heating device approved for such locations.

(8) Warehouses shall be kept clean, neat, and orderly and free from accumulation of grease and oil spillage at all times.

(9) Extinguishers of a type approved for use on flammable liquid fires shall be readily available for incipient fires.

History: 1954 ACS 5, p. 33, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.694 Transfer operations inside buildings.

Rule 94. (1) Transfer of class I or II flammable liquids within a building shall be done in a room above grade used for this purpose only and shall be constructed with walls, floor and ceiling of 8 inch solid masonry, or 4 inches of reinforced concrete or other equivalent fire resistant construction approved by the commissioner, except that when the ceiling constitutes the roof of the building, metal lath and plaster with 1 hour's resistance to fire may be used.

(2) All inside door openings shall be provided with a 6 inch high noncombustible, liquid-tight sill or ramp and shall be equipped with an approved fire door with an approved self-closing device.

(3) Floor shall be liquid-tight and arranged to drain to a safe location.

(4) All electrical equipment shall be in accordance with the 1971 edition of the national electrical code.

(5) Natural or mechanical ventilation shall be provided to prevent the accumulation of vapors.

(6) A separate building 10 feet from any other building or property line may be used for the handling of class I or II flammable liquids provided such building is of noncombustible construction throughout and electrical equipment, apparatus and ventilation is furnished as provided in this rule.

(7) Heating, if provided, for such rooms or buildings shall be by indirect steam or hot water only. The boiler shall be located in a detached building or in a room constructed of an assemblage of materials having at least 1 hour's resistance to fire. Openings between the boiler room and such rooms shall be separated by a distance of at least 10 feet.

(8) Extinguishers of a type approved for use on flammable liquids fires shall be readily available for incipient fires.

History: 1954 ACS 5, p. 34, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.695 Tank vehicle loading and unloading facilities.

Rule 95. (1) Loading docks and platforms for tank vehicles shall be separated from tanks, warehouses, plant buildings, and property lines by a distance of not less than 25 feet measured from the nearest position of any fill stem. Shelter for pumps or loading personnel may be part of the loading dock.

(2) All electrical equipment at tank truck loading docks and platforms shall be of a type approved for use in hazardous locations.

(3) Heating at such locations shall be of a type approved for hazardous locations or by indirect steam or hot water only.

(4) Before tank vehicle loading operations are started, a positive electrical bond shall be established between the tank vehicle and the loading device.

(5) Unloading stubs or risers for discharge from a tank vehicle at a bulk plant shall be located a distance of 25 feet from adjoining property lines which may be built upon, tanks, warehouses and other plant buildings, with the exception of a pump house or loading dock or platform.

(6) Provision shall be made to prevent flammable liquids which may be spilled at loading or unloading points from entering public sewers and drainage systems, or natural waterways. Connections to such sewers, drains, or waterways by which flammable liquids might enter shall be provided with separator boxes or other approved means whereby such entry is precluded.

(7) No tank vehicle shall be loaded or unloaded at a bulk plant while any portion of such vehicle is upon a public street or alley.

(8) A fire extinguisher of 20-B, C size shall be readily available to the loading dock plus additional 20-B, C extinguishers at a ratio of 1 extinguisher for each

additional 2 loading spots. A 20-B, C extinguisher on a tank vehicle constitutes compliance with this requirement in plants where the driver is the only attendant. All replacement extinguishers in existing bulk plants and all new plants shall be of 20-B, C size. (A "B, C" fire extinguisher means a type as defined by the national fire protection association, standard for the installation of portable fire extinguishers, pamphlet no. 10 of 1970.)

History: 1954 ACS 5, p. 34, Eff. Feb. 15, 1956; 1954 ACS 35, p. 7, Eff. Aug. 14, 1963; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.696 Tank car loading and unloading operations.

Rule 96. (1) Before tank car loading or unloading operations are started and before any connection or contact is made with piping or other loading or unloading equipment, the tank car shall be electrically grounded by means of a permanent electrical connection of not less than no. 6 stranded copper cable or its equivalent between the rails on which tank cars stand and the piping system of the storage plant.

(2) The unloading of class I flammable liquids from railroad tank cars through a bottom outlet shall not be permitted. Class I flammable liquids shall be unloaded from tank cars only by pumping through the dome or manhole.

(3) After unloading pipe is inserted into the dome of a tank car and before any pumping is done, the dome shall be tightly covered with wet burlap or some other type of cover equally effective.

(4) Unloading from tank cars or boats to tank trucks or portable containers is prohibited.

(5) Tank cars shall not be unloaded by pneumatic pressure.

(6) All connections between tank cars and pipelines shall be in good condition and not permit leakage.

(7) Tank cars shall not be left connected to pipelines except when being loaded or unloaded.

(8) The loading or unloading of a tank car shall be under the immediate supervision of a competent person at all times.

(9) Sidings used in connection with tank car loading or unloading operations shall not be common to other users, unless provided with derails. All sidings on which tank car loading or unloading is done shall be provided with warning stop signs which shall be displayed while tank cars are connected.

(10) Illumination for loading or unloading of tank cars shall be by electricity and in accordance with the 1971 edition of the national electrical code. Use of flame lanterns or other exposed flame lights or fires is prohibited during the process of loading or unloading.

History: 1954 ACS 5, p. 35, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.697 Sources of ignition.

Rule 97. Flammable liquids shall not be handled, drawn, or dispensed where flammable vapors may reach a source of ignition. Smoking shall be prohibited except in designated locations. "No Smoking" signs shall be conspicuously posted where flammable liquids vapors are normally present.

History: 1954 ACS 5, p. 35, Eff. Feb. 15, 1956.

DIVISION VI

SERVICE STATIONS

R 28.698 Application.

Rule 98. Except as provided for in division III, this division shall apply to any premises, public or private, *where flammable liquids* are dispensed from fixed

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

equipment into the fuel tanks of vehicles or internal combustion engines, and shall include facilities on such premises for the lubrication and minor service of such motor vehicles or internal combustion engines and shall cover the storage, handling, and use of flammable liquids in public or private storage or repair garages.

History: 1954 ACS 5, p. 35, Eff. Feb. 15, 1956.

R 28.699 Storage.

Rule 99. (1) Flammable liquids at service stations shall be stored in above ground tanks or underground tanks as provided for in division II of these regulations or in containers as provided for in subrules (2), (3), and (4) of this rule.

(2) No class I flammable liquids shall be stored, handled, or used within any service station building, except packaged items received and resold in unbroken, metal containers of not over 1 gallon capacity each or glass containers of not over 1 quart capacity each. Class I flammable liquids for special purposes, such as white gas or pre-mixed 2-cycle motor fuel, may be stored in and dispensed from containers of not over 60 gallons capacity, each outside on service station premises or other places where such flammable liquids are sold at retail. Dispensing shall be by hand pump mounted in the top of the container. The quantity stored in this manner shall be limited to 2 drums of each special purpose product. Containers shall be located 25 feet from buildings or sources of ignition other than motor vehicles and shall be enclosed by a suitable fence when required by the inspecting authority.

(3) Class II flammable liquids in closed containers not exceeding 60 gallons capacity each may be stored or dispensed from inside the station building, providing that such storage and/or dispensing of class II flammable liquids is in a room where there are no open flame devices other than approved heating equipment installed at least 8 feet above floor level. Such containers shall be stored on end. The total storage of class II flammable liquids inside a service station building shall not exceed 275 gallons. A container equipped with an approved tight fitting pump shall be considered a closed container for the purpose of this subrule.

(4) Class III flammable liquids may be stored and dispensed inside a service station building from approved containers or tanks of not more than 120 gallons capacity each.

History: 1954 ACS 5, p. 35, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963.

R 28.700 Restrictions as to locations.

Rule 100. (1) Flammable liquid dispensing equipment shall be located in relation to a school, hospital, theater, or church so that no portion of any vehicle being served or the dispensing equipment, fill pipe, or vent shall be closer than 40 feet to any such school, hospital, theater or church. The word "school" shall be interpreted to mean any building containing a classroom.

(2) No curb pumps for the dispensing of flammable liquids shall be installed on any sidewalk, alley, street, or highway.

(3) All flammable liquid dispensing equipment shall be so located that vehicles being fueled shall be entirely off sidewalks, alleys, streets, and highways.

(4) Equipment for dispensing motor fuel into the fuel tank of vehicles or portable internal combustion engines shall be located outside of buildings, unless modification of this subrule is made as provided for in R 28.601(3). When so permitted, the dispensing device shall be located in an area of fire resistive construction well away from vehicle storage, repair areas and pits, and well

ventilated, preferably near a doorway. It shall be protected against physical damage by vehicles by mounting on a concrete island or by equivalent means and shall be located in a position where it cannot be struck by a vehicle descending a ramp or other slope out of control. A convenient remote emergency shut-off for electric power to the dispensing unit and the pump supplying it shall be provided.

(5) Apparatus dispensing flammable liquids into the fuel tanks of motor vehicles of the public shall not be located at a bulk plant unless separated by a fence or similar barrier from the area in which bulk operations are conducted.

History: 1954 ACS 5, p. 36, Eff. Feb. 15, 1956.

R 28.701 Dispensing devices.

Rule 101. (1) All dispensing equipment for gasoline or other motor fuel shall be substantially secured to concrete or masonry foundations suitably located and of proper design and dimensions to normally prevent motor vehicles from colliding with the device.

(2) Dispensing devices for flammable liquids shall be of a fixed type taking supply through the top of the tank.

(3) Pumps shall be so arranged as to control the flow of liquid at the point of discharge and, if other than hand-operated, they shall be provided with secondary means of shutting off the power in the event of accident or fire.

(4) Devices that will permit the flow of liquid through a dispensing hose or nozzle when the hand of the operator has been removed from the nozzle are prohibited, unless the pump is manually powered, or the nozzle is approved by underwriters' laboratories, inc. Such a nozzle shall have the latch-open device as an integral part of the assembly and shall shut off the liquid reliably and positively when the gasoline tank is filled, when it falls from the filling neck of an automobile tank, when it is subject to rough usage such as dropping or lack of proper lubrication, or when an automobile is driven away while the nozzle is still in the tank. A competent attendant shall be in the immediate vicinity of the vehicle being filled by such an approved nozzle.

(5) Pumps and other devices handling flammable liquids shall be of an approved type.

(6) Dispensing equipment shall be kept tight and free of leaks.

(7) No pump used for dispensing fuel oil, or kerosene into portable containers shall be located on the same pump island as pumps used for dispensing gasoline; and such pumps for fuel oil or kerosene shall be a minimum distance of 10 feet from the nearest gasoline pump. Pumps, whether with hose or not, used for fuel oil or kerosene, shall be distinctly painted and lettered in contrast to pumps used for gasoline or alcohol.

(8) The installation and use of coin operated dispensing devices for flammable liquids for use by the public is prohibited.

(9) Portable equipment and devices to be used as transportable service stations for dispensing class I or II motor fuel into fuel tanks of vehicles, marine craft, or internal combustion engines are prohibited.

History: 1954 ACS 5, p. 36, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963.

R 28.702 Operation of dispensing equipment.

Rule 102. (1) Flammable liquid fuel shall be dispensed directly from a hose attached to the dispensing device into the fuel tank of a self-propelled vehicle or portable machine.

(2) The fuel tank of motor vehicles shall not be filled until the vehicle's motor has been shut off.

Digitized by Google

(3) The discharge nozzle of a dispensing hose shall be maintained in contact with the vehicle tank or container during filling to dissipate static charges.

(4) Care shall be exercised to avoid spillage.

(5) Except as provided for in R 28.704a, a person other than the service station owner, lessee, operator, or an authorized employee shall not use or operate any motor fuel dispensing equipment.

History: 1954 ACS 5, p. 37, Eff. Feb. 15, 1956; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.703 Station buildings.

Rule 103. (1) Provisions shall be made by grading driveway, raising door sills, or some equally effective means to prevent gasoline spills from flowing into interior of station buildings.

(2) If sewer connections are provided in car washing or greasing rooms, the sewer opening shall be protected by the installation of an approved type flammable liquids interceptor.

History: 1954 ACS 5, p. 37, Eff. Feb. 15, 1956.

R 28.704 Grease pits.

Rule 104. (1) No grease pit shall be located inside a service station building except upon approval of the local fire official having jurisdiction.

(2) All grease pits installed out of doors shall be protected by substantial guard rails or chains.

(3) All grease pits installed in garages, or in service stations, as provided for in subrule (1) of this rule, shall be adequately ventilated by natural or mechanical means to prevent the accumulation of combustible or toxic gases.

(4) No sewer connection shall be permitted from any grease pit.

(5) Any artificial lighting shall be by electricity, and wiring and fixtures shall be of the explosion-proof type, protected against physical damage, in compliance with the 1971 edition of the national electrical code.

(6) All pits shall be kept free from oil, grease, and other combustible material. Flammable liquids shall not be stored or handled in a pit and shall not be drained into a container within a pit. No class I or II flammable liquid shall be used to clean any pit.

History: 1954 ACS 5, p. 37, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963; 1954 ACS 74, p. 6, Eff. Mar. 8, 1973.

R 28.704a Self-service stations.

Rule 104a. (1) Self-service stations shall comply with this division and with other divisions of these rules and in addition shall comply with subrules (2) to (14).

(2) Approved self-service dispensing devices of the remote controlled type installed in a manner that, when a fueling operation is completed the dispenser is deactivated at the emergency control position or dispenser location and may be reactivated only at the emergency controls position, are permitted at self-service stations if there is at least 1 qualified attendant on duty while the station is open to the public. The attendant's primary function shall be to supervise, observe and control the dispensing of class I, II, and III liquids while the liquids are being dispensed. It is the responsibility of the attendant to prevent the dispensing of class I liquid into a portable container which does not comply with R 28.705(4) and section 502 of Act No. 328 of the Public Acts of 1931, to control sources of ignition and to handle accidental spills and fire extinguishers as needed.

(3) The attendant or supervisor on duty shall be capable of performing the functions and assuming the responsibilities covered in subrule (2).

Digitized by Google Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(4) If the dispensing of a class I liquid at a service station open and available to the public is by a person other than the service station attendant, the nozzle shall be an approved automatic closing type without a hold-open latch.

(5) Approved emergency controls shall be installed at a location not more than 100 feet from a dispenser. The attendant or supervisor shall remain at the emergency controls during the dispensing of a class I liquid. The attendant or supervisor is permitted a reasonable degree of movement beyond his physical reach of the controls; however, the attendant or supervisor shall not be considered to be at the emergency controls if he is removed therefrom by a distance greater than would permit his ready and immediate access to the controls.

(6) Permanent signs and placards printed in not less than ½ inch block letters on a contrasting background shall be posted at each self-service dispensing device and in full view so as to give complete and clear instructions for its operation.

(7) Permanent signs and placards printed in not less than 3 inch block letters on a contrasting background shall be conspicuously posted in full view so as to:

(a) Prohibit smoking anywhere on station property within 15 feet of motor fueling operations.

(b) Require the vehicle engine to be shut off before the fueling operation may begin.

(8) Approved 2-way electronic voice communications shall be provided between the emergency controls position and the self-service dispensing locations unless unaided voice communications may be readily heard under all conditions of operation considering distance, noise levels, obstructions, and enclosures.

(9) Self-service dispensers shall not occupy the same pump island as attended dispensers. Pump islands with self-service dispensers shall be separated from all other attended dispenser pump islands by a distance of not less than 10 feet.

(10) Where vehicle design characteristics or a position or location of a vehicle would obscure the supervisor's view of the fueling operation, or the volume of sales would otherwise prevent reasonable supervision of the fueling operation, there shall be additional procedures or equipment or both so as to provide an unobstructed view.

(11) A self-service station shall be equipped with fire extinguishers in accordance with R 28.710.

(12) Each supervisor or attendant shall supervise the fueling of no more than 9 vehicles. If more than 9 vehicles are to be fueled, there shall be an additional attendant or supervisor on duty for each additional 9 fueling operations or fractions thereof. Sufficient safeguards in the form of barriers or other devices shall be provided to insure that no more than the prescribed number of fueling operations may be carried out at one time as determined by the number of supervisors or attendants on duty.

(13) A self-service gasoline station shall conform to these rules and comply with local ordinances. Approvals shall be obtained from local authorities before a self-service gasoline station is opened to the public.

(14) This rule shall not apply to the operation of marine and aircraft service stations.

History: 1954 ACS 74, p. 7, Eff. Mar. 8, 1973.

R 28.705 Filling containers.

Rule 105. (1) No container shall be filled with flammable liquid while inside a passenger-carrying vehicle. Containers shall be removed from the interior of passenger cars and from the cab or enclosed portion of other vehicles during filling.

Digitized by Google

(2) No portable container or containers holding in excess of a total of 6 gallons of class I or II flammable liquids shall be filled for transportation from a service station in a passenger vehicle.

(3) Containers filled or sold containing gasoline, benzine, or naphtha shall be painted vermilion bright red and shall be lettered or labeled with the word "GASOLINE," "BENZINE" or "NAPHTHA." No kerosene shall be put into or sold in a container painted vermilion bright red as provided in Act No. 37 of the Public Acts of 1909, known as the "Red Can Act."

(4) Containers shall be of sound metal construction having a tight closure with screwed or spring cover, except that:

(a) Suitable plastic or glass containers having an individual capacity of not more than 1 pint may be used for flammable liquids.

(b) Suitable plastic or glass containers having an individual capacity of not more than 1 gallon may be used for medicines, beverages, foodstuff, and toiletries that are flammable liquids.

(c) Suitable plastic or glass containers having an individual capacity of not more than 1 gallon may be used for flammable liquids whose chemical purity would be contaminated by metal containers.

History: 1954 ACS 5, p. 37, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963.

R 28.706 Protection and care of service station premises.

Rule 106. (1) No open lights or flames shall be permitted outside of a station building on the premises, except in properly screened incinerators.

(2) Premises shall be kept clean and neat and free from any accumulation of combustible material, and approaches to driveways shall be unobstructed. Grease, oil or paint soaked rags, waste or other combustible material of a like character shall be kept in approved self-closing, metal receptacles.

(3) Cleaning with gasoline or other class I or II flammable liquids shall not be permitted.

(4) Crankcase drainings shall be kept in covered tanks or containers and shall not be used for heating purposes.

(5) Flammable liquids or crankcase drainings shall not be dumped into sewers or disposed of in any manner which will permit it to enter sewers.

(6) All drainage sumps shall be cleaned and maintained to insure proper operation at all times.

(7) In the event of accidental spillage or leakage of any considerable amount of a flammable liquid in any incorporated area, the local fire department and the local department of public works shall be notified immediately.

(8) Smoking in a vehicle being fueled or on station property within 15 feet of fueling operations is prohibited at all times.

History: 1954 ACS 5, p. 37, Eff. Feb. 15, 1956.

R 28.707 Electrical wiring.

Rule 107. All electrical equipment used in connection with occupancies covered in this division shall comply with the 1971 edition of the national electrical code.

History: 1954 ACS 5, p. 38, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963; 1954 ACS 74, p. 7, Eff. Mar. 8, 1973.

R 28.708 Marine service stations.

Rule 108. (1) Marine service stations shall comply with this division and with other divisions of these rules and in addition shall comply with the following subrules

(2) Storage tanks for class I and II flammable liquids at marine service stations shall be located only on shore or on a pier of solid-fill type. Approved dispensing units installed in the open, with or without integral pumps, may be located on shore, piers of solid-fill type, open piers, wharves or floating docks. Pumps not a part of a dispensing unit shall be located at the tanks.

(3) Floating marine service stations are prohibited except where they are subject to the tank vessel regulations of the United States coast guard.

(4) Tanks and pumps supplying class III flammable liquids at marine service stations may be located on shore, on a pier of solid-fill type or on open piers, wharves or floating docks. Class III flammable liquid tanks which are located other than on shore or on piers of the solid-fill type shall be limited to 550 gallons aggregate capacity. Pumps not a part of the dispensing unit shall be located adjacent to the tanks.

(5) Pipelines attached to piers, wharves or floating docks shall be protected against physical damage, and when attached to piers, wharves or docks other than those of solid-fill type shall be provided with suitable flexibility. Valves shall be provided at convenient locations for control of piping or manifolds where multiple dispensing units are used. A readily accessible valve to shut off the supply from shore shall be provided in each pipeline at or near the approach to the pier, wharf or floating dock.

(6) Pipelines to floating docks shall be so designed and installed as to make appropriate provision for changes in water level or tide. Transition from the fixed portion of the installation to the floating unit shall provide product control, flexibility, and protection against physical damage.

(7) Class I and II flammable liquids shall not be dispensed into fuel tanks of marine craft by means of gravity or from tank truck or from portable dispensing devices. Dispensing shall be by means of fixed equipment through hose, equipped with a self-closing nozzle and with a valve which must be held open by manual control while making a delivery. Nothing herein shall prohibit fueling from a container of 6 gallons or less capacity.

(8) Class III flammable liquids may be dispensed into the fuel tanks of marine craft from tank trucks by gravity or power-operated pumps through a hose equipped with a self-closing nozzle.

(9) Smoking, running motors, open flame, or other sources of ignition in a craft being fueled or within 25 feet of fueling operations shall be prohibited and signs to this effect shall be posted.

(10) Storage of portable fuel tanks used in marine craft, if containing an aggregate of more than 6 gallons of product, shall be stored in accordance with R 28.666(3).

History: 1954 ACS 5, p. 38, Eff. Feb. 15, 1956; 1954 ACS 35, p. 8, Eff. Aug. 14, 1963.

R 28.709 Aircraft refueling.

Rule 109. (1) Permanently installed and portable equipment for the dispensing of flammable liquids into the fuel tanks of aircraft shall be designed and approved for such use.

(2) Tank vehicles used for fueling aircraft shall comply with division I of these rules.

(3) Extreme care shall be exercised to prevent spillage of flammable liquids in, on or in the vicinity of aircraft and such spillages shall be removed immediately by flushing or by rags or oil absorbents, washed from the area with water, or allowed to completely evaporate before the location of the spill is again used for aircraft operations.

(4) Before fueling operations are started, an electrostatic bond shall be made between the aircraft being filled and the dispensing equipment, and this bond shall be maintained until the refueling is completed.

(5) Open containers shall not be used for the refueling of aircraft with flammable liquids.

(6) Aircraft shall not be fueled while the aircraft engine or engines are running.

(7) Aircraft shall not be refueled in the vicinity of open flames or spark-producing devices.

(8) Smoking in an aircraft being refueled shall be prohibited and passengers remaining in an aircraft being refueled shall be prohibited from smoking during the refueling operations.

(9) Motor vehicles, other than those necessary for servicing the aircraft, shall not be operated in the vicinity of an aircraft being refueled.

(10) High frequency radar equipment mounted in aircraft shall not be operated during fueling operations.

(11) Portable lighting equipment used in the vicinity of an aircraft being refueled shall be electrically operated and of a type approved for use in hazardous locations.

History: 1954 ACS 5, p. 38, Eff. Feb. 15, 1956.

R 28.710 Fire extinguishers.

Rule 110. Each service station shall be equipped with at least 1 fire extinguisher having a minimum classification of 5 B, C as defined by the national fire protection association, standard for the installation of portable fire extinguishers, pamphlet no. 10 of 1970.

History: 1954 ACS 5, p. 39, Eff. Feb. 15, 1956; 1954 ACS 74, p. 8, Eff. Mar. 8, 1973.

DIVISION VII

COMMERCIAL AND INDUSTRIAL ESTABLISHMENTS

R 28.711 Application.

Rule 111. This division shall apply to commercial and industrial establishments as defined in these rules.

History: 1954 ACS 5, p. 39, Eff. Feb. 15, 1956.

R 28.712 Storage.

Rule 112. (1) Outside storage of class I and II flammable liquids for commercial and industrial establishments shall be in above ground or underground tanks as provided for in division II of these rules, or in containers.

(2) Inside storage of class I and II flammable liquids at commercial and industrial establishments shall be limited to as small a quantity as is consistent with the normal storage needs of the establishment. Normally, this quantity should not exceed 1 day's supply of class I and II flammable liquids. Quantities of class I and II flammable liquids in excess of 55 gallons shall be stored in a room or building constructed and located as provided for in R 28.694.

(3) Class I and II flammable liquids at commercial and industrial establishments stored inside a building and outside of a room, as provided for in subrule (2) of this rule, shall be confined to sealed containers not exceeding 5 gallons individual capacity. If not in sealed containers, class I and II flammable liquids should be stored in approved safety containers not to exceed 5 gallons individual capacity where such safety containers are practicable for liquids utilized.

(4) Storage of class III flammable liquids in commercial and industrial establishments shall be in above ground or underground tanks as provided for in division II of these rules or in containers.

(5) Containers of flammable liquids stored outside shall be segregated by an open space of at least 10 feet from roadways, sidewalks, and structures so as not to constitute an immediate life or property hazard in event of fire. Special attention should be given to routes of egress for building occupants, window and door openings, and combustible exterior walls, platforms, cornices and roofs in securing the desired separation. Containers piled one upon the other shall be separated by dunnage sufficient to provide stability and to prevent excessive stress on container walls. The height of piles shall be consistent with stability. Drums and barrels stored on their sides shall have their heads facing aisles so that leakage of bungs may be detected. Containers storing flammable liquids shall have caps, plugs, or bungs replaced immediately after use and when the container is empty.

History: 1954 ACS 5, p. 39, Eff. Feb. 15, 1956.

R 28.713 Use of flammable liquids.

Rule 113. (1) The mixing and blending of class I or class II flammable liquids in commercial or industrial establishments shall be accomplished only in buildings or in separate rooms of buildings so located or designed to prevent the spread of fire to other structures or property or to other sections of the building. This may be accomplished by confining the mixing or processing of such liquids as follows: (a) to a detached 1-story building; (b) to a 1-story section cut off from the remainder of the building by an approved fire wall with any opening in this wall protected properly by approved automatic fire doors; (c) to a separate fire-resistive area within a building as required by R 28.694. The separation walls, floors, and ceiling of the fire-resistive area shall have a fire-resistance rating of not less than 1 hour with all openings in such walls protected by approved fire doors. Openings in fire walls or separating walls should have noncombustible, liquid-tight sills or ramp preferably 6 inches high, and an alternate to the sill or ramp may be a floor gutter inside the room extending beyond the width of the door and discharging to a safe outside location.

(2) The use of class I and II flammable liquids outside of storage, mixing and/or blending rooms shall be limited to quantities consistent with daily operational needs and confined to approved safety containers wherever practicable.

(3) This rule shall not apply to the following:

(a) For the storage or use of flammable liquids in the fuel tank of a motor vehicle, aircraft, motorboat, mobile power plant, or mobile heating plant.

(b) For the storage or use of paints, oils, varnishes, or similar flammable mixtures when such liquids are stored for maintenance painting or similar purposes for a period of not more than 30 days.

(c) For plants whose primary business is manufacture, processing, blending, or refining of flammable liquids.

(d) Dry cleaning plants constructed and equipped as required by Act No. 327 of the Public Acts of 1947, being §29.201 et seq. of the Michigan Compiled Laws.

(e) Installations made in compliance with national board of fire underwriters pamphlet no. 34, 1952 edition, entitled "Standards of the National Board of Fire Underwriters for Dip Tanks *Containing Flammable* or Combustible Liquids."

(f) Installations made in compliance with national board of fire underwriters pamphlet no. 33, 1953 edition, entitled "Standards of the National Board of Fire Underwriters for Spray Finishing with Flammable Materials."

History: 1954 ACS 5, p. 39, Eff. Feb. 15, 1956.

R 28.714 Dispensing.

Rule 114. (1) Flammable liquids shall not be drawn from or dispensed into vessels or containers within a building except by means of a device drawing from the top of the tank or other containers. Within a building gravity discharge of flammable liquids from tanks, drums, or containers other than safety cans is prohibited except where the nature of the manufacturing process requires gravity flow. Where such gravity flow is required, it shall be permitted only from vessels storing flammable liquids sufficient for not more than 1 day's operations or immediate production needs.

(2) Flammable liquids shall not be discharged from tanks or containers by pneumatic pressure.

(3) Class I or II flammable liquids shall not be dispensed within a room or building which contains sources of ignition. Dispensing devices shall be provided with iron or steel valves where compatible with the flammable liquid handled. Where practicable, there shall be, in addition to the outlet valve, a secondary control device or valve outside of the immediate area, by which the flow may be stopped in the event of fire or other accident at the outlet. Outlet valves shall be of the self-closing or heat-actuated type.

(4) Containers of class I and II flammable liquids shall not be filled unless the nozzle and container are electrically interconnected.

(5) Buildings or rooms in which flammable liquids are stored, handled, or used shall have exit facilities arranged to prevent occupants being trapped in the event of fire.

History: 1954 ACS 5, p. 40, Eff. Feb. 15, 1956.

R 28.715 Ventilation.

Rule 115. (1) Buildings or rooms or other enclosures in which flammable liquids are used or stored in open vats or dip tanks shall be provided with ventilation sufficient at all times to prevent accumulation of flammable vapors. Where natural ventilation is insufficient under all conditions to prevent the accumulation of flammable vapors, mechanical ventilation shall be provided and used. The accumulation of flammable vapors within the combustible or explosive range under normal operating conditions, as determined by an approved flammable-vapor indicator, shall be prima facie evidence of the violation of this rule.

(2) Openings to the outside for natural ventilation shall be at floor level and shall be unobstructed except by louvers or coarse screens. Mechanical systems for removing flammable vapors shall be of a type approved for use in hazardous locations.

History: 1954 ACS 5, p. 40, Eff. Feb. 15, 1956.

R 28.716 Sources of ignition.

Rule 116. (1) Open flames, heating devices, and processes employing temperatures capable of igniting the vapors of the flammable liquids used shall be prohibited in buildings, rooms and other confined spaces in which class I or class II flammable liquids are used, or in which class III flammable liquids are used or stored in open vats or dip tanks. In the instance of oil tempering or similar

operating procedures where high-temperature furnaces are a part of the process involved, such open tanks of flammable liquids may be permitted when these tanks are properly protected from the source of ignition by location, or non-combustible shielding and exhaust ventilation. Appropriate means of rapidly extinguishing fires in such tanks should also be provided at each individual tank. Artificial lighting shall be by electricity only. Electrical devices shall be of a type for such locations in compliance with the 1971 edition of the national electrical code.

(2) Smoking shall be prohibited and suitable signs to that effect shall be displayed.

History: 1954 ACS 5, p. 41, Eff. Feb. 15, 1956; 1954 ACS 35, p. 9, Eff. Aug. 14, 1963; 1954 ACS 74, p. 8, Eff. Mar. 8, 1973.

R 28.717 Housekeeping.

Rule 117. (1) Wherever flammable liquids are stored in containers, provisions shall be made and maintained for the detection of leakage. Leaking containers shall be immediately removed or made tight.

(2) Access shall be provided by unobstructed aisles whereby first aid fire control apparatus may be brought to bear on any part of such flammable liquids storage.

(3) Unnecessary combustible material shall not be permitted to accumulate. Metal containers with self-closing covers shall be provided for the temporary retention of waste material and these shall be removed from the building and the contents disposed of daily or at such additional times as may be necessary.

History: 1954 ACS 5, p. 41, Eff. Feb. 15, 1956.

R 28.718 Fire extinguishing devices.

Rule 118. Fire extinguishers shall be provided in commercial and industrial establishments of a type and in such quantities as public safety shall require. Permanently installed heat actuated extinguishing systems shall also be provided if public safety shall make such additional protection necessary.

History: 1954 ACS 5, p. 41, Eff. Feb. 15, 1956.

DIVISION VIII

PROCESSING PLANTS

R 28.719 Application.

Rule 119. This division shall apply to processing plants as defined in these rules.

History: 1954 ACS 5, p. 41, Eff. Feb. 15, 1956.

R 28.720 Storage.

Rule 120. (1) Storage of flammable liquids in processing plants shall be in above ground or underground tanks as provided for in division II of these rules, or in containers.

(2) Unlimited storage of flammable liquids in metal containers not exceeding 60 gallons individual capacity shall be permitted only in buildings or rooms used solely for the purpose of such storage, and which meets the following design standards: Walls, floors and ceilings shall be of 8 inches of brick or concrete or 4 inches of reinforced concrete or other equivalent fire-resistant construction approved by the commissioner. Openings to other rooms shall have fire doors with heat actuated releasing devices arranged to close doors automatically in case of fire. No combustible material shall be used in construction, except that the floor surfacing may be of wood. Proper ventilation shall be provided in accordance

with R 28.726. There shall be no openings to rooms below, except as made necessary by trade or manufacturing processes. Such openings shall be provided with a 6-inch curb. All process tanks or groups of process tanks shall be provided with a 6-inch curb.

(3) Within wood frame buildings, storage of class I and class II flammable liquids shall be prohibited. Storage of class III flammable liquids in such buildings shall be limited to 60 gallons unless in accordance with division II of these rules.

(4) In other than frame buildings which do not comply with subrule (2), the storage of class I, II, and III flammable liquids in closed containers may be permitted with the approval of the commissioner.

(5) Containers of flammable liquids stored outside shall be segregated by an open space of at least 10 feet from roadways, sidewalks, and structures so as not to constitute an immediate life or property hazard in event of fire. Special attention should be given to routes of egress for building occupants, window and door openings, and combustible exterior walls, platforms, cornices and roofs in securing the desired separation. Containers piled one upon the other shall be separated by dunnage sufficient to provide stability and to prevent excessive stress on container walls. The height of piles shall be consistent with stability. Drums and barrels stored on their sides shall have their heads facing aisles so that leakage of bungs may be detected. Containers storing flammable liquids shall have caps, plugs, or bungs replaced immediately after use and when the container is empty.

History: 1954 ACS 5, p. 41, Eff. Feb. 15, 1956.

R 28.721 Blending and mixing.

Rule 121. (1) Mixing or blending rooms or buildings shall meet the design standards of R 28.720(2). Mixing or blending rooms or buildings shall be provided with natural or mechanical ventilation that will prevent the accumulation of flammable vapors in hazardous concentration. Openings in outside walls for natural ventilation shall be at floor level and shall be unobstructed except by louvers or coarse screens. Mechanical systems for removing flammable vapors shall be of a type approved for use in hazardous locations. The accumulation of flammable vapors within the combustible or explosive range under normal operating conditions, as determined by an approved flammable vapor indicator, shall be prima facie evidence of the violation of this rule.

(2) Vessels used for mixing or blending flammable liquids shall be provided with tight fitting, noncombustible lids that will control a fire within such a vessel. Where such lids are impracticable, an approved permanently installed fire extinguishing system shall be provided. Portable tanks shall normally be covered with closing lids when material in portable tanks is not being processed.

(3) Open flames and other sources of ignition shall not be used where flammable liquids are mixed or blended in open containers.

(4) Vessels shall be electrically connected by bond-wires, piping, or similar means where differences of potential could otherwise be created by accumulation of static electrical charges.

History: 1954 ACS 5, p. 42, Eff. Feb. 15, 1956.

R 28.722 Dispensing from containers.

Rule 122. (1) Class I or class II flammable liquids shall be dispensed within buildings other than approved storage areas only from approved safety cans and in locations where there are no open flames or other sources of ignition.

Digitized by Google

(2) Class III flammable liquids shall be dispensed within buildings other than approved storage areas only from approved safety cans or containers not exceeding 60 gallons individual capacity by means of a pump taking suction through the top of the container.

(3) Flammable liquids shall not be drawn from containers other than approved safety cans in any portion of the building except by means of a pump taking suction through the top of the container.

History: 1954 ACS 5, p. 42, Eff. Feb. 15, 1956.

R 28.723 Transfer of flammable liquids.

Rule 123. (1) The transfer of flammable liquids in processing plants from one processing tank to another shall be by means of a closed piping system or portable containers equipped with proper safety devices.

(2) Transfer of flammable liquids shall not be by means of gravity unless the process is such as to require transfer in this manner.

(3) Transfer of flammable liquids shall not be by pneumatic pressure unless the containers involved are designed and approved as pressure vessels and the piping system is designed to withstand the pressure involved.

History: 1954 ACS 5, p. 42, Eff. Feb. 15, 1956.

R 28.724 Heating.

Rule 124. Heating in any building or portion of a building in which class I and II flammable liquids are stored, blended, mixed, dispensed, used, handled, or processed shall be by indirect steam or hot water or by other heating devices approved for use in hazardous locations.

History: 1954 ACS 5, p. 43, Eff. Feb. 15, 1956.

R 28.725 Lighting.

Rule 125. Artificial lighting in any building or portion of a building in which class I and II flammable liquids are stored, blended, mixed, dispensed, used, handled, or processed shall be by electricity only. Electrical devices in such locations shall be of a type in accordance with the 1971 edition of the national electrical code.

History: 1954 ACS 5, p. 43, Eff. Feb. 15, 1956; 1954 ACS 35, p. 9, Eff. Aug. 14, 1963; 1954 ACS 74, p. 8, Eff. Mar. 8, 1973.

R 28.726 Ventilation.

Rule 126. Ventilation in any building or portion of a building in which flammable liquids are stored, blended, mixed, dispensed, used, handled, or processed shall be provided to prevent accumulation of flammable vapors at all times. Where natural ventilation is insufficient under all conditions to prevent the accumulation of flammable vapors, mechanical ventilation shall be provided and used. The accumulation of flammable vapors within the combustible or explosive range under normal operating conditions, as determined by an approved flammable vapor indicator, shall be prima facie evidence of the violation of this rule.

History: 1954 ACS 5, p. 43, Eff. Feb. 15, 1956.

R 28.727 Smoking.

Rule 127. Smoking shall be prohibited and suitable signs to that effect shall be displayed in all buildings or portions of buildings in which class I and II flammable liquids are stored, blended, mixed, dispensed, used, handled, or processed.

History: 1954 ACS 5, p. 43, Eff. Feb. 15, 1956.

MOTOR VEHICLE SAFETY BELTS

(By authority of section 710a, chapter 6, of Act No. 300 of the Public Acts of 1949, as amended, being §257.710a of the Michigan Compiled Laws)

R 28.901 Scope of rules.

Rule 1. (1) The following rules shall apply to any person who sells, offers, or keeps for sale, or installs for use in a motor vehicle to be operated on the highways of this state, any safety belt, safety restraining device and attachments and to such belt, device, and attachments.

(2) All persons who sell, offer, or keep for sale or who install for use in a motor vehicle any safety belt, safety restraining device, and attachments, shall be conclusively presumed to know of these rules and whether such equipment is in conformance with them.

(3) Any person or his duly authorized agent confronted with practical difficulties in carrying out the strict letter of these rules may apply to the commissioner for modification thereof. Only such modifications of the rules which will not result in a distinct hazard to the user of the safety belt or safety restraining device and which are in keeping with the spirit and intent of these rules will be considered. The decision of the commissioner including the particulars of any such application shall be entered upon the records of the Michigan state police and a signed copy thereof shall be furnished to the applicant.

History: 1954 ACS 12, p. 5, Eff. Nov. 21, 1957.

R 28.902 Definitions.

Rule 2. (1) Words and phrases used in these rules will be given the meaning commonly ascribed to them.

(2) "Safety belt" shall mean a belt of flexible material designed for installation and use in a motor vehicle to prevent or materially restrain the horizontal or vertical movement of the occupants in the event of collision or upset. The term "lap type seat belt," as commonly used by industry and other agencies, shall have *the same meaning as* the term "safety belt" as used in these rules.

(3) "Safety restraining device" means any device other than a safety belt intended to provide protective restraint for the occupants of a motor vehicle.

(4) "Commissioner" shall mean the commissioner of the Michigan state police.

History: 1954 ACS 12, p. 5, Eff. Nov. 21, 1957.

R 28.903 General design.

Rule 3. (1) Each safety belt assembly or restraining device shall be designed for a single occupant.

(2) The portions of the belt webbing which may come in contact with the occupant shall be at least 1⅞ inches wide under no load and not less than 1 13/16 inches wide when subjected to the tensile test load specified in R 28.906(1)(a).

(3) Each belt assembly shall be adjustable in length and shall include an easily operable quick opening mechanism or buckle.

(4) The ends of the belt webbing shall be protected against fraying.

(5) All metal parts shall be free from burrs and sharp edges.

(6) No restraining device, of any type, shall be considered to be in compliance with this rule, which is designed or constructed so as to be likely to cause injury to the occupant of a motor vehicle in the event of collision, upset, or emergency deceleration of the motor vehicle.

History: 1954 ACS 12, p. 5, Eff. Nov. 21, 1957.

R 28.904 Identification.

Rule 4. Each belt shall be provided with permanent marks of identification showing the manufacturer's name or trademark and the model number or type designation on each half of the assembly. The buckle shall be stamped or molded with either the buckle or the assembly manufacturer's markings. The required markings shall be in legible letters at least 1/16 inch in height on metal or rigid plastic parts and 3/16 inch on soft materials.

History: 1954 ACS 12, p. 6, Eff. Nov. 21, 1957.

R 28.905 Instructions.

Rule 5. Detailed instructions as to the proper method of installation, use, and care of safety belts and other restraining devices shall be included with each belt or set of belts or other restraining devices sold or installed for use in a motor vehicle. This information shall include the recommended manner for use, adjustment, and cleaning of the safety belt or restraining devices and a caution against severe loss of strength caused by bleaching or redyeing of the material.

History: 1954 ACS 12, p. 6, Eff. Nov. 21, 1957.

R 28.906 Test requirements.

Rule 6. (1) Webbing tests:

(a) Tensile strength of the webbing shall not be less than 2,250 pounds when tested as required in subrule (1)(b).

(b) Tests of webbing used in safety belt assemblies shall be conducted on samples which are in equilibrium with an atmosphere having a relative humidity of not more than 67% and a temperature of not more than 80 degrees Fahrenheit. The samples should be tested in a suitable textile testing machine. The sample should be mounted in the machine when the heads are 6 to 10 inches apart. The heads should separate at the maximum rate of 4 inches per minute under no load. The webbing width should be measured before and during application of the minimum strength load. Each test sample shall withstand its required minimum

tensile strength load without failure for at least 3 seconds.

(c) Transverse stiffness of the webbing shall be such that no excessive curling or roping shall occur.

(d) The percent elongation of the webbing shall not exceed 25% under the specified tensile test loads.

(2) Belt assembly tests:

(a) Rated strength: The belt assembly, including webbing, buckle, and all attachment and adjustment fittings, shall have a minimum tensile strength under load applied in alignment with the anchored belt, of 3,000 pounds. If an attachment fitting is intended for anchoring separate ends from 2 belts, the fittings shall have a minimum strength of 3,000 pounds.

(b) Tensile test: The belt assembly shall be tested to determine compliance with the minimum rated strength requirement specified in subrule (2)(a). The belt assembly should be tested in a suitable testing machine, using the attachment fittings and other hardware provided by the seat belt supplier as part of the assembly. The end fittings being attached to jig anchorages spaced 10 to 20 inches apart horizontally, which are suitably attached to the stationary and movable heads of the testing machine. If the assembly includes adjustment adapters, the adapters should be positioned approximately halfway between the buckle and the end fittings. The buckle shall be in locked position. If a cam-type buckle is used it should be locked only by the static force of its spring and not by jamming or snapping it closed. At least 10 inches of the free end of the webbing should extend beyond the adjustment adapter, located at or near the buckle. If a metal-to-metal buckle is used, it should be checked to determine that there is no danger of latching the 2 parts together in any manner resulting in reduced strength or holding ability; it should not be possible to obtain partial engagement. The entire assembly should be in axial alignment with the heads of the testing machine and all precautions should be taken to avoid eccentric loading. The heads of the testing machine should separate at the maximum rate of 4 inches per minute under no load. The load should be applied through a 4-inch thick semicircular wooden form having a radius of not more than 8 inches. The curved portion of this form may provide a cut-out to accommodate the belt buckle and may be padded to simulate the belt wearer's clothing. Each sample shall be subjected at least to the rated strength specified in subrule (2)(a) (3,000 lbs.). At this point, the test may continue for buckle release force as outlined in subrule (2)(c). After removal of all load, the webbing and stitching should show no signs of failure or weakening and the metal components should show no permanent deformation which would result in malfunctioning of the assembly. The total slippage in the adjusting arrangement or the release mechanism should not exceed 1 inch.

(c) Test of release mechanism: Belt assemblies shall be tested to determine compliance with the maximum buckle release force requirements. The belt assemblies used in the rated minimum tensile strength test may be used for this test. The load applied as specified in subrule (2)(b) shall be reduced to a loop load of 250 pounds and while maintaining this reduced load, the release mechanism should be operable at a force of not more than 45 pounds applied in a manner and direction typical of that which would be used by a seat belt occupant. After the loads are removed, the release mechanism should show no signs of failure or sufficient permanent deformation to prevent the operation of the release.

(3) Corrosion test: Mounting hardware and attachments which will be exposed to the weather shall be tested for corrosion by a salt spray fog test according to the method of salt spray (fog) testing ASTM designation: B 117-54 T as published by

the American Society for Testing Materials, 1916 Race Street, Philadelphia 3, Pennsylvania. The test will be for a period of 50 hours consisting of 2 periods of 24 hours' exposure each followed by 1-hour drying time. Evidence of more than a slight trace of corrosion, after the test is completed, will constitute a failure.

History: 1954 ACS 12, p. 6, Eff. Nov. 21, 1957.

R 28.907 Legal references.

Rule 7. (1) Authority: Section 710a, chapter 6, Act No. 300 of the Public Acts of 1949, as amended by Act No. 2, First Extra Session of 1955, being §257.710a of the Michigan Compiled Laws, provides:

No person shall sell, offer or keep for sale, or install for use in any motor vehicle to be operated on the highways of this state, any safety belt, safety restraining device, or attachments thereto as referred to in this section, unless of a type conforming to standards and specifications established by rules which have been established by the commissioner of the Michigan state police.

The rules established pursuant to the authorization given in this section shall be promulgated in accordance with the provisions of Act No. 88 of the Public Acts of 1943, as amended, being §§24.71 to 24.82, inclusive, of the Michigan Compiled Laws, and subject to Act No. 197 of the Public Acts of 1952, as amended, being §§24.101 to 24.110, inclusive, of the Michigan Compiled Laws.

(2) Penalties: Section 901, chapter 8, Act No. 300 of the Public Acts of 1949, as amended, being §257.901 of the Michigan Compiled Laws, provides:

(a) It shall be a misdemeanor for any person to violate any of the provisions of this act unless such violation is by this act or other law of this state declared to be a felony.

(b) Unless another penalty is in this act or by the laws of this state provided, every person convicted of a misdemeanor for the violation of any provisions of this act shall be punished by a fine of not more than $100.00 or by imprisonment in the county jail of the county where the offense is committed or in the Detroit house of correction for not more than 90 days, or by both such fine and imprisonment.

UNIFORM TRAFFIC CODE FOR CITIES, TOWNSHIPS, AND VILLAGES

(By authority conferred on the department of state police by section 1 of Act No. 62 of the Public Acts of 1956 and sections 7, 9, and 153 of Act No. 380 of the Public Acts of 1965, being §§257.951, 16.107, 16.109, and 16.253 of the Michigan Compiled Laws)

CHAPTER 1—WORDS AND PHRASES DEFINED

R 28.1001 Sec. 1.1. Words and phrases.

The following words and phrases when used in this ordinance shall, for the purpose of this ordinance, have the meanings respectively ascribed to them in this chapter. Whenever any word or phrase used herein is not defined herein, but is defined in Act No. 300 of the Public Acts of 1949, as amended, being §257.1 et seq. of the Michigan Compiled Laws, the definition therein shall be deemed to apply to the words and phrases used herein.

Sec. 1.000. Act.

"Act" means Act No. 300 of the Public Acts of 1949, as amended.

Digitized by Google

Sec. 1.001. Alley.

"Alley" means a minor thoroughfare, opened to public use, for the purpose of ingress and egress to service adjacent buildings.

Sec. 1.002. Authorized emergency vehicle.

"Authorized emergency vehicle" means vehicles of the fire department, police vehicles, ambulances, emergency vehicles of governmental departments, or vehicles of public service corporations and privately owned motor vehicles of volunteer and paid firemen as are authorized by the director of state police.

Sec. 1.003. Bicycle.

"Bicycle" means a device propelled by human power on which a person may ride, having 2 tandem wheels, either of which is over 20 inches in diameter. It includes pedal bicycles with helper motors rated less than 1 brake horsepower transmitted by friction and not by gear or chain, which produce only ordinary pedaling speeds not exceeding 20 miles an hour.

Sec. 1.003a. Bicycle path.

"Bicycle path" means a portion of a street or highway separated from the roadway by an open, unpaved space, or by a barrier, and established for the use of persons riding bicycles.

Sec. 1.003b. Bicycle lane.

"Bicycle lane" means a portion of a street or highway adjacent to the roadway and established for the use of persons riding bicycles.

Sec. 1.004. Bus.

"Bus" means a motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons, and a motor vehicle, other than a taxicab, designed and used for the transportation of persons for compensation. It does not include a school bus or a bus equipped and used for living or camping purposes.

Sec. 1.005. Bus stand or bus stop.

"Bus stand or bus stop" means a fixed area in the roadway, parallel and adjacent to the curb, to be occupied exclusively by buses for layover in operating schedules, or by buses waiting for, loading, or unloading passengers.

Sec. 1.006. Business district.

"Business district" means the territory contiguous to a highway when 50% or more of the frontage thereon, for a distance of 300 feet or more, is occupied by buildings in use for business.

Sec. 1.007. Commercial vehicle.

"Commercial vehicle" includes motor vehicles used for the transportation of passengers for hire, or constructed or used for transportation of goods, wares, or merchandise, and motor vehicles designed and used for drawing other vehicles, and not so constructed as to carry any load thereon either independently or any part of the weight of a vehicle or load so drawn.

Sec. 1.008. Crosswalk.

"Crosswalk" means:

(a) That part of a roadway at an intersection included within the connections of the lateral lines of the sidewalks on opposite sides of the highway measured from the curbs or, in the absence of curbs, from the edges of the traversable highway.

(b) A portion of a highway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surface.

Sec. 1.009. Curb loading zone.

"Curb loading zone" means a space adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials.

Sec. 1.010. Driver.

"Driver" means a person who drives, or is in actual physical control of, a vehicle.

Sec. 1.010a. Explosives.

"Explosives" means a chemical compound or mechanical mixture that is commonly used or intended for the purpose of producing an explosion and which contains any oxidizing and combustive units or other ingredients in those proportions, quantities, or packing that an ignition by fire, friction, by concussion, by percussion, or by detonator of any part of the compound or mixture may cause such a sudden generation of highly heated gases that the resultant gaseous pressures are capable of producing destructible effects on contiguous objects or of destroying life or limb.

Sec. 1.010b. Farm tractor.

"Farm tractor" means a motor vehicle designed and used primarily as a farm implement for drawing plows, mowing machines, and other implements of husbandry.

Sec. 1.010c. Flammable liquid.

"Flammable liquid" means a liquid which has a flash point of 70 degrees Fahrenheit or less, as determined by a tagliabue or equivalent closed-cup test device.

Sec. 1.011. Freight curb loading zone.

"Freight curb loading zone" means a space adjacent to a curb for exclusive use of vehicles during the loading or unloading of freight.

Sec. 1.012. Governmental unit.

"Governmental unit" means incorporated cities, incorporated villages, and townships.

Sec. 1.012a. Gross weight.

"Gross weight" means the weight of a vehicle without load plus the weight of a load thereon.

Sec. 1.012b. Implement of husbandry.

"Implement of husbandry" means a vehicle designed for agricultural purposes and used exclusively in agricultural operations. The transportation of seeds, fertilizers, or sprays between a place of storage or supply and farms in a trailer, which materials will be used to plant, fertilize, or spray, is an agricultural operation.

Sec. 1.013. Intersection.

"Intersection" means:

(a) The area embraced within the prolongation or connection of the lateral curb lines, or, if none, then the lateral boundary lines of the roadways of 2 highways which join one another at, or approximately at, right angles, or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict.

(b) Where a highway includes 2 roadways 30 feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. In the event such intersecting highway also includes 2 roadways 30 feet or more apart, then every crossing of 2 roadways of the highways shall be regarded as a separate intersection.

Sec. 1.014. Laned roadway.

"Laned roadway" means a roadway which is divided into 2 or more clearly marked lanes for vehicular traffic.

Sec. 1.015. Limited access highway.

"Limited access highway" means every highway, street, or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only, and in such manner as may be determined by the public authority having jurisdiction over the highway, street, or roadway.

Sec. 1.016. Motorcycle.

"Motorcycle" means every motor vehicle having a saddle or seat for the use of the rider and designed to travel on not more than 3 wheels in contact with the ground, but excluding a tractor.

Sec. 1.016a. Motor-driven cycle.

"Motor-driven cycle" means a motorcycle with a motor that produces less than 5 gross brake horsepower, a motor scooter, and a bicycle with motor attached, except:

(a) A pedal bicycle with a helper motor rated less than 1 brake horsepower transmitted by friction and not by gear or chain, which produces only ordinary pedaling speeds not exceeding 20 miles an hour.

(b) A motorized wheelchair or other similar vehicle not exceeding 1,000 pounds gross weight, operated by a physically afflicted or disabled person.

Sec. 1.017. Motor vehicle.

"Motor vehicle" means a vehicle which is self-propelled and a vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.

Sec. 1.018. Official time standard.

"Official time standard" means whenever certain hours are named herein they shall mean standard time or daylight-saving time as may be in current use in this governmental unit.

Sec. 1.019. Parking.

"Parking" means standing a vehicle, whether occupied or not, upon a highway when not loading or unloading, except when making necessary repairs.

Sec. 1.020. Parking meter zone.

"Parking meter zone" means an area adjacent to a parking meter set aside for the exclusive use of vehicles upon the deposit of a coin of United States currency in the parking meter as specified thereon.

Sec. 1.021. Passenger curb loading zone.

"Passenger curb loading zone" means a place adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers.

Sec. 1.022. Pedestrian.

"Pedestrian" means a person afoot.

Sec. 1.023. Person.

"Person" means a natural person, firm, copartnership, association, or corporation and their legal successors.

Sec. 1.024. Police officer.

"Police officer" means a sheriff or his deputy, village marshal, or an officer of the police department of cities, villages, townships, and officer of the Michigan state police.

Sec. 1.025. Private driveway or road.

(a) "Private driveway" means a piece of privately owned and maintained property used for vehicular traffic, but not normally used by the public.

(b) "Private road" means a privately owned and maintained road, allowing access to more than 1 residence or place of business, normally open to the public and on which persons besides owners located thereon may also travel.

Sec. 1.026. Railroad.

"Railroad" means a carrier of person or property upon cars, other than streetcars, operated upon stationary rails.

Sec. 1.027. Railroad train.

"Railroad train" means a steam engine, or an electric or other motor, with or without cars coupled thereto, operated upon rails, except streetcars.

Sec. 1.028. Residence district.

"Residence district" means the territory contiguous to a highway not comprising a business district when the frontage on such highway for a distance of 300 feet or more is mainly occupied by dwellings or by dwellings and buildings in use for business.

Sec. 1.029. Right-of-way.

"Right-of-way" means the privilege of the immediate use of the highway.

Sec. 1.030. Roadway.

"Roadway" means that portion of a highway improved, designed, or ordinarily used for vehicular travel. In the event a highway includes 2 or more separate roadways, the term "roadway," as used herein, shall refer to a roadway separately, but not to all such roadways collectively.

Sec. 1.031. Safety zone.

"Safety zone" means the area or space officially set apart within a roadway for the exclusive use of pedestrians and which is protected and so marked or indicated by adequate signs as to be plainly visible at all times while set apart as a safety zone.

Sec. 1.031a. School bus.

"School bus" means a motor vehicle, except a station wagon, with a manufacturers' rated seating capacity of 8 or more children, owned by a public, private, or governmental agency and operated for the transportation of children to or from school, or privately owned and operated for compensation for the transportation of children to or from school. It does not include buses operated by a municipally owned transportation system or by a common passenger carrier certificated by the public service commission.

Sec. 1.031b. School crossing.

"School crossing" means a crosswalk officially designated as a place to be used by schoolchildren for crossing a street or highway.

Sec. 1.031c. School-crossing guard.

"School-crossing guard" means a person, 18 years of age or older, employed by this governmental unit, or the school district, to guide and protect schoolchildren using a school crossing.

Sec. 1.031d. Semitrailer.

"Semitrailer" means a vehicle with or without motive power, other than a pole-trailer, designed for carrying persons or property and for being drawn by a motor vehicle, and so constructed that some part of its weight and that of its load rests upon or is carried by another vehicle.

Sec. 1.032. Sidewalk.

"Sidewalk" means that portion of a street between the curb lines, or the lateral lines of roadway, and the adjacent property lines intended for the use of pedestrians.

Sec. 1.032a. Special mobile equipment.

"Special mobile equipment" means a vehicle not designed or used primarily for the transportation of persons or property and incidentally operated or moved over the highways, including farm tractors, road construction, or maintenance machinery, mobile office trailers, mobile tool shed trailers, mobile trailer units used for housing stationary construction equipment, ditchdigging apparatus, well-boring apparatus, and well-servicing apparatus.

Sec. 1.033. Stand or standing.

"Stand or standing" means the halting of a vehicle, whether occupied or not, otherwise than for the purpose of, and while actually engaged in, receiving or discharging passengers.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

Sec. 1.034. Stop.

"Stop," when required, means complete cessation from movement.

Sec. 1.035. Stop or stopping.

"Stop or stopping," when prohibited, means any halting, even momentarily, of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic-control sign or signal.

Sec. 1.036. Street or highway.

"Street or highway" means the entire width between boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel.

Sec. 1.037. Taxicab.

"Taxicab" means a licensed public motor vehicle for hire, designated and constructed to seat not more than 10 persons and operating as a common carrier on call or demand.

Sec. 1.038. Taxicab stand.

"Taxicab stand" means a fixed area in the roadway set aside for taxicabs to stand or wait for passengers.

Sec. 1.039. Through highway.

"Through highway" means every state trunk line highway or any other highway at the entrance to which vehicular traffic from intersecting highways is required by law to stop before entering or crossing the same.

Sec. 1.039a. Tow-away zone.

"Tow-away zone" means a zone where no parking, stopping, or standing is permitted, as indicated by proper signs, and where vehicles parked in violation of the signs are towed away to keep the roadway clear for traffic movement.

Sec. 1.040. Traffic.

"Traffic" means pedestrians, ridden or herded animals, vehicles, streetcars, and other conveyances, either singly or together, while using a highway for purposes of travel.

Sec. 1.041. Traffic-control devices.

"Traffic-control devices" means signs, signals, markings, and devices, not inconsistent with this ordinance, placed or erected by authority of a public body or official having jurisdiction for the purpose of regulating, warning, or guiding traffic.

Sec. 1.042. Traffic-control signal.

"Traffic-control signal" means a device, whether manually, electrically, or mechanically operated, by which traffic is alternately directed to stop and to proceed.

Sec. 1.043. Traffic division.

"Traffic division" means the traffic division of the police department of cities, villages, and townships, or, in the event a traffic division is not established, then the term, whenever used herein, shall be deemed to refer to the police department of the cities, villages, and townships.

Sec. 1.043a. Trailer.

"Trailer" means a vehicle, with or without motive power, other than a pole-trailer, designed for carrying property or persons and for being drawn by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle.

Sec. 1.043b. U-turn.

"U-turn" means a turn made on a roadway or in an intersection by a vehicle for the purpose of reversing its direction of travel.

CHAPTER 2—TRAFFIC ADMINISTRATION AND AUTHORITY

R 28.1101 Sec. 2.1. Police department; traffic duties.

It shall be the duty of the chief of police and the officers of the police department to enforce the street traffic regulations of this governmental unit and all the state vehicle laws applicable to street traffic in this governmental unit, to make arrests for traffic violations, to investigate accidents, to cooperate with the city traffic engineer and other officials of this governmental unit in the administration of the traffic laws and in developing ways and means to improve traffic conditions, and to carry out those duties specially imposed by this ordinance and other traffic ordinances of this governmental unit.

History: 1954 ACS 13, p. 8, Eff. Feb. 14, 1958.

R 28.1102 Sec. 2.2. Authority of police directing traffic.

Officers of the police department or such officers as are assigned by the chief of police are hereby authorized to direct all traffic by voice, hand, or signal in conformance with traffic laws, provided that, in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the police department may direct traffic as conditions may require notwithstanding the provisions of the traffic laws.

History: 1954 ACS 13, p. 9, Eff. Feb. 14, 1958.

R 28.1103 Sec. 2.3. Authority of firemen directing traffic.

Officers of the fire department, when at the scene of a fire, may direct or assist the police in directing traffic thereat or in the immediate vicinity.

History: 1954 ACS 13, p. 9, Eff. Feb. 14, 1958.

R 28.1104 Sec. 2.4. Authority of police to inspect vehicles.

Any police officer shall be authorized on reasonable grounds shown to stop any motor vehicle and inspect the same, and if any defects in equipment are found, to arrest the driver in the manner provided in this ordinance.

History: 1954 ACS 13, p. 9, Eff. Feb. 14, 1958.

R 28.1105 Sec. 2.5. Authority to impound vehicles.

A member of the police department may remove a vehicle from a street or highway to the nearest garage or other place of safety, or to a garage designated or maintained by the police department or otherwise maintained by this governmental unit, under the circumstances hereinafter enumerated. The necessary costs for the removal shall become a lien on the vehicle and the person into whose custody the vehicle is given may hold it until the expenses involved have been paid:

(a) When a vehicle is left unattended on a bridge, viaduct, causeway, subway, tube, or tunnel where the vehicle constitutes an obstruction to traffic.

(b) When a vehicle on a street is so disabled as to constitute an obstruction to traffic, and the person in charge of the vehicle is, by reason of physical injury, incapacitated to such an extent as to be unable to provide for its custody or removal.

(c) When a vehicle is left unattended on a street and is so parked as to constitute a definite hazard or obstruction to the normal movement of traffic.

(d) When a vehicle is found being driven on the streets or highways in such an unsafe condition as to endanger persons or property.

(e) When a vehicle is left unattended on a street continuously for more than 48 hours and may be presumed to be abandoned.

(f) When the driver of the vehicle is taken into custody by the police department and the vehicle would thereby be left unattended upon the street.

(g) When removal is necessary in the interest of public safety because of fire, flood, storm, snow, or other emergency reason.

(h) When a vehicle is found parked in a "tow-away zone" designated by the traffic engineer and properly signposted.

History: 1954 ACS 13, p. 9, Eff. Feb. 14, 1958; 1954 ACS 54, p. 7, Eff. May 15, 1968; 1954 ACS 88, p. 21, Eff. Aug. 5, 1976.

R 28.1105a Sec. 2.5a. Authority to impound abandoned vehicles.

(1) The police department shall take into custody abandoned vehicles and abandoned junk vehicles found on a street or highway or any other place, whether public or private. For purposes of this section, a vehicle is considered an abandoned vehicle when:

(a) It has remained on a public street or highway, or other place open to travel by the public, for a period of 48 hours or more, without notification by the registered owner to the police department of the reason for leaving the vehicle in the public place.

(b) It has remained on private property for a period of 48 hours or more without the consent of the owner or lessee of the property, or for a period of 48 hours or more after the consent has been revoked.

(c) It has remained in a garage for more than 15 days without a contract of service, storage, or repair by the registered owner.

(2) A police officer may issue a citation to the registered owner of a vehicle which is found abandoned within this governmental unit. The citation shall state that the registered owner is charged with abandoning a vehicle.

(3) Abandoning a vehicle is a misdemeanor.

History: 1954 ACS 54, p. 7, Eff. May 15, 1968; 1954 ACS 88, p. 21, Eff. Aug. 5, 1976.

R 28.1106 Sec. 2.6. Notifying department of state of impounded vehicle.

(1) If the registered owner of an abandoned vehicle taken into custody by the police department has not claimed the vehicle and paid all charges due against it

within 10 days, the police department shall notify the department of state on a form prescribed by that department.

(2) Disposition of an abandoned vehicle shall be made as provided in section 252 of the act.

History: 1954 ACS 13, p. 9, Eff. Feb. 14, 1958; 1954 ACS 88, p. 21, Eff. Aug. 5, 1976.

R 28.1107 Sec. 2.7. Vehicle deemed abandoned or junk; record and photograph; release of vehicle; definitions.

(1) When a vehicle found abandoned on a street or highway or any other place, whether public or private, has a value of less than $100.00, it shall be considered an abandoned vehicle.

(2) A vehicle is considered a junk vehicle when:

(a) It is 4 or more years old and has a fair market value of $100.00 or less.

(b) It is apparently inoperable and is extensively damaged, including a broken window or windshield, or missing wheels, tires, motor, or transmission.

(c) It does not display current registration plates.

(3) The police department, or a bonded licensed dealer, shall record the make of the vehicle and the serial number when available, shall detail the damage or missing equipment to substantiate the value of $100.00 or less, and shall photograph the vehicle at the place where it was abandoned. The police department shall retain the photograph for at least 2 years.

(4) Within 24 hours after it is determined that the vehicle was not stolen, the police department shall release the vehicle to a garage keeper, towing service, used vehicle parts dealer, or scrap metal processing facility. The person to whom the vehicle is released shall proceed as provided in section 252(d), (h), and (i) of the act.

(5) As used in subsection (d):

(a) "Scrap metal processing facility" means a business concern engaged primarily in the acquisition, processing, and shipment of ferrous and nonferrous scrap, the end product of which is the production of material for remelting purposes for steel mills, foundries, smelters, and refiners.

(b) "Used vehicle parts dealer" means a business concern engaged primarily in the acquisition of wrecked, damaged, inoperative or abandoned vehicles, or abandoned junk vehicles, the dismantling of these vehicles for the reclamation of reusable parts, and the preparation of remaining scrap materials for delivery to a scrap metal facility.

History: 1954 ACS 13, p. 9, Eff. Feb. 14, 1958; 1954 ACS 54, p. 7, Eff. May 15, 1968; 1954 ACS 88, p. 21, Eff. Aug. 5, 1976.

R 28.1108 Sec. 2.8. Citations; definition; numbering; form.

As used in the following sections a "citation" means a complaint or notice upon which a police officer shall record an occurrence involving 1 or more vehicle law violations by the person cited. Each citation shall be numbered consecutively, be in such form as determined by the secretary of state, the attorney general, the state court administrator and the director of the department of state police and shall consist of the following parts:

(a) The original which shall be a complaint or notice to appear by the officer and filed with the court.

(b) The first copy which shall be the abstract of court record.

(c) The second copy which shall be retained by the police department.

(d) The third copy which shall be delivered to the alleged violator.

With prior approval of such state officials, the citation may be appropriately modified as to content or number of copies to accommodate law enforcement

and local court procedures and practices. Use of this citation for other than moving violations is optional.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 7, Eff. May 15, 1968.

R 28.1109 Sec. 2.9. Issuance of citation books.

The police chief shall issue citation books to each police officer of his department whose duties may or will include traffic duty or traffic law enforcement. The police chief shall obtain a receipt from such officer to whom a citation book has been issued upon a form also created by such officials.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 8, Eff. May 15, 1968.

R 28.1110 Sec. 2.10. Issuance of citations.

(a) Whenever a person is arrested without a warrant for any violation of the act, punishable as a misdemeanor, or of a provision of this ordinance substantially corresponding to any provision of the act, under conditions not referred to in sections 5.4, 5.4a, 5.14, 5.15 and 5.16 of this ordinance, and sections 617 and 619 and subdivisions 1, 2 and 3 of section 727 of the act, the arresting officer shall prepare as soon as possible and as completely as possible, an original and 3 copies of a written citation to appear in court containing the name and address of such person, the offense charged, and the time and place when and where such person shall appear in court. The officer shall inform the offender of the violation and shall give the third copy of the citation to the alleged offender. If such arrested person so demands, he shall be taken before a magistrate or probate court having jurisdiction in lieu of being given such citation.

(b) The time specified in the citation to appear shall be within a reasonable time after such arrest unless the person arrested shall demand an earlier hearing.

(c) The place specified in the citation to appear shall be before a magistrate having jurisdiction over the alleged offense charged in the citation.

(d) Appearance may be made in person, by representation or by mail. When appearance is made by representation or mail, the magistrate may accept the plea of guilty or not guilty for purposes of arraignment, with the same effect as though the person personally appeared before him. The magistrate, by giving 5 days' notice of the date of appearance, may require appearance in person at the time and place designated in the citation.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 8, Eff. May 15, 1968.

R 28.1111 Sec. 2.11. Nonresidents; arraignments and recognizances.

When any person not a resident of this state shall be arrested without warrant for any violation of the act, under conditions not referred to in section 727 of the act, or of a provision of this ordinance under conditions not referred to in section 2.17c, the officer making such arrest shall upon demand of such arrested person forthwith take such person before a magistrate having jurisdiction to answer to the complaint made against him. If no magistrate is available or such immediate trial cannot be had, the person so arrested may recognize to such officer for his appearance by leaving with him a guaranteed appearance certificate or a sum of money not to exceed $25.00.

(a) The officer making such arrest shall give a receipt to the person arrested for the guaranteed appearance certificate or moneys so deposited with him together with a written citation as hereinbefore provided.

(b) If the offender fails to appear as therein required, such guaranteed appearance certificate or deposit shall be forfeited as in other cases of default in bail in addition to any other penalty provided in chapter 6 of the act.

(c) The officer taking a certificate or deposit shall within 48 hours thereafter deliver the same to the magistrate named in the citation together with a report of the facts relating to such arrest, and failure to make such report and deliver such deposit shall be deemed embezzlement of public money.

(d) "Guaranteed appearance certificate" means any card or certificate containing a printed statement that a surety company authorized to do business in this state guarantees the appearance of the person whose signature appears on the card or certificate, and that such company will, if such person fails to appear in court at the time of trial, pay any fine or forfeiture imposed on such person in an amount not to exceed $200.00.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 8, Eff. May 15, 1968.

R 28.1112 Sec. 2.12. Fees.

Notwithstanding any provision of law to the contrary, any officer making an arrest under chapter 6 of the act, without a warrant, except under paragraphs 1, 2 and 3 of section 727 of the act shall not be entitled to any fees for making such arrest and the magistrate shall be entitled to a fee of $2.00 where no trial on the merits takes place in proceedings under sections 223, 225, 228, 311, 315, 672, 673, 674, and 675 of the act.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 9, Eff. May 15, 1968.

R 28.1113 Sec. 2.13. Misconduct of officers and magistrates.

Any officer or magistrate violating any of the provisions of sections 2.8 to 2.17a shall be guilty of misconduct in office and shall be subject to removal from office.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 9, Eff. May 15, 1968.

R 28.1114 Sec. 2.14. Citations to drivers in accidents.

(a) A police officer may issue a citation to a person who is a driver of a motor vehicle involved in an accident when, based upon personal investigation, the officer has reasonable and probable grounds to believe that the person has committed an offense under this ordinance in connection with the accident. The officer shall prepare an original and 3 copies of the citation, setting forth the name and address of such person, the offense that may be charged against him and the time and place of the appearance of such person in court. The citation shall inform such person of the office, bureau or department to which requests for a change or adjournment of the court date must be made.

(b) A police officer may issue a citation to any driver of a motor vehicle involved in an accident when, based upon personal investigation, the officer has reasonable grounds to believe that an offense has been committed under this ordinance in connection with the accident. The officer shall prepare an original and 3 copies of the citation, setting forth the name and address of such person, the offense that may be charged against the respondent and the time and place of the appearance of such driver in court. The citation shall inform such driver of the office, bureau or department to which requests for a change or adjournment of the court date must be made. This citation shall in printed form, prominently displayed, inform the person that such citation is not a criminal complaint, warrant or ticket of arrest. The driver of the motor vehicle who receives a citation under this subsection shall be paid regular witness fees by the court for each day he appears in court in compliance with such citation.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 9, Eff. May 15, 1968.

R 28.1115 Sec. 2.15. Disposition of citations.

(a) At or before the completion of his tour of duty a police officer to whom a citation book has been issued and who has recorded the occurrence of a vehicle law violation upon a citation shall deliver to his police chief or to the person duly authorized by him all copies of such citation duly signed. The police chief or person authorized by him shall deposit the original of the citation, together with the copy designated for the department of state's motor vehicles record, with the court having jurisdiction over the offense not later than 2 days after the date of the citation, Sundays and legal holidays excepted.

(b) If a police officer arrests any person without a warrant for any vehicle law violation, such arrest shall be noted on the citation.

(c) If a citation is spoiled, mutilated or voided, it shall be indorsed with a full explanation thereof by the police officer voiding such citation, and shall be duly accounted for to his police chief or authorized designee.

(d) Nothing in this ordinance shall prevent a person other than a police officer from applying for a criminal complaint for a vehicle law violation, and such person need not show that the alleged offender has been issued a citation in connection with such offense.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 9, Eff. May 15, 1968.

R 28.1116 Sec. 2.16. Accountability for citations.

The various officers and administrators of this governmental unit shall establish procedures as provided by instructions from the state treasurer to insure accountability in the processing of citations. The record showing the issuance and subsequent disposition shall be maintained complete for at least the most recent 5-year period and such records and notices shall be available for public inspection.

History: 1954 ACS 13, p. 10, Eff. Feb. 14, 1958; 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1117 Sec. 2.17. Audit of citation records.

A complete audit of such citation records shall be made at least annually by the appropriate fiscal officer of the governmental agency to which the traffic enforcement agency is responsible; and may be audited by the state treasurer if deemed by him to be necessary.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958; 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1117a Sec. 2.17a. Falsification or illegal disposition of citations; penalties.

Whoever knowingly falsifies a citation or copies thereof or a record of the issuance of same, or disposes of such citation, copy or record, in a manner other than as required in this ordinance, or attempts so to falsify or dispose, or attempts to incite or procure another so to falsify or dispose shall be fined not more than $500.00 or imprisoned in the county jail for a term not to exceed 1 year, or both.

History: 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1117b Sec. 2.17b. Citation of illegally parked vehicles.

When a motor vehicle without a driver is found parked or stopped in violation of any restriction imposed by ordinance of this governmental unit or by state law, the officer finding the vehicle shall take its registration number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously affix to the vehicle a traffic citation.

History: 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1117c Sec. 2.17c. Procedure upon arrest for certain offenses.

(a) A person arrested without a warrant on a charge of violating section 5.14 of this ordinance, shall be taken, without unreasonable delay, before the magistrate or probate court having jurisdiction. If under existing circumstances it does not appear that releasing such person pending the issuance of a warrant will constitute a public menace, the arresting officer may issue a citation as provided in section 2.10 of this ordinance.

(b) A person arrested without a warrant on a charge of violating sections 5.15 or 5.16 of this ordinance shall be taken, without unreasonable delay, before the magistrate or probate court having jurisdiction.

(c) A person arrested without a warrant on a charge of driving a motor vehicle without a valid operator's or chauffeur's license in his immediate possession as provided in sections 5.62, 5.62a, 5.63, 5.64, and 5.66 of this ordinance, shall be taken, without unreasonable delay, before the magistrate or probate court having jurisdiction. If the arresting officer otherwise satisfactorily determines the identity of the person and the practicability of subsequent apprehension in the event of failure to voluntarily appear before a magistrate or probate court as directed, the officer may release the person from custody after issuing him a citation as provided in section 2.10 of this ordinance.

History: 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1117d Sec. 2.17d. Sworn complaints.

When under the provisions of sections 2.8 to 2.17c of this ordinance an officer issues a citation, a magistrate may accept a plea of guilty or not guilty upon the citation, without the necessity of a sworn complaint but the officer shall sign the complaint before the magistrate makes his docket return thereon. If the alleged offender pleads not guilty, no further proceedings may be had until a sworn complaint is filed with the magistrate. A warrant for arrest shall not issue for an offense under this ordinance until a sworn complaint is filed with the magistrate.

History: 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1118 Sec. 2.18. Records of traffic violations; warrants.

The chief of police shall also maintain or cause to be maintained a record of all warrants issued on said traffic violation charges and which are delivered to the police department for service, and of the final disposition of all such warrants.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1119 Sec. 2.19. Traffic accident reports.

The police department shall maintain a suitable system of filing traffic accident reports. Accident reports, or cards referring to them, shall be filed alphabetically by location. Such reports shall be available for the use and information of the traffic engineer.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1120 Sec. 2.20. Use of accident reports.

The police department shall receive and properly file all accident reports made to it under state law, or under any ordinances of this governmental unit. The reports required by this ordinance shall not be available for use in any court action, but shall be available to governmental agencies for the purpose of furnishing statistical information as to the number and cause of accidents.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1121 Sec. 2.21. Official form for accident reports.

The police department shall use the official form prescribed by the director of the department of state police in reporting accidents to him required by the act or sections 5.3 and 5.6 of this ordinance.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958; 1954 ACS 54, p. 10, Eff. May 15, 1968.

R 28.1122 Sec. 2.22. Traffic accident studies.

Whenever the accidents at any particular location become numerous, the police department shall cooperate with the traffic engineer in conducting studies of such accidents and determine remedial measures.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1123 Sec. 2.23. Driver's files.

The police department shall maintain a suitable record of all traffic accidents, warnings, arrests, convictions, and complaints reported for each driver except those concerning standing or parking, which shall be filed alphabetically under the name of the driver concerned. Such records shall accumulate during at least a 5-year period and from that time on such records shall be maintained complete for at least the most recent 5-year period.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1124 Sec. 2.24. Annual traffic safety report.

The police department shall annually prepare a traffic report which shall be filed with the executive head of this governmental unit and the ordinance making body of this governmental unit. Such report shall contain information on traffic matters in this city as follows:

(a) The number of traffic accidents, the number of persons killed, the number of persons injured, and other pertinent traffic accident data;

(b) The number of traffic accidents investigated and other pertinent data on the safety activities of the police;

(c) The plans and recommendations of the police department for future traffic safety activities.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1125 Sec. 2.25. Traffic engineer.

The office of traffic engineer is hereby established. The traffic engineer shall be appointed in a manner prescribed by the ordinance making body and shall exercise the powers and duties provided in this ordinance in a manner consistent with prevailing traffic engineering and safety practices and in the best interests of this governmental unit. In the absence of the appointment of a traffic engineer the authority of such engineer shall be vested in the chief of police.

History: 1954 ACS 13, p. 11, Eff. Feb. 14, 1958.

R 28.1126 Sec. 2.26. Duties of traffic engineer.

It is the general duty of the traffic engineer to plan and determine the installation and proper timing and maintenance of traffic-control devices; to conduct engineering analyses of traffic accidents and to devise remedial measures; to conduct engineering investigations of traffic conditions; to plan the operation of traffic on the streets of this governmental unit, including parking areas; to cooperate with other officials of this governmental unit in the develop-

ment of ways and means to improve traffic conditions; and to carry out the additional powers and duties imposed by the ordinances of this governmental unit.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1127 Sec. 2.27. Emergency regulations.

The chief of police is hereby empowered to make and enforce temporary regulations to cover emergencies or special conditions. No such temporary regulation shall remain in effect for more than 90 days.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1128 Sec. 2.28. Testing traffic-control devices.

The traffic engineer may test or experiment with traffic-control devices under actual conditions of traffic in accordance with procedures contained in the Michigan manual of uniform traffic-control devices.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958; 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

R 28.1129 Sec. 2.29. Through streets.

Where any through street is duly established, it shall be the duty of the traffic engineer to place and maintain a stop sign on each and every street intersecting such through street or intersecting that portion thereof described and designated as such by any ordinance of this governmental unit unless traffic at any such intersection is controlled at all times by traffic-control signals, provided, however, that at the intersection of 2 such through streets or at the intersection of a through street and a heavy traffic street not so designated, stop signs shall be erected at the approaches of either of said streets as may be determined by the traffic engineer upon the basis of an engineering and traffic study.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1130 Sec. 2.30. Intersections where stop required.

The traffic engineer is hereby authorized to determine and designate intersections where particular hazard exists upon other than through streets and to determine whether vehicles shall stop at 1 or more entrances to any such stop intersection, and shall erect a stop sign at every such place where a stop is required.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1130a Sec. 2.30a. Stop signs at railroad grade crossings.

The traffic engineer is hereby authorized to designate certain grade crossings of railways by highways as "stop" crossings, and to erect signs thereat notifying drivers of vehicles upon any such highway to come to a complete stop before crossing such railway tracks, and whenever any such crossing is so designated and signposted, it shall be unlawful for the driver of any vehicle to fail to stop within 50 feet but not less than 10 feet from such railway tracks before traversing such crossings. The erection of, or failure to replace or maintain, such signs shall not be a basis for any action of negligence against local authorities.

History: 1954 ACS 54, p. 11, Eff. May 15, 1968.

R 28.1131 Sec. 2.31. Yield right-of-way signs.

The traffic engineer may determine and designate intersections where conditions warrant requiring vehicles to yield *the right-of-*way to cross vehicles and to

determine whether vehicles shall yield the right-of-way at 1 or more entrances to any such intersection. A yield sign shall be erected at every place where approaching vehicles are required to yield the right-of-way.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958; 1954 ACS 54, p. 11, Eff. May 15, 1968.

R 28.1132 Sec. 2.32. Parking adjacent to schools.

The traffic engineer is hereby authorized to erect signs indicating no parking upon either or both sides of any street adjacent to any school property when such parking would, in his opinion, interfere with traffic or create a hazardous situation.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1133 Sec. 2.33. Parking prohibited on narrow streets.

The traffic engineer is hereby authorized to erect signs indicating no parking upon any street when the width of the roadway does not exceed 20 feet, or upon 1 side of a street as indicated by such signs when the width of the roadway does not exceed 30 feet.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1134 Sec. 2.34. Standing or parking on 1-way streets.

The traffic engineer is authorized to erect signs upon the left-hand side of any 1-way street to prohibit the standing or parking of vehicles upon the left-hand side of such street.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1135 Sec. 2.35. Standing or parking on 1-way roadways.

The traffic engineer is authorized to determine when standing or parking may be permitted upon the left-hand side of any 1-way roadway and to erect signs giving notice thereof.

History: 1954 ACS 13, p. 12, Eff. Feb. 14, 1958.

R 28.1136 Sec. 2.36. No stopping, standing, or parking zones.

The traffic engineer may determine and designate zones where stopping, standing or parking is prohibited due to hazardous conditions which may exist or where conditions exist which would cause undue delay to traffic. Such zones shall be designated by posting proper signs at such locations, and the distance between the signs shall not exceed 100 feet.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958; 1954 ACS 54, p. 11, Eff. May 15, 1968.

R 28.1136a Sec. 2.36a. Tow-away zones.

The traffic engineer may establish tow-away zones as follows:

(a) At locations already designated as no stopping, standing, or parking zones.

(b) On streets where the normal width of the roadway is reduced by a building or buildings or by a construction project.

(c) At or adjacent to streets and locations where safety and traffic movement is affected by occurrence of a public event.

(d) Such tow-away zones shall be designated by posting signs reading "Tow-away zone." Such signs shall be posted independently or as an extra panel attached below the posted signs prohibiting stopping, standing or parking at the location. The distance between such posted signs shall not exceed 100 feet.

History: 1954 ACS 54, p. 11, Eff. May 15, 1968.

R 28.1136b Sec. 2.36b. Traffic-control devices on private property.

(1) With the consent, or at the request, of the owners or persons in charge of private property open to the general public for travel, the traffic engineer may determine controls of the movement of vehicles and pedestrians, and the parking of vehicles, needed for the safety and convenience of the public and users of the property. He shall place and maintain whatever traffic-control devices are necessary to give notice of those determinations.

(2) A person who violates the directions of the traffic-control devices is guilty of a misdemeanor.

History: 1954 ACS 54, p. 11, Eff. May 15, 1968; 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

R 28.1137 Sec. 2.37. Curb loading zones.

The traffic engineer is hereby authorized to determine the location of passenger and freight curb loading zones and shall place and maintain appropriate signs indicating the same and stating the hours during which such zones shall be restricted for loading purposes.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1138 Sec. 2.38. Permits for curb loading zones.

The traffic engineer shall not hereafter designate or sign any curb loading zone upon special request of any person unless such person makes application for a permit for such zone and for 2 signs to indicate the ends of each such zone. The traffic engineer upon granting a permit and issuing such signs shall collect from the applicant and deposit with the treasurer a service fee, in the amount specified by resolution of the ordinance making body, for year or fraction thereof. The governmental unit may by regulations impose conditions upon the use of such signs and for reimbursement for the value thereof in the event of their loss or damage and their return in the event of misuse or upon expiration of permit. Every such permit shall expire at the end of 1 year.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1139 Sec. 2.39. Public carrier stands.

The traffic engineer is hereby authorized to establish bus stops, bus stands, taxicab stands, and stands for other passenger common-carrier motor vehicles on such public streets, in such places and in such number as he shall determine to be of the greatest benefit and convenience to the public. Every such bus stop, bus stand, taxicab stand, or other stand shall be designated by appropriate signs, which he shall cause to be erected.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1140 Sec. 2.40. Permit for loading or unloading at an angle to the curb.

The traffic engineer is authorized to issue special permits to permit the backing of a vehicle to the curb for the purpose of loading or unloading merchandise or materials subject to the terms and conditions of such permit. Such permits may be issued either to the owner or lessee of real property or to the owner of the vehicle and shall grant to such person the privilege as therein stated and authorized herein.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1141 Sec. 2.41. Parking meter zones.

The traffic engineer is hereby authorized, subject to the approval of the ordinance making body, to *determine and designate* metered parking zones, and

to install and maintain as many parking meters as necessary in said metered parking zones, where it is determined that the installation of parking meters shall be necessary to aid in the regulation, control, and inspection of the parking of vehicles.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1142 Sec. 2.42. Angle parking zones.

The traffic engineer shall determine the location of angle parking zones, and shall erect and maintain appropriate signs indicating the same and giving notice thereof, except that no such zones shall be established on state trunk line highways.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1143 Sec. 2.43. Duty to erect parking signs.

It shall be the duty of the traffic engineer to erect and maintain appropriate signs giving notice of regulations relating to the stopping, standing, or parking of vehicles.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1144 Sec. 2.44. Speed restrictions.

The traffic engineer is hereby authorized to establish, increase, or decrease speed regulations provided for in this ordinance, and to erect signs giving notice thereof, as follows:

(a) Establish prima facie lawful speed limits on streets outside of business or residential districts, which shall in no case be less than 25 miles per hour.

(b) Increase the prima facie speed limits on through streets within business or residential districts.

(c) Establish the prima facie speed limit in public parks, alleys, and cemeteries.

History: 1954 ACS 13, p. 13, Eff. Feb. 14, 1958.

R 28.1145 Sec. 2.45. Authority to place turning markers.

The traffic engineer is authorized to place markers, buttons, or signs within or adjacent to intersections indicating the course to be traveled by vehicles turning at such intersections, and such course to be traveled as so indicated may conform to or be other than as prescribed by law or ordinance.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958.

R 28.1146 Sec. 2.46. Turn signs.

The traffic engineer may determine the locations at which drivers of vehicles shall not make a right, left, or U-turn, and shall place proper signs at those locations. The making of those turns may be prohibited between certain hours of the day and permitted at other times. At those locations, the differences shall be plainly shown on the signs, or the signs may be removed when turns are permitted.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958; 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

R 28.1147 Sec. 2.47. Authority to sign 1-way streets and alleys.

Where any 1-way street or alley is duly established, the traffic engineer shall place and maintain signs giving notice thereof, and no such regulation shall be effective unless such signs are in place. Signs indicating the direction of lawful

traffic movement shall be placed at every intersection where movement of traffic in the opposite direction is prohibited.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958.

R 28.1148 Sec. 2.48. Authority to restrict direction of movement on streets during certain periods.

The traffic engineer is hereby authorized to determine and designate streets, parts of streets, or specific lanes thereon upon which vehicular traffic shall proceed in 1 direction during 1 period and the opposite direction during another period of the day and shall place and maintain appropriate markings, signs, barriers or other devices to give notice thereof. The traffic engineer may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the center line of the roadway.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958.

R 28.1149 Sec. 2.49. Authority to establish no passing zones.

The traffic engineer is hereby authorized to designate no passing zones on streets or parts of streets and shall place and maintain official signs or markings on the roadway to indicate such zones.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958.

R 28.1150 Sec. 2.50. Truck routes; road limits.

The traffic engineer is hereby authorized to prohibit the use of designated streets by trucks or other commercial vehicles, and to impose limitations as to the weight of vehicles on designated streets, but said prohibitions and limitations shall not become effective until notice thereof is given by means of official signs.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958.

R 28.1151 Sec. 2.51. Prohibiting certain traffic.

The traffic engineer may, after an engineering and traffic investigation, designate any heavily traveled street under his jurisdiction from which is to be prohibited a class or kind of traffic found to be incompatible with the normal and safe movement of traffic. He shall erect appropriate traffic-control devices giving notice of the determination.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958; 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

R 28.1152 Sec. 2.52. Operating bicycle on sidewalk.

A person operating a bicycle on a sidewalk constructed for the use of pedestrians shall yield the right of way to a pedestrian and shall give an audible signal before overtaking and passing the pedestrian.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958; 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

R 28.1153 Sec. 2.53. Traffic control orders.

(a) The authority to regulate traffic contained in this ordinance shall be exercised by the traffic engineer by the issuance of traffic control orders which shall specify the rules and regulations adopted or established by him. Such traffic control orders shall become effective upon being filed with the clerk and upon erection of adequate signs or signals giving notice of the existence of such regulation, if signs or signals are required by the provisions of this ordinance pertaining to such regulation. Traffic control orders may be issued by the traffic engineer on his own authority *but when so issued shall* be known as temporary

Digitized by Google Original from UNIVERSITY OF MICHIGAN

traffic control orders and shall not be effective after the expiration of 90 days from the date of filing, nor shall any such temporary traffic control order be renewed or extended except upon its approval by the ordinance making body. Permanent traffic control orders shall be issued by the traffic engineer, approved by the ordinance making body and filed with the clerk. Temporary orders shall become permanent orders upon approval by the ordinance making body, but notice of such approval shall be filed with the clerk as in the case of an original traffic control order. All such orders and any action modifying or repealing such orders, shall be kept in a separate book by the clerk to be known as the traffic control order book.

(b) Copies of traffic control orders certified by the clerk to be a true transcript compared by him with the original in his office, shall be evidence in all courts, and proceedings in like manner as the original would be if produced. If it shall appear that a traffic control sign, signal, or device conforming to the provisions of this ordinance was erected or in place when the alleged violation of this ordinance occurred, such showing shall be prima facie evidence of the existence of a lawful traffic control order authorizing such traffic control, sign, signal or device, and it shall be unnecessary for the prosecution to affirmatively show the existence of a valid traffic control order in such cases, unless and until such presumption is rebutted by competent evidence.

History: 1954 ACS 13, p. 14, Eff. Feb. 14, 1958.

R 28.1154 Sec. 2.54. Clerk.

The following duties prescribed for the clerk shall relate to that person who is elected or appointed to the office of clerk of this governmental unit.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958.

R 28.1155 Sec. 2.55. Clerk to issue permit for loading or unloading at an angle to the curb.

The clerk, upon receipt of a written application, shall issue, subject to the approval of the traffic engineer, permits to back a vehicle at right angles to the curb for the purpose of loading or unloading of merchandise or material. Such permits shall be subject to the terms and conditions stated thereon. Every such permit shall expire at the end of each calendar year, but may be reissued.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958.

R 28.1156 Sec. 2.56. Clerk to issue permit for curb loading zones.

The clerk, upon receipt of a written application, shall issue, subject to the approval of the traffic engineer, permits for curb loading zones. Such permits shall be subject to the terms and conditions stated thereon.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958.

R 28.1157 Sec. 2.57. Clerk to provide traffic citation forms.

Traffic citation forms for notifying alleged violators to appear and answer to charges of violating traffic laws and ordinances in serially numbered sets shall be provided by the clerk in books and in form as provided in sections 727a, 727b, and 727c of the act, and as provided in sections 2.8 and 2.9 of this ordinance, as amended.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958; 1954 ACS 54, p. 11, Eff. May 15, 1968.

R 28.1158 Sec. 2.58. Issuance and record of traffic citation books.

The clerk shall be responsible for the issuance of traffic citation books to the chief of police and shall maintain a record of each book.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958; 1954 ACS 54, p. 11, Eff. May 15, 1968; 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

CHAPTER 3—OBEDIENCE TO TRAFFIC REGULATIONS

R 28.1201 Sec. 3.1. Required obedience to traffic ordinance.

It is a violation of this ordinance for any person to do any act forbidden or fail to perform any act required herein.

Sec. 3.01. Parental responsibility.

The parent of any child and the guardian of any ward shall not authorize or knowingly permit any such child or ward to violate any of the provisions of this ordinance.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958.

R 28.1202 Sec. 3.2. Obedience to police and fire department officials.

No person shall willfully fail or refuse to comply with any lawful order or direction of any police officer, or member of the fire department at the scene or in the immediate vicinity of a fire, who is vested with authority under this ordinance to direct, control, or regulate traffic.

History: 1954 ACS 13, p. 15, Eff. Feb. 14, 1958.

R 28.1202a Sec. 3.2a. Failure to stop upon police signal.

A driver of a motor vehicle, who is given by hand, voice, emergency light or siren a visual or audible signal by a police officer, acting in the lawful performance of his duty, directing the driver to bring his motor vehicle to a stop, and who willfully fails to obey such direction, by increasing his speed, extinguishing his lights, or otherwise attempting to flee or elude the officer shall be punished, upon conviction, as provided in section 9.3 of this ordinance. The officer giving the signal shall be in uniform; and a vehicle driven at night shall be adequately identified as an official police vehicle.

History: 1954 ACS 54, p. 11, Eff. May 15, 1968.

R 28.1203 Sec. 3.3. Persons propelling push carts or riding animals to obey traffic regulations.

Every person propelling any push cart or riding an animal upon a roadway, and every person driving any animal-drawn vehicle, shall be subject to the provisions of this ordinance applicable to the driver of any vehicle, except those provisions of this ordinance which by their very nature can have no application.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958.

R 28.1204 Sec. 3.4. Use of coasters, roller skates, and similar devices restricted.

No person upon roller skates, or riding in or by means of any coaster, toy vehicle, or similar device, shall go upon any roadway except while crossing a street on a crosswalk and when so crossing such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958.

R 28.1205 Sec. 3.5. Public employees to obey traffic regulations.

The provisions of this ordinance applicable to the drivers of vehicles upon the streets and highways shall apply to the drivers of all vehicles owned by or used in the service of the United States, this state or any county, city, town, district, or any other political subdivision of this state, subject to such specific exceptions as are set forth in this ordinance or in the state statutes.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958.

R 28.1206 Sec. 3.6. Authorized emergency vehicles.

The driver of an authorized emergency vehicle, when responding to an emergency call or when in the pursuit of an actual or suspected violator of the law or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in section 3.7, but subject to the conditions stated in sections 3.7, 3.8 and 3.9.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958; 1954 ACS 54, p. 12, Eff. May 15, 1968.

R 28.1207 Sec. 3.7. Privileges of authorized emergency vehicles.

The driver of an authorized emergency vehicle may:

(a) Park or stand, irrespective of the provisions of this ordinance;

(b) Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;

(c) Exceed the prima facie speed limits so long as he does not endanger life or property;

(d) Disregard regulations governing direction of movement or turning in specified directions;

(e) Drive through a funeral or other authorized procession.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958.

R 28.1208 Sec. 3.8. Signal required.

The privileges granted to an authorized emergency vehicle in sections 3.6 and 3.7 of this ordinance shall apply only when the driver of the vehicle while in motion sounds an audible signal by bell, siren or exhaust whistle as may be reasonably necessary, and when the vehicle is equipped with at least 1 lighted lamp displaying a flashing, oscillating or rotating red or blue light visible under normal atmospheric conditions from a distance of 500 feet to the front of such vehicle. Only authorized emergency vehicles operated as police vehicles which are publicly owned or maintained or, if privately owned, at least 50% of the annual total miles traveled by such vehicle shall be driven on official law enforcement business on behalf of the state or a political subdivision thereof and for which reimbursement is made by the state or such subdivision, shall be equipped with a flashing, oscillating or rotating blue light which when activated shall be visible under normal atmospheric conditions from a distance of 500 feet to the front of the vehicle except where it is deemed advisable not to equip such authorized emergency vehicle operating as a police vehicle with a flashing, oscillating or rotating light.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958; 1954 ACS 54, p. 12, Eff. May 15, 1968.

R 28.1209 Sec. 3.9. Authorized emergency vehicle driver responsibility.

The foregoing provisions shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons,

nor shall such provisions protect the driver from the consequences of his reckless disregard for the safety of others.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958.

R 28.1210 Sec. 3.10. Workers on surface of highways.

The provisions of this ordinance that are the same as the provisions of chapter 6 of the act shall not apply to persons, teams, motor vehicles, and other equipment while actually engaged in work upon the surface of a street but shall apply to such persons and vehicles when traveling to or from such work. The provisions of chapter 6 of the act governing the size and width of vehicles shall not apply to vehicles owned by public highway authorities when such vehicles are proceeding to or from work on public highways.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958; 1954 ACS 54, p. 12, Eff. May 15, 1968.

R 28.1211 Sec. 3.11. Ordinance effective on streets.

The provisions of this ordinance relating to the operation of vehicles refer exclusively to the operation of vehicles upon streets except where a different place is specifically referred to in a given section.

History: 1954 ACS 13, p. 16, Eff. Feb. 14, 1958.

R 28.1212 Sec. 3.12. Enforcing violation on private road.

Notwithstanding any other provision of law, a police officer may enter upon a private road to enforce violations of this code.

History: 1954 ACS 88, p. 22, Eff. Aug. 5, 1976.

CHAPTER 4—TRAFFIC CONTROL DEVICES

R 28.1301 Sec. 4.1. Authority to install traffic-control devices.

The traffic engineer shall place and maintain, or remove, traffic-control signs, signals, lane markings, and other devices and shall determine the hours and days during which any traffic-control device shall be in operation or be in effect, when and as required under the traffic ordinance of this governmental unit to indicate and to carry out the provisions of said ordinance, of this governmental unit and under state law, to regulate, warn or guide traffic.

History: 1954 ACS 13, p. 17, Eff. Feb. 14, 1958.

R 28.1302 Sec. 4.2. Manual and specifications for traffic-control devices.

All traffic-control signs, signals, and devices shall conform to the official Michigan manual of uniform traffic control devices. All signs and signals required hereunder for a particular purpose shall so far as practicable be uniform as to type and location throughout this governmental unit. All traffic-control devices so erected and not inconsistent with the provisions of state law or this ordinance shall be official traffic-control devices.

History: 1954 ACS 13, p. 17, Eff. Feb. 14, 1958.

R 28.1303 Sec. 4.3. Limit to authority.

Notwithstanding the authority granted to the traffic engineer under this ordinance no traffic-control device shall be placed or maintained upon any trunk line highway under the jurisdiction of the state highway commissioner except by the latter's permission or upon any county road without the permission of the county road commission having jurisdiction thereof.

History: 1954 ACS 13, p. 17, Eff. Feb. 14, 1958.

R 28.1304 Sec. 4.4. Obedience to official traffic-control devices.

The driver of any vehicle shall obey the instructions of any official traffic-control device applicable thereto placed in accordance with the traffic ordinances of this governmental unit, unless otherwise directed by a police officer.

History: 1954 ACS 13, p. 17, Eff. Feb. 14, 1958.

R 28.1304a Sec. 4.4a. Avoiding traffic-control device.

The driver of a vehicle shall not avoid obedience to an official traffic-control device by driving on or through private property or on or through public property which is not a street or highway.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1305 Sec. 4.5. When traffic devices required for enforcement purposes.

No provision of this ordinance for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.

History: 1954 ACS 13, p. 17, Eff. Feb. 14, 1958.

R 28.1306 Sec. 4.6. Traffic-control signal placement and legend.

Whenever traffic is controlled by traffic-control signals, at least 1 signal shall be located over the traveled portion of the roadway so as to give drivers a clear indication of the right-of-way assignment from their normal positions approaching the intersection. The vehicle signals shall exhibit different colored lights successively 1 at a time, or with arrows. The following colors shall be used and said terms and lights shall indicate and apply to drivers of vehicles as follows:

(a) Green indication.

Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Steady yellow indication.

Vehicular traffic facing the signal shall stop before entering the nearest crosswalk at the intersection or at a limit line when marked, but if such stop cannot be made in safety, a vehicle may be driven cautiously through the intersection.

(c) Steady red indication.

Vehicular traffic facing a steady red signal alone shall stop before entering the crosswalk on the near side of the intersection or at a limit line when marked, or if none, then before entering the intersection and shall remain standing until a green indication is shown.

(d) Arrow indications.

(1) Green arrow (steady): Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Vehicle traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(2) Red arrow (flashing): When a red arrow is illuminated by rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked or if none then before entering the intersection and shall then be privileged to make the movement indicated if no interference is offered pedestrians or vehicles lawfully on the highway.

History: 1954 ACS 13, p. 17, Eff. Feb. 14, 1958; 1954 ACS 54, p. 12, Eff. May 15, 1968.

R 28.1307 Sec. 4.7. Nonintersection signals.

In the event a traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any sign or marking the stop shall be made at the signal.

History: 1954 ACS 13, p. 18, Eff. Feb. 14, 1958.

R 28.1308 Sec. 4.8. Pedestrian signals.

Whenever special pedestrian-control signals are not utilized, the regular traffic-control signals as indicated in sections 4.6 and 4.7 shall apply to pedestrians as follows:

(a) Green indication. Pedestrians facing such signal may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication. Pedestrians facing such signal are advised that there is insufficient time to cross the roadway and any pedestrian then starting to cross shall yield the right-of-way to all vehicles.

(c) Steady red indication. Pedestrians facing such signal shall not enter the highway unless they can do so safely and without interfering with any vehicular traffic.

(d) Red with arrow. Pedestrians facing such signal shall not enter the highway unless they can do so safely without interfering with any vehicular traffic.

History: 1954 ACS 13, p. 18, Eff. Feb. 14, 1958; 1954 ACS 54, p. 13, Eff. May 15, 1968.

R 28.1309 Sec. 4.9. Special pedestrian signals.

Whenever special pedestrian-control signals are installed they shall be placed at the far end of each crosswalk and shall indicate a "walk" or "don't walk" interval. These special signals shall apply to pedestrians only to the exclusion of any regular traffic-control signal or signals which may be present at the same location.

(a) Walk interval—Pedestrians facing such signal may proceed across the highway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(b) Don't walk (steady burning or flashing) interval—No pedestrian shall start to cross the highway in the direction of such signals, but any pedestrian who has partially completed his crossing on the walk interval of such signal shall proceed to a sidewalk or safety island while the don't walk interval of the signal is showing.

(c) Until January 1, 1969, but not on or after that date, the don't walk interval may be indicated by existing "Wait" signals.

History: 1954 ACS 13, p. 18, Eff. Feb. 14, 1958; 1954 ACS 54, p. 13, Eff. May 15, 1968.

R 28.1310 Sec. 4.10. Flashing signals.

Whenever flashing red or yellow signals are used they shall require obedience by vehicular traffic as follows:

(a) Flashing red (stop signal). When a red lens is illuminated by rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958.

R 28.1311 Sec. 4.11. Unauthorized sign, signal, marking, device, decoration, or banner.

(a) Except with authority of the traffic engineer, no person shall place, maintain, or display along any street or upon any structure in or over any street any sign, signal, marking, device, blinking, oscillating or rotating light or lights, decoration or banner which is or purports to be or is in imitation of or resembles or which can be mistaken for a traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any traffic control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising. No person shall place, maintain or display along any street any blinking, oscillating or rotating light or lights sufficiently similar in color and design that they may be mistaken for the distinguishing lights authorized by law for emergency vehicles or that creates a hazard for the safety of drivers using said streets. Every such prohibited sign, signal, marking, device, decoration, or banner is hereby declared to be a public nuisance and the authority having jurisdiction over the street is hereby empowered to remove the same or cause it to be removed without notice.

(b) Decorations or banners which may be placed over the traveled portion of any street or highway shall be placed not closer than 10 feet on either side of traffic lights or signals and shall be so placed as to not obstruct a clear view of such traffic lights or signals.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958; 1954 ACS 25, p. 5, Eff. May 15, 1968.

R 28.1312 Sec. 4.12. Interference with traffic-control devices or railroad signs or signals.

No person shall without lawful authority attempt to or in fact alter, deface, injure, knock down, or remove any traffic-control device or any railroad sign or signal or any inscription, shield, or insignia thereon, or any other part thereof.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958.

R 28.1313 Sec. 4.13. Crosswalks.

The traffic engineer is hereby authorized to designate and maintain, by appropriate devices, marks, or lines upon the surface of the roadway, crosswalks at intersections where in his opinion there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958.

R 28.1314 Sec. 4.14. Safety zones.

The traffic engineer is hereby authorized to establish safety zones of such kind and character and at such places as he may deem necessary for the protection of pedestrians.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958.

R 28.1315 Sec. 4.15. Traffic lanes.

The traffic engineer is hereby authorized to mark traffic lanes upon the roadway of any street or highway where a regular alignment of traffic is necessary.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958.

R 28.1316 Sec. 4.16. School crossings; designation; creation.

The traffic engineer may, after traffic and engineering studies and in consultation with the superintendent of the school district, designate appropriate crosswalks as school crossings, and create additional school crossings where they are considered necessary on streets or highways under his jurisdiction.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1317 Sec. 4.17. School-crossing guards; duty periods; identifying clothing; signs.

(1) When school-crossing guards are assigned, they shall be stationed at school crossings during the times of day designated by the superintendent of the school district and the chief of the law enforcement agency having jurisdiction.

(2) When on duty, a school-crossing guard shall wear an outer vest of a color and style meeting the standards of the Michigan manual of uniform traffic-control devices. The school-crossing guard shall also hold a stop sign which conforms to the Michigan manual of uniform traffic-control devices for hand-held signs.

(3) When the school-crossing guards are assigned at designated school crossings, warning signs shall be erected in conformance with the Michigan manual of uniform traffic-control devices.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1318 Sec. 4.18. School-crossing guards; selection; training; supervision.

(1) School-crossing guards shall be selected, trained, and supervised by the local law enforcement agency.

(2) School-crossing guards shall receive not less than 4 hours of instruction in job-related matters before assuming duties and 4 hours of annual review thereafter.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1319 Sec. 4.19. School-crossing guard; failure to obey signal as violation; presumption.

(1) The driver of a motor vehicle who fails to stop at a school crossing when a school-crossing guard is in the crossing and is holding the stop sign in an upright position visible to approaching vehicular traffic, is guilty of a violation of section 4.4 of this code.

(2) In any proceeding for a violation of subsection (1) of this section, proof that the particular vehicle described in the citation, complaint, or warrant was in violation of subsection (1), together with proof that the defendant named in the citation, complaint, or warrant was, at the time of the violation, the registered owner of the vehicle, shall constitute in evidence a presumption that the registered owner of the vehicle was the driver of the vehicle at the time of the violation.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1320 Sec. 4.20. "Bicycle paths" or "bicycle lanes"; establishment; traffic-control devices.

(1) When the traffic engineer, after a traffic survey and engineering study, determines there is a need, he may establish a part of a street or highway under his jurisdiction as a bicycle path or lane.

(2) The bicycle path or lane shall be identified by official traffic-control devices conforming to the Michigan manual of uniform traffic-control devices.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1321 Sec. 4.21. "Bicycle paths"; vehicles prohibited; snowmobiles permitted under certain conditions.

(1) A person shall not operate a vehicle upon or across a bicycle path except to enter or leave adjacent property or as otherwise permitted in this section.

(2) A person may operate a snowmobile upon a bicycle path which is snow-covered and not snow-plowed for bicycle traffic.

(3) A person shall not park a vehicle upon a bicycle path.

History: 1954 ACS 88, p. 23, Eff. Aug. 5, 1976.

R 28.1322 Sec. 4.22. "Bicycle lanes"; vehicles prohibited; parking permitted under certain conditions.

(1) A person shall not operate a vehicle upon or across a bicycle lane except to enter or leave adjacent property.

(2) A person shall not park a vehicle upon a bicycle lane except where parking is permitted by official signs.

History: 1954 ACS 88, p. 24, Eff. Aug. 5, 1976.

CHAPTER 5—RIGHTS AND DUTIES OF DRIVERS AND OTHERS

R 28.1401 Sec. 5.1. Operation of vehicles on approach of authorized emergency vehicles.

Upon the immediate approach of an authorized emergency vehicle equipped with at least 1 lighted flashing, rotating or oscillating lamp exhibiting a red or blue light visible under normal atmospheric condition from a distance of 500 feet to the front of such vehicle and when the driver is giving audible signal by siren, exhaust whistle, or bell, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to and as close as possible to, the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. This section shall not operate to relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the highway.

History: 1954 ACS 13, p. 19, Eff. Feb. 14, 1958; 1954 ACS 54, p. 13, Eff. May 15, 1968.

R 28.1402 Sec. 5.2. Damage to vehicles; stopping.

The driver of any vehicle who knows or who has reason to believe that he has been involved in an accident resulting only in damage to a vehicle which is driven or attended by any person shall immediately stop such vehicle at the scene of such accident and shall remain thereat until he has fulfilled the requirements of section 5.4a of this ordinance. Every such stop shall be made without obstructing traffic more than is necessary.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958; 1954 ACS 25, p. 5, Eff. Feb. 14, 1961; 1954 ACS 54, p. 13, Eff. May 15, 1968.

R 28.1403 Sec. 5.3. Accidents; fixtures on or adjacent to highway; report.

(a) The driver of any vehicle involved in an accident resulting only in damage to fixtures legally upon or adjacent to a highway shall take reasonable steps to locate and notify the owner or person in charge of such property of such accident and of his name and address and of the registration number of the vehicle he is driving and shall upon request exhibit his operator's or chauffeur's license and, if such owner cannot be found, shall forthwith report such accident to the nearest or most convenient police officer.

(b) The officer receiving such report or his commanding officer shall forward each individual report to the director of state police on forms prescribed by him which shall be completed in full by the investigating officer. A copy of the accident report required under this section shall be retained by the local police department for at least 3 years.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958; 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1404 Sec. 5.4. Injury to or death of person; stopping.

The driver of any vehicle who knows or who has reason to believe that he has been involved in an accident upon either public or private property, when such property is open to travel by the public, resulting in injury to or death of any person shall immediately stop such vehicle at the scene of such accident and shall remain thereat until he has fulfilled the requirements of section 5.4a of this ordinance. Every such stop shall be made without obstructing traffic more than is necessary.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958; 1954 ACS 25, p. 5, Eff. Feb. 14, 1961; 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1404a Sec. 5.4a. Giving information and obtaining aid.

The driver of a vehicle who knows or who has reason to believe that he has been involved in an accident resulting in injury to, or death of, a person or damage to a vehicle which is driven or attended by any person shall give his name, address, registration number of the vehicle he is driving, and the name and address of the owner, and exhibit his operator's or chauffeur's license to the person struck or the driver or occupants of any vehicle collided with and shall render to any person injured in such accident reasonable assistance in securing medical aid or transportation of an injured person or persons.

History: 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1405 Sec. 5.5. Unattended vehicles; report.

The driver of any vehicle which collides upon either public or private property with any vehicle which is attended or unattended shall immediately stop and shall then and there either locate and notify the operator or owner of such vehicle of the name and address of the driver and owner of the vehicle striking the vehicle or, if such owner cannot be located, shall forthwith report it to the nearest or most convenient police officer.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958; 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1406 Sec. 5.6. Duty to report accidents forthwith.

The driver of every motor vehicle involved in an accident resulting in injury or death of any person or total damage to all property to an apparent extent of $200.00 or more shall forthwith report such accident to the police department if the accident occurs within this governmental unit. The officer receiving such report or his commanding officer shall *forthwith* forward each individual report

to the director of state police on forms prescribed by him which shall be completed in full by the investigating officer. A copy of the accident report required under this section shall be retained by the local police department for at least 3 years.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958; 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1407 Sec. 5.7. Report of garagekeeper or repairman.

The person in charge of any garage or repair shop to which is brought any motor vehicle which shows evidence of having been involved in an accident or having been struck by any bullet shall report the same to the police department immediately after such motor vehicle is received, giving the engine number, registration number and the name and address of the owner and operator of such vehicle.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958.

R 28.1408 Sec. 5.8. Use of accident reports.

The reports required by sections 5.3, 5.5, and 5.6 shall not be available for use in any court action, but it shall be for the purpose of furnishing statistical information as to the number and cause of accidents.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958; 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1409 Sec. 5.9. Speed restrictions.

Any person driving a vehicle on a street shall drive the same at a careful and prudent speed not greater than nor less than is reasonable and proper, having due regard to the traffic, surface and width of the street and of any other condition then existing, and no person shall drive any vehicle upon a street at a speed greater than will permit him to bring it to a stop within the assured, clear distance ahead.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958.

R 28.1409a Sec. 5.9a. Driving at slow speed.

A person shall not drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or in compliance with law.

History: 1954 ACS 88, p. 24, Eff. Aug. 5, 1976.

R 28.1410 Sec. 5.10. Business, residence, and parks.

Subject to the provisions of section 5.9 and except in those instances where a different speed is lawfully established and posted, it shall be prima facie lawful for the driver of a vehicle to drive the same at a speed not exceeding 25 miles an hour on all streets in business and residence districts and parks, but in any case when such speed would be unsafe it shall not be lawful.

History: 1954 ACS 13, p. 20, Eff. Feb. 14, 1958.

R 28.1411 Sec. 5.11. Violation of speed limitations.

It shall be prima facie unlawful for any person to exceed any of the speed limitations set forth in section 5.10.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1412 Sec. 5.12. Violation of signs.

It shall be prima facie unlawful to exceed the speed stated on signs erected in accordance with the traffic ordinances of this governmental unit.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1413 Sec. 5.13. Manner of charging violation of speed restriction.

In every charge of violation of the speed restrictions in the traffic ordinances of this governmental unit, the complaint and traffic citation shall specify the speed at which the defendant is alleged to have driven, also the speed applicable within the district or at the location.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1414 Sec. 5.14. Reckless driving.

Any person who drives any vehicle upon a highway or a frozen public lake, stream or pond or other place open to the general public, including any area designated for the parking of motor vehicles, in willful or wanton disregard for the safety of persons or property is guilty of reckless driving, and shall be punished, upon conviction, as provided in section 9.3 of this ordinance.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958; 1954 ACS 54, p. 14, Eff. May 15, 1968.

R 28.1414a Sec. 5.14a. Careless driving.

Any person who operates a vehicle upon a highway or a frozen public lake, stream or pond or other place open to the general public, including any area designated for the parking of vehicles, in a careless or negligent manner likely to endanger any person or property, but without wantonness or recklessness shall be punished, upon conviction, by imprisonment for not more than 10 days or a fine of not more than $100.00, or both.

History: 1954 ACS 54, p. 15, Eff. May 15, 1968.

R 28.1414b Sec. 5.14b. Drag races prohibited.

(a) No person shall operate a vehicle upon any highway, or any other place open to the general public, including any area designated for the parking of motor vehicles, in a speed or acceleration contest or for the purpose of making a speed record, whether from a standing start or otherwise over a measured or unmeasured distance, or in a drag race as herein defined.

(b) "Drag racing" means the operation of 2 or more vehicles from a point side by side at accelerating speeds in a competitive attempt to outdistance each other over a common selected course or where timing is involved or where timing devices are used in competitive accelerations of speeds by participating vehicles. Persons rendering assistance in any manner to such competitive use of vehicles shall be equally charged as participants. The operation of 2 or more vehicles either at speeds in excess of prima facie lawfully established speeds or rapidly accelerating from a common starting point to a speed in excess of such prima facie lawful speed is prima facie evidence of drag racing and is unlawful.

History: 1954 ACS 54, p. 15, Eff. May 15, 1968.

R 28.1415 Sec. 5.15. Driving under influence of intoxicating liquor or narcotic drugs.

(1) A person, whether licensed or not, who is an habitual user of narcotic drugs, barbital, a derivative of barbital, or marijuana, or a person who is under the influence of intoxicating liquor or narcotic drugs, barbital, a derivative of barbital, or marijuana, shall not drive a vehicle on a street or highway, or any other place open to the general public, including any area designated for the parking of motor vehicles.

(2) A person who is convicted of a violation of this section shall be punished by imprisonment for not more than 90 days or by a fine of not less than $50.00 nor more than $100.00, or both, together with costs of prosecution.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958; *1954 ACS 88, p. 24, Eff. Aug. 5, 1976.*

R 28.1415a Sec. 5.15a. Driving under influence of intoxicating liquor; tests; admissibility; presumption; liability for withdrawing blood; refusal to take test; other evidence; option to demand breath test only.

(1) In any criminal prosecution for driving a vehicle while under the influence of intoxicating liquor, the amount of alcohol in a person's blood at the time alleged, as shown by chemical analysis of the person's blood, urine, breath, or saliva, shall be admissible into evidence and shall give rise to the following presumptions, and in the event any such tests are given, the results of the tests shall be made available to the person so charged or his attorney upon written request to the prosecution, with a copy of the request filed with the court, and the prosecution shall furnish the report at least 2 days prior to the day of the trial and shall be offered as evidence by the prosecution in a criminal proceeding; failure to fully comply with such request shall bar the admission of the results into evidence by the prosecution:

(a) If there was at that time 0.07% or less by weight of alcohol in the defendant's blood, it shall be presumed that the defendant was not under the influence of intoxicating liquor.

(b) If there was at the time in excess of 0.07% but less than 0.10% by weight of alcohol in the defendant's blood, it shall be presumed that the defendant's ability to operate a motor vehicle was impaired within the provisions of section 5.15b of this code due to the consumption of intoxicating liquor.

(c) If there was at that time 0.10% or more by weight of alcohol in the defendant's blood, it shall be presumed that the defendant was under the influence of intoxicating liquor.

(2) Samples and specimens of urine, breath, and saliva shall be taken and collected in a reasonable manner; but only a duly licensed physician, or a licensed nurse or medical technician under the direction of a licensed physician and duly qualified to withdraw blood, acting in a medical environment, at the request of a police officer, can withdraw blood for the purpose of determining the alcoholic content therein under the provisions of the act. No liability for a crime or civil damages predicated on the act of withdrawing blood and related procedures attaches to a qualified person who withdraws blood or assists in the withdrawal in accordance with the act unless the withdrawal is performed in a negligent manner.

(3) A person charged with driving a vehicle under the influence of intoxicating liquor who takes a chemical test administered at the request of a police officer, as provided in paragraphs (1) and (2) of this section, shall be informed that he will be given a reasonable opportunity to have a person of his own choosing administer 1 of the chemical tests as provided in this section within a reasonable time after his detention, and the results of such test shall be admissible and shall be considered with other competent evidence in determining the innocence or guilt of the defendant. Any person charged with driving a vehicle while under the influence of intoxicating liquor shall be informed that he has the right to demand that 1 of the tests provided for in paragraph (1) of this section shall be given him, and the results of such test shall be admissible and shall be considered with other competent evidence in determining the innocence or guilt of the the defendant.

(4) The person charged shall be advised that his refusal to take a test as herein provided shall result in the suspension or revocation of his operator's or chauffeur's license or his operating privilege.

(5) The provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question of whether or not the defendant was under the influence of intoxicating liquor.

(6) Notwithstanding any other provision of this code, a person requested to take this test shall be advised that he has the option to demand that only a breath test shall be given, in which case his refusal to submit to any other test shall not constitute a refusal for the purposes of sections 5.15c and 5.15d of this code.

History: 1954 ACS 88, p. 24, Eff. Aug. 5, 1976; 1954 ACS 94, p. 5, Eff. Feb. 28, 1978.

R 28.1415b Sec. 5.15b. Driving under influence of intoxicating liquor or drugs while ability impaired.

(1) A person shall not operate a vehicle on a highway, or street, or any other place open to the general public, including an area designated for the parking of motor vehicles, when, due to the consumption of intoxicating liquor, narcotic drugs, barbital, a derivative of barbital, or marijuana, he has visibly impaired his ability to operate the vehicle. When a person is charged with violation of section 5.15, a finding of guilty shall be permissible under this section.

(2) A person convicted of a violation of this section may be imprisoned for not more than 90 days or fined not more than $100.00, or both, together with costs of prosecution.

History: 1954 ACS 88, p. 25, Eff. Aug. 5, 1976.

R 28.1415c Sec. 5.15c. Implied consent.

(1) A person who operates a vehicle upon the public highways of this state is deemed to have given consent to chemical tests of his blood, breath, urine, or other bodily substances for the purpose of determining the alcoholic content of his blood if he is arrested for driving a vehicle while under the influence of intoxicating liquor, or while his ability to operate a vehicle has been impaired due to the consumption of intoxicating liquor.

(2) Any person who is afflicted with hemophilia, diabetes, or any condition requiring the use of an anticoagulent under the direction of a physician shall not be deemed to have given consent to the withdrawal of blood.

(3) The tests shall be administered at the request of a law enforcement officer having reasonable grounds to believe the person was driving a vehicle upon the public highways of this state while under the influence of intoxicating liquor.

History: 1954 ACS 88, p. 25, Eff. Aug. 5, 1976.

R 28.1415d Sec. 5.15d. Refusal to submit to test; report.

A person under arrest shall be advised of his right to refuse to submit to chemical tests, and if he refuses the request of a law enforcement officer to submit to chemical tests, no test shall be given. A sworn report shall be forwarded to the secretary of state by the law enforcement officer stating that he had reasonable grounds to believe that the person had been driving a motor vehicle on the public highways of the state while under the influence of intoxicating liquor or that he had been driving a vehicle while his ability to operate a vehicle had been impaired due to the consumption of intoxicating liquor and that the person had refused to submit to the test upon the request of the law enforcement officer and had been advised of the consequences of such refusal. The form of the report shall be prescribed and furnished by the department of state.

History: 1954 ACS 88, p. 25, Eff. Aug. 5, 1976.

R 28.1416 Sec. 5.16. Permission by owner or person having charge of motor vehicle.

same to be driven or operated upon any street or any other place open to the general public, including any area designated for the parking of motor vehicles by any person who is an habitual user of narcotic drugs, barbital or any derivative of barbital or any person who is under the influence of intoxicating liquor or narcotic drugs, barbital or any derivative of barbital.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1416a Rescinded.

History: 1954 ACS 54, p. 15, Eff. May 15, 1968; rescinded 1954 ACS 88, p. 16, Eff. Aug. 5, 1976.

R 28.1416b Sec. 5.16b. Consumption of liquor on highways or on property open to public.

(1) Alcoholic liquor shall not be consumed on a highway, street, or alley, or on any public or private property which is open to the general public and is not licensed to sell alcoholic liquor for consumption on the premises.

(2) A person shall not transport or possess alcoholic liquor in a container which is open or uncapped, or on which the seal is broken, within the passenger compartment of a vehicle on the streets or highways of this governmental unit. If the vehicle does not have a trunk or compartment separate from the passenger compartment, a container which is open or uncapped, or on which the seal is broken, shall be encased or enclosed. This subsection shall not apply to a chartered passenger vehicle licensed by the Michigan public service commission.

History: 1954 ACS 54, p. 15, Eff. May 15, 1968; 1954 ACS 88, p. 25, Eff. Aug. 5, 1976.

R 28.1417 Sec. 5.17. Drive on right side of roadway; exceptions.

Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When the right half of a roadway is closed to traffic while under construction or repair;

(c) Upon a roadway divided into 3 marked lanes for traffic under the rules applicable thereon; or

(d) Upon a roadway designated and signposted for 1-way traffic.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1418 Sec. 5.18. Passing vehicles proceeding in opposite directions.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than 1 line of traffic in each direction each driver shall give to the other at least ½ of the main-traveled portion of the roadway as nearly as possible.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1419 Sec. 5.19. Overtaking and passing on left of moving vehicles.

The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions, and special rules hereafter stated:

(a) The driver of any vehicle overtaking another vehicle proceeding in the same direction shall pass at a safe distance to the left thereof, and when safely clear of such overtaken vehicle shall take up a position as near the right-hand edge of the main-traveled portion of the highway as is practicable.

(b) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

History: 1954 ACS 13, p. 21, Eff. Feb. 14, 1958.

R 28.1420 Sec. 5.20. Overtaking and passing on right of moving vehicles.

The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or about to make a left turn;

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for 2 or more lines of moving vehicles in each direction and when such vehicles are moving in substantially continuous lanes of traffic;

(c) Upon a 1-way street, or upon any roadway on which traffic is restricted to 1 direction of movement, where the roadway is free from obstructions and of sufficient width for 2 or more lines of moving vehicles and when such vehicles are moving in substantially continuous lanes of traffic.

(d) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958.

R 28.1421 Sec. 5.21. Overtaking and passing on left; restrictions.

No vehicle shall be driven to the left side of the center of a 2-lane street or in the center lane of a 3-lane street in overtaking and passing another vehicle proceeding in the same direction unless such left side or center lane is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958.

R 28.1422 Sec. 5.22. Left of center operation; prohibition.

No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

(a) When approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) When the view is obstructed upon approaching within 100 feet of any bridge, viaduct, or tunnel.

(c) The limitations set forth in section 5.22 shall not apply upon a 1-way roadway.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958.

R 28.1423 Sec. 5.23. No passing zones.

The driver of a vehicle shall not overtake and pass any vehicle in a no passing zone where official signs or markings on the roadway indicate the beginning and end of such zone and when such signs or markings are in place and clearly visible to an ordinarily observant person.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958.

R 28.1424 Sec. 5.24. One-way roadways.

Upon a roadway or alley designated and signposted for 1-way traffic a vehicle shall be driven only in the direction designated.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958.

R 28.1425 Sec. 5.25. Rotary traffic islands.

A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958.

R 28.1426 Sec. 5.26. Driving on roadways laned for traffic.

When a roadway is divided into 2 or more clearly marked lanes for traffic, the following rules, in addition to all others consistent herewith, shall apply:

(a) A vehicle shall be driven, as nearly as practicable, entirely within a single lane and shall not be moved from the lane until the driver has first made sure that the movement can be made with safety. On a roadway with 4 or more lanes, which provides for 2-way movement of traffic, a vehicle shall be driven within the extreme right-hand lane except when overtaking and passing, but shall not cross the center line of the roadway except when making a left turn.

(b) On a roadway which is divided into 3 lanes and provides for 2-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction, when the center lane is clear of traffic within a safe distance, in preparation for a left turn, or when the center lane is at the time allocated exclusively to traffic moving in the same direction the vehicle is proceeding and the allocation is designated by official traffic-control devices.

(c) Official traffic-control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction, regardless of the center of the roadway. Drivers of vehicles shall obey the directions of those devices.

History: 1954 ACS 13, p. 22, Eff. Feb. 14, 1958; 1954 ACS 88, p. 28, Eff. Aug. 5, 1976.

R 28.1427 Sec. 5.27. Driving on divided highways.

Whenever any highway has been divided into 2 roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic every vehicle shall be driven only upon the right-hand roadway and no vehicle shall park or be driven over, across or within any such dividing space, barrier or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection established by public authority. Crossovers on limited access highways shall not be used except by such vehicles as provided in sections 3.6, 3.7, and 3.8 of this ordinance and except by road service vehicles while going to or returning from servicing a disabled vehicle and except as otherwise permitted by authorized signs. "Road service vehicles" means vehicles clearly marked and readily recognizable as a vehicle used to assist disabled vehicles.

History: 1954 ACS 13, p. 23, Eff. Feb. 14, 1958; 1954 ACS 54, p. 15, Eff. May 15, 1968.

R 28.1428 Sec. 5.28. Limited access roadways.

No person shall drive a vehicle onto or from any limited access roadway except at such entrances and exits as are established by public authority.

R 28.1428a Sec. 5.28a. Limited access highway; pedestrians and certain vehicles prohibited.

A person shall not operate a motor-driven cycle or motorcycle with less than a 125 cubic centimeter engine, farm tractor, or other self-propelled farm implement, nor shall any pedestrian, bicycle, or other nonmotorized traffic be permitted on any limited access highway in this state.

History: 1954 ACS 88, p. 28, Eff. Aug. 5, 1976.

R 28.1429 Sec. 5.29. Following too closely.

The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicle and the traffic upon and the condition of the street.

History: 1954 ACS 13, p. 23, Eff. Feb. 14, 1958.

R 28.1430 Sec. 5.30. Following fire apparatus prohibited.

The driver of any vehicle other than an authorized emergency vehicle on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than 500 feet or drive into or park such vehicle within 500 feet where fire apparatus has stopped in answer to a fire alarm.

History: 1954 ACS 13, p. 23, Eff. Feb. 14, 1958.

R 28.1431 Sec. 5.31. Required position and method of turning at intersections.

The driver of a vehicle intending to turn at an intersection shall do so as follows:

(a) Right turns.

Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) Left turns on 2-way roadways.

At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of such center line where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(c) Left turns on other than 2-way roadways.

At any intersection where traffic is restricted to 1 direction on 1 or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle and after entering the intersection the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

History: 1954 ACS 13, p. 23, Eff. Feb. 14, 1958.

R 28.1432 Sec. 5.32. Obedience to turning markers.

When authorized markers, buttons, or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications.

History: 1954 ACS 13, p. 23, Eff. Feb. 14, 1958.

R 28.1433 Sec. 5.33. Obedience to no-turn signs.

Whenever authorized signs are erected indicating that no right or left or U-turn is permitted, no driver of a vehicle shall disobey the directions of any such sign.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958.

R 28.1434 Sec. 5.34. Limitations on turning around.

The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street in a business district and shall not upon any other street so turn a vehicle unless such movement can be made in safety and without interfering with other traffic.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958.

R 28.1435 Sec. 5.35. Signals for starting, stopping, or turning.

(1) The driver of a vehicle or bicycle on a highway, before stopping or turning from a direct line, shall first see that the movement can be made in safety and shall give a signal as required in this section.

(2) The signal required in this section shall be given either by means of the hand and arm in the manner herein specified, or by a mechanical or electrical signal device which conveys a clear signal or warning to other highway traffic, except as provided in subsection (3). When a signal is given by means of hand and arm, the driver shall indicate his intention to stop or turn by extending his hand and arm from and beyond the left side of the vehicle and signal as follows:

(a) Left turn ..... Hand and arm extended horizontally.

(b) Right turn ..... Hand and arm extended upward.

(c) Stop or decrease speed ..... Hand and arm extended downward.

(3) A commercial motor vehicle, other than one in transit from a manufacturer to a dealer, in use on a highway, shall be equipped with, and the required signal shall be given by, a signal light or mechanical signal device when the distance from the center of the top of the steering post to the left outside limit of the body, cab, or load of the commercial motor vehicle exceeds 24 inches, or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds 14 feet. The latter measurement shall apply to a single vehicle or combination of vehicles.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958; 1954 ACS 25, p. 5, Eff. Feb. 14, 1961; 1954 ACS 88, p. 26, Eff. Aug. 5, 1976.

R 28.1436 Sec. 5.36. Stop signs.

Except when directed to proceed by a police officer, the driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection, or if there is no crosswalk shall stop at a clearly marked stop line, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway. After having stopped, the driver shall yield the right-of-way to any vehicle which has entered the intersection from another highway or which is approaching so closely on the highway as to constitute an immediate hazard during the time when the driver would be moving across or within the intersection.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958; 1954 ACS 54, p. 15, Eff. May 15, 1968.

R 28.1436a Sec. 5.36a. Right-of-way at merging highways.

When a vehicle approaches the intersection of a highway from an intersecting *highway* or street which is intended to be, and is constructed as, a merging

highway or street, and is plainly marked at such intersection with appropriate merge signs, the vehicle shall yield right-of-way to any vehicle so close as to constitute an immediate hazard on the highway about to be entered and shall adjust its speed so as to enable it to merge safely with the through traffic.

History: 1954 ACS 54, p. 16, Eff. May 15, 1968.

R 28.1437 Sec. 5.37. Emerging from alley, driveway, or building.

The driver of a vehicle emerging from an alley, driveway, or building shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway, yielding the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958.

R 28.1438 Sec. 5.38. Stop when traffic obstructed.

No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic-control signal indication to proceed.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958.

R 28.1439 Sec. 5.39. Obedience to signal indicating approach of railroad train.

Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this section, the driver of such vehicle shall stop within 50 feet but not less than 15 feet from the nearest rail of such railroad, and shall not proceed until he can do so safely. The foregoing requirements shall apply when:

(a) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;

(b) A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train;

(c) A railroad train approaching within approximately 1,500 feet of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard;

(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

History: 1954 ACS 13, p. 24, Eff. Feb. 14, 1958.

R 28.1440 Sec. 5.40. Railroad crossing gate or barrier.

No person shall drive any vehicle through, around, or under any crossing gate or barrier at a railroad grade crossing while such gate or barrier is closed or being opened or closed.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958.

R 28.1440a Sec. 5.40a. Obstruction of vehicular traffic on highway or street by train.

It shall be unlawful for a railroad company to permit any of its trains to obstruct any vehicular traffic on public streets or highways for a longer period than 5 minutes at any one time.

History: 1954 ACS 54, p. 16, Eff. May 15, 1968.

R 28.1440b Sec. 5.40b. Obstruction of vehicular traffic by successive train movements on highways or streets.

It shall be unlawful for a railroad company to permit successive train movements to obstruct any vehicular traffic on any public streets or highways until all vehicular traffic previously delayed by such train movements has been cleared or a period of 5 minutes has elapsed between train movements.

History: 1954 ACS 54, p. 16, Eff. May 15, 1968.

R 28.1440c Sec. 5.40c. School buses and carriers of explosives and flammables to stop for railroad crossings.

(a) The driver of any motor vehicle carrying passengers for hire, or of any school bus or of any vehicle carrying explosive substances or flammable liquids as a cargo or part of a cargo, before crossing at grade any track or tracks of a railroad, shall stop such vehicle within 50 feet but not less than 10 feet from the nearest rail of such railroad and while so stopped shall listen and look in both directions along such track for any approaching train, and for signals indicating the approach of a train, except as hereinafter provided, and shall not proceed until he can do so safely. After stopping as required herein, and upon proceeding when it is safe to do so the driver of the vehicle shall cross only in such gear of the vehicle that there will be no necessity for changing gears while traversing such crossing and the driver shall not shift gears while crossing the track or tracks.

(b) No stop need be made at any such crossing where a police officer or a traffic-control signal directs traffic to proceed.

(c) No stop shall be made at any such crossing on a freeway or limited access highway where such crossing is protected by a clearly visible signal, crossing gate or barrier at which time the signal, crossing gate or barrier is not activated.

History: 1954 ACS 54, p. 16, Eff. May 15, 1968.

R 28.1441 Sec. 5.41. Right-of-way at intersections.

(a) The driver of a vehicle approaching an intersection shall yield the right-of-way to a vehicle which has entered the intersection from a different highway.

(b) When 2 vehicles enter an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

(c) The driver of any vehicle traveling at an unlawful speed shall forfeit any right-of-way which he might otherwise have hereunder.

(d) The right-of-way rules declared in paragraphs (a) and (b) are modified at through highways and otherwise as stated in this ordinance.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958; 1954 ACS 54, p. 16, Eff. May 15, 1968.

R 28.1442 Sec. 5.42. Yield right-of-way signs.

(a) The driver of a vehicle approaching a yield sign, in obedience to such sign, shall slow down to a speed reasonable for the existing conditions and shall yield the right-of-way to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard during the time such driver would be moving across or within the intersection. However, if required for safety to stop, the driver shall stop before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.

(b) The driver of any vehicle traveling at an unlawful speed shall forfeit any right-of-way which he might otherwise have hereunder.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958; 1954 ACS 54, p. 16, Eff. May 15, 1968.

R 28.1443 Sec. 5.43. Right-of-way; vehicle turning left at intersection.

The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard, but said driver, having so yielded and having given a signal when and as required by this ordinance, may make such left turn and the drivers of all other vehicles approaching the intersection from said opposite direction shall yield the right-of-way to the vehicle making the left turn; provided, that at an intersection at which a traffic signal is located, a driver intending to make a left turn shall permit vehicles bound straight through in the opposite direction which are awaiting a go signal to pass through the intersection before making the turn.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958.

R 28.1444 Sec. 5.44. Funeral or other procession; right-of-way; flags.

(1) All vehicles and persons forming a funeral procession or other authorized procession shall have the right-of-way over all other vehicles, except fire apparatus, ambulances, and police patrol vehicles, at any street intersection. Each vehicle in the funeral procession shall have displayed on the front thereof a flag which shall be white in color, upon which shall be printed, stamped, or stained a purple cross or the star of David. In addition, the lead vehicle and the last vehicle in the funeral procession may carry an additional flag. The flag shall contain no name embossed or printed thereon except the word "funeral."

(2) A person passing through a funeral procession of motor vehicles, as designated in subsection (1), with a vehicle of any kind shall be guilty of a misdemeanor.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958; 1954 ACS 25, p. 6, Eff. Feb. 14, 1981; 1954 ACS 88, p. 26, Eff. Aug. 5, 1976.

R 28.1445 Sec. 5.45. Driving through a funeral or other procession.

No driver of a vehicle shall drive through the vehicles, persons, or animals comprising a funeral or other authorized procession while such funeral or other procession is in motion except when otherwise directed by a police officer.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958.

R 28.1446 Sec. 5.46. Drivers in a procession.

Each driver in a funeral or other authorized procession shall drive as near to the right-hand edge of the roadway as practical and shall follow the vehicle ahead as close as is practical and safe.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958.

R 28.1447 Sec. 5.47. When permits required for parades and processions.

No procession, or parade excepting the forces of the United States armed services, the military forces of this state, and the forces of the police and fire departments, shall occupy, march, or proceed along any roadway except in accordance with a permit issued by the chief of police and such other regulations as are set forth herein which may apply.

History: 1954 ACS 13, p. 25, Eff. Feb. 14, 1958.

R 28.1448 Sec. 5.48. Vehicles shall not be driven on a sidewalk.

The driver of a vehicle shall not drive upon or within any sidewalk area except at a driveway.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1449 Sec. 5.49. Limitations on backing.

(1) The driver of a vehicle shall not back the vehicle unless the movement can be made with reasonable safety and without interfering with other traffic.

(2) A vehicle shall not be backed a distance of more than 60 feet.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958; 1954 ACS 54, p. 17, Eff. May 15, 1968; 1954 ACS 88, p. 27, Eff. Aug. 5, 1976.

R 28.1450 Sec. 5.50. Crossing fire hose.

No vehicle shall be driven over any unprotected fire hose of a fire department without the consent of the fire department official in command.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1451 Rescinded.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958; rescinded 1954 ACS 88, p. 16, Eff. Aug. 5, 1976.

R 28.1452 Sec. 5.52. Safety zones occupied by persons.

The driver of a vehicle shall not at any time drive through or over a safety zone when such safety zone contains any person thereon.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1453 Sec. 5.53. Avoidance of traffic-control device.

No driver of a vehicle shall attempt to avoid obedience to any traffic-control device by driving upon or through any private property.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1454 Sec. 5.54. Splashing.

No driver of a motor vehicle shall recklessly, willfully, wantonly, or carelessly operate his vehicle in such manner as to splash snow, rain, water, mud, dirt, or debris on any person then upon a sidewalk, crosswalk, or safety zone.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1455 Sec. 5.55. Deposit of litter on streets.

(a) No person shall, without the consent of the public authority having supervision of a street, deposit, place, dump, throw, or leave, or cause or permit the dumping, depositing, placing, throwing or leaving of any destructive or injurious material, or any rubbish, refuse, waste material, garbage, offal, paper, glass, cans, bottles, trash, or debris upon any street.

(b) Any person who throws or drops or permits to be thrown or dropped upon a street any of the material or matter listed in subsection (a) shall immediately remove it or cause it to be removed.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958; 1954 ACS 54, p. 17, Eff. May 15, 1968.

R 28.1455a Sec. 5.55a. Throwing objects at or into paths of vehicles.

No person shall knowingly cause any litter or any object to fall or to be thrown into the path of or to hit a vehicle traveling upon a street.

History: 1954 ACS 54, p. 17, Eff. May 15, 1968.

R 28.1456 Sec. 5.56. Wrecked or damaged vehicles.

Any person removing a wrecked or damaged vehicle from a street shall remove any glass or other injurious substance dropped upon the street from such vehicle.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1457 Sec. 5.57. Spilling loads on streets prohibited.

No vehicle shall be driven or moved on any street unless such vehicle is so constructed or loaded as to prevent its contents from dropping, sifting, leaking, or otherwise escaping therefrom.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1458 Sec. 5.58. Unattended motor vehicles; brakes; grade; key removal.

No person having control or charge of a motor vehicle shall allow such vehicle to stand on any street, or any other place, unattended, without first stopping the engine, locking the ignition, removing and taking possession of the ignition key and effectively setting the brakes thereon and when standing upon any grade without turning the front wheels of such vehicle to the curb or side of the street. The provisions of this section pertaining to the locking of the ignition and removing and taking possession of the ignition key do not apply to motor vehicles which are manufactured with an ignition system which does not have a key and is incapable of being locked.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958; 1954 ACS 54, p. 17, Eff. May 15, 1968.

R 28.1459 Sec. 5.59. Interference with driver's view or control.

No person shall drive a vehicle when it is so loaded, or when there are in the front seat such number of persons as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1460 Sec. 5.60. Position of passengers.

No passenger in a vehicle shall ride in such position as to interfere with the driver's view ahead or to the sides, or to interfere with his control over the driving mechanism of the vehicle.

History: 1954 ACS 13, p. 26, Eff. Feb. 14, 1958.

R 28.1461 Sec. 5.61. Restrictions on trucks and commercial vehicles upon use of streets.

When signs are erected giving notice thereof, no person shall operate, or stop, stand, or park any truck or commercial vehicle with a gross weight in excess of the amounts specified thereon at any time upon any of the streets or parts of streets on which such signs have been posted.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1462 Sec. 5.62. Driver's license required; motorcycle indorsement; change of residence.

(1) A person who is not licensed as an operator or chauffeur, as required by the act, shall not operate a motor vehicle on the streets or highways of this governmental unit.

(2) A person who operates a motorcycle or motor-driven cycle shall have a motorcycle indorsement on the operator's or chauffeur's license.

(3) An operator or chauffeur who changes his residence before the expiration of his license shall immediately take the license to the local examining board or to the secretary of state, where the new address and the date of the change shall be entered on the back of the license.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958; 1954 ACS 88, p. 27, Eff. Aug. 5, 1976.

R 28.1462a Sec. 5.62a. Unlicensed, suspended, revoked, or denied licenses or registrations; penalties.

(a) Any person whose operator's or chauffeur's license or registration certificate has been suspended or revoked or whose application for license has been denied, as provided under the act, or who has never applied for a license, and who shall drive any motor vehicle upon a highway or who shall knowingly permit any motor vehicle owned by such person to be operated by another upon a highway, except as permitted under the act, while such license or registration certificate is suspended or revoked, or whose application for license has been denied as provided under the act shall be punished, upon conviction, by imprisonment for a period not less than 3 days nor more than 90 days and there may be imposed in addition thereto a fine of not more than $100.00. Unless the vehicle was stolen or used with the permission of one who did not knowingly permit an unlicensed driver to operate the vehicle, the registration plates of the vehicle shall be confiscated.

(b) Before the plea of the person shall be accepted under this section, the arresting officer shall check with the department to determine the record and status of the person according to the department files and so inform the court.

(c) "Department" as used in this section means the division of driver and vehicle services created in the office of the secretary of state by the act, acting directly or through duly authorized agents and employees.

History: 1954 ACS 54, p. 17, Eff. May 15, 1968.

R 28.1463 Sec. 5.63. Possession; display.

Every driver shall have his operator's or chauffeur's license in his immediate possession at all times when driving a motor vehicle, and shall display the same upon demand of any police officer.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1463a Sec. 5.63a. License restrictions.

No person shall drive a motor vehicle in violation of the restrictions imposed on his license by the secretary of state.

History: 1954 ACS 54, p. 17, Eff. May 15, 1968.

R 28.1464 Sec. 5.64. Unlawful use of license.

It is unlawful for any person to display or cause or permit to be displayed or to have in possession any operator's or chauffeur's license knowing the same to be fictitious or to have been cancelled, revoked, suspended, or altered.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1465 Sec. 5.65. Lending or permitting.

It is unlawful for any person to lend to or knowingly permit use of, by one not entitled thereto, any operator's or chauffeur's license issued to the person so lending or permitting the use thereof.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1466 Sec. 5.66. Unlawful display or representation.

It is unlawful for any person to display or to represent as one's own any operator's or chauffeur's license not issued to the person so displaying the same.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1467 Sec. 5.67. Instruction permit.

It shall be unlawful for an operator holding an instruction permit to operate a motor vehicle unless accompanied by a licensed operator or chauffeur who is actually occupying a seat beside the driver.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1468 Sec. 5.68. Unlicensed driver; owner's permission.

No person shall knowingly authorize or permit a motor vehicle owned by him or under his control to be driven by any person who is unlicensed to drive such vehicle.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1469 Sec. 5.69. License plates required.

A person shall not operate or park on the streets of this governmental unit any vehicle which is required to be registered pursuant to the act, unless the vehicle bears valid registration plates issued for it.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958; 1954 ACS 88, p. 27, Eff. Aug. 5, 1976.

R 28.1470 Sec. 5.70. Registration certificate.

The certificate of registration shall at all times be carried in the vehicle to which it refers or shall be carried by the person driving or in control of such vehicle who shall display the same upon demand of a police officer.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1471 Sec. 5.71. Equipment.

No person shall drive or move and no owner shall cause or knowingly permit to be driven or moved on any street any vehicle or combination of vehicles which is in such unsafe condition as to endanger any person, or which does not contain those parts or is not at all times equipped with such lamps and other equipment in proper condition and adjustment as required by this ordinance, or which is equipped in any manner in violation of this ordinance.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1471a Sec. 5.71a. Equipment; exceptions.

The provisions of this ordinance or of the act with respect to equipment on vehicles shall not apply to implements of husbandry, road machinery, road rollers, or farm tractors except as made applicable by this ordinance or by the act.

History: 1954 ACS 54, p. 17, Eff. May 15, 1968.

R 28.1472 Sec. 5.72. Additional parts and accessories.

Nothing contained in this ordinance shall be construed to prohibit the use of additional parts and accessories on any vehicle not inconsistent with the provisions of this ordinance or the state laws of Michigan.

History: 1954 ACS 13, p. 27, Eff. Feb. 14, 1958.

R 28.1473 Sec. 5.73. Lights.

Every vehicle upon a street within this governmental unit shall be equipped with lights which shall be lighted in accordance with the provisions of the Michigan vehicle code, Act No. 300, Public Acts of 1949, as amended.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958.

R 28.1473a Sec. 5.73a. Dimming lights.

When the driver of a vehicle approaches an oncoming vehicle within 500 feet, the driver shall use a distribution of light or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver.

History: 1954 ACS 88, p. 27, Eff. Aug. 5, 1976.

R 28.1474 Sec. 5.74. Spot lamps.

Any motor vehicle may be equipped with not to exceed 2 spot lamps, except that a motorcycle shall not be equipped with more than 1 spot lamp, and every lighted spot lamp shall be so aimed and used upon approaching another vehicle that no part of the beam will be directed into the eyes of the approaching driver. Spot lamps may not emit other than either a white or amber light.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958.

R 28.1475 Sec. 5.75. Flashing lights prohibited.

No vehicles except those authorized by this ordinance or by the act shall display any flashing, oscillating, or rotating light.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958; 1954 ACS 54, p. 18, Eff. May 15, 1968.

R 28.1476 Sec. 5.76. Flashing red, blue, or amber lights authorized.

Flashing, oscillating, or rotating red, blue or amber lights may be used only as follows:

(a) By authorized emergency vehicles as provided by this ordinance. State, county or municipal vehicles engaged in snow removal or ice control operations shall be equipped with flashing, oscillating or rotating amber lights placed in such position on the vehicle as to be visible throughout 360 degrees.

(b) By public utility service vehicles, ambulances, authorized emergency vehicles, automobile service cars, and wreckers engaged in removing or assisting vehicles at the site of traffic accidents and government owned vehicles actually engaged in the maintenance or repair of the street.

(c) By school buses only when said school bus is stopped on the highway for the purpose of permitting schoolchildren to board or alight therefrom.

(d) By farm tractors only when operated on the highway after dark or when visibility is poor.

(e) By vehicles when used as turn signals on the rear which shall display only a flashing red or amber light, and by vehicles when used as turn signals on the front which shall display only a flashing amber or white light.

(f) A flashing red light may be mounted and used on any motor vehicle operated by rural letter carriers when actually engaged in delivering mail on their mail routes, but only when brakes are applied.

(g) Any vehicle may be equipped with lamps which may be used for the purpose of warning the operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking or passing, and when so equipped may display such warning in addition to any other warning signals required by law. The lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable, and shall display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. These warning lights shall be visible from a distance of not less than 500 feet under normal atmospheric conditions at night.

(h) Only authorized emergency vehicles operated as police vehicles which are publicly owned or maintained or, if privately owned, at least 50% of the annual total miles traveled by such vehicle shall be driven on official law enforcement business on behalf of the state or any governmental unit and for which reimbursement is made by the state or the governmental unit, shall be equipped with a flashing, oscillating or rotating blue light which when activated shall be visible under normal atmospheric conditions from a distance of 500 feet to the front of the vehicle.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958; 1954 ACS 25, p. 6, Eff. Feb. 14, 1981; 1954 ACS 54, p. 18, Eff. May 15, 1988.

R 28.1477 Sec. 5.77. Color of lights and reflectors on vehicles.

Any lights or reflectors on a vehicle except when otherwise authorized by this ordinance or Michigan state law shall, if visible from the front, display or reflect a white or amber light; if visible from either side, display or reflect an amber light; and if visible from the rear, display or reflect a red light.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958.

R 28.1477a Sec. 5.77a. Slow moving vehicle reflective devices.

When operated on the highway, every vehicle which has a maximum potential speed of 25 miles an hour, implement of husbandry, farm tractor or special mobile equipment shall be identified with a reflective device as follows:

(a) An equilateral triangle in shape, at least 16 inches wide at the base and at least 14 inches in height, with a dark red border, at least 1¾ inches wide of highly reflective beaded material.

(b) A center triangle, at least 12¼ inches on each side of yellow-orange fluorescent material.

(c) The device shall be mounted on the rear of the vehicle, broad base down, not less than 3 feet nor more than 5 feet above the ground and as near the center of the vehicle as possible. The use of this reflective device is restricted to use on slow moving vehicles specified in this section, and use of such reflective device on any other type of vehicle or stationary object on the highway is prohibited.

History: 1954 ACS 54, p. 18, Eff. May 15, 1988.

R 28.1478 Sec. 5.78. Turn signals.

No person shall sell or offer for sale or operate on any street any vehicle manufactured or assembled after January 1, 1955, except those exempted from certificate of title requirements under the provisions of the act, unless it is equipped with mechanical or electrical turn signals meeting the requirements of said act. This section shall not apply to any motorcycle or motor-driven cycle.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958; 1954 ACS 54, p. 19, Eff. May 15, 1988.

R 28.1478a Sec. 5.78a. Stop lamps.

No person shall sell or offer for sale or operate on the highways any vehicles manufactured or assembled after January 1, 1965, except those exempted from certificate of title requirements under the provisions of the act, unless it is equipped with 2 rear stop lamps, except on a motorcycle or a motor-driven cycle, meeting the requirements of the act. Any motorcycle or motor-driven cycle shall be required to have 1 rear stop lamp.

R 28.1479 Sec. 5.79. Brakes.

Brake equipment is required as follows:

(a) A motor vehicle, other than a motorcycle or motor-driven cycle, when operated on a street or highway, shall be equipped with brakes adequate to control the movement of, and to stop and hold, the vehicle, including 2 separate means of applying the brakes, each of which means shall be effective to apply the brakes to not less than 2 wheels. If these 2 separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any 1 part of the operating mechanism shall not leave the motor vehicle without brakes on not less than 2 wheels.

(b) A motorcycle or motor-driven cycle, when operated on a street or highway, shall be equipped with at least 2 brakes, 1 on the front wheel and 1 on the rear wheel, which may be operated by hand or foot.

(c) A trailer or semitrailer of a gross weight of 3,000 pounds or more, when operated on a street or highway, shall be equipped with brakes adequate to control the movement of, and to stop and hold, the vehicle, and shall be designed so as to be applied by the driver of the towing vehicle from its cab.

(d) A new motor vehicle, trailer, or semitrailer, hereafter sold in this state and operated on the streets or highways, shall be equipped with service brakes on all wheels of the vehicle, except a motorcycle or motor-driven cycle, and except that a semitrailer of less than 1,500 pounds gross weight need not be equipped with brakes. The provisions of this subdivision shall not apply to a trailer or semitrailer owned by a farmer and used exclusively in connection with the farming operations of the farmer and not used for hire. A truck or truck tractor which has 3 or more axles need not have brakes on the front wheels. A truck or truck tractor which is equipped with at least 2 steerable axles shall require brakes on 1 of the steerable axles.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958; 1954 ACS 54, p. 19, Eff. May 15, 1968; 1954 ACS 88, p. 27, Eff. Aug. 5, 1976.

R 28.1480 Sec. 5.80. Horns.

Every motor vehicle when operated upon a street shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than 200 feet, but no horn or other warning device shall emit an unreasonably loud or harsh sound or a whistle. The driver of a motor vehicle shall, when reasonably necessary to insure safe operation, give audible warning with his horn but shall not otherwise use such horn when upon a street.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958.

R 28.1480a Sec. 5.80a. Windshield required; exemptions; goggles required for operator of motorcycle or motor-driven cycle.

A motor vehicle shall not be operated on the streets or highways of this governmental unit unless it is equipped with a windshield of sufficient dimensions to protect the driver and occupants from insects, other airborne objects, and highway surface water and debris when the motor vehicle is moving forward. A farm tractor, other implements of husbandry, and historic vehicles as defined in section 803a of the act are exempt from this section. When a motorcycle or a motor-driven cycle operated on the streets and highways in excess of 35 miles an hour is not equipped with a windshield, the operator shall wear goggles with transparent lenses or a transparent face shield or eyeglasses, which goggles, eyeglasses, or face shield shall be shatter-resistant material and of sufficient size to

History: 1954 ACS 88, p. 28, Eff. Aug. 5, 1976.

R 28.1481 Sec. 5.81. Windshields; obstruction to view.

No person shall drive any motor vehicle with a window so damaged or with any sign, poster, or other nontransparent material upon the front windshield, side-wings, side or rear windows of such vehicle so as to obstruct the driver's clear view of the street or any intersecting street, or with any dangling ornament or other suspended object except as authorized by law which in any way obstructs the vision of the driver of the vehicle.

History: 1954 ACS 13, p. 28, Eff. Feb. 14, 1958; 1954 ACS 25, p. 6, Eff. Feb. 14, 1961.

R 28.1482 Sec. 5.82. Windshield wipers.

The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle. Every windshield wiper upon a motor vehicle shall be maintained in good working order.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958.

R 28.1483 Sec. 5.83. Windshield defrosters; commercial vehicles.

No commercial vehicle licensed as such, shall be operated on any street at any time between December 15 and March 15, both dates inclusive, unless it is equipped with a hot air windshield defroster or an electrically heated windshield or such other scientific method that may be devised so long as same is heated and maintained in operable condition at all times.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958.

R 28.1484 Sec. 5.84. Windshield washers.

No motor vehicle licensed as such, and manufactured after January 1, 1956, shall be operated on the highways unless it is equipped with a windshield washer maintained in operable condition at all times and capable of cleaning the windshield in such a fashion as to leave the driver with a clear view of the street or any intersecting street.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958.

R 28.1485 Sec. 5.85. Metal and plastic track and tire studs.

No vehicle nor special mobile equipment shall be operated on the public highways on metal or plastic track or on tires which are equipped with metal that comes in contact with the surface of the road or which have a partial contact of metal or plastic with the surface of the road, except as provided in subsections (b) and (c) of section 5.86 of this ordinance.

History: 1954 ACS, 13, p. 29, Eff. Feb. 14, 1958; 1954 ACS 54, p. 20, Eff. May 15, 1968.

R 28.1486 Sec. 5.86. Tire studs.

(1) A tire on a vehicle moved on a highway shall not have on its periphery a block, stud, flange, cleat, spike, or other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it shall be permissible to use farm machinery with tires having protuberances which will not injure the highways, *and except that it* shall be permissible to use

tire chains of reasonable proportions upon a vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid, and except also as provided in subsection (2).

(2) A pneumatic tire may have embedded in it wire not to exceed .075 inches in diameter if so constructed that under no conditions shall the percent of metal in contact with the highway exceed 5% of the total tire area in contact with the roadway, except that during the first 1,000 miles of use of operation of the tire, the metal in contact with the highway shall not exceed 20% of the area.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958; 1954 ACS 54, p. 20, Eff. May 15, 1968; 1954 ACS 88, p. 28, Eff. Aug. 5, 1976.

R 28.1486a Sec. 5.86a. Regrooved tires prohibited; exceptions.

No person shall regroove or recut motor vehicle or motorcycle tires or knowingly sell, offer or expose for sale or have in his possession with intent to sell any motor vehicle or motorcycle tire or any motor vehicle or motorcycle equipped with 1 or more tires which have been recut or regrooved, except that there shall be no prohibition against the regrooving or recutting of commercial vehicle tires or the sale of regrooved or recut commercial vehicle tires or commercial vehicles equipped with such commercial vehicle tires which are designed and constructed in such a manner that regrooving or recutting is an acceptable and safe practice.

History: 1954 ACS 54, p. 20, Eff. May 15, 1968.

R 28.1487 Sec. 5.87. View to rear; mirrors.

(a) No person shall drive a motor vehicle on a highway which motor vehicle is so constructed or loaded as to prevent the driver from obtaining a view of the highway to the rear by looking backward from the driver's position, unless such vehicle is equipped with a mirror so located as to reflect to the driver a view of the highway to the rear of such vehicle.

(b) Every commercial vehicle of ½ ton capacity or more, operating upon the public highways shall be equipped with 2 mirrors, 1 on each side, so adjusted that the operator shall have a clear view of the highway behind such commercial vehicle.

(c) In addition all motor vehicles shall be equipped with an outside rearview mirror on the driver's side which shall be positioned to give the driver a rearviewing angle from the driver's side of the vehicle.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958; 1954 ACS 54, p. 21, Eff. May 15, 1968.

R 28.1488 Sec. 5.88. Commercial vehicle; mud flaps.

Every commercial vehicle, except truck tractors traversing between terminals at a speed not to exceed 25 miles per hour, and every combination of a commercial vehicle and trailer or semitrailer when used on a street shall be so constructed or equipped, or so operated, as to bar water or other road surface substances thrown from the rear wheels of such vehicle or combination at tangents exceeding 22½ degrees measured from the road surface. If flap type device is used, it shall not have attached any type of lamp, reflective material or reflecting buttons; nor can device extend beyond the 96-inch maximum width of vehicle.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958; 1954 ACS 25, p. 6, Eff. Feb. 14, 1961.
Editor's note: R 28.1488 was erroneously numbered R 28.1485 in the 1960 AACS.

R 28.1489 Sec. 5.89. Lamp or flag on projecting load.

Whenever the load upon any vehicle extends to the rear 4 feet or more beyond the bed or body of such vehicle there shall be displayed at the extreme rear end of

the load, during the hours between ½ hour after sunset and ½ hour before sunrise, and at any other time when there is not sufficient light to render clearly discernible persons and vehicles on the highway at a distance of 500 feet ahead, a red light or lantern plainly visible from a distance of at least 500 feet to the sides and rear. The red light or lantern required under this section shall be in addition to the red rear light required upon every vehicle. At any other time there shall be displayed at the extreme rear end of such load a red flag or cloth not less than 12 inches square and so hung that the entire area is visible to the driver of a vehicle approaching from the rear.

History: 1954 ACS 13, p. 29, Eff. Feb. 14, 1958.

R 28.1490 Sec. 5.90. Mufflers.

A motor vehicle, including every motorcycle or motor-driven cycle, shall at all times be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise. A person shall not remove, destroy, or damage the baffles contained in the muffler, nor shall a person use a muffler cutout, bypass, or similar device on a motorcycle or motor-driven cycle on any street or highway.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958; 1954 ACS 88, p. 28, Eff. Aug. 5, 1976.

R 28.1490a Sec. 5.90a. Unnecessary noise.

No person shall operate a motor vehicle with unnecessary noise or start, move or turn a motor vehicle, or apply the brakes or the power on a motor vehicle, or in any manner operate it so as to cause the tires to squeal or the tires or vehicle to make any noise not usually connected with the operation of the motor vehicle, except in case of an emergency.

History: 1954 ACS 54, p. 21, Eff. May 15, 1968.

R 28.1491 Sec. 5.91. Excessive fumes or smoke.

The engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1492 Sec. 5.92. Device for causing flame or smoke from motor vehicle.

No person shall install, sell, or distribute any device for the purpose of causing flame or smoke to be emitted from a motor vehicle except highway maintenance vehicles, and no person shall use any such device on a motor vehicle not so excepted.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1493 Sec. 5.93. Display on vehicle of official designation.

No owner shall display upon any part of his vehicle or knowingly permit the display thereon of any official designation, sign, or insignia of any public or quasi-public corporation, municipal, state or national department or government subdivision without authority of such agency.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1494 Sec. 5.94. Television set; placement in motor vehicle.

No person shall drive any motor vehicle equipped with any television viewer, screen or other means of visually receiving a television broadcast which is located in the motor vehicle at any point forward of the back of the driver's seat or which is visible to the driver while operating the motor vehicle.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1495 Sec. 5.95. Size, weight, and load.

No person shall drive or move or cause or knowingly permit to be driven or moved on any street any vehicle or vehicles of width, height, length or weight in excess of the limitations governing size and weight restrictions specified in the Michigan vehicle code, Act No. 300, Public Acts of 1949, as amended.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1496 Sec. 5.96. Merchandising within highway rights-of-way.

No person, firm, or corporation shall sell or offer for sale, or display or attempt to display for sale, any goods, wares, produce, fruit, vegetables, or merchandise within the right-of-way of any highway except as provided in subsection (d) of section 8.14 of this ordinance. This section shall not be construed to interfere with any permanently established business presently located on or partially on private property, nor to grant to the owner any additional rights or authority that the owner may not now possess, nor to diminish the legal rights or duties of the authority having jurisdiction of the right-of-way.

History: 1954 ACS 54, p. 21, Eff. May 15, 1968.

R 28.1497 Sec. 5.97. School buses; paint; signs; overtaking, meeting, or passing; discharge of passengers; signal lights; mirrors; evidence of violation.

(1) School buses shall be painted and shall contain such signs on the back and front thereof, with respect thereto, as shall be approved by the director of the department of state highways and transportation and the superintendent of public instruction.

(2) The driver of a vehicle overtaking or meeting a school bus, which has stopped and is displaying 2 alternately flashing red lights located at the same level, shall bring the vehicle to a full stop at least 10 feet from the school bus, and shall not proceed until the school bus resumes motion or the visual signals are no longer actuated. The driver of the school bus, before resuming motion, shall deactivate flashing lights and permit stopped traffic to proceed and shall, when resuming motion, proceed in such a manner as to allow congested traffic to disperse by keeping the bus as near to the right side of the road as can be done with safety. Passengers crossing the road on being discharged from a school bus shall cross in front of the stopped school bus. At an intersection where traffic is controlled by an officer or a traffic stop-and-go signal, a vehicle need not be brought to a full stop before passing a stopped school bus, but may proceed past the school bus at a speed not greater than is reasonable and proper, and in no event greater than 10 miles an hour, and with due caution for the safety of passengers being received or discharged from the school bus.

(3) Signs giving notice of this ordinance shall be posted upon, or at the entrance to, the area or part thereof affected as may be most appropriate, and shall be sufficiently legible as to be seen by an ordinarily observant person.

(4) The driver of a vehicle upon a highway which has been divided into 2 roadways by leaving an intervening space, or by a physical barrier or clearly indicated dividing sections so constructed as to impede vehicular traffic, need not stop upon meeting a school bus which has stopped across the dividing space, barrier, or section.

(5) Every school bus shall, in addition to any other equipment and distinctive marking required by law, be equipped with signal lights mounted as high and widely spaced laterally as practicable. These lights shall be capable of displaying to the front 2 alternately flashing red lights located at the same level and to the *rear* 2 alternately flashing red lights located at the same level. The lights shall have

sufficient intensity to be visible from a distance of at least 500 feet in normal sunlight and shall be actuated by the driver of the school bus whenever, but only whenever, the vehicle is stopped and for a distance of at least 200 feet in advance of a stop for the purpose of receiving or discharging schoolchildren.

(6) Every school bus shall be equipped with a mirror, convex in shape, at least 7¼ inches in diameter, firmly mounted at hood or fender-top height in front of the bus. It shall be located on either the left or right side of the bus in such a manner that the seated driver may observe through its use the road from the front bumper forward to the point where direct observation is possible.

(7) In any proceeding for a violation of subsection (1), proof that the particular vehicle described in the citation, complaint, or warrant was in violation of subsection (1), together with proof that the defendant named in the citation, complaint, or warrant was, at the time of the violation, the registered owner of the vehicle, shall constitute in evidence a presumption that the registered owner of the vehicle was the driver of the vehicle at the time of the violation.

R 28.1498 Sec. 5.98. Opening vehicle doors so as to impede traffic.

No person shall open a door of a vehicle in such a manner as to interfere with or impede the flow of traffic.

History: 1954 ACS 54, p. 22, Eff. May 15, 1968.

R 28.1498a Sec. 5.98a. Barricade, object, device, or person impeding traffic.

A person, without authority, shall not block, obstruct, impede, or otherwise interfere with the normal flow of vehicular or pedestrian traffic on a public street or highway by means of a barricade, object, or device, or with his person. This section shall not apply to persons maintaining, rearranging, or constructing public utilities in, or adjacent to, a street or highway.

History: 1954 ACS 88, p. 29, Eff. Aug. 5, 1976.

R 28.1499 Sec. 5.99. Towed vehicles.

(a) No passenger vehicle shall be driven upon any highway drawing or having attached thereto more than 1 vehicle or trailer.

(b) The draw bar or other connection between any 2 vehicles, 1 of which is towing or drawing the other on a highway, shall not exceed 15 feet in length from 1 vehicle to the other. Whenever such connection consists of a chain, rope or cable, there shall be displayed upon such connection a red flag or other signal or cloth not less than 12 inches both in length and width.

(c) Every vehicle or trailer drawn by any motor-propelled vehicle shall be so attached to such vehicle with such forms of coupling devices as will prevent such vehicle or trailer from being deflected more than 6 inches from the path of the towing vehicle's wheels. Such vehicle or trailer shall also be connected to the towing vehicle, by suitable safety chains or devices, 1 on each side of the coupling and at the extreme outer edge of the vehicle and each such chain or device and connection so used shall be of sufficient strength to haul the trailer when loaded.

driver of a vehicle under this ordinance except as to those provisions which by their nature can have no application.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958; 1954 ACS 54, p. 22, Eff. May 15, 1968.

R 28.1602 Sec. 6.2. Supplementary provisions.

The provisions of this chapter applicable to motorcycles and motor-driven cycles shall be considered supplementary to other provisions of this ordinance governing the operation of such vehicles.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958; 1954 ACS 54, p. 22, Eff. May 15, 1968.

R 28.1603 Sec. 6.3. Bicycles; ordinances applicable.

The provisions of this ordinance applicable to bicycles shall apply whenever a bicycle is operated upon any street or upon any public path set aside for the exclusive use of bicycles, subject to those exceptions stated herein.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1604 Sec. 6.4. Riders to obey traffic laws.

Every person riding a bicycle upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by the state laws of Michigan declaring rules of the road applicable to vehicles or by the traffic ordinances of this governmental unit applicable to the driver of a vehicle, except as to special regulations in this chapter and except as to those provisions of laws and ordinances which by their nature can have no application.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1605 Sec. 6.5. Bicycle dealers.

Every person engaged in the business of buying or selling new or second-hand bicycles shall make a report to the chief of police of every bicycle purchased or sold by such dealer, giving the name and address of the person from whom purchased or to whom sold, a description of such bicycle by name or make, the frame number thereof, and the number of license plate, if any, found thereon.

History: 1954 ACS 13, p. 30, Eff. Feb. 14, 1958.

R 28.1606 Sec. 6.6. Obedience to traffic-control devices.

Any person operating a bicycle shall obey the instructions of official traffic-control signals, signs, and other control devices applicable to vehicles, unless otherwise directed by a police officer.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1607 Sec. 6.7. Exceptions.

Whenever authorized signs are erected indicating that no right or left or U-turn is permitted, no person operating a bicycle shall disobey the direction of any such sign, except where such person dismounts from the bicycle to make any such turn, in which event such person shall then obey the regulations applicable to pedestrians.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1608 Sec. 6.8. Number of persons, and manner of carrying persons, on motorcycles and motor-driven cycles.

(1) A person operating a motorcycle shall ride on and astride the permanent *and regular seat* attached to the vehicle, and shall not carry another person, nor

permit another person to ride, on the motorcycle as a passenger unless it is designed and equipped to carry more than 1 person. If the motorcycle is so designed and equipped, the passenger may ride on the permanent and regular seat if it is designed for 2 persons, or on another seat firmly attached to the vehicle to the rear or side of the operator.

(2) A person operating a motor-driven cycle shall ride on and astride the permanent and regular seat attached to the vehicle, and shall not carry another person as a passenger on the motor-driven cycle.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958; 1954 ACS 54, p. 22, Eff. May 15, 1968; 1954 ACS 88, p. 29, Eff. Aug. 5, 1976.

R 28.1609 Sec. 6.9. Number and manner of carrying persons; bicycles.

A person propelling a bicycle shall not ride other than astride a permanent and regular seat attached thereto, and such person shall not carry more persons at one time than the number for which it is designed and equipped.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1610 Sec. 6.10. Riding on roadways and bicycle paths.

(a) Every person operating a bicycle, motorcycle or motor-driven cycle upon a roadway shall ride as near to the right-hand side of the roadway as practicable, exercising due care when passing a standing vehicle or 1 proceeding in the same direction.

(b) No person operating a motor-driven cycle, a motorcycle or a bicycle shall pass between lines of traffic, but may pass on the left of traffic moving in his direction in the case of a 2-way street, or on the left or right of traffic in the case of a 1-way street, in an unoccupied lane.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958; 1954 ACS 54, p. 23, Eff. May 15, 1968.

R 28.1611 Sec. 6.11. Riding 2 abreast; exceptions.

Every person operating a bicycle, motorcycle or motor-driven cycle upon a roadway shall not ride more than 2 abreast except on paths or parts of roadways set aside for the exclusive use of such vehicles.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958; 1954 ACS 54, p. 23, Eff. May 15, 1968.

R 28.1612 Sec. 6.12. Use of paths when provided.

Whenever a usable path for bicycles has been provided adjacent to a roadway bicycle riders shall use such path and shall not use the roadway.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1613 Sec. 6.13. Clinging to other vehicles.

No person riding upon any bicycle, motorcycle, coasters, roller skates, sled, or toy vehicle shall attach the same or himself to any vehicle upon a roadway.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1614 Sec. 6.14. Speed.

No person shall operate a bicycle at a speed greater than is reasonable and prudent under the conditions then existing.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1615 Sec. 6.15. Emerging from alley or driveway.

The operator of a bicycle emerging from an alley, driveway, or building, shall upon approaching a sidewalk or *the sidewalk area* extending across any alleyway,

yield the right-of-way to all pedestrians approaching on said sidewalk or sidewalk area, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958.

R 28.1616 Sec. 6.16. Carrying articles; height of handlebars.

(1) A person operating a bicycle, motorcycle, or motor-driven cycle shall not carry a package, bundle, or article which prevents the driver from keeping both hands on the handlebars of the vehicle.

(2) A person shall not operate on a street or highway of this governmental unit a motorcycle or motor-driven cycle equipped with handlebars that are higher than 15 inches from the lowest point of the undepressed saddle to the highest point on the handlegrip of the operator.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958; 1954 ACS 54, p. 23, Eff. May 15, 1968; 1954 ACS 88, p. 29, Eff. Aug. 5, 1976.

R 28.1617 Sec. 6.17. Parking on sidewalk.

A person shall not park a bicycle on a sidewalk where bicycle parking is prohibited by official traffic-control devices, nor on a sidewalk, in any manner which would unreasonably obstruct pedestrian or other traffic.

History: 1954 ACS 13, p. 31, Eff. Feb. 14, 1958; 1954 ACS 88, p. 29, Eff. Aug. 5, 1976.

R 28.1617a Sec. 6.17a. Parking on roadway.

(1) Notwithstanding the provisions of chapter 8 of this code, and unless prohibited or restricted by traffic-control devices, a bicycle may be parked:

(a) On the roadway at an angle to the curb or edge of the roadway at any location where the parking of vehicles is allowed.

(b) On the roadway abreast of another bicycle near the side of the roadway at any location where the parking of vehicles is allowed.

(2) In all other respects, a bicycle parked anywhere on a street shall conform with the provisions of chapter 8 regulating the parking of vehicles.

History: 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1618 Sec. 6.18. Obedience to sign.

When a sign is erected on a sidewalk which prohibits the riding of bicycles thereon by any person, a person shall not disobey the sign.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958; 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1619 Sec. 6.19. Riding on sidewalks; right-of-way.

Whenever any person is riding a bicycle upon a sidewalk, such person shall yield the right-of-way to any pedestrian and shall give audible signal before overtaking and passing such pedestrian.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1620 Sec. 6.20. Bicycle; lights; red reflector.

Every bicycle when in use at nighttime shall be equipped with a lamp on the front which shall emit a white light visible from a distance of at least 500 feet to the front and with a red reflector on the rear which shall be visible from all distances from 50 feet to 300 feet to the rear when directly in front of lawful upper beams of head lamps on a motor vehicle. A lamp emitting a red light visible from a distance of 500 feet to the rear may be used in addition to the red reflector.

R 28.1621 Sec. 6.21. Bicycle; bell; siren; whistle.

No person shall operate a bicycle unless it is equipped with a bell or other device capable of giving a signal audible for a distance of at least 100 feet, except that such vehicle shall not be equipped with nor shall any person use upon such vehicles any siren or whistle.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1622 Sec. 6.22. Bicycle; brake.

Every bicycle shall be equipped with a brake which will enable the operator to make the braked wheels skid on dry, level, clean pavement.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1623 Sec. 6.23. Protective helmet required.

A person operating or riding on a motorcycle or motor-driven cycle on a public thoroughfare shall wear on his head a protective helmet of a type approved by the department of state police.

History: 1954 ACS 54, p. 23, Eff. May 15, 1968; 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1623a Sec. 6.23a. Protective helmet standards; label.

Protective helmets required by section 6.23, which are sold or offered for sale in this governmental unit, shall meet or exceed the state police standards and shall be clearly labeled as meeting those requirements.

History: 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1624 Sec. 6.24. Dealers; leasing motorcycles or motor-driven cycles to unlicensed operators.

A dealer shall not rent, lease, or furnish a motorcycle or motor-driven cycle to a person for use on the streets and highways who is not licensed to operate a motorcycle or motor-driven cycle by this state, if a resident, or by the state of which he is a resident, if a nonresident.

History: 1954 ACS 54, p. 23, Eff. May 15, 1968; 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1625 Sec. 6.25. Subleasing motorcycles or motor-driven cycles to unlicensed operators.

It shall be unlawful for a person to whom a motorcycle or motor-driven cycle is rented, leased or furnished, to rent, sublease or otherwise authorize the use of the motorcycle or motor-driven cycle on public streets and highways to any person who is not licensed to operate a vehicle in this state.

History: 1954 ACS 54, p. 23, Eff. May 15, 1968.

R 28.1626 Sec. 6.26. Dealers; safe operation of motorcycles or motor-driven cycles.

The dealer shall maintain in safe operating condition all motorcycles and motor-driven cycles rented, leased or furnished by him. The dealer, his agents or employees shall explain the operation of the motorcycle or motor-driven cycle being rented, leased or furnished and if such dealer, his agent or employee believes the person to whom the motorcycle or motor-driven cycle is to be rented, leased or furnished is not competent to operate such motorcycle or motor-driven cycle with competency to himself and to the safety of persons or vehicles on public streets and highways, he shall refuse to rent, lease or furnish the same.

History: 1954 ACS 54, p. 23, Eff. May 15, 1968.

R 28.1627 Sec. 6.27. Dealers; motor vehicle liability policies.

Any dealer renting, leasing or furnishing any motorcycle or motor-driven cycle shall carry a "motor vehicle liability policy" of the same type and coverage as that outlined in section 520 of the act for each motorcycle or motor-driven cycle so rented, leased or furnished or, in the alternative, demand and be shown proof that the person renting, leasing or being furnished a motorcycle or motor-driven cycle carries a motor vehicle liability policy of at least the type and coverage as specified in section 520 of the act.

History: 1954 ACS 54, p. 23, Eff. May 15, 1968.

CHAPTER 7—PEDESTRIANS' RIGHTS AND DUTIES

R 28.1701 Sec. 7.1. Pedestrians subject to traffic-control signals.

Pedestrians shall be subject to traffic-control signals at intersections as provided for in chapter 4 of this ordinance, and at all other places pedestrians shall be accorded the privileges and shall be subject to the restrictions stated in this chapter.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1702 Sec. 7.2. Pedestrians' right-of-way in crosswalk.

When traffic-control signals are not in place or not in operation the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling, or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger, but no pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle, which is so close that it is impossible for the driver to yield.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1703 Sec. 7.3. Passing stopped vehicle at intersection.

Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1704 Rescinded.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958; rescinded 1954 ACS 88, p. 16, Eff. Aug. 5, 1976.

R 28.1705 Sec. 7.5. Crossing roadway at right angles.

No pedestrian shall, except in a marked crosswalk, cross a roadway at any other place than by a route at right angles to the curb or by the shortest route to the opposite curb.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1706 Sec. 7.6. When pedestrian shall yield.

Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

History: 1954 ACS 13, p. 32, Eff. Feb. 14, 1958.

R 28.1707 Sec. 7.7. Where tunnel or overhead crossing provided.

Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway; provided, that signs prohibiting the crossing of the roadway by pedestrians at such point are in place.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1708 Sec. 7.8. Emergency vehicles.

A pedestrian shall yield the right-of-way to an authorized emergency vehicle under the conditions prescribed in section 5.1.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1709 Sec. 7.9. Prohibited crossing.

Between adjacent intersections at which traffic-control signals are in operation, pedestrians shall not cross the roadway except in a marked crosswalk.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1710 Sec. 7.10. Business district.

No pedestrian shall cross a roadway other than in a crosswalk in any business district.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1711 Sec. 7.11. Obedience of pedestrians to bridge and railroad barriers.

No pedestrians shall pass through, around, over, or under any crossing gate or barrier at a railroad grade crossing or bridge while such gate or barrier is closed or is being opened or closed.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1712 Sec. 7.12. Pedestrians on streets.

Where sidewalks are provided, it shall be unlawful for pedestrians to walk upon the roadway. Where sidewalks are not provided, pedestrians shall, when practicable, walk on the left side of the street or highway facing traffic which passes nearest.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1713 Sec. 7.13. Pedestrians soliciting rides or business.

No person shall stand in a roadway for the purpose of soliciting a ride, employment, or business from the occupant of any vehicle.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1714 Sec. 7.14. Pedestrians soliciting business.

No person shall stand on or in proximity to a street or highway for the purpose of soliciting the watching or guarding of any vehicle while parked or about to be parked on a street or highway.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1715 Sec. 7.15. Blind pedestrians carrying cane or guided by dog.

Any driver of a vehicle who approaches within 10 feet of a person wholly or partially blind, carrying a cane or walking stick which is white or white tipped with red, or being led by a guide dog wearing a harness and walking on either side of or slightly in front of said blind *person, shall* immediately come to a full stop

and take such precautions before proceeding as may be necessary to avoid accident or injury to the person wholly or partially blind.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1716 Sec. 7.16. Drivers to exercise due care.

Notwithstanding the foregoing provisions of this chapter every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any confused or incapacitated person upon a roadway.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

CHAPTER 8—STOPPING, STANDING, AND PARKING

R 28.1801 Sec. 8.1. Standing or parking close to curb.

No person shall stand or park a vehicle in a roadway other than parallel with the edge of the roadway headed in the direction of lawful traffic movement and with the right-hand wheels of the vehicle within 12 inches of the curb or edge of the roadway except as otherwise provided in this chapter.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1802 Sec. 8.2. One-way streets.

Vehicles may park with the left-hand wheels adjacent to and within 12 inches of the left-hand curb of properly signed 1-way streets.

History: 1954 ACS 13, p. 33, Eff. Feb. 14, 1958.

R 28.1803 Sec. 8.3. Obedience to angle parking signs or markings.

Upon those streets which have been signed, or marked for angle parking, no person shall stop, stand or park a vehicle other than at the angle to the curb or edge of the roadway indicated by such signs or markings.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1804 Sec. 8.4. Permit for loading or unloading at an angle to the curb.

It shall be unlawful for any permittee or any other person to violate any of the special terms or conditions of any special permit issued by the clerk, to permit the backing of a vehicle to the curb for the purpose of loading or unloading.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1805 Sec. 8.5. Parking not to obstruct traffic.

No person shall park any vehicle upon a street, in such a manner or under such conditions as to leave available insufficient width of the roadway for free movement of vehicular traffic.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1806 Sec. 8.6. Vehicle starting from parked position.

A vehicle starting from a parked position shall give moving vehicles the right-of-way and the operator of such vehicle shall give a timely and visible warning signal before so starting.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1807 Sec. 8.7. Angle parking.

A vehicle parked at an angle to the curb and about to start shall give moving vehicles the right-of-way and the operator thereof shall not back such vehicle from the curb into the moving lane of traffic unless such maneuver can be made in safety and without conflict with moving vehicles.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1808 Sec. 8.8. Lights on parked vehicles.

Whenever a vehicle is lawfully parked on a street and there is sufficient natural or artificial light to reveal any person within a distance of 500 feet upon such street, no lights need be displayed upon such parked vehicle.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1809 Sec. 8.9. Headlights dimmed or depressed.

Any lighted headlights upon a parked vehicle shall be depressed or dimmed.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958.

R 28.1810 Sec. 8.10. Stopping, standing, and parking; prohibited places and manner.

No person shall stop, stand, or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with law or the directions of a police officer or traffic-control device, in any of the following places:

(a) On a sidewalk.

(b) In front of a public or private driveway.

(c) Within an intersection.

(d) Within 15 feet of a fire hydrant.

(e) On a crosswalk.

(f) Within 20 feet of a crosswalk or, if none, then within 15 feet of the intersection of property lines at an intersection of streets.

(g) Within 30 feet upon the approach to any flashing beacon, stop sign, yield sign or traffic-control signal located at the side of a street.

(h) Between a safety zone and the adjacent curb or within 30 feet of points on the curb immediately opposite the ends of a safety zone, unless a different length is indicated by signs or markings.

(i) Within 50 feet of the nearest rail of a railroad crossing.

(j) Within 20 feet of the driveway entrance to any fire station and on the side of a street opposite the entrance to any fire station within 75 feet of said entrance when properly signposted.

(k) Alongside or opposite any street excavation or obstruction when such stopping, standing, or parking would obstruct traffic.

(l) On the street side of any vehicle stopped or parked at the edge or curb of a street.

(m) Upon any bridge or other elevated structure upon a street or within a street tunnel.

(n) Within 200 feet of an accident at which police officers are in attendance.

(o) In front of any theater.

(p) In any place or in any manner so as to block immediate egress from any emergency exit or exits conspicuously marked as such of buildings.

(q) In any place or in any manner so as to block or hamper the immediate use of an immediate egress from any fire escape conspicuously marked as such providing an emergency means of egress from any building.

(r) At any place where official signs prohibit stopping, standing or parking.

History: 1954 ACS 13, p. 34, Eff. Feb. 14, 1958; 1954 ACS 54, p. 23, Eff. May 15, 1968.

R 28.1811 Sec. 8.11. Motor buses; stopping.

Motor buses, for the purpose of taking on or discharging passengers, may be stopped at the places designated in subparagraphs (b), (d), and (f) of section 8.10, or on the street side of a vehicle illegally parked in a legally designated bus loading zone.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1812 Sec. 8.12. Moving parked vehicle.

No person shall move a vehicle not lawfully under his control into any prohibited parking area or away from a curb such distance as is unlawful.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1813 Sec. 8.13. Parking in alleys.

No person shall park a vehicle in an alley, except when authorized by official signs, nor shall any person stop or stand a vehicle in any alley except while actually in the process of loading or unloading such vehicle.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1814 Sec. 8.14. Parking for certain purposes prohibited.

No person shall park a vehicle upon any street for the principal purpose of:

(a) Displaying such vehicle for sale;

(b) Washing, polishing, greasing, or repairing such vehicle, except repairs necessitated by an emergency;

(c) Displaying advertising;

(d) Selling merchandise from such vehicle except in a duly established marketplace, or when so authorized or licensed under the ordinances of this governmental unit;

(e) Storage for more than 48 continuous hours.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1815 Sec. 8.15. Standing or parking on 1-way roadways.

In the event a street includes 2 or more separate roadways and traffic is restricted to 1 direction upon any such roadway, no person shall stand or park a vehicle upon the left-hand side of such 1-way roadway unless signs are erected to permit such standing or parking.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1816 Sec. 8.16. Standing in passenger curb loading zone.

No person shall stop, stand, or park a vehicle for any purpose or period of time except for the expeditious loading or unloading of passengers in any place marked as a passenger curb loading zone during hours when the regulations applicable to such passenger curb loading zone are effective, and then only for a period not to exceed 5 minutes.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1817 Sec. 8.17. Standing in freight curb loading zone.

No person shall stop, stand, or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pick-up and loading of materials in any place marked as a freight curb loading zone during hours when the provisions applicable to such zones are in effect.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1818 Sec. 8.18. Driver may stop temporarily.

The driver of a vehicle may stop temporarily at a place marked as a freight curb loading zone for the purpose of and while actually engaged in loading or unloading passengers, when such stopping does not interfere with any motor vehicle used for the transportation of materials which is waiting to enter or about to enter such zone.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1819 Sec. 8.19. Stopping, standing, or parking of buses and taxicabs regulated.

The operator of a bus or taxicab shall not stop, stand, or park upon any street in any business district at any place other than at a bus stop, or taxicab stand, respectively, except that this provision shall not prevent the operator of any such vehicle from temporarily stopping in accordance with other stopping, standing, or parking regulations at any place for the purpose of and while engaged in the expeditious unloading or loading of passengers.

History: 1954 ACS 13, p. 35, Eff. Feb. 14, 1958.

R 28.1820 Sec. 8.20. Restricted use of bus and taxicab stands.

No person shall stop, stand, or park a vehicle other than a bus in a bus stop, or other than a taxicab in a taxicab stand when such stop or stand has been officially designated and appropriately signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while actually engaged in the expeditious loading or unloading of passengers when such stopping does not interfere with any bus or taxicab waiting to enter or about to enter such zone.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1821 Sec. 8.21. Metered parking zones.

When parking meters are erected adjacent to a space marked for parking, such space shall be a metered parking zone and no person shall stop a vehicle in any such zone for a period of time longer than designated on said parking meters upon the deposit of a coin of United States currency of the denomination designated on said meters on the days and during the time said regulations are in force as designated on said meters.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1822 Sec. 8.22. Drivers to park within spaces.

Every vehicle shall be parked wholly within the metered parking space for which the meter shows parking privilege has been granted, except that a vehicle which is of a size too large to be parked within a single designated parking meter zone shall be permitted to occupy 2 adjoining parking meter spaces when coins shall have been deposited in the parking meter for each space so occupied as is required in this ordinance for the parking of other vehicles in such space.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1823 Sec. 8.23. Prima facie evidence; parking violators.

In any proceeding for a violation of this ordinance relating to the standing, or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of any such law or regulation, together with proof that the defendant named in the complaint was at the time of such parking the registered owner of such vehicle, shall constitute in evidence a presumption that the

registered owner of such vehicle was the person who parked or placed such vehicle at the point where, and for the time during which, such violation occurred.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1823a Sec. 8.23a. Unlawful standing or parking of vehicle; warrant for arrest; proof establishing probable cause; presumption.

Except as provided in section 8.23b involving leased vehicles, in any proceeding relating to arrest and prosecution for the violation of a local ordinance or state statute relating to the standing or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of the ordinance or state statute, together with proof, by verifying ownership of the vehicle with the secretary of state, that the defendant named in the complaint was at the time of the parking the registered owner of the vehicle, shall be accepted by the court as establishing probable cause for the issuance of a warrant for the arrest of the registered owner, and creates in evidence a presumption that the registered owner of the vehicle was the person who parked or placed the vehicle at the point where, and for the time during which, the violation occurred.

History: 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1823b Sec. 8.23b. Unlawful standing or parking of leased vehicle; presumption.

In a proceeding for a violation of section 8.23a involving a leased motor vehicle, proof that the particular vehicle described in the citation, complaint, or warrant was used in the violation, together with proof that the defendant named in the citation, complaint, or warrant was the lessee of the vehicle at the time of the violation, constitutes in evidence a presumption that the lessee of the vehicle, not the registered owner, was the person who parked or placed the vehicle at the point, and for the time during which, the violation occurred.

History: 1954 ACS 88, p. 30, Eff. Aug. 5, 1976.

R 28.1824 Sec. 8.24. Parking signs required.

Whenever by this or any other ordinance of this governmental unit any parking time limit is imposed or parking is prohibited on designated streets, no such regulations shall be effective unless appropriate signs giving notice thereof are erected and in place at the time of any alleged offense; except that no such signs need be erected to make effective ordinances regulating the stopping, standing, or parking of vehicles when these ordinances do not differ from the provisions of Act No. 300, Public Acts of 1949, as amended.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

CHAPTER 9—MISCELLANEOUS

R 28.1901 Sec. 9.1. Short title.

This ordinance shall be known and cited as the traffic ordinance.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1902 Sec. 9.2. Effect of ordinance; severability.

If any part or parts of this ordinance are for any reason held to be invalid or unconstitutional, such decision shall not affect the validity or constitutionality of the remaining portions of this ordinance. The ordinance-making body hereby *declares* that it would have passed this ordinance and each part or parts thereof,

irrespective of the fact that any one part or parts be declared invalid or unconstitutional.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1903 Sec. 9.3. Penalties.

Unless another penalty is expressly provided by the ordinances of this governmental unit, every person convicted of a violation of any provision of this ordinance shall be punished by a fine of not more than $100.00 or by imprisonment for not more than 90 days or by both such fine and imprisonment.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1904 Sec. 9.4. Saving clause.

All proceedings pending in all rights and liabilities existing, acquired or incurred, at the time this ordinance takes effect, are hereby saved, and such proceedings may be consummated under and according to the ordinance in force at the time such proceedings are or were commenced. This ordinance shall not be construed to alter, affect, or abate any pending prosecution, or prevent prosecution hereafter instituted under any ordinance specifically or impliedly repealed by the ordinance adopting this uniform traffic code for offenses committed prior to the effective date of this ordinance; and all prosecutions pending at the effective date of this ordinance, and all prosecutions instituted after the effective date of this ordinance for offenses committed prior to the effective date of this ordinance may be continued or instituted under and in accordance with the provisions of any ordinance in force at the time of the commission of such offense.

History: 1954 ACS 13, p. 36, Eff. Feb. 14, 1958.

R 28.1905 Sec. 9.5. Adoption of ordinance by reference.

Any governmental unit adopting the uniform traffic code by reference shall adopt said code in its entirety but any 1 or more provisions, sections or chapters of this code may be amended, revised, deleted or otherwise changed or modified by the adopting governmental unit either in the ordinance wherein this code is adopted or in a subsequent enactment of the adopting governmental unit and provisions, sections, and chapters may be added to this code in like manner.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958.

CHAPTER 10—SNOWMOBILES

R 28.2001 Sec. 10.1. Words and phrases.

The following words and phrases, when used in this chapter, have the meanings respectively ascribed to them in this chapter. Whenever any word or phrase used herein is not defined herein, but is defined in this ordinance, or in Act No. 74 of the Public Acts of 1968, as amended, being §257.1501 et seq. of the Michigan Compiled Laws, the definitions used therein shall be deemed to apply to the words and phrases used in this chapter.

Sec. 10.001. Dealer.

"Dealer" means a person engaged in the sale, lease, or rental of snowmobiles as a regular business.

Sec. 10.002. Operate.

"Operate" means to ride in or on, or to be in actual physical control of, a snowmobile.

Sec. 10.003. Owner.

"Owner" means any of the following:

(a) A person who holds the legal title to a snowmobile in his name.

(b) A vendee or lessee of a snowmobile which is the subject of an agreement for the conditional sale or lease thereof, with the right or purchase on performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee.

(c) A person renting a snowmobile, or having exclusive use of a snowmobile, for more than 30 days.

Sec. 10.004. Public property.

"Public property" means property owned, leased, or otherwise controlled by this governmental unit, including parks, parking lots, and recreational areas.

Sec. 10.005. Private property open to the public.

"Private property open to the public" means property which is privately owned but is open to public access.

Sec. 10.006. Right-of-way.

"Right-of-way" means that portion of a street or highway less the roadway and any shoulder.

Sec. 10.007. Snowmobile.

"Snowmobile" means a motor-driven vehicle designed for travel primarily on snow or ice, of a type which utilizes sled-type runners or skis, an endless belt tread, or any combination of these, or other similar means of contact with the surface on which it is operated.

History: 1954 ACS 88, p. 31, Eff. Aug. 5, 1976.

R 28.2011 Sec. 10.11. Registration required; exceptions.

A snowmobile shall not be operated within the corporate limits of this governmental unit unless and until it is registered by the owner pursuant to Act No. 74 of the Public Acts of 1968, as amended, except that the following snowmobiles may be operated without being registered:

(a) A snowmobile operated exclusively on lands owned by, or under the control of, the snowmobile owner.

(b) A snowmobile used entirely in an approved safety education and training program conducted by a certified snowmobile safety instructor.

(c) A snowmobile which is exclusively operated in a special event of limited duration, which is conducted according to a prearranged schedule under a permit from this governmental unit.

History: 1954 ACS 88, p. 31, Eff. Aug. 5, 1976.

R 28.2012 Sec. 10.12. Certificate of registration; carrying; display; duplicate.

A certificate of registration shall be carried on the snowmobile when it is in operation, and shall be displayed on demand of a police officer. If the certificate is lost, mutilated, or illegible, the owner shall immediately obtain a duplicate certificate of registration by application to the secretary of state.

History: 1954 ACS 88, p. 31, Eff. Aug. 5, 1976.

R 28.2013 Sec. 10.13. Identification number; display; form.

The identification number of the certificate of registration shall be prominently displayed on both sides of the forward half of the snowmobile. The number shall be painted on or attached in a permanent manner in block characters of good proportion, not less than 3 inches in height, reading from left to right, and shall contrast so as to be distinctly visible and legible. Other numbers shall not be attached or displayed on the snowmobile.

History: 1954 ACS 88, p. 31, Eff. Aug. 5, 1976.

R 28.2014 Sec. 10.14. Operation of snowmobile registered in another state or Canada.

A snowmobile registered in another state, or in a province of Canada, to a nonresident of this state may be operated within this governmental unit under the authority of that registration for a period of not more than 20 days.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2021 Sec. 10.21. Brakes.

A snowmobile shall be equipped with brakes capable of 1 of the following while the snowmobile travels on packed snow and carries an operator who weighs 175 pounds or more:

(a) Stopping the snowmobile in not more than 40 feet from an initial steady speed of 20 miles an hour.

(b) Locking the snowmobile traction belt or belts.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2022 Sec. 10.22. Lights.

A snowmobile shall be equipped with 1 headlight and 1 taillight. The lights shall be lighted when the snowmobile is being operated between the hours from ½ hour after sunset to ½ hour before sunrise.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2023 Sec. 10.23. Muffler.

A snowmobile shall be equipped with a muffler in good working order and in constant operation from which noise emission at 50 feet at right angles from the vehicle path under full throttle does not exceed 86 DBA, decibels on the "a" scale, on a sound meter having characteristics defined by the American standards association S1, 4-1966 "general purpose sound meter." All snowmobiles manufactured after February 1, 1972, and operated in this governmental unit, shall not exceed 82 DBA of the 1970 society of automotive engineers code J-192.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2031 Sec. 10.31. Operation on designated public and private property.

A snowmobile shall be operated within the corporate limits of this governmental unit only on public property and private property open to the public which has been so designated by the governing body of this governmental unit, or on property owned or under the control of the owner of the snowmobile.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2032 Sec. 10.32. Time and conditions of operation.

Operation of a snowmobile on public property and private property open to the public shall be carried on only at times and under conditions determined by an official authorized by the governing body to make those decisions.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2033 Sec. 10.33. Speeds.

A person shall not operate a snowmobile on public property or private property open to the public at a speed greater than is reasonable and proper having due regard for existing conditions.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2034 Sec. 10.34. Operating snowmobile under influence of intoxicating liquor, narcotic drugs, or barbital.

A person shall not operate a snowmobile on public property or private property open to the public while under the influence of intoxicating liquor or narcotic drugs, barbital, or a derivative of barbital.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2035 Sec. 10.35. Operation between midnight and 6 a.m.

A person shall not operate a snowmobile within 100 feet of a dwelling between 12 midnight and 6 a.m. at a speed greater than the minimum required to maintain forward movement of the snowmobile.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2036 Sec. 10.36. Operation on cemetery or burial ground.

A person shall not operate a snowmobile on or across a cemetery or burial ground.

History: 1954 ACS 88, p. 32, Eff. Aug. 5, 1976.

R 28.2037 Sec. 10.37. Operation on public sidewalk.

A person shall not operate a snowmobile on a public sidewalk, except that a snowmobile may be driven across a sidewalk at a regular driveway.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2038 Sec. 10.38. Operation on limited access highway.

A person shall not operate a snowmobile on a limited access highway.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2039 Sec. 10.39. Operation on roadway.

A person shall not operate a snowmobile on any roadway within the corporate limits of this governmental unit, except that:

(a) The chief of police is hereby authorized to permit the operation of a snowmobile on a roadway when, because of snow or other extreme roadway conditions, conventional motor vehicles cannot be used for necessary transportation.

(b) A snowmobile may be operated on a roadway when necessary to cross the roadway or to cross a bridge or culvert. The snowmobile shall be brought to a complete stop before entering onto the roadway, and the operator shall yield the right of way to a vehicle approaching on the roadway.

(c) A snowmobile may be operated on a roadway only for a distance of not more than 500 feet while traveling to an area approved for snowmobile use or between 2 approved areas.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2040 Sec. 10.40. Operation by person under 12 years of age.

A parent or legal guardian shall not permit his child who is under the age of 12 years to operate a snowmobile without the direct supervision of an adult, except on land owned by or under the control of, the parent or legal guardian. An operator under the age of 12 years shall not cross a street or highway.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2041 Sec. 10.41. Operation by persons 12 to 16 years of age.

A person between the ages of 12 and 16 years may operate a snowmobile if any one of the following requirements is met:

(a) He is under the direct supervision of a person who is not less than 18 years of age.

(b) He has in his immediate possession a snowmobile safety certificate issued to him.

(c) He is on land owned or under the control of his parent or legal guardian.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2051 Sec. 10.51. Accident; notice; report.

The operator of a snowmobile involved in an accident which results in an injury to or the death of any person, or in property damage in an estimated amount of not less than $100.00, shall immediately notify the police department. The police department shall complete a report of the accident on a form prescribed by the director of the department of state police, and forward the report to that department. A copy of the accident report shall be retained by the police department for not less than 3 years.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2061 Sec. 10.61. Duties of dealer; liability insurance.

(a) A dealer who rents, leases, or otherwise furnishes snowmobiles to the public shall maintain in safe operating condition the snowmobiles so rented, leased, or furnished. The dealer, his agents, or his employees shall explain the operation of the snowmobile being rented, leased, or furnished. If the dealer, agent, or employee believes the person to whom the snowmobile is to be rented, leased, or furnished is not competent to operate the snowmobile with safety to himself and to others, he shall refuse to rent, lease, or furnish the snowmobile.

(b) A dealer who rents, leases, or otherwise furnishes a snowmobile shall carry a policy of liability insurance subject to limits, exclusive of interests and costs, with respect to the snowmobile, as follows: $20,000.00 because of bodily injury to or death of 1 person in any 1 accident and subject to that limit for 1 person; $40,000.00 because of bodily injury to or death of 2 or more persons in any 1 accident; and $10,000.00 because of injury to or destruction of property of others in any 1 accident; or, in the alternative, demand and be shown proof that the person renting, leasing, or being furnished a snowmobile carries a liability policy of at least the type and coverage specified above.

History: 1954 ACS 88, p. 33, Eff. Aug. 5, 1976.

R 28.2071 Sec. 10.71. Operation in violation of chapter.

The owner of a snowmobile shall not permit his snowmobile to be operated in violation of the provisions of this chapter.

History: 1954 ACS 88, p. 34, Eff. Aug. 5, 1976.

R 28.2072 Sec. 10.72. Registered number as evidence of operation by owner.

In a proceeding for a violation of this chapter involving prohibited operation or conduct, the registration number displayed on a snowmobile constitutes prima facie evidence that the owner of the snowmobile was the person operating the snowmobile at the time of this offense.

History: 1954 ACS 88, p. 34, Eff. Aug. 5, 1976.

R 28.2073 Sec. 10.73. Stopping at direction of uniformed police officer; violation; identification of official law enforcement vehicle.

(1) The operator of a snowmobile who is given, by hand, voice, emergency light, or siren, a visual or audible signal by a police officer, acting in the lawful performance of his duty, directing the operator to bring his snowmobile to a stop, shall do so. An operator shall not willfully fail to obey the direction by increasing his speed, extinguishing his lights, or otherwise attempting to flee or elude the officer.

(2) The officer giving the signal shall be in uniform. A vehicle or snowmobile which is used at night for purposes of enforcing this chapter shall be identified as an official law enforcement vehicle or snowmobile.

History: 1954 ACS 88, p. 34, Eff. Aug. 5, 1976.

R 28.2074 Sec. 10.74. Violation as misdemeanor.

A person who violates a provision of this chapter is guilty of a misdemeanor.

History: 1954 ACS 88, p. 34, Eff. Aug. 5, 1976.

R 28.2075 Sec. 10.75. Arrest without warrant; procedures.

When a person is arrested without warrant for a violation of this chapter, except a violation of section 10.35, the arresting officer shall follow the procedures provided in section 2.10 or 2.11, whichever is applicable.

R 28.3801 Definitions.

Rule 1. As used in these rules and in NFPA 58:

(a) "Approved" means acceptable to the director.

(b) "Authority having jurisdiction" means the department of state police. A liquefied petroleum gas single container installation of 2,000 gallons capacity or less or a multi-container installation of 4,000 gallons aggregate capacity or less which comply with these rules may be approved by a designated official of a local governing body.

(c) "Director" means the director of the department of state police.

(d) "NFPA 58" means the 1974 edition of pamphlet no. 58 entitled "Storage and Handling of Liquefied Petroleum Gases" and published by the national fire protection association.

History: 1954 ACS 71, p. 5, Eff. Apr. 4, 1972; 1954 ACS 84, p. 5, Eff. June 25, 1975.

R 28.3802 Adoption by reference.

Rule 2. NFPA 58 and matters incorporated therein by reference are adopted by reference except as hereinafter provided and is available for inspection or purchase by the public from the State Police Fire Marshal Division, 714 South Harrison Road, East Lansing, Michigan, or from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $4.00 each.

History: 1954 ACS 71, p. 5, Eff. Apr. 4, 1972; 1954 ACS 84, p. 5, Eff. June 25, 1975.

R 28.3803 Variance from NFPA 58 for submittal of plans and specifications.

Rule 3. Section 140—Fixed installations, of NFPA is amended to read as follows: Notwithstanding section 141 of NFPA 58, a complete set of duplicate plans and specifications of a proposed installation or addition to a present installation, using storage containers of over 2,000 gallons individual water capacity or when the aggregate water capacity exceeds 4,000 gallons, and a container charging plant shall be submitted to the director together with an area map showing the legal description of the proposed location as to buildings, tanks and existing occupancies for a distance of 500 feet. Upon examination by the director of the plans and specifications and his finding that they are in conformity with the liquefied petroleum gases rules, the director shall issue a permit of construction which shall be valid after a letter of approval is received from the local governing body. Upon completion of any construction or addition, a representative of the director shall inspect it and if found to be in complete conformity with these rules, a permit of operation shall be issued.

History: 1954 ACS 71, p. 5, Eff. Apr. 4, 1972; 1954 ACS 84, p. 5, Eff. June 25, 1975.

R 28.3804 Variance from NFPA 58 for underground containers and storage.

Rule 4. Notwithstanding sections 3121, 3126, 3132(c), (d), and (e), and 3135(d), of NFPA 58, a below ground or partly below ground container shall be permitted only after securing approval of the director or his authorized representative. Only an installation that meets the requirements of NFPA 58 for below ground containers and provides as great or greater safety than above ground installations will be considered.

History: 1954 ACS 71, p. 5, Eff. Apr. 4, 1972; 1954 ACS 84, p. 6, Eff. June 25, 1975.

R 28.3805 Variance from NFPA 58 for direct gas-fired tank heaters.

Rule 5. Notwithstanding section 2433 of NFPA 58, direct gas-fired tank heaters are not permitted.

History: 1954 ACS 71, p. 5, Eff. Apr. 4, 1972; 1954 ACS 84, p. 6, Eff. June 25, 1975.

R 28.3806 Variance from NFPA 58 for cylinder filling locations.

Rule 6. With the exception of section 4221(a), where reference is made in NFPA 58 to table 4-2, table 1 of these rules shall apply.

History: 1954 ACS 71, p. 6, Eff. Apr. 4, 1972; 1954 ACS 84, p. 6, Eff. June 25, 1975.

R 28.3807 Nonconforming interpretations.

Rule 7. Notwithstanding paragraph 4221(b) of NFPA 58, the words "should," "may," "consideration," or "recommended" where used in NFPA 58 and other standards referred to therein, shall be interpreted as being "required" as far as these rules are concerned, except as NFPA 58 and other standards referred to therein may provide for alternate designs or methods under specific circumstances.

History: 1954 ACS 84, p. 6, Eff. June 25, 1975.

R 28.3808 Right to refuse delivery.

Rule 8. (1) A person shall refuse to deliver liquefied petroleum gas into a nonconforming container or container installation when he has reason to believe that the intended use of the product would constitute a hazard to life or property.

(2) A person shall refuse to deliver liquefied petroleum gas into a tank or container under any circumstances prohibited by these rules.

TABLE 1[1]

Distance Between Point of Transfer and Exposures

Part	Exposure	Minimum Horizontal Distance, Feet
1	Buildings[2] with fire resistive walls[3]	25
2	Buildings[2] with other than fire resistive walls	50
3	Building wall openings or pits at or below the level of the point of transfer	50
4	Line of adjoining property which may be built upon	50
5	Outdoor places of public assembly, including school yards, athletic fields and playgrounds	50
6	Public ways, including public streets, highways, thoroughfares and sidewalks	
	(a) From points of transfer in distributing points	25
	(b) From points of transfer in distributing plants	25
7	Driveways	5
8	Mainline railroad track centerlines	25
9	Containers[4]	10

Note 1: Table 1 is not applicable to the transfer operations covered in 4210 of NFPA 58.

Note 2: "Buildings" includes structures such as mobile homes, recreational vehicles, modular homes, tents, and box trailers at construction sites.

Note 3: Walls constructed of noncombustible materials having, as erected, a fire resistance of at least 1 hour as determined by NFPA no. 251, "Standard Methods of Fire Tests of Building Construction and Materials."

Note 4: Not applicable to filling connections at the storage container.

History: 1954 ACS 84, p. 6, Eff. June 25, 1975.

R 28.3818 Modification.

Rule 18. A person, or his authorized agent, confronted with practical difficulties in the carrying out of the strict letter of these rules, may apply to the director

for the modification thereof. Only such modification as will not constitute a distinct hazard to life or property will be considered. The decision of the director, including the particulars of any such application, shall be entered upon the records of the department of state police, and a signed copy thereof shall be furnished to the applicant.

History: 1954 ACS 71, p. 6, Eff. Apr. 4, 1972.

R 28.3819 Rescission.

Rule 19. The rules entitled "Liquefied Petroleum Gases," and appendices, being R 28.751 to R 28.897 of the Michigan Administrative Code and appearing on pages 1327 to 1374 of the 1960 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 71, p. 6, Eff. Apr. 4, 1972.

RECORDS AND IDENTIFICATION DIVISION

PRIVATE SECURITY GUARDS

(By authority conferred upon the department of state police by sections 19, 23, and 27 of Act No. 330 of the Public Acts of 1968, being §§338.1069, 338.1073, and 338.1077 of the Michigan Compiled Laws)

R 28.4001 General provisions.

Rule 1. (1) These rules implement Act No. 330 of the Public Acts of 1968, being §§338.1051 to 338.1079 of the Michigan Compiled Laws, and hereinafter referred to as the "act," and apply to all the private security guard agencies listed in subsections (a), (b), and (c) of section 2 of the act.

(2) "Department" means the Michigan department of state police.

History: 1954 ACS 58, p. 5, Eff. May 15, 1969.

R 28.4002 Prohibited words in agency names.

Rule 2. The following words in an agency name will not be approved by the department:

(a) "Police."

(b) "Michigan," "United States," or the name of a specific city, village, or county. However, an owner may use his own name which is similar to the name of a city, village, or county if his business is remote from the city, village, or county with a similar name.

History: 1954 ACS 58, p. 5, Eff. May 15, 1969.

R 28.4003 Lists of employees.

Rule 3. A complete employee personnel list shall be filed with the department by each licensee on a quarterly basis. This list shall be kept confidential except for official use.

History: 1954 ACS 58, p. 5, Eff. May 15, 1969.

R 28.4004 Uniforms.

Rule 4. (1) All security guard employees of any agency described in section 2 of the act and licensed to conduct business as a private security guard agency shall wear a uniform. Minimum requirements are a uniform cap and a uniform shirt, blouse, jacket or overcoat which will have the designated patches and emblems required by subdivisions *(a), (b), and (d) of subrule* (2).

(2) A uniform bearing the following emblems and patches will be approved by the department:

(a) Shoulder patches shall be red in color, bear the name of the licensee, have white, clearly legible lettering, and may bear an approved agency design or insignia. The patches shall be of half moon design 3 inches high and 5 inches wide. A patch shall be worn on each shoulder of a shirt, blouse, jacket, or overcoat.

(b) A patch shall be worn on the right breast with words "Security Guard," "Security Technician," "Patrolman," or "Watchman," whichever is applicable. It shall be 4½ inches long, 1 inch high, and red with white lettering.

(c) An employee may wear an appropriate designation of his rank, such as sergeant, on either or both sleeves; and chevrons shall be red in color with white piping. If the employee is of commissioned officer rank, he may wear the appropriate emblem on the collar or shoulders of his uniform shirt, jacket, or blouse.

(d) If shoulder straps (epaulettes) are worn on the uniform shirts, jackets, or blouses, they shall be the same color as the shoulder patches.

(e) A cap ornament may be worn. It shall not carry the state of Michigan seal. It may carry the rank of the employee and shall have the same name as approved by the department.

(f) Plant protection personnel shoulder patches shall be the same as described in subrule (2)(a), except they may be an orange background with white lettering. Cap ornaments for plant protection personnel shall be subject to the same restrictions as listed in subrule (2)(e).

(3) Any deviation from the requirements of subrule (2) requires approval by the department.

History: 1954 ACS 58, p. 5, Eff. May 15, 1969.

R 28.4005 Badges.

Rule 5. Any square or rectangular badge will be approved by the department and may bear the approved agency name. Any other shape badge or shield will not be approved.

History: 1954 ACS 58, p. 6, Eff. May 15, 1969.

R 28.4006 Names and emblems in advertising.

Rule 6. (1) An agency shall not solicit or advertise for business with any name other than that approved by the department. This includes letterheads, vehicles, etc. Such material on hand may be phased out.

(2) An agency shall not display on a vehicle any shield, star, or other emblem which would be likely to deceive or confuse the public or be identical with an emblem on any law enforcement vehicle. Vehicles with emblems now in use may be phased out.

History: 1954 ACS 58, p. 6, Eff. May 15, 1969.

HEARINGS

(By authority conferred upon the department of state police by sections 2 and 4 of Act No. 197 of the Public Acts of 1952, as amended, being §§24.102 and 24.104 of the Michigan Compiled Laws)

R 28.4011 Conduct and appeals.

Rule 11. (1) A hearing conducted by the department shall be in accordance with sections 1 to 7 of Act No. 197 of the Public Acts of 1952, as amended, being §§24.101 to 24.107 of the Michigan Compiled Laws.

(2) An appeal from a final decision rendered according to these rules shall be taken pursuant to sections 8 and 9 of Act No. 197 of the Public Acts of 1952, being §§24.108 and 24.109 of the Michigan Compiled Laws.

History: 1954 ACS 60, p. 5, Eff. Nov. 14, 1969.

R 28.4012 Notices.

Rule 12. (1) The department shall set a time for a hearing without undue delay and shall send written notice by registered or certified mail not less than 14 days before the date of the hearing.

(2) The notice of a hearing, in addition to statutory requirements, shall include:

(a) A statement of the legal authority and jurisdiction under which the hearing is to be held.

(b) A reference to the particular sections of the statutes and rules involved.

(c) A short and plain statement of the matters asserted. If the department or other party is unable to state the matters in detail at the time notice is served, the initial notice may state the issues involved. Thereafter, on application, the department or other party shall furnish a more definite and detailed statement of facts and issues.

History: 1954 ACS 60, p. 5, Eff. Nov. 14, 1969.

R 28.4013 Defaults, answers, and adjournments.

Rule 13. (1) If a party fails to appear after proper service of notice, the department, if no adjournment is granted, may proceed with the hearing and make its decision in the absence of the party.

(2) A party who has been served with a notice of hearing may file a written answer before the date set for hearing.

(3) At the hearing or by appropriate notice to all parties, on request of a party or on its own motion, the department or its representative conducting the hearing may by announcement continue the hearing from day to day or by order adjourn the hearing to a later date. A continuance shall not be granted which will delay the hearing an unreasonable period of time.

History: 1954 ACS 60, p. 5, Eff. Nov. 14, 1969.

R 28.4014 Production of records.

Rule 14. On a request for identifiable department records, relevant to matters involved, except records exempt from disclosure by law, the department shall make such records promptly available to a party. The circuit court of the county in which a party resides or has a place of business, or in which the department records are located, has jurisdiction to order the production of department records improperly withheld from the party and shall determine de novo the right of the party to examine such records. The burden as to such issue shall be on the department. Proceedings solely for such relief shall be assigned for hearing at the earliest practicable date and expedited in every way.

History: 1954 ACS 60, p. 5, Eff. Nov. 14, 1969.

R 28.4015 Statements of facts, evidence, depositions, and arguments.

Rule 15. (1) A person who requests a hearing shall submit in writing a full and accurate statement of the facts on which his request is founded to the department and to all parties in interest. The statement of facts shall be accepted in evidence.

(2) Irrelevant, immaterial, or unduly repetitious evidence, shall be excluded. Objections to offers of evidence shall be noted in the record. If a hearing will be

expedited and the interests of the parties not prejudiced substantially, evidence may be received in written form under oath before a notary public.

(3) A deposition may be used in lieu of other evidence if it is taken in compliance with the general court rules.

(4) The parties shall be given an opportunity to present oral and written argument on issues of law and policy and an opportunity to present evidence and argument on issues of fact.

History: 1954 ACS 60, p. 6, Eff. Nov. 14, 1969.

R 28.4016 Official notice.

Rule 16. (1) On taking official notice of a fact which may be disputable or crucial, the department shall notify all parties of the noticed fact and its source and give all parties the opportunity for cross-examination and for contesting the fact through written submission of evidence and arguments.

(2) If the department takes official notice of a fact in the process of preparing a final report, it shall determine whether a party shall be given an opportunity to contest such fact before a decision is announced.

History: 1954 ACS 60, p. 6, Eff. Nov. 14, 1969.

R 28.4017 Decisions.

Rule 17. If a party submits proposed findings of fact which would control the decision, the department shall include a ruling on each proposed finding of fact. Each conclusion of law shall be supported by authority or reasoned opinion.

History: 1954 ACS 60, p. 6, Eff. Nov. 14, 1969.

R 28.4018 Records.

Rule 18. The department shall prepare an official record of the hearing which shall include:

(a) Pleadings, motions and intermediate rulings.

(b) Questions and offers of proof, objections and rulings thereon.

(c) Evidence received or considered.

(d) Matters officially noticed.

(e) Proposed findings and exceptions.

(f) Any decision, opinion or report by the officer presiding at the hearing.

History: 1954 ACS 60, p. 6, Eff. Nov. 14, 1969.

R 28.4019 Rehearings.

Rule 19. (1) Unless otherwise provided by law the department may order a rehearing on its own motion or on motion of a party which is based on 1 or more of the following grounds:

(a) That the department findings were based on physical tests or examinations not supported by proofs and evidence.

(b) That the staff reports used in evidence were not made available for examination by the parties for a reasonable time before the hearing.

(c) That the record of testimony made at the hearings is asserted to be inadequate for purposes of a judicial review.

(2) A motion or application for a rehearing shall be filed within the time fixed by the act for instituting proceedings for judicial review. A rehearing shall be noticed and conducted and considered in the same manner as an original hearing.

History: 1954 ACS 60, p. 6, Eff. Nov. 14, 1969.

LAW ENFORCEMENT OFFICERS TRAINING COUNCIL

GENERAL RULES

(By authority conferred upon the department of state police by section 9 of Act No. 203 of the Public Acts of 1965, being §28.609 of the Michigan Compiled Laws)

R 28.4101 General provisions.

Rule 1. As used in these rules, "act" means Act No. 203 of the Public Acts of 1965, as amended, being §§28.601 to 28.616 of the Michigan Compiled Laws. The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 73, p. 5, Eff. Nov. 10, 1972.

R 28.4102 Employment qualifications.

Rule 2. A person employed as a police officer under the act shall:

(a) Be a citizen of the United States.

(b) Have attained the minimum age as established by the hiring agency, which shall be not less than 18 years or as otherwise provided by law.

(c) Have obtained a high school diploma or have attained a passing score on the general education development test indicating a high school graduation level.

(d) Have no prior felony convictions.

(e) Possess good moral character as determined by a favorable comprehensive background investigation covering school and employment records, home environment and personal traits and integrity. Consideration will be given to all law violations, including traffic and conservation law convictions, as indicating a lack of good character.

(f) Possess normal hearing, normal color vision, and normal visual functions and acuity in each eye correctable to 20/20. Be free from any other impediment of the senses, physically sound, in possession of his extremities and well developed physically, with height and weight in relation to each other as indicated by accepted medical standards. Be free from any physical defects, chronic diseases, organic diseases, organic or functional conditions, or mental and emotional instabilities which may tend to impair the efficient performance of his duty or which may endanger the lives of others or himself.

(g) Successfully complete the basic police training curriculum at a council-approved school.

History: 1954 ACS 73, p. 5, Eff. Nov. 10, 1972.

R 28.4103 Examinations, fingerprints, and certificates.

Rule 3. Before sending a person to a council-approved school, the hiring agency shall:

(a) Cause the applicant to be examined by a licensed physician to determine that the applicant meets the standards set forth in subdivision (f) of R 28.4102. A declaration of the applicant's medical history shall be made available to the examining physician and shall become a part of the background investigation.

(b) Cause the applicant to be fingerprinted and a search made of local, state and national fingerprint files to disclose any criminal record.

(c) Conduct an oral interview to determine the applicant's acceptability for a police officer position and to assess appearance, background, and ability to communicate.

(d) Certify that the prospective trainee meets the minimum employment standards set forth in subdivisions (a) to (f) of R 28.4102.

History: 1954 ACS 73, p. 5, Eff. Nov. 10, 1972.

R 28.4104 Forms.

Rule 4. Form TC-01, entitled "Application for Enrollment in a Certified Academy," shall be completed and forwarded to the appropriate school coordinator before a person will be allowed to attend a council-approved school.

History: 1954 ACS 73, p. 5, Eff. Nov. 10, 1972.

R 28.4105 Practices and standards.

Rule 5. Recruitment and employment practices and standards shall comply with the law applicable to police officer employment.

History: 1954 ACS 73, p. 6, Eff. Nov. 10, 1972.

STATE FIRE SAFETY BOARD

SCHOOL FIRE SAFETY

(By authority conferred on the state fire safety board by section 3c of Act No. 207 of the Public Acts of 1941, as amended, being §29.3c of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 29.1 Scope.

Rule 1. (1) These rules set forth minimum requirements for fire safety in both new school construction and in existing school buildings. They are based on provisions of the national fire protection association pamphlet no. 101, "Life Safety Code," 1970, with necessary clarifications and interpretations, as they apply to school occupancies. Additional requirements appear in Michigan statutes, the school building law, being Act No. 306 of the Public Acts of 1937, as amended, and §§388.851 to 388.855a of the Michigan Compiled Laws, and the fire prevention act, being Act No. 207 of the Public Acts of 1941, as amended, and §§29.1 to 29.25 of the Michigan Compiled Laws. These statutes should be reviewed and complied with.

(2) These rules deal with life safety from fire and other emergencies. They cover construction, protection and occupancy features to minimize danger to life from fire, smoke, fumes, or panic before buildings are vacated. They specify the number, size, and arrangement of exit facilities sufficient to permit prompt escape of occupants from school buildings in case of fire or other conditions dangerous to life.

(3) These rules recognize that life safety is more than a matter of exits and therefore deal with matters besides exits which are essential to life safety and in some situations beyond which the hazard is so great that no practical amount of exits can give assurance of reasonable safety, provide other forms of protection.

(4) These rules relate to fire safety only and do not include other mandatory features of school construction or recommendations relative to school construction required by other agencies.

History: 1954 ACS 74, p. 8, Eff. May 15, 1973.

R 29.2 Applicability.

Rule 2. (1) These rules apply to construction of new school buildings, and additions to, and remodeling and maintenance of existing school buildings, both public and private, and elementary and secondary. They apply to all instructional areas of all institutions of higher education as provided by subsection (1) of section 3c of Act No. 207 of the Public Acts of 1941, as amended.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(2) Remodeling involving an existing school building, or construction of a school building, does not require an inspection or determination of fire hazard by the state fire marshal if the building is located in a municipality where certification has been made to the department of education as prescribed by subsection (2) of section 3 of Act No. 306 of the Public Acts of 1937, as amended, being §388.853 of the Michigan Compiled Laws.

History: 1954 ACS 74, p. 9, Eff. May 15, 1973.

R 29.3 Modification.

Rule 3. (1) A school board of a public school, school owner of a private or parochial school, or the authorized agent of such school board or school owner, confronted with practical difficulties in carrying out the strict letter of these rules may apply to the state fire marshal in writing, stating the particulars and reasons for any modification requested.

(2) The state fire safety board may vary the application of a rule or modify a ruling or interpretation of the state fire marshal or municipal enforcing authority, if enforcement would do manifest injustice and would be contrary to the spirit and purpose of the rules or the public interest. The variance or modification shall be consistent with recognized good practices as evidenced by standards adopted by nationally recognized authorities.

History: 1954 ACS 74, p. 9, Eff. May 15, 1973.

R 29.7 Adoption of rules by reference.

Rule 7. (1) These rules at several places adopt by reference all or parts of the following codes, standards or regulations of nationally recognized organizations or associations, identified by date or otherwise:

History: 1954 ACS 74, p. 9, Eff. May 15, 1973.

R 29.11 Definitions; A, B.

Rule 11. (1) "Approved" means acceptable to the state fire marshal or other inspection authorities when acting under subsection (2) of section 3 of Act No. 306 of the Public Acts of 1937, as amended.

(2) "Automatic sprinkler system" means a sprinkler system installed in compliance with the national fire protection association pamphlet no. 13, 1969, installation of sprinkler systems.

(3) "Basement" means a story or floor level below the main or street floor. Where, due to grade differences, there are 2 levels each qualifying as a street floor, a basement is the floor level below the lower of the 2 street floors.

History: 1954 ACS 74, p. 11, Eff. May 15, 1973.

R 29.12 Definitions; C to E.

Rule 12. (1) "Combustible" means the opposite of noncombustible. See R 29.14(4) for the definition of "noncombustible."

(2) "Commercial type laundry equipment" means a washer, drier, extractor, or ironer designed for commercial work rather than for domestic use.

(3) "Court" means an open, uncovered and unoccupied space, unobstructed to the sky and bounded on 2 or more sides by the exterior walls of a building. "Inner court" means a court bounded on all sides by the exterior walls.

(4) "Emergency lighting" means lighting which will maintain the required exit illumination automatically in case of failure of the public utility electric service or other outside source of energy.

(5) "Exit" means a way of departure from the interior of a school building to the open air outside at the ground level. It may comprise vertical and horizontal means of travel such as a doorway, stairway, ramp, corridor, passageway and fire escape, including all elements necessary for the purpose of emergency escape from the building. An exit begins at a doorway or other point of access to an exit from which occupants may proceed to the exterior of the building with reasonable safety.

History: 1954 ACS 74, p. 11, Eff. May 15, 1973.

R 29.13 Definitions; F.

Rule 13. (1) "Fire alarm system" or fire detection system" means a manual or automatic system indicating a fire emergency requiring immediate action, actuation of which is from a manual fire alarm box or station, water-flow alarm, an alarm from an automatic fire alarm system or other emergency signal consisting of components approved and listed by the underwriters' laboratories, inc., fire protection equipment list, 1971, and installed in compliance with the national fire protection association pamphlet no. 72A, 1967, local protective signaling systems.

(2) "Fire damper" means a damper tested by a nationally recognized testing laboratory in compliance with the American society for testing and materials, standard no. E-152, 1966, fire tests of door assemblies, or underwriters' laboratories, inc., standard no. 555, 1970, fire dampers, for a 1-hour fire-resistance rating, except that where used in a tested floor-ceiling or ceiling-roof design the damper may be of the type tested in the assembly.

(3) "Fire door assembly" means a labeled fire door and labeled frame constructed and installed in compliance with the national fire protection association, pamphlet no. 80, 1970, fire doors and windows, with a latching device, swinging and sliding hardware and closing device labeled or listed in compliance with the listing and reexamination service of an approved nationally recognized testing laboratory.

(4) "Fire-resistance rating" means a rating of a material or assembly of materials having a fire-resistance rating not less than that listed in the American insurance association fire resistance ratings, April, 1959 (revised), or rating label or listing of the underwriters' laboratories, inc., building materials list, 1971, or certified by a nationally recognized independent testing laboratory with proper certification.

(5) "Fire-resistive construction" means a building having walls, ceilings, floors, partitions, and roof of noncombustible materials, and steel members protected by a noncombustible material having a fire-resistance rating of 1 hour. This shall not be construed as prohibiting finished wood flooring, wood door and window frames, wood sash or wood furring.

(6) "Flameproof" or "flameproofing" means that materials will not readily ignite and will not propagate flame under the test conditions of the national fire protection association pamphlet no. 701, 1969, standard methods of fire tests for flame-resistant textiles and films. Flameproofed materials are usually combustible materials with the addition of some treatment or coating to modify their burning properties.

(7) "Flammable liquid" means a liquid having a flash point below 200 degrees Fahrenheit and having a vapor pressure not more than 40 pounds per square inch, absolute, at 100 degrees Fahrenheit.

(8) "Flexible plan building" means a school building or part of a school building having movable corridor walls and movable partitions of full height construction with doors leading from rooms to corridors.

History: 1954 ACS 74, p. 12, Eff. May 15, 1973.

R 29.14 Definitions; H to N.

Rule 14. (1) "Hazardous occupancy" means those parts of a school building housing the heating plant and incinerators, kitchens, or where combustible materials, flammable liquids, gases or dangerous chemicals are used or stored. Arts and crafts rooms shall be considered a hazardous occupancy.

(2) "Kitchen" means a room with commercial equipment for the preparation of food. It does not include a facility designed for occasional preparation of food with a capacity of not more than 12 meals or a room equipped to warm or maintain heat of food prepared elsewhere.

(3) "May" means permissive within the intent of these rules.

(4) "Noncombustible" means:

(a) A material no part of which will ignite and burn when subjected to fire. A material which liberates flammable gas when heated to a temperature of 1,380 degrees Fahrenheit for 5 minutes is not considered noncombustible.

(b) A material having a structural base of noncombustible material as defined in subdivision (a), with a surfacing not over ⅛ inch thick which has a flame spread rating not higher than 50 in compliance with R 29.122.

(c) A material, other than as described in subdivisions (a) or (b), having a surface flame spread rating not higher than 25 in compliance with R 29.122, without evidence of continued progressive combustion and of such composition that surfaces that would be exposed by cutting through the material in any way would not have a flame spread rating higher than 25 without evidence of continued progressive combustion.

History: 1954 ACS 74, p. 12, Eff. May 15, 1973.

R 29.15 Definitions; O, P.

Rule 15. (1) "Open plan building" means a school building or part of a building not having corridors in compliance with R 29.61(5) and which has furniture, fixtures and partitions not more than 7 feet high, but in no case extending less than 2 feet from the ceiling, arranged so that exits shall be clearly visible and unobstructed and exit paths are direct, not circuitous. If paths are established they shall be at least as wide as required by R 29.61(1) and (3). A separated area for more than 20 persons within an open plan section of a building shall have an area open to the balance of the open plan section equivalent to not less than 15% of its perimeter surface unless the area is provided with protected egress in compliance with R 29.45.

(2) "Plenum" means an air compartment or chamber to which 1 or more ducts are connected or which is part of an air distribution system.

(3) "Private school" means an educational institution which students attend in lieu of public school attendance.

(4) "Public assembly place" means a lecture room, gymnasium, cafeteria, swimming pool, or a room or inner court subject to occupancy by 100 or more persons.

History: 1954 ACS 74, p. 13, Eff. May 15, 1973.

R 29.16 Definitions; R to W.

Rule 16. (1) "Remodeling" means an alteration, installation or work provided for in the fire safety provisions of the school building law and the applicable parts of these rules, except an alteration, installation, or work being performed under the provisions of R 29.201(1).

(2) "School building" or "building" means a building or structure used by 6 or more students for instruction such as a school, university, college, or academy. In areas where instruction is incidental to some other occupancy the fire safety requirements for that occupancy shall apply.

(3) "Smoke detection system" means an automatic system indicating the presence of an abnormal smoke density in a space or area, actuating the fire alarm system and consisting of components approved and listed by the underwriters' laboratories, inc., fire protection equipment list, 1971, and installed in compliance with the national fire protection association pamphlet no. 72A, 1967, local protective signaling systems.

(4) "Stairway" or "stair" (open or enclosed) means a series of steps or a flight of steps and the necessary landing and platform for passing from 1 level to another.

(5) "Story" means that part of a building between a floor and the floor or roof next above. "First story" means the lowest portion of the building meeting the requirements of a street floor. A basement is a story, except that an understage area or room below a gymnasium balcony or permanent gymnasium seating is not a story if such area or room walls and floor above are of noncombustible construction having a 1-hour fire-resistance rating.

(6) "Street floor" means the lowest story or floor level of a building, the ceiling of which is located 5 feet or more above ground level for more than 25% of the perimeter of that story or floor level.

(7) "Wired glass" means glass not less than ¼ inch thick, reinforced with wire mesh, no. 24 gauge or heavier, with spacing not greater than 1 square inch.

History: 1954 ACS 74, p. 13, Eff. May 15, 1973.

R 29.19 Rescinded and superseded provisions.

Rule 19. (1) The rules of the director of the Michigan state police entitled "School Fire Safety," being R 28.3201 to R 28.3218 of the Michigan Administrative Code and appearing on pages 2129 to 2140 of the 1961 Annual Supplement to the Code, are rescinded.

(2) These rules supersede chapter 9, safety factors and standards, bulletin number 412 (revised 1965) of the Michigan department of education.

History: 1954 ACS 74, p. 13, Eff. May 15, 1973.

PART 2. NEW AND EXISTING SCHOOLS

R 29.21 Applicability of part 2.

Rule 21. Except as provided in part 3, this part applies to new school buildings, remodeling or alterations to existing buildings and additions thereto.

History: 1954 ACS 74, p. 13, Eff. May 15, 1973.

R 29.22 General safety.

Rule 22. A school building shall be constructed, arranged, equipped, maintained, and operated to avoid undue danger to the lives and safety of its occupants from fire, smoke, fumes or resulting panic during the time reasonably necessary for escape from fire or because of other emergency.

History: 1954 ACS 74, p. 14, Eff. May 15, 1973.

R 29.25 Plans and specifications; approval.

Rule 25. (1) Where services of an architect or engineer are not required a school authority shall submit plans for new construction, remodeling, alterations, or permanent renovations to the department of education.

(2) Before construction, reconstruction, or remodeling of a school building is commenced, written approval of all plans and specifications shall be obtained from the department of education. The department will not issue an approval until approval of the state fire marshal or appropriate municipal official, or certification as described in section 3 of the school building law has been secured in writing relative to factors concerning fire safety and approval of the department of public health having jurisdiction relative to factors affecting water supply, sanitation and food handling.

(3) A school building construction project let out for contractor bidding on the basis of preliminary plan clearance but before final plans and specifications have been approved, shall be let out with the firm understanding that required approval of the project has not been obtained.

(4) If an approved designated occupancy is changed during planning or construction to another occupancy, all fire protection requirements for the new occupancy shall be complied with.

(5) Preliminary plan approval given before the effective date of these rules will terminate 6 months after the effective date of these rules, except that an approval extension may be granted in a specific instance upon written request to the state fire marshal.

History: 1954 ACS 74, p. 14, Eff. May 15, 1973.

R 29.26 Architects and engineers.

Rule 26. Plans and specifications for school building construction costing $15,000.00 or more shall bear the seal of and be prepared by a registered architect or engineer in compliance with the school building law.

History: 1954 ACS 74, p. 14, Eff. May 15, 1973.

R 29.27 Inspections during construction.

Rule 27. (1) During construction of a school building the architect or engineer shall notify the state fire marshal or authorized local officials when the building is ready for inspection to determine compliance with these rules. Notice for the first inspection shall be given when the building is framed and before lathing, plastering, installation of ceilings and ceiling assemblies or any concealment of roof or floor joists. Notice of completion of the building and readiness for inspection is required for approval for occupancy.

(2) Where services of an architect or engineer are not required, the school authority shall notify the state fire marshal or authorized local officials when the building is ready for inspection.

(3) It is unlawful to occupy a newly constructed school building or addition to an existing building except as provided in R 29.29 and with written approval.

History: 1954 ACS 74, p. 14, Eff. May 15, 1973.

R 29.28 Plans for additions, remodeling, and alterations.

Rule 28. Plans for an addition, remodeling, or alteration to an existing school building shall include parts of the building being changed, showing existing exits, existing type of construction and room occupancies which may be affected by the changes.

History: 1954 ACS 74, p. 14, Eff. May 15, 1973.

R 29.29 Occupancy during construction and repair.

Rule 29. (1) A school building under construction shall not be occupied in whole or in part until all exit facilities required for the part occupied are completed and approved for use, and the occupied part is separated from the part under construction by a wall having a 1-hour fire-resistance rating.

(2) A school building shall not be occupied during repairs or alterations unless existing exits and fire protection equipment are retained, or in lieu thereof, other measures are taken which provide equivalent safety.

(3) Flammable or explosive substances or equipment for repairs or alterations shall not be introduced in or on a school building of normally low or ordinary hazard classification while the building is occupied, unless the conditions of use and safeguards provided offset any additional danger or handicap to egress.

(4) A required exit, way of approach thereto and way of travel from the exit to the street or open space, shall be maintained free of all obstructions or impediments so it is available for full instant use as required by R 29.41(2).

(5) A required automatic sprinkler system, fire detection and alarm system, exit lighting, fire door and other items of equipment required in the occupied section shall be maintained in proper operating condition.

History: 1954 ACS 74, p. 14, Eff. May 15, 1973.

R 29.31 Construction; general provisions.

Rule 31. (1) A school building or an addition to a building of more than 1 story shall be of fire-resistive construction with all steel structural members protected with materials having a 1-hour fire-resistance rating.

(2) A wall having a 2-hour fire-resistance rating with not less than a B labeled fire door assembly in an opening shall be provided between a building of combustible construction and a building of noncombustible construction if the buildings are multistory.

(3) Forming materials left in place as a part of a permanent school building shall be noncombustible in a building of more than 1 story and noncombustible in a 1-story building in those areas required to be fire resistive. In no case shall such material be more hazardous than class C as defined in R 29.122.

(4) A subdivision of a building of mixed occupancy separated both horizontally and vertically by construction having a 4-hour fire-resistance rating may be classified as a separate building. An opening in a required fire wall shall be protected by a class B labeled fire door assembly.

(5) A folding type partition used as a separation in a room or between rooms, shall comply with R 29.122 and R 29.123 for areas of use, and in a multistory section of a building shall be of noncombustible material, except that underwriters' laboratories, inc. labeled impregnated wood or other material which conforms to class B in R 29.122 is acceptable.

History: 1954 ACS 74, p. 15, Eff. May 15, 1973.

R 29.32 Fire-resistive assemblies; doors and frames.

Rule 32. An assembly required to be fire resistive shall comply with fire ratings established by the American insurance association, fire resistance ratings, April,

1959 (revised), or with the underwriters' laboratories, inc., building materials list, 1971, or listed by a nationally recognized independent testing agency. Fire door assemblies shall be tested in compliance with the national fire protection association pamphlet no. 252, 1969, standard methods of fire tests of door assemblies, and bear the label of a nationally independent testing agency that provides inspection services.

History: 1954 ACS 74, p. 15, Eff. May 15, 1973.

R 29.33 Roof, ceiling, and attic construction.

Rule 33. (1) A fire-resistive ceiling, constituting an essential part of a floor or roof assembly, to meet the required fire-resistance rating shall be installed as tested and may only have openings to accommodate ducts or recessed electrical fixtures as indicated in the tested design. A duct opening shall be protected with the tested assembly or dampers constructed in compliance with R 29.13(2). An opening in a ceiling for an electrical box for a surface mounted or suspended fixture shall not be more than 16 square inches for each 90 square feet of ceiling area. In only a roof-ceiling assembly, a ceiling-floor assembly will be acceptable with the roof deck of any noncombustible material.

(2) In 1-story construction, an open combustible attic section, regardless of depth of area between the ceiling and roof, shall be subdivided into areas not more than 3,000 square feet, by an assembly of materials having a 1-hour fire-resistance rating.

History: 1954 ACS 74, p. 15, Eff. May 15, 1973.

R 29.35 Occupant loads.

Rule 35. (1) A school building or an individual story or part thereof for the purpose of determining exit dimensions shall not have less than 20 square feet per person of net classroom area or 50 square feet per person of net area of school shops and similar vocational rooms.

(2) The occupant load of an area having fixed seats shall be determined by the number of fixed seats installed. Required aisle space serving the fixed seats shall not be used to increase the occupant load.

(3) The occupant load of a school building or part thereof may be increased over that specified in subrule (1) if the necessary aisles and exits are provided. An aisle or seating diagram may be required for approval to increase the occupant load.

History: 1954 ACS 74, p. 15, Eff. May 15, 1973.

R 29.36 Occupant loads for rooms for more than 100 persons.

Rule 36. (1) The occupant load permitted in a public assembly place or part thereof shall be determined by dividing the net floor area or space assigned to that use by the square feet per occupant as follows:

(a) A public assembly place of concentrated use without fixed seats such as an auditorium, chapel, area used as a dance floor, or club room, 7 square feet per person.

(b) A public assembly place of less concentrated use such as a conference room, dining room, exhibit room, gymnasium or lounge, 15 square feet per person.

History: 1954 ACS 74, p. 16, Eff. May 15, 1973.

R 29.41 Exits and other safeguards.

Rule 41. (1) A school building shall be provided with exits sufficient to permit the prompt escape of occupants in case of fire or other emergency. Exits and other safeguards shall be designed so that reliance for safety to life in case of fire or other emergency will not depend solely on any single safeguard. Additional safeguards shall be provided for life safety in case any single safeguard is ineffective due to human or mechanical failure.

(2) A school building shall be provided with exits of kinds, numbers, location and capacity appropriate to the building, with due regard to the character of the occupancy, the number of persons exposed, the fire protection available and the height of the building, to afford all occupants convenient facilities for escape.

(3) Compliance with these rules shall not be construed as eliminating or reducing the necessity for other provisions for safety of persons such as physically handicapped students using a school building under normal occupancy conditions.

History: 1954 ACS 74, p. 16, Eff. May 15, 1973.

R 29.42 Exits; general provisions.

Rule 42. (1) School building exits shall be arranged and maintained to provide free and unobstructed egress from all parts of the building.

(2) Exits shall be located and exit access shall be arranged so that exits are readily accessible at all times. Where exits are not immediately accessible from an open floor area, safe and continuous passageways, aisles or corridors leading directly to not less than 2 exits by separate ways of travel shall be maintained, except when a single exit is permitted by R 29.43(5), R 29.44(3), R 29.48(1), R 29.56(5), and R 29.92(2).

(3) A required primary exit shall not be through an inner court. A secondary means of egress may be permitted through an inner court, when:

(a) The court has a minimum dimension of 45 feet, and

(b) The courtyard has 2 widely separated means of egress, 1 of which leads directly into an egress corridor, with doors hung to swing in the direction of egress.

(4) An exit shall discharge directly to the street, a yard, court or other open space that gives access to the street. A street to which an exit discharges shall be of adequate width to accommodate all persons who may leave the building by that exit. A yard, court or other open space to which an exit discharges shall also be of adequate width and size to provide all persons leaving the building with ready access to the street.

(5) A vertical way of exit and other vertical opening between floors of a school building shall be suitably enclosed or protected to afford reasonable safety to occupants while using the exit and to prevent spread of fire, smoke or fumes through the vertical opening from floor to floor before occupants have been discharged from exits.

History: 1954 ACS 74, p. 16, Eff. May 15, 1973.

R 29.43 Exits; number.

Rule 43. (1) A school building or part thereof of such size, occupancy and arrangement that the reasonable safety of its occupants may be endangered by the blocking of any single means of egress due to fire or smoke, shall have not less than 2 means of egress remote from each other, arranged to minimize any possibility that both may be blocked by any 1 fire or other emergency, except as provided in subrule (5).

(2) A school building and every floor, part or room thereof considered separately, shall have exits sufficient to provide for the capacity thereof, comprised of 1 or more types of exits as follows:

(a) A door leading directly outside the building at grade level or not more than 3 risers above or below grade, 100 persons per unit of exit width.

(b) A door leading outside the building but requiring steps of more than 3 risers to reach grade, 100 persons per unit of exit width. Steps shall have ⅓ more units of exit width than doors to allow for slower travel rate.

(c) Stairs, 60 persons per unit of exit width. See R 29.51(9) for a public assembly place.

(d) Ramps, 100 persons per unit of exit width.

(3) The same exit units or fraction thereof required for an individual floor may be counted as simultaneously serving all floors above the first story or street floor.

(4) Where exits serve more than 1 floor, only the population of each floor considered individually needs to be used in computing the capacity of the exits at that floor, but exit capacity shall not be decreased in the direction of exit travel. If means of egress from floors above and below converge at an intermediate floor, the capacity of the exit from the point of convergence shall be not less than the sum of the 2.

(5) Not less than 2 separate exits shall be available from each floor as remote from each other as practicable and arranged so there will be no dead ends. However, a tower room for not more than 20 persons and designed so that no point is more than 30 feet from the exit, may be permitted to have 1 exit only if the exit is into a stairway protected directly to the exterior at grade.

(6) A student occupied room having an inherent fire hazard shall have 2 means of egress in compliance with R 29.48(4). This includes a shop, science laboratory, cooking area of a homemaking suite and similar facility and an area with 3 or more gas outlets.

(7) Separate exits shall be provided from a stage sufficient for its occupancy, without entering the main part of an auditorium or gymnasium.

History: 1954 ACS 74, p. 16, Eff. May 15, 1973.

R 29.44 Distance to exits.

Rule 44. (1) In a building without complete automatic sprinkler protection, travel distance to the exterior or an enclosed stairway from any point in the building shall not be more than 150 feet. In a building with complete automatic sprinkler protection, travel distance to the exterior or an enclosed stairway from any point in the building shall not be more than 250 feet. For an open plan building see R 29.105(2).

(2) The distance to an exit shall be measured on the floor or other walking surface along the center line of the natural path of travel, starting 1 foot from the most remote point, curving around any corners or obstructions with 1 foot clearance therefrom and ending at the center of the doorway or other point at which the exit begins. Where measurement includes stairs, it shall be taken in the plane of the tread nosing.

(3) In an open area the distance to an exit shall be measured along the path of travel from the most remote point subject to occupancy. In a room for not more than 20 persons the distance to an exit shall be measured from the door of the room, but the path of travel from any point in the room to the door shall not be more than 50 feet.

(4) Where an open stairway is permitted as a path of travel to a required exit, such as between a balcony and the floor below, the distance shall include the

travel on the stairway and travel from the end of the stairway to reach an outside door or other exit in addition to the distance to reach the stairway.

History: 1954 ACS 74, p. 17, Eff. May 15, 1973.

R 29.45 Exit visibility and obstructions.

Rule 45. (1) An exit shall be clearly visible or the route to reach it shall be conspicuously indicated in a manner that every occupant will readily know the direction of escape from any point in the school building. Each path of escape, in its entirety, shall be arranged or marked so that the way to a place of safety outside is unmistakable. A doorway or passageway not constituting an exit or way to reach an exit, that may be mistaken for an exit, shall be arranged or marked to minimize possible confusion with an exit and the resultant danger of persons endeavoring to escape finding themselves trapped in a dead end space from which there is no exit.

(2) Ways of exit access and the doors to exits to which they lead shall be designed and arranged to be clearly recognizable as such. No hanging draperies shall be placed over an exit door or otherwise located to conceal or obscure an exit. No mirror shall be placed in, on, or adjacent to an exit in a manner to confuse the direction of exit.

(3) An exit, way of approach thereto and way of travel from an exit into a street or open space shall be maintained free of all obstructions or impediments so it is available for full instant use.

History: 1954 ACS 74, p. 17, Eff. May 15, 1973.

R 29.46 Exit lights.

Rule 46. (1) In a school building equipped for artificial illumination, lighting shall be provided for exit facilities to a value of 1 foot candle measured at the floor.

(2) A required corridor exit shall be designated with a clearly distinguishable exit sign and directional exit signs shall be installed where needed. An illuminated exit sign shall be installed at a required exit from a public assembly place.

(3) An illuminated exit sign circuit shall be installed in metal conduit on a separate circuit placed ahead of the main line switch and be supplied through the emergency panel. Other wiring shall not be in the same raceway or conduit which serves the exit lights and emergency exit lighting.

History: 1954 ACS 74, p. 18, Eff. May 15, 1973.

R 29.47 Exit dimensions.

Rule 47. (1) A means of egress shall be measured in units of exit width of 22 inches. A fraction of a unit shall not be counted, except that 12 inches added to 1 or more full units shall be counted as ½ of a unit of exit width.

(2) A unit of exit width shall be measured in the clear at the narrowest point of the means of egress, except that a handrail may project inside the measured width on each side not more than 3½ inches and a stringer may project inside the measured width not more than 1½ inches. An exit or exit access door swinging into an aisle or passageway shall not restrict the effective width thereof at any point during its swing to less than the minimum widths specified in R 29.43(2) and (4).

(3) An exit and way of exit access shall be designed and maintained to provide adequate headroom but in no case shall the ceiling height be less than 7 feet 6 inches, nor any projection from the ceiling be less than 6 feet 8 inches from the floor.

History: 1954 ACS 74, p. 18, Eff. May 15, 1973.

R 29.48 Exit doors.

Rule 48. (1) A door from a classroom or other student occupied room, shall enter the corridor between exits or there shall be direct egress to the outside from the room. However, an instructional area or workroom for not more than 20 persons in another room and not having its own corridor or outside exit shall comply with R 29.44(3).

(2) A door from a room to an exit or to a way of exit access shall be of the sidehinged, swinging type. It shall swing with exit travel if the room is for more than 20 persons.

(3) Required exit travel shall not be through openings protected with sliding, folding or roll down doors.

(4) Two doorways as remote from each other as practicable and as remote as ½ of the longest dimension of the room shall be provided for: (a) a classroom or space for more than 50 persons or more than 1,000 square feet in area, (b) a vocational room, laboratory space and locker room for more than 50 persons or more than 1,500 square feet in area and (c) a library for more than 50 persons or more than 2,000 square feet in area. The doorways shall provide access to separate exits, but where egress is through corridors, may open upon a common corridor leading to separate exits in opposite directions. One doorway may be through an adjoining classroom with a connecting door hung to swing in the direction of egress and shall not have locking hardware. If the door is to serve a second means of egress from both rooms it shall be glazed for vision and hung to swing in both directions.

History: 1954 ACS 74, p. 18, Eff. May 15, 1973.

R 29.51 Public assembly places.

Rule 51. (1) A public assembly place shall have exits to comply with its use capacity. A swimming pool used for spectator assembly shall also be treated as a public assembly place.

(2) A public assembly place for 1,000 persons or more shall not have less than 4 approved means of egress as remote from each other as practicable.

(3) A public assembly place for 500 persons to less than 1,000 persons shall not have less than 3 approved means of egress as remote from each other as practicable.

(4) A required exit from a public assembly place shall not be through another occupied area.

(5) In an open plan building if the open plan portion is adjacent to a public assembly place the assembly place shall have sufficient exterior exits for its occupancy.

(6) An individual unit of exit width shall not serve more than 100 persons.

(7) A door leading outside of a school building at grade level, or not more than 3 risers above or below grade, or ramps, shall not serve more than 100 persons per exit unit.

(8) A stairway or other type of exit shall not serve more than 75 persons per exit unit.

(9) Draperies and decorative materials in a public assembly place shall be of flameproof material or be treated with an approved flameproofing material.

History: 1954 ACS 74, p. 18, Eff. May 15, 1973.

R 29.52 Public assembly place exits in connection with closed corridors.

Rule 52. (1) If the remainder of a school building is of closed corridor exit plan, 50% of the required exits from a public assembly place shall be directly to the

outside or protected from the remainder of the building by construction and fire door assemblies having a ¾-hour fire-resistance rating, except in a building completely protected by an automatic sprinkler system. Such a fire door in a cross corridor partition may be held open if:

(a) Upon release the door becomes self-closing.

(b) An approved release device is provided and arranged so that upon an interruption of electric current the door will be released.

(c) An automatic sprinkler system or a fire detection system is provided.

(d) The electric current will be positively interrupted by: (i) operation of an automatic sprinkler system which protects the entire building, including both sides of any horizontal exit, the door of which is held open by any release so controlled; (ii) operation of an automatic fire detection system installed to protect the entire building, which will activate the system promptly to preclude the generation of heat or smoke sufficient to interfere with exit before the system operates; or (iii) operation of an automatic smoke detection system installed to detect smoke or other products of combustion on both sides of the door opening.

(e) The release device is designed so that it may be instantly released manually by some simple and readily obvious operation.

(2) In an otherwise acceptable arrangement of 2 or more classrooms being separated by folding partitions, the requirements concerning panic hardware and 50% of required exits to be direct to or protected to the outside, shall be waived if the large space provided by folding back all partitions is not a conventional public assembly place and is not used for more than the number of students normally using the space as individual classrooms.

History: 1954 ACS 74, p. 19, Eff. May 15, 1973.

R 29.53 Public assembly place balconies.

Rule 53. (1) If the seating capacity of a balcony in a public assembly place is for more than 500 persons, 3 separate exits shall be provided.

(2) Where a balcony area is divided by a folding wall into 2 teaching areas, a connecting door shall be placed in the wall or other provisions made so that both portions of the balcony shall have 2 approved means of egress.

(3) If a partition is used to separate a balcony from its main floor area, the stairway serving the balcony area shall be protected to the exterior at grade.

(4) Where a balcony area is exposed to a multistory building above the first floor, there shall be a separation having not less than a ¾-hour fire-resistance rating.

(5) The fascia of a box, balcony and gallery shall have a substantial railing not less than 26 inches high above the floor.

(6) The railing at the end of an aisle extending to the fascia shall not be less than 30 inches high, or 36 inches high if at the foot of the steps, and extend for the width of the aisle.

(7) A cross aisle, except where the backs of seats on the frontside of the aisle project 24 inches or more above the floor of the aisle, shall be provided with railings not less than 26 inches high.

History: 1954 ACS 74, p. 19, Eff. May 15, 1973.

R 29.54 Public assembly place fixed seating; length of rows.

Rule 54. (1) A continuous row of seats between aisles in a public assembly place shall not have more than 14 seats except as authorized in subrule (2) and R 29.55(2).

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

(2) A row of 100 or more seats, whether or not continuous, shall have 1 exit along each side aisle for each 5 rows of seats and each exit shall have a clear width of 66 inches.

(3) A row of seats opening on an aisle at 1 end only shall not have more than 8 seats.

(4) The number of seats in seating without dividing arms shall be determined by allowing 18 inches per person.

(5) Each seat in a row of any length shall comply with R 29.44.

History: 1954 ACS 74, p. 19, Eff. May 15, 1973.

R 29.55 Public assembly place fixed seating; spacing between rows.

Rule 55. (1) Except as provided in subrule (2), spacing in a public assembly place of rows of seats from back to back shall not be less than 33 inches, nor less than 27 inches plus the sum of the thickness of the back and inclination of the back. A space of not less than 12 inches shall be provided between the back of 1 seat and the front of the seat immediately behind it as measured between plumb lines.

(2) Spacing in a public assembly place of rows of seats having more than 14 continuous seats between aisles shall provide a clear space between rows measured horizontally, with automatic or self-rising seats measured in the seat-up position and other seats measured in the seat-down position, as follows:

Rows	Space
15 - 18 seats	18 inches
19 - 35 seats	20 inches
36 - 45 seats	21 inches
46 seats or more	22 inches

(3) A seat having a tablet arm shall have a clear space between rows measured from the end of the tablet arm when the arm is in the up position.

History: 1954 ACS 74, p. 20, Eff. May 15, 1973.

R 29.56 Public assembly place aisles.

Rule 56. (1) An aisle in a public assembly place shall not be less than 3 feet wide if serving seats on 1 side only, and not less than 3 feet 6 inches wide if serving seats on both sides. If serving 60 seats or less, an aisle may not be less than 2 feet 6 inches wide. This minimum width shall be measured at the point farthest from an exit, cross aisle or foyer and shall be increased in width by 1¼ inches for each 5 feet in length to the exit, cross aisle or foyer.

(2) An aisle shall terminate in an exit, cross aisle or foyer either of which has a width not less than the sum of the required width of the widest aisle plus 50% of the total required width of the remaining aisles which it serves.

(3) With fixed seating as prescribed in R 29.55, a side aisle shall not be less than 44 inches wide.

(4) A dead end aisle shall not be more than 20 feet long.

(5) Steps shall not be placed in an aisle to overcome differences in level unless the gradient is more than 1 foot of rise in 8 feet of run. Steps in an aisle shall conform to the requirements for a stairway as to riser and tread.

(6) The gradient of a sloping aisle shall not be more than 1 foot of rise in 8 feet of run.

History: 1954 ACS 74, p. 21, Eff. May 15, 1973.

R 29.61 Corridors.

Rule 61. (1) A corridor shall not be less than 6 feet wide in the clear.

(2) The swing of room doors into corridors shall be in the direction of egress and shall not encroach upon the clear width of the passageway at the termination of its swing except that a door may project not more than 8 inches into the corridor at the termination of its swing. Where the provision of sufficient depth for a full recess is not feasible, doors shall be hung flush with the face of the corridor walls so that they may swing 180 degrees against the walls in the direction of normal egress travel to the nearest exit. However, the requirements as to direction of door swing do not apply to a room for 20 persons or less.

(3) A drinking fountain or other fixed movable equipment shall not be placed to obstruct the required corridor width.

(4) Where a single way of exit access leads to an exit, its capacity in terms of width shall be at least equal to the required capacity of the exit to which it leads. Where more than 1 way of exit access leads to an exit, each shall have a width adequate for the number of persons it is required to accommodate.

(5) A required corridor separation, except in a corridor serving a place of public assembly, shall have a ½-hour fire-resistance rating and be carried to the floor or roof above. Openings in the separation shall be protected accordingly. A door for a room into a corridor shall be 1¾ inches thick and of solid bonded core wood or the equivalent. See R 29.81 and R 29.82 for requirements for labeled fire door assemblies for rooms requiring additional protection. One-quarter inch wired glass shall be approved if installed in steel frames, or in wood frames or stops if hardwood material not less than ¾-inch actual dimension and not more than 1,296 square inches per panel and no dimension more than 54 inches is used. An assembly of materials tested and approved in compliance with the American society of testing and materials, standard no. E-119, 1969, fire tests of building construction and materials, shall be approved. Corridor protection is not required when all occupied areas exposed to the corridor have 1 door directly to the outside as described in R 29.126(1). A required corridor serving a public assembly place shall comply with R 29.52.

(6) A required corridor serving a public assembly place shall be protected from the remainder of the building by construction and doors having a ¼-hour fire-resistance rating. A door, duct opening and wired glass shall comply with subrule (5). R 29.81 and R 29.82 include separations requiring additional protection.

(7) A corridor shall be continuous to exterior exits and shall not pass through rooms as part of the required means of egress.

History: 1954 ACS 74, p. 20, Eff. May 15, 1973.

R 29.63 Corridor lockers, wardrobes, racks, and shelves.

Rule 63. A corridor locker or a wardrobe shall be constructed of noncombustible material. An open coat rack is not permitted. A locker or a wardrobe shall be constructed to assure that clothing, footwear and books will be contained within its area and that the corridor egress required width will be maintained.

History: 1954 ACS 74, p. 21, Eff. May 15, 1973.

R 29.65 Student toilets.

Rule 65. A student toilet room with walls of corridor fire-resistive construction carried to the floor or roof above, having approved corridor finish throughout and a mechanical exhaust system adequate to prevent effectively movement of air into the corridor, may be considered as an extension of the corridor system allowing corridor doors to be omitted. A waste disposal receptacle shall be of substantial

metal construction to withstand abuse, and securely fastened to the wall or recessed, maintaining the required wall separation, and protected by an automatic sprinkler system.

History: 1954 ACS 74, p. 21, Eff. May 15, 1973.

R 29.71 Exit doors; general.

Rule 71. (1) An exit door shall be of the swinging type and shall swing in the direction of exit travel from a room or space for more than 20 persons.

(2) A door giving access to a stairway shall swing in the direction of exit travel. A door during its swing shall not block a stairway or a landing and shall not at any point in its swing reduce the effective width of the stairway or landing to less than 20 inches, nor when open interfere with full use of the stairway.

(3) A screen door or storm door in connection with a required exit shall not swing against the direction of exit travel.

(4) A double action door shall not be permitted in an exitway, except as specified in R 29.48(4).

(5) A revolving door shall not be used as an exit.

(6) An exterior door shall be provided for a room housing physically handicapped children on a group basis, where the handicap impairs mobility.

History: 1954 ACS 74, p. 21, Eff. May 15, 1973.

R 29.72 Exit door dimensions.

Rule 72. (1) An exit door shall not be less than 6 feet 8 inches high.

(2) In determining units of exit width for an exit door, only the actual width of the door leaf shall be measured. A projection into the doorway by a doorstop or the hinge stile shall be disregarded.

(3) Where an exit door has 2 or more leaves separated by mullions, the allowable units of exit width for the entire door shall be the sum of the units of exit width calculated separately for each individual leaf in the opening.

(4) A single door from a classroom to a corridor, from a classroom to the outside, or from a corridor to the outside, shall not be less than 36 inches nor more than 48 inches wide.

(5) A single leaf in a double exit door with or without a mullion shall not be less than 30 inches wide.

History: 1954 ACS 74, p. 21, Eff. May 15, 1973.

R 29.73 Exit door floors and glazing.

Rule 73. (1) The floor on both sides of an exit door shall be substantially level and shall have the same elevation for a distance on each side not less than the width of the widest single leaf of the door. If the exit door discharges to the outside or other exterior exit or exit access, the floor level outside the door may be 1 step lower than inside, but not more than 7½ inches lower.

(2) If an exterior door from a corridor or public assembly place is glazed for visibility, the glazing shall be shatterproof or of wired glass, unless the glazing is located not less than 6 inches above the opening hardware. This also applies to an interior vestibule door.

History: 1954 ACS 74, p. 22, Eff. May 15, 1973.

R 29.74 Exit doors operated by power.

Rule 74. Where a required exit door is operated by power, such as a door with photoelectric actuated mechanism to open the door upon approach of a person or a door with power-assisted manual operation, in case of power failure the door

Digitized by Google UNIVERSITY OF MICHIGAN

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

shall be manually openable to permit exit travel or closeable where necessary to safeguard the means of egress. A door operated by power shall not be counted as a required exit unless it swings in the direction of exit travel by mechanical or manual means.

History: 1954 ACS 74, p. 22, Eff. May 15, 1973.

R 29.75 Door frames and hardware; general.

Rule 75. (1) A single or double door separating a room from a required exit corridor shall be installed in a fully stopped frame, be equipped with latching hardware and be nonlocking against egress. As an exception, a toilet room door may have push-pull hardware and one or more closing devices.

(2) A latch shall be actuated by knobs not less than 2 inches in diameter which will release the latch by turning either way, a lever not less than 4¼ inches long measured from the center of the cylinder, or panic hardware.

(3) A set of double doors without a mullion if exposing a required exit corridor shall be equipped with an astragal and one or more synchronizing closing devices or shall be equipped with hardware underwriters' laboratories, inc., approved for use without an astragal and synchronizing device. If such approved hardware is used the total assembly shall comply with underwriters' laboratories, inc., specifications.

(4) Hardware on an exit door from an elementary grade room shall be installed low enough for easy operation by children.

History: 1954 ACS 74, p. 22, Eff. May 15, 1973.

R 29.76 Latching hardware for single means of egress.

Rule 76. An area subject to occupancy with a single means of egress equipped with latching hardware, with no other provisions for emergency exiting, way out or emergency window, shall have latching hardware which may be opened without the use of tools if the primary latch or bolt actuating mechanism fails. This requirement will be satisfied by having 2 completely independent latch or bolt withdrawal systems, each capable of withdrawing the same latch or bolt. The point at which the systems apply pressure to the latch or bolt shall be attached to the latch unit in a manner which is capable of withstanding a pulling force of 1,000 pounds without deformation or failure. This latching hardware shall be identified by the registered mark of a nationally recognized independent testing laboratory located on the exposed flat surface of the latch bolt.

History: 1954 ACS 74, p. 22, Eff. May 15, 1973.

R 29.77 Panic hardware for doors.

Rule 77. (1) A required exit door and room door for 100 or more persons shall be operated by panic hardware. A required exit door for an area for less than 100 persons may be equipped with the same knob-operated schoolhouse-type lock as is used on classroom doors leading to a corridor, with no provision for locking against egress from the classroom. See also R 29.52(2).

(2) If an exit door is required to be equipped with panic hardware, the panic hardware shall cause the door latch to release when pressure of not more than 15 pounds is applied to the releasing device in the direction of exit travel. The releasing device shall be a bar or panel extending not less than ⅓ of the width of the door and placed at a suitable height, not less than 30 inches nor more than 44 inches above the floor. Only approved panic hardware shall be used on an exit door.

(3) Required panic hardware shall not be equipped with a locking or dogging device, set screw or other arrangement which can be used to prevent release of the latch when pressure is applied to the bar.

(4) A lock, padlock, hasp, bar chain or other device or combination thereof shall not be installed or maintained during occupancy by other than custodial personnel on, or in connection with, a door on which panic hardware is required if such device prevents, or is intended to prevent, free use of the door for exit purposes.

History: 1954 ACS 74, p. 22, Eff. May 15, 1973.

R 29.81 Fire door assembly resistance ratings.

Rule 81. A fire door assembly without a hold-open device shall be provided as follows:

(a) A fire door assembly to a stairway or ramp serving more than 2 stories shall be underwriters' laboratories, inc., C labeled or factory mutual ¾-hour labeled.

(b) A door in a wall having a 1-hour fire-resistance rating shall be a B labeled door or a 1½-hour labeled fire door assembly.

(c) An opening in a fire wall shall be protected by a fire door assembly having a 1-hour fire-resistance rating.

History: 1954 ACS 74, p. 23, Eff. May 15, 1973.

R 29.82 Fire door frames and hold-open devices.

Rule 82. (1) A labeled fire door assembly shall be installed in a fully stopped frame, except that an unlabeled single-type steel channel frame may be used for a labeled fire door not of wood or plastic composite type if clearly indicated and specified in plans.

(2) A hold-open device, such as fuse link equipment, shall not be permitted on a fire door, except time-lag, self-closing hardware that will hold a fire door, other than a stairway and ramp enclosure door, open for not more than 2 minutes before closing the door automatically.

History: 1954 ACS 74, p. 23, Eff. May 15, 1973.

R 29.83 Fire door hardware.

Rule 83. (1) Locks, bolts, and panic hardware, if used on a fire door assembly, shall be labeled or listed in compliance with the listing and reexamination service of an approved nationally recognized testing laboratory.

(2) A door in a stair enclosure wall shall be provided with approved positive latching means to hold it in the closed position against the pressure of expanding fire gases.

(3) A fire door and smoke barrier door shall be provided with a reliable self-closing mechanism, and shall not at any time be secured in the open position except as permitted by R 29.52(1) or R 29.82(2). A corridor door into a stairway or ramp shall bear a sign reading substantially as follows:

Fire Door
Keep Closed

(4) Fire doors used in pairs without a mullion shall be equipped with an astragal and synchronizing closing hardware or shall be equipped with hardware for use without an astragal and synchronizing device in compliance with subrule (1), except in an opening enclosing a nonstudent room such as a storage room, receiving room, machine room, heating plant room, transformer room, and incinerator room, the normally inactive leaf may be held closed with top and bottom dead bolts and an astragal shall be provided.

History: 1954 ACS 74, p. 23, Eff. May 15, 1973.

R 29.85 Turnstiles.

Rule 85. (1) A turnstile or a similar device to restrict travel to 1 direction shall not obstruct a required means of egress, except that an approved turnstile not more than 3 feet high, which turns freely in the direction of exit travel, may be used.

(2) A turnstile in, or furnishing access to, a required exit shall provide 22 inches of clear width as the turnstile rotates.

(3) A turnstile shall not be placed in a required exit, or bar the way of access thereto or travel therefrom, unless within 20 feet there is a swinging door or gate opening freely in the direction of exit travel or an open passage serving the same general path of travel as the turnstile.

History: 1954 ACS 74, p. 23, Eff. May 15, 1973.

R 29.87 Inner courts.

Rule 87. An inner court used for pupil activities shall be considered as a classroom and comply with rules relating to exits from classrooms, distance to exits and exit doors. If a court would normally be for more than 100 persons, it shall be classed as a public assembly place and shall have sufficient exits as required by these rules.

History: 1954 ACS 74, p. 24, Eff. May 15, 1973.

R 29.91 Stairway and ramp walls.

Rule 91. The enclosing walls of a floor opening serving a stairway or ramp shall be arranged to provide a continuous path of escape, including landings and protection for persons using the stairway or ramp against fire or smoke therefrom in other parts of the school building. Such walls shall have a 2-hour fire-resistance rating in a new building of 4 stories or more of fire-resistive construction, and 1-hour in any other new building of fire-resistive construction.

History: 1954 ACS 74, p. 24, Eff. May 15, 1973.

R 29.92 Stairway locations.

Rule 92. (1) A required stairway shall be located on outside walls and be continuous to the outside at grade. An exit from a floor above the first shall be by an inside stairway. Two stairways with a common termination point or intermediate landing are considered as a single stairway.

(2) A stairway or exit shall be located so the distance of travel from any room will not be more than that specified in R 29.43(1) and with respect to corridors, passages and rooms there will be no dead ends in which pupils might be trapped. A storage room, general office, toilet room and like facility other than those for pupil use, are exempt from this requirement, allowing a dead end corridor where no regular pupil occupancy on a group basis is provided. A door in such dead end area may not be more than 50 feet from a point in an exit corridor having access to exits in different directions.

History: 1954 ACS 74, p. 24, Eff. May 15, 1973.

R 29.93 Stairway enclosures.

Rule 93. (1) A stairway enclosure serving more than 2 stories shall be equipped with a C labeled or ¾-hour labeled fire door assembly and no other glass shall be permitted.

(2) A required stairway serving a 2-story building shall be enclosed at the lower floor level with noncombustible construction, installed to be smoketight and

having a ½-hour fire-resistance rating with a C labeled or ¾-hour labeled fire door. One-quarter inch wired glass in steel framing, not more than 1,296 square inches per opening, with no dimension more than 54 inches shall be permitted. If the lower floor is more than 4 feet below grade the stairway shall be enclosed at both levels. Other stairways shall be enclosed in like manner at either the top or lower floor level.

(3) A building having not more than 2 levels, where neither level is a basement and both levels exit at grade and the vertical rise between levels is not more than 4 feet, will be considered as 1-story and enclosures will not be required between levels.

(4) A room door or opening into a stairway other than a corridor access door is prohibited except where a floor is an open area such as a cafeteria floor or tower room as described in R 29.42(4).

(5) A storage space over or under a stairway shall have a 1-hour fire-resistance rating and shall not open into the stairway or exit space.

History: 1954 ACS 74, p. 24, Eff. May 15, 1973.

R 29.94 Stairway dimensions.

Rule 94. (1) A stairway shall not be less than 44 inches wide, clear of obstructions except handrails which shall not project more than 3½ inches on each side. A riser shall not be more than 7½ inches high and a tread shall not be less than 10 inches wide from front to rear, exclusive of nosing or projection. Winders are not permitted. The headroom shall not be less than 6 feet and 8 inches. The height between landings shall not be more than 8 feet. The dimension of a landing in the direction of travel shall not be less than 44 inches. A door opening on a stairway without a landing at least as wide as the door shall not be permitted.

(2) The height of a riser and the width of a tread shall be so proportioned that the sum of 2 risers and a tread, exclusive of its nosing or projection, is not less than 24 or more than 25 inches. The variation in the width of treads or in height of risers shall not be more than $\frac{3}{16}$-inch, except as permitted by R 29.95(8) for monumental stairways.

History: 1954 ACS 74, p. 24, Eff. May 15, 1973.

R 29.95 Stairway construction and capacity.

Rule 95. (1) The number of steps in a stairway shall not be less than 3.

(2) The rated capacity of a stairway shall be 60 persons per 22 inches of width.

(3) A stairway, platform or landing serving as a required means of egress shall be of permanent fixed construction of fire-resistive noncombustible material throughout, except that handrails are exempt from this requirement.

(4) A stairway, platform, landing, balcony, and stair hallway floor shall carry a load of 100 pounds per square foot, or a concentrated load of 300 pounds, so located to produce maximum stress conditions.

(5) Where stairway treads and landings may involve danger of persons slipping, nonslip material shall be provided.

(6) Arrangement of treads known as winders shall not be permitted in a new stairway, except as permitted by subrule (8) for a curved monumental stairway, and for those used as access to a storage mezzanine, for maintenance operations, and to a swimming pool viewing port area which may be used on an individual basis.

(7) A stairway and intermediate landing shall continue with no decrease in width along the direction of exit travel.

Digitized by Google

(8) A monumental stairway, either inside or outside, may be accepted as a required exit if all requirements for exit stairways are complied with, including required enclosures and minimum width of treads, except that curved steps may be accepted with a radius of 25 feet or more at the inner edges.

History: 1954 ACS 74, p. 25, Eff. May 15, 1973.

R 29.96 Guards and handrails.

Rule 96. (1) A new stairway, stairway landing, balcony appurtenance and a stairway leading from a mezzanine which forms a part of a path of travel to exits, shall be guarded against falls and shall have handrails on both sides, except that handrails are not required on level landings or balconies.

(2) Guards and handrails shall continue for the full length of each stairway.

(3) Guards and handrails shall minimize the possibility of engaging loose clothing.

History: 1954 ACS 74, p. 25, Eff. May 15, 1973.

R 29.97 Guards.

Rule 97. (1) A guard is not required for inside stairways which reverse direction at intermediate landings, where the horizontal distance between successive flights is not more than 1 foot, except that the top flight shall comply with subrule (3).

(2) A guard shall not be less than 42 inches high. A guard protecting changes in level, 1-story or less, on an interior balcony or mezzanine shall not be less than 36 inches high. The height shall be measured vertically to the top of the guard from a point on the tread 1-inch back from the leading edge or from the floor of a landing or balcony.

(3) A guard shall be constructed so that the area in the plane of the guard from the top of the floor, riser or curb to the minimum required height of the guard shall be subdivided or filled in such a way to protect against falling through the guard in compliance with the national fire protection association pamphlet no. 101, 5-3165.d(1-6), 1970, guard details.

(4) An enclosure wall or guard consisting of masonry railing or other construction shall support loads transmitted by attached handrails or shall resist a horizontal thrust of 50 pounds per lineal foot applied at the top of the guard, whichever condition produces maximum stress. For a wall or guard higher than minimum height, the specified thrust shall be applied 42 inches above the floor or tread.

(5) An intermediate rail, baluster or panel filler shall support a uniform load over the gross area of the guard, including the area of any openings in the guard of which it is a part, of not less than 25 pounds per square foot. Reactions due to this loading need not be added to the loading specified by subrule (4) in designing the main supporting members of guards.

History: 1954 ACS 74, p. 25, Eff. May 15, 1973.

R 29.98 Handrails.

Rule 98. (1) A handrail on a stairway shall not be less than 30 inches nor more than 34 inches above the upper surface of the tread, measured vertically to the top of the rail, from a point on the tread 1-inch back from the leading edge, except that on a stairway for use by small children an additional handrail may be provided lower than the main handrail.

(2) A handrail shall provide a clearance of not less than 1½ inches between the handrail and the wall to which it is fastened. A handrail shall be supported to

withstand a load of not less than 200 pounds applied at any point downward or horizontally.

(3) A handrail shall permit continuous sliding of a hand on the rail.

(4) A stairway required to be more than 88 inches wide shall have intermediate handrails dividing the stairway into portions not more than 88 inches wide, except that on monumental outside stairs 2 handrails may be permitted.

History: 1954 ACS 74, p. 25, Eff. May 15, 1973.

R 29.101 Ramps.

Rule 101. (1) A ramp may be used as a component in a means of egress if it conforms to the general requirements of R 29.41 to R 29.45 and to the special requirements of this rule, and is used as a ramp or an exit ramp.

(2) A ramp shall not be less than 44 inches wide and shall have a slope not greater than 1 foot in 12 feet, 8⅓%. There shall be no limit to height between floors except as specified by authority of Act No. 1 of the Public Acts of 1966, being §§125.1351 to 125.1356 of the Michigan Compiled Laws. The capacity in persons per unit of exit width shall be 100.

(3) A ramp inside a school building, used as an exit or exit component, shall be protected by separation from other parts of the building. The separating construction shall meet the following requirements and, in addition, shall conform to the applicable portions of R 29.91 to R 29.98 for stairways:

(a) The separation shall have a 1-hour fire-resistance rating in a building of 3 stories or less.

(b) The separation, including supporting structural steel, shall have a 2-hour fire-resistance rating in a building of 4 stories or more, and shall be constructed of noncombustible materials.

(c) An opening in a separation shall be protected by an approved self-closing fire door in compliance with R 29.81(b) and R 29.93(1) and (2), depending on the number of floors served by the ramp.

(4) There shall not be enclosed usable space under a ramp in an exit enclosure nor shall the open space under the ramp be used for any purpose unless the space is separated by construction having a 1-hour fire-resistance rating and does not open in a corridor, ramp or stairway.

(5) A ramp and the platforms and landings connected therewith shall be designed for not less than 100 pounds per square foot live load.

(6) The slope of a ramp shall not vary between landings. Landings shall be level and changes in direction of travel shall be made only at landings.

(7) The construction of an exit ramp of a school building shall conform to the noncombustible fire-resistive construction requirements for the building. The ramp floor and landing shall be solid and without perforations.

(8) A ramp shall have a nonslip surface.

(9) Guards in compliance with R 29.97 for a stairway shall be provided in comparable situations for a ramp.

History: 1954 ACS 74, p. 26, Eff. May 15, 1973.

R 29.103 Vertical openings.

Rule 103. (1) A stairway, elevator shaft, light and ventilation shaft, chute and any other opening between stories shall be enclosed or protected to prevent the spread of fire or smoke, except as an unenclosed opening is specifically permitted by provision for automatic sprinkler protection. See R 29.198(5).

(2) A floor opening, as specified in subrule (1) shall be enclosed by substantial walls having a fire-resistance rating in compliance with R 29.91 and R 29.93.

History: 1954 ACS 74, p. 26, Eff. May 15, 1973.

R 29.105 Open plan buildings and flexible floor plan arrangements.

Rule 105. (1) An open plan building shall not be more than 30,000 square feet in undivided area.

(2) Travel distance from any point in an open plan building to an exit door directly to the outside, or to a stairway in an unsprinklered building shall not be more than 100 feet in line of travel, and shall not be more than 250 feet in line of travel in a building completely protected by an automatic sprinkler system.

(3) Interior finish in an unsprinklered open plan building shall be class A or class B throughout, except that movable partitions not more than 7 feet high may be class C. In a 1-story building the exposed portions of structural members complying with the requirements for heavy timber construction shall be permitted. This shall not include a construction known as, or similar to, "lamella."

(4) A separated area for more than 20 persons in an open plan section of a building shall have an area open to the balance of the open plan section equivalent to not less than 15% of its perimeter surface unless the area is provided with protected egress in compliance with R 29.45.

(5) An open plan building shall have exits independent from the assembly portion and be separated therefrom by construction for corridor walls in compliance with R 29.61(5). See R 29.51(6) for public assembly place exits.

(6) Where flexible floor plan arrangements which will affect exiting conditions are contemplated by use of movable temporary partitions or furnishings, floor diagrams shall be approved in advance to comply with R 29.25.

(7) Travel distance in a flexible plan building to an exit door directly to the outside or enclosed stairway shall comply with R 29.43.

(8) Interior finish in an unsprinklered flexible plan building shall be class A or B throughout. In a 1-story building the exposed portions of structural members complying with the requirements for heavy timber construction shall be permitted. This shall not include a construction known as, or similar to, "lamella."

History: 1954 ACS 74, p. 26, Eff. May 15, 1973.

R 29.107 Elevators.

Rule 107. (1) An elevator shaft shall be enclosed in compliance with R 29.103.

(2) An elevator shall not constitute a required means of exit.

(3) If an automatic elevator serves a school building of more than 3 stories, or more than 3 stories above grade, 1 or more elevators shall be equipped for fire emergency use by fire fighters as follows:

(a) A key-operated switch with light jewel shall be provided adjacent to the elevator at the street or first floor. The switch shall remove the elevator from normal service and place it on firemen's service.

(b) The key-operated switch, if operated, shall cancel existing car calls, prevent registration of further car calls, prevent the opening of the elevator doors except at the landing at which the switch is located and cause the car to travel to that landing bypassing other landing calls. The light jewel shall be illuminated if the car is returning to the firemen's landing in response to operation of the key-operated switch.

(c) If the car arrives at the firemen's landing, the doors shall open and remain open until closed by inside operation of the elevator.

(d) A key-operated switch shall be provided in the car which can be operated only by the key which operates the firemen's landing switch and which, if operated, permits operation of the elevator only from the car-operating buttons and causes the elevator to bypass landing calls.

History: 1954 ACS 74, p. 27, Eff. May 15, 1973.

R 29.108 Rubbish chutes, laundry chutes, and incinerator flues.

Rule 108. (1) A rubbish chute, laundry chute and an incinerator flue shall be enclosed and its opening shall comply with R 29.103. The chute or incinerator flue shall not open directly on an exit, or corridor to an exit, but shall be in a separate room or closet separated from the exit or from the corridor by a 1-hour labeled fire door assembly.

(2) A rubbish or laundry chute and an incinerator flue shall be of a standard type properly protected and maintained for fire safety in compliance with the national fire protection association pamphlet no. 82, 1970, "Incinerators, Rubbish Handling."

(3) A chute, other than an incinerator flue, and a drop room, holding room or bin shall be provided with automatic sprinkler protection.

History: 1954 ACS 74, p. 27, Eff. May 15, 1973.

R 29.109 Incinerators and incinerator rooms.

Rule 109. (1) An incinerator shall not be fed from a corridor.

(2) An incinerator, if installed, shall be located in the heating plant room or in a separate room.

(3) If an area of a heating plant room is used for accumulation of material to be incinerated, or otherwise disposed of, the heating plant room shall be protected by automatic sprinklers.

(4) A separate incinerator room shall have no other occupancy and shall be protected by automatic sprinklers.

(5) A separate incinerator room shall comply with the physical requirements for construction, fire protection and location of a heating plant room, except for the prohibition against being under a part of a school building.

(6) A room to be used for accumulation of material to be incinerated, or otherwise disposed of, shall be protected by automatic sprinklers.

History: 1954 ACS 74, p. 27, Eff. May 15, 1973.

R 29.111 Underground areas, windowless areas, and emergency windows.

Rule 111. (1) A part of a school building having the floor level below the level of its exit discharge shall be completely protected by an automatic sprinkler system. Rooms having openable windows are exempt from this requirement. R 29.112(1) does not apply to floor levels below the exit discharge level.

(2) Except in a building completely protected by an automatic sprinkler system, a room or space used for classroom or other educational purposes or for more than 20 students, unless it has a door leading directly to the outside of the building, shall have 1 outside window which can readily be used for emergency rescue or ventilation purposes, and which meets all of the following requirements:

(a) The window is readily openable from the inside without use of tools.

(b) The window provides a clear opening with a dimension of not less than 22 inches and is not less than 5 square feet in area.

(c) The bottom of the window opening is not more than 32 inches above the floor. This may be increased to 44 inches where a fixed counter, unit ventilator, fixed bookcase, or other suitable, substantial, fixed, horizontal surface is located directly beneath the window, is as long as the width of the window and has a depth of not less than 12 inches and a height of not more than 36 inches above the floor.

(d) Storm windows, screens or burglar guards, when used, are provided with quick opening devices so that they may be readily opened from the inside for

emergency egress and are arranged so that if opened they will not drop to the ground.

(e) An emergency window is identified by a durable, permanently legible sign, securely fastened at a conspicuous location and having letters not less than ¾-inch high with ⅛-inch strokes.

(f) Opening hardware is simple and uncomplicated, operable by a single motion lever or a reasonably sized knob, and does not project into the required clear emergency opening if the window is in an open position.

(g) In a building not more than 1 story above grade, a room with an emergency window that opens on an inner court may be considered as having a window satisfactory for emergency rescue and ventilation purposes if the courtyard has a dimension of not less than 45 feet with doors hung to swing in the direction of egress, and has 2 widely separated means of egress, 1 of which leads directly into an approved egress corridor.

(3) A windowless building shall be provided with outside access panels on each floor level for fire department access from ladders for purposes of ventilation and rescue of trapped occupants.

History: 1954 ACS 74, p. 28, Eff. May 15, 1973.

R 29.112 Waiver of windowless area sprinkler requirements.

Rule 112. (1) The requirements of R 29.111 for complete sprinkler protection, except R 29.111(1), shall be waived if:

(a) The windowless section of the story is not more than 25% of the total area of the story excluding corridors.

(b) Egress from the occupied spaces does not require travel past an area of hazardous occupancy.

(c) Reasonable judgment in not requiring sprinklers is used to uphold the life safety purposes of these rules.

(2) Considered separately from subrule (1), the requirements of R 29.111 for sprinklers shall be waived when any of the following conditions exist:

(a) All windowless rooms and spaces have a secondary corridor completely separated from the primary means of egress by construction having a ¾-hour fire-resistance rating, including any doors, frames, side lights, borrowed lights, walls and ceilings.

(b) All windowless rooms, spaces and public assembly places have 50% of their required exits visible directly to the exterior of the building and within 20 feet from the door of the occupied room and this egress does not pass an area of hazardous occupancy.

History: 1954 ACS 74, p. 28, Eff. May 15, 1973.

R 29.115 Exit lighting for underground areas and windowless buildings.

Rule 115. An underground area or windowless building, for which no natural lighting is provided and which is for more than 100 persons in any room or separated area, shall be provided with emergency exit lighting and corridor lighting, to a value of 1-foot candle measured at the floor. The lighting shall have a primary supply of electricity by the normal circuits in the building as supplied by a public utility service, and a secondary supply consisting of underwriters' laboratories, inc., approved unit devices having individual batteries supplying electricity, which may be at a voltage different from that of the primary lighting, or an emergency generator with automatic changeover features either of which will supply emergency lighting for ½ hour. The units shall have suitable equipment to keep them automatically charged. The units shall be provided with automatic

controls so that after the batteries operate due to a failure or turning off of the primary supply, they will shut off after their specified period of operation and will be automatically recharged and ready for further service when the primary supply is again turned on.

History: 1954 ACS 74, p. 29, Eff. May 15, 1973.

R 29.121 Interior finish of buildings.

Rule 121. (1) The interior finish of a school building includes the material of its walls, fixed or movable partitions, ceilings, and other exposed interior surfaces, comprising both the plaster, wood or other interior finish materials. Doors, trim, backing of shelving, cabinets, and wardrobes shall be included in the 10% of class C finish permitted in R 29.124(3).

(2) A floor finish or floor covering shall be exempt from interior finish requirements except that a floor surface having an unusual hazard is considered a part of interior finish.

History: 1954 ACS 74, p. 29, Eff. May 15, 1973.

R 29.122 Interior finish classifications.

Rule 122. (1) The alphabetical classification of finish materials is for flame spread, fuel contribution, and smoke development as determined by a tunnel test in compliance with the national fire protection association pamphlet no. 255, 1969, method of test of surface burning characteristics of building materials; the American society for testing and materials standard no. E-84, 1968, test for surface burning characteristics of building materials, or underwriters' laboratories, inc., standard no. 723, 1960, test method for fire hazard classification of building materials, and grouped as follows:

Class	Flame Spread	Fuel Contributed	Smoke Developed
A	0 - 25	0 - 35	0 - 50
B	26 - 75	36 - 75	51 - 125
C	76 - 200	76 - 200	126 - 200

(2) The same alphabetical classification is used for combustibility of prefabricated acoustical tile units only, under federal specifications' test no. SS-S-118a.

(3) A finish material more hazardous than class C shall not be used in a school building, except as prescribed in R 29.128 to R 29.136 for formed plastic material.

(4) The classification of interior finish materials as to their flame spread and smoke development shall be that of the basic material used, without regard to subsequently applied paint or other covering which is of such character or thickness or so applied to not affect materially the flame spread and smoke characteristics. Highly combustible material applications, such as lacquer or pyroxylin base materials or unapproved wall coverings, shall not be used.

History: 1954 ACS 74, p. 29, Eff. May 15, 1973.

R 29.123 Unclassified coatings and acoustical tile.

Rule 123. (1) Paints or coatings containing plastics, polyesters, or epoxies may be used on noncombustible surfaces without proof of classification if not applied in excess of 8 mils total thickness.

(2) Prefabricated acoustical tile units shall be attached with staples or other acceptable metal clips, except class A acoustical tile which is attached to a noncombustible backing or is used in an approved assembly without backing.

History: 1954 ACS 74, p. 29, Eff. May 15, 1973.

R 29.124 Wall and ceiling finishes.

Rule 124. (1) Wall and ceiling finish materials for a public assembly place for 200 or more persons shall be no more hazardous than class B.

(2) Wall and ceiling finish materials for a room for less than 200 persons shall be no more hazardous than class C.

(3) Wall and ceiling finish materials for an exit corridor or a lobby shall be no more hazardous than class A, except that a surface of area equal to 10% of the aggregate ceiling and wall area, no more hazardous than class C is permitted. Transom panels and door side panels are considered as part of the partition for interior finish purposes.

History: 1954 ACS 74, p. 29, Eff. May 15, 1973.

R 29.125 Structural member finishes.

Rule 125. In 1-story construction, exposed laminated wood beams and heavy timber structural members in compliance with the national fire protection association pamphlet no. 220, 1961, standard types of building construction, will be accepted without treatment. However, "lamella" construction shall not be used in an area requiring a class B finish unless the material is underwriters' laboratories, inc., labeled pressure impregnated to comply with class B.

History: 1954 ACS 74, p. 30, Eff. May 15, 1973.

R 29.126 Exceptions to finish requirements.

Rule 126. (1) R 29.124(3) does not apply to a 1-story building having approved exterior exits from each occupied area where finishes may not be more hazardous than class C. Approved exits in these instances means standard swing doors installed conventionally. Each such occupied area includes all locations within the building and not just the classrooms. The only exception made will be for a room or space for not more than 20 persons where the door of the room is not more than 50 feet from an outside exit, and interior finish in the building is not more hazardous than class B.

(2) Where an automatic sprinkler system is installed, see R 29.198(4).

(3) For open plan buildings, see R 29.105(3).

History: 1954 ACS 74, p. 30, Eff. May 15, 1973.

R 29.127 Tack boards or bulletin boards as interior finish.

Rule 127. (1) A tack board or bulletin board is considered an interior finish material and is permitted as follows:

(a) A tested assembly that will yield the required surface burning characteristics for the specific occupancy in compliance with R 29.122(1).

(b) A vinyl which has been tested on a noncombustible backing and proved to be class A in compliance with R 29.122(1) and applied to a backing which itself has proved to be class A in compliance with R 29.122(1).

(2) A classroom tack board may be installed in any horizontal width if its vertical height is not more than 6 feet and it complies with subrule (1)(b).

(3) A corridor tack board may be installed if its vertical height is not more than 6 feet and its total area is not more than 72 square feet per panel per 150 linear feet of corridor and it complies with subrule (1)(b).

History: 1954 ACS 74, p. 30, Eff. May 15, 1973.

R 29.128 Plastic materials as interior finishes.

Rule 128. A plastic material affixed to the surface of a wall or ceiling such as a plastic panel, paint, wall covering, laminate or a similar item, and glazing is

deemed to be an interior finish material, shall comply with R 29.122. A formed plastic material used for transmission or diffusion of light is exempt from the requirements of R 29.122 if it is of an approved plastic material complying with R 29.129 and the limitations and requirements comply with R 29.121, R 29.132, R 29.134, or R 29.136.

History: 1954 ACS 74, p. 30, Eff. May 15, 1973.

R 29.129 Plastic material burning and smoke development rates.

Rule 129. (1) A plastic material shall burn no faster than 2½ inches per minute in sheets 60/1000-inch thick when tested in compliance with the American society for testing and materials standard no. D-635, 1968, test for flammability of self-supporting plastics. Thickness shall be determined in compliance with the methods of the American society for testing and materials standard no. D-374, 1968, tests for thickness of solid electrical insulation.

(2) A plastic material shall have a smoke development rating not more than 450 when tested in compliance with the American society for testing and materials standard no. E-84, 1968, tests for surface burning characteristics of building materials; underwriters' laboratories, inc., standard no. 723, 1960, test method for fire hazard classification of building materials; or the national fire protection association pamphlet no. 255, 1969, method of test of surface burning characteristics of building materials, when supported in the manner intended for use, or a smoke density rating not more than 75 when tested in the thickness intended for use in compliance with the national fire protection association quarterly no. 57-9, January, 1964, a method of measuring smoke density; or the American society for testing and materials, standard no. D-2843, 1970, method of test for measuring the density of smoke from the burning or decomposition of plastics.

(3) The manufacturer shall provide notarized certification stating that the material used in the products furnished complies with this rule. The certification shall be accompanied by a test report from an approved independent testing laboratory or reference to the underwriters' laboratories, inc., listing and each sheet, panel, grid, or unit shall be labeled for the purpose of identification.

History: 1954 ACS 74, p. 30, Eff. May 15, 1973.

R 29.131 Light fixture diffusers.

Rule 131. (1) "Diffuser" means a lens or face enclosure of a light fixture which may be suspended from, or surface-mounted on, a ceiling or roof, or recessed in a ceiling. A plastic diffuser shall comply with R 29.129.

(2) The surface area of a diffuser shall not comprise more than 30% of the ceiling area of the room or space. The area of a single piece of a diffuser shall not be more than 30 square feet with a dimension of not more than 8 feet. The surface area is not limited in a building protected by an automatic sprinkler system. In rated assemblies the area shall not be more than the size tested.

(3) A diffuser shall remain in place for not less than 15 minutes at a temperature of 175 degrees Fahrenheit when tested in compliance with the American society for testing and materials standard no. D-648, 1956, test for deflection temperature of plastics under load, but shall fall from its mountings at 200 degrees Fahrenheit below its ignition temperature when tested in compliance with the American society for testing and materials standard no. D-1929, 1968, test for ignition properties of plastics.

History: 1954 ACS 74, p. 31, Eff. May 15, 1973.

R 29.132 Light diffusing systems.

Rule 132. (1) A light diffusing system consists in whole or in part of lenses, panels, grids, grilles, or baffles suspended below lighting fixtures. Formed plastics shall comply with R 29.129 and R 29.131(3), and not comprise more than 30% of the ceiling area of the room or space.

(2) If the school building is protected by an automatic sprinkler system, diffusing systems shall comply with the requirements of R 29.131, except that the area allowed is not limited. Sprinklers used with a diffusing system shall be installed both above and below the system, except if it has been tested and approved for use above the system only.

History: 1954 ACS 74, p. 31, Eff. May 15, 1973.

R 29.134 Domelights and skylights.

Rule 134. (1) A roof dome of plastic materials shall comply with R 29.129 and shall be mounted on a curb extending not less than 4 inches above the roof surface. The curb shall be constructed of noncombustible materials or of wood protected by a membrane having a 1-hour fire-resistance rating.

(2) The area of an individual plastic unit shall not be more than 100 square feet within the curb and with no side dimension more than 10 feet. The interior exposed area of a roof or ceiling dome shall not be more than 20% of the floor area of the room or space. This area shall be included as a part of the 30% allowed for plastic light diffusers in compliance with R 29.131(2).

(3) Units shall be separated by not less than 4 feet of noncombustible surface measured along their horizontal projection and shall not be closer than 6 feet to a roof edge. A ceiling dome shall comply with R 29.131(3). If the building is protected with an automatic sprinkler system, the allowable area is doubled.

History: 1954 ACS 74, p. 31, Eff. May 15, 1973.

R 29.136 Glazing.

Rule 136. (1) Approved plastic material complying with R 29.129 may be used for glazing if set in a frame or sash and not held by mechanical fasteners which penetrate the glazing material. Plastic glazing shall not be permitted in an opening higher than 4 stories or 50 feet above grade.

(2) Total plastic glazing shall not be more than 30% of the outside walls of the room or space, shall not be more than 100 square feet per window opening with no edge dimension more than 10 feet, and shall be separated from each other by 2 feet horizontally and 4 feet vertically of noncombustible material.

(3) Approved plastic material complying with R 29.129 is permitted for use as greenhouse glazing without complying with subrule (2) as to the 30% separation limitations if the greenhouse is separated from the remainder of the building by 1-hour fire-resistive construction.

History: 1954 ACS 74, p. 31, Eff. May 15, 1973.

R 29.141 Fire alarm systems.

Rule 141. (1) In a school building of more than 1 classroom a fire alarm system shall be provided to warn occupants of the existence of fire so that they may escape or to facilitate the orderly conduct of fire exit drills.

(2) A new school building and an addition to a building shall be equipped with an approved electrical, closed circuit, supervised fire alarm system with the supply fused ahead of the main switch or disconnect through the emergency panel, except that this does not apply to a 1-room school.

(3) Fire alarm equipment shall be listed for its intended use in the underwriters' laboratories, inc., fire protection equipment list, 1971. The installation shall be in compliance with the national fire protection association pamphlet no. 72A, 1967, local protective signaling systems; pamphlet no. 72B, 1967, auxiliary protective signaling system; and pamphlet no. 72D, 1967, proprietary protective signaling systems. A control panel shall bear the underwriters' laboratories, inc., or factory mutual label.

(4) A fire alarm control panel shall be located in a room accessible to the school administrators. The trouble bell or signal device shall be installed at a location where personnel are on duty while the building is occupied.

(5) A new fire alarm system in an addition shall be connected to the system in the existing building so that all stations throughout the entire building will actuate all alarms.

(6) In a building provided with an automatic sprinkler system or an automatic smoke detection system, operation of either system shall automatically actuate the school fire alarm system.

History: 1954 ACS 74, p. 32, Eff. May 15, 1973.

R 29.142 Fire alarm stations.

Rule 142. (1) A fire alarm station shall be painted red and be clearly marked "Fire Alarm."

(2) Fire alarm stations shall be located in the furnace or boiler room, kitchen area, public assembly places, auditorium stages, main office and corridors near exits so that it will not be necessary to travel more than 100 feet from the door of any room to reach a station on the same floor.

(3) A fire alarm pull box station shall be located in the main office of a school building or elsewhere as directed by the local fire authorities and connected directly to the local fire department in a locality which is equipped with a pull box system. This pull box station may be independent of the fire alarm system in the building.

History: 1954 ACS 74, p. 32, Eff. May 15, 1973.

R 29.143 Fire alarm signals.

Rule 143. Fire alarm signals shall be located throughout a school building so that persons in all areas of the building, including high noise areas, will be able to hear the signal. The signals shall have an auditory sound distinct from other signals in use in the building for other purposes.

History: 1954 ACS 74, p. 32, Eff. May 15, 1973.

R 29.151 Heating plant room location, construction, and use.

Rule 151. (1) A heating plant room, including a fuel-fired plant for heating swimming pool water, shall not be located beneath any part of a school building.

(2) An existing heating plant located beneath part of a building shall not be expanded in area or British thermal unit capacity.

(3) A heating plant roof shall be of as light, noncombustible construction as practicable.

(4) A heating plant room walls shall be of fire-resistive construction extending to the roof and have a 1-hour fire-resistance rating, except where the heating plant room is not connected to the building and is so located as to provide a horizontal separation from the building in compliance with the national fire protection association pamphlet no. 80A, 1970, protection from exposure fires.

(5) A roof-mounted heating unit having a combustion chamber shall be separated from the roof by construction having a 1-hour fire-resistance rating with duct openings protected by fire dampers. A unit mounted on noncombustible supports with 12 inches of clear openings above a noncombustible roof shall be considered to meet the 1-hour fire-resistance rating and fire dampers for ducts shall be provided at the noncombustible roof line.

(6) No part of a heating plant room shall be used for combustible storage or another unrelated occupancy except that an incinerator may be installed in such a room if the room is protected by an automatic sprinkler system.

History: 1954 ACS 74, p. 32, Eff. May 15, 1973.

R 29.152 Heating plant room openings and vents.

Rule 152. (1) A heating plant room shall have at least 1 outside wall containing a window or door opening directly to the outside. This wall shall be not less than 50% of the longest dimension of the room. The wall shall not be on an inner court. See R 29.111(2) for window size.

(2) At an opening between a heating plant room and the remainder of the building, including a tunnel opening, a labeled fire door assembly shall be installed having a 1-hour fire-resistance rating and equipped with an automatic closer. Such door opening into a corridor shall be hung to swing into the heating plant room.

History: 1954 ACS 74, p. 33, Eff. May 15, 1973.

R 29.153 Storage and special purpose rooms.

Rule 153. (1) A room for storage of combustible materials shall have walls and ceilings of noncombustible materials, and if having a floor area of more than 100 square feet or an opening exposing a corridor, shall be separated from the remainder of the building by construction having a 1-hour fire-resistance rating. This rating shall apply to a combustible roof deck constituting a ceiling of the room.

(2) The requirements of subrule (1) also apply to a room housing commercial type laundry equipment or a kitchen in either case exposing required exit corridors. Where a kitchen is separated from exit corridors by a common wall having a 1-hour fire-resistance rating with a labeled fire door assembly in any opening, the other enclosure walls of the kitchen need not have such fire-resistance rating if the exposure involved is to a room or space separated from any exit corridor by wall and door construction complying with R 29.61(5).

(3) A room for storage of combustible materials and a room housing commercial type laundry equipment, either of which is more than 500 square feet in area, shall be protected by an automatic sprinkler system.

(4) This rule does not apply to a work room serving an instructional unit that is not used for storage, if the openings from such work room do not expose a corridor and if the instructional unit is separated from exit corridors and other occupancies by wall and door construction in compliance with R 29.61(5).

(5) A room for music, instrument and robe storage, and an athletic equipment drying room shall comply with subrules (1) and (3) if any opening exposes a corridor or other area not its own instructional unit. The room need not have a qualified separation from its own instructional unit if the instructional unit has a separation having a ¾-hour fire-resistance rating from other occupancies and corridors.

History: 1954 ACS 74, p. 33, Eff. May 15, 1973.

R 29.154 Storage rooms and storage of hazardous substances.

Rule 154. (1) An approved 1-hour fire-resistance rated storage room shall be provided for hazardous chemicals, liquids, and gases for laboratories. The walls and ceilings shall be constructed of noncombustible material and any opening protected with a B labeled fire door assembly, except that where amounts of such chemicals, liquids, and gases are so minor as to make construction of such a room impractical, closed cabinets of noncombustible construction shall be provided and located in the laboratories where used, not obstructing any means of egress from the room.

(2) A storage room for major bulk storage of hazardous chemicals, liquids, and gases in amounts of more than 1-gallon individual capacity containers shall be separated from the remainder of the school building by construction having a 1-hour fire-resistance rating. At least 1 wall of this room shall be an outside wall of the building and the room shall be ventilated to the outside. Electrical switches, outlets, wiring, and fixtures shall comply with the state electrical law and rules for such location. A doorway exposed to the interior of the building shall be ramped or curbed to a height of 6 inches to contain any flammable liquid spilled in the room.

(3) Oxygen, combustible gases, and flammable liquids shall not be stored with each other or with combustible material, except that small amounts of flammable liquids for everyday use in shops and offices may be stored within those areas of use in original shipping containers or approved safety containers of not more than 1-gallon individual capacity.

History: 1954 ACS 74, p. 33, Eff. May 15, 1973.

R 29.155 Hazardous equipment.

Rule 155. (1) Flammable liquid dispensing equipment for fueling of vehicles shall be located in relation to a school building containing a classroom so that no portion of a vehicle being served or the dispensing equipment, fill pipe, or vent is less than 40 feet to the building.

(2) Powered grounds equipment shall be stored in a structure of noncombustible construction separate from a school building or in a separate room meeting the construction and protection requirements for automotive and farm mechanics shops.

History: 1954 ACS 74, p. 34, Eff. May 15, 1973.

R 29.157 Shop and industrial arts area location and construction.

Rule 157. (1) An automotive shop or farm mechanics shop or other room housing internal combustion equipment using fuel with a flash point of 100 degrees Fahrenheit or less shall not be located beneath any other part of a school building unless it is protected with an automatic sprinkler system and separated both horizontally and vertically from the remainder of the building by an assembly having a 2-hour fire-resistance rating, except doors shall be B labeled fire door assemblies.

(2) A shop or industrial arts area not covered by subrule (1) shall be separated from the remainder of the building by construction having a 1-hour fire-resistance rating.

(3) A shop shall be adequately ventilated in compliance with standards of the Michigan department of public health. Where dust from equipment constitutes a potential fire hazard, a separate exhaust system shall be provided to discharge it either to the outside atmosphere or to a specially designed dust collector. A gasoline engine test stand shall be discharged to the outside atmosphere.

(4) In a 1-story shop and industrial arts area structure more than 1,000 square feet in area, having a combustible roof deck, and connected to a multistory school building, an exposed window above the 1-story roof deck shall have a fixed steel frame glazed with ¼-inch wired glass.

(5) If a spray coating or dipping operation is planned, an approved booth or a separate room shall be provided, either of which shall be properly sprinklered and ventilated in compliance with national fire protection association pamphlet no. 33, 1969, spray finishing using flammable and combustible materials, and electrical fixtures, wiring and outlets shall be in compliance with the national electrical code, national fire protection association pamphlet no. 70, 1968, finishing processes, applicable to such locations.

History: 1954 ACS 74, p. 34, Eff. May 15, 1973.

R 29.158 Enclosed instructional areas within industrial arts areas.

Rule 158. (1) An enclosed instructional area for more than 20 persons within an industrial arts area shall have a corridor exit or independent exterior exit.

(2) An enclosed instructional area for not more than 20 persons within an industrial arts area does not require a rated separation if it has exits into a separated industrial arts area, or the distance of travel from the most remote part of the enclosed area to reach a corridor or an exterior exit is not more than 50 feet.

History: 1954 ACS 74, p. 34, Eff. May 15, 1973.

R 29.161 Auditorium stage area protection.

Rule 161. (1) A stage with a drop loft, fly gallery or other means at any level for storage and movement of scenery of like amounts shall have:

(a) One-hour fire-resistive proscenium wall.

(b) The proscenium opening protected by a fire curtain.

(c) Other proscenium wall openings protected by B-labeled or 1-hour labeled fire door assemblies.

(d) The stage side of the proscenium, including dressing rooms, prop rooms, stage craft rooms and the understage areas, other than those used for noncombustible storage or not used for any purpose, shall be protected with an automatic sprinkler system.

(e) The areas described in subdivision (d) shall be separated from the remainder of the school building by construction having a 1-hour fire-resistance rating.

(2) A permanent stage or platform which does not have means for the open storage and moving of scenery but which has more than 500 square feet of area behind the proscenium wall and opening shall comply with the requirements in subdivisions (a), (d), and (e) of subrule (1). If scenery or properties at any time are used or stored on that part of the stage in front of the proscenium wall and the proscenium wall opening, that part of the stage shall be included in measuring the 500 feet.

(3) Curtains, backdrops, settings, draperies, and decorative materials for a stage shall be of flameproof material or be treated with an approved flameproofing material.

History: 1954 ACS 74, p. 34, Eff. May 15, 1973.

R 29.162 Auditorium fire curtain construction.

Rule 162. (1) An auditorium fire curtain shall be of asbestos cloth weighing not less than 3 pounds per square yard and having not less than 180 pounds strength per inch width of warp and 85 pounds strength per inch width of filling. Cotton or other combustible fiber in the cloth shall not be more than 5% of the weight of the

asbestos. The cloth shall be filled with a mineral paint composed of 4 parts casein to 10 parts of water glass with water added in suitable proportions. Other paints which will completely fill the pores of the cloth and which are capable of withstanding fire without giving out more smoke than such mineral paint will be permitted.

(2) The weight of the curtain shall be sufficiently in excess of the counterweights to overcome all friction, so that the curtain will drop freely by gravity. The speed shall be regulated so that closure of the opening shall be effected within 30 seconds, and the last 5 feet of travel shall require not less than 5 seconds and the curtain shall settle on the stage floor without shock. Its operation shall be controlled by not less than 3 heat-actuated releasing devices, 1 of which shall be at each side of the proscenium opening near the stage floor, and any 1 of which shall release the curtain in case of fire. An emergency device shall be provided and so arranged that the curtain can be released for closing by hand from either side of the stage.

(3) The hoisting apparatus for the curtain shall be designed with a safety factor of 8. No part of the curtain shall be supported or fastened to combustible material.

(4) The bottom of the curtain shall be weighted with pipe battens or other weights held in pockets sewed in the curtain and shall have a yielding pad of noncombustible material not less than 3 inches thick to form a seal against the stage floor.

History: 1954 ACS 74, p. 35, Eff. May 15, 1973.

R 29.163 Auditorium fire curtain size and grooves.

Rule 163. An auditorium fire curtain shall be of sufficient width and height to overlap the proscenium opening 2 feet at the top and 18 inches at each side. It shall slide at each side in a rigid steel groove which shall have a depth of not less than 12 inches. The grooves shall be structural steel shapes and with the curtain shall form a continuous smoke seal from top to bottom, with a clearance of not more than ⅛ inch. The grooves shall be installed in such manner that in case of fire on the stage the pressure of heated gases against the curtain will act to close the curtain tightly in the grooves. The grooves shall be securely fastened to the proscenium wall and the curtain shall be retained in the grooves at all times.

History: 1954 ACS 74, p. 35, Eff. May 15, 1973.

R 29.165 Stage lofts.

Rule 165. The top of a unit loft stage shall not have less than 1 ventilator which shall be opened manually from the stage floor and automatically by a heat-actuating device. A ventilator shall be of noncombustible construction and have an aggregate clear area of opening not less than ⅛ the area of the stage.

History: 1954 ACS 74, p. 35, Eff. May 15, 1973.

R 29.167 Projection booths.

Rule 167. Where a 35 millimeter motion picture projector is used, the booth construction shall comply with section 2 of Act No. 257 of the Public Acts of 1913, as amended, being §29.82 of the Michigan Compiled Laws.

History: 1954 ACS 74, p. 35, Eff. May 15, 1973.

R 29.171 Ventilation.

Rule 171. (1) Where power exhaust ventilation is to be used for an area housing combustion equipment, an air supply shall be provided equal to the amount exhausted, so that negative pressures will not develop resulting in reversal of drafts in chimney flues.

(2) A plenum above a corridor shall be of noncombustible construction except that parts of the building structure may be used as walls or parts of the plenum if the construction meets ¼-hour rated fire-resistive underwriters' laboratories, inc., listed assembly. A lay-in or splined acoustical unit does not meet this requirement except as permitted in R 29.174 or R 29.175(2).

History: 1954 ACS 74, p. 35, Eff. May 15, 1973.

R 29.172 Fan and air-handling equipment rooms.

Rule 172. (1) A fan or air-handling equipment serving more than 1 classroom or single instructional area does not constitute a hazardous occupancy. The requirements for separation shall be the same as for a classroom. Fire dampers shall be provided and shall comply with R 29.173(2). An automatic smoke detection system shall be located downstream of the air filter, actuation of which shall open the electrical circuit supplying the fan motor and relay signal to and actuate the building's fire alarm system. A fan room shall not be used for any other purpose except housing other nonhazardous mechanical equipment.

(2) A fan or air-handling equipment located in and serving 1 classroom or single instructional area does not constitute a hazardous occupancy. If located in a hazardous room within its area the room will require 1-hour fire-resistive construction regardless of size. See R 29.153.

(3) A fan or air-handling equipment located outside the room or area shall comply with subrule (1).

History: 1954 ACS 74, p. 36, Eff. May 15, 1973.

R 29.173 Fire dampers in ducts.

Rule 173. (1) Where a duct system serves 2 or more floors, fire dampers shall be installed at each direct outlet or inlet and in each branch duct at its junction with the main vertical duct, or at each point where a floor is pierced. For details see sheet metal and air conditioning national association, inc., 1972, state of Michigan fire damper clarification.

(2) An opening in a wall required to have a 1-hour fire-resistance rating due to hazardous occupancy shall be provided with a fire damper regardless of size of the opening. In a wall with less than 1-hour fire-resistance rating a fire damper is not required if the wall opening is 324 square inches or less and if the duct work is a complete substantial separation system of metal or equivalent having tight seams and joints.

(3) Where a duct pierces a wall or enclosure required to have a 2-hour fire-resistance rating a fire damper shall be installed on each side of the wall opening through which the duct passes.

History: 1954 ACS 74, p. 36, Eff. May 15, 1973.

R 29.174 Exit corridors used as plenums.

Rule 174. A required exit corridor shall neither be used as an exhaust plenum nor as a return plenum chamber in a heating and ventilating system. No openings shall be provided in a separation wall between rooms and corridors to provide exhaust air into the corridor. However, in a 1-story school building where a unit ventilator type system is used, a corridor may be used as an exhaust plenum for serving classrooms only, other than shops and industrial arts areas, and a completely sprinklered building. An opening from a classroom into a corridor shall not be more than 144 square inches of free area and be located so that the top of the opening is not more than 18 inches above the floor.

History: 1954 ACS 74, p. 36, Eff. May 15, 1973.

R 29.175 Duct and plenum construction and insulation; piping insulation.

Rule 175. (1) A duct and plenum space whether for supply, return or exhaust shall be constructed of noncombustible materials. In a multistory school building space between a drop ceiling and the floor or roof above, where the drop ceiling is protection to structural steel members, shall not be used as a plenum unless the designed assembly has been specifically tested for this purpose and contains smoke detectors within the plenum space of a floor-ceiling or roof-ceiling assembly which will shut down the fan. A noncombustible plenum chamber above perforated ceiling used for distributing or exhausting air is subject to special approval by the state fire marshal.

(2) Except in an open plan building, if a perforated ceiling is used in a corridor, air handling in the area above such ceiling shall be in a separate closed duct.

(3) Insulation material, where used for a lining or covering for a duct, plenum or fan unit, or for mechanical piping, shall be class A in compliance with R 29.122(1).

History: 1954 ACS 74, p. 36, Eff. May 15, 1973.

R 29.181 Electrical wiring and equipment.

Rule 181. (1) Electrical wiring and equipment shall be installed in compliance with the state electrical law.

(2) Electrical plans and specifications shall be approved by the local electrical inspection authority where available or by the inspection services of the state electrical administrative board. Complete inspection service with final certification of compliance covering the installation shall be made by the same agency.

(3) An electrical outlet or circuit provided for an electrically heated appliance which comes in contact with combustible material shall be wired to indicate by means of a visual pilot light when the appliance is energized.

(4) For exits, see R 29.46.

History: 1954 ACS 74, p. 37, Eff. May 15, 1973.

R 29.183 Hot water heaters and tanks.

Rule 183. (1) A hot water heater, other than 1 electrically heated or a booster heater for a dishwasher, shall be installed in the heating plant room or a separate room and shall comply with the physical requirements for construction, fire protection, and location of a heating plant room except for the prohibition against being under a part of a school building.

(2) A hot water storage tank shall be equipped with 1 of the following safety devices which shall prevent temperatures of more than 210 degrees Fahrenheit and pressures of more than the working pressure for which the tank is designed:

(a) An acceptable pressure relief valve, combined with an energy cutoff approved by underwriters' laboratories, inc., or the American gas association.

(b) An acceptable pressure relief valve and an acceptable temperature relief valve of the spillage type.

(c) An acceptable combined temperature-pressure relief valve of the spillage type.

History: 1954 ACS 74, p. 37, Eff. May 15, 1973.

R 29.184 Gas.

Rule 184. (1) A master gas valve shall be provided in a room having 3 or more gas outlets. The valve shall be conveniently located and easily distinguishable so that it may be closed readily when the room is not in use.

(2) A shutoff valve shall be provided outside the school building.

(3) A gas heater shall be properly vented.

(4) The installation, use, and maintenance of gas appliances and gas piping shall be in compliance with the national fire protection association pamphlet no. 54, 1969, installation of gas appliances and gas piping.

(5) A liquefied petroleum gas or bottled gas installation shall comply with the state police rules of the Michigan Administrative Code, being R 28.751 to R 28.897, entitled "Liquefied Petroleum Gases." A line supplying such gas, when placed in a tunnel, attic, vertical shaft, or other blind space, shall be without joints and the space shall have forced ventilation.

History: 1954 ACS 74, p. 37, Eff. May 15, 1973.

R 29.187 Cooking appliances.

Rule 187. (1) A cooking appliance shall be installed in compliance with approved safety practices.

(2) A metal hood shall be provided over each main cooking appliance, or over appliances which are located together, in a kitchen and shall be equipped and designed in compliance with the national fire protection association pamphlet no. 96, 1970, ventilation of cooking equipment, except as provided in subrule (5).

(3) A filter shall be maintained in an efficient condition and kept clean at all times.

(4) Only vaporproof-type electrical wiring and equipment shall be permitted in a hood.

(5) Fire extinguishing equipment for a hood and exhaust duct for a main cooking appliance in a kitchen shall be fixed pipe inert gas, dry chemical, fine water spray or steam system provided with combined manual and automatic controls. A gas-fired appliance shall be equipped to automatically shut off gas supply upon activation of the extinguishing system.

(6) A filter, and extinguishing equipment specified in subrule (5), may be omitted if an approved listed grease extractor system is installed and maintained in the hood and duct system.

(7) An exhaust duct from a hood serving a main cooking appliance in a kitchen shall be equipped and designed in compliance with the national fire protection association pamphlet no. 96, 1970, ventilation of cooking equipment, shall run to the outside by the shortest possible route, and when run through a concealed space between a ceiling and a floor, or roof, or through any floor above, shall be enclosed in a horizontal or vertical shaft separated from the remainder of the building by construction having a 2-hour fire-resistance rating from the interior of the shaft. A recessed hood shall also be separated by construction having a 2-hour fire-resistance rating.

History: 1954 ACS 74, p. 37, Eff. May 15, 1973.

R 29.191 Fire extinguisher locations.

Rule 191. (1) A fire extinguisher shall be housed in a special cabinet or wall rack readily accessible at all times, located so that the top of the extinguisher is not more than 5 feet above the floor. The cabinet or the wall in the area of the wall rack shall be painted a distinguishing color, or the front of the cabinet shall be identified with the words, "Fire Extinguisher," in contrast to the background.

(2) An extinguisher shall be of such size and located in compliance with the national fire protection association pamphlet no. 10, 1970, installation of portable fire extinguishers.

(3) Extinguishers of class A type shall be located in corridors, storage areas of combustible materials and wood shops and on auditorium stages.

(4) Extinguishers of classes B and C type shall be located in heating plant rooms, shops, homemaking rooms, chemistry and physics laboratories, kitchens and garages.

History: 1954 ACS 74, p. 38, Eff. May 15, 1973.

R 29.192 Fire extinguisher types.

Rule 192. (1) A fire extinguisher shall be of a type approved by underwriters' laboratories, inc.

(2) The right type of fire extinguisher shall be readily available for the kind of fire likely to occur in the particular location. The following requirements apply for selecting and locating fire extinguishers:

(a) Standpipes and hose racks General use throughout school buildings—class A	Do not use for electrical and flammable liquid fires.
(b) Soda acid General use throughout school buildings—class A	Do not use for electrical and flammable liquid fires.
(c) Water General use throughout school buildings—class A	Do not use for electrical and flammable liquid fires.
(d) Carbon dioxide Near flammable liquid storage, electrical equipment panels and science laboratory equipment—classes B and C	Good for use on flammable liquid or electrical fires. Not good for deep seated or smoldering fires.
(e) Foam Near flammable liquid storage, garages, auto mechanic shops—classes A and B	Good for use on flammable liquid fire and general use. Do not use on electrical fires.
(f) Dry chemical Near flammable liquid storage, garages, auto mechanics shops—classes B and C.	Good for use on flammable liquid and electrical fires.

(3) A vaporizing liquid-type fire extinguisher shall not be installed and any existing extinguisher of this type shall be removed.

History: 1954 ACS 74, p. 38, Eff. May 15, 1973.

R 29.194 Standpipes.

Rule 194. A standpipe system for fire department use, or a standpipe system for use by a fire department and persons trained in handling a heavy hose stream, shall be installed in a school building more than 2 stories above the highest grade in compliance with the national fire protection association pamphlet no. 14, 1970, installation of standpipes and hose systems. Shop drawings shall be submitted to the authority having jurisdiction for approval before installation.

History: 1954 ACS 74, p. 38, Eff. May 15, 1973.

R 29.196 Automatic sprinklers.

Rule 196. (1) An automatic sprinkler system shall be installed in new construction to protect the following areas: Incinerator rooms; storage rooms for combus-

tibles and commercially equipped laundry rooms more than 500 square feet in area; auditorium stages and enclosed platforms more than 500 square feet in area; stage dressing rooms, prop and craft rooms and understage areas; rubbish chutes, laundry chutes, chute drop rooms or bins; windowless buildings and windowless floors of school buildings. Access shall be provided for replacement of all sprinkler heads.

(2) Complete shop drawings shall be submitted to the authority having jurisdiction for approval before installation of sprinklers.

(3) The architect shall assure an adequate sprinkler water supply, except for a project where service of an architect is not required, then it shall be the responsibility of the owner.

(4) Where more than 2 sprinklers are required in a space, they shall be installed and supplied as an automatic sprinkler system.

(5) An automatic sprinkler system shall be equipped with a flow alarm electrically relayed to the fire alarm system of the school building and sprinkler system shutoff valves shall be electrically supervised to the principal's office, except for sprinklers installed in compliance with R 29.197(1).

History: 1954 ACS 74, p. 39, Eff. May 15, 1973.

R 29.197 Sprinkler water supply.

Rule 197. (1) When approved by the authority the sprinkler piping for an isolated hazardous area which can be adequately protected by not more than 2 sprinklers may be connected directly to the domestic water system at a point where not less than a 1-inch supply is available. An approved outside screw and yoke valve and check valve shall be installed between such sprinklers and the connection to the domestic water system.

(2) Where there is not adequate water from a public water system to supply a sprinkler system and the area to be protected is not more than 20,000 square feet, a special pressure tank supply for an automatic sprinkler system in compliance with the national fire protection association pamphlet no. 22, 1970, water tanks for private fire protection, shall be provided. A special pressure tank shall contain 2,000 gallons of water in a 3,000-gallon tank for a partial system and for a complete building system shall contain 3,000 gallons of water in a 4,500-gallon tank. A special pressure tank supplying sprinkler water for a school building being protected in its entirety shall not be located in a heating plant room.

(3) Where there is not adequate water from a public water supply to a sprinkler system and the area to be protected is more than 20,000 square feet, means of water supply shall be subject to the approval of the state fire marshal or other authority having jurisdiction.

History: 1954 ACS 74, p. 39, Eff. May 15, 1973.

R 29.198 Buildings with complete sprinkler protection; waiver of other requirements.

Rule 198. (1) A school building with an automatic sprinkler system throughout may eliminate the other items of fire protection hereinafter described and normally required in an unsprinklered building.

(2) The building may be completely windowless.

(3) A partition separating a room from a corridor does not need a fire-resistance rating and may contain plain glass, but shall be a rigid, reasonably smoketight partition. Corridor-room partitions will not be required where the sprinkler water supply is from either an approved reliable public system capable of supplying not less than 500 gallons per minute with a residual pressure of 15

pounds at the top line of sprinklers or by a gravity tank of not less than 30,000 gallons riding on the system.

(4) Interior finishes otherwise required to be class A, may be class B; and otherwise required to be class B, may be class C.

(5) A stairway need not be enclosed in a building of not more than 2 stories.

(6) Steel framing members do not need to be protected in a building of not more than 2 stories.

(7) A concealed space above a ceiling, if noncombustible, may be used for air handling in a building of not more than 2 stories. This, in conjunction with subrule (6), includes noncombustible, nonrated ceilings of any type, if an automatic smoke detection system is installed in an area immediate to the return air intake of each air handling unit, actuation of which will shut off the motor of the unit.

(8) Subrules (3), (6), and (7) do not apply to a hazardous room which is required to be separated from the remainder of the building by construction having a 1-hour fire-resistance rating.

(9) Sprinklers may be eliminated only in a noncombustible swimming pool which has no combustible seating, if the entire pool area is separated from the remainder of the building by construction having a 1-hour fire-resistance rating, including doors and frames, and in shower rooms of locker areas without any requirement for separation.

(10) Standpipes as specified in R 19.194 are not required in 2- and 3-story buildings.

(11) For modified requirements for distance to exits, see R 29.44(1) and R 29.105(2).

History: 1954 ACS 74, p. 39, Eff. May 15, 1973.

PART 3. SPECIAL REQUIREMENTS FOR EXISTING SCHOOLS

R 29.201 Applicability.

Rule 201. (1) This part applies to school buildings upon inspection by an authorized inspection authority as provided for in section 8 of Act No. 207 of the Public Acts of 1941, as amended, being §29.8 of the Michigan Compiled Laws. Written notice shall be given to a school board of a public school, school owner of a private or parochial school, and where applicable, to a duly authorized agent of such school board or school owner by the inspecting authority finding conditions requiring correction.

(2) Except as hereinafter provided, fire safety requirements for an existing school shall be the same as those herein provided for new school construction.

History: 1954 ACS 74, p. 40, Eff. May 15, 1973.

R 29.203 Exits.

Rule 203. (1) In a school building of noncombustible or fire-resistive construction or a building protected completely with an automatic sprinkler system, or otherwise approved by the inspecting authority, a dead end may not extend more than 20 feet measured from the door of the classroom or student-occupied area to the stairway or other means of exit.

(2) A deficiency in exits may be corrected, in a building not more than 3 stories above grade, by installing fire escapes.

(3) Except as provided in subrule (1), a door from a classroom and other student-occupied room shall enter the corridor between exits or there shall be direct egress to the outside from the room.

(4) A student-occupied room, such as a shop, science laboratory, cooking area of a homemaking suite, and other similar facility having inherent fire hazards

Digitized by Google Original from UNIVERSITY OF MICHIGAN

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

where only 1 means of egress is provided, shall require a second exit if any of the following circumstances exist:

(a) In the opinion of the inspecting authority a fire resulting from any operation or involving equipment would obstruct reasonably safe use of the single exit.

(b) The area of the room is more than 1,500 square feet.

(c) The normal path of travel from the most remote portion of the room is more than 50 feet to the existing exit from the room.

History: 1954 ACS 74, p. 40, Eff. May 15, 1973.

R 29.205 Exit corridors.

Rule 205. (1) Where a required exit corridor has been approved before the effective date of these rules which required exiting through a use area, usually a multi-use room, not separated from the corridor by partition and doors, and in the opinion of the inspecting authority the exposure does not constitute an unusual hazard due to contents and other features such as interior finishes and other building exit arrangements, the egress may continue to be used if a defined exitway is provided through the area which will assure no obstructions to the exit path.

(2) Except as provided in subrule (1), corridor partitions separating other nonhazardous rooms from corridors shall be reasonably smoketight, may contain plain glass and have doors which are not equivalent to 1¾-inch solid wood core.

History: 1954 ACS 74, p. 40, Eff. May 15, 1973.

R 29.207 Stairway enclosures.

Rule 207. (1) Except as hereinafter provided, a stairway and passageway constituting a required exitway shall be enclosed and arranged to provide a continuous path of escape to the outside and provide protection for persons using the stairway against fire and smoke from other parts of the school building. Where this is impractical because of design or construction, the inspecting authority may accept the alternative of fire-resistive separation of floors, and require fire escapes that provide at least ½ of the required units of exit facility afforded by the stairways.

(2) Where a stairway enclosure is required in a school building not more than 2 stories, the enclosure may be provided at the lower floor level only.

(3) A stairway enclosure is not required in a 2-story building of combustible construction if the building is completely protected with an automatic sprinkler system.

(4) A stairway enclosure is not required in a building of not more than 2 stories and of fire-resistive or noncombustible construction unless the stairway affects a future addition of 2 or more stories, therefore requiring enclosure.

(5) A stairway which is not a part of a required exit shall be enclosed to effect a separation of floors. In a 2-story building this stairway may be enclosed at either the first or second floor level.

History: 1954 ACS 74, p. 40, Eff. May 15, 1973.

R 29.208 Stairway enclosure construction.

Rule 208. (1) A required stairway enclosure partition at a floor above grade level, whether for a continuous protected exit to the outside or as a fire-resistive construction between floors, shall be of noncombustible construction and installed to be smoketight. One-quarter inch wired glass installed in substantial steel frames will meet this requirement. Doors shall be underwriters' laboratories, inc., C labeled or factory mutual ¾-hour labeled.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

(2) An interior basement stairway or opening communicating with a floor above shall be enclosed with materials having a 1-hour fire-resistance rating including underwriters' laboratories, inc., B labeled or factory mutual 1- or 1½-hour labeled fire door assembly. Where such a basement is occupied by classrooms, the interior basement stairway doors required for exit shall be C or ¾-hour labeled.

(3) Where it is necessary to include a door from a room in a stairway enclosure, the opening shall be protected with an underwriters' laboratories, inc., B labeled or factory mutual 1- or 1½-hour labeled fire door assembly.

History: 1954 ACS 74, p. 41, Eff. May 15, 1973.

R 29.209 Other vertical openings.

Rule 209. An exterior wall of frame construction and an interior stud partition shall be fire stopped at each floor and attic level by a 2-inch thick plate or masonry filling, completely closing any possible vertical opening from 1 story to another.

History: 1954 ACS 74, p. 41, Eff. May 15, 1973.

R 29.211 Fire escapes.

Rule 211. A fire escape shall be constructed in compliance with state uniform specifications for fire escapes. An existing fire escape not in conformity with the state uniform specifications for fire escapes shall be replaced or modified to meet these specifications. A fire escape which is not or will not be used as an exit in fire drills shall be replaced with an approved exit facility.

History: 1954 ACS 74, p. 41, Eff. May 15, 1973.

R 29.213 Fire doors.

Rule 213. (1) A fire door assembly shall be as specified for location and ratings in compliance with R 29.81 and R 29.82, except that an unlabeled door and frame installed before May 15, 1961, may remain if, in the opinion of the inspecting authority, it is reasonably comparable to a labeled door by having a 1¾-inch solid wood core and not a hollow core or panel, and is in a solid substantial frame.

(2) Where necessary to replace an existing door with a labeled fire door, the existing frame need not be replaced if, in the opinion of the inspecting authority, it is in good repair, solid, and well anchored.

(3) Louvers in a required fire door or its counterpart shall be permanently closed by installation of not less than 14-gauge steel plates on each side of the opening.

History: 1954 ACS 74, p. 41, Eff. May 15, 1973.

R 29.215 Windowless buildings and underground areas.

Rule 215. Requirements for special windows and sprinklering of a windowless school building and underground area, as described in R 29.111 and R 29.112, do not apply to an existing building of such type, plans for which were approved before January 9, 1967.

History: 1954 ACS 74, p. 41, Eff. May 15, 1973.

R 29.217 Interior finishes.

Rule 217. (1) Interior finish of a wall or ceiling shall not be more hazardous than class B in a corridor and exitway and in a room for more than 200 persons. In any other occupied room, interior finish shall not be more hazardous than class C if this room is separated from corridors and exitways by partitions having a ½-hour fire-resistance rating, except existing doors. One-quarter inch wired glass

Digitized by Google Original from UNIVERSITY OF MICHIGAN

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

installed in substantial steel frames will meet this requirement. Class C finish material shall be applied directly to, or be furred out not more than 1 inch from, a noncombustible surface, except as specified otherwise in subrule (4).

(2) Where combustible interior finishes comprise more than 10% of the aggregate wall and ceiling surfaces of an occupied room or space, and where such material is more hazardous than permitted in subrule (1), such combustible interior finish may be painted with a fire retardant coating approved for the type of material to be covered to comply with subrule (1), if such material is secured to the walls or ceilings as specified in subrule (1). Such coating shall be renewed at intervals necessary to maintain the flame spread qualities.

(3) In a building of more than 1 story, where interior finish is more hazardous than class B and where it is furred out more than 1 inch from a noncombustible wall or ceiling, such material shall be replaced with class A or B material, or be reinstalled and treated to comply with the requirements of subrules (1) and (2).

(4) In a 1-story building, where the underside of the roof constitutes the ceiling and is more hazardous than permitted in subrule (1), the required flame spread classification of the existing surface may be secured by applying an approved fire retardant coating. If the ceiling material, whether surface treated or not, is more hazardous than permitted in subrule (1) and is suspended from the roof or a ceiling without a noncombustible backing, it shall be replaced with permissible material or be reinstalled directly to the roof deck or ceiling and treated with an approved fire retardant coating to secure the required flame spread classification.

(5) Where a corridor or exitway is approved for continued use as a return air plenum, its wall and ceiling finishes shall be class A.

History: 1954 ACS 74, p. 41, Eff. May 15, 1973.

R 29.218 Interior finish exceptions.

Rule 218. Subrules (1) to (4) of R 29.217 do not apply to:

(a) An area protected with an automatic sprinkler system, nor to combustible interior finish in the form of wainscoting extending not more than 5 feet above the floor.

(b) A school building where exits are provided directly to the outside from every classroom, except rooms for more than 200 persons and corridors serving such rooms.

(c) An exposed part of a structural member complying with the requirements for heavy timber construction to the national fire protection association pamphlet no. 220, 1961, standard types of building construction. This does not include a construction known as, or similar to, "lamella." Laminated wood shall not delaminate under the influence of heat.

History: 1954 ACS 74, p. 42, Eff. May 15, 1973.

R 29.221 Fire alarm systems.

Rule 221. (1) Where a manual fire alarm system was installed and approved in compliance with school bulletin 412, 1956, authorized by the school building law, Act No. 306 of the Public Acts of 1937, as amended, it will not be required to be replaced in a 1-story school building of not more than 4 classrooms, or where an electrical, open circuit system was likewise installed and approved.

(2) A school building, except a 1-story building of not more than 2 classrooms, which is not equipped with a fire alarm system, shall install an approved electrically operated closed circuit, supervised fire alarm system having its electrical supply fused ahead of the main switch or disconnect.

History: 1954 ACS 74, p. 42, Eff. May 15, 1973.

R 29.223 Heating plant locations and enclosures.

Rule 223. (1) An existing heating plant located beneath a part of a school building may be replaced, but shall not be expanded in capacity or be relocated beneath any part of the building.

(2) A heating plant shall be enclosed by an assembly of materials having a 1-hour fire-resistance rating, except that a heating plant room may have its roof and ceiling only of noncombustible materials having less than a 1-hour fire-resistance rating, if it is not located beneath any part of a school building.

History: 1954 ACS 74, p. 42, Eff. May 15, 1973.

R 29.224 Storage and laundry rooms and areas.

Rule 224. (1) A storage room for combustible materials and a room housing commercial-type laundry equipment of more than 500 square feet in area shall be separated from the remainder of the building with construction having a 1-hour fire-resistance rating. The rooms shall be protected by installation of an automatic sprinkler system where an adequate public or private water supply is available, or by an automatic fire detection system if such water supply is not available.

(2) A storage area beneath a stairway, if continued for such use, shall have its access doors located outside of any stairway enclosure and shall comply with the following:

(a) An access opening shall be protected by a B labeled fire door assembly.

(b) The area shall be separated from the remainder of the building by construction having a 1-hour fire-resistance rating, and if not in a fire-resistive or noncombustible building, shall be protected by an automatic sprinkler system.

History: 1954 ACS 74, p. 42, Eff. May 15, 1973.

R 29.225 Shops.

Rule 225. (1) An automotive or farm mechanics shop, located beneath any part of a school building not of fire-resistive construction, shall be relocated in compliance with the other requirements of this rule.

(2) Any other automotive or farm mechanics shop shall be separated from the remainder of the building by construction having a 1-hour fire-resistance rating.

(3) Any other shop shall be separated from the remainder of the building by construction having a 1-hour fire-resistance rating, except that where existing doors to the shop are C labeled, and ¼-inch wired glass in stationary steel frames is a part of an otherwise existing partition having a 1-hour fire-resistance rating, they need not be replaced.

(4) Where it is impractical to comply with subrules (2) and (3), a shop may be protected with an automatic sprinkler system where reasonably smoketight walls and doors acceptable to the inspecting authority separate the shop from corridors.

(5) For a secondary means of egress from a shop, R 29.203(4) applies.

History: 1954 ACS 74, p. 43, Eff. May 15, 1973.

R 29.227 Auditorium stages.

Rule 227. An auditorium stage shall be protected as required by R 29.161(1), except that the last sentence thereof does not apply to an existing stage if not designed or used for activities requiring combustible props or scenery sets.

History: 1954 ACS 74, p. 43, Eff. May 15, 1973.

R 29.231 Ventilation.

Rule 231. (1) Fan and air-handling equipment serving more than 1 classroom or single instructional area, shall be located in a room separated from other parts

Digitized by Google Original from UNIVERSITY OF MICHIGAN

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

of the school building by construction having a 1-hour fire-resistance rating. A room housing fans and air-handling equipment shall not be used for combustible storage.

(2) A duct and plenum employing mechanical means for the movement of air and used for heating and ventilating, including a warm air heating system, plain ventilating system, air conditioning system and exhaust system, shall be constructed entirely of noncombustible material. Where ducts and plenums of an existing system are constructed wholly or in part of combustible materials, they shall be reconstructed entirely of noncombustible materials if practical. However, where such reconstruction is impractical due to design or construction, the inspecting authority may accept the existing installation if fire dampers are installed in the return air duct opening from each room or space.

(3) A fire damper shall be installed on the discharge side of a recirculating fan unit serving more than 1 classroom or single instructional area. Where practicable, an automatic smoke detector shall be located in the system at a suitable point in the return air duct ahead of the fresh air intake, actuation of which will open the electrical circuit supplying the fan motor. Where it is impracticable to locate a smoke detector ahead of the fresh air intake, such smoke detector shall be located at a suitable point in the air duct on the discharge side of the fan.

(4) An existing system using corridors or exitways as return air plenums shall be reconstructed to eliminate such use. If reconstruction is impractical due to design or construction, the inspecting authority may accept the existing system if an automatic smoke detector is installed in each separated area of such corridors or exitways to automatically open the electrical circuit supplying the fan motor. Such detector shall incorporate visible or audible signals to indicate trouble which would interfere with proper operation of the detector. A stairway shall not be used as a return air plenum.

(5) A fire damper need only be installed in an opening from a heating plant room where required by subrules (2) and (3), and in any other location where the inspecting authority, due to extenuating features and circumstances, may indicate the need.

History: 1954 ACS 74, p. 43, Eff. May 15, 1973.

R 29.241 Exit signs.

Rule 241. (1) A required exit, except from a classroom not constituting a public assembly place, shall be designated with an approved illuminated exit sign. Approved illuminated directional exit signs shall be installed where needed in a school building normally used during hours of darkness or in a building normally requiring artificial illumination for exitways during the day.

(2) In a building not normally used during hours of darkness, the inspecting authority may require approved illuminated exit signs and approved illuminated directional exit signs where there may be a reasonable doubt as to location or identity of the required exits.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

R 29.243 Standpipes.

Rule 243. The requirement for a standpipe system in R 29.194 does not apply to an existing school building.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

R 29.247 Proceedings for abatement of fire hazards.

Rule 247. These rules shall not be construed to prevent proceedings for the abatement of a fire hazard as provided for in Act No. 207 of the Public Acts of 1941, as amended.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

PART 4. MAINTENANCE

R 29.251 Fire safe maintenance.

Rule 251. A public and private school building and the parts thereof, both existing and new, shall be maintained in a fire safe condition. The school district board or owner or his designated agent is responsible for fire safe maintenance of the building at all times.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

R 29.253 Exitways.

Rule 253. (1) The clear width of a doorway, corridor, passageway, or other exitway required by these rules shall not be obstructed or reduced.

(2) An exterior stairway or fire escape shall be kept clear of snow, ice, and obstructions. It shall be scraped and properly painted as often as necessary to maintain it in safe condition. No sign or other obstruction shall be attached to the building that interferes with free operation and use of such means of egress.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

R 29.256 Doors.

Rule 256. (1) A door from a room to a corridor and to the outside from a room, a door from a corridor to a stairway, and a door from a corridor or a stairway to the outside shall be maintained in good repair, be easily opened at all times and latch freely in a closed position.

(2) A fire door shall be maintained in good repair as provided in subrule (1), and an irreparable fire door shall be replaced.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

R 29.257 Door hardware.

Rule 257. (1) The closing device on a fire door shall be maintained in good operating condition so it will cause the door to tightly close upon release from an open position. The synchronizing closing devices of double doors without mullions shall be maintained in good operating condition.

(2) Panic bar hardware shall be maintained free and in good operating condition. Chains or other devices shall not be placed on such hardware for the purpose of making the doors inoperable during normal occupancy by other than custodial personnel.

(3) Nonoperating and irreparable door hardware shall be replaced.

(4) Hooks, eyes, bolts, bars, or rimlocks shall not be placed on a door required for exiting purposes, and any such door locking or holding device on an existing door shall be removed during occupancy by other than custodial personnel.

(5) An under-door wedge or other hold-open device other than those permitted by these rules shall not be used or permitted to remain on or near a fire door.

History: 1954 ACS 74, p. 44, Eff. May 15, 1973.

R 29.261 Air-handling systems.

Rule 261. (1) An air-handling system operated only part of the year shall be given a thorough general checkup before starting operation and again after shutting down.

(2) An inspection to determine the amount of dust and waste material in discharge and return ducts shall be made quarterly. If after several inspections such frequent inspection is found unnecessary, the interval between inspections may be adjusted to suit the conditions.

(3) Cleaning of the system shall be undertaken when inspection indicates the need.

(4) Cooling and heating coils shall be cleaned at the time of cleaning the ducts. Thorough cleaning of ducts may require scraping, brushing or other positive means.

(5) A plenum chamber shall be inspected monthly. If after several inspections such frequent inspection is found unnecessary, the interval between inspections may be adjusted to suit the conditions. A plenum chamber shall not be used for combustible storage.

(6) Where an area above a ceiling is used for air handling, a part of the ceiling which is removed for any purpose shall be replaced immediately after the purpose for removal is accomplished, and any clips or fasteners replaced or secured.

History: 1954 ACS 74, p. 45, Eff. May 15, 1973.

R 29.262 Air filters.

Rule 262. (1) An air filter shall be kept free of excess dust and combustible material. A unit filter shall be replaced or cleaned if resistance to the air flow has increased to 2 times the original resistance or if resistance has reached a point where replacement is recommended by the manufacturer. A suitable draft gauge shall be provided for this purpose. A draft gauge of a type which will operate a warning light or produce an audible signal if excessive dust loads have accumulated is recommended. If a filter is of the automatic liquid adhesive type, sludge shall be regularly removed from the liquid adhesive reservoir.

(2) A filter intended to be thrown away after use shall not be cleaned and reused.

(3) Liquid adhesives shall have a flash point not less than 325 degrees Fahrenheit.

(4) Electrical equipment of an automatic filter shall be inspected monthly and the operation cycle observed to see that the motor, relays and other controls function as intended. Drive motors and gear reductions shall be inspected semiannually and lubricated when necessary.

History: 1954 ACS 74, p. 45, Eff. May 15, 1973.

R 29.263 Fans and motors.

Rule 263. (1) A fan and fan motor of an air-handling system shall be inspected quarterly and cleaned and lubricated if necessary. Care should be exercised in lubricating a fan to avoid allowing oil to run onto the fan blades. A fan should be checked for alignment and to see that it runs freely.

(2) Automatic fan controls shall be inspected annually.

History: 1954 ACS 74, p. 45, Eff. May 15, 1973.

R 29.265 Fire doors and dampers.

Rule 265. (1) A fire door and fire damper should be examined annually and attention given to hinges and other moving parts to assure good operable condition.

(2) A fire damper which has been actuated by heat shall be replaced in service by replacing the fusible link, and no other method of fastening the damper in an open position shall be employed.

History: 1954 ACS 74, p. 45, Eff. May 15, 1973.

R 29.267 Smoke detection devices.

Rule 267. A smoke detection device located in an air handling unit, duct or plenum shall be cleaned when the duct or plenum is cleaned. Caution should be exercised in the use of open flames or spark emitting devices inside of ducts or plenum chambers, or near air intakes.

History: 1954 ACS 74, p. 45, Eff. May 15, 1973.

R 29.271 Fire alarm and detection systems.

Rule 271. (1) A fire alarm system shall be under supervision of a responsible person who shall cause proper tests to be made not less than monthly, maintain a record, and have general charge of alterations and additions.

(2) An open circuit fire alarm system shall be tested daily, before a school building is occupied by students, under a schedule which will test all stations on a regular basis.

(3) A record of tests required in subrules (1) and (2) shall be maintained and made available to the inspecting authority.

(4) A fire alarm system shall be restored to service as promptly as possible after each test or alarm and shall be kept in normal condition for operation. Equipment requiring rewinding or replenishing shall be rewound or replenished as promptly as possible after each test or alarm.

(5) Where break-glass type fire alarm boxes are used, at least 1 extra glass shall be maintained on the premises for each 20 stations of the system.

(6) An automatic smoke and heat detection system should be inspected monthly.

History: 1954 ACS 74, p. 45, Eff. May 15, 1973.

R 29.275 Fire drills and fires.

Rule 275. (1) A minimum of 10 drills is required for each school year. However, if weather conditions will not permit fire drills to be held at least once a month, then at least 6 fire drills shall be held in the fall of each year and 4 fire drills shall be held during the remaining part of the school year.

(2) Upon indication of a fire alarm or of a fire, the first action shall be to notify the local fire department.

History: 1954 ACS 74, p. 46, Eff. May 15, 1973.

R 29.281 Sprinkler systems.

Rule 281. (1) A broken pipe hanger on a sprinkler system shall be promptly replaced and a loose hanger shall be refastened.

(2) Stockpiling, racks, and other obstructions to a sprinkler pattern shall be maintained not less than 18 inches below sprinklers and, in case of piles of large, closely packed cases, bales, and cartons, a clearance of 36 inches below sprinklers shall be maintained.

(3) A supply of extra sprinklers and a sprinkler wrench shall be kept in a cabinet provided for that purpose.

(4) Piping shall not be used for support of stock or other material including other service piping and equipment.

(5) A wet piping system or part of a system shall not be exposed to freezing temperatures.

(6) If a system is shut off for repairs or other reason, it shall be replaced in service as soon as possible.

(7) A sprinkler head shall not be painted and if inadvertently painted shall be immediately replaced.

History: 1954 ACS 74, p. 46, Eff. May 15, 1973.

R 29.282 Sprinkler system weekly inspections.

Rule 282. A weekly inspection shall be made of the following items for assurance that a sprinkler is always ready for operation:

(a) For wet and dry pipe systems:

(i) That any post indicator valve is open.

(ii) That any outside screw and yoke valve is open.

(iii) That water pressure gauges show normal pressures.

(b) For dry pipe systems, that air pressure gauges show normal pressures.

(c) For pressure tank supplied systems (gauge cocks shall remain closed except if test of water level is being made):

(i) That water level is being maintained at the proper level.

(ii) That items of subdivisions (a) and (b) are checked.

(d) For fire department connections:

(i) That caps are in place, since an open pipe could permit introduction of foreign material into the system.

(ii) That the ball drip is in working order.

(iii) That the check valve is not leaking.

History: 1954 ACS 74, p. 46, Eff. May 15, 1973.

R 29.283 Sprinkler system quarterly flow tests.

Rule 283. A quarterly flow test shall be made of wet pipe systems by opening the inspector's test valve. A quarterly test shall also be made at the drain valve to check water gauge pressures on the system side of the check valve. A test shall not be run on a system connected directly to the fire department or central station without first advising them of the test. Proper training for building personnel should be obtained from the sprinkler contractor installing the system.

History: 1954 ACS 74, p. 46, Eff. May 15, 1973.

R 29.284 Sprinkler system monthly and annual tests.

Rule 284. (1) A monthly test shall be made of the water flow alarm through the alarm test at the main valve for testing the relay of flow to the alarm system of the building. Proper training for building personnel should be obtained from the sprinkler contractor installing the system.

(2) A dry pipe valve shall be tripped, cleaned, and reset annually. This should be done only by a qualified person who has been properly trained and with adequate practical experience with dry pipe valves and sprinkler systems.

(3) A test shall not be run on a system that is connected directly to the fire department or central station without first advising them of the test.

History: 1954 ACS 74, p. 47, Eff. May 15, 1973.

R 29.285 Standpipes.

Rule 285. (1) Standpipe valves shall be inspected weekly to assure they are always in open position.

(2) Fire department connections to a standpipe shall be checked weekly to assure caps are in place, that the ball drip is operative and that the check valve is not leaking.

(3) Where first aid hose is connected to a standpipe, the valve shall be checked for leakage. Wet hose shall be removed and dried as a prevention against mildew and rot. Old irreparable hose should be replaced.

History: 1954 ACS 74, p. 47, Eff. May 15, 1973.

R 29.287 Fire extinguisher inspections and recharging.

Rule 287. (1) A fire extinguisher shall be inspected annually and defective equipment repaired or replaced.

(2) A soda acid and a water-type extinguisher shall be recharged annually as follows and tagged with the date of recharging:

(a) Where CO_2 in a cartridge is the expellant, the cartridge shall be weighed, and if its weight is under that stamped on the cartridge, the cartridge shall be replaced.

(b) Where air is the expellant, air pressure shall be maintained at a satisfactory level as indicated on the gauge.

(3) A dry chemical extinguisher need not be recharged except after use, however:

(a) The proper chemical level shall be checked annually.

(b) An expellant cartridge shall be weighed and the requirements of subrule (2)(a) shall be followed.

(c) Where air pressure is used, the air shall be run through a drying device to remove all moisture.

(d) The date of recharging or annual check shall be recorded on a tag which shall be attached to the extinguisher.

(4) A carbon dioxide extinguisher, CO_2, shall be weighed annually to ascertain that it is properly charged and fully loaded. The weights of the extinguisher when empty and when fully loaded are stamped on the valve, and the weight differential is that of the extinguishing agent. The date of recharging or annual check shall be recorded on a tag which shall be attached to the extinguisher.

History: 1954 ACS 74, p. 47, Eff. May 15, 1973.

R 29.288 Fire extinguisher hydrostatic tests.

Rule 288. A fire extinguisher shall be hydrostatically tested at intervals as follows:

Extinguisher Type	Test Interval in Years
Soda-acid	5
Cartridge-operated water or antifreeze	5
Carbon dioxide	5
Stored-pressure water or antifreeze	5
Wetting agent	5
Foam	5
Loaded stream	5
Dry chemical, with stainless steel shell, or soldered-brass shell	5
Dry chemical, with braised-brass shell or mild steel shell	12
Dry powder, for metal fires	12

History: 1954 ACS 74, p. 47, Eff. May 15, 1973.

R 29.291 Exit lights.

Rule 291. An exit light circuit sustaining an electrical outage shall be corrected as rapidly as possible. A burned out bulb in an exit sign shall be replaced without delay.

History: 1954 ACS 74, p. 48, Eff. May 15, 1973.

R 29.293 Fire retardant paints.

Rule 293. Where fire retardant paint has been applied in an existing school building to retard combustibility, and where moisture or other conditions have caused flaking or peeling or where washing has removed any of the paint surface, a reapplication of fire retardant paint for the type of product being covered shall be made in compliance with listings by underwriters' laboratories, inc., and with R 29.122, R 29.217, and R 29.218.

History: 1954 ACS 74, p. 48, Eff. May 15, 1973.

R 29.295 General housekeeping.

Rule 295. (1) A building shall be kept clean and free from accumulation of unnecessary combustible material.

(2) Necessary combustible items shall be kept in rooms designed and approved for such storage and in no other location.

(3) Oxygen, combustible gases, and flammable liquids shall not be stored with each other nor with other ordinary combustible materials.

(4) Rubbish shall be disposed of as soon as possible after its collection.

History: 1954 ACS 74, p. 48, Eff. May 15, 1973.

R 29.296 Electrical systems.

Rule 296. (1) When planning additional electrical equipment, lighting, or appliances, advice of persons competent in electrical matters shall be sought and followed.

(2) Where fuses or circuit breakers cause open circuits, the circuits shall not be overfused. Care should be taken that electrical services and circuits are not overloaded.

History: 1954 ACS 74, p. 48, Eff. May 15, 1973.

R 29.297 Gases.

Rule 297. (1) Means shall be taken to assure that gas service to a room where there are 3 or more gas outlets is shut off by the master valve if the room is not in use.

(2) Odors of gas shall be immediately reported to the gas supplier.

History: 1954 ACS 74, p. 48, Eff. May 15, 1973.

R 29.298 Overcrowding.

Rule 298. A room or space shall not be permitted to be overcrowded by persons beyond its area limitations and the number of persons the exit doors and facilities would accommodate, in compliance with R 29.36 and R 29.41 to R 29.46.

History: 1954 ACS 74, p. 48, Eff. May 15, 1973.

FIRE FIGHTERS TRAINING COUNCIL

GENERAL RULES

(By authority conferred on the fire fighters training council by section 16 of Act No. 291 of the Public Acts of 1966, being §29.376 of the Michigan Compiled Laws)

R 29.401 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 291 of the Public Acts of 1966, being §29.361 et seq. of the Michigan Compiled Laws.

(b) "Council" means the fire fighters training council.

(c) "Executive secretary" means the executive secretary of the council.

(d) "Fire fighter" means a member of an organized fire department who is either an employee of the department or a volunteer.

(e) "Staff member" means the executive secretary, field coordinator, or curriculum writer employed full time by the council.

History: 1954 ACS 99, p. 15, Eff. May 2, 1979.

R 29.402 Council-approved course; instruction hour; recognition of training by council.

Rule 2. (1) A council-approved course shall be based upon all of the following:

(a) The time required to adequately cover the subject material.

(b) The ability of an average class to accomplish the established goals.

(c) Its relevancy to the needs of the fire service in Michigan.

(2) An instruction hour shall consist of 50 minutes of instruction time and 10 minutes break time, totaling 1 actual hour.

(3) The council shall only recognize training that is conducted by council-approved personnel.

History: 1954 ACS 99, p. 15, Eff. May 2, 1979.

R 29.403 Curriculum; examinations.

Rule 3. (1) An instructor, in conjunction with an advisory committee from the area and the coordinator, shall determine the emphasis to be given to the various subjects in the curriculum which are necessary for proper training of a new fire fighter. The emphasis to be given to the various subjects in the curriculum shall be reviewed and approved by the executive secretary.

(2) A review, mid-term, and final examination shall be given in all courses. The examinations shall be approved by the council and shall be reviewed by council staff members to ascertain if there is adequate comprehension of the subject material tested in the examinations.

(3) The examinations shall be conducted by council-approved personnel.

(4) A 70% average is required to successfully pass the examinations.

History: 1954 ACS 99, p. 15, Eff. May 2, 1979.

R 29.404 Attendance at training sessions; certificates.

Rule 4. (1) A trainee shall attend all sessions unless he has a valid reason for his absence. The instructor may, for valid reasons, excuse not more than 10% of the total hours of instruction. An absentee from a scheduled class session shall make up the absence as required by the instructor.

(2) After successful completion of the program, the council shall award a certificate to a trainee. If a trainee is trained in a 240-hour continuous course, certificates shall not be awarded for the class IV, class III, or class II portions.

History: 1954 ACS 99, p. 15, Eff. May 2, 1979.

R 29.405 Classification of fire fighters; fire inspectors; officers.

Rule 5. (1) A class IV fire fighter is a person who has successfully completed the council-approved curriculum of a basic course not less than 66 hours in length.

(2) A class III fire fighter is a class IV fire fighter who has successfully completed the council-approved curriculum of an intermediate course not less than 60 hours in length.

(3) A class II fire fighter is a class III fire fighter who has successfully completed the council-approved curriculum of a basic advanced course not less than 60 hours in length.

(4) A class I fire fighter is a class II fire fighter who has successfully completed the council-approved curriculum of an advanced course not less than 60 hours in length.

(5) A fire inspector is a person who has successfully completed the council-approved curriculum of a basic fire inspector's course. A fire inspector may also be a person who has challenged the council-approved examination and passed the examination with a score of not less than 70%. A certificate shall be issued by the council upon the passing of the examination.

(6) A class III officer is a class IV fire fighter who has successfully completed the council-approved basic fire officer's course of not less than 40 hours in length, and has passed a council-approved examination for this course with a score of not less than 70%. A class III officer may also be a person who has challenged the council-approved comprehensive examination for this classification and passed the examination with a score of not less than 70%.

(7) A class II officer is a class III fire fighter and a class III officer who has successfully completed the council-approved intermediate fire officer's course of not less than 40 hours in length, and has passed a council-approved examination for this course with a score of not less than 70%. A class II officer may also be a person who has challenged the council-approved comprehensive examination for this classification and passed the examination with a score of not less than 70%.

(8) A class I officer is a class I fire fighter and a class II officer who has successfully completed the council-approved advanced officer's course of not less than 40 hours in length, and has passed a council-approved examination for this course with a score of not less than 70%. A class I officer may also be a person who has challenged the council-approved comprehensive examination for this classification and passed the examination with a score of not less than 70%.

History: 1954 ACS 99, p. 15, Eff. May 2, 1979.

R 29.406 Training on a regional basis; exception; location of schools.

Rule 6. (1) With the exception of in-service training, all training offered by the council shall be on a regional basis, and all classes shall contain trainees from more than 1 department.

(2) The council may enter into an agreement with a department or departments to provide training on a regional basis.

(3) The field coordinator shall make the final determination regarding the location of any council-approved or council-sponsored school.

History: 1954 ACS 99, p. 16, Eff. May 2, 1979.

R 29.407 In-service training program.

Rule 7. If 75% of the members of a department are in or above the same classification, the department may participate in the council-approved in-service training program by notifying the executive secretary of its percentage factor. Upon receipt of such information, the department shall begin to receive drill plans

and shall continue to receive drill plans on a periodic basis. The drill plan shall be so designed that, if properly used, it outlines a drill 3 hours in length or 3 drills 1 hour in length, and over a period of 12 months it shall constitute a refresher course in all categories of training required for that classification. For example, if of the 100 persons in a department, 66 are in the fire fighter II classification, 5 are in the fire fighter I classification, and 29 are in officer II classification, the department may request drill plans for the fire fighter II classification.

History: 1954 ACS 99, p. 16, Eff. May 2, 1979.

R 29.408 Instructor certification generally.

Rule 8. (1) An applicant for an instructor's certificate shall submit all the necessary supporting information and data, on forms provided by the council, to the executive secretary for review and recommendation for council approval.

(2) An applicant shall have the approval and recommendation of his agency head.

(3) The executive secretary may, at the direction of the council, issue a provisional certification, which may be in effect for a period not to exceed 6 months from the date of issuance.

(4) Within 6 months after the date of issuance of a provisional certification, a council staff member shall evaluate and test the applicant to determine his competence, and shall either recommend or not recommend the applicant for "B" certification. The executive secretary may extend this time period.

History: 1954 ACS 99, p. 16, Eff. May 2, 1979.

R 29.409 Instructor "B" certification.

Rule 9. (1) An applicant for instructor "B" certification shall demonstrate his ability to instruct by being evaluated in a teaching situation by a member of the council staff and receiving approval by that staff member.

(2) An applicant shall submit to a staff member evidence that he possesses adequate knowledge of the subject or subjects he proposes to teach and the methodology necessary to communicate to a class.

(3) An applicant shall be capable of teaching at least 1 subject approved by the council.

(4) Upon receiving a favorable evaluation report regarding an applicant's teaching ability, the council shall issue a "B" certificate.

History: 1954 ACS 99, p. 16, Eff. May 2, 1979.

R 29.410 Instructor "A" certification.

Rule 10. (1) An applicant for an instructor "A" certification shall be certified as an instructor "B" and shall be qualified to teach the entire basic fire fighter's course.

(2) An applicant shall successfully complete a council-approved course, not less than 40 hours in length, in teaching methodology.

(3) An applicant shall presently be in the fire service and shall have a minimum of 5 years of fire fighting experience.

(4) An applicant for an instructor "A" certification shall be evaluated in a teaching situation while conducting a class in 1 or more subjects not in the basic fire fighter's curriculum.

(5) Upon receiving a favorable evaluation report regarding the applicant's teaching ability, the council shall issue an "A" certificate to the applicant.

(6) The holder of an "A" certificate shall be considered qualified to teach any council-approved course.

(7) In place of subrules (1), (2), and (3), an applicant may be tested by council staff personnel using an examination and criteria approved by the council and shall achieve a minimum passing score of not less than 70%.

History: 1954 ACS 99, p. 17, Eff. May 2, 1979.

R 29.411 Recognition of training conducted by certified instructor; exceptions.

Rule 11. The council shall recognize all training conducted by a certified instructor, except for justifiable reasons, including, but not limited to, any of the following:

(a) Inability to convey the subject matter of training to the trainee or trainees.

(b) Intoxication, or being under the influence of a controlled substance while teaching.

(c) Failure to instruct as the lesson plan indicates.

(d) Failure to comply with instructions given by the coordinator. These instructions shall be in writing and based on the policies and procedures established by the council.

(e) Teaching a subject not approved by the council.

(f) Conviction of a felony or a high misdemeanor.

History: 1954 ACS 99, p. 17, Eff. May 2, 1979.

R 29.412 Retention of certification by instructor.

Rule 12. (1) An instructor shall retain certification if he teaches council-approved courses in some manner for not less than 24 clock hours in a continuous 24-month period.

(2) If training is in classes other than in council-sponsored schools, the training may be reported to the council, on forms provided by the council, not less than every 6 months.

(3) If an instructor fails to comply with subrule (1) of this rule, the instructor may be recertified by the council only after the council receives a favorable evaluation report regarding the applicant. The instructor shall be evaluated within 90 days of the council meeting in which this action is taken.

(4) Special provision may exist which allows for a continual certification of instructors in the department of natural resources, department of state police, fire marshal division, and public utilities.

History: 1954 ACS 99, p. 17, Eff. May 2, 1979.

R 29.413 Training school; facilities; separations; approval.

Rule 13. (1) A fire fighter training school shall have available rooms and facilities in order to efficiently carry out its program of instruction.

(2) If separations are required in the program of instruction, drill areas, apparatus, equipment, and supportive services shall be available.

(3) A training school may be approved by the executive secretary upon the recommendation of a coordinator. The council reserves the right to overrule the decision of the executive secretary.

History: 1954 ACS 99, p. 17, Eff. May 2, 1979.

R 29.414 Recognition of training given by other states.

Rule 14. (1) The council may recognize training given to trainees by agencies of other states, if all of the following conditions are satisfied:

(a) The training is in a state-authorized or approved course.

(b) The training is given by a state-authorized instructor.

(c) The state agency supervises the instruction.

(d) The instruction is based on manuals available from the international fire service training association or equivalent training materials.

(e) A lesson plan for each subject is available to all participating states for examination and review.

(f) A copy of the training record of the individual is forwarded to the office of the state fire fighter training agency of the state where the person has applied for recognition. The record shall reveal the subjects, dates of training, and number of hours of training in each category. The request for the record shall be made by the individual to the agency in the state that the individual is leaving, and the transcript shall be sent directly from that office to the fire fighter training agency of the state the person is entering.

(2) The presentation of records exchanged pursuant to subrule (1) shall not automatically result in certification by this state. Each case shall be considered individually and the person in question may be required to demonstrate manual skills and to submit to a written or oral examination given by a staff member of the council. An explanation of the manual skills performed and a copy of the written or oral examination shall be approved by the executive secretary.

STATE FIRE SAFETY BOARD

HEALTH CARE FACILITIES FIRE SAFETY

(By authority conferred on the state fire safety board by section 3c of Act No. 207 of the Public Acts of 1941, as amended, being §29.3c of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 29.1101 Scope.

Rule 101. (1) These rules set forth minimum requirements for fire safety in both new hospital and institution construction and in existing hospital and institution buildings. They are based on recognized good practices as evidenced by standards adopted by nationally recognized authorities in the field of fire protection with necessary clarifications and interpretations, as they apply to hospital and institution occupancies. Additional requirements appear in Act No. 299 of the Public Acts of 1947, being §331.501 et seq. of the Michigan Compiled Laws, and in Act No. 139 of the Public Acts of 1956, as amended, being §331.651 et seq. of the Michigan Compiled Laws. These acts should be reviewed and complied with.

(2) These rules deal with life safety from fire and other emergencies associated with fire. They cover construction, protection, and occupancy features to minimize danger to life from fire, smoke, fumes, or panic before buildings are vacated or the occupants removed to protected areas of refuge within the building. They specify the number, size, and arrangement of exit facilities sufficient to permit prompt escape or removal of occupants from buildings or their removal to areas of refuge within buildings in case of fire or other conditions dangerous to life associated with fire.

(3) These rules recognize that life safety from fire and other emergencies associated with fire is more than a matter of exits and evacuation and, therefore, are also concerned with occupancy and with the confining of a fire to the point of

Digitized by Google Original from UNIVERSITY OF MICHIGAN

origin by area limitations, by separation of activities and storage, by early detection and supervision by staff personnel, as well as by other forms of protection.

(4) These rules relate to fire safety only and do not include other mandatory features of hospital and institution construction, or recommendations relative to hospital and institution construction required by other agencies.

History: 1954 ACS 100, p. 6, Eff. July 18, 1979.

R 29.1105 Applicability.

Rule 105. (1) These rules apply to construction of a new hospital or an institution, as well as to additions to and reconstruction, conversion, remodeling, and maintenance functions as prescribed under part 4 of these rules, of an existing hospital or institution, both public and private, required to be licensed in compliance with Act No. 139 of the Public Acts of 1956, as amended, being §331.651 et seq. of the Michigan Compiled Laws, Act No. 17 of the Public Acts of 1968, as amended, being §331.411 et seq. of the Michigan Compiled Laws, Act No. 280 of the Public Acts of 1939, as amended, being §400.1 et seq. of the Michigan Compiled Laws, and Act No. 207 of the Public Acts of 1941, as amended, being §29.1 et seq. of the Michigan Compiled Laws.

(2) These rules do not apply to a building used for a doctor's office, a clinic, or an occupancy other than a hospital or an institution where overnight care is not given.

(3) Buildings built under, and in full compliance with, the rules in force at the time of construction or alteration thereof, and that have been properly maintained and continually used for such use as originally permitted, shall be exempt from the requirements of these rules, except as may be specifically covered in these rules or as may be deemed necessary by the inspecting authority for the general safety and welfare of the occupants and the public.

History: 1954 ACS 100, p. 6, Eff. July 18, 1979.

R 29.1110 Modification.

Rule 110. (1) A hospital or an institution board, the owner of a public or private hospital or an institution, or the authorized agent of a hospital, or an institution board or owner, confronted with practical difficulties in complying with these rules, may apply to the state fire marshal in writing, stating the particulars and reasons for any modification requested.

(2) The state fire safety board may vary the application of a rule, or modify a ruling or interpretation of the state fire marshal, if enforcement does manifest injustice and is contrary to the spirit and purpose of the rules or the public interest. The variance or modification shall be consistent with recognized good practices as evidenced by standards adopted by nationally recognized authorities.

History: 1954 ACS 100, p. 6, Eff. July 18, 1979.

R 29.1115 Adoption by reference.

Rule 115. (1) Some of these rules hereinafter refer to all or parts of the following codes, standards, or regulations of nationally recognized organizations or associations, which are adopted herein by reference and identified by date or otherwise:

(a) American gas association laboratories directory of certified appliances, July, 1978, available from the American Gas Association Laboratories, 8501 East Pleasant Valley Road, Cleveland, Ohio 44131. Single copies are available at $3.00.

UL Standard No. 723, 1977 ..... 3.50

(f) State of Michigan fire damper clarification, fifth edition, 1975; available from Sheet Metal and Air Conditioning Contractors National Association, Inc., Metro-Detroit Chapter, Suite 305, 3221 West Big Beaver Road, Troy, Michigan 48084. Single copies are available at $3.00.

(2) In addition to the sources specified in subrule (1) for specific codes, standards, or regulations, copies of all of the items listed will be available from the office of the State Fire Safety Board, 7150 Harris Drive, Lansing, Michigan 48913, at prices either as indicated or at a cost to cover the expense of copying and mailing the indicated documents.

History: 1954 ACS 100, p. 6, Eff. July 18, 1979.

R 29.1120 Definitions; A, B.

Rule 120. (1) "Ambulatory" means a patient who, without the aid of another, is physically and mentally capable of walking a normal path to safety, including the ascent and descent of stairs.

(2) "Anesthetizing location" means an area of a hospital in which it is intended that a flammable or nonflammable inhalation anesthetic agent will be administered in the course of examination or treatment, including operating rooms, delivery rooms, emergency rooms, anesthesia rooms, corridors, utility rooms, and other areas when used for the induction of anesthesia with flammable or nonflammable anesthetizing agents with reference to an anesthetizing location:

(a) "Hazardous location" means that portion of a flammable anesthetizing location less than 5 feet from above the floor and a room or area adjoining such anesthetizing location without a door, and extending 10 feet laterally beyond a door from the anesthetizing location.

(b) "Flammable anesthetizing location" means an operating room, delivery room, anesthesia room, emergency room, treatment room, corridor, utility room, and any other area if used or intended for the use of flammable anesthetizing agents.

(c) "Nonflammable anesthetic agent" means an inhalation agent which, because of its vapor pressure at 37 degrees Celsius or 98 degrees Fahrenheit, and at

atmospheric pressure, cannot attain flammable concentrations when mixed with air, oxygen, or mixtures of oxygen and nitrous oxide.

(3) "Approved" means acceptable to the state fire marshal.

(4) "Automatic fire detection system" means a local system incorporating devices listed by underwriters' laboratories, inc., fire protection equipment directory, 1978, and installed in compliance with national fire protection association pamphlet no. 72D, 1975, proprietary protective signaling systems.

(5) "Automatic sprinkler system" means a sprinkler system installed in compliance with national fire protection association pamphlet no. 13, 1976, installation of sprinkler systems.

(6) "Basement" means that portion of a building partly underground, but having less than half its clear height below the average grade of the adjoining ground.

(7) "Building" means a hospital or an institution building occupied by patients or residents.

(8) "Bulk oxygen system" means an assembly of equipment, such as oxygen storage containers, pressure regulators, safety devices, vaporizers, manifolds, and interconnecting piping, which has a storage capacity of more than 20,000 cubic feet of oxygen, normal temperature pressure, including unconnected reserves on hand at the site. The bulk oxygen system terminates at the point where oxygen at service pressure first enters the supply line. The oxygen containers may be stationary or movable, and the oxygen may be stored as gas or liquid.

History: 1954 ACS 100, p. 8, Eff. July 18, 1979.

R 29.1125 Definitions; C to E.

Rule 125. (1) "Cellar" means that portion of a building partly below grade, but so located that the vertical distance from the grade to the floor is greater than the vertical distance from the grade to the ceiling.

(2) "Combustible" means a flammable gas, flammable liquid, or a solid material which will ignite and burn. Tests shall be in compliance with the American society for testing and materials standard E-136, 1973, noncombustibility of elementary materials.

(3) "Combustible gas" means a gas which, when subjected to a source of ignition (arc, spark, or flame), will burn or explode if confined when the ratio of the concentration of gas-air mixture is within defined limits typical of the gas in question.

(4) "Conductive footwear" means shoes, each having a sole and heel of conductive rubber, conductive leather, or equivalent material, fabricated with resistance in compliance with the national fire protection association pamphlet no. 56A, 1973, inhalation anesthetics code.

(5) "Conversion" means changing the purpose for which a building, a room, or an area is used.

(6) "Corridor" means a horizontal passageway protected against a communication of fire and products of combustion from other parts of the building, which provides a safe way of egress to an approved stairway or exit to the outside.

(7) "Exit" means a continuous way of departure from the interior of a hospital or an institution building to the open air outside at the ground level. It may comprise vertical and horizontal means of travel, such as a doorway, stairway, ramp, corridor, passageway, and fire escape, including all elements necessary for the purpose of emergency escape from the building. An exit begins at a doorway, or other point of access to an exit, from which occupants may proceed to the exterior of the building with reasonable safety. All exits shall terminate directly at

a public way or at an exit discharge. Yards, courts, open spaces, or other portions of the exit discharge shall be of a width and size required to provide all occupants with a safe access to a public way.

History: 1954 ACS 100, p. 8, Eff. July 18, 1979.

R 29.1130 Definitions; F.

Rule 130. (1) "Fire alarm system" or "fire detection system" means an approved system which will indicate a fire emergency requiring immediate action and which will alert all the occupants of a building.

(2) "Fire damper" means a damper tested by a nationally recognized testing laboratory in compliance with American society for testing and materials standard no. E-152, 1976, fire tests of door assemblies, or underwriters' laboratories, inc., standard no. 555, 1973, fire dampers, for a 1-hour fire-resistance rating, except that, where used in a tested floor-ceiling or ceiling-roof design, the damper shall be of the type tested in the assembly or approved for installation in an assembly by the testing laboratory.

(3) "Fire door assembly" means a labeled fire door and labeled frame, constructed and installed in compliance with national fire protection association pamphlet no. 80, 1977, fire doors and windows, which has a latching device, and a swinging and sliding hardware and closing device, labeled or listed in compliance with the listing and reexamination service of an approved nationally recognized testing laboratory. A fire door bearing the label of an approved testing laboratory and a fire door frame bearing the label of another approved testing laboratory each with the same fire rating classification installed in an opening requiring that fire rating classification shall be permitted unless prohibited by the testing method.

(4) "Fire-resistance rating" means the rating of a material, or assembly of materials, having a fire-resistance rating not less than that listed in American insurance association, fire-resistance ratings, 1964 (amendments 1968, 1970, 1972), or rating label or listing of underwriters' laboratories, inc., building materials directory, 1978, or certified by a nationally recognized independent testing laboratory with proper certification.

(5) "Fire-resistive construction" means that type of construction in which the structural members, including bearing and nonbearing walls, partitions, columns, floors, and roofs are of noncombustible or limited-combustible materials and have fire-resistance ratings not less than those specified in these rules.

(6) "Fixture" means an item of equipment, apparatus, or cabinetry permanently or temporarily fixed in place, necessary for the providing of treatment, services, or functions of a facility. Furnishings, which in some cases may be secured in place for functional reasons, shall not be considered as fixtures.

(7) "Flameproof" or "flameproofing" means that materials will not readily ignite and will not propagate flame under the test conditions of national fire protection association pamphlet no. 701, 1977, flame-resistant textiles and films. Flameproofed materials are usually combustible materials with the addition of some treatment or coating to modify their burning properties.

(8) "Flammable liquid" means a liquid having a flash point below 200 degrees Fahrenheit and having a vapor pressure not more than 40 pounds per square inch, absolute, at 100 degrees Fahrenheit.

History: 1954 ACS 100, p. 9, Eff. July 18, 1979.

R 29.1135 Definitions; H to N.

Rule 135. (1) "Hazardous room" means a room of a hospital, or of an institution building, housing the heating plant and incinerators, or where combus-

tible materials, flammable liquids, gases, or dangerous chemicals are used or stored.

(2) "Heating plant room" means the room housing any fuel-fired equipment used to heat buildings.

(3) "Home for the aged" means a privately or publicly operated institution licensed by the state of Michigan as a home for the aged.

(4) "Hospital" means an establishment offering inpatient services and facilities to 4 or more nonrelated individuals requiring diagnosis, treatment, or care for a period of more than 24 hours, or providing for the convalescence, boarding, reception care, or curative treatment of 4 or more sick, wounded, or injured persons.

(5) "Institution" means a nursing home, home for the aged, a long-term care facility of a hospital, or an establishment for the detention, segregation, or curative treatment of 4 or more mentally ill or mentally retarded persons, except outpatient family care homes as defined by the Michigan department of mental health.

(6) "Limited-combustible" means a material, not complying with the definition of noncombustible material, which, in the form in which it is used, has a potential heat value not exceeding 3,500 British thermal units per pound, and complies with subdivision (a) or (b). Materials subject to increase in combustibility or flame spread rating beyond the limits herein established through the effects of age, moisture, or other atmospheric conditions shall be considered combustible.

(a) The material has a structural base of noncombustible material, with a surfacing not exceeding a thickness of ⅛ inch, which has a fire hazard classification of class A, in compliance with R 29.1243.

(b) The material is, in the form and thickness used, other than as described in subrule (a), having neither a fire hazard classification greater than class A nor evidence of continued progressive combustion and of such composition that surfaces that would be exposed by cutting through the material on any plane would have neither a fire hazard classification greater than class A nor evidence of continued progressive combustion.

(7) "May" means permissive within the intent of these rules.

(8) "Noncombustible" means a material, no part of which will ignite and burn when subjected to a fire. A material which liberates flammable gas when heated to a temperature of 1,380 degrees Fahrenheit for 5 minutes is not considered noncombustible.

(9) "Nurses station open to a corridor" means an area open to the corridor for the purpose of control and supervision of patients by the nursing staff.

(10) "Nursing home" means a privately or publicly operated institution, licensed by the state of Michigan as a nursing home.

History: 1954 ACS 100, p. 10, Eff. July 18, 1979.

R 29.1140 Definitions; O, P.

Rule 140. (1) "Owner" means a trustee, board of trustees, a lease-holder, or a person having a freehold interest in the property, but a mortgagee shall not be deemed an owner.

(2) "Panic hardware" means a device which causes the door latch to release when a force of 15 pounds is applied in the direction of egress to a bar or panel extending not less than half of the width of the door and at a height greater than 30 inches but less than 44 inches above the floor.

(3) "Patient" means a person under treatment or care in a hospital or an institution on a 24-hour basis.

(4) "Patient-occupied room" means a room used for sleeping, care, and other activities of a patient.

(5) "Plenum" means an air compartment or chamber to which 1 or more ducts are connected or which is part of an air distribution system.

History: 1954 ACS 100, p. 10, Eff. July 18, 1979.

R 29.1145 Definitions; R to W.

Rule 145. (1) "Remodeling" means alteration, installation, or other work provided for in the applicable parts of these rules.

(2) "Resident" means a person residing in a home for the aged, privately or publicly operated, wherein the resident status shall be in compliance with R 29.1135(3).

(3) "Smoke detection system" means an automatic system indicating the presence of an abnormal smoke density in a space or an area consisting of components approved and listed by underwriters' laboratories, inc., fire protection equipment directory, 1978, and installed in compliance with national fire protection association pamphlet no. 72D, 1975, proprietary protective signaling systems.

(4) "Special care unit" means a grouping of rooms or cubicles into a unit or area open to a central core area, where the unit is designated for patient service or care of the same nature throughout and when an attendant is on duty at a location in view of all of the rooms or cubicles during any occupancy.

(5) "Stairway" or "stair," open or enclosed, means a series of steps, or a flight of steps, and the necessary landing and platform for passing from 1 level to another.

(6) "Storage" means a building, a room, or an area where materials, supplies, or equipment are kept on a continuing basis.

(7) "Story" means that part of a building between a floor and the floor or roof next above.

(8) "Wired glass" means glass not less than ¼-inch thick, reinforced with wire mesh, no. 24 gauge or heavier, with spacing not greater than 1 inch square.

History: 1954 ACS 100, p. 10, Eff. July 18, 1979.

R 29.1150 Rescission.

Rule 150. The following rules are rescinded:

(a) The rules entitled "Hospitals and Institutions," being R 28.3051 to R 28.3094 of the Michigan Administrative Code and appearing on pages 1377 to 1398 of the 1960 Annual Supplement to the Code.

(b) The rules entitled "Homes for the Aged and Nursing Homes," being R 28.3401 to R 28.3466.3 of the Michigan Administrative Code and appearing on pages 3038 to 3072 of the 1964-65 Annual Supplements to the Code.

History: 1954 ACS 100, p. 11, Eff. July 18, 1979.

PART 2. NEW HOSPITALS AND INSTITUTIONS

R 29.1201 Applicability.

Rule 201. (1) Except as provided in part 3, this part applies to construction of a new hospital or institution, as well as to additions, reconstruction, and remodeling of an existing hospital or institution.

(2) This part also applies to the conversion of an existing building into a hospital or institution.

History: 1954 ACS 100, p. 11, Eff. July 18, 1979.

R 29.1202 General safety.

Rule 202. A hospital or an institution shall be constructed, arranged, equipped, maintained, and operated so as to avoid undue danger to the lives and safety of its occupants resulting from fire, smoke, fumes, or the resulting panic during such time as is reasonably necessary for escape or removal to an area of refuge from the fire, or because of other emergencies associated with fire.

History: 1954 ACS 100, p. 11, Eff. July 18, 1979.

R 29.1203 Plans and specifications; approval.

Rule 203. (1) Plans and specifications shall be submitted to the state fire marshal for all projects involving construction, reconstruction, conversion, remodeling, alterations, or permanent renovations if the cost of the project is such that the seal of an architect or engineer is required by R 29.1204.

(2) All projects shall comply with the other requirements of these rules, whether or not they are addressed by subrule (1) and R 29.1204.

(3) A hospital or an institution project, let out for contract bidding on the basis of preliminary plan clearance, but before final plans and specifications have been approved, shall be let out with the firm understanding that required approval of the project has not been obtained.

(4) If an approved designated occupancy is changed during planning or construction, or after occupancy, to another occupancy, all fire protection requirements for the new occupancy shall be complied with.

(5) Preliminary plan approval given before the effective date of these rules shall terminate 6 months after the effective date of these rules if construction has not started. An approval extension may be granted, however, in a specific instance, upon written request to the state fire marshal.

History: 1954 ACS 100, p. 11, Eff. July 18, 1979.

R 29.1204 Architects and engineers.

Rule 204. Health care facility construction, reconstruction, conversion, remodeling, alterations, or permanent renovations shall bear the seal of an architect or engineer if required by Act No. 240 of the Public Acts of 1937, as amended, being §338.551 et seq. of the Michigan Compiled Laws, an act for architects, professional engineers, and land surveyors.

History: 1954 ACS 100, p. 11, Eff. July 18, 1979.

R 29.1205 First inspection, final inspection, and occupancy.

Rule 205. (1) A newly constructed hospital or institution, as well as a building being reconstructed, converted, remodeled, altered, or added to, shall not be occupied, in whole or in part, without the written approval of the state fire marshal.

(2) Notice for the first inspection shall be given when the building is framed and before lathing, plastering, installation of ceilings and ceiling assemblies, or concealment of roof or floor joists.

(3) When the construction, reconstruction, conversion, remodeling, or alteration of, or addition to, a hospital or an institution has been completed, but before occupancy, the owner shall notify the state fire marshal, who shall make an inspection to determine compliance with these rules.

(4) If the inspection by the state fire marshal finds the building or addition to be in compliance with these rules, written approval for the use and occupancy of the building or addition shall be given.

(5) Nothing in these rules shall waive compliance with a local ordinance or requirement.

History: 1954 ACS 100, p. 12, Eff. July 18, 1979.

R 29.1206 Plans for addition, reconstruction, conversion, remodeling, and alteration.

Rule 206. Plans for the reconstruction, conversion, remodeling, or alteration of, or an addition to, an existing hospital or institution shall include parts of the building being changed, showing existing exits, existing type of construction, and room occupancies which may be affected by the changes.

History: 1954 ACS 100, p. 12, Eff. July 18, 1979.

R 29.1207 Occupancy during construction and repair.

Rule 207. (1) A hospital or an institution under construction shall not be occupied, in whole or in part, until all exit facilities required for the part occupied are completed and approved for use, and until the occupied part is separated from the part under construction by a wall having a 1-hour fire-resistance rating.

(2) A hospital or an institution shall not be occupied during conversion, repairs, or alteration unless existing exits and fire protection equipment are retained, or, in lieu thereof, unless other measures are taken which provide equivalent safety as approved by the enforcing agency.

(3) Flammable or explosive substances, or equipment for repair, conversion, or alteration, shall not be introduced in or on a hospital or institution building of normally low or ordinary hazard classification while the building is occupied, unless the conditions of use and safeguards provided offset any danger or handicap to egress, as approved by the enforcing agency.

(4) A required exit, way of approach thereto, and way of travel from the exit to the street or open space shall be maintained free of all obstructions or impediments as to be available for full, instant use, as required by R 29.1214.

(5) A required automatic sprinkler system, fire detection and alarm system, exit lighting, fire door, and other items of equipment required in the occupied section shall be maintained in proper operating condition.

History: 1954 ACS 100, p. 12, Eff. July 18, 1979.

R 29.1208 Restricted locations.

Rule 208. A hospital or an institution shall not be located less than 300 feet from an aboveground storage tank containing flammable liquids used in connection with a bulk plant, marine terminal, aircraft refueling facility, the bottling plant of a liquefied petroleum gas installation, or other facility of similar use.

History: 1954 ACS 100, p. 12, Eff. July 18, 1979.

R 29.1209 Construction generally.

Rule 209. (1) Except as provided in subrule (2), a hospital or an institution, or addition, or alteration, or a building converted to a hospital or institution, shall be of 3-hour fire-resistive construction, in compliance with national fire protection association pamphlet no. 220, 1975, types of building construction, except that exterior trim in the form of a fascia or soffit may be of impregnated wood, if it is labeled class A by underwriters' laboratories, inc., in compliance with R 29.1243(1), and is separated from any part of the building interior by construction having a 1-hour fire-resistance rating.

(2) A hospital or an institution, or addition or alteration, or a building converted to a hospital or an institution, may be of 1-hour protected ordinary construction

(solid masonry exterior walls, wood joist, studding, and unprotected steel) if it is not more than 1 story in height, without a basement, and if the entire building is protected by an automatic sprinkler system.

(3) Unless the addition has a sprinkler system, an addition to a building that is required to have a sprinkler system shall be separated from the building by 2-hour fire walls and shall have a 1¼-hour underwriters' laboratories, inc., B-labeled or factory mutual labeled fire door assembly.

(4) Forming materials, left in place as a part of a permanent structure, shall be noncombustible or limited-combustible. In no case shall such material be more hazardous than class A, in compliance with R 29.1243(1).

(5) Exterior and interior walls and partitions, including an attic or an open structural cavity, shall be fire-stopped at the juncture of floors and roof construction to prevent the spread of flame or smoke from 1 level to another in an occupied or unoccupied area. Continuous fire-resistive shafts may be excluded, and the material shall not be of less fire-resistance rating than required for the particular type of construction.

(6) If a portion of a building, or an attached building, not used for hospital or institution purposes, is not under hospital or institution control, this rule does not apply to that portion of the building or the attached building if it is separated by unpierced construction having a 4-hour fire-resistance rating. If the portion of the building or attached building not used for hospital or institution purposes is under the control of the hospital or institution, openings are permitted, but shall be protected in compliance with national fire protection association pamphlet no. 80A, 1975, protection from exposure fires. A parking ramp shall have an unpierced separation.

(7) All areas and spaces within a hospital or an institution shall be in compliance with these rules, except that corridor construction is exempt if the area is separated in compliance with R 29.1223(2) and is not required for patient or resident exiting.

(8) A patient or resident bedroom shall not be located in a basement or cellar.

(9) A hospital or an institution sleeping room shall have an outside window or outside door arranged and located so that it can be opened from the inside without the use of tools or keys, so as to permit the venting of products of combustion and to permit an occupant to have direct access to fresh air in case of emergency. The sill height shall not be more than 36 inches above the floor. Rooms intended for occupancy of less than 24 hours, such as those housing obstetrical labor beds, recovery beds, observation beds in the emergency department, and newborn nurseries, need not comply with this rule. One outside window may serve several individual patient beds in a special care unit. Buildings designed with an approved engineered smoke control system need not comply with this requirement.

History: 1954 ACS 100, p. 12, Eff. July 18, 1979.

R 29.1210 Fire-resistive assemblies, doors, and frames.

Rule 210. An assembly required to be fire-resistive shall be in compliance with fire ratings established by the American insurance association, fire-resistance ratings, 1964 (amendments 1968, 1970, 1972), or with the underwriters' laboratories, inc., building materials directory, 1978, or listed by a nationally recognized independent testing agency. Fire door assemblies shall be tested in compliance with national fire protection association pamphlet no. 252, 1976, methods of fire tests of door assemblies, and shall bear the label of a nationally recognized independent testing agency that provides inspection services.

History: 1954 ACS 100, p. 13, Eff. July 18, 1979.

R 29.1211 Roof, ceiling, and attic construction.

Rule 211. (1) The ceiling-floor and ceiling-roof assemblies installed to meet the required fire-resistance rating shall be installed as tested and may only have openings to accommodate ducts or recessed electrical fixtures, as indicated in the tested design. A duct opening shall be protected as designated in the tested assembly. An opening in a ceiling for an electrical box for a surface mounted or suspended fixture shall not be more than 16 square inches for each 90 square feet of ceiling area.

(2) An attic, an open structural space above a ceiling, and a vertical shaft shall be fire-stopped, or separated from an adjacent space, with walls of the same rating as required for the occupied space below, extending from the ceiling level to structural slab above.

(3) Roofing shall be of spark-resistant material.

History: 1954 ACS 100, p. 13, Eff. July 18, 1979.

R 29.1212 Capacity.

Rule 212. (1) The capacity of a hospital or an institution shall be determined by assigning not less than the number of square feet of floor area in a patient- or resident-occupied room than is permitted per patient or resident bed by the department of public health.

(2) In a patient-occupied room of 4 or more beds, there shall be provided a clear space of not less than 3 feet in width from 1 side of each bed, which shall be adjacent to an aisle of not less than 5 feet in width and maintained free of any obstruction leading to a room exit or exits.

History: 1954 ACS 100, p. 14, Eff. July 18, 1979.

R 29.1213 Other occupancy.

Rule 213. (1) A hospital or an institution occupancy shall not be permitted in a building containing an occupancy which is not within the immediate control of the management, or which is not incidental to the operation of the hospital or institution.

(2) A gift shop shall be permitted in a hospital or an institution if it is separated from the remainder of the building by construction having a 1-hour fire-resistance rating and is protected by an automatic sprinkler system. One-fourth inch wired glass in steel frames, with not more than 1,296 square inches per frame, with no dimension of glass more than 54 inches, shall be approved. Doors shall bear the label of a nationally recognized testing laboratory for not less than ¾-hour fire-resistance rating.

History: 1954 ACS 100, p. 14, Eff. July 18, 1979.

R 29.1214 Exits and other safeguards.

Rule 214. A hospital or an institution shall be provided with exits sufficient to permit the prompt escape or removal of occupants from buildings, or the removal of occupants to areas of refuge within buildings, in case of fire or other conditions dangerous to life associated with fire. Exits shall be designed so that reliance for safety to life in case of fire or other emergency does not depend solely on any single safeguard.

History: 1954 ACS 100, p. 14, Eff. July 18, 1979.

R 29.1215 Exits generally.

Rule 215. (1) A patient- or resident-occupied room shall have 1 doorway open directly to the outside, or open to an approved corridor which has 2 separate and

independent means of egress leading to an approved exit, stairway, or means of egress leading directly to the outside at grade; except 1 room on each side of the end of a corridor shall not have more than 2 patients in a room or 1 room at the end of a corridor shall not have more than 4 patients. A door at the end of a corridor, as provided for by this rule, shall not be more remote than 15 feet from an approved exit stairway or means of egress directly to the outside at grade.

(2) A patient-occupied room located between exits shall be of such dimensions that no part of the room is more than 30 feet to the room-corridor exit door. A patient-occupied room shall not have more than 6 beds unless an additional exit is provided, and no point in the room shall be more than 30 feet from an exit. If a patient-occupied room is maintained for ambulatory patients only, and no part of the room is more than 30 feet to a room-corridor exit door, 8 beds may be permitted without a secondary means of egress from the patient-occupied room. There shall be a clear space of 3 feet in width from 1 side of a bed, which space shall be adjacent to an aisle not less than 5 feet in width and maintained free of obstruction leading to a room exit.

History: 1954 ACS 100, p. 14, Eff. July 18, 1979.

R 29.1216 Exits; number.

Rule 216. (1) Each floor or story of a building shall have not less than 2 separate and independent means of egress leading to the outside at grade.

(2) The capacity of a stair exit shall be based on 22 persons per unit of exit.

(3) The capacity for exit travel without stairs shall be based on 30 persons per unit of exit.

(4) A unit of exit width shall be 22 inches.

(5) The occupant load for which means of egress shall be provided for any floor shall be the maximum number of persons intended to occupy that floor, but not less than 1 person for each 120 square feet gross floor area in health care nursing units and not less than 1 person for each 240 square feet of gross floor area of inpatient health care treatment and diagnostic areas. Gross floor areas shall be measured within the exterior building walls with no deductions.

History: 1954 ACS 100, p. 14, Eff. July 18, 1979.

R 29.1217 Exits; special care units.

Rule 217. A special care unit shall be considered as 1 room if the rooms within the unit meet the following requirements:

(a) The travel distance between any room door within the unit used as an exit access and an approved exit shall not exceed 100 feet and that the distance from any point within a room and the approved exit shall not exceed 150 feet. The distance from any point in a room and the exit access door of that room shall not exceed 50 feet.

(b) The area is not a required exit for another occupancy.

(c) The unit complies with R 29.1223(2), except that corridor walls within the unit need not comply with R 29.1223(2).

(d) There is direct supervision of all occupied rooms or spaces within the unit by competent persons when the room or space is occupied.

(e) A hazardous room within the unit has not less than 1-hour fire-resistive construction and protection, as required by the applicable rules.

History: 1954 ACS 100, p. 15, Eff. July 18, 1979.

R 29.1218 Distance to exits.

Rule 218. (1) Exits shall be arranged so that it shall not be necessary to travel more than 100 feet to exit from the door of a patient- or resident-occupied room to reach the nearest approved means of egress from that story.

(2) In a hospital or an institution without complete automatic sprinkler protection, travel distance from a door of a room, other than a room for patient or resident occupancy, shall not be more than 150 feet to reach the nearest approved means of egress from that floor.

(3) In a hospital or an institution with complete automatic sprinkler protection, the travel distance from a door of a room may be increased by 50 feet.

History: 1954 ACS 100, p. 15, Eff. July 18, 1979.

R 29.1219 Exit visibility and obstructions.

Rule 219. (1) An exit shall be clearly visible, or the route to reach it shall be conspicuously indicated, in such a manner that every occupant will readily know the direction of escape from any point in the hospital or institution building. Each path of escape, in its entirety, shall be arranged or marked so that the way to an exit, as defined in R 29.1125(7), is unmistakable. A doorway or passageway not constituting an exit or way to reach an exit, that may be mistaken for an exit, shall be arranged or marked to minimize possible confusion with an exit, thus eliminating the danger of persons endeavoring to escape through that doorway or passageway and finding themselves trapped in a dead end space from which there is no exit.

(2) Ways to exit access and doors leading to exits shall be designed and arranged to be clearly recognizable as such. Hanging draperies shall not be placed over an exit door or otherwise located to conceal or obscure an exit. A mirror shall not be placed in, on, or adjacent to an exit in a manner which might confuse the direction of the exit.

(3) An exit, a way of approach thereto, and a way of travel from the exit to a street or open space shall be maintained free of all obstructions or impediments so that it is available for full, instant use.

(4) Adequate lighting facilities shall be provided for a corridor, a stairway, and an egress passage to a value of not less than 1.0 foot candle measured at the floor.

History: 1954 ACS 100, p. 15, Eff. July 18, 1979.

R 29.1220 Exit lights.

Rule 220. (1) An exit shall be marked by means of an approved lighted exit sign having letters not less than 6 inches high on a background of contrasting color, with strokes not less than ¾-inch wide, and shall be installed to be legible from the direction of travel thereto. Where a doorway and sign are not readily discernible from any part of a main corridor, an adequate number of additional approved lighted directional signs shall be provided, with an arrow pointing in the direction of the exit.

(2) An approved electrically lighted exit sign shall be on a separate circuit placed ahead of the main disconnecting means and shall be supplied through the emergency panel. An approved self-energized exit sign will be accepted as an alternative to the above.

History: 1954 ACS 100, p. 15, Eff. July 18, 1979.

R 29.1221 Exit and corridor dimensions.

Rule 221. (1) An exit, or a way of exit access, from a patient- or resident-occupied room which leads to an egress stairway, and thence to the outside, or

which leads to the outside from the first story, shall not be less than 8 feet in width. This width requirement does not apply to a building used solely for ambulatory patients where the width shall not be less than 6 feet. Corridors and ramps in adjunct areas, which are not intended for the housing, treatment, or use of inpatients, may be a minimum of 6 feet in clear, unobstructed width.

(2) An exit, or way of exit access, considered as an approved means of egress, shall not have a ceiling height of less than 90 inches.

History: 1954 ACS 100, p. 16, Eff. July 18, 1979.

R 29.1222 Exit doors.

Rule 222. (1) A doorway which is a part of a means of egress shall be at floor level for a distance on each side of the doorway of not less than the width of the widest single leaf of the door. If the exit door discharges to the outside or to another exterior exit or exit access, the floor level outside the door may be 1 step lower than inside, but not more than 7½ inches lower.

(2) A labeled door with a 20-minute fire protection rating, or a solid bonded wood core door 1¾ inches thick with a positive latching device and reasonably smoke-tight, shall be provided on openings to an exit corridor.

(3) Fixed wired glass vision panels, installed in approved steel frames, not exceeding 720 square inches in size, shall be permitted in a solid bonded wood core 1¾-inch thick door.

(4) Louvers, whether or not protected by fusible link-operated dampers, shall not be permitted in a door opening on an exit corridor or in a required labeled door.

(5) An exit door, screen door, or storm door in a required exit shall be side-hinged, and shall swing in the direction of exit travel.

(6) A patient- or resident-occupied room door may swing into the room. If the door swings out into the corridor, however, it shall not be hung to obstruct egress passage. There shall not be any obstruction to the opening and closing of an egress door or of a door from a patient-occupied room into a corridor.

(7) A revolving door shall not be used as an exit. Where a revolving door is installed, a side-hinged door in compliance with these rules shall be installed within 15 feet of each revolving door.

(8) A door into a stairway enclosure, and a door serving other vertical openings, shall be a 1½-hour underwriters' laboratories, inc., B-labeled or factory mutual labeled fire door assembly. The door shall be hung to permit convenient manual opening and closing. The door shall be maintained in a closed position and shall have a prominent sign on each side containing the following words:

Fire Door
Keep Closed

(9) A sliding door may be used as an exterior exit if the door is capable of acting as a side-hinged door.

(10) A door used as an exit shall be designed and installed so that when a force is applied to the door on the side from which the egress is to be made, the door shall swing in the direction of exit travel from any position to the full use of the opening in which it is installed.

(11) In a hospital or institution, a door from a corridor to a stairway shall be openable from either side with the following exceptions: A door from a stairway shall be openable from the inside without the use of a key or without special knowledge or effort at all times during which the building or area served is occupied, except as permitted by R 29.1229(3) to (7). A door from a stairway may be locked from the stairway side if deemed necessary to maintain sterile or

security conditions in the hospital or institution, except that no more than 3 consecutive levels may be so locked and that signs on locked doors shall indicate that the door is locked and also the next door above and below which is unlocked. Signs shall also be placed on unlocked doors on floors adjacent to the locked level or levels which indicate which doors are locked and the next unlocked door beyond those which are locked.

History: 1954 ACS 100, p. 16, Eff. July 18, 1979.

R 29.1223 Corridors.

Rule 223. (1) Transfer grills, whether or not protected by fusible link-operated dampers, shall not be permitted in an exit corridor wall.

(2) A room or use area shall be separated from a corridor by a partition construction extending to the floor or deck above, with a 1-hour fire-resistance rating. Glass in the partition shall be permitted if it is approved wired glass installed in steel framing and stops, and if it has not more than 1,296 square inches per opening, with no dimension more than 54 inches. Exceptions to this rule are as follows:

(a) An alcove which does not infringe upon the required corridor width and which is used exclusively for stretchers and wheelchairs.

(b) A nurses' station sufficient in size for the number of patients served may be open to, and a part of, a corridor system if:

(i) It is manned 24 hours per day.

(ii) It does not reduce the required corridor width.

(iii) It contains only communication and monitoring equipment, a desk or counter, seating, and a storage space for use in charting.

(iv) Wall and ceiling interior finishes shall have a class A fire hazard classification in compliance with R 29.1243(1). The permitted desk or counter and enclosed storage space shall have materials not more hazardous than class B, in compliance with R 29.1243(1) for all exposed surfaces.

(c) A corridor may exit through a main floor lobby if the corridor entering the lobby is separated by a door with a C-labeled fire-resistance rating, and the lobby construction is equivalent to corridor construction. A 24-hour manned telephone switchboard and information center may be open to, and may be a part of, a lobby if it is in compliance with subdivision (b).

(d) A room for a patient requiring isolation may have a vestibule, for scrubbing and gowning only, between the room and the approved corridor. One-day storage of needed materials will be allowed.

(3) A corridor or stairway leading to a means of egress shall be used for circulation only.

(4) A transom or other similar opening between a room and an approved corridor is not permitted.

(5) A corridor barrier door, other than an approved smoke partition door, shall permit opening in the direction of travel to the nearest exit with normal push or pressure.

(6) A corridor barrier door, other than an approved smoke partition door, shall be in compliance with R 29.1238(9), except that a door with a C-labeled fire-resistance rating is not required.

(7) A corridor shall lead directly to the outside or to an approved stairway having direct egress to the outside through an approved exit door at a grade which gives access to a public street, except as stated above in subrule (2)(c).

(8) A door stop on a door frame may be eliminated for not more than 6 inches from the floor unless the frame is a labeled frame.

R 29.1224 Wall openings.

Rule 224. An opening in a wall required to be of 1-hour fire-resistive construction shall be permitted under the following conditions:

(a) A penetration of the corridor-room separation to permit a means of supplying patient needs through an opening in a corridor wall to an enclosure in a patient bedroom shall be permitted if:

(i) The corridor-room separation is retained.

(ii) The opening in the corridor wall is protected by a 1-hour labeled fire door assembly having a positive latching device and closing device. A closing device, equipped with a smoke detector to hold the door open at 90 degrees while the unit is being serviced, shall be permitted.

(iii) The entire unit shall be constructed of materials which provide not less than a class B fire hazard classification.

(iv) The gross interior volume of a unit shall be not more than 30 cubic feet, with no inner compartment of more than 12 cubic feet.

(v) Units of 30 cubic feet or more for multipatient bedrooms shall be separated from each other by limited-combustible material.

(vi) Any air handling connected to these units shall be in continuous metal ducts.

(b) An opening to serve information or dispensing purposes shall be permitted if:

(i) The opening is protected with a 1-hour fire door assembly.

(ii) The door is maintained in a closed position when the room is unoccupied.

(iii) The door is held open by an approved smoke detection device.

(c) An x-ray film pass through opening shall be permitted if:

(i) The opening does not exceed 24 inches by 24 inches.

(ii) The entire unit shall be of 16-gauge single wall or 18-gauge double wall steel construction.

(iii) The unit doors are to be interlocked so that only 1 door can be opened at a time.

(iv) The penetration does not occur in a hazardous room wall or a smoke partition.

History: 1954 ACS 100, p. 17, Eff. July 18, 1979.

R 29.1225 Nonstopped door frame for patient toilet room door.

Rule 225. A nonstopped door frame shall be permitted for a patient toilet room door which enters upon a common use corridor, subject to all of the following:

(a) The room is not more than 100 square feet in area.

(b) Walls, ceiling, floor, furnishings, and fixtures are of class A materials.

(c) The room is provided with a mechanical exhaust which prevents the movement of air into the corridor.

(d) Storage is not permitted in the room.

History: 1954 ACS 100, p. 18, Eff. July 18, 1979.

R 29.1227 Exit doors operated by power.

Rule 227. Where a required exit door is operated by power, such as a door with a photoelectric-actuated mechanism to open the door upon approach of a person or a door with power-assisted manual operation, the door, in case of power or mechanical failure, shall be manually openable to permit exit travel, or closeable where necessary to safeguard the means of egress. A door operated by power shall not be counted as a required exit unless it swings by mechanical or manual means in the direction of exit travel. A door operated by power shall not be

permitted to eliminate the necessity for positive latching hardware on openings where positive latching hardware is required.

History: 1954 ACS 100, p. 18, Eff. July 18, 1979.

R 29.1228 Exit door dimensions.

Rule 228. (1) A doorway from a patient- or resident-occupied room, and a door forming a part of an approved exit access, shall not be less than 78 inches in height.

(2) A door from a patient-occupied room, and a door forming a part of an approved means of egress for a bed patient, shall not be less than 44 inches in width, except that a room in an institution used for ambulatory patients or residents only, as well as a hospital room used for newborn, may be equipped with a 36-inch wide door.

History: 1954 ACS 100, p. 18, Eff. July 18, 1979.

R 29.1229 Exit door hardware.

Rule 229. (1) A door opening to a corridor, or a door opening into a hazardous location, shall be equipped with positive latching hardware which insures opening the door by a single motion, such as turning a knob or by pressure applied to a latch by a person of normal strength.

(2) A corridor door provided as an exit giving egress directly to the outside, and a door required for a room for 50 or more occupants shall be equipped with approved panic hardware listed in the underwriters' laboratories, inc., accident, automotive and burglary protection equipment directory, 1977, except as provided in R 29.1222.

(3) The use of hardware which is locking against egress or the use of a hook and eye, bolt, bar, or similar device shall not be permitted on the door of a required exit. In a psychiatric area of a hospital, an institution, and a county medical care facility, where a door may need to be locked for security reasons, all personnel on duty shall be required to carry keys to unlock the exit doors and detention rooms in their duty area, or the locked doors shall be unlocked by approved fail-safe electronic releasing devices.

(4) In a nursing home:

(a) A door permitted to be locked with electronic fail-safe releasing features shall include only stairway doors and exterior exit doors.

(b) In a section of the home permitted to lock doors with electric-releasing devices, each room with a door opening onto an exit corridor shall have a smoke detection device inside the room door.

(c) A section of the home shall be permitted to maintain locked doors, provided the locks are electrically released, permitting free egress from either direction, and provided the releasing mechanism is activated by the following:

(i) The activation of any smoke detection device.

(ii) The activation of an automatic extinguishing system.

(iii) The activation of the fire alarm system located to protect the secured section.

(iv) The activation of an independent manually operated system at each nursing station.

(v) The activation by a power failure.

(vi) Any lock shall be released by a key.

(5) Components of an electric releasing device, the latching hardware, and detection and alarm system shall be underwriters' laboratories, inc., listed, and installed in compliance with the applicable national fire protection association alarm and special extinguishing systems.

(6) An exit door may be equipped with additional approved hardware.

(7) Products of combustion detection or other features required to permit locking doors shall not waive other requirements of these rules.

(8) Fire doors used in pairs without a mullion shall be equipped with an astragal and a synchronizing closing device. For an exception to the requirement, see R 29.1238.

(9) Fire doors used in pairs without a mullion in an opening to a room, when not required as an exit door, may have the normally inactive leaf held closed by a deadlocking device, if there is an astragal and the active leaf is equipped with a closer.

(10) An astragal shall be of 10-gauge steel, securely attached in place, and shall project ¾ inch.

(11) All doors that are required to be labeled shall have hardware labeled or listed for use on the labeled door.

History: 1954 ACS 100, p. 18, Eff. July 18, 1979.

R 29.1230 Fire door assembly resistance ratings.

Rule 230. (1) An underwriters' laboratories, inc., or factory mutual labeled fire door assembly without a hold-open device shall be provided as follows:

(a) An approved 1½-hour labeled fire door assembly shall be provided in an opening into a 2-hour fire separation.

(b) An approved 1-hour labeled fire door assembly shall be provided in an opening into a 1-hour fire separation, except as provided for in R 29.1222(2).

(2) An approved ¾-hour labeled fire door assembly shall be provided in an opening which constitutes a part of a smoke barrier. See R 29.1238(4) to (6) and R 29.1266.

History: 1954 ACS 100, p. 19, Eff. July 18, 1979.

R 29.1231 Fire door hold-open devices.

Rule 231. (1) A hold-open device, equipped with a smoke detector, or heat detector to hold the door open at 90 degrees, shall be permitted on a fire door to a room used exclusively for storage of a linen cart, a nurse server, and a small janitor closet.

(2) A fire door shall not be equipped with a hold-open device except one in compliance with subrule (1) and R 29.1224(a)(ii) and R 29.1230(2).

History: 1954 ACS 100, p. 19, Eff. July 18, 1979.

R 29.1232 Stairway locations.

Rule 232. (1) A required exit stairway shall be located on outside walls and be continuous to the outside at grade. An exit from a floor above or below the first floor shall be by an enclosed stairway. Two stairways with a common termination point or intermediate landing are considered as a single stairway.

(2) A stairway or exit shall be located so the distance of travel from any room is not more than that specified in R 29.1218, and, with respect to corridors, passages, and rooms, there shall be no dead ends, except rooms in compliance with R 29.1215(1). Rooms other than those listed in R 29.1215 are exempt from this requirement. This exemption permits a dead end corridor where no regular patient or resident occupancy is provided. A door in such a dead end area shall not be more than 50 feet from a point in an exit corridor which has access to exits in different directions.

History: 1954 ACS 100, p. 19, Eff. July 18, 1979.

R 29.1233 Stairway enclosures.

Rule 233. (1) An existing building having not more than 2 levels, where neither level is a basement, and where both levels exit at grade, and where the vertical rise between levels is not more than 4 feet, shall be considered as being 1 story, and the installation of an enclosure between the floor levels shall not be required.

(2) A stairway shall be separated from the remainder of the building by 2-hour fire-resistive construction.

(3) In new construction, a reconstruction, a conversion, a remodeling, or an alteration or addition, a room door or opening into a stairway, other than a corridor door, shall not be permitted.

History: 1954 ACS 100, p. 20, Eff. July 18, 1979.

R 29.1234 Stairway dimensions.

Rule 234. (1) A stairway forming an approved means of egress shall be not less than 44 inches wide, and shall be clear of obstructions, except handrails, which shall not project more than 3½ inches on each side. A riser shall not be more than 7½ inches high, and a tread shall be not less than 10 inches wide from front to rear, exclusive of nosing or projection. The sum of the 2 risers and 1 tread shall equal not less than 24 inches, but not more than 25 inches. The height between platforms or landings shall be not more than 8 feet.

(2) A stairway forming an approved means of egress and consisting of 2 or more steps, which, in changing direction, does so by a variance in the width along each tread, shall not be permitted. This shall not prohibit a stairway, with treads of uniform width throughout, which changes direction by the use of an intermediate landing or a platform.

(3) A required stairway shall be continuous to grade and shall exit at grade, without requiring a person to leave the stairway at any time to an exposure in the building in order to reach the grade exit.

(4) A required stairway shall not require a descent below grade prior to ascending to the grade exit. An exit stairway that continues to the basement or other lower stories shall be interrupted at the story of discharge by a partition, door, or other effective means which make clear the direction of egress.

History: 1954 ACS 100, p. 20, Eff. July 18, 1979.

R 29.1235 Stairway landings.

Rule 235. (1) An exterior landing shall not be more than 1 riser above grade, except where provided with protective handrails in compliance with R 29.1236, and shall have a minimum size of 8 feet by 8 feet. A landing shall be not more than 4 feet above the natural grade without being enclosed.

(2) A stair shall not exit below grade.

History: 1954 ACS 100, p. 20, Eff. July 18, 1979.

R 29.1236 Handrails and guards.

Rule 236. (1) A stairway forming an approved means of egress shall have suitable handrails on each side.

(2) A handrail on a stairway shall be not less than 30 inches nor more than 34 inches above the upper surface of the tread, measured vertically to the top of the rail, from a point on the tread 1 inch back from the leading edge.

(3) A handrail shall provide a clearance of not less than 1½ inches between the handrail and the wall to which it is fastened. A handrail shall be supported to withstand a load of not less than 250 pounds, applied at any point downward or horizontally.

(4) A handrail shall permit continuous sliding of a hand on the rail.

(5) A stairway required to be more than 88 inches wide shall have intermediate handrails dividing the stairway into portions not more than 88 inches wide, except that, on monumental outside stairs, 2 handrails may be permitted.

(6) A guard shall be provided on each open side of an inside stairway and at landings, if the stairway reverses direction at intermediate landings and the horizontal distance between successive flights is 1 foot or more. The guard shall be 42 inches high and constructed in such a manner that the area of openings has no dimension more than 10 inches and the bottom of the guard is not more than 10 inches above the stair tread or landing floor.

History: 1954 ACS 100, p. 20, Eff. July 18, 1979.

R 29.1237 Ramps.

Rule 237. A ramp may be used as a component in a means of egress if the ramp conforms to width and other requirements for its intended use, such as a corridor or other means of egress. A ramp shall have a slope not greater than 1 foot in 12 feet, 8⅓%.

History: 1954 ACS 100, p. 21, Eff. July 18, 1979.

R 29.1238 Smoke partitions.

Rule 238. (1) A floor, regardless of size, used by patients, by residents, or for 50 or more occupants, shall be divided into 2 or more sections by a smoke partition having a 1-hour fire-resistance rating. The partition shall be located to provide an area of refuge on either side that is served by an approved stair or exterior exit.

(2) A smoke partition shall contain no glass except that permitted in the labeled doors.

(3) A smoke partition shall extend the full width of the building and shall be continuous from the floor to the underside of the floor or deck above, thereby including continuity through all concealed spaces.

(4) A door located in a smoke partition shall be underwriters' laboratories, inc., C-labeled, or factory mutual ¾-hour labeled fire door installed in a labeled frame.

(5) A smoke partition door, across corridors, may be held in the open position, with approved electrical hold-open devices, under the following conditions:

(a) The door is manually operable at all times.

(b) The door closes by actuation of the fire alarm system.

(c) The door closes by actuation of the automatic sprinkler system when the building is completely sprinklered.

(d) The door closes by actuation of a complete smoke detection system. Smoke detectors shall be located in compliance with national fire protection association pamphlet no. 80, 1977, fire doors and windows, or a detector installed in the manner in which it was tested and approved shall be permitted.

(6) Actuation of a device required by subrule (5)(b), (c), and (d) shall close all smoke partition doors within the smoke detection area.

(7) A smoke partition shall be located to create an area of refuge of not more than 22,500 square feet, with no dimension more than 150 feet.

(8) Corridor travel distance from the door of any occupied room to either a smoke partition, an exterior exit, or an approved enclosed stairwell which exits directly to the outside at grade shall not be more than 75 feet.

(9) Smoke partition doors across a corridor shall be a pair of swinging doors, each to swing in a direction opposite from the other and each to swing in the direction of normal travel. Each door may be equipped with a vision panel. Each

door shall be provided with a door stop and a steel astragal, and shall be an approved fire door installed in a labeled frame. Positive latching is not required. The width of each door in a smoke partition shall be 44 inches in a hospital and nursing home, and 32 inches in a home for the aged. In an institution, other than a nursing home or a home for the aged, the door width in a smoke partition shall be 44 inches in a facility for nonambulatory patients and 32 inches in a facility for ambulatory patients only.

(10) Not less than 30 net square feet per occupant for the total of bed or litter patients shall be provided on each side of the smoke partition. On other stories not housing bed or litter patients, not less than 6 net square feet per occupant shall be provided on each side of the smoke partition for the total number of occupants in adjoining compartments.

History: 1954 ACS 100, p. 21, Eff. July 18, 1979.

R 29.1239 Elevators and dumbwaiters.

Rule 239. (1) An elevator shall not constitute a required means of exit.

(2) An elevator or dumbwaiter enclosure shall be constructed of materials having a 2-hour fire-resistance rating.

(3) A passenger door opening in an elevator enclosure and an access door opening in a dumbwaiter enclosure shall be protected by a 1½-hour underwriters' laboratories, inc., B-labeled or factory mutual labeled fire door assembly. Other openings in an elevator or dumbwaiter enclosure shall not be permitted except for venting in compliance with the requirements of the Michigan elevator division.

History: 1954 ACS 100, p. 21, Eff. July 18, 1979.

R 29.1240 Rubbish handling and incinerators.

Rule 240. (1) Rubbish handling and incinerators shall be in compliance with national fire protection association pamphlet no. 82, 1977, incinerators, rubbish handling, as applicable to a hospital or an institution.

(2) Rubbish accumulation shall not be permitted in a heating plant room. See also R 29.1255.

(3) An incinerator shall not be flue-fed or chute-fed from a floor above.

(4) A rubbish chute or refuse room shall be in compliance with national fire protection association pamphlet no. 82, 1977, incinerators, rubbish handling, as the pamphlet applies to industrial-type incinerators, as applicable to a hospital or an institution.

(5) A feed door for an incinerator or rubbish chute shall be located in a room sized to accommodate carts and materials necessary to the feeding of the chute and shall not expose a corridor or a passageway. The room shall be separated from the remainder of the building by 1-hour fire-resistive construction and the room shall be protected by an automatic sprinkler system.

(6) An automatic sprinkler head shall be installed at the top of a rubbish chute and within the chute at alternate floor levels in a building of more than 2 stories.

(7) A rubbish chute shall empty into a room separated from the remainder of the building by construction having a 1-hour fire-resistance rating and the room shall be protected by an automatic sprinkler.

History: 1954 ACS 100, p. 22, Eff. July 18, 1979.

R 29.1242 Linen (laundry) handling.

Rule 242. (1) Linen chutes or pneumatic linen handling systems shall be enclosed on all stories above the collection or laundry facility with a continuous enclosure constructed of materials which are fire-resistive and extending from the

ceiling of the collection or laundry room to or through the roof so as to retain the integrity of the fire separations as required by the applicable building code provisions. If the shaft enclosing the linen chute or pneumatic linen handling system terminates within the building, it shall be capped with a material which shall give the shaft a 2-hour fire-resistance rating. If the shaft extends through the roof of the building it shall extend full size 4 feet above the roof and be open to the atmosphere. The walls of the enclosure shall have a fire-resistance rating of 2 hours. Chutes constructed of masonry walls having a fire-resistance rating of 2 hours shall not be required to be otherwise enclosed.

(2) Linen chutes or pneumatic linen handling systems shall terminate or discharge directly into a room separated from other parts of the building by wall, partition, floor, and floor-ceiling assemblies having a fire-resistance rating of 1 hour. Openings to such rooms shall be protected by approved self-closing fire doors suitable for class B openings.

(3) A service opening shall be enclosed in a room or compartment separated from other parts of the building by wall, partition, floor, and floor-ceiling assemblies having a fire-resistance rating of 1 hour with openings to such room or compartment protected by approved self-closing fire doors suitable for class B openings. The room shall be protected in compliance with national fire protection association pamphlet no. 13, 1976, standard for the installation of sprinkler systems.

(4) A service opening into a linen chute or pneumatic linen handling system shall be provided with a self-closing, positive-latching frame and fire door assembly approved for class B openings and having a rating of 1½ hours. The door frame shall be firmly built into the shaft.

(5) Gravity-type chutes shall be protected internally by automatic sprinklers. This requires a sprinkler at the top of the chute and, in addition, a sprinkler shall be installed within the chute at alternate floor levels in buildings over 2 stories. Sprinklers shall be installed in compliance with national fire protection association pamphlet no. 13, 1976, standard for the installation of sprinkler systems.

(6) The room or area into which a chute or linen handling system discharges shall be protected with automatic sprinklers in compliance with national fire protection association pamphlet no. 13, 1976, standard for the installation of sprinkler systems.

History: 1954 ACS 100, p. 22, Eff. July 18, 1979.

R 29.1243 Fire hazard classifications and interior finish.

Rule 243. (1) The alphabetical fire hazard classification of finish materials is determined by a tunnel test in compliance with national fire protection association pamphlet no. 255, 1972, tests of surface burning characteristics of building materials; American society for testing and materials standard no. E-84-77A, 1978, test for surface burning characteristics of building materials; or underwriters' laboratories, inc., standard no. 723, 1977, test method for fire hazard classification of building materials, and grouped as follows:

Class	Flame Spread	Smoke Density
A	0 - 25	0 - 50
B	26 - 75	51 - 125
C	76 - 200	126 - 200

(2) The same alphabetical classification is used for combustibility of prefabricated acoustical tile units only under federal specifications test no. SS-S-118a.

(3) The fire hazard classification of an interior finish material shall be that of the basic material used, without regard to subsequently applied paint or other covering, which is of such character or thickness, or is so applied, as to not affect materially the characteristics of the classification. Highly combustible material application, such as lacquers or pyroxylin base materials or unapproved wall coverings, shall not be used.

History: 1954 ACS 100, p. 22, Eff. July 18, 1979.

R 29.1244 Unclassified coatings.

Rule 244. Paints or coatings containing plastics, polyesters, or epoxies shall be permitted on limited-combustible surfaces without proof of classification, if not applied in excess of 8 mils total thickness.

History: 1954 ACS 100, p. 23, Eff. July 18, 1979.

R 29.1245 Wall, floor, and ceiling finishes; tack boards.

Rule 245. (1) Except as otherwise permitted in these rules, wall and ceiling finish materials shall not be more hazardous than class A, in compliance with R 29.1243(1). However, in a building completely protected by an automatic sprinkler system, a wall and ceiling finish required to have a class A fire hazard classification may be class B, and a wall required to have a class B fire hazard classification may be class C.

(2) Necessary wood doors and wood trim shall not be more hazardous than class C, in compliance with R 29.1243(1).

(3) A folding-type partition used as a separation in a room, or between rooms, shall be a class B assembly, in compliance with R 29.1243(1).

(4) Floor finish materials shall be class A or B throughout all hospitals and nursing homes, except that a smoke density rating of 450 will be allowed, in compliance with R 29.1243.

(5) A tack board or bulletin board is considered an interior finish; however, it will be permitted as follows:

(a) The board shall be constructed of a material which has been proved to be class A in compliance with R 29.1243 and shall be mounted on a material which is also class A in compliance with R 29.1243.

(b) The board shall not be larger than 16 square feet in each 100 linear feet of corridor, nor larger than 16 square feet for each 300 square feet of wall space in a properly segregated room.

History: 1954 ACS 100, p. 23, Eff. July 18, 1979.

R 29.1246 Draperies and curtains; fixtures.

Rule 246. (1) In a patient- or resident-occupied room, window draperies, privacy screens, and curtains shall be of flameproof material, or shall be rendered and maintained flameproof with an approved flameproofing material in compliance with national fire protection association pamphlet no. 701, 1977, flame-resistant textiles and films. Window sills shall not be used for storage of combustible material.

(2) A fixture shall be at least class C, in compliance with R 29.1243(1).

History: 1954 ACS 100, p. 23, Eff. July 18, 1979.

R 29.1247 Plastic materials as interior finishes.

Rule 247. A plastic material affixed to the surface of a wall or ceiling, such as a plastic panel, paint, wall covering, laminate, or similar item, as well as glazing, is deemed to be an interior finish material and shall be in compliance with R 29.1243.

A formed plastic material used for transmission or diffusion of light is exempt from the requirements of R 29.1243 if it is of an approved plastic material in compliance with R 29.1248, and the limitations and requirements are in compliance with R 29.1249 or R 29.1250.

History: 1954 ACS 100, p. 23, Eff. July 18, 1979.

R 29.1248 Plastic material burning and smoke density rates.

Rule 248. (1) A plastic material shall burn no faster than 2½ inches per minute in sheets $^{06}/_{000}$ inch thick when tested in compliance with American society for testing and materials standard no. D-635, 1976, test for flammability of self-supporting plastics. Thickness shall be determined in compliance with the methods of American society for testing and materials standard no. D-374, 1974, tests for thickness of solid electrical insulation.

(2) A plastic material, when supported in the manner intended for use, shall have a smoke density rating of not more than 450 when tested in compliance with the American society for testing and materials standard no. E-84-77A, 1978, test for surface burning characteristics of building materials; underwriters' laboratories, inc., standard no. 723, 1977, test method for fire hazard classification of building materials; or national fire protection association pamphlet no. 255, 1972, tests of surface burning characteristics of building materials. When supported in the manner intended for use, a plastic material shall have a smoke density rating of not more than 75 when tested in the thickness intended for use, in compliance with American society for testing and materials standard no. D-2843, 1976, method of test for measuring the density of smoke from the burning or decomposition of plastics.

(3) The manufacturer shall provide notarized certification stating that the material used in the products furnished complies with this rule. The certification shall be accompanied by a test report from an approved independent testing laboratory or reference to the underwriters' laboratories, inc., listing, and each sheet, panel, grid, or unit shall be labeled for the purpose of identification.

History: 1954 ACS 100, p. 24, Eff. July 18, 1979.

R 29.1249 Light fixture diffusers.

Rule 249. (1) "Diffuser" means a lens or face enclosure of a light fixture which may be suspended from, or surface mounted on, a ceiling or roof, or recessed in a ceiling. A plastic diffuser shall be in compliance with R 29.1248.

(2) The surface area of a diffuser shall not comprise more than 10% of the ceiling area of a patient room or space, or more than 30% of the ceiling area of an administration and service room or space. The area of a single piece of a diffuser shall be not more than 30 square feet, with a dimension of not more than 8 feet. The surface area is not limited in a building completely protected by an automatic sprinkler system. In rated assemblies, the area shall not be more than the size tested.

(3) A diffuser shall remain in place for not less than 15 minutes at a temperature of 175 degrees Fahrenheit when tested in compliance with American society for testing and materials standard no. D-648, 1972, test for deflection temperature of plastics under load, but shall fall from its mountings at 200 degrees Fahrenheit below its ignition temperature when tested in compliance with American society for testing and materials standard no. D-1929, 1975, test for ignition properties of plastics.

History: 1954 ACS 100, p. 24, Eff. July 18, 1979.

R 29.1250 Light diffusing systems.

Rule 250. (1) A light diffusing system consists, in whole or in part, of lenses, panels, grids, grilles, or baffles suspended below lighting fixtures. Formed plastics shall be in compliance with R 29.1248 and R 29.1249(3), and shall comprise not more than 10% of the ceiling area of a patient room or space, nor more than 30% of the ceiling area of an administration and service room or space.

(2) If the hospital or institution building is completely protected by an automatic sprinkler system, diffusing systems shall be in compliance with the requirements of R 29.1249(3), except that the area allowed is not limited. Sprinklers used with a diffusing system shall be installed both above and below the system, unless the sprinklers have been tested and approved for use above the system only.

History: 1954 ACS 100, p. 24, Eff. July 18, 1979.

R 29.1251 Fire alarm systems.

Rule 251. (1) A hospital or an institution shall be equipped with an approved electrically operated, closed circuit, self-supervised, local fire alarm system with a suitable signaling device of such character and located so as to communicate the alarm of fire to personnel on each floor of the building, as well as to a manned centrally located 24-hour duty station within the building, so that immediate notification can be given to a fire department. In a multistory building, the 24-hour duty station shall have an annunciator indicating the location of the signaling device activated.

(2) An actuating station, located near exits, shall be provided on each floor and basement, so that travel to reach a station does not exceed 100 feet, and shall also be provided in heating plant rooms, main office, kitchen, and in rooms accommodating over 100 people.

(3) A telephone or other suitable means of communicating an alarm of fire to a fire department shall be provided. A pay station telephone shall not be permitted as an approved means of sending an alarm of fire.

(4) An electrical circuit serving the fire alarm devices shall be installed on a separate circuit in a metallic conduit fused ahead of the main entrance switch, and shall be connected to an emergency electrical service. If an internal combustion engine-driven generator is installed for takeover of an emergency circuit, the primary supply does not need to be ahead of the main entrance switch.

(5) A fire alarm system trouble bell (or dearrangement signal) shall be provided at a 24-hour manned location. If the trouble bell can be silenced, without the system being restored, a trouble light shall be provided which will remain lighted until the system is returned to full operation.

(6) Fire alarm components shall be labeled or listed by a nationally recognized testing laboratory. The fire alarm panel shall bear the approved label, and shall be installed in compliance with the applicable national fire protection association requirements.

(7) An addition to an existing building shall be provided with an approved fire alarm system, and shall be interconnected to the existing system.

(8) Fire alarm systems shall be tested monthly, and records of all tests shall be maintained.

(9) Presignal fire alarm systems are not permitted.

(10) Actuating stations shall be painted a contrasting color.

(11) Fire alarm sounding devices shall be distinct from other devices used for other purposes.

R 29.1252 Smoke detection systems.

Rule 252. An approved smoke detection system shall be installed in a corridor of a hospital or an institution. Smoke detectors shall be spaced 30 feet on centers and not more than 15 feet from a wall (see also R 29.1238(4) to (6)), or where each patient or resident bedroom is protected by an approved detection system and a local detector is provided at the smoke partition, additional corridor detection devices shall not be required on the patient or resident bedroom floor.

History: 1954 ACS 100, p. 25, Eff. July 18, 1979.

R 29.1253 Chimneys and fireplaces.

Rule 253. (1) A heating appliance and other fired units shall be vented by a smoke pipe to a chimney constructed of masonry, reinforced concrete, or other approved refractory material, properly erected and maintained in a safe condition. A bracket chimney shall not be permitted. This shall not prohibit the installation and use of a prefabricated chimney bearing the label of approval of underwriters' laboratories, inc., if it is installed and used in compliance with the specifications of that organization, nor shall it prohibit a metal smokestack when constructed and installed in compliance with the national fire protection association pamphlet no. 211, 1977, chimneys, fireplaces and venting systems.

(2) A chimney shall be located so that it is not necessary to run a stack through a partition from the appliance being served.

(3) A fireplace is prohibited.

History: 1954 ACS 100, p. 25, Eff. July 18, 1979.

R 29.1254 Oil and gas burners.

Rule 254. Oil and gas burners listed and labeled only by underwriters' laboratories, inc., gas and oil equipment directory, 1977, or the American gas association laboratories directory of certified appliances, July, 1978, shall be approved for use in a hospital or an institution.

History: 1954 ACS 100, p. 25, Eff. July 18, 1979.

R 29.1255 Heating plant room; location, construction, and use.

Rule 255. (1) A heating plant room shall be enclosed by walls, floor, and ceiling having a 1-hour fire-resistance rating. One wall of a heating plant room shall be an outside wall not less than 50% of the longest room dimension and the outside wall shall have a door or openable window, opening directly to the outside not exposing an inner court. A window in an outside wall not having a door shall have a clear opening, with a dimension of not less than 22 inches and not less than 5 square feet in area. A door opening into the building from the heating plant room shall swing into the heating plant room.

(2) A furnace room or heating plant enclosure shall be provided with approved air vents connected directly to the outside, and shall be sufficient in size to supply the required volume of air to support proper combustion.

(3) The use of a portable heating unit shall not be permitted.

(4) No part of a heating plant room shall be used for storage of combustibles or as a maintenance shop unless the room is protected with an automatic sprinkler system. Tools and supplies necessary for the day-to-day maintenance of the heating plant or associated equipment shall be permitted without the installation of an automatic sprinkler system.

(5) A room containing fired equipment for space heating or for heating water shall be considered a heating plant room, and shall be located and protected in compliance with this rule.

(6) A roof-mounted heating unit having a combustion chamber shall be separated from the roof by construction having a 1-hour fire-resistance rating, with duct openings protected by fire dampers. A unit mounted on noncombustible supports, with 12 inches of clear openings above a noncombustible roof, shall be considered to meet the 1-hour fire-resistance rating, and fire dampers for ducts shall be provided at the noncombustible roof line.

(7) All products of combustion for a fuel-fired unit shall be vented to the atmosphere.

History: 1954 ACS 100, p. 26, Eff. July 18, 1979.

R 29.1256 Incinerator room.

Rule 256. (1) An incinerator room shall be separated from the remainder of the building by 1-hour fire-resistive construction, and the room shall be protected by an automatic sprinkler system.

(2) A door from an incinerator room entering into a required egress corridor or passageway shall be hung so as to swing into the incinerator room.

(3) A room in which an incinerator of more than 2 bushels capacity is located shall be furnished air for combustion and ventilation.

History: 1954 ACS 100, p. 26, Eff. July 18, 1979.

R 29.1258 Storage of flammable liquids.

Rule 258. A flammable liquid shall not be stored or used in any hospital or institution building, other than a liquid which is required for maintenance of the building, for laboratory work, for patient treatment, or for demonstration purposes. Such storage, except that which is required for a 1-day supply, shall be permitted as follows:

(a) A room for storage of flammable liquids shall be of 2-hour fire-resistive construction for storage of more than:

(i) Fifty-five gallons of class I liquid.

(ii) Two hundred twenty gallons of class II liquid.

(iii) Five hundred fifty gallons of class III liquid.

(b) A room for storage of flammable liquids shall be of 1-hour fire-resistive construction for storage of more than:

(i) Five gallons of class I liquid, but less than 55 gallons.

(ii) Ten gallons of class II liquid, but less than 220 gallons.

(iii) Twenty-five gallons of class III liquid, but less than 550 gallons.

(c) An inside door opening shall be provided with not less than a 6-inch high, noncombustible, vaportight sill or ramp.

(d) The floor shall be waterproof and arranged to drain to a safe location.

(e) Shelving shall be noncombustible.

(f) Electrical equipment shall be installed in compliance with national fire protection association pamphlet no. 70, 1978, national electrical code.

(g) When natural ventilation is not sufficient to carry off accumulated vapors, ventilation shall be provided as specified in R 29.1270.

(h) The floor of the storage room shall not be located below grade.

(i) There shall be no communication between the flammable liquids storage room and the storage area for combustible gases or oxygen.

(j) Windows exposed to and within 10 feet of the flammable liquid storage shall be metal sash and wired glass, and doors so located shall be 1-hour labeled doors.

(k) Except when stored in compliance with this rule, the amount of flammable liquids maintained for use in a building shall be not more than that required for a 1-day operation.

(l) Transportation of flammable liquids in open containers is prohibited.

(m) Flammable liquids shall not be handled in open containers in quantities of more than the following:

(i) One pint of class I liquid.

(ii) One quart of class II liquid.

(iii) One gallon of class III liquid.

(n) Heat in a flammable liquid storage room shall be by steam or hot water from a remote source.

(o) Class I or II flammable liquids shall not be stored in a refrigerator unless the refrigerator is approved for flammable liquid storage.

History: 1954 ACS 100, p. 26, Eff. July 18, 1979.

R 29.1259 Storage of combustible gases.

Rule 259. (1) A separate room shall be provided for the storage of combustible gases, and no other storage or use shall be permitted in that room.

(2) A room for the storage of combustible gases shall be separated from the remainder of the building by 1-hour fire-resistive construction.

(3) There shall not be a direct opening from a storage room for combustible gases to a storage compartment for flammable liquids, oxygen, or other oxidizing gases.

(4) Electrical wiring, fixtures, and equipment shall be installed in compliance with national fire protection association pamphlet no. 70, 1978, national electrical code.

(5) A storage room for combustible gases shall not be located below grade and shall have 1 wall which is an outside wall.

(6) Ventilation shall be provided to prevent the accumulation of vapors. See R 29.1270.

(7) A storage room for combustible gases shall have an outside wall with a window or open louver equivalent in venting area to 10% of the area of the outside wall, or 10% of the floor area of the room, whichever is greater. A window or louver shall be installed to open outward so as to vent the force of an explosion. If it is a window, it shall not be fastened in a closed position unless the glass is held in place with frangible metal clips. A window or louver shall be located not less than 10 feet horizontally from an adjoining property line or other exposure. Windows shall be metal frame and glazed with ¼-inch wired glass.

(8) A provision shall be made for a rack or fastening to protect a cylinder from accidental damage or dislocation.

(9) Heating shall be indirect hot water or steam, or by an approved electric heater.

(10) Except when stored in compliance with this rule, the amount of combustible gases maintained for use in a building shall be not more than that required for a 1-day operation.

History: 1954 ACS 100, p. 27, Eff. July 18, 1979.

R 29.1260 Storage of oxygen, nitrous oxide, and inert gases.

Rule 260. (1) A separate room shall be provided for the storage of oxygen, nitrous oxide, and inert gases, and no other storage or use of that room shall be permitted. See R 29.1270.

(2) A room for the storage of oxygen, nitrous oxide, and inert gases shall be separated from the remainder of the building by 1-hour fire-resistive construction.

(3) A storage room or manifold enclosure for oxygen, nitrous oxide, or inert gases of more than 1,500 cubic feet manifold or cylinder capacity shall not be

located below grade. The room shall have 1 wall which is an outside wall of the building and which has a window not less than 6 square feet in area, 1 square foot of which shall be louvered for ventilation.

(4) A provision shall be made for a rack or fastening to protect a cylinder from accidental damage or dislocation.

(5) Oxygen of more than 12,000 cubic feet shall be located in compliance with the requirements for bulk oxygen systems. See R 29.1261.

(6) A 1-day supply of oxygen, nitrous oxide, and inert gases shall be permitted to be kept in the room where used.

History: 1954 ACS 100, p. 27, Eff. July 18, 1979.

R 29.1261 Bulk oxygen systems.

Rule 261. A bulk oxygen system shall be installed and maintained in compliance with national fire protection association pamphlet no. 50, 1974, bulk oxygen systems at consumers sites.

History: 1954 ACS 100, p. 28, Eff. July 18, 1979.

R 29.1262 Anesthetizing gases.

Rule 262. (1) A piping system shall not be used for the distribution of combustible anesthetic gases.

(2) A shutoff valve shall be located in an oxygen or nitrous oxide line, and shall be located outside an anesthetizing location so as to be readily accessible for use in an emergency. A valve shall be of an approved type, mounted on a pedestal or otherwise properly safeguarded against mechanical injury, and marked to prohibit tampering or inadvertent closing, such as by the words:

Do Not Close Except In An Emergency
This Valve Controls Supply To . . . .

(3) A suitable, approved regulator or other gas flow control device, capable of reducing cylinder pressure shall be used in conjunction with a cylinder containing gas used for medicinal purposes. A device of this type shall be used only for the cylinder of gas for which it is designed.

(4) Equipment shall not be used for coupling a cylinder containing compressed gas if that equipment permits the intermixing of a different gas in a portion of the high-pressure side of a system in which the gas may flow. An oxidizing gas under pressure shall not be intermixed with a flammable gas under pressure.

(5) A yoke-type connection between an anesthetic apparatus and a flush-type valve used with an anesthetic gas cylinder shall have a pin index safety system consisting of a combination of 2 pins projecting from the yoke assembly of the apparatus and positioned so as to fit into matching holes drilled into the cylinder valves. The safety system is intended to protect against the possibility of error in attaching the flush-type valve, with which gas cylinders and other sources of gas supply are equipped, to gas apparatus having yoke connections. Fabrication specifications are contained in American national standard B57.1, 1963, compressed gas cylinder valve outlet and inlet connections.

(6) A cover for anesthesia equipment or a cylinder shall be of a type which cannot confine escaping gas or cause an electrostatic or percussion spark.

History: 1954 ACS 100, p. 28, Eff. July 18, 1979.

R 29.1263 Storage room for internal combustion-powered equipment.

Rule 263. Maintenance vehicles, internal powered equipment and devices, and other internal combustion equipment requiring a flammable fuel for use by a hospital or an institution, but not necessary for patient treatment or care, shall not

be stored in a hospital or an institution. This rule does not apply to the auxiliary electrical power generator required by and installed in compliance with R 29.1278. For the purpose of this requirement, a room or an area separated from a hospital or an institution by materials having a 4-hour fire-resistance rating, and not beneath any part of a building, shall not be considered as a hospital or an institution. A communicating door with the remaining hospital or institution building shall be a 1½-hour underwriters' laboratories, inc., B-labeled or factory mutual labeled fire door assembly.

History: 1954 ACS 100, p. 28, Eff. July 18, 1979.

R 29.1264 Storage rooms; ordinary combustibles.

Rule 264. A room for storage of combustible material, including a janitor room or closet, soiled or clean linen room, receiving room, pharmacy, chemical laboratory, main control kitchen, kitchen storage room or a maintenance shop, shall be separated from the remainder of the building by 1-hour fire-resistive construction and the room shall be protected by an automatic sprinkler system, or an approved automatic fire extinguishing system.

History: 1954 ACS 100, p. 28, Eff. July 18, 1979.

R 29.1265 Laundry locations.

Rule 265. (1) A laundry shall be separated from the remainder of the building by 1-hour fire-resistive construction and the room shall be protected by an automatic sprinkler system.

(2) A steam line or hot water line shall be insulated with a limited-combustible material, and shall have 1-inch clearance from combustibles.

(3) A dryer shall be constructed of metal, shall be independently vented or be a part of a regular laundry venting system, and shall not penetrate a wall or ceiling which is required to have a fire-resistance rating unless it is enclosed in a shaft having a 1-hour fire-resistance rating tested from the inside out. No other duct shall be in the shaft.

(4) All gas appliances shall have 100% automatic and manual shutoff controls.

(5) All electric heating devices and appliances equipped with automatic heat controls shall be equipped with pilot lights.

History: 1954 ACS 100, p. 29, Eff. July 18, 1979.

R 29.1266 Clean and soiled utility rooms.

Rule 266. A clean and soiled utility room shall be separated from the remainder of the building by 1-hour fire-resistive construction and the room shall be protected by an automatic sprinkler system. Openings shall be protected by an approved ¾-hour labeled fire door assembly. A closing device equipped with a smoke detector to hold the door open shall be permitted.

History: 1954 ACS 100, p. 29, Eff. July 18, 1979.

R 29.1267 Ethylene oxide gas.

Rule 267. (1) For mixtures of ethylene oxide gas in excess of 12%:

(a) The sterilizer unit shall be permanently installed in an area approved for hazardous materials use. The unit shall be equipped with an interlocking mechanism that prevents the chamber from being opened without the chamber first having been completely purged. Where electrical controls are provided, wiring and contacts shall be approved for use in a hazardous location to prevent the ignition of ethylene oxide gas within the sterlizing chamber.

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

(b) The sterilizer shall be permanently and effectively grounded.

(c) The sterilizer shall be permanently and effectively vented to the outside of the building above grade, with no opening back into the building within 25 feet of the discharge. Venting into a court or airway is prohibited.

(d) Storage of a cylinder or cartridge of ethylene oxide gas shall be in compliance with R 29.1258 and R 29.1259.

(e) An operation manual, detailing the operation of the equipment, pointing out the flammability of the ethylene oxide, and warning of the possible dangers to health, shall be provided for each person who operates the unit. This manual shall be provided by the manufacturer.

(f) The criteria required by this subrule is the minimum acceptable for the installation of an ethylene oxide sterilizer and the storage of gas. Manufacturer's instructions for installation of a unit, which may be more stringent, shall be complied with fully.

(2) For mixtures of ethylene oxide gas of less than 12%:

(a) The use, handling, and storage shall be in compliance with R 29.1260.

(b) The sterilizer unit shall be installed and operated in compliance with the manufacturer's instructions.

History: 1954 ACS 100, p. 29, Eff. July 18, 1979.

R 29.1268 Equipment for flammable anesthetizing locations.

Rule 268. Electrical wiring, fixtures, appliances, apparatus, and equipment used in a flammable anesthetizing location shall be of a type approved for use in an explosive atmosphere, in compliance with the national fire protection association pamphlet no. 70, 1978, national electrical code.

History: 1954 ACS 100, p. 29, Eff. July 18, 1979.

R 29.1269 Ventilation for flammable anesthetizing locations.

Rule 269. (1) Each anesthetizing location shall be individually ventilated, and the air shall not be recirculated where flammable anesthetics are used.

(2) Mechanical ventilation shall be provided for a flammable anesthetizing location and shall comply with the following criteria:

(a) Afford not less than 12 changes of air per hour.

(b) Maintain a relative humidity of not less than 55% at the temperature of the room.

(c) An exhaust air grille or opening shall not be located more than 8 inches above the floor.

History: 1954 ACS 100, p. 29, Eff. July 18, 1979.

R 29.1270 Ventilation for gases and flammable liquid storage.

Rule 270. (1) A room in which combustible gases and flammable liquids are stored shall be individually ventilated, and the air shall not be recirculated. See R 29.1258 to R 29.1260.

(2) In a storage location for combustible gases and flammable liquids, gravity or natural ventilation is desirable; however, if mechanical ventilation is used, the ducts shall be of substantial metal construction, extending to the exterior of the building, and shall terminate in an efficient suction-creating device having screened openings at the floor level. If a mechanical system is necessary, it shall be installed in compliance with national fire protection association pamphlet no. 91, 1973, blower and exhaust systems, dust, stock and vapor removal.

(3) A storage room or manifold enclosure for oxygen and nitrous oxide of more than 1,500 cubic feet manifold or cylinder capacity shall be vented to the outside in compliance with R 29.1260(3).

History: 1954 ACS 100, p. 30, Eff. July 18, 1979.

R 29.1271 Ventilation; power exhaust.

Rule 271. Where power exhaust ventilation is to be used for an area housing combustion equipment, an air supply shall be provided equal to the amount exhausted, so that negative pressures do not develop, thus resulting in reversal of drafts in chimney flues.

History: 1954 ACS 100, p. 30, Eff. July 18, 1979.

R 29.1272 Fan and air-handling units.

Rule 272. (1) A fan unit or other air-handling unit shall be separated from other occupancies with time-rated construction as required by that occupancy. A unit serving more than 1 floor, or a unit located on 1 floor and serving another floor, requires 1-hour fire-resistive separation from all other usage not necessary for the fan operation.

(2) Automatic smoke detectors shall be provided for all fan units on the downstream side of the air filters, actuation of which shall open the electrical circuit supplying the fan motor and electrically relayed to the fire alarm system of the building. This requirement does not apply to:

(a) A unit located in a room and serving only that room.

(b) A unit serving exhaust air only.

(3) Smoke detectors shall be located in the return air duct ahead of the fresh air intake, actuation of which will open the electrical circuit supplying the fan motor and relay a signal to, and actuate, the building's fire alarm system. This requirement does not apply to:

(a) A unit located in a room and serving only that room.

(b) A unit serving exhaust air only.

(4) All units of more than 15,000 cubic feet per minute shall be provided with smoke detectors on both supply and return sides of the unit, which shall perform the same functions as described in subrules (2) and (3).

(5) All units shall be equipped with a manual emergency stop conveniently located for quick shutdown.

(6) All filters used in air-handling units shall be equal to, or be better than, class 1 filters when tested by underwriters' laboratories, inc., standard 900, 1977, air filter units.

History: 1954 ACS 100, p. 30, Eff. July 18, 1979.

R 29.1273 Fire dampers.

Rule 273. (1) Approved fire dampers shall be provided in all ducts piercing all required time-rated walls, floors, vertical shafts, or ceilings. Duct penetrations of the walls required by R 29.1223(3) do not require a fire damper if the wall opening is 324 square inches or less and if the ductwork is a complete, substantial separation system of metal or equivalent material having tight seams and joints.

(2) Required fire dampers used also to prevent the spread of smoke shall not be altered in any way which negates the approved fire damper label.

(3) Inspection and maintenance doors shall be provided in ducts adjacent to required fire dampers. The opening shall be not less than 12 inches by 12 inches, unless restricted to less by the duct size.

(4) Ducts of not more than 20 square inches may pierce floors and vertical shaft walls without fire dampers if the duct is constructed of steel conforming to the requirements of the state fire marshal, fire damper clarification, fifth edition, 1975, and the duct serves a terminal unit with the discharge not more than 4 feet above the floor.

(5) Installation of fire dampers shall be in compliance with the requirements of the state fire marshal, fire damper clarification, fifth edition, 1975.

History: 1954 ACS 100, p. 30, Eff. July 18, 1979.

R 29.1274 Exit corridors and plenums.

Rule 274. (1) A corridor, stair, or ramp, serving as an exit, shall not be used for supply, return, or exhaust air, except that small rooms opening directly on corridors may use corridor air for exhaust purposes. Air shall not be transferred through a corridor wall, or wall required to be fire-resistive.

(2) The space between ceilings and floors, if containing unprotected framing members, shall not be used for air handling.

(3) Parts of the building may be used as plenums if the construction is limited-combustible and is reasonably airtight. Lay-in or spline ceilings are not considered airtight.

History: 1954 ACS 100, p. 31, Eff. July 18, 1979.

R 29.1275 Duct construction and insulation.

Rule 275. (1) All ducts or plenums used for air handling shall be constructed of metal or other noncombustible materials and shall be constructed so as to be reasonably airtight. Materials which meet limited-combustible and class A requirements may be used, except that they may not penetrate a required fire-resistive wall, floor, or ceiling.

(2) Duct connectors shall be not less than class A material (see R 29.1243(1)), shall be not more than 14 feet, and shall not pierce a required fire-resistive wall, floor, or ceiling.

(3) All ducts and duct openings shall be constructed and located so as to minimize damage and prevent inclusion of foreign materials.

(4) All duct insulation, including adhesives, coatings, and films, shall be not less than class A material, in compliance with R 29.1243(1).

(5) There shall be no recirculation of air in a room or area where flammable liquids or gases are present.

(6) A fuel-fired heating unit shall not be installed in a duct or plenum. See R 29.1255 for heating plant location and construction requirements.

(7) Insulation material, where used for lining or covering for a duct, plenum, or fan unit, or for mechanical piping, shall be of class A material, as specified in R 29.1243(1).

History: 1954 ACS 100, p. 31, Eff. July 18, 1979.

R 29.1276 Electrostatic protection.

Rule 276. (1) To provide electrostatic protection, the entire surface of a floor in a flammable anesthetizing location, room, corridor, or surgery suite, and 10 feet on either side of a door in a corridor communicating with such flammable anesthetizing location, shall provide a path of moderate electrical conductivity between a person and equipment making contact with the floor, in compliance with national fire protection association pamphlet no. 56A, 1973, inhalation anesthetics code, and R 29.1427.

(2) In addition to the requirements of R 29.1262 and subrule (1), equipment in an anesthetizing location shall be installed in compliance with national fire protection association pamphlet no. 56A, 1973, inhalation anesthetics code.

History: 1954 ACS 100, p. 31, Eff. July 18, 1979.

R 29.1277 Electrical wiring and equipment.

Rule 277. (1) Electrical wiring and equipment, including emergency electrical supply, shall be installed in compliance with national fire protection association pamphlet no. 70, 1978, national electrical code.

(2) The electrical service entrance shall be located in a room separated from other occupancies and exposures by an enclosure having a 1-hour fire-resistance rating.

(3) Electrical plan and specification approval and complete inspection shall be made by an electrical inspection authority acceptable to the state fire marshal. The authority shall issue a final certification of compliance covering the installation, with a copy provided to the state fire marshal.

History: 1954 ACS 100, p. 31, Eff. July 18, 1979.

R 29.1278 Emergency electrical supply.

Rule 278. (1) A hospital or institution shall have an approved emergency electrical supply, which, in the event of interruption of the normal supply, is capable of supplying power for required exit and egress lighting, critical care area, life support systems, and required emergency signaling systems, such as fire alarm and detection systems, intercommunication systems, and telephone equipment.

(2) An "emergency electrical supply" means an internal combustion engine-driven generator with a supply of fuel stored on the premises sufficient for 24 hours operation at rated capacity. The generator shall automatically operate by a drop in the voltage of the normal power supply and provide the required power within 10 seconds of the drop in voltage of the normal power. Testing of the generator shall be in compliance with R 29.1420. In a home for the aged, approved battery-operated emergency illumination shall be permitted in lieu of the requirements of subrule (1).

(3) A room or enclosure for an engine-driven generator shall be used for no other purpose.

(a) When located within a hospital or institution, it shall meet the following requirements:

(i) The room shall be separated from the remainder of the building by 1-hour fire-resistive construction.

(ii) One wall of the engine-driven generator room shall be an outside wall not exposing an inner court and having a suitable window or door to provide for explosion pressure relief and fire fighting access.

(iii) An inside door from an engine-driven generator room shall be hung to swing into the engine-driven generator room.

(iv) An engine-driven generator room housing a flammable liquid-fueled engine shall have a 6-inch noncombustible, vapor-tight sill or ramp at each inside opening and a watertight floor arranged to drain to a safe location.

(v) An engine-driven generator room shall be provided with air vents connected directly to the outside to supply sufficient air for combustion and cooling.

(b) When an engine-driven generator is located outside it shall be in a weather-proof enclosure or building separated from the hospital or institution by 1-hour fire-resistive construction or 10 feet from any exposure.

(4) When flammable liquids are used to supply an internal combustion engine-driven generator, the storage tank shall be located underground and be in compliance with the flammable liquid regulations of the state. A starting tank installed at the generator location shall be permitted as follows:

(a) One gallon of class I liquid.

(b) Three gallons of class II or III liquid to 500 kilovolt-amperes.

(c) Five gallons of class II or III liquid over 500 kilovolt-amperes.

(5) Care shall be taken to assure that an engine and generator are not located in an area subject to flooding.

History: 1954 ACS 100, p. 32, Eff. July 18, 1979.

R 29.1279 Hot water heaters and tanks.

Rule 279. (1) A water heater, other than one that is steam or electrically heated, or a booster heater for dishwasher or laundry purposes, shall be installed in a heating plant room or in an enclosure of like construction and location.

(2) A hot water storage tank shall be equipped with 1 of the following safety devices, which shall prevent temperatures of more than 210 degrees Fahrenheit and pressures of more than the working pressure for which the tank is designed:

(a) An acceptable pressure-relief valve, combined with an energy cutoff, approved by underwriters' laboratories, inc., or by the American gas association.

(b) An acceptable pressure-relief valve and an acceptable temperature relief valve of the spillage type.

(c) An acceptable combined temperature-pressure-relief valve of the spillage type.

(3) A heater having more than 200,000 British thermal units input, a temperature of more than 200 degrees Fahrenheit, or a water-containing capacity of more than 120 gallons shall be in compliance with the rules of the boiler division of the department of labor.

History: 1954 ACS 100, p. 32, Eff. July 18, 1979.

R 29.1280 Gas.

Rule 280. (1) A master valve shall be provided in a room having 3 or more gas outlets. The valve shall be conveniently located and easily distinguishable so that it may be closed readily.

(2) A shutoff valve for the exterior gas supply lines shall be provided outside of the building.

(3) The installation, use, and maintenance of gas appliances and gas piping shall be in compliance with national fire protection association pamphlet no. 54, 1974, national fuel gas code.

(4) A liquefied petroleum gas or a bottled gas installation shall be in compliance with the requirements of the 1975 Michigan liquefied petroleum gases regulations, R 28.3801 to R 28.3806.

(5) If a gas supply line is placed in a tunnel, it shall be of welded construction, and the tunnel shall have forced ventilation.

(6) A gas line shall not be permitted in an air-conveying duct or plenum unless installed in a continuous schedule 40 welded black steel pipe sleeve throughout the plenum or duct.

History: 1954 ACS 100, p. 32, Eff. July 18, 1979.

R 29.1281 Nonflammable medical gas systems.

Rule 281. A nonflammable medical gas system shall be installed in compliance with national fire protection association pamphlet no. 56F, 1977, nonflammable medical gas systems.

History: 1954 ACS 100, p. 33, Eff. July 18, 1979.

R 29.1282 Refrigerating equipment.

Rule 282. Refrigerating equipment shall use only a refrigerant which is noncombustible, nontoxic, and nonirritating.

History: 1954 ACS 100, p. 33, Eff. July 18, 1979.

R 29.1283 Kitchen ventilating hoods.

Rule 283. (1) A metal hood or canopy shall be provided over a kitchen cooking appliance in compliance with national fire protection association pamphlet no. 96, 1976, vapor removal from cooking equipment.

(2) Only vaporproof-type electrical wiring and equipment shall be permitted in a hood or canopy.

(3) An exhaust duct from a hood shall run to the outside by the shortest possible route, and when it is run through the concealed space between a ceiling and a floor or roof, or through a floor above, including a recessed hood, it shall be enclosed by construction having a 2-hour fire-resistance rating from the inside.

(4) Fire extinguishment equipment for the hood and exhaust duct of a cooking appliance in a kitchen shall be in compliance with national fire protection association pamphlet no. 96, 1976, vapor removal from cooking equipment.

History: 1954 ACS 100, p. 33, Eff. July 18, 1979.

R 29.1284 Fire extinguisher locations.

Rule 284. (1) A fire extinguisher shall be housed in a special cabinet or wall rack readily accessible at all times. Extinguishers having a gross weight of not more than 40 pounds shall be installed so that the top of the extinguisher is not more than 5 feet above the floor. Extinguishers having a gross weight of more than 40 pounds, except wheeled types, shall be so installed that the top of the extinguisher is not more than 3½ feet above the floor. The cabinet, or the wall in the area of the wall rack, shall be painted a distinguishing color, or the front of the cabinet shall be identified with letters not less than 2½ inches high forming the words "FIRE EXTINGUISHER" in contrast to the background.

(2) The size and location of an extinguisher shall comply with national fire protection association pamphlet no. 10, 1975, portable fire extinguishers, installation, maintenance and use. A standpipe or hose cabinet in compliance with R 29.1286 shall not replace a required fire extinguisher.

(3) Extinguishers of class A type shall be located in corridors, storage areas of combustible materials, shops, and laundries.

(4) Extinguishers of class B:C type shall be located in heating plant rooms, machine rooms, shops, pharmacies, laboratories, kitchens, garages, anesthetizing locations, and storage areas.

History: 1954 ACS 100, p. 33, Eff. July 18, 1979.

R 29.1285 Fire extinguisher types.

Rule 285. A fire extinguisher shall be of a type listed by underwriters' laboratories, inc., or approved by the state fire marshal.

History: 1954 ACS 100, p. 33, Eff. July 18, 1979.

R 29.1286 Standpipes.

Rule 286. A standpipe system for fire department use, or a standpipe system for use by a fire department and persons trained in handling a heavy hose stream, shall be installed in a building more than 2 stories above the highest grade, in compliance with national fire protection association pamphlet no. 14, 1976,

standpipe and hose systems. Connections shall be sized to fit local fire department equipment and located within a required exit stair. Shop drawings shall be submitted to the state fire marshal for approval before installation.

History: 1954 ACS 100, p. 34, Eff. July 18, 1979.

R 29.1287 Automatic sprinklers.

Rule 287. (1) An approved automatic sprinkler system, in compliance with national fire protection association pamphlet no. 13, 1976, installation of sprinkler systems, shall be provided to protect a hazardous location or room.

(2) Complete shop drawings shall be submitted to the state fire marshal for approval before installation of sprinklers.

(3) A sprinkler contractor certificate covering materials and tests shall be filed with the inspecting authority for a sprinkler installation of more than 10 heads.

(4) An automatic sprinkler system shall be equipped with a flow alarm electrically relayed to the fire alarm system of the building, except for sprinklers installed in compliance with R 29.1288(1).

History: 1954 ACS 100, p. 34, Eff. July 18, 1979.

R 29.1288 Sprinkler water supply.

Rule 288. (1) Sprinkler piping serving not more than 2 sprinkler heads in any isolated hazardous area may be connected directly to the domestic water supply system, limited to no more than 10 heads in any building and otherwise installed in compliance with R 29.1287. A check valve and an approved indicating valve shall be installed in an accessible location between the sprinkler and the connection to the domestic water supply.

(2) Where there is not adequate water from a public water system to supply a sprinkler system, a special pressure tank supply for an automatic sprinkler system, in compliance with national fire protection association pamphlet no. 22, 1976, water tanks, shall be provided. A special pressure tank shall contain 2,000 gallons of water in a 3,000-gallon tank for a partial system. For a complete building system, a special pressure tank shall contain 3,000 gallons of water in a 4,500-gallon tank. A special pressure tank supplying sprinkler water for a building being protected in its entirety shall not be located in a heating plant room.

History: 1954 ACS 100, p. 34, Eff. July 18, 1979.

PART 3. SPECIAL EXCEPTIONS FOR REMODELING EXISTING HOSPITALS AND INSTITUTIONS

R 29.1301 Applicability.

Rule 301. (1) This part grants exceptions to the provisions of part 2 as they relate to the remodeling of an existing hospital or institution upon inspection by an authorized inspection authority, as provided for in section 8 of Act No. 207 of the Public Acts of 1941, as amended. Written notice shall be given to a public or private hospital or institution board or owner, and, where applicable, to a duly authorized agent of such a hospital or institution board or owner, by the inspecting authority finding conditions requiring corrections.

(2) Except as hereinafter provided, fire safety requirements for remodeling an existing hospital or institution shall be the same as those provided for new hospital and institution construction in parts 1 and 2. If a particular building component is remodeled, it shall comply with part 2; however, if it is not intended that the component be changed along with those surrounding it, it may remain if it complies with part 3.

History: 1954 ACS 100, p. 34, Eff. July 18, 1979.

R 29.1303 Construction.

Rule 303. A hospital or institution having the entire building protected by an automatic fire detection system, and which is in compliance with the other requirements of these rules, shall not be required to comply with R 29.1209(1) if any 1 of the following conditions is met:

(a) The building has been in continuous operation and approval since 1973.

(b) The hospital or institution is for not more than 7 individuals located on the first floor only, 4 of whom may be nonambulatory patients, and a door from each patient or resident room is a direct egress to the outside from the room or into a 6-foot corridor having exits at each end directly to the outside.

(c) The hospital or institution is 1-story having a concrete floor and no basement, is classified as protected ordinary construction, has acceptable corridor-room separation, and has acceptable storage room separation and protection.

(d) The hospital or institution is for residents only, and the residents are located only on the first floor.

History: 1954 ACS 100, p. 34, Eff. July 18, 1979.

R 29.1305 Exits generally.

Rule 305. (1) An approved second means of egress shall be provided for a resident- or patient-occupied room of more than 8 beds.

(2) In a building of fire-resistive construction, or a building which is protected by an automatic sprinkler system, where present exits are separated by not less than 50% of the dimension of the building, the housing of not more than 10 patients beyond a means of egress may be permitted if there is no storage room, pharmacy, or other hazardous occupancy between the patient- or resident-occupied room and the means of egress, and if the most remote, occupied room door is not more than 50 feet from the means of egress.

History: 1954 ACS 100, p. 35, Eff. July 18, 1979.

R 29.1307 Exit and corridor dimensions.

Rule 307. An approved corridor width shall be not less than 48 inches clear, with a height not less than 84 inches.

History: 1954 ACS 100, p. 35, Eff. July 18, 1979.

R 29.1309 Exit doors.

Rule 309. (1) For the exit door for a room, and for a door forming a part of an approved means of egress intended for patient and resident occupancy, the following door width shall be permitted:

(a) For nonambulatory patient use—42 inches.

(b) For ambulatory patient and resident use—30 inches.

(c) For a toilet room serving a patient- and resident-occupied room, and not opening on an exit corridor—28 inches.

(2) A patient-occupied room shall have 1 doorway opening directly to the outside, or to a corridor which leads directly, or by stairway, to the outside, except in areas permitted in R 29.1223(2)(d) and R 29.1311(4).

History: 1954 ACS 100, p. 35, Eff. July 18, 1979.

R 29.1311 Corridors.

Rule 311. (1) A doorway entering a corridor or egress passage shall be protected by a substantially constructed, side-hinged, swing-type door equipped with latching hardware and constructed to provide a reasonably smoketight

enclosure. A thin panel or a hollow-core wood door shall not be permitted. In a sprinklered building, a reasonably smoketight door shall be permitted to remain.

(2) A room to corridor partition shall be of substantial construction and shall be reasonably smoketight, with any glass being ¼-inch wired glass, not more than 1,296 square inches in area, including wired glass in doors, except that a 100% sprinklered building shall have no glass size restriction. See R 29.1145(8) and R 29.1223(3).

(3) A transom in a corridor partition shall be permanently sealed and made fire-resistive equal to the related partition construction.

(4) An existing corridor which exits through a lobby, approved after 1961, shall be permitted.

History: 1954 ACS 100, p. 35, Eff. July 18, 1979.

R 29.1315 Exit door hardware generally.

Rule 315. Hardware shall be in compliance with parts 1 and 2 of these rules with the exception that knob- or latch-type hardware which will insure opening of the door by a single motion, as by turning a knob or by pressure of a latch with normal strength, and which is nonlocking against egress, shall be permitted on a door which is provided as an exit giving egress directly to the outside from a room of less than 50 people.

History: 1954 ACS 100, p. 35, Eff. July 18, 1979.

R 29.1317 Fire door assembly resistance rating.

Rule 317. An occupancy required to have a fire door assembly may have situations in a building which do not require replacement of a certain door and frame if the inspecting officer finds the features acceptable and so stipulates in his report to the state fire marshal.

History: 1954 ACS 100, p. 35, Eff. July 18, 1979.

R 29.1319 Stairway enclosures.

Rule 319. (1) A hospital or an institution stairway shall be separated from the rest of the building with material having a ½-hour fire-resistive construction or shall be improved to not less than ½-hour limited-combustible construction.

(2) An existing stairway exiting through a lobby, approved after 1961, shall be permitted.

(3) A stairway forming an approved means of egress, but which is less than 44 inches wide in the clear, or which has tread dimensions of less than 9½ inches, and risers of more than 7¾ inches, and where the vertical distance between platforms or landings is not more than 9 feet, shall be considered if the measurement specifications are listed in a written report to the state fire marshal and if the inspecting officer recommends it on the basis that no distinct hazard to life safety exists.

(4) A doorway into a stairway enclosure and a doorway serving other vertical openings shall be of equal fire-resistance rating as the partition in which the doorway is installed, and shall be equipped with an approved self-closing device and latch. The door shall be hung to permit convenient manual opening and closing. The door shall be maintained in a closed position, and shall have a prominent sign on each side containing the words: Fire Door—Keep Closed. Glass in a door shall be ¼-inch wired glass.

History: 1954 ACS 100, p. 36, Eff. July 18, 1979.

R 29.1323 Fire escapes.

Rule 323. (1) A hospital or an institution which is provided with outside fire escapes as a required means of egress shall not be required to replace the fire escapes to comply with this rule if:

(a) They are certified by an architect or structural engineer, in affidavit form, attesting to their structural stability, upon request by the state fire marshal.

(b) Protection against fire in the building is by blank or closed walls directly under the stairway and for a distance of 6 feet in all other directions. A window shall be permitted within this area if it is stationary, of steel sash, and glazed with wired glass of not less than ¼-inch thickness.

(2) If necessary to correct an existing deficiency in an existing building created by a dead-end corridor, an approved outside fire escape shall be permitted.

(3) A tubular or spiral slide-type fire escape is prohibited.

(4) The bottom riser shall terminate at ground level, with the last riser not more than the spacing of the riser above.

(5) A doorway leading to a fire escape shall be at floor level.

History: 1954 ACS 100, p. 36, Eff. July 18, 1979.

R 29.1325 Ramps.

Rule 325. A ramp in continual use since before the effective date of these rules shall not be required to be brought to compliance with R 29.1237 unless the inspecting authority demands an updating to correct a questionable condition.

History: 1954 ACS 100, p. 36, Eff. July 18, 1979.

R 29.1327 Smoke partitions.

Rule 327. A smoke partition shall be in compliance with R 29.1238 except that the smoke partition and doors of not less than ½-hour fire-resistance rating shall be permitted to remain. Glass in a smoke partition door shall not exceed 1,296 square inches of ¼-inch wired glass. A smoke-activated door release shall be permitted. The travel distance required by R 29.1238(8) shall not apply to an existing facility. The requirements of R 29.1238(10) shall not apply to an existing facility if space is adequate on each side of the smoke partition to accommodate the patients or residents from the adjoining side.

History: 1954 ACS 100, p. 36, Eff. July 18, 1979.

R 29.1329 Elevators and dumbwaiters.

Rule 329. All elevator and dumbwaiter shafts shall be completely enclosed by materials with a fire-resistance rating of not less than 2 hours. No openings shall be allowed through the sidewall enclosures for ventilation or any other purpose. All doors and frames servicing elevators and dumbwaiters shall be approved fire door construction and shall be hung so as to be reasonably smoketight when the doors are closed. Lintels and panels above such doors shall be constructed to resist fire for 1 hour. Where necessary, such doors shall have wired glass ¼-inch thick and the glass shall not exceed 100 square inches.

History: 1954 ACS 100, p. 36, Eff. July 18, 1979.

R 29.1335 Wall and ceiling finishes.

Rule 335. (1) A wood door, trim, backing of shelving, cabinet, and wardrobe shall be included in the 10% permissible class C finish in compliance with subrule (4)

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(2) Interior finish shall be class A or B, in compliance with R 29.1243, except that the interior finish in an individual room, having a capacity of not more than 4 persons, may be class C for walls only.

(3) A class A, B, or C interior finish material, where permitted, shall not be applied or furred out more than 1 inch from a limited-combustible surface, with the space behind firestopped into areas extending not more than 8 feet in any direction.

(4) Interior finishes comprising more than 10% of the aggregate wall and ceiling surfaces of an occupied room or space, and more hazardous than permitted in subrule (3), may be surface treated to comply with subrule (3) if the material is secured to the walls or ceiling, as specified in subrule (3).

(5) If interior finish is more hazardous than class A, in compliance with R 29.1243, and if it is furred out more than 1 inch from limited-combustible wall or ceiling surfaces, it shall be replaced with limited-combustible material, or shall be reinstalled in compliance with subrules (3) and (4).

(6) Wood paneling and combustible acoustical interior finish in a lobby, waiting room, or an office area in an existing building shall be permitted to remain if the room or area is separated from the rest of the building by construction having a 1-hour fire-resistance rating.

(7) A prefabricated acoustical tile unit installed over nonconforming material shall be attached with staples or other acceptable metal clips.

(8) Existing floor finish materials shall not require replacing unless judged to be a hazardous material by the inspecting authority.

History: 1954 ACS 100, p. 37, Eff. July 18, 1979.

R 29.1337 Plastic materials as interior finish.

Rule 337. In an existing hospital or institution plastic light fixture diffusers and light diffusing systems shall not be required to be replaced to be brought in compliance with R 29.1248.

History: 1954 ACS 100, p. 37, Eff. July 18, 1979.

R 29.1339 Fire alarm systems.

Rule 339. A fire alarm system which has been approved in the past shall be approved for continued use if:

(a) The electrical supply serving the system is installed on a separate circuit in a metallic conduit and is fused ahead of the main entrance switch.

(b) The entire system is maintained in operating condition.

(c) The central station receiving volume control is maintained at a level to preclude its being silenced, or muted, or altered so as not to receive incoming calls from a station.

History: 1954 ACS 100, p. 37, Eff. July 18, 1979.

R 29.1341 Heating plant room; location, construction, and use.

Rule 341. (1) In an existing building, the heating plant shall be separated in a room having walls, ceiling, and floor constructed of material having a 1-hour fire-resistance rating, and shall not be used for the storage of maintenance or combustible materials. A heating plant room constructed of combustible materials may be continued in use if protected by an approved automatic sprinkler system.

(2) A doorway or other opening through a required enclosure for heating plant shall be of the same fire-resistive quality as is required of the enclosure, or, in compliance with R 29.1317, shall be hung reasonably smoketight and equipped with a self-closing device.

(3) A furnace or enclosure shall be provided with an air vent directly to the outside, sufficient to admit the required volume of air to support proper combustion. The air vent shall be maintained in an open condition. A vent may be protected by a louver or other approved device.

(4) A gas meter is prohibited within 5 feet of an ignition source or spark-producing equipment.

(5) A portable or open-flame space heater is prohibited.

History: 1954 ACS 100, p. 37, Eff. July 18, 1979.

R 29.1343 Incinerator room.

Rule 343. (1) An incinerator room, separated from the remainder of the building by 1-hour fire-resistive construction, protected by an automatic sprinkler system and provided with adequate makeup air for combustion, shall not be required to be altered to meet the requirements for new contruction in compliance with R 29.1256.

(2) A gas-fired incinerator of 2-bushel capacity or less may be permitted in an existing boiler room at the discretion of the inspecting officer.

History: 1954 ACS 100, p. 37, Eff. July 18, 1979.

R 29.1345 Storage of oxygen, flammable liquids, and gases.

Rule 345. A storage room for oxygen, gases, and flammable liquids shall be in compliance with R 29.1258, R 29.1259, R 29.1260, and R 29.1270, except that, in a building completely protected by an automatic sprinkler system, an existing substantial enclosure of less than 1-hour fire-resistive construction may be acceptable to the inspecting authority.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1347 Storage rooms; ordinary combustibles.

Rule 347. Closets and storerooms for the storage of ordinary combustibles shall comply with R 29.1264, except that an existing substantial enclosure of such storage room of less than ½-hour fire-resistive construction may be acceptable to the inspecting authority.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1349 Clean and soiled utility rooms.

Rule 349. A clean and a soiled utility room shall comply with R 29.1266(1), except that an existing substantial enclosure of such utility room of not less than ½-hour fire-resistive construction may be acceptable to the inspecting authority.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1351 Fan and air-handling units.

Rule 351. A fan and air-handling unit used for recirculating air in more than 1 room or single area shall be located in a room separated from the remainder of the building by 1-hour fire-resistive construction. Rooms housing fans and air-handling units shall not be used for combustible storage.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1353 Fire dampers.

Rule 353. A heat-actuated fire damper shall be installed on the discharge side of a recirculating fan unit serving more than 1 room or area. There shall be an approved thermostatic device with a setting not in excess of 125 degrees

Digitized by Google
UNIVERSITY OF MICHIGAN

Fahrenheit located in the system at a point in the return air duct ahead of the fresh air intake, actuation of which shall open the electrical circuit supplying the fan motor. Where it is impracticable to locate a thermostatic device as described above, an approved heat- or smoke-actuated device, which will open the electrical circuit supplying the fan motor, shall be located in the air duct on the discharge side of the fan.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1355 Exit corridors and plenums.

Rule 355. A system using corridors or exitways as return air plenums shall be reconstructed to eliminate such use. If reconstruction is impractical due to design or construction, the inspecting authority may accept the existing system if an automatic smoke detector is installed in each separate area of such corridors or exitways to automatically open the electrical circuit supplying the fan motor. Such detector shall incorporate visible or audible signals to indicate trouble which would interfere with proper operation of the detector. A stairway shall not be used as a return air plenum.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1357 Duct construction and insulation.

Rule 357. A duct and plenum employing mechanical means for air handling shall be constructed of limited-combustible materials. Where ducts and plenums of an existing system are constructed wholly or in part of combustible materials, they shall be reconstructed of limited-combustible material if practical. However, where such reconstruction is impractical due to design or construction, the inspecting authority may accept the existing installation if fire dampers are installed in the return air duct opening from each room or area.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1359 Electrical wiring and equipment.

Rule 359. In an existing hospital or institution, the electrical service entrance, wiring, fixtures, equipment and their installation shall not be required to be brought to compliance with R 29.1259(4), R 29.1277(1), and R 29.1277(2) unless the inspecting authority demands an updated certificate of electrical inspection due to a questionable condition, in which case compliance with R 29.1277(3) shall be required.

History: 1954 ACS 100, p. 38, Eff. July 18, 1979.

R 29.1361 Auxiliary electrical power.

Rule 361. In an existing hospital or institution, auxiliary electrical power in service without alteration or addition to the system since prior to the effective date of these rules shall not be required to be brought to compliance with R 29.1278 unless the inspecting authority demands an updating to correct a questionable condition.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1363 Hot water heaters and tanks.

Rule 363. In an existing hospital or institution, a hot water heater and tank shall be in compliance with R 29.1279, except that R 29.1279(1) shall not apply if the room or enclosure is in compliance with R 29.1341.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

PART 4. FIRE SAFETY MAINTENANCE

R 29.1401 Fire-safe maintenance.

Rule 401. A hospital or an institution, and the parts thereof, both existing and new, shall be maintained in a fire-safe condition. The hospital or institution board or owner, or the designated agent thereof, is responsible for fire-safe maintenance of the building at all times.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1402 Laundry areas.

Rule 402. (1) A lint trap shall be cleaned at weekly intervals. A less frequent schedule may be established if current usage indicates such to be practical.

(2) The use of flammable liquids for cleaning, brushing, scouring, or scrubbing shall be prohibited.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1403 Exitways.

Rule 403. The clear width of a doorway, corridor, passageway, or other exitway required by these rules shall not be obstructed or reduced.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1404 Doors.

Rule 404. (1) A door from a room to a corridor and to the outside from a room, a door from a corridor to a stairway, and a door from a corridor or a stairway to the outside shall be maintained in good repair, be easily opened at all times, and shall latch freely in a closed position.

(2) A fire door shall be maintained in good repair as provided in subrule (1), and an irreparable fire door shall be replaced.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1405 Door hardware.

Rule 405. (1) The closing device on a fire door shall be maintained in good operating condition so that it causes the door to tightly close upon release from an open position. The synchronizing closing devices of double doors without mullions shall be maintained in good operating condition.

(2) Panic bar hardware shall be maintained in good operating condition.

(3) Nonoperating and irreparable door hardware shall be replaced.

(4) A hold-open device, other than that permitted in parts 2 and 3 of these rules, shall not be used or permitted to remain on a fire door.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1406 Air-handling systems.

Rule 406. (1) An air-handling system operated only part of the year shall be given a thorough general checkup before starting operation and again after shutting down.

(2) An inspection to determine the amount of dust and waste material in discharge and return ducts shall be made quarterly. If, after several inspections, such frequent inspection is found unnecessary, the interval between inspections may be adjusted to suit the conditions.

(3) Cleaning of the system shall be undertaken when inspection indicates the need.

(4) Cooling and heating coils shall be cleaned at the time of cleaning the ducts. Thorough cleaning of ducts may require scraping, brushing, or other positive means of removing residue.

(5) A plenum chamber shall be inspected monthly. If, after several inspections, such frequent inspection is found unnecessary, the interval between inspections may be adjusted to suit the conditions. A plenum chamber shall not be used for combustible storage. Caution should be exercised in the use of open flames or spark-emitting devices inside of ducts or plenum chambers, or near air intakes.

(6) Where an area above a ceiling is used for air-handling, a part of the ceiling, which is removed for any purpose, shall be replaced immediately after the purpose for removal is accomplished, and any clips or fasteners replaced or secured.

History: 1954 ACS 100, p. 39, Eff. July 18, 1979.

R 29.1407 Air filters.

Rule 407. (1) An air filter shall be kept free of excess dust and combustible material. A unit filter shall be replaced or cleaned if resistance to the air flow has increased to 2 times the original resistance, or if resistance has reached a point where replacement is recommended by the manufacturer. If a filter is of the automatic liquid adhesive type, sludge shall be regularly removed from the liquid adhesive reservoir.

(2) A filter intended to be thrown away after use shall not be cleaned and reused.

(3) Liquid adhesives shall have a flash point of not less than 325 degrees Fahrenheit.

(4) Electrical equipment of an automatic filter shall be inspected monthly and the operation cycle observed to see that the motor, relays, and other controls function as intended. Drive motors and gear reductions shall be inspected semiannually and lubricated when necessary.

History: 1954 ACS 100, p. 40, Eff. July 18, 1979.

R 29.1408 Fans and motors.

Rule 408. (1) A fan motor of an air-handling system shall be inspected at least quarterly. It shall be cleaned and lubricated as necessary. Care shall be exercised in lubricating a fan to avoid allowing oil to run onto the fan blades. A fan shall be checked for alignment and to insure that it runs freely.

(2) Automatic fan controls shall be inspected annually.

History: 1954 ACS 100, p. 40, Eff. July 18, 1979.

R 29.1409 Fire doors and fire dampers.

Rule 409. (1) Fire doors and fire dampers shall be examined annually, and attention shall be given to hinges and other moving parts to assure good operable condition.

(2) A fire damper which is actuated by heat shall be replaced in service by replacing the fusible link, and no other method of fastening the fire damper in an open position shall be employed.

History: 1954 ACS 100, p. 40, Eff. July 18, 1979.

R 29.1410 Smoke detection devices.

Rule 410. A smoke detection device located on a smoke partition door or in an air-handling unit, duct, or plenum shall be cleaned when the duct or plenum is

cleaned. All smoke detection devices shall be cleaned and maintained by trained, competent personnel in compliance with the manufacturer's recommendation.

History: 1954 ACS 100, p. 40, Eff. July 18, 1979.

R 29.1411 Sprinkler systems.

Rule 411. (1) A broken pipe hanger on a sprinkler system shall be promptly replaced, and a loose hanger shall be refastened.

(2) Stockpiling, racks, and other obstructions to a sprinkler pattern shall be maintained not less than 18 inches below sprinklers.

(3) A supply of extra sprinklers and a sprinkler wrench shall be kept in a cabinet provided for that purpose.

(4) Piping shall not be used for support of stock or other material, including other service piping and equipment.

(5) A wet piping system, or part of a system, shall not be exposed to freezing temperatures.

(6) If a system is shut off for repairs or other reason, notification shall be given to all personnel and the local fire department. The system shall be replaced in service as soon as possible.

(7) A sprinkler head shall not be painted, and, if inadvertently painted, shall be immediately replaced.

(8) Automatic sprinklers in service without alteration or addition since prior to the effective date of these rules shall be in compliance with R 29.1287, except that R 29.1287(3) shall not apply.

(9) A sprinkler water supply shall comply with R 29.1288, except that R 29.1288 shall not apply unless the inspecting authority demands an updating to correct a questionable condition.

History: 1954 ACS 100, p. 40, Eff. July 18, 1979.

R 29.1412 Sprinkler system weekly inspections.

Rule 412. A weekly inspection shall be made of the following items to insure that a sprinkler is always ready for operation. A record of these inspections shall be maintained for 1 year.

(a) For wet and dry pipe systems:

(i) That any post indicator valve is open.

(ii) That any outside screw and yoke valve is open.

(iii) That water pressure gauges show normal pressures.

(b) For dry pipe systems: That air pressure gauges show normal pressures.

(c) For pressure tank supplied systems (gauge cocks shall remain closed unless a test of water level is being made):

(i) That water level is being maintained at the proper level.

(ii) That items of subdivisions (a) and (b) are checked.

(d) For fire department connections:

(i) That caps are in place, since an open pipe could permit introduction of foreign material into the system.

(ii) That the ball drip is in working order.

(iii) That the check valve is not leaking.

History: 1954 ACS 100, p. 41, Eff. July 18, 1979.

R 29.1413 Sprinkler system quarterly flow tests.

Rule 413. A quarterly flow test shall be made of wet pipe systems by opening the inspector's valve. A quarterly test shall also be made at the drain valve to check water gauge pressures on the system side of the check valve. A record of

these tests shall be maintained for 1 year. A test shall not be run on a system connected directly to the fire department or central station without first advising that fire department or central station of the test. Proper training for building personnel shall be provided and may be obtained from a sprinkler contractor.

History: 1954 ACS 100, p. 41, Eff. July 18, 1979.

R 29.1414 Sprinkler system monthly and annual tests.

Rule 414. (1) A monthly test shall be made of the water flow alarm through the alarm test at the main valve for testing the relay of flow to the alarm system of the building. A record of these tests shall be maintained for 1 year. Proper training for building personnel shall be provided and may be obtained from a sprinkler contractor.

(2) A dry pipe valve shall be tripped, cleaned, and reset annually. This shall be done only by a qualified person who has been properly trained and who has adequate practical experience in dry pipe valves and sprinkler systems.

(3) A test shall not be run on a system that is connected directly to the fire department or central station without first advising that fire department or central station of the test.

History: 1954 ACS 100, p. 41, Eff. July 18, 1979.

R 29.1415 Standpipes.

Rule 415. (1) Standpipe valves shall be inspected weekly to assure they are always in open position, and a record of these inspections shall be maintained for 1 year.

(2) Fire department connections to a standpipe shall be checked weekly to assure caps are in place, that the ball drip is operative, and that the check valve is not leaking.

(3) Where first aid hose is connected to a standpipe, the valve shall be checked for leakage. Wet hose shall be removed and dried as a prevention against mildew and rot. Old, irreparable hose shall be replaced.

History: 1954 ACS 100, p. 41, Eff. July 18, 1979.

R 29.1416 Fire extinguishers; inspection, maintenance, and recharging.

Rule 416. (1) A fire extinguisher shall be inspected monthly. The inspection shall determine the following:

(a) The extinguisher shall be in its designated place.

(b) Access to, or visibility of, an extinguisher shall not be obstructed.

(c) The operating instructions on an extinguisher nameplate shall be legible and face outward.

(d) A seal or tamper indicator that is broken or missing shall be replaced.

(e) For a water-type without a gauge, fullness shall be determined by hefting.

(f) Any obvious physical damage, corrosion, leakage, or a clogged nozzle shall be noted and the condition corrected or the extinguisher replaced.

(g) A pressure gauge reading, when not in the operable range, shall be noted and the condition corrected.

(h) The date the inspection was performed and the initials of the person performing the inspection shall be recorded, and a record of these inspections shall be maintained for 1 year.

(2) Annually, a fire extinguisher shall be thoroughly checked by examination of all parts to determine that the extinguisher will operate effectively and safely. The necessary repair or parts replacement shall be made and recorded in compliance with subrules (1)(h) and (7).

(3) Stored pressure extinguishers equipped with pressure indicators or gauges are not required to be maintained at annual intervals.

(4) Every 6 years, a stored pressure, dry chemical extinguisher that requires a 12-year hydrostatic test shall be emptied, recharged, and thoroughly checked by examination of all parts to determine that extinguishers will operate effectively and safely. The necessary repair or parts replacement shall be made and recorded in compliance with subrules (1)(h) and (7).

(5) An extinguisher out of service for maintenance or recharge shall be replaced by a spare extinguisher having the same classification and at least equal rating.

(6) Procedures in compliance with subrules (2), (3), and (7) shall include a thorough examination of the 3 basic elements of an extinguisher: (a) the mechanical parts, (b) the extinguishing agent, and (c) the expelling means.

(7) An extinguisher shall have a tag or label securely attached that indicates the month and year the maintenance was performed, and shall identify the person performing the service.

(8) An extinguisher shall be recharged after use, or as indicated by an inspection, or when performing maintenance. When performing the recharging, the instructions on the nameplate shall be followed.

(9) Every 12 months, soda-acid, foam, pump-tank water, and pump-tank calcium chloride base antifreeze types of extinguishers shall be recharged with new chemicals or water, as applicable. The recharging shall be recorded in compliance with subrules (1)(h) and (7).

(10) The inspecting, servicing, and recharging shall be performed by trained persons having available the proper types of tools, recharge materials, lubricants, and replacement parts.

History: 1954 ACS 100, p. 41, Eff. July 18, 1979.

R 29.1417 Fire extinguisher hydrostatic tests.

Rule 417. A fire extinguisher shall be hydrostatically tested at intervals, as follows:

Extinguisher Type	Test Interval In Years
Soda-acid	5
Cartridge-operated water or antifreeze	5
Carbon dioxide	5
Stored-pressure water or antifreeze	5
Wetting agent	5
Foam	5
Loaded stream	5
Dry chemical, with stainless steel shell, or soldered-brass shell	5
Dry chemical, with braised-brass shell or mild steel shell	12
Dry powder, for metal fires	12

History: 1954 ACS 100, p. 42, Eff. July 18, 1979.

R 29.1418 Exit lights.

Rule 418. An exit light circuit sustaining an electrical outage shall be corrected as soon as possible. A burned-out bulb in an exit sign shall be replaced immediately.

History: 1954 ACS 100, p. 42, Eff. July 18, 1979.

R 29.1419 General housekeeping.

Rule 419. (1) A building shall be kept clean and free from accumulation of unnecessary combustible material.

(2) Necessary combustible items shall be kept in rooms designed and approved for storage, and in no other location.

(3) Oxygen, combustible gases, and flammable liquids shall not be stored with each other, nor with other ordinary combustible materials.

(4) Rubbish shall be disposed of as soon as possible after its collection.

(5) An easily ignited or rapidly burning combustible decoration shall not be permitted in a building.

History: 1954 ACS 100, p. 42, Eff. July 18, 1979.

R 29.1420 Emergency electrical supply.

Rule 420. An emergency electrical supply unit shall be tested monthly, under load for 30 minutes, and a record shall be maintained of each test by the administration of the facility for 1 year. The record shall be made available for review by fire safety inspection authorities.

History: 1954 ACS 100, p. 43, Eff. July 18, 1979.

R 29.1421 Electrical systems.

Rule 421. (1) When planning additional electrical equipment, lighting, or appliances, advice of persons competent in electrical matters shall be sought and followed.

(2) Fuses and circuit breakers shall not be sized in excess of the capacity of any component part of an electrical circuit.

History: 1954 ACS 100, p. 43, Eff. July 18, 1979.

R 29.1422 Kitchen exhaust systems.

Rule 422. (1) Filters shall be maintained in an efficient condition and kept clean.

(2) A kitchen ventilating hood shall not be required to be brought into compliance with R 29.1283(1), (3), and (4) unless the inspecting authority demands an updating to correct a questionable condition.

History: 1954 ACS 100, p. 43, Eff. July 18, 1979.

R 29.1423 Handling of gases.

Rule 423. (1) A cylinder shall not be connected for use until the user has positively identified the gas content by the label or stencil on the cylinder. If the cylinder is not identified by gas content marking, the user shall return the cylinder to the supplier without using it.

(2) A location used for the storage of gases in cylinders shall be provided with a chart identifying the various gases according to the colors employed. This chart shall be prominently displayed. A similar chart shall be prominently displayed in the vicinity of a pipeline used for the distribution of oxygen and nitrous oxide.

(3) A cylinder shall be properly fastened. Only a cylinder connected to approved apparatus for administration of gases shall be used, stored, or maintained in an anesthetizing location.

(4) A cylinder containing compressed gases, or a can containing a volatile liquid, shall be kept away from a radiator, steam pipe, and like sources of heat. A cylinder containing flammable gases and a can containing flammable liquids shall be kept out of proximity to a cylinder containing oxidizing gases through the use of a separate room. Combustible material, such as wood and fabric, except a cylinder shipping crate, shall not be stored or kept near a cylinder containing oxygen or nitrous oxide.

(5) Oil, grease, or readily combustible material shall not be permitted to come in contact with a gas cylinder, valve, regulator, gauge, or fitting.

(6) A regulator, fitting, or gauge shall not be lubricated with oil or other combustible substances.

(7) An oxygen cylinder or apparatus shall not be handled with oily hands, greasy gloves, or rags.

(8) Particles of dust and dirt shall always be cleared from the opening to a cylinder by slightly opening and closing the valve before applying a fitting to a cylinder.

(9) Anesthetic apparatus shall not be brought to a patient area or room without first opening the high pressure valve on the oxygen cylinder.

(10) Oxygen shall not be permitted to enter the regulator suddenly. A user shall open the valve slowly. When opening the valve, the face of the gauge or regulator shall be pointed away from the operator.

(11) An oxygen cylinder shall not be used as a hanger for material, such as a hospital gown, mask, cap, or similar item.

(12) A fitting, valve, regulator, or gauge designed for 1 particular gas shall not be used for another service.

(13) Gases shall not be mixed in an oxygen cylinder or other type of cylinder. This shall not preclude the use of gases which are premixed by the manufacturer.

(14) Oxygen shall not be used from a cylinder, except through a pressure-reducing regulator.

(15) A regulator which is in need of repair, or a cylinder having a valve which does not operate properly, shall not be used.

(16) Defective oxygen equipment shall not be repaired unless by a person properly qualified by knowledge and experience.

(17) A cylinder which is style "m" or larger shall be moved only by an appropriate dolly truck, with the cylinder properly capped and secured.

(18) Gas shall be in compliance with R 29.1280, except that subrules (1), (4), and (5) do not apply unless the inspecting authority demands an updating to correct a questionable condition.

History: 1954 ACS 100, p. 43, Eff. July 18, 1979.

R 29.1425 Cylinders for compressed gas.

Rule 425. (1) A cylinder containing compressed gas shall be constructed in compliance with those regulations of the department of transportation or the American society of mechanical engineers as are in effect on the date of manufacture.

(2) A cylinder containing compressed gas shall be clearly marked with the name of the gas contained therein. A small cylinder containing compressed gas, which is 4½ inches in diameter by 25 inches long, or smaller, shall also bear color markings to indicate the nature of the gas contained therein, which markings shall be applied to the shoulder of the cylinder so as to be clearly visible from above. The color marking shall be as follows:

Gas	Color Marking
Oxygen	Green
Carbon dioxide	Gray
Nitrous oxide	Light blue
Cyclopropane	Orange
Helium	Brown
Ethylene	Red
Carbon dioxide and oxygen	Gray and green
Helium and oxygen	Brown and green
Nitrogen	Yellow

(3) A cylinder having a highly polished surface to which paint will not adhere shall be marked by a label or a metallic tag of the proper color.

(4) A gas cylinder shall not be filled in a hospital or institution building.

History: 1954 ACS 100, p. 44, Eff. July 18, 1979.

R 29.1426 Casters.

Rule 426. A patient bed and supportive equipment necessary to sustain life shall be equipped with roller casters at floor contact. The casters shall be freewheeling and not less than 2 inches in diameter, except that these requirements shall not apply to a facility licensed solely for ambulatory patients.

History: 1954 ACS 100, p. 44, Eff. July 18, 1979.

R 29.1427 Electrostatic protection.

Rule 427. In order to provide electrostatic protection, flooring, furniture, covers and sheeting, rubber accessories, parts and tubing, belting, plastics, mechanical intercoupling, persons, testing, and maintenance shall be in compliance with national fire protection association pamphlet no. 56A, standard for the use of inhalation anesthetics, 1978. Weekly inspections to assure compliance are recommended. Monthly inspections, however, shall be required and a record shall be maintained for a period of 1 year.

History: 1954 ACS 100, p. 44, Eff. July 18, 1979.

R 29.1428 Transfer and handling of flammable liquids.

Rule 428. (1) The drawing off of flammable liquids from containers of more than 10 gallons shall be by means of a tight-fitting pump. The handling of flammable liquids in containers, other than as listed in R 29.1258, shall be in approved safety cans.

(2) Discharge of flammable liquids from a tank or a container by means of pneumatic pressure on the tank or container is prohibited.

(3) When a flammable liquid is transferred from 1 container or tank to another vessel, there shall be an effective connection between the vessels so as to prevent the accumulation of a static charge.

History: 1954 ACS 100, p. 44, Eff. July 18, 1979.

R 29.1429 Bulk oxygen system operating instructions and maintenance.

Rule 429. (1) For an installation which requires operation of equipment by the user, legible instructions shall be maintained at the operating location.

(2) A bulk oxygen system installed on a consumer's premises shall be periodically inspected and maintained by a qualified representative of the oxygen supplier.

(3) Weeds and long, dry grass shall be cut back within 15 feet of a bulk oxygen storage container.

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1430 Training program.

Rule 430. A hospital or institution shall formulate a training program for instruction of staff and employees in the use of first aid fire fighting equipment.

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1431 Smoking.

Rule 431. (1) Smoking shall not be permitted in a hazardous room, or in a room, ward, or compartment where oxygen is used or stored. The room shall be posted with a sign which states: NO SMOKING—DANGEROUS GASES IN USE.

(2) Smoking by a patient who cannot be considered responsible for his own safety or that of others shall be permitted only by the patient's doctor, and then only if a responsible nonpatient adult is present in the room.

(3) Smoking shall be permitted where ash trays of noncombustible material are provided, unless prohibited by subrules (2) and (3).

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1432 Nursing home staffing.

Rule 432. A nursing home shall have staffing in compliance with the requirements of the department of public health.

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1433 Homes for the aged; attendants.

Rule 433. (1) A home for the aged of fire-resistant construction, or a home of nonfire-resistant construction, protected by an approved automatic detection system or an approved automatic sprinkler system, shall maintain the following ratios of resident capacity to attendants:

(a) Nineteen to 100—2 attendants, awake and fully dressed.

(b) One hundred one to 180—3 attendants, awake and fully dressed.

(c) One hundred eighty-one to 260—4 attendants, awake and fully dressed.

(d) For each additional 80 residents, 1 additional attendant, awake and fully dressed.

(2) Security chart keyed clocks shall be used with numerically numbered key stations installed throughout the corridor system of the building, with a minimum of 2 key stations located 1 at each end of every corridor.

(3) Security rounds shall be key recorded on the charts at least once each hour in each location between the hours of 11:00 p.m. and 7:00 a.m. The facility administration shall keep the key recorded charts on file for 1 year and make them available for review by fire safety inspection authorities.

(4) An attendant as herein required shall be physically and mentally capable of performing the required duties of evacuation. No person, other than the management or an employee of the management, shall be considered as an attendant.

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1434 Evacuation plan.

Rule 434. (1) An approved plan for the protection of patients and residents in the event of fire, and their evacuation from the building or removal to a prescribed area of refuge, shall be formulated by the management of the facility.

(2) Where, in the opinion of the state fire marshal, the fire department serving the facility is unable to provide a desirable level of assistance, additional attendants above those required in R 29.1433, up to double the requirements, may be called for. The plan shall be posted in places conspicuous to personnel and staff. Employees shall be instructed and kept informed regarding their duties under this plan.

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1435 Aids for fire department service.

Rule 435. (1) Driveways shall be maintained free of obstructions to a building for fire department apparatus use and as required by local fire authorities.

(2) A copy of the plans of a building shall be submitted to the local fire department officials upon their request to enable them to become familiar with the floor plan of a building.

(3) Proper identification shall be placed on the outside of the main building, showing the location of a siamese connection and a standpipe as required by the local fire department.

History: 1954 ACS 100, p. 45, Eff. July 18, 1979.

R 29.1436 Waste containers.

Rule 436. All waste baskets or receptacles shall be constructed of noncombustible material, and, when they exceed a capacity of 2 cubic feet or 15 gallons, shall be equipped with a noncombustible cover.

History: 1954 ACS 100, p. 46, Eff. July 18, 1979.

R 29.1438 Rubbish handling and incinerators.

Rule 438. (1) In an existing hospital or institution, rubbish handling and an incinerator shall not be required to be brought to compliance with R 29.1240 unless the inspecting authority demands an updating to correct a questionable condition.

(2) In an existing hospital or institution a rubbish chute or refuse room shall not be required to be brought to compliance with R 29.1240(4) unless the inspecting authority demands an updating to correct a questionable condition.

History: 1954 ACS 100, p. 46, Eff. July 18, 1979.

R 29.1440 Abatement of fire hazards.

Rule 440. Nothing in these rules shall prevent the ordering of the abatement of a fire hazard not specifically mentioned in these rules.

History: 1954 ACS 100, p. 46, Eff. July 18, 1979.

R 29.1441 Fire; report required.

Rule 441. It shall be the responsibility of the administrative authority of every licensed health care facility, after the occurrence of a fire resulting in loss of life or property, to immediately notify the local fire department of all details of the fire.

History: 1954 ACS 100, p. 46, Eff. July 18, 1979.

EMERGENCY SERVICES DIVISION

STATE ASSISTANCE TO LOCAL POLITICAL SUBDIVISIONS

(By authority conferred on the department of state police by section 19 of Act No. 390 of the Public Acts of 1976, being §30.419 of the Michigan Compiled Laws)

R 30.1 Definitions.

Rule 1. As used in these rules:

(a) "Applicant" means a political subdivision of the state submitting an application for a grant under section 19 of Act No. 390 of the Public Acts of 1976, being §30.419 of the Michigan Compiled Laws.

(b) "Applicant's agent" means a person authorized by the governing body of a political subdivision of the state to act on behalf of the political subdivision in applying for grants under section 19 of Act No. 390 of the Public Acts of 1976.

(c) "Capital outlay expenditures" means depreciable equipment which costs more than $100.00 and has a life expectancy of 1 year or more.

(d) "County or local coordinator" means a person appointed pursuant to section 9 of Act No. 390 of the Public Acts of 1976 to coordinate emergency planning and services within a county or municipality. In the absence of an appointed person, "county or local coordinator" means the chairman of the county board of commissioners or the chief executive officer of a municipality. "County or local coordinator" includes a civil defense director, civil defense coordinator, emergency services coordinator, or any officer who administers federal and state disaster preparedness and assistance programs at the county or municipal level.

(e) "Department" means the Michigan department of state police.

(f) "Director" means the director of the Michigan department of state police or his authorized representative.

(g) "Disaster" means an occurrence or imminent threat of widespread severe damage, injury, or loss of life or property resulting from a natural or manmade cause, including fire, flood, snow, ice, windstorm, wave action, oil spill, water contamination requiring emergency action to avert danger or damage, utility failure, hazardous peacetime radiological incident, major transportation accident, epidemic, air contamination, blight, drought, infestation, explosion, or hostile military or paramilitary action. Riots and other civil disorders are not within the meaning of this term unless they directly result from, and are an aggravating element of, the disaster.

(h) "District coordinator" means the state police emergency services division district coordinator or other authorized representative so designated by the state police district commander.

(i) "Emergency services division" means the emergency services division of the Michigan department of state police.

(j) "Local emergency preparedness plan" means the emergency preparedness plan, including annexes, developed and maintained by the local political subdivision according to standards established by the emergency services division, department of state police.

(k) "Local governing body" means the county board of commissioners or, in case of a municipality, the city council, village council, or township board.

(l) "Municipality" means a city, village, or township.

(m) "Section 19" means section 19 of Act No. 390 of the Public Acts of 1976, being §30.419 of the Michigan Compiled Laws.

History: 1954 ACS 97, p. 5, Eff. Oct. 18, 1978.

R 30.2 Eligibility.

Rule 2. An eligible applicant is a county or a political subdivision within a county which actively maintains a county emergency preparedness plan, with annexes, which has been reviewed and determined to be current and adequate by the department of state police prior to the disaster for which assistance is being

requested. If the applicant is a municipality with a population of 10,000 or more, or any other population figure that shall be established by statute during the life of these rules, the same requirement shall apply. A municipality with a population of less than 10,000, or any other population figure that shall be established by statute during the life of these rules, is eligible if identified as being included in a county emergency preparedness plan.

History: 1954 ACS 97, p. 6, Eff. Oct. 18, 1978.

R 30.3 Application assistance.

Rule 3. Responsibility for providing information, advice, and assistance to a local government making application for assistance under Act No. 390 of the Public Acts of 1976 rests with the director of the department of state police or his designee.

History: 1954 ACS 97, p. 6, Eff. Oct. 18, 1978.

R 30.4 Standards for applicant and assistance eligibility.

Rule 4. An applicant for state assistance under section 19 shall meet all of the following standards for applicant and assistance eligibility:

(a) Exhaustion of local effort (extraordinary burden) standard A: During the period of disaster, an extraordinary burden shall have been experienced by the applicant if the applicant's local departments or agencies, which were activated for the disaster in accordance with the local emergency preparedness plan, incurred expenses of not less than 140% of the normal budgeted operating funds over a consecutive 5-day period.

(b) Exhaustion of local effort (extraordinary burden) standard B: If the applicant has a disaster contingency fund set up to cover disaster expenses and the fund is exhausted during the state of disaster for which assistance is being requested, the requirements of subdivision (a) do not have to be fulfilled.

(c) County plan standard: If an applicant is a county, the local emergency preparedness plan and annexes shall incorporate the disaster relief forces of applicable county agencies and those of the municipalities within the county that have populations less than 10,000, or any other population figure that shall be established by statute during the life of these rules. The local emergency preparedness plan shall be considered official upon bearing the signature of the chairman of the county board of commissioners.

(d) Municipal plan standard A: If the applicant is a municipality with a population of 10,000 or more, or any other population figure that shall be established by statute during the life of these rules, with an appointed local coordinator in accordance with section 9 of Act No. 390 of the Public Acts of 1976, the local emergency preparedness plan and annexes shall incorporate the applicable disaster relief forces of the municipality. The local emergency preparedness plan shall be considered official upon bearing the signature of the chief executive of the municipality.

(e) Municipal plan standard B: If the applicant is a municipality with a population of 10,000 or more, or any other population figure that shall be established by statute during the life of these rules, with or without a local coordinator appointed in accordance with section 9 of Act No. 390 of the Public Acts of 1976, the municipality shall be considered as having a municipal emergency preparedness plan for the purpose of section 19, if the municipality has either a separate plan designed to be in support of the county plan or the municipal disaster relief forces are included in the county plan. Under either alternative, the plan title shall incorporate the name of the municipality and the

plan shall be considered official upon bearing the signatures of both the chairman of the board of commissioners and the chief executive of the municipality.

(f) Current plan standard: The applicant's local emergency preparedness plan and annexes shall be on file with the emergency services division and the plan and annexes shall not contain receipt dates older than 2 years before the state of disaster declaration for which assistance is being requested.

(g) Adequate plan standard: The applicant's local emergency preparedness plan and annexes shall be reviewed by the emergency services division and determined to be adequate upon meeting all applicable functional requirements contained in emergency services division form ES-18 entitled, worksheet for analyzing local emergency preparedness plans.

(h) Plan implementation standard: The applicant's local emergency preparedness plan shall have been implemented in a timely manner at the beginning of the disaster. Evidence of the plan implementation shall be in the message format contained on page 32, disaster handbook no. C2, damage assessment, July, 1977, published by the emergency services division.

(i) Reimbursement standard: Reimbursement to the applicant under section 19 shall only be claimed for the following: Overtime for police, fire, public works, county road commission, rescue squads, or related emergency agencies; contracts with other jurisdictions over and above normal contracts; shelter supplies used during disaster; fuel for equipment used; repair costs for equipment damaged as a result of use during the disaster or equipment repaired so that it can be utilized for the disaster; necessary costs for volunteers; costs to repair public buildings or facilities damaged during the disaster; salaries of additional employees hired for the disaster period; or for other needs required specifically for the mitigation of the effects of, or in response to, the disaster. Reimbursement shall not be claimed for the following: Normal or day-to-day expenses during the disaster period; any costs which are reimbursed in whole or in part by a federal or state agency; any capital outlay expenditure; and any other expense not specifically required for the mitigation of the effects of, or in response to, the disaster.

(j) Substantiation of claims standard: The applicant shall make available, upon request of a damage survey team established by the emergency services division, any applicable financial records, including, but not limited to, purchase orders, invoices, checks, vouchers, requisitions, repair estimates, repair bills, and other documents which will substantiate the damages claimed.

(k) Damage assessment standard: The applicant shall employ the damage assessment procedure contained in pages 3 to 12 and pages 32 to 42 of disaster handbook no. C2, damage assessment, July, 1977, as published by the emergency services division.

History: 1954 ACS 97, p. 6, Eff. Oct. 18, 1978.

R 30.5 Assistance grant; maximum amount.

Rule 5. Assistance grants under this program shall not exceed $20,000.00 or 10% of the total annual operating budget for the preceding fiscal year of the political subdivision, whichever is less. Duplicate financial assistance is prohibited.

History: 1954 ACS 97, p. 7, Eff. Oct. 18, 1978.

R 30.6 Resolution; acceptance; conditions.

Rule 6. Before a resolution prescribed by section 19 is accepted, the governor shall have declared a state of disaster and it shall have been determined that federal assistance is not available. When these conditions are met, local political

subdivisions shall receive notification from the district coordinator through the county or local coordinator.

History: 1954 ACS 97, p. 7, Eff. Oct. 18, 1978.

R 30.7 Resolution; adoption; format; application form.

Rule 7. Upon notification that federal assistance is not available, the governing body of the local political subdivision shall apply for an assistance grant by adopting a resolution and completing application form ES-19, which shall be furnished by the department. The resolution shall certify the following: That the local emergency preparedness plan was implemented in a timely manner at the beginning of the disaster, the purpose for which assistance is requested, an explanation of the extent of damage sustained based on procedures established by the emergency services division, and that local disaster efforts were exhausted. The resolution shall follow the following format:

WHEREAS (local political subdivision), Michigan is a political subdivision within the State of Michigan with an official emergency preparedness plan in compliance with section 19 of the emergency preparedness act, Act 390, Public Acts of 1976.

WHEREAS (local political subdivision), sustained severe losses of major proportions brought on by the (describe type of disaster; i.e., tornado, flood, explosion, etc.) resulting in the following conditions: (describe in brief, general terms).

WHEREAS the (local political subdivision) certifies that the (name of county—required only if population is less than 10,000, or any other population figure that shall be established by statute during the life of these rules) emergency preparedness plan was implemented at the onset of the disaster at (time/date plan implemented) and all applicable disaster relief forces identified therein were exhausted.

WHEREAS, as a direct result of the disaster, public damage and expenditures were extraordinary and place an unreasonably great financial burden on (local political subdivision) totaling (dollar value of public damage and expenditures).

NOW, THEREFORE BE IT RESOLVED THAT (name of governing body of the political subdivision) requests the Governor authorize a grant to the (local political subdivision) from the state disaster contingency fund pursuant to section 19, Act 390, Public Acts of 1976,

FURTHERMORE (name of applicant's agent) is authorized to execute for and in behalf of (local political subdivision) the application for financial assistance and to provide to the state any information required for that purpose.

Action taken and incorporated in the

R 30.9 Application; administration; agent.

Rule 9. The local governing body shall appoint an agent to act on behalf of the local political subdivision in the administration of the application.

History: 1954 ACS 97, p. 8, Eff. Oct. 18, 1978.

R 30.10 Application; transmittal by district coordinator to director.

Rule 10. An application deemed to be complete by the district coordinator shall be forwarded to the director or his authorized representative.

History: 1954 ACS 97, p. 8, Eff. Oct. 18, 1978.

R 30.11 Application; review by emergency services division.

Rule 11. An application received by the director shall be reviewed by the emergency services division to:

(a) Determine whether the applicant is a local political subdivision.

(b) Verify that the applicant's emergency preparedness plan was current and adequate prior to the disaster.

(c) Determine if damage estimates submitted by the applicant are based on standard procedures recommended by the emergency services division.

(d) Verify disaster damages and expenses claimed by the applicant. Damage survey teams shall be established by the emergency services division for this purpose based upon the requirements of the disaster. The initial contact point for a damage survey team shall be the applicant's agent. The applicant's agent shall present the damage survey team with documentation of disaster damages and expenses upon request.

History: 1954 ACS 97, p. 8, Eff. Oct. 18, 1978.

R 30.12 Application; transmittal to governor.

Rule 12. Upon completion of eligibility checks and damage surveys, the application shall be forwarded to the governor with a recommendation from the director.

History: 1954 ACS 97, p. 8, Eff. Oct. 18, 1978.

R 30.13 Action by governor.

Rule 13. Each request shall be acted on by the governor.

History: 1954 ACS 97, p. 8, Eff. Oct. 18, 1978.

R 30.14 Approved application; transmittal by governor to director.

Rule 14. An application approved by the governor shall be forwarded to the director.

History: 1954 ACS 97, p. 8, Eff. Oct. 18, 1978.

R 30.15 Application; identification and account number; fund verification.

Rule 15. Each application shall be assigned an identification and account number by the director and forwarded to the department of management and budget for fund verification.

History: 1954 ACS 97, p. 9, Eff. Oct. 18, 1978.

R 30.16 Grant; check.

Rule 16. The department of treasury shall print, issue, and mail a check for the approved grant amount to the applicant's agent.

History: 1954 ACS 97, p. 9, Eff. Oct. 18, 1978.

DEPARTMENT OF MILITARY AFFAIRS

OFFICE OF ADJUTANT GENERAL

RENTAL OF ARMORIES AND GROUNDS

(By authority conferred on the adjutant general by sections 107, 336, and 354 of Act No. 150 of the Public Acts of 1967, being §§32.507, 32.736, and 32.754 of the Michigan Compiled Laws)

R 32.1 Eligibility.

Rule 1. (1) The department of military affairs may grant the use of armory buildings or grounds or both to the following groups:

(a) War veterans organizations.

(b) Government agencies.

(c) Military units of the Michigan national guard.

(d) Private organizations, both profit and nonprofit.

(e) Private individuals.

(2) Facilities shall not be rented if the proposed rental period would conflict with scheduled training periods or other national guard functions.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969.

R 32.2 Long-term rentals.

Rule 2. Rentals of 15 or more consecutive or nonconsecutive days shall be advertised for bids when there are 2 or more parties interested in the same period of time. The highest bidder shall be awarded the use of the facility as described if he meets all other requirements.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969.

R 32.3 Rentals and security deposits.

Rule 3. (1) Rental charges where applicable for use of the facilities shall be established and periodically reviewed by the department of military affairs.

(2) A lessee shall forfeit all advance rentals if the agreement is cancelled within 30 days of the rental, except that the department comptroller may authorize return of an advance rental if the events leading to the cancellation were beyond the control of the lessee.

(3) Security deposits against damage to the facilities may be required when, in the opinion of the department, the type of rental warrants such a deposit.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969; 1954 ACS 92, p. 5, Eff. Aug. 31, 1977.

R 32.4 Concession rights and parking.

Rule 4. The department of military affairs shall retain all concession rights unless specifically granted to the lessee. The use of parking areas shall remain the exclusive domain of the department unless specifically granted to the lessee.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969.

R 32.5 Compliance with law, ordinances, and rules; use of liquor.

Rule 5. (1) A lessee shall comply with all the laws of the state of Michigan and the pertinent ordinances of any city in which the facilities are located.

(2) Alcoholic beverages may be served or used by a lessee in accordance with the published directives of the adjutant general and within the rules of the Michigan liquor control commission and local ordinances.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969.

R 32.6 Subletting of premises.

Rule 6. A lessee shall not sublet any part of the facilities without prior written consent of the lessor.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969.

R 32.7 Structural changes and housekeeping.

Rule 7. (1) A lessee shall discuss with and secure approval of the department of military affairs representative before any electrical wiring, decorations and partitions or other structural changes are made in any rented building or grounds or both.

(2) A lessee, upon termination of occupancy, shall clean the facilities and dispose of all refuse and other material resulting from the use of the facilities unless other provisions are made with the lessor.

History: 1954 ACS 57, p. 5, Eff. Feb. 14, 1969.

DEPARTMENT ORGANIZATION AND GENERAL FUNCTIONS

(By authority conferred on the department of military affairs by sections 33 and 63 of Act No. 306 of the Public Acts of 1969, being §§24.233 and 24.263 of the Michigan Compiled Laws)

PART 1. OFFICE OF THE ADJUTANT GENERAL AND DIRECTOR

R 32.11 Director; adjutant general; office of the director; authority; staff.

Rule 1. The chief executive in the department of military affairs is the director, who also serves as adjutant general. Appointed by, and serving at the pleasure of, the governor, the adjutant general is also the commanding general of the Michigan national guard. The office of the director is the hub of policymaking for the department and maintains offices in Lansing. His office affects the overall department and derives its authority from the constitution, Act No. 380 of the Public Acts of 1965, as amended, being §§16.225 to 16.228 of the Michigan Compiled Laws, popularly referred to as the executive organization act of 1965, and other laws assigned specifically to the adjutant general or director for administration. The director has a small staff to which is assigned specific responsibilities in program areas that are vital to his responsibility as the chief officer. The director and the various component divisions within the department of military affairs cooperate with all state and local agencies in the implementation of their assigned responsibilities and, more specifically, with the department of state police in rendering military support to civil authority in time of emergency under order of the governor.

History: 1954 ACS 93, p. 13, Eff. Dec. 13, 1977.

R 32.12 State military board.

Rule 2. The state military board, created by Act No. 150 of the Public Acts of 1967, being §§32.760 to 32.790 of the Michigan Compiled Laws, consists of 5 persons appointed by the governor who are responsible for holding title to military lands and acting on associated real property matters. Title to the Hanson military reservation at Camp Grayling, Michigan, is vested in this board.

History: 1954 ACS 93, p. 13, Eff. Dec. 13, 1977.

R 32.13 Request for promulgation of a rule.

Rule 3. A person requesting the department of military affairs, or a division thereof, to promulgate a rule shall do so by filing a written request in the office of the director. In addition to the content specifically directed toward rule promulgation, the request shall include the signature and address of the person making the request. After receipt of a correctly filed request, the department shall, within 90 days, initiate the processing of a rule or issue a concise written statement of its principal reasons for denial of the request, which shall be sent by certified mail to the person who made the request.

History: 1954 ACS 93, p. 14, Eff. Dec. 13, 1977.

R 32.14 Request for declaratory ruling.

Rule 4. An interested person requesting a declaratory ruling as to the applicability to an actual state of facts of a statute, rule, or order administered or issued by the department of military affairs shall do so by filing a written request in the office of the director. In addition to the content specifically directed toward the declaratory ruling, the request shall include the signature and address of the person making the request. After receipt of a correctly filed request, the department shall, within 30 days, notify the person who made the request by certified mail whether a declaratory ruling shall be issued, and if it is to be issued, the nature and details thereof.

History: 1954 ACS 93, p. 14, Eff. Dec. 13, 1977.

R 32.16 Military justice.

Rule 6. Military justice for persons in the Michigan national guard, but not in the service of the United States, and for persons in the Michigan defense force, when it is in existence, shall be dispensed pursuant to Act No. 297 of the Public Acts of 1957.

History: 1954 ACS 93, p. 14, Eff. Dec. 13, 1977.

PART 2. ARMY NATIONAL GUARD DIVISION

R 32.21 Staff functions, sections, and programs.

Rule 21. The army national guard (ARNG) division performs the major staff functions incident to its administration of those activities primarily directed toward army national guard readiness. The division plans, directs, supervises, and coordinates the army national guard programs in this state. The division chief executive has a dual title of deputy director and assistant adjutant general for army. The sections and programs within the division are as follows:

(a) Commanding general and chief of staff.
(b) Army technician program.
(c) Federal equipment maintenance.
(d) Army aviation support facility.
(e) Armory post commanders.
(f) Training sites.

History: 1954 ACS 93, p. 14, Eff. Dec. 13, 1977.

R 32.22 Chief of staff section; functions, programs, and activities.

Rule 22. The chief of staff section reviews, evaluates, and recommends changes in programs, plans, policies, and operating procedures of the Michigan army national guard. The section facilitates the active army annual general inspection program of Michigan units and coordinates the state army national

guard command inspection program. The major staff functions, programs, and activities under the purview of the chief of staff are as follows:

(a) The army national guard personnel section, which fulfills the personnel needs of the Michigan army national guard under provisions outlined in federal and state national guard regulations.

(b) The plans, operations, training, and military support to civil authority section, whose major areas of endeavor include the functional areas of training plans and performance evaluation; facilitating national guard bureau directives regarding organization, reorganization, and mobilization; program measures involving physical security of armories and training sites; and coordinating the planning and execution of military support to civil authority.

(c) The Michigan military academy, which administers the state officer candidate, noncommissioned officer candidate, and selected leadership programs.

(d) All Michigan army national guard units are subordinate to the army division and report to and through successively higher headquarters to the command element serviced by the chief of staff section.

History: 1954 ACS 93, p. 14, Eff. Dec. 13, 1977.

R 32.23 Army technician program.

Rule 23. The army national guard division is responsible for coordinating the army technician program administered and influenced by the technician personnel office for full-time department of military affairs' army division federal employees.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.24 State maintenance office.

Rule 24. The state maintenance office is responsible for administering a continuing maintenance program for surface equipment issued to the Michigan army national guard. Headquartered in Lansing, the state maintenance office utilizes a central facility for major and specialized maintenance and a number of organizational maintenance shops dispersed throughout the state for the performance of routine and scheduled service.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.25 Army aviation support facility.

Rule 25. The army aviation support facility, focal point of the army division's national guard flight program, exercises primary supervision over the major aviation activities of flight operations, safety, and maintenance.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.26 Armory post commander.

Rule 26. All armories have a post commander appointed to insure that the facility is managed and maintained according to prescribed standards.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.27 Training sites.

Rule 27. Training sites exist to provide training and logistical support required by military forces during weekend and annual training periods.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

PART 3. AIR NATIONAL GUARD DIVISION

R 32.31 Staff functions, sections, facilities, and programs.

Rule 31. The air national guard (ANG) division directs the major staff functions incident to its administration of those activities and facilities directed to or facilitating Michigan air national guard readiness. The division is responsible for planning, directing, coordinating, and supervising state air national guard programs. The division chief executive carries a multiple title of deputy director, assistant adjutant general for air, and commanding general of Michigan air national guard headquarters. All Michigan air national guard units are subordinate to the air division and report to and through successively higher headquarters to the air division command element. The principal sections, facilities, and programs under division jurisdiction are as follows:

(a) Air (ANG) personnel.
(b) Air technician program.
(c) Operations and training.
(d) Air bases and training sites.
(e) Internal audit.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.32 Personnel section.

Rule 32. The ANG personnel section fulfills the personnel needs of the Michigan air national guard under provisions outlined in federal and state military regulations and directives.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.33 Air technician program.

Rule 33. The air national guard division is responsible for coordinating the air technician program administered and influenced by the technician personnel office for full-time department of military affairs' air division federal employees.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.34 Operations and training.

Rule 34. The operations and training element of the air division facilitates national guard bureau directives regarding organization, reorganization, and mobilization; effects training guidance and performance evaluation; and maintains liaison with the several major Michigan air national guard command headquarters.

History: 1954 ACS 93, p. 15, Eff. Dec. 13, 1977.

R 32.35 Installations.

Rule 35. There are 3 major air national guard installations in Michigan:

(a) Selfridge air national guard base, located near Mt. Clemens, and Battle Creek air national guard base are the home stations for the major Michigan air national guard units. Both facilities, in conjunction with tenant units, are capable of providing necessary administration, supply, maintenance, medical, and mission support functions.

(b) Phelps Collins air national guard base in Alpena is operated and maintained for annual training encampments, deployment exercises, gunnery exercises, and combat maneuvering.

History: 1954 ACS 93, p. 16, Eff. Dec. 13, 1977.

R 32.36 Internal audit services.

Rule 36. Internal audit services are performed for the department of military affairs under the direction of a deputy director. Auditing efforts are directed toward accountability and departmental compliance with prescribed policies, rules, regulations, procedures, and statutes concerning the expenditure and disposition of state funds.

History: 1954 ACS 93, p. 16, Eff. Dec. 13, 1977.

PART 4. COMPTROLLER DIVISION

R 32.41 Staff functions and sections.

Rule 41. The comptroller division performs the major staff functions incident to obtaining, administratively controlling, and accounting for state funds needed to provide resources for the department and assists in the overall management of people, materiel, resources, and facilities. The primary sections within the comptroller division are as follows:

(a) Administrative services.
(b) Engineering and facilities.
(c) Fiscal and procurement.
(d) Management services.

History: 1954 ACS 93, p. 16, Eff. Dec. 13, 1977.

R 32.42 Administrative services section.

Rule 42. The administrative services section has primary responsibility in the functional areas of office management, state personnel, state payroll, property accounting, and the transportation work unit. Administration and information regarding Michigan military service bonus programs for world war I, world war II, Korean conflict, and the Vietnam era are coordinated by, or provided through, this section. The section fulfills the personnel needs of the department of military affairs and works with the department of civil service on personnel matters and the department of management and budget to effect payroll transactions. The section administers a logistics management program for the receipt, warehousing, and distribution of all state supplies, materials, and equipment as well as operating a departmental motor pool of state-owned vehicles. Additional office services include central stock and mailroom. The section maintains offices in Lansing.

History: 1954 ACS 93, p. 16, Eff. Dec. 13, 1977.

R 32.43 Engineering and facilities section.

Rule 43. The engineering and facilities section provides technical support to the department of military affairs and the installations under its control. Programming, planning, construction, supervision, inspection, and overall management of the construction, remodeling and additions, and maintenance programs are provided for by this section for both army and air national guard facilities. The section develops construction and maintenance programs and prepares budget requests for both federal and state funds based upon these programs. The section is responsible for the acquisition of real property for new armories, the licensing of federal property, and the rental or leasing of property for armories and vehicle storage. The section works with the department of management and budget on matters concerning state-owned facilities, and with the national guard bureau and other federal agencies on matters concerning federal projects. The engineering and facilities section has an internal work unit responsible for the review, processing, and action on all reports of survey for lost or destroyed United

States army, air force, and state of Michigan property. The work unit also investigates all department accidents or reportable incidents and advises the adjutant general regarding their disposition. The engineering and facilities section maintains offices in Lansing.

History: 1954 ACS 93, p. 16, Eff. Dec. 13, 1977.

R 32.44 Fiscal and procurement section.

Rule 44. The fiscal and procurement section's primary responsibility is to provide financial control of expenditures through its administrative and cost accounting program. The section consists of 3 work units: budget and accounting, revenue, and purchasing. The budget and accounting and revenue units are responsible for accounting, recording, and reporting on the status of funds within the department. The purchasing unit is responsible for purchasing or contracting for all supplies, materials, services, and equipment needed in the maintenance and operation of all state-supported department of military affairs facilities. The fiscal and procurement section maintains close liaison with the department of management and budget and legislative agencies, and is the principal coordinating staff section regarding departmental budget preparation. The section maintains offices in Lansing.

History: 1954 ACS 93, p. 17, Eff. Dec. 13, 1977.

R 32.45 Management services section.

Rule 45. The management services section provides staff services and performs project support functions which are deemed external to established major staff section responsibilities.

History: 1954 ACS 93, p. 17, Eff. Dec. 13, 1977.

PART 5. UNITED STATES PROPERTY AND FISCAL OFFICER

R 32.51 United States property and fiscal officer.

Rule 51. The United States property and fiscal officer is responsible for equipping, supplying, and maintaining national guard units in Michigan in behalf of the federal government. His offices in Lansing perform the major staff functions incident to obtaining, administratively controlling, and accounting for federal funds and materiel directed toward servicing state national guard units.

History: 1954 ACS 93, p. 17, Eff. Dec. 13, 1977.

PART 6. MICHIGAN DEFENSE FORCE

R 32.61 Michigan defense force.

Rule 61. If the president calls or orders all or part of the national guard into federal service in time of a national emergency, or if it appears that the national guard may be called into federal service, the governor, as commander-in-chief, may organize within the state military establishment such number of army and air force units as he deems necessary for the adequate protection of the state. These units, known as the Michigan defense force, shall protect the state in case of insurrection, invasion, disaster, or other emergency, actual or imminent. The Michigan defense force shall be governed by rules and regulations similar to those governing the national guard.

History: 1954 ACS 93, p. 17, Eff. Dec. 13, 1977.

DEPARTMENT OF MANAGEMENT AND BUDGET

VETERANS' TRUST FUND BOARD OF TRUSTEES

PROCEDURE FOR APPEALS AND HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, and section 4(c) of Act No. 9 of the Public Acts of the First Extra Session of 1946, being §§24.101 et seq. and 35.601 et seq. of the Michigan Compiled Laws)

R 35.1 Appeal; hearing.

Rule 1. When a veteran advises a county committee that he considers himself aggrieved at their decision and desires to appeal to the board of trustees, he shall be advised by the county committee at the time of filing his appeal that he may appear before the board for a hearing in person or by duly authorized representative, at his own expense.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

R 35.2 Request to appeal.

Rule 2. The request to appeal shall be made in writing to the board of trustees within 10 days after receipt of the decision of the county committee, either directly to the board or through the county committee, and shall contain an accurate statement of the facts pertaining to his application, together with a statement as to whether or not a personal hearing is desired.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

R 35.3 Submission of new evidence.

Rule 3. Upon receipt of appeal, the executive secretary of the Michigan veterans' trust fund board of trustees shall request the appellant to submit within 10 days any new and material evidence that he may have to support his claim.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

R 35.4 Notice to county committee.

Rule 4. County committees will be notified of the receipt of appeal by the board of trustees, advised as to whether or not a hearing is requested, and asked to submit any additional evidence that may be available.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

R 35.5 Referral of appeal to board of trustees.

Rule 5. If no new evidence is submitted within the period of time prescribed (10 days), the appeal will be referred to the board of trustees. If a personal hearing is requested, the appellant and the county committee shall be notified of the date, time and place of the meeting of the board at which the appellant is to appear for such hearing. If a personal hearing is not requested, the appeal shall be referred to the board for consideration at the earliest possible time for decision on the record as submitted.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

R 35.6 Results of appeal; copies.

Rule 6. The original signed copy of the results of the appeal will be retained by the board of trustees, a copy will be forwarded for the files of the county committee concerned, and a copy furnished to the appellant.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

R 35.7 Compliance with board's decision.

Rule 7. Action to comply with the decision of the board of trustees shall be taken by the county committee within 5 days after receipt of the copy of the results of the appeal.

History: 1954 ACS 24, p. 5, Eff. Nov. 12, 1960.

STUDENT LOANS

R 35.601—R 35.612 Rescinded.

History: 1954 AC, pp. 501-502; rescinded 1954 ACS 49, p. 5, Eff. Feb. 14, 1967.

GRANTS TO ELIGIBLE MICHIGAN VETERANS

(By authority conferred on the veterans' trust fund board of trustees by section 1 of Act No. 9 of the Public Acts of the First Extra Session of 1946, as amended, being §35.601 of the Michigan Compiled Laws)

R 35.621 Need.

Rule 1. Need is defined for the purpose of this act to be any emergency in the life of an honorably discharged world war II or Korean war veteran, or his or her dependents, which requires immediate assistance in order to prevent undue hardship to the veteran, or his or her dependents. The emergencies may involve hospitalization, medical services which cannot be secured from any other federal, state, or county agency, or from any privately owned insurance coverage, food, fuel, clothing, shelter, necessary transportation, or other unforeseen emergencies that require prompt attention.

History: 1944 ACS 35, p. 55; 1954 AC, p. 502.

R 35.622 Eligibility of veteran or dependents, or both.

Rule 2. Eligibility of the veteran, or his or her dependents, or both, shall be as specified in section 2, Act No. 9 of the Public Acts of 1946, Extra Session, as amended.

". . . for the purposes of the administration of this act, dependents shall be considered to be any persons legally entitled to look to the veteran for his or her support." (Sec. 4, Act No. 9, Public Acts of 1946, Extra Session, as amended.)

History: 1944 ACS 35, p. 55; 1954 AC, p. 502.

R 35.623 Eligibility of deceased veteran's dependents.

Rule 3. (1) For the purposes of the administration of Act No. 9, Public Acts of 1946, Extra Session, as amended, it is further determined that the dependents of a deceased veteran are eligible to receive benefits in the same manner as the deceased veteran would have received, were he or she living.

(2) A widow of a veteran is considered a dependent as long as she is unremarried.

History: 1944 ACS 35, p. 55; 1954 AC, p. 502.

STUDENT LOANS

(By authority conferred on the veterans' trust fund board of trustees by section 1 of Act No. 9 of the Public Acts of the First Extra Session of 1946, as amended, being §35.601 of the Michigan Compiled Laws)

R 35.631 Eligibility.

Rule 1. (1) An applicant for a loan shall be a Michigan veteran as defined in Act No. 9 of the Public Acts of the First Extra Session of 1946, as amended, being §§35.601 to 35.610 of the Michigan Compiled Laws, or his legal dependent or the child of a deceased veteran.

(2) An applicant shall currently be enrolled in school on a full-time basis at a Michigan institution of higher education.

(3) An applicant enrolled in on-the-job training is not eligible for a loan.

(4) An applicant shall show a basis of need of the loan.

History: 1954 ACS 49, p. 5, Eff. Feb. 14, 1967.

R 35.632 Applications and approval.

Rule 2. (1) An applicant shall execute a 180-day non-interest bearing note payable to the state of Michigan - Michigan veterans' trust fund. The note shall be co-signed if the applicant is under 21 years of age.

(2) An application for a loan shall be initially approved by the school authority or its designated agent. Final approval of a loan shall be made by the executive secretary of the veterans' trust fund board of trustees or his designated agent. An applicant shall be notified of the approval or disapproval of his loan.

History: 1954 ACS 49, p. 5, Eff. Feb. 14, 1967.

R 35.633 Dollar limits.

Rule 3. A loan will not be granted in an amount exceeding $600.00. Amounts repaid by the applicant may be later reloaned to him but his total indebtedness at any time shall not exceed $600.00.

History: 1954 ACS 49, p. 5, Eff. Feb. 14, 1967.

R 35.634 Satisfaction of loans.

Rule 4. (1) A loan may be repaid on a partial payment plan when specifically provided for and approved by the executive secretary of the veterans' trust fund board of trustees or his designated agent.

(2) A note may be renewed or extended by such executive secretary or his designated agent.

(3) When a borrower enters the military or peace corps service directly from school, the balance due on his outstanding loan shall become payable 6 months after his separation from such service.

(4) A loan may be canceled in case of the borrower's death, total and permanent disability, or a satisfactory showing of extreme hardship as determined by such executive secretary or his designated agent.

History: 1954 ACS 49, p. 5, Eff. Feb. 14, 1967.

R 35.639 Rescission.

Rule 9. Rules 1 to 12, governing student subsistence loans, being R 35.601 to R 35.612 of the Michigan Administrative Code and appearing on pages 501 and 502 of the 1954 volume of the Code, are rescinded.

History: 1954 ACS 49, p. 5, Eff. Feb. 14, 1967.

STUDENT GRANTS

(By authority conferred on the veterans' trust fund board of trustees by section 2 of Act No. 245 of the Public Acts of 1935, as amended, being §35.112 of the Michigan Compiled Laws)

R 35.651 Purpose.

Rule 1. The purpose of these rules is to implement Act No. 245 of the Public Acts of 1935, as amended, being §§35.111 and 35.112 of the Michigan Compiled Laws, hereinafter referred to as the act.

History: 1954 ACS 68, p. 6, Eff. Aug. 31, 1971.

R 35.652 Eligibility.

Rule 2. (1) Receipt of the educational benefits under the act shall not be based upon scholastic ability or financial need or be affected by marriage of an applicant or recipient.

(2) A determination of total disability, death in service, or death subsequent to service resulting from wartime causes shall be governed by disability and death awards paid by the United States veterans administration or the United States armed forces therefor. Total disability shall be construed to be any condition or combination of conditions which are rated 100% disabling by the veterans administration or the armed forces of the United States. Wartime periods are those periods defined by Act No. 190 of the Public Acts of 1965, as amended, being §§35.61 and 35.62 of the Michigan Compiled Laws.

History: 1954 ACS 68, p. 6, Eff. Aug. 31, 1971.

R 35.653 Applications and certifications.

Rule 3. (1) An application for determination of eligibility shall not be accepted before an applicant's sixteenth birthday.

(2) A certification of eligibility made by the department of education or its predecessor before April 1, 1966, is valid until the applicant reaches his twenty-third birthday.

History: 1954 ACS 68, p. 7, Eff. Aug. 31, 1971.

R 35.654 Payments.

Rule 4. (1) The letter of eligibility provided by the veterans' trust fund board of trustees shall be submitted to the state tax-supported institution of this state for inclusion in the student's file as authority for the billing of tuition fees to the veterans' trust fund board of trustees.

(2) Tuition shall not be paid for a term or semester ending before receipt of an application for determination of eligibility by the veterans' trust fund board of trustees. Beginning of the term or semester shall be the first day on which classes are held.

(3) Fees shall be paid at the minimum resident rate for basic tuition which includes an athletic fee, matriculation fee, student services fee, general and registration fee, lab fees including applied music fee. Basic tuition fees will also be paid for repeat courses and off-campus study courses.

History: 1954 ACS 68, p. 7, Eff. Aug. 31, 1971.

DEPARTMENT OF CIVIL RIGHTS

CIVIL RIGHTS COMMISSION

ORGANIZATION, PRACTICE, AND PROCEDURE

(By authority conferred on the civil rights commission by section 29 of article 5 of the state constitution and section 5 of Act No. 45 of the Public Acts of the Second Extra Session of 1963, being §37.5 of the Michigan Compiled Laws)

R 37.1 Civil rights within commission jurisdiction.

Rule 1. The civil rights within the jurisdiction of the commission shall be those guaranteed by law and the constitution including, but not limited to, the areas of equal protection of the laws, employment, education, housing, and public accommodations. The jurisdiction of the commission shall not be limited to the processing of complaints.

History: 1954 ACS 44, p. 5, Eff. Nov. 14, 1965; 1954 ACS 50, p. 5, Eff. May 15, 1967.

R 37.2 Definitions.

Rule 2. As used in these rules:

(a) "Chairperson" means the duly appointed or elected chairperson or a co-chairperson of the civil rights commission or, in the event of his or her or their absence, the acting chairperson designated by the remaining members of the commission.

(b) "Charge" means that document or pleading authorized by the department which initiates a contested case hearing under R 37.12.

(c) "Claimant" means any person who files a complaint or applies to the department for the issuance of a charge.

(d) "Commission" means the state civil rights commission created by article 5, §29, of the Michigan constitution.

(e) "Commissioner" means any member of the civil rights commission.

(f) "Constitution" means the constitution of the state of Michigan.

(g) "Department" means the department of civil rights established by section 475 of Act No. 380 of the Public Acts of 1965, as amended, being §16.575 of the Michigan Compiled Laws.

(h) "Department investigator" means a member, agent, or employee of the department designated or delegated by the director to make an investigation.

(i) "Director" means the director of the department of civil rights engaged by the commission.

(j) "Hearing commissioner" means a commissioner designated by the chairperson or the commission to conduct a hearing.

(k) "Hearing referee" means an agent of the commission designated or delegated by the chairperson or the director to conduct a hearing.

(l) "Party" or "parties" means the claimant or the respondent, or both, and the commission or department, or both, where appropriate.

(m) "Person" means an individual, agent, association, corporation, joint apprenticeship committee, joint stock company, labor organization, legal representative, mutual company, partnership, receiver, trust, trustee, trustee in bankruptcy, unincorporated organization, the state or a political subdivision of the state or an agency thereof, or any other legal or commercial entity.

(n) "Respondent" means any person against whom the claimant has complained, or against whom the department has issued a charge.

History: 1954 ACS 44, p. 5, Eff. Nov. 14, 1965; 1954 ACS 50, p. 5, Eff. May 15, 1967; 1954 ACS 101, p. 5, Eff. Oct. 18, 1979.

R 37.3 Commission; election and tenure of officers; quorum; voting.

Rule 3. (1) The commission, each January, shall elect from its members by a majority vote of the commission a chairperson or co-chairpersons and such other officers as the commission shall determine, who shall serve during the balance of the calendar year and until their successors have been duly elected and qualified.

(2) A majority of all members of the commission shall constitute a quorum. A majority of all the members shall be required to decide matters of a nonministerial nature, but a majority of a quorum may decide ministerial matters. A vacancy in the commission shall not impair the right of the remaining members to exercise all the powers of the commission.

History: 1954 ACS 44, p. 5, Eff. Nov. 14, 1965; 1954 ACS 101, p. 5, Eff. Oct. 18, 1979.

R 37.4 Complaints.

Rule 4. (1) Any person claiming to be aggrieved by unlawful discrimination may by himself or herself or his or her counsel or other agent make, sign, and file with the department a complaint. Assistance in drafting and filing complaints shall be available, without charge, to claimants at all department offices.

(2) Any commissioner, the director, or agent authorized by the commission or director, may initiate, make, sign, and file a complaint.

(3) A complaint shall be in writing, the original being signed and verified before a notary public or other person duly authorized by law to administer oaths and take acknowledgments. Notarial service shall be furnished without charge by the department.

(4) The complaint shall include the following:

(a) The full name and address of the claimant and his or her agent, if any.

(b) The full name and address of the respondent.

(c) The alleged discrimination and a statement of the particulars thereof.

(d) The date or dates of the alleged discrimination, whether the alleged discrimination is of a continuing nature, and the dates between which the continuing discrimination is alleged to have occurred.

(e) A statement as to any other proceeding, civil or criminal, based upon the same facts, occurrences, or transactions as alleged in the complaint, together with a statement as to the status or disposition of the other action. Where such a proceeding is pending, the commission or department may, in its discretion, delay consideration or action on the complaint filed.

(5) The complaint shall be filed with the department at 1 of its offices.

(6) The complaint shall be filed within 180 days from the date of the occurrence of the alleged discrimination, or within 180 days of the date when the occurrence of the alleged discrimination was or should have been discovered. If the alleged discrimination is of a continuing nature, the date of the occurrence of the discrimination shall be deemed to be any date subsequent to the commencement of the discrimination up to and including the date upon which the discrimination shall have ceased.

(7) The complaint may be filed by personal delivery or by mail addressed to 1 of the department's offices.

(8) Complaint forms may be obtained at any of the offices of the department.

(9) A copy of the complaint filed by the claimant shall be delivered or mailed to the respondent.

(10) The department may require answers to interrogatories, order the submission of books, papers, records, and other materials pertinent to a complaint, and require the attendance of witnesses, administer oaths, take testimony, and compel, through court authorization, compliance with its orders or an order of the commission.

(11) A complaint, or any part thereof, may be withdrawn only on written consent of the commission or department upon such conditions as shall be deemed proper in the circumstances.

History: 1954 ACS 44, p. 6, Eff. Nov. 14, 1965; 1954 ACS 50, p. 5, Eff. May 15, 1967; 1954 ACS 101, p. 6, Eff. Oct. 18, 1979.

R 37.5 Conference and conciliation.

Rule 5. (1) The respondent may be invited, at any time, to participate in a conference and conciliation in an endeavor to eliminate the alleged discrimination, and shall be invited to participate in such a conference prior to the issuance of a charge.

(2) The members of the commission and the department staff shall not disclose what has transpired in the course of such endeavors at conference and conciliation.

(3) If the department shall succeed in its endeavors at conference and conciliation, it shall mark the case accordingly and notify the parties by registered or certified mail, return receipt requested, of the terms of conciliation.

History: 1954 ACS 44, p. 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 6, Eff. May 15, 1967; 1954 ACS 101, p. 6, Eff. Oct. 18, 1979.

R 37.6 Charge; issuance; refusal to issue.

Rule 6. (1) If, after investigation, the department determines that there are sufficient grounds therefor, a charge shall be issued.

(2) If the department determines that there are insufficient grounds therefor, it shall refuse to issue a charge and shall notify the parties by registered or certified mail, return receipt requested, of the determination and of the refusal, together with the reasons therefor, and of the claimant's right to request reconsideration by the department of the determination within 30 days from the date of mailing, in accordance with R 37.7.

History: 1954 ACS 44, p. 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 7, Eff. May 15, 1967; 1954 ACS 101, p. 6, Eff. Oct. 18, 1979.

R 37.7 Reconsideration of refusal to issue charge; request; hearing.

Rule 7. (1) A claimant may request of the department a reconsideration of its refusal to issue a charge. The request shall be in writing, state specifically the grounds upon which it is based, and be filed within 30 days after the date of mailing of the notice of disposition of which reconsideration is requested. It shall be filed at any office of the department by personal delivery or by mail.

(2) The department may authorize a hearing on the request for reconsideration at such a time and place and before such hearing commissioner or commissioners or hearing referee or referees as it or the director may determine, and notice thereof shall be given to all parties to the proceedings. The parties may appear in person or by counsel, may present witnesses and testimony, and examine and cross-examine witnesses. Verbatim stenographic notes of the proceedings shall be made and kept by a competent reporter. The hearing commissioner or commissioners or hearing referee or referees shall report to the commission on such proceedings. The commission shall make a determination as to whether the department shall further consider the matter, and notify all parties by registered or certified mail, return receipt requested, and shall issue instructions for appropriate action based upon such determination.

History: 1954 ACS 44, p. 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 7, Eff. May 15, 1967; 1954 ACS 65, p. 5, Eff. Oct. 1, 1970; 1954 ACS 101, p. 7, Eff. Oct. 18, 1979.

R 37.8 Charge; form and content.

Rule 8. The charge shall be in writing, in such form and content as the department determines.

History: 1954 ACS 44, p . 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 7, Eff. May 15, 1967; 1954 ACS 101, p. 7, Eff. Oct. 18, 1979.

R 37.9 Charge; amendment.

Rule 9. The commission on its own motion, on motion of the department, or on motion of the claimant may amend a charge at any time prior to issuance of an order based on the charge.

History: 1954 ACS 44, p. 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 7, Eff. May 15, 1967; 1954 ACS 101, p. 7, Eff. Oct. 18, 1979.

R 37.10 Charge; service.

Rule 10. Copies of the charge or amended charge shall be delivered or sent by certified or registered mail, return receipt requested, to the parties, together with notice to the respondent to answer the charge as provided in R 37.11.

History: 1954 ACS 44, p. 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 7, Eff. May 15, 1967; 1954 ACS 101, p. 7, Eff. Oct. 18, 1979.

R 37.11 Answer.

Rule 11. (1) The respondent shall file a written verified answer within 20 days from the date of service of the charge.

(2) The answer shall be filed in duplicate at any office of the department. The filing shall be by personal delivery or by registered or certified mail, return receipt requested.

(3) Upon request, the commission or director may, for good cause shown, extend the time within which the answer may be filed.

(4) The answer shall be in writing, the original being signed and verified by the respondent. The answer shall contain the post office address of the respondent, and if he or she is represented by counsel, the name and post office address of counsel. The answer shall contain a general or specific denial or admission of each and every allegation of the charge, or a denial of any knowledge or information sufficient to form a belief, and a statement of any matter constituting a defense. Any allegation in the charge which is not denied or admitted in the answer, unless the respondent shall state in the answer that he or she is without knowledge or information sufficient to form a belief, shall be deemed admitted.

(5) The respondent shall have the right reasonably and fairly to amend his or her answer:

(a) The respondent's right to amend his or her answer may be exercised at any time up to 10 days before the first hearing, without permission, and thereafter, in the discretion of the hearing commissioner or commissioners, or hearing referee or referees, on application duly made therefor.

(b) Duplicate copies of an amended answer shall be filed with the department.

(6) If an answer is not filed within the time provided for in these rules, each of the allegations in the charge shall be deemed admitted. Upon application, the referee, for good cause shown, may set aside the admission.

(7) The department, within 5 days after the date of filing an answer or amended answer, shall send a copy thereof by registered or certified mail, return receipt requested, to the claimant at his or her last known place of residence or to his or her counsel.

History: 1954 ACS 44, p. 7, Eff. Nov. 14, 1965; 1954 ACS 50, p. 7, Eff. May 15, 1967; 1954 ACS 101, p. 7, Eff. Oct. 18, 1979.

R 37.12 Hearing.

Rule 12. (1) Upon or after the issuance and service of a charge, the commission or director may schedule and summon the parties to a hearing thereon. The commission may at any time schedule and conduct a hearing with respect to any matter which in the judgment of the commission may involve unlawful discrimination and may warrant investigation by the commission, regardless of whether a charge or a complaint therefor shall have been filed by or with the department.

(2) Notice of the time and place of the hearing shall be mailed or delivered to the parties not less than 20 days prior to the date of the hearing. Upon good cause shown, the commission or director may order a hearing upon shorter notice. However, notice of the time and place of hearing shall be mailed or delivered to the parties not less than 7 days prior to the date of the hearing, unless such notice is waived by each party.

(3) A hearing shall be conducted by 1 or more hearing commissioners, or 1 or more hearing referees, or any combination of hearing commissioners or referees, which hearing commissioners or referees shall hear the evidence and report thereon to the commission.

(4) Unless waived by the hearing commissioners or the hearing referees, the claimant shall be present at the hearing. The respondent may appear at the hearing in person or by counsel, examine and cross-examine witnesses and, if an answer has been filed, may submit oral testimony and other evidence in support of the answer.

(5) Hearings shall be held at a place designated by the commission or director having due regard for the convenience of the parties and witnesses.

(6) The case in support of the charge shall be presented at the hearing by the department's counsel or by a member of the department's staff, or upon notice from claimant, by the claimant or his or her counsel, subject, however, to the right of the department to present other or additional evidence or argument.

(7) Hearing commissioners or referees shall have full authority to control the procedure of the hearing, to admit or exclude testimony or other evidence without regard to strict rules of evidence, and to rule upon all motions and objections:

(a) On their own motion, or at the request of a party, the hearing commissioners or referees shall order witnesses excluded so that they cannot hear the testimony of other witnesses. The hearing commissioners or referees shall not exclude a party, an individual designated by a party as its representative, or a person whose presence is shown by a party to be essential to the party's presentation of his or her position.

(b) Hearing commissioners or referees may examine witnesses and direct the production of papers or other evidence.

(c) Oral testimony shall be given under oath or affirmation and verbatim stenographic notes of the hearing shall be made and kept by a competent reporter. Transcripts shall be kept and, prior to the issuance of a final order, shall be available to the commissioners and hearing referees; parties may obtain transcripts by making suitable arrangements with the reporters, and the department shall not be responsible for providing transcripts to the parties prior to issuance of final orders.

(d) Where hearings are conducted by 3 or more commissioners or referees, all rulings and determinations shall be made by majority rule.

(e) Evidence of the department's endeavors at conciliation shall not be admissible at the hearing.

(8) Hearing commissioners or referees or a party may request a prehearing conference which the hearing commissioner or referee may schedule, subject to

objection by any party. Such prehearing conference may be held to obtain admissions, stipulations as to fact and law, agreement on the issues, and to determine the authenticity of documents. Written stipulations may be introduced in evidence if signed by each person sought to be bound thereby, or by his or her counsel. Oral stipulations may be made on the record at open hearing.

(9) Hearing commissioners or referees may continue a hearing from day to day or adjourn it to a later date or to a different place by announcement thereof at the hearing or by appropriate notice to all parties.

(10) Hearing commissioners or referees shall permit the parties or their counsel or the member of the department's staff presenting the case in support of the charge, and may permit interveners, to argue orally before them and to file briefs within such time limits as the hearing commissioners or referees may determine.

(11) Hearing commissioners or referees may exclude from the hearing room or from further participation in the proceeding any person who engages in improper conduct before them, except a party, his or her counsel, or a witness engaged in testifying, each of whom shall be subject to appropriate disciplinary action by the commission.

(12) Hearings shall be open to the public, unless the commission or referee shall otherwise determine.

(13) Any motion filed by a party subsequent to the issuance of a charge and prior to hearing shall be referred to the hearing commissioners or referees for decision. The hearing commissioners or referees may request briefs or schedule oral arguments, or both, as they deem necessary and, where appropriate, they may reserve their ruling until the conclusion of the hearing. All rulings upon motions shall be included in the report of the hearing commissioners or referees to the commission.

(14) A party may submit, or the hearing commissioners or referees may request, proposed findings of fact, proposed conclusions of law, and proposed orders at the conclusion of the hearing. All such proposals shall be submitted to the commission with the report of the hearing commissioners or referees.

History: 1954 ACS 44, p. 8, Eff. Nov. 14, 1965; 1954 ACS 50, p. 8, Eff. May 15, 1967; 1954 ACS 65, p. 5, Eff. Oct. 1, 1970; 1954 ACS 101, p. 8, Eff. Oct. 18, 1979.

R 37.13 Service of documents upon counsel.

Rule 13. If counsel has appeared in writing on behalf of a party, a copy of any notice, pleading, or other document required to be sent to a party under these rules shall be mailed to counsel instead of the party, unless there is a written request from the party or counsel that a copy be mailed to the party also.

History: 1954 ACS 44, p. 9, Eff. Nov. 14, 1965; 1954 ACS 50, p. 9, Eff. May 15, 1967; 1954 ACS 101, p. 9, Eff. Oct. 18, 1979.

R 37.14 Orders to submit pertinent material and require attendance of witnesses; other powers; cost of service; witness and mileage fees.

Rule 14. (1) At the instance of a party or on its own behalf, the commission or the department may order the submission of books, papers, records, and other pertinent material, and require the attendance of witnesses, administer oaths, take testimony and receive evidence, and compel, through court authorization, compliance with its orders.

(2) Where an order is issued at the instance of a party to the inquiry or proceedings, other than the commission or a member thereof, or the department, the cost of service and witness and mileage fees shall be borne by the party at whose instance it has been requested and issued. When an order is issued at the instance of the commission, or a member thereof, or the department, the cost of

such service and witness and mileage fees shall be borne by the commission or department. Such witness and mileage fees shall be the same as are paid to witnesses in the circuit courts of the state of Michigan.

History: 1954 ACS 44, p. 10, Eff. Nov. 14, 1965; 1954 ACS 50, p. 9, Eff. May 15, 1967; 1954 ACS 101, p. 9, Eff. Oct. 18, 1979.

R 37.15 Depositions.

Rule 15. In accordance with the Michigan general court rules, the commission, or any member thereof, or the director, on its own motion or on the application of 1 of the parties, may take or cause to be taken depositions of witnesses residing within or without the state.

History: 1954 ACS 44, p. 10, Eff. Nov. 14, 1965; 1954 ACS 101, p. 9, Eff. Oct. 18, 1979.

R 37.16 Order issued after hearing.

Rule 16. (1) An order of the commission issued after hearing shall set forth the findings of fact and the basis for its decision. Following a hearing conducted under R 37.12, and prior to a final order, the commission shall transmit to the parties a copy of the report of the hearing commissioners or referees and shall give parties an opportunity to file exceptions and present written arguments to the commission. The commission may permit oral argument prior to its final decision.

(2) If upon the evidence at the hearing the commission shall find that a respondent has engaged in any unlawful discrimination, the commission shall state its findings of fact and may issue an order requiring such respondent to cease and desist from such unlawful discriminatory act and to take such affirmative action as the commission may deem appropriate, which may include reporting from time to time the manner and extent of compliance. If upon the evidence the commission shall find that a respondent has not engaged in unlawful discrimination, the commission shall state its findings of fact and shall issue an order dismissing the charge as to such respondent.

(3) Copies of orders shall be served upon parties, interveners, and their counsel by registered or certified mail, return receipt requested, or by such other means as are reasonably calculated to give actual notice, accompanied by a notice of the statutory right to judicial appeal.

(4) All orders issued after a hearing shall be filed with the director. Such orders shall be open to public inspection during regular office hours of the department.

(5) When deemed by the commission necessary to safeguard the interest of persons concerned and to prevent injustice, the commission at any time prior to or subsequent to the issuance of a charge may issue its own order or the commission or the department may apply to an appropriate court for the issuance of an order directed to or against any person or persons enjoining or prohibiting any conduct or threat thereof which violates or jeopardizes any of the rights of any person or persons guaranteed by law or the constitution.

History: 1954 ACS 44, p. 10, Eff. Nov. 14, 1965; 1954 ACS 50, p. 9, Eff. May 15, 1967; 1954 ACS 101, p. 9, Eff. Oct. 18, 1979.

R 37.17 Reopening of proceedings.

Rule 17. The commission upon its own motion, or upon request of any party or intervener, whenever justice so requires, may at any time reopen any closed proceeding upon notice to all parties and interveners. The department may reopen any proceeding closed by the department in the same manner.

History: 1954 ACS 44, p. 10, Eff. Nov. 14, 1965; 1954 ACS 101, p. 10, Eff. Oct. 18, 1979.

R 37.18 Appeals from order of commission.

Rule 18. Any party claiming to be aggrieved by a final order of the commission or the department, including without limitation a refusal to issue a charge, may

appeal to the circuit court of the state of Michigan having jurisdiction provided by law within 30 days of the date of service of an appealable order.

History: 1954 ACS 44, p. 11, Eff. Nov. 14, 1965; 1954 ACS 50, p. 10, Eff. May 15, 1967; 1954 ACS 101, p. 10, Eff. Oct. 18, 1979.

R 37.19 Modification or setting aside of orders.

Rule 19. Until an appeal shall have been filed in a court, as provided in R 37.18, the commission may, at any time, upon reasonable notice and in such manner as it shall deem proper, modify or set aside, in whole or in part, any findings or order made by it.

History: 1954 ACS 44, p. 11, Eff. Nov. 14, 1965; 1954 ACS 101, p.10, Eff. Oct. 18, 1979.

R 37.20 Declaratory ruling.

Rule 20. (1) The commission, on petition of an interested person, may issue a declaratory ruling as to the applicability of a statute, regulation, or rule to an actual state of facts upon submission to the commission of each of the following:

(a) A clear and concise statement of the facts.

(b) A legal brief, memorandum, or other reference to legal authorities relied upon.

(2) The commission, if it determines it shall issue a declaratory ruling, shall furnish the person with a statement to that effect and set forth the time in which the commission shall issue the ruling. The commission shall not issue a declaratory ruling after a complaint has been filed with the department.

(3) A ruling shall contain the statement of facts upon which it is based and the legal authority on which the commission relies. A ruling, once issued, is binding on the commission and the commission may not retroactively change the ruling, but nothing in this rule shall prohibit the commission from prospectively changing a ruling.

History: 1954 ACS 44, p. 11, Eff. Nov. 14, 1965; 1954 ACS 101, p. 10, Eff. Oct. 18, 1979.

R 37.21 Rules; adoption; amendment or rescission.

Rule 21. New rules may be adopted and any rule may be amended or rescinded by the commission at a regular or special meeting, provided that not less than 5 members are present and voting in favor of such amendment and notice thereof shall have been given to all members of the commission not less than 10 days before the meeting at which action it is to be taken.

History: 1954 ACS 44, p. 11, Eff. Nov. 14, 1965; 1954 ACS 101, p. 10, Eff. Oct. 18, 1979.

R 37.22 Rules; availability; construction.

Rule 22. (1) The rules of the commission shall be available to the public at all offices of the department.

(2) These rules shall be liberally construed to accomplish the purposes of the constitution and the policies of the commission.

History: 1954 ACS 44, p. 11, Eff. Nov. 14, 1965; 1954 ACS 101, p. 10, Eff. Oct. 18, 1979.

R 37.23 Guidelines.

Rule 23. The commission may adopt interpretive or procedural guidelines, or both, at a regular or special meeting, if not less than 5 members are present and are voting in favor of such guidelines and notice thereof is given to all members of the commission not less than 10 days before the meeting at which action is to be taken. Guidelines may be amended or rescinded by the same procedure. The guidelines shall be available to the public at all offices of the department.

History: 1954 ACS 101, p. 10, Eff. Oct. 18, 1979.

R 37.24 Record making and keeping; disclosure.

Rule 24. (1) Any person who wishes, for purposes not inconsistent with the constitution and statutes, to make any of the records prohibited by sections 206 and 402(c) of Act No. 220 of the Public Acts of 1976 and sections 206 and 402(c) of Act No. 453 of the Public Acts of 1976, being §§37.1206, 37.1402(c), 37.2206, and 37.2402(c) of the Michigan Compiled Laws, may apply to the commission, stating the specific purpose, method of compilation, and disposition of such information. The commission may permit the making or keeping of such records for limited periods upon such application.

(2) A person subject to section 206 of Act No. 453 of the Public Acts of 1976 and section 206 of Act No. 220 of the Public Acts of 1976, being §§37.2206 and 37.1206 of the Michigan Compiled Laws, shall, upon request of the department or commission, disclose information covered by the above sections and shall not thereby be in violation of those provisions. A person subject to the same sections may retain records and information previously and lawfully obtained from prospective employees, but may not disclose that information, except as provided in this rule.

History: 1954 ACS 101, p. 11, Eff. Oct. 18, 1979.

R 37.25 Exemption from particular section of act; bona fide occupational qualification.

Rule 25. (1) A person subject to article 2 of Act No. 453 of the Public Acts of 1976, being §37.2201 et seq. of the Michigan Compiled Laws, may apply to the commission for exemption from particular sections of article 2 of Act No. 453 of the Public Acts of 1976, being §37.2201 et seq. of the Michigan Compiled Laws, on the basis that religion, national origin, age, height, weight, or sex is a bona fide occupational qualification. Applications may be obtained from, and may be submitted to, any office of the department, and the department shall transmit them to the commission.

(2) The commission may direct the department to investigate any matter deemed relevant to such applications, and the applicant shall make available any and all records, documents, data, or other information requested by the department or commission. Failure to provide such information shall result in denial of the application.

(3) An exemption shall not be granted if the same facts and circumstances are at issue in a complaint pending before the department or commission. Upon a sufficient showing, the commission may grant an exemption. The exemption may be later revoked by the commission if the commission obtains other or different information, but such revocations are prospective. Any person obtaining exemption shall notify the commission if and when the classification exempted is no longer utilized.

History: 1954 ACS 101, p. 11, Eff. Oct. 18, 1979.

R 37.26 Agreement or memorandum of understanding with local human rights agency or commission.

Rule 26. With the approval of the commission, the department may enter into agreements or memoranda of understanding with local human rights agencies or commissions, where such agreements shall facilitate the purposes of the constitution and civil rights statutes administered by the department and the commission. The agreements may include certification for the investigation of deferred complaints.

R 37.27 Voluntary plans.

Rule 27. (1) Any person requesting approval of a plan in accordance with the provisions of sections 210 and 507 of Act No. 453 of the Public Acts of 1976, and sections 208, 403, and 507 of Act No. 220 of the Public Acts of 1976, being §§37.2210, 37.2507, 37.1208, 37.1403, and 37.1507 of the Michigan Compiled Laws, may submit the plan by filing it at any office of the department and requesting approval.

(2) The commission may direct the department to obtain such information as it deems necessary to approve or disapprove a plan. The person requesting approval shall make available all records or information requested, and such information shall be deemed confidential. Information required shall include, but shall not be limited to, all of the following:

(a) Verification that the person requesting approval is not subject to any federal or state court order covering any of the practices involved in the plan.

(b) A statement of all court or agency enforcement actions presently pending.

(c) A statement of any voluntary plans previously filed with other state or federal agencies.

(d) A statement of the purpose of the plan.

(3) The commission may, prior to approving or disapproving any plan, indicate to the person requesting approval areas needing improvement in the plan, and the commission may disapprove or refuse further consideration of any plan unless such improvements are made.

History: 1954 ACS 101, p. 11, Eff. Oct. 18, 1979.

NOTICES

(By authority conferred on the civil rights commission by section 29 of article 5 of the state constitution, and section 5 of Act No. 45 of the Public Acts of the Second Extra Session of 1963, being §37.5 of the Michigan Compiled Laws)

R 37.101 Posting of notices.

Rule 101. The commission may require persons, groups, or organizations within its jurisdiction to post, in a conspicuous place, notices which the commission may publish or cause to be published setting forth any requirement for compliance with civil rights law or such other relevant information which the commission determines necessary to explain such law.

DEPARTMENT OF MANAGEMENT AND BUDGET

STATE EMPLOYEES' RETIREMENT BOARD

PROCEDURE FOR CONDUCTING HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 38.1 Notice of hearing.

Rule 1. Notification of any hearing before the state employees' retirement board will be by registered mail, and will state the date, time, place, issues involved, and reasons for holding said hearing. Such notice will be mailed at least 10 days prior to said hearing. Unless indicated otherwise, all hearings will be held in the offices of the state employees' retirement board.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.2 Appearance.

Rule 2. When an appearance is made at a hearing, it shall be made either in person or by a duly authorized representative, or by counsel.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.3 Written answer; oral statement on charges; service of briefs or arguments.

Rule 3. The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral statement on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served upon the opposite parties or their attorneys at least 10 days prior to the date set for the hearing.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.4 Failure to appear.

Rule 4. If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the state employees' retirement board, may proceed with a hearing of the cases brought before him and may, on the evidence presented, make his decision.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.5 Statement of facts.

Rule 5. When a hearing is requested, the party requesting the hearing shall submit in writing a fair and accurate statement of the facts to the state employees' retirement board and all interested parties. The facts shall be accepted as evidence unless a written answer is filed denying said facts and stating new facts relied upon with the state employees' retirement board and all interested parties.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.6 Adjournment or continuance of hearing.

Rule 6. No hearing shall be adjourned or continued, except upon an order of the state employees' retirement board or the department employee conducting the hearing. All motions and requests for an adjournment, or a continuance, shall

Digitized by Google Original from UNIVERSITY OF MICHIGAN

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

be in writing, which instrument shall state concisely the reasons why an adjournment or continuance is necessary. No motion or request for an adjournment or continuance will be considered unless the same is filed with the state employees' retirement board at least 5 days prior to the date assigned for the hearing of the application, complaint or petition, except upon order of the executive secretary of the retirement board which exception will be granted only upon a showing that for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.7 Stipulations.

Rule 7. The parties to any hearing before the state employees' retirement board may, by a stipulation in writing, filed with the state employees' retirement board, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence on the hearing. Parties are requested to thus agree upon the facts whenever practicable.

History: 1944 ACS 37, p. 16; 1954 AC, p. 601.

R 38.8 Depositions.

Rule 8. Depositions shall only be taken upon written authority of the state employees' retirement board where it is proved in writing to the state employees' retirement board that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being Michigan Statutes Annotated, §27.854, et seq., with all parties given an opportunity to cross-examine the witness under oath.

History: 1944 ACS 37, p. 16; 1954 AC, p. 602.

ELIGIBILITY FOR DEFERRED SERVICE BENEFITS UPON RETURN TO STATE SERVICE

(By authority conferred upon the Michigan state retirement board under section 2 of Act No. 240 of the Public Acts of 1943, as amended, being §38.2 of the Michigan Compiled Laws)

R 38.11 Definitions.

Rule 1. (1) "Member" means a state employee included in the state employees' retirement system pursuant to Act No. 240 of the Public Acts of 1943, as amended, being §§38.1 to 38.43 of the Michigan Compiled Laws.

(2) "Service" means service rendered the state by a member.

History: 1954 ACS 77, p. 5, Eff. Nov. 30, 1973.

Editor's note: This rule was formerly numbered R 38.1, but has been renumbered R 38.11 to avoid conflict with another rule numbered R 38.1.

R 38.12 Service requirements.

Rule 2. (1) If a member returns to service after separation of 5 years or more, he shall accumulate 5 years of accredited service to restore past service credit and become eligible for deferred retirement benefits under subsection (7) of section 20 of Act No. 240 of the Public Acts of 1943, as amended, being §38.20 of the Michigan Compiled Laws.

(2) If a member returns to service after less than 5 years of separation, he shall accumulate at least 6 months of accredited service to become eligible for deferred retirement benefits under subsection (7) of section 20 of Act No. 240 of the Public Acts of 1943, as amended.

History: 1954 ACS 77, p. 5, Eff. Nov. 30, 1973.

Editor's note: This rule was formerly numbered R 38.2, but has been renumbered R 38.12 to avoid conflict with another rule numbered R 38.2.

DEPARTMENT OF EDUCATION

STATE TENURE COMMISSION

GENERAL RULES

R 38.71 Rescinded.

History: 1954 ACS 10, p. 5, Eff. June 14, 1957; rescinded 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

R 38.101—R 38.123 Rescinded.

History: 1954 ACS 10, pp. 5-8, Eff. June 14, 1957; 1954 ACS 48, p. 5, Eff. Nov. 14, 1966; 1954 ACS 65, p. 7, Eff. Oct. 27, 1970; rescinded 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

GENERAL RULES

(By authority conferred on the state tenure commission by section 10 of article 7 of Act No. 4 of the Public Acts of the Extra Session of 1937, as amended, being §38.140 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 38.131 Definitions.

Rule 1. (1) "Act" means Act No. 4 of the Public Acts of the Extra Session of 1937, as amended, being §38.71 et seq. of the Michigan Compiled Laws.

(2) "Commission" means the state tenure commission created by the act.

(3) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

R 38.132 Meetings of commission.

Rule 2. The chairperson of the commission or a majority of its members may call a session of the commission. The hours of the commission when in session shall be from 9 a.m. to 12 noon and 1:30 p.m. to 5 p.m. except as otherwise ordered by the commission.

History: 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

R 38.133 Office of commission.

Rule 3. The office of the commission shall be in the office of the state superintendent of public instruction.

History: 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

R 38.139 Rescission.

Rule 9. The rules of practice and procedure of the commission, being R 38.71 and R 38.101 to R 38.123 of the Michigan Administrative Code and appearing on pages 342 to 345 of the 1957 Annual Supplement to the Code, pages 3542 and 3543 of the 1966 Annual Supplement to the Code, and page 5354 of the 1970-71 Annual Supplements to the Code, are rescinded.

History: 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

PART 2. APPEAL PROCEDURES

R 38.141 Representation; appearances.

Rule 11. (1) Practice before the commission shall be limited to attorneys at law in good standing. However, any party may represent himself.

(2) An attorney representing litigants under the act, or a party representing himself, shall file a written appearance on or before the time of the filing of the petition or the answer, whichever shall be applicable, at the office of the commission. Substitution of a withdrawing attorney shall be made upon written stipulation of the withdrawing attorney and the party represented, or at the discretion of the commission. The stipulation shall be filed immediately with the commission.

History: 1954 ACS 86, p. 5, Eff. Feb. 4, 1976.

R 38.142 Form and style of papers.

Rule 12. Papers filed with the commission shall be printed or typewritten and, if typewritten, shall be on 1 side only of white bond paper not more than 8½ inches wide and 13 inches long. Pleadings and briefs shall be filed with the commission along with 6 copies duly signed by the attorney, appealing party, or controlling board member. The commission may waive filing of the extra copies. A single copy of exhibits and transcript shall be filed unless the commission requests additional copies. The proper caption and docket number shall be placed on all papers filed along with 1 signed copy. The given name and surname of the party shall be set forth in the caption.

History: 1954 ACS 86, p. 6, Eff. Feb. 4, 1976.

R 38.143 Initiation of appeal.

Rule 13. An appeal from a decision of a controlling board under the act shall be initiated within 30 days from the date of receipt of such decision by the appealing party or the attorney of the appealing party by filing a notice of appeal and petition, original and 6 copies, with the commission substantially in the following forms:

(a) Notice of appeal.

STATE OF MICHIGAN

} Docket No.

PETITION

_____, the above named Appellant, (by his attorney) hereby petitions for a hearing and appeals the decision of Appellee, and as a basis alleges as follows:

I

FACTS

(Set forth by statement of the facts without repetition upon which cause of action the petitioner relies for specific averments as are necessary to inform reasonably the adverse party of the nature of the cause the adverse party is called upon to defend. Each allegation shall be clear, concise, and direct and set forth in a separate numbered paragraph.)

II

ASSIGNMENTS OF ERROR

(Set forth each assignment of error with such specific averments as are necessary to inform reasonably the adverse party of the nature of the claim asserted. Each assignment shall be clear, concise, and direct and stated in a separate numbered paragraph. Alleged error to be raised on appeal based upon a rule of the controlling board in the transcript of the local hearing must contain the citation of the volume and page of the transcript.)

III

RELIEF

(Set forth clearly and concisely those demands for relief to which petitioner deems himself or herself entitled. Relief in the alternative may be demanded.)

Appealing party, or attorney

History: 1954 ACS 86, p. 6, Eff. Feb. 4, 1976.

R 38.144 Filing and service of notice of appeal and petition.

Rule 14. An appeal is commenced by filing with the commission a notice of appeal, petition and transcript, if any. The petitioner shall serve the appellee forthwith in person or by registered mail with a copy of the notice of appeal petition.

History: 1954 ACS 86, p. 7, Eff. Feb. 4, 1976.

R 38.145 Filing.

Rule 15. The filing of a document under these rules shall be with the office of the commission, and shall be received by the commission before the close of business on the last day of the time limit, if any, for the filing.

History: 1954 ACS 86, p. 7, Eff. Feb. 4, 1976.

R 38.146 Service.

Rule 16. Except for the original service of the notice of appeal and petition, service required or permitted to be made upon a party represented by an attorney shall be made as follows:

(a) Service upon the attorney shall be made by delivering or by mailing a copy to the attorney's last known business address. Service upon a party shall be made by delivering a copy or by mailing a copy to the party at the address as stated in the petition.

(b) Mailing of a copy within this rule means enclosing it in a sealed envelope with first class mail postage fully prepaid, addressed to the person to be served, and depositing the envelope and its contents in the United States government mail.

(c) Proof of service of papers required or permitted to be served may be written acknowledgment of service, by affidavit of the person making service, or by other proof satisfactory to the commission.

History: 1954 ACS 86, p. 7, Eff. Feb. 4, 1976.

R 38.147 Answers.

Rule 17. After service of a copy of a notice of appeal and petition, appellee shall have 20 days within which to file and serve an answer thereto. The answer shall contain specific admission or denial of each material allegation of fact contained in the petition and a statement of fact upon which the appellee relies for defense, and shall contain any affirmative allegations to be relied on by appellee. Each paragraph contained in the answer shall be numbered to correspond with the paragraphs in the petition. An original and 6 copies of the answer shall be filed with the commission and a copy shall be served upon all other parties.

History: 1954 ACS 86, p. 7, Eff. Feb. 4, 1976.

R 38.148 Amendments.

Rule 18. The commission, or its chairperson, may permit a party to amend his pleadings before, during, or after the conclusion of the hearing upon such terms as may be deemed just and consistent with due process.

History: 1954 ACS 86, p. 8, Eff. Feb. 4, 1976.

R 38.149 Joinder of petitions.

Rule 19. More than 1 petitioner may join in an appeal with assertion of a right to relief jointly, severally or in the alternative in respect of or arising out of the same transaction, occurrence or series of transactions or occurrences, and if any question of law or fact common to all of them will arise in the action, or if it appears that their presence in the action will promote the convenient administration of justice. Misjoinder of petitioners is not ground for dismissal of the petition. Petitioners may be added or dropped by order of the commission on motion of any party or of its own initiative at any stage of the action and on such terms as are just.

History: 1954 ACS 86, p. 8, Eff. Feb. 4, 1976.

PART 3. MOTION PRACTICE

R 38.151 Form; time for filing.

Rule 21. (1) An application to the commission for an order in a pending action shall be by motion, in writing, unless made during a hearing. It shall state with particularity the grounds therefor, and shall set forth the relief of order sought.

(2) A written motion, a brief, and notice of the hearing thereof shall be served upon the opposing party before it is filed with the commission, unless a different time is fixed with good cause shown. Authorization by the chairperson of the commission for a different time shall be noted on the face of the notice. The day of hearing shall be not earlier than 14 days after the date the notice is served, except by authorization of the chairperson of the commission. When a motion is supported by affidavit, the affidavit shall be served with the motion. Opposing affidavits may be served not later than 7 days before the hearing unless the commission permits them to be served at some other time, as provided in R 38.159.

(3) Motions and responses thereto shall be accompanied by a brief which shall contain a concise statement of reasons in support of, or in opposition of, and a citation of authorities upon which the parties rely.

(4) A respondent opposing a motion shall file his response, including brief, if any, and supporting affidavits, within 10 days after service of the motions or at such other time as permitted by the commission or its chairperson.

(5) The movant and respondent shall serve copies of their respective papers upon opposing parties before or concurrently with the filing with the commission, and the papers shall indicate the service.

History: 1954 ACS 86, p. 8, Eff. Feb. 4, 1976.

R 38.152 Motion for a more definite statement.

Rule 22. If a petition or answer is so vague or ambiguous that it fails to comply with these rules, the opposing party may move for a more definite statement before filing responsive pleadings. The motion shall point out the defects complained and the details desired.

History: 1954 ACS 86, p. 8, Eff. Feb. 4, 1976.

R 38.153 Motion to strike.

Rule 23. Upon motion made by a party or upon the commission's own initiative, the commission may order stricken from pleadings redundant, immaterial, impertinent, scandalous or indecent matter, or any part thereof not drawn in conformity with these rules, or evidence objected to which would not be admitted by the commission.

History: 1954 ACS 86, p. 8, Eff. Feb. 4, 1976.

R 38.154 Motion for accelerated judgment.

Rule 24. Upon motion, a party may demand that an appeal be denied for 1 or more claims and a petition dismissed on the basis that the commission lacks jurisdiction of the subject matter, or that the appeal is barred because it is untimely or because of some other disability of the petitioner or other disposition of the claim, before commencement of the appeal. The commission may order an immediate hearing on disputed questions of fact and render a judgment forthwith if the proofs show the moving party is so entitled, or it may postpone the hearing until the merits are heard.

History: 1954 ACS 86, p. 8, Eff. Feb. 4, 1976.

R 38.155 Motion for summary judgment.

Rule 25. (1) A party seeking to recover upon a claim, or against whom a claim is asserted, may move, with or without supporting affidavits, for summary judgment in his favor on all or any part of the claim at any time. The motion shall state that the moving party is entitled to judgment in his favor because of any of the following:

(a) The petitioner has failed to state a claim upon which relief can be granted.

(b) The controlling board has failed to state a valid defense to the claim asserted against it.

(c) There is no genuine issue as to a material fact, except as to the relief to be granted, and the moving party is therefore entitled to judgment as a matter of law.

(2) A motion based upon subdivision (c) shall be supported by affidavits, and the opposing party may serve opposing affidavits. The affidavits, together with the pleadings, admissions, and documentary evidence then filed in the action or submitted by the parties, shall be considered by the commission at the hearing. Judgment shall be rendered forthwith if the pleadings show that a party is entitled to judgment as a matter of law or if the affidavits or other proof show that there is no genuine issue of fact. If it appears that the opposing party, rather than the moving party, is entitled to judgment, the commission may render summary judgment in his favor without the necessity of a motion therefor.

History: 1954 ACS 86, p. 9, Eff. Feb. 4, 1976.

R 38.156 Motion for adjournment or continuance.

Rule 26. Adjournment or continuance shall not be granted except for good cause shown to the chairperson or designated member of the commission.

History: 1954 ACS 86, p. 9, Eff. Feb. 4, 1976.

R 38.157 Motion for default judgment.

Rule 27. A petitioner may move for a judgment by default if the appellee has failed to file and serve an answer in accordance with these rules and that fact is made to appear by affidavit. If, to enable the commission to enter a judgment or to carry it into effect, it is necessary to take testimony concerning lost salary, to

establish the truth of an allegation by evidence or to make an investigation of any other matter, the commission may conduct hearings as it deems necessary and proper. For good cause shown, the commission may set aside a default judgment if application to have it set aside is made before the entry of the judgment or within 1 month after the judgment was served upon the party defaulted. A proceeding to set aside a default judgment, except when grounded on want of jurisdiction of the matter, shall be granted only if good cause is shown and an affidavit of facts showing a meritorious defense is filed with the commission.

History: 1954 ACS 86, p. 9, Eff. Feb. 4, 1976.

R 38.158 Motion for rehearing.

Rule 28. A motion for rehearing may be filed within 60 days after the date of a decision. It shall state briefly and distinctly the grounds therefor.

History: 1954 ACS 86, p. 9, Eff. Feb. 4, 1976.

R 38.159 Hearing of motions.

Rule 29. When the motion is filed, the moving party shall request a date for a motion to be heard prior to or at the time of the prehearing conference. At the discretion of the commission and for just cause, a motion may be heard at any time. If no response, including a brief, to the motion is timely filed, the motion shall be considered and decided without a hearing unless otherwise ordered by the commission. The commission may dispense with or limit oral arguments on motions.

History: 1954 ACS 86, p. 9, Eff. Feb. 4, 1976.

PART 4. PREHEARING CONFERENCE

R 38.161 Scope of conference.

Rule 31. In every matter, the commission shall direct the parties and their attorneys to appear for a prehearing conference to:

(a) State and simplify the factual and legal issues involved and consider the amendment of pleadings.

(b) Consider motions to be disposed of before hearing, the consolidation of the case with another, admissions of fact and authenticity of documents to avoid unnecessary proofs, and limiting the number of witnesses and the nature and extent of the relief demanded.

(c) Produce all proposed documentary evidence and admit their authenticity whenever possible.

(d) Prepare a list of witnesses who may be called at the time of the hearing.

(e) Estimate the time for hearing.

(f) Discuss the possibility of settlement.

(g) Consider all other matters that may aid in the disposition of the subject of disagreement.

History: 1954 ACS 86, p. 9, Eff. Feb. 4, 1976.

R 38.162 Prehearing summary.

Rule 32. The petitioner, or his attorney, shall prepare and file and cause to be served upon the opposing party within 10 days after the prehearing conference a summary of the results of the conference specifically covering each of the items discussed. The opposing party, within 5 days of service of the summary, may file objections thereto with the commission.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976.

R 38.163 Hearing briefs.

Rule 33. The commission at the time of the prehearing conference may direct the parties to furnish the commission with a hearing brief as to any of the issues involved in the action. If required, hearing briefs are to be submitted to the commission at least 10 days before the hearing unless a different date is set by the commission, or unless the commission specifically waives the requirement.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976.

R 38.164 Presence of parties.

Rule 34. The commission may direct the parties to the action to be present or immediately available at the time of the prehearing conference.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976.

R 38.165 Waiver of prehearing conference.

Rule 35. The provisions of these rules pertaining to the prehearing conference and prehearing summary may be waived by stipulation of counsel of all parties to the action subject to the approval of the commission.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976.

PART 5. HEARINGS

R 38.171 Notice of hearing.

Rule 41. The commission shall notify all parties, including members of the commission, of the time and place of a hearing, either in person or by ordinary mail, at least 14 days prior thereto.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976.

R 38.172 General provisions.

Rule 42. A hearing for the purpose of taking evidence upon a petition shall be conducted by the commission or a hearing officer designated and authorized by the commission. A party may appear at a hearing in person or by legal counsel and may call, examine, and cross-examine witnesses and introduce into the record documentary or other evidence. Stipulations of fact may be introduced in evidence at the hearing at the discretion of the presiding officer conducting the hearing. An objection to the conduct of the hearing, including an objection to the introduction of evidence, may be oral or written and accompanied by a short statement of the grounds therefor. In a contested case, the rules of evidence as applied in a nonjury civil case in circuit court shall be followed as far as practicable, but the commission or its designated and authorized hearing officer conducting the hearing may admit and give probative effect to evidence of a type commonly relied upon by reasonably prudent people in the conduct of their affairs. Irrelevant, immaterial, or unduly repetitious evidence may be excluded. Effect shall be given to the rules of privilege recognized by law. Objections to offers of evidence may be made and shall be noted in the record. The commission may take official notice of judicially cognizable facts, and may take notice of general, technical, or scientific facts within the commission's specialized knowledge.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976; 1954 ACS 95, p. 5, Eff. May 31, 1978.

R 38.173 Subpoenas.

Rule 43. (1) At the request of a party, subpoenas for attendance at a hearing shall be issued by the chairperson of the commission. A subpoena may command

Digitized by Google Original from UNIVERSITY OF MICHIGAN

the person to whom it is directed to produce books, papers, documents, or other tangible things designated therein; but the commission, upon motion made at or before the time specified in the subpoena for compliance therewith, may quash or modify the subpoena if it is unreasonable or oppressive.

(2) Every subpoena shall be issued by the chairperson of the commission, shall state the title of the matter, and shall command each person to whom it is directed to attend and give testimony at a time and place therein specified. The chairperson shall issue a subpoena signed, but otherwise in blank, to a party requesting it, who shall fill it in before service.

(3) A subpoena shall be served by leaving it personally with the person to whom it is directed. The commission may allow service of a subpoena to be made upon a person in any other manner which is reasonably calculated to give him actual notice of the subpoena, if the chairperson of the commission has authorized the service before it is made, upon a showing to the chairperson that service of the subpoena cannot reasonably be made in person.

(4) Witnesses subpoenaed before the commission shall be paid the same fees and mileage that are paid to witnesses in circuit courts. Witness fees and mileage shall be paid by the party at whose instance the witnesses appear, but may be recovered by the appealing body as costs if the commission so directs.

History: 1954 ACS 86, p. 10, Eff. Feb. 4, 1976.

R 38.174 Depositions.

Rule 44. The chairperson of the commission, upon the request of a party, may permit the taking of depositions or the serving of interrogatories for the purpose of discovery or testimony if the ends of justice would be served. A deposition shall be taken in accordance with the procedural requirements for the taking of depositions set forth in the Michigan general court rules.

History: 1954 ACS 86, p. 11, Eff. Feb. 4, 1976.

R 38.175 Briefs.

Rule 45. A party is entitled, upon request made before the close of the hearing, to file a brief with the commission which may fix a reasonable time for the filing. The commission may direct the filing of briefs if in its opinion the filing is warranted by the nature of the proceedings or the particular issues involved. The commission shall designate the manner of filing and serving and the time therefor.

History: 1954 ACS 86, p. 11, Eff. Feb. 4, 1976.

R 38.176 Proposed findings of fact and decision.

Rule 46. A party is entitled, upon request made before the close of the hearing, to file proposed findings of fact, or a proposed decision, or both, with the commission which may fix a reasonable time for the filing. The commission may direct the filing of proposed findings of fact or a proposed decision, or both, when in the opinion of the commission the filing is warranted by the nature of the proceedings or the particular issues involved. The commission may designate the manner of filing and serving and the time therefor.

History: 1954 ACS 86, p. 11, Eff. Feb. 4, 1976.

R 38.177 Decision or order.

Rule 47. (1) A decision or order of the commission shall be effective only if voted upon by a majority of the members of the commission; however, during the course of the hearing, the rulings of the chairperson of the commission are final.

(2) A decision or order of the commission shall be served in writing to the parties concerned, or to their attorneys if represented, by registered mail.

History: 1954 ACS 86, p. 11, Eff. Feb. 4, 1976.

R 38.178 Powers of chairperson of the commission.

Rule 48. The chairperson of the commission shall have the power to:

(a) Hold prehearing conferences.

(b) Dispose of procedural requests or similar matters.

(c) Continue or adjourn a hearing.

(d) Allow depositions to be taken.

(e) Issue subpoenas in the name of the commission.

(f) Conduct the hearing and take any other action which he is authorized to take under these rules.

(g) Designate a member of the commission to act as his delegate and exercise any of his powers whenever he is unable to act and circumstances require immediate action to be taken.

History: 1954 ACS 86, p. 11, Eff. Feb. 4, 1976.

DEPARTMENT OF MANAGEMENT AND BUDGET

PUBLIC SCHOOL EMPLOYEES' RETIREMENT BOARD

GENERAL RULES

R 38.201—R 38.215 Rescinded.

History: 1944 ACS 5, p. 22; 1954 AC, pp. 701, 702; rescinded 1954 ACS 13, p. 37, Eff. Feb. 14, 1958.

GENERAL RULES

(By authority conferred on the public school employees' retirement board by section 7 of chapter 1 of Act No. 136 of the Public Acts of 1945, being §38.207 of the Michigan Compiled Laws)

R 38.221 Place of meetings.

Rule 1. All meetings of the board, unless otherwise ordered by the president, shall be held at Lansing in the building where the offices of the public school employees' retirement system are situated.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.222 Regular meetings; time.

Rule 2. Regular meetings of the board shall be held at 10:30 a.m. on the first Monday of January, March, May, July and November and on the second Monday of September.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.223 Annual meeting; officers; term.

Rule 3. The annual meeting of the board shall be held in July and the officers elected at the annual meeting shall take office immediately on election and serve until their successors are elected.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.224 Special meetings.

Rule 4. Special meetings of the board may be held at any time on call of the president, or on written request to the secretary by the majority of the members of the board. Unless by unanimous consent, a special meeting shall not be held without 3 days' written notice to each member of the board.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.225 Order of business.

Rule 5. The order of business at all regular meetings shall be as follows:

(a) Roll call.
(b) Approval of minutes.
(c) Consideration of financial report.
(d) Action on allowance applications.
(e) Unfinished business.
(f) New business.
(g) Special reports.
(h) Adjournment.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.226 Contributions; forwarding.

Rule 6. Reporting units shall forward all employee retirement contributions deducted to the retirement system monthly. Employer contributions from higher education and federally funded programs shall be forwarded quarterly. Social security employee contributions shall be forwarded to the social security contribution fund as required by the state social security administrator.

History: 1954 ACS 13, p. 37, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.227 Quarterly affidavits; filing; contents.

Rule 7. By January 11, April 11, July 11 and October 11 of each year, each reporting unit shall file with the secretary of the retirement board a quarterly affidavit covering the preceding 3 months. This affidavit shall certify to the aggregate wages, wages paid from federal funds and contributions as required by statute. A report shall also be required as determined by the retirement board which shall include a list of all persons employed by the reporting unit, together with such other information on salary, service and contributions as is required for retirement reporting purposes. A report for social security reporting purposes shall be filed with the social security contribution fund as required by the state social security administrator.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 5, Eff. July 6, 1974.

R 38.228 Interest on contributions.

Rule 8. Interest on contributions from members to the annuity accumulation fund made in the fiscal year from July 1 through June 30 shall begin on the first day of the fiscal year next following and shall be computed at the end of that fiscal year.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.229 Application for retirement.

Rule 9. Application for retirement shall be made on forms furnished by the retirement board and shall be filed with the secretary of the retirement board. A letter of inquiry relative to retirement is not an application for retirement.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.230 Part-time service.

Rule 10. Where the terms of employment of a member call for less than 20 days of service per month, the employee shall be given credit toward retirement in proportion to the number of days of actual service that constitutes full-time service credit.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.231 Fractional years of service.

Rule 11. Where a member serves less than a school fiscal year, such time shall be credited as a fractional part of a school fiscal year in the proportion which the number of days actually served bears to the number of days that constitutes full-time service credit. All earned salaries for service performed under this chapter which are received by a member shall be credited toward retirement.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.232 Part-time members.

Rule 12. Part-time members shall receive service credit for full-time service on the basis of 30 or more hours per week and proportionate credit for less than 30

Digitized by Google Original from UNIVERSITY OF MICHIGAN

hours on the basis of 30 hours for full-time credit in the proportion which the hours employed in the school fiscal year bears to 1,020 hours.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.233 Year of service.

Rule 13. The board shall grant a year of service to any member who has been employed during the school fiscal year from July 1 to June 30 for 170 days of not less than 6 hours per day. The board may allow a year of service credit if the member was employed for a minimum of 150 days when it is needed to qualify a member or beneficiary for a monthly allowance in the final year of service. This minimum may also be used when the employing school agency's full-time employee's term of employment is less than 170 days.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.234 Fractional years; crediting.

Rule 14. In determining the allowance of a member, fractional parts of years for members qualifying for an allowance under section 15a will not be credited unless they add together to make an additional total year.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

R 38.235 Refunds; probate court orders.

Rule 15. A written order by the judge of probate of the county of residence instructing the retirement board to make a refund to the administrator or executor of the estate of a deceased member, or other qualified person designated by such judge of probate, may be accepted in lieu of the written nomination of beneficiary where no valid written nomination of beneficiary is on file with the system.

History: 1954 ACS 13, p. 38, Eff. Feb. 14, 1958; 1954 ACS 80, p. 6, Eff. July 6, 1974.

PROCEDURE FOR CONDUCTING HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, and section 7 of chapter 1 of Act No. 136 of the Public Acts of 1945, as amended, being §24.101 et seq. and §38.207 of the Michigan Compiled Laws)

R 38.301 Notice of hearing.

Rule 1. Notification of any hearing before the Michigan public school employees' retirement fund board will be by registered mail, and will state the date, time, place, issues involved and reasons for holding said hearing. Such notice will be mailed at least 10 days prior to said hearing. Unless indicated otherwise, all hearings will be held in the Lewis Cass Building in Lansing.

History: 1944 ACS 37, p. 19; 1954 AC, p. 702.

R 38.302 Appearance.

Rule 2. When an appearance is made at a hearing, it shall be made either in person or by a duly authorized representative, or by counsel.

History: 1944 ACS 37, p. 19; 1954 AC p. 702.

R 38.303 Written answer; oral statement on charges; service of briefs or arguments.

Rule 3. The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral statement on the charges contained

in the notice of hearing. When written briefs or arguments are presented, a copy shall be served upon the adverse party or his attorney and opposite parties at least 10 days prior to the date set for the hearing.

History: 1944 ACS 37, p. 19; 1954 AC, p. 703.

R 38.304 Failure to appear.

Rule 4. If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the Michigan public school employees' retirement fund board may proceed with a hearing of the cases brought before them and may, on the evidence presented, make their decision.

History: 1944 ACS 37, p. 19; 1954 AC, p. 703.

R 38.305 Statement of facts.

Rule 5. When a hearing is requested, the party requesting the hearing shall submit in writing a fair and accurate statement of the facts to the executive secretary of the retirement board and all interested parties. The facts shall be accepted as evidence unless a written answer is filed denying said facts and stating new facts relied upon with the retirement board and all interested parties.

History: 1944 ACS 37, p. 19; 1954 AC, p. 703.

R 38.306 Adjournment or continuance of hearing.

Rule 6. No hearing shall be adjourned or continued, except upon an order of retirement board or the department employee conducting the hearing. All motions and requests for an adjournment, or a continuance, shall be in writing, which instrument shall state concisely the reasons why an adjournment or continuance is necessary. No motion or request for an adjournment or continuance will be considered unless the same is filed with the retirement board at least 10 days prior to the date assigned for the hearing of the application, complaint or petition, except upon order of the retirement board, which exception will be granted only upon showing that for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

History: 1944 ACS 37, p. 19; 1954 AC, p. 703.

R 38.307 Stipulations.

Rule 7. The parties to any hearing before the retirement board may, by a stipulation in writing, filed with the retirement board, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence on the hearing. Parties are requested to thus agree upon the facts whenever practicable.

History: 1944 ACS 37, p. 19; 1954 AC, p. 703.

R 38.308 Depositions.

Rule 8. Depositions shall only be taken upon written authority of the retirement board where it is proved in writing to the retirement board that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being Michigan Statutes Annotated, §27.854, et seq., with all parties given an opportunity to cross-examine the witness under oath.

History: 1944 ACS 37, p. 19; 1954 AC, p. 703.

DEPARTMENT OF CIVIL SERVICE

PERSONNEL SERVICES BUREAU

SUGGESTION AWARDS PROGRAM

(By authority conferred on the department of civil service by section 6 of Act No. 325 of the Public Acts of 1978, being §38.1166 of the Michigan Compiled Laws)

R 38.901 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 325 of the Public Acts of 1978, being §38.1161 et seq. of the Michigan Compiled Laws.

(b) "Administrator" means the suggestion awards program administrator.

(c) "Committee" means the suggestion awards committee appointed in each state department, the state legislature, and the judiciary.

(d) "Coordinator" means the representative for the suggestion awards program in state departments and the legislative and judicial branches of state government.

(e) "Department head" means the director of a department of the executive branch, the chief justice of the judicial branch, and the chief administrative officers of the legislative branch.

(f) "Evaluator" means an appropriate person within the specific organization affected by the suggestion who ascertains the value of a suggestion in operational terms or goals and, if possible, in monetary terms.

(g) "State department" means any of the principal departments created by Act No. 380 of the Public Acts of 1965, as amended, being §16.101 et seq. of the Michigan Compiled Laws, and the legislative or judicial branch of state government.

(h) A "state employee" does not include an elected official in the executive, legislative, or judicial branches of state government.

(i) "Suggestion" means the concise written identification of a problem, situation, or condition, along with a recommendation for a remedy or improvement.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 99, p. 18, Eff. Mar. 29, 1979.

R 38.902 Administration of program.

Rule 2. The state personnel director, through his appointed suggestion awards administrator, is responsible for the overall administration of the suggestion awards program.

History: 1954 ACS 99, p. 19, Eff. Mar. 29, 1979.

R 38.903 Suggestion awards board; establishment; chairperson.

Rule 3. (1) If the department of civil service creates a suggestion awards board, members of said board shall be selected from a list of state employees. The list shall consist of names of nominees provided to the state personnel director by the department heads of the executive branch and of the legislative and judicial branches of state government. Not more than 1 nominee shall be from the same department. One member of the board may represent the legislative branch, 1 may represent the judicial branch, and 3 may represent the executive branch.

(2) At its first meeting each calendar year, the board shall elect from its membership a chairperson. The chairperson shall preside at all meetings. In his or her absence, the members of the board, at a meeting at which a quorum is present,

shall designate a temporary chairperson to preside. A quorum shall consist of 3 members of the board.

History: 1954 ACS 99, p. 19, Eff. Mar. 29, 1979.

R 38.904 Suggestion awards board; meetings; public participation.

Rule 4. (1) The board shall hold a minimum of 3 meetings annually and such additional meetings as it deems necessary.

(2) In respect to public participation at board meetings, the following provisions apply:

(a) A person shall be provided an opportunity to address the board at an open meeting in accordance with this rule.

(b) The chairperson shall provide a reasonable opportunity for members of the public to address the board on an agenda item, if a request to speak is given to the executive secretary or chairperson prior to board consideration of the item.

(c) The chairperson shall provide a reasonable opportunity for members of the public to address the board on a subject which is not an agenda item, if a request to speak is given to the executive secretary or chairperson prior to the conclusion of the meeting.

(d) In accordance with procedural due process of law, members of the public shall not be permitted to address the board on pending appeal cases.

(e) A person wishing to address the board may be required to identify himself or herself and, if they are appearing in a representative capacity, shall identify the interest which they represent.

(f) The chairperson may impose reasonable limitations on the time allotted for comments by members of the public.

(g) The chairperson shall conduct the public participation portion of the open meetings in an orderly and decorous fashion.

(h) A group of 5 or more persons should give advance notice of their intention to attend a board meeting so that an effort can be made to provide adequate space. The chairperson may limit the number of persons admitted to the meeting room if necessary to comply with public safety laws and regulations.

(i) The board may hold closed, deliberative sessions when confidentiality has been requested by the employee as a condition of making the suggestion and a majority of the board deems it appropriate to honor the request. The closed session shall be in compliance with Act No. 267 of the Public Acts of 1976, being §15.261 et seq. of the Michigan Compiled Laws, and known as the open meetings act.

(3) The board decision on an employee appeal is final and not subject to the statewide grievance and appeals procedure as set forth in the employee relations policy and regulations issued by the department of civil service.

History: 1954 ACS 99, p. 19, Eff. Mar. 29, 1979.

R 38.905 Administrator; duties.

Rule 5. The administrator shall be the full-time executive officer of the suggestion awards program and shall serve as the executive secretary of the suggestion awards board. The administrator shall do all of the following:

(a) Supervise and promote the suggestion awards program. Promotion of the program may include, but is not limited to, the use of news releases, flyers, posters, suggestion stands, payroll stuffers, and advertising specialties.

(b) Arrange the suggestion awards board meetings, including determining the time and location, preparing a proposed agenda, and notifying members. The executive secretary shall record the minutes of all meetings and distribute them to

Digitized by Google Original from UNIVERSITY OF MICHIGAN

members of the board. The executive secretary shall actively participate in the meetings of the board. The executive secretary shall also stamp as confidential each page of the minutes of closed, deliberative sessions and distribute them only to members of the board.

(c) Receive all suggestions and refer them to committees for investigation.

(d) Preliminarily screen suggestions to insure their conformity to the rules of the program.

(e) May refer suggestions with broad applicability to several departmental suggestion committees.

(f) Recommend action on suggestions under consideration by the suggestion awards board.

(g) Devise forms and procedures to implement the program.

(h) Work with the board to develop a plan for evaluating suggestions.

(i) Draft and propose rules and regulations regarding the operation of the program.

(j) Consult with and advise committees and coordinators.

(k) Submit a budget annually to the department for the administrative operation of the suggestion program.

History: 1954 ACS 99, p. 19, Eff. Mar. 29, 1979.

R 38.906 Committees; establishment; duties.

Rule 6. (1) Each department head shall establish a committee to consist of 3 members, all of whom shall be employees.

(2) A committee shall review suggestions that are referred to it by the administrator.

(3) Without undue delay, a committee shall report to the administrator concerning each submitted suggestion. The report shall contain an analysis of the suggestion, the reasons for approving or declining the suggestion; if approved, the estimated savings or benefits and a recommended award, and any other information that may be required by the act or these rules.

History: 1954 ACS 99, p. 20, Eff. Mar. 29, 1979.

R 38.907 Coordinator; appointment; duties.

Rule 7. A department head shall appoint a departmental suggestion coordinator who shall do all of the following:

(a) Receive suggestions, route them to personnel knowledgeable in the area addressed in the suggestion for evaluation, schedule the return of the written evaluation, and schedule suggestions and evaluations for consideration by the suggestion awards committee.

(b) Verify that approved suggestions are put into effect, and notify the administrator when this takes place.

(c) Promote the suggestion awards program.

(d) Arrange award presentations.

(e) Resubmit declined suggestions to the committee for reconsideration if new facts appear which warrant reconsideration or if the suggestion has been implemented.

(f) Submit an annual report to the administrator which shall separate the types of suggestions as tangible or intangible.

(g) Prepare draft correspondence addressed to the suggester explaining the action of the committee and forward it to the administrator for disposition.

(h) Receive requests for appeal of a committee decision from the suggester. The basis for an appeal may be new information or information previously

UNIVERSITY OF MICHIGAN

overlooked or misunderstood. Based on the reasons for redetermination, the committee will review its decision. If the suggester does not agree with the committee review, the coordinator shall forward the appeal to the suggestion awards board.

History: 1954 ACS 99, p. 20, Eff. Mar. 29, 1979.

R 38.908 Eligibility of suggestion for award; appeal of committee decision; final decision; rights to suggestions.

Rule 8. (1) To be eligible for consideration for an award, a suggestion may:

(a) Result in tangible savings which can be measured in dollars, or

(b) Result in obvious savings to state government or the public which cannot be measured precisely or which, without direct dollar savings, improves service, convenience, humanitarianism, or has other intangible value.

(2) A suggestion shall be submitted on forms prescribed by the suggestion awards board and signed by the suggester.

(3) A suggestion pertaining to any of the following is not eligible for an award:

(a) Matters regarding an individual's classification, compensation, hours of work, labor relations, routine maintenance items, or grievances concerning personnel practices.

(b) A suggestion requiring legislative action; however, a suggestion submitted which requires legislative action shall be noted and returned to the suggester. If, on the suggester's initiative through his or her department or his or her own work, legislation is passed implementing the idea, the idea shall be considered for an award. The suggester shall notify the suggestion awards administrator if the legislation is implemented.

(c) Suggestions developed as part of the employee's work, such as any of the following:

(i) When it is part of the employee's job responsibility to develop new ideas.

(ii) When the employee has a temporary job assignment in the subject area.

(iii) When the employee is a supervisor with the authority to implement the suggestion.

(iv) When the employee is a part of a management group with the authority to implement the suggestion.

(4) The board shall make the final decision on an employee appeal regarding the eligibility of a suggestion.

(5) All suggestions implemented under the suggestion awards program become the property of the state of Michigan.

(6) A non-adopted suggestion may remain eligible for subsequent adoption and award for a period of 2 years beyond the submission date, after which time the use of the suggestion would not obligate the state unless it is resubmitted on the official suggestion form in accordance with procedures in effect at that time. If a suggestion has not been evaluated within 2 years of its submission, the suggester retains equity in the idea until it has been adopted or declined.

History: 1954 ACS 99, p. 20, Eff. Mar. 29, 1979.

R 38.909 Suggestions implemented but not awarded.

Rule 9. An employee may submit an idea which has been implemented. The suggestion shall be submitted within 30 days of implementation to be eligible.

History: 1954 ACS 99, p. 21, Eff. Mar. 29, 1979.

R 38.910 Processing of suggestions.

Rule 10. (1) The board shall develop procedures to implement these rules.

DEPARTMENT OF TREASURY

STATE BOUNDARY COMMISSION

GENERAL RULES

(By authority conferred on the state members of the state boundary commission by section 4 of Act No. 191 of the Public Acts of 1968, as amended, being §123.1004 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 123.1 Definitions; A to I.

Rule 1. (1) The terms defined in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 191 of the Public Acts of 1968, as amended, being §§123.1001 to 123.1020 of the Michigan Compiled Laws.

(3) "Active petition" means an annexation petition or resolution, or incorporation or consolidation petition that is first in line at the time of its filing, or becomes first in line by the removal of a prior blocking petition or court action.

(4) "City incorporation" means the formation of a new city from unincorporated territory; 1 or more villages and contiguous unincorporated territory or an incorporated village without change of boundaries.

(5) "Consolidation" means the formation of a new city from 1 city, 1 village and unincorporated territory; or 1 city and 1 village; or 2 or more cities; or 2 or more cities and unincorporated territory; or 2 or more cities and 1 village; or 2 or more cities and 1 village and unincorporated territory; or 2 or more cities and 2 or more villages; or 2 or more cities, 2 or more villages and unincorporated territory; or 1 city and unincorporated territory.

(6) "Home rule city act" means Act No. 279 of the Public Acts of 1909, as amended, being §§117.1 to 117.38 of the Michigan Compiled Laws.

(7) "Home rule village act" means Act No. 278 of the Public Acts of 1909, as amended, being §§78.1 to 78.28 of the Michigan Compiled Laws.

(8) "Inactive petition" means an annexation petition or resolution or incorporation or consolidation petition that must wait in line because of an earlier filed petition describing the same area in part or whole or a petition blocked by legal action.

History: 1954 ACS 81, p. 8, Eff. Oct. 22, 1974.

R 123.3 Definitions; P.

Rule 3. (1) "Person" means an individual, partnership, corporation, association, municipality, or the state.

(2) "Petitioner" means a person who has signed, or circulated and verified, a petition for annexation, incorporation or consolidation or who has voted on and passed an annexation resolution as described in sections 7 and 12 of the act and subsections (2) and (7) of section 9 of the home rule city act and who has filed such petition or resolution with the commission.

History: 1954 ACS 81, p. 8, Eff. Oct. 22, 1974.

R 123.4 Definitions; V.

Rule 4. "Village incorporation" means the formation of a new village from unincorporated territory.

History: 1954 ACS 81, p. 9, Eff. Oct. 22, 1974.

R 123.5 Scope and construction of rules.

Rule 5. These rules govern practice and procedure in all matters before the commission and shall be liberally construed to assure a just, economical and expeditious determination of the issues presented in accordance with the purposes of the act.

History: 1954 ACS 81, p. 9, Eff. Oct. 22, 1974.

R 123.6 Determining if population is over 100.

Rule 6. (1) Where an annexation petition or resolution is first in line upon its filing and can be acted upon, then the filing date population of 100 or less, or over 100 in the area to be annexed shall be determined as soon as practicable after the filing by 1 of the following methods:

(a) By joint agreement of the involved township board and city council and their certification to the commission of the count.

(b) By submission of either the township board or the city council, or both, of a certified list of the names and addresses of all residents in the area proposed to be annexed on the date the petition was filed. If both legislative bodies file lists, the commission shall examine the lists and using the guidance of applicable statutes, attorney general opinions or court decisions make a final population determination. If only 1 legislative body files a resident list, the commission shall supply a copy of the filed list to the nonfiling board and grant 30 days for that board to file written challenges to any names contained in the filed list. Upon the filing of a written challenge the commission shall examine the challenge and using the guidance of applicable statutes, attorney general opinions or court decisions the commission shall make a final population determination. If the commission receives only 1 filed certified resident list and that list receives no challenge, it shall stand as the determined population and the commission shall so certify.

(c) By a door-to-door canvass and interviews with the people within the area proposed to be annexed.

(d) By the method described in subrule (2).

(2) Where an annexation petition or resolution has waited in line, the filing date population of 100 or less, or over 100 in the area to be annexed shall be determined as follows:

(a) Residential structures within the area to be annexed shall be counted and classified as single family homes, mobile homes and multiple dwellings including duplex, triplex, apartments and condominiums. The total number of dwelling units shall be determined according to this classification and where necessary records are available, adjusting the count for addition or subtraction of dwelling units since the filing date.

(b) The average number of residents per dwelling unit factor by type of structure where available, or the average number of residents per dwelling unit for the municipality in which the area to be annexed is located or the county in which it is situated, derived in each instance from the last federal decennial or special census, shall be obtained. The commission shall use the factor that can be derived from the smallest political subdivision in which the area to be annexed is located to determine the population as of the date of filing.

(c) The number and type of dwelling units shall be multiplied by the average number of residents factor for that type of dwelling unit and the resultant populations for type of dwelling unit shall be added together to obtain total population.

History: 1954 ACS 81, p. 9, Eff. Oct. 22, 1974.

PART 2. PREPARATION, FILING, AND PROCESSING PETITIONS

R 123.21 Filings.

Rule 21. (1) An incorporation or consolidation petition or annexation petition or resolution shall be filed with the secretary at his office in Lansing. A statement signed by at least 1 signer of the petition or resolution designating the name and address of a natural person to receive notices on behalf of all signers shall accompany the filing or shall be filed separately within 10 business days from the filing. Notice served by the commission or any other person on the designated natural person shall be deemed notice to all signers of the petition or voters on the resolution. Notice to an affected city, village, township or county shall be through its clerk. Upon the filing of a petition or resolution, the secretary shall make a notation as to the date and time of filing. Receipt of a petition is not an acknowledgement that the petition is proper or sufficient.

(2) Other items permitted or required to be filed with the commission shall be tendered in a legible reproducible form and deposited with or mailed to the secretary at his office in Lansing. He shall receive them only during business hours.

(3) A person may request, in writing, that the secretary notify him in writing when a document has been filed in a specific pending matter and the secretary shall send the notice at the earliest practicable time after the filing of the item.

(4) A person may inspect the commission's file regarding a specific pending matter at the secretary's office in Lansing during regular business hours and at his own expense may cause the contents of the file to be duplicated. A person other than the commissioners or staff may not remove an original or sole copy of any item from the file. A duplicate copy may be removed under such conditions as the secretary imposes for not to exceed 24 hours for the purposes of duplication.

History: 1954 ACS 81, p. 9, Eff. Oct. 22, 1974.

R 123.22 Pleadings.

Rule 22. In addition to petitions required by sections 7 and 12 of the act, and petitions and resolutions required by subsections (2) and (7) of section 9 of the home rule city act, objections to the form or substance of a petition or resolution, answers to such objections, a memorandum brief on issues of fact or law and such other pleadings as the commission by its order shall allow may be filed.

History: 1954 ACS 81, p. 10, Eff. Oct. 22, 1974.

R 123.23 Determination of days to public hearing.

Rule 23. (1) For purposes of determining the minimum 60 days and maximum 220 days from filing of an active petition or resolution to the holding of the public hearing, the filing day shall not be counted.

(2) The 60- and 220-day public hearing requirement shall not apply to inactive petitions until such time that they may become active petitions.

History: 1954 ACS 81, p. 10, Eff. Oct. 22, 1974.

R 123.24 Rejected petitions or resolutions.

Rule 24. (1) The commission shall reject an annexation petition or resolution for territory which includes all or any part of the territory which was described in any annexation petition or resolution filed within the preceding 2 years and which was denied by the commission or was defeated in an election.

(2) The commission shall reject a consolidation petition if a proposition to consolidate the identical municipalities has been voted on within the 2 years immediately preceding the filing of the later petition.

(3) Upon such determination, the secretary shall return the petition or resolution to the petitioner and certify the reasons for its rejection.

(4) The 2-year period shall start on the day the prior annexation petition or resolution was filed.

(5) The 2-year period shall not apply to annexation petitions or resolutions that are rejected by the commission for not being legally sufficient.

History: 1954 ACS 81, p. 10, Eff. Oct. 22, 1974.

R 123.25 Petitions, general.

Rule 25. (1) Part I of incorporation or consolidation petitions or annexation petitions or resolutions shall consist of a map or drawing clearly showing the territory proposed to be incorporated, consolidated or annexed and be constructed by the petitioner in such a way that its minimum size is 8½" x 13" with a maximum size of 14" x 18". Parts II through VI shall be prepared on forms furnished by the commission. Part VII shall contain a map showing the relationship of the area proposed for incorporation, consolidation or annexation to the balance of the involved and adjacent units of government which may be of a size that the petitioner chooses and which shall not be considered by the commission in its determination of legal sufficiency. For the purpose of determining legal sufficiency, a perimeter map or drawing and legal description shall be part of the petition and shall be substantially accurate and consistent with each other.

(2) In a petition submitted to the public for signature, the map or drawing accompanying the signature sheets shall be of sufficient scale and clarity as to be unambiguous to a layman with respect to the inclusion or exclusion of his own property and the relationship of the petitioned area to identifiable roads, section lines, existing local government boundaries and major geographic features. Upon discovery of a disparity between various public or private records as to land ownership or the location of local government boundaries, the disparity shall be brought to the attention of the commission, the petitioners and the affected units of government prior to the commission's meeting on the legal sufficiency of the petition.

(3) Where maps, drawings, plats, deeds, surveys, legal descriptions, or other documents that are part of the petition or resolution contain reference to additional recorded data or documents that are found to be necessary to determine the accuracy of the petition, map, drawing, or legal description, and copies of these recorded documents are not a part of the petition, the secretary may request the petitioner to supply copies of these documents to the commission by a date specified by the secretary, which date shall be prior to the commission's meeting on the legal sufficiency of the petition.

(4) An annexation petition by a firm, corporation, or other formal organization and an annexation resolution shall contain copies of resolutions, meeting minutes, correspondence, transmittal letters, or other documents that are necessary to show that the petitioner was authorized to file. Where a city planning commission or a board or commission other than the city council initiates annexations, the petition shall contain copies of all documents necessary to show that the city council was fully informed before approving the annexation resolution. Similarly, for other organizations for which an officer or other authorized agent initiates a petition, it shall be documented that the proper governing body of that organization was fully informed before approving the annexation petition.

(5) Upon filing, each petition shall stand or fall on its own content. Modifications, corrections, deletions or additions to a petition shall not be made except those authorized in subrule (3) and R 123.27.

History: 1954 ACS 81, p. 10, Eff. Oct. 22, 1974.

R 123.26 Forms.

Rule 26. A petition, and survey certification which may be required by commission order pursuant to R 123.27, shall be prepared on a size paper and in accordance with forms furnished by the commission. A petition and certificate shall contain only the matters prescribed by the forms and such additional information as the commission deems necessary. A petition shall not be considered unless it is prepared on the proper commission form. Blank petition forms shall be furnished by the commission.

History: 1954 ACS 81, p. 11, Eff. Oct. 22, 1974.

R 123.27 Boundary identification.

Rule 27. (1) A petition for incorporation, consolidation, or annexation or an annexation resolution shall clearly identify graphically and by an accurate written description the boundaries of the land that are proposed to be incorporated, consolidated, or annexed.

(2) The commission may order that all or part of the boundaries of the area be certified by a registered land surveyor.

History: 1954 ACS 81, p. 11, Eff. Oct. 22, 1974.

PART 4. PREHEARING PROCEDURES

R 123.41 Forms.

Rule 41. The documents required by R 123.42 and R 123.46 to R 123.49 shall be completed only on forms prescribed and furnished by the commission. In addition to the contents of the documents prescribed by those rules, the documents shall contain such additional information as the commission deems necessary and reasonable.

History: 1954 ACS 81, p. 11, Eff. Oct. 22, 1974.

R 123.42 Annexation, consolidation, and incorporation; criteria information.

Rule 42. Upon the declaration of legal sufficiency of an annexation petition or resolution or a consolidation or incorporation petition, the petitioner and the involved units of government shall be instructed to complete and return within 30 days of mailing a criteria information evaluation questionnaire which shall be provided by the commission.

History: 1954 ACS 81, p. 11, Eff. Oct. 22, 1974.

R 123.43 Prehearing conference.

Rule 43. (1) Upon filing the form required by R 123.42, the commission may hold a prehearing conference to which the petitioners, representatives from involved units of government, affected or interested state and federal agencies, affected planning commissions, other interested organizations and persons may attend and which may include, among other topics:

(a) Examination and discussion of the information shown to be available on the criteria information evaluation questionnaire.

(b) Determination if any additional information not listed on the questionnaire is available.

(c) Determination of what criteria information needs to be developed.

(d) Adoption of a resolution which shall:

(i) Specify additional information that is required to be developed.

Digitized by Google Original from UNIVERSITY OF MICHIGAN

(ii) Specify dates the information shall be available.

(iii) Specify who shall provide the information.

(iv) Specify who shall pay the cost of providing the information.

(2) Within 10 days after adoption of the resolution provided for in subrule (1), the commission shall notify by mail the persons originally notified of the prehearing conference or attending the prehearing conference and include a copy of the resolution and the completed and filed criteria information evaluation questionnaire.

History: 1954 ACS 81, p. 12, Eff. Oct. 22, 1974.

R 123.44 Criteria information; methods of gathering.

Rule 44. After declaring the sufficiency of a petition or resolution, the commission may obtain the criteria data or information prescribed in section 9 of the act in the following manner:

(a) By directing the secretary to send written questions or requests for specific information to the petitioner, involved units of government, affected or interested state and federal agencies, affected planning commissions or other interested persons or governmental units to be filed in writing with the commission by a specified date prior to the public hearing date.

(b) By directing its staff, departmental employees or other personnel to gather the data or information it deems necessary which shall be available to the commission at a specified date prior to the public hearing date. In addition, the commission may direct that the raw data or information be analyzed, organized, condensed, summarized and presented to the commission in a compacted form. All raw data shall be maintained as part of the commission's file.

(c) By contracting with outside consultants to perform the functions of subdivision (b).

(d) By using the method described in R 123.43.

(e) By using all or any combination of these methods.

History: 1954 ACS 81, p. 12, Eff. Oct. 22, 1974.

R 123.45 Petitions filed with county clerk or secretary of state; notice to commission.

Rule 45. (1) Within 10 days after the filing of an annexation petition or resolution a county clerk or the secretary of state shall complete and transmit to the commission and involved units of government a notice of filing of request for local government boundary change.

(2) Within 30 days after reviewing the notice required by subrule (1), the commission shall complete and transmit to the county clerk or secretary of state a commission reply to the notice.

History: 1954 ACS 81, p. 12, Eff. Oct. 22, 1974.

R 123.46 Petitions and resolutions filed with commission; notice.

Rule 46. (1) Within 10 days after the filing of an incorporation or consolidation petition or annexation petition or resolution, the commission shall complete and transmit to the involved local governmental clerk, the affected county clerk or the secretary of state a notice of petition filing with the commission.

(2) Within 30 days after receiving the notice required by subrule (1), a clerk or secretary of state shall complete and transmit to the commission a response.

History: 1954 ACS 81, p. 12, Eff. Oct. 22, 1974.

R 123.47 Notice of final action.

Rule 47. (1) Upon the completion of all its actions on an active city or village annexation petition or resolution, a city or village council or township board shall notify the commission by mail.

(2) Upon the completion of all action on an active incorporation or consolidation petition or a home rule city annexation petition or resolution under the jurisdiction of the commission, the commission shall notify the clerks of the involved local governments, the county clerk and secretary of state by mail that action on the petition is closed.

History: 1954 ACS 81, p. 13, Eff. Oct. 22, 1974.

PART 5. COMMISSION SESSIONS

R 123.51 Adjudicative sessions; call; attendance; presiding officer.

Rule 51. (1) When necessary the chairman shall call an adjudicative session, which may be an executive session, in Lansing or such other place as he designates, for the purpose of transacting any business described in R 123.52 under the conditions prescribed in R 123.53 and R 123.54. Where possible, the sessions shall be attended by all state members serving and by the county members appointed to sit on the commission.

(2) A quorum consists of at least 3 members at least 2 of whom are state members. Regardless of the number of commissioners present, at least 3 concurring votes are required to take any final adjudicative action.

History: 1954 ACS 81, p. 13, Eff. Oct. 22, 1974.

R 123.52 Business.

Rule 52. At an adjudicative session, the commission shall take 1 or more of the following actions:

(a) Pass on the propriety, sufficiency, and legality of a petition or resolution before its call for a public hearing.

(b) Order the date, place, and time for a public hearing.

(c) After the public hearing, and a supplemental hearing, if any, basing its decision on the evidence received at the hearings, take any appropriate action authorized by the act.

History: 1954 ACS 81, p. 13, Eff. Oct. 22, 1974.

R 123.53 Votes.

Rule 53. At an adjudicative session a concurring vote of at least 3 commissioners is required to take final action. The votes of each commissioner shall be noted in the commission's record. The chairman is a voting member of the commission on all matters. A member may abstain from voting on any matter.

History: 1954 ACS 81, p. 13, Eff. Oct. 22, 1974.

R 123.54 Record and finality of action.

Rule 54. A record shall be made of all proceedings at an adjudicative session. Commission action shall be regarded as final for all purposes other than judicial review when a vote has been recorded to reject, deny, approve, or approve with adjusted boundaries, although the commission's findings of fact and order may not have been reduced to written form and approved. Effective dates of the preceding action may be determined at the adoption of the written findings of fact and order. For purposes of judicial review, commission action is final when the written findings of fact and order are signed by the chairman.

History: 1954 ACS 81, p. 13, Eff. Oct. 22, 1974.

R 123.55 Administrative sessions.

Rule 55. (1) When necessary the chairman shall call the other state members into an administrative session, which may be an executive session, in Lansing or such other place as he designates.

(2) At an administrative session the state members may take any action, other than action required to be taken at an adjudicative session, necessary or desirable to administer the act and to effectuate its purposes and which has been included in the chairman's call and such other business as not less than a majority of the state commissioners present and voting desire to take up.

(3) At an administrative session the vote of 2 state members is required to take a final action, except that if the commission has under consideration the hiring of staff personnel or retaining outside consultants, the unanimous vote of all state members is required.

(4) At the direction of the chairman, 1 or more state members may meet in a special session for the purposes of conducting administrative business of the commission not requiring a vote.

History: 1954 ACS 81, p. 13, Eff. Oct. 22, 1974.

PART 6. COMMISSION HEARINGS

R 123.61 Place; notices; adjournment.

Rule 61. (1) A public hearing shall be held in a public place located in the territory to be included within a proposed municipal boundary adjustment. Notice shall be given as prescribed in section 8 of the act.

(2) If the municipal boundary adjustment is an annexation matter, the public hearing may be held in or reasonably near the area proposed to be annexed.

(3) At the same time as the clerks of the involved units of government are notified of a public hearing, the commission shall notify the petitioners and the county clerks of the involved counties by certified mail at least 30 days before the date of the hearing.

History: 1954 ACS 81, p. 14, Eff. Oct. 22, 1974.

R 123.62 Commissioners present; presiding officers; scope.

Rule 62. (1) A public hearing as required by section 8 of the act, whenever possible, shall be attended by all state members and the 2 county members. A member not in attendance at a public hearing shall review the public hearing record and so signify to the chairman to be eligible to vote at subsequent adjudicative sessions. The chairman or his designee shall preside.

(2) At a public hearing the commission shall receive testimony concerning the reasonableness of the proposed incorporation or consolidation petition or annexation petition or resolution based upon the criteria listed in section 9 of the act, and only the presentation of evidence in oral or exhibit form or comment on or analysis of evidence shall be germane and part of the record. A person may present evidence or make a statement about the effect of the proposed action upon his personal interest or preference.

History: 1954 ACS 81, p. 14, Eff. Oct. 22, 1974.

R 123.63 Witnesses.

Rule 63. (1) An interested party may speak directly, may be represented by counsel and may present 1 or more spokesmen and supporting witnesses necessary to present relevant testimony if the presentation is limited to a reasonable time at the discretion of the chair.

(2) A person shall not present evidence or argument or otherwise attempt to address the commission unless he has been recognized by the chairman and sworn if giving testimony himself. Upon recognition, the chairman may state the amount of time allotted to the person recognized.

(3) A person may ask to be heard at a public hearing without having filed prior notice of appearance.

(4) The commission on its own motion or in response to the request of a participant, when it determines that waiver or modification of the literal terms of this rule is necessary for a just disposition of a pending matter or to avoid hardship, may make such waiver or modification on such terms as it deems necessary or appropriate to effectuate the purpose of the act.

History: 1954 ACS 81, p. 14, Eff. Oct. 22, 1974.

R 123.64 Evidence; general provisions.

Rule 64. (1) The commission shall follow the rules of evidence applicable to civil proceedings so far as is practicable, but may admit and give value to other evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs. The commission shall give effect to rules of privilege recognized by law and may exclude incompetent, immaterial and unduly repetitious evidence.

(2) Evidence, including records and documents in possession of the commission prior to the public hearing, shall be offered and made a part of the record in the proceedings. Except as otherwise provided by law and these rules, the commission shall consider no other factual information or evidence in the determination of the case. Documentary evidence may be received by the commission in the form of copies or excerpts or by incorporation by reference.

(3) At a public hearing a person may cross-examine witnesses and submit rebuttal evidence. Commission members may also question witnesses.

History: 1954 ACS 81, p. 14, Eff. Oct. 22, 1974.

R 123.65 Evidence; form.

Rule 65. (1) The commission may receive evidence in oral or exhibit form.

(2) When it is deemed necessary or desirable the commission may direct that testimony to be given on direct examination shall be reduced to exhibit form and be offered by and served on all persons requesting the information and on the commission staff. The commission shall allow a reasonable time for preparation of the exhibit.

(3) Notwithstanding any provisions of this rule to the contrary, a person may have a witness on his behalf present his direct testimony orally before the commission. A witness or authorized officer of a firm whose testimony is submitted in exhibit form shall be made personally available by the party of record offering his testimony for cross-examination upon request by a party of record or the commission staff. If the witness is not so made available by the party of record offering his testimony, his testimony shall not be received in evidence.

(4) Testimony received in evidence in exhibit form shall be made a part of the record, copied into or fully described in the record. The commission shall accord the evidence the same weight and sufficiency as testimony received through oral examination. This rule does not prevent a witness' reading of prepared direct testimony.

History: 1954 ACS 81, p. 15, Eff. Oct. 22, 1974.

R 123.66 Judicial notice.

Rule 66. The commission may take notice of judicially cognizable facts and of general, technical or scientific nature within its specialized knowledge. The commission shall give notice either before or during the hearing, or by reference in preliminary reports or otherwise, of the material so noticed and shall afford any person the opportunity to contest the facts so noticed. The commission may use its experience, technical competence, and general and specialized knowledge in the evaluation of the evidence presented. This rule does not permit the commission to take notice of evidence contrary to any statute or other law.

History: 1954 ACS 81, p. 15, Eff. Oct. 22, 1974.

R 123.67 Participation by commission staff.

Rule 67. The commission staff may appear in a public hearing and through its witnesses present testimony as to the results of its investigations, field studies, inspection and other technical investigations and studies. The commission staff may file briefs, make statements of positions or otherwise make recommendations on the record which it believes proper and lawful, based on the evidence presented. Commission staff presentations may include direct or documentary testimony by consultants employed by the commission or members of other governmental agencies either specific to the pending petition or providing relevant background information. Presentations under this rule are subject to cross-examination.

History: 1954 ACS 81, p. 15, Eff. Oct. 22, 1974.

R 123.68 Additional evidence.

Rule 68. (1) During the 30 days immediately following a public hearing the commission may receive additional or supplemental public hearing evidence including exhibits, written comments, statements, arguments, briefs, replies or any other evidence that properly could have been presented at the public hearing, including information derived from the specialized knowledge of the commission or its staff. Where practicable such information shall be in a format suitable for reproduction.

(2) A person wishing to be notified of the filing of additional evidence shall notify the commission in writing. The commission shall keep a list of the interested parties and notify each person on the list of all filings.

(3) The various interested parties shall make arrangements for the examination or review of any material so filed.

(4) If any material is filed on the twenty-sixth through thirtieth day after the public hearing, all parties shall have 7 days from the mailing of notice of the filing to answer it.

History: 1954 ACS 81, p. 15, Eff. Oct. 22, 1974.

R 123.69 Supplemental hearings.

Rule 69. Subsequent to any public hearing required by law, the commission on its own motion may hold a supplemental hearing at its offices in Lansing or any other appropriate place for the taking of additional evidence or for the hearing of additional argument relative to the reasonableness of a pending consolidation or incorporation petition or annexation petition or resolution or for consideration of adjusting the boundaries from those contained in the petition. R 123.62 to R 123.68 apply to supplemental hearings.

History: 1954 ACS 81, p. 15, Eff. Oct. 22, 1974.

PART 7. POSTHEARING PROCEDURES

R 123.71 Disposition resolution.

Rule 71. (1) After a public hearing, the commission at an adjudicative session shall make findings of fact and conclusions after considering the criteria in section 9 of the act and by resolution shall dispose of the petition in 1 of the following ways:

(a) Denial of the petition or resolution.

(b) Approval of the petition or resolution as submitted.

(c) Revision of the boundaries as set forth in the petition and approval of the petition or resolution with the revised boundaries.

(2) Where the commission is considering adjusting the boundaries either inward or outward from those proposed in the petition or resolution, the commission may hold a supplemental hearing as provided in R 123.69.

(3) Where the area approved for annexation contains a population of 100 or less, the resolution shall contain the effective date of the annexation.

(4) Where the area approved for annexation contains a population of more than 100, the resolution may contain a tentative date for the annexation to become effective. This date shall become the effective date if a valid election request petition is not filed.

(5) Where the area is approved for consolidation or incorporation, the resolution becomes effective 45 days after the date of the resolution unless within that 45 days a valid election request petition is filed.

History: 1954 ACS 81, p. 16, Eff. Oct. 22, 1974.

R 123.72 Election petition; resolution.

Rule 72. (1) If within 30 days of the approval order for an annexation containing a population of more than 100 or within 45 days of the approval order for a consolidation or incorporation a valid petition is filed asking for an election on the proposed annexation, consolidation or incorporation, the commission shall dispose of the request by adopting a resolution stating their intent to place the question on the ballot at some future date, or setting the date of the special election.

(2) If an annexation election is held and each area voting on the question approves by a majority vote, the commission shall adopt a resolution setting the effective date of the annexation.

History: 1954 ACS 81, p. 16, Eff. Oct. 22, 1974.

R 123.73 Registered electors; certification.

Rule 73. (1) Upon the filing of an annexation initiatory petition signed by 20% of the registered electors of the area proposed to be annexed, the township clerk shall certify to the commission the number of registered electors in the area proposed to be annexed on the date the initiatory petition was filed.

(2) Upon the filing of a petition asking for an election on annexation questions the city or township clerk, or both whichever is appropriate, shall certify to the commission the number of registered voters in the area to be annexed, the remainder of the township and the annexing city whichever is appropriate on the filing date of the petition.

(3) Upon the filing of a petition asking for an election on a consolidation or incorporation question, the city, village, or township clerk, any or all whichever is appropriate, shall certify to the commission the number of registered voters in the area to be consolidated or incorporated on the filing date of the petition.

History: 1954 ACS 81, p. 16, Eff. Oct. 22, 1974.

DEPARTMENT OF SOCIAL SERVICES

STATE HOUSING DEVELOPMENT AUTHORITY

GENERAL RULES

R 125.1—R 125.73 Rescinded.

History: 1954 ACS 59, pp. 5-10, Eff. Aug. 14, 1969; rescinded 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

GENERAL RULES

(By authority conferred on the state housing development authority by section 22 of Act No. 346 of the Public Acts of 1966, as amended, being §125.1422 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 125.101 Definitions; A to C.

Rule 101. (1) The terms defined in the act have the same meaning when used in these rules as are ascribed to them in the act.

(2) "Act" means Act No. 346 of the Public Acts of 1966, as amended, being §§125.1401 to 125.1496 of the Michigan Compiled Laws.

(3) "Adjusted annual income" means gross income less $750.00 for each member of the family living in the same dwelling unit.

(4) "Adjusted family income" means the gross annual income from all sources and before taxes or withholding of all members of a family living in a dwelling unit or housing unit after deducting all of the following:

(a) Unusual or temporary income of any family member.

(b) Six hundred fifty dollars for each family member.

(c) Earnings of a family member who is under 18 years of age or who is physically or mentally handicapped.

(d) Fifty percent of the income of a second adult wage earner jointly occupying the dwelling or housing unit whose individual income is less than that of the wage earner with the highest income.

(e) The lesser of $1,000.00 or 10% of the gross annual income.

(5) "Applicant" means a corporation, partnership, joint venture, trust, individual, public body or agency or other entity, making application to receive authority monies or services under the act.

(6) "Application" means a request for authority assistance under the act made on forms furnished by the authority and containing such information as the executive director requires.

(7) "Authority" means the Michigan state housing development authority created by the act.

(8) "Central city" means any 1 of the following:

(a) A city eligible for listing in the title of a standard metropolitan statistical area according to the criteria set forth in standard metropolitan statistical areas, revised edition, 1975, a publication of United States office of management and budget, copies of which are available from the Lansing office of the state housing development authority at a cost of $2.30 per copy.

(b) An incorporated area totally surrounded by a city or cities eligible pursuant to subdivision (a).

(c) Two or more incorporated areas, the total combined area of which is surrounded by a city or cities eligible pursuant to subdivision (a).

History: 1954 ACS 69, p. 5, Eff. Nov. 5, 1971; 1954 ACS 82, p. 5, Eff. Feb. 8, 1975; 1954 ACS 94, p. 6, Eff. Dec. 17, 1977; 1954 ACS 98, p. 1, Eff. Dec. 27, 1978.

R 125.102 Definitions; D to G.

Rule 102. (1) "Development fund grant" means a grant authorized by resolution of the authority and to be made to a local community from the housing development fund created by the act.

(2) "Development fund loan" means a loan authorized by resolution of the authority and to be made from the housing development fund created by the act, commonly referred to as a "seed money loan."

(3) "Dwelling unit" means living accommodations within a housing project intended for occupancy by a single family.

(4) "Executive director" means the executive director employed by the authority who is the chief administrative officer of the authority.

(5) "Family" means any 1 of the following:

(a) A person who is physically or mentally handicapped.

(b) A person who is 62 or more years of age.

(c) Two or more persons living together not contrary to law.

(d) A single person who is neither handicapped nor 62 or more years of age; provided, however, that the authority may limit by resolution the percentage of dwelling units within a housing project financed with a mortgage loan that may be made available for occupancy by such single persons.

(6) "Feasible housing project" means a proposed housing project as to which the authority has made a determination that such project can reasonably be expected to be successfully constructed on the proposed site within cost limitations acceptable to the authority and can reasonably be expected to be operated in a fiscally sound manner.

(7) "Gross income" means all income derived from whatever source. In computing gross income, all the income of the members of the family living in the same dwelling unit and contributing to the expenses of the family is to be considered. Gross income shall be determined in accordance with sections 61 and 71 to 124 of the internal revenue code, with the following exceptions:

(a) Overtime earnings shall not be included in determining gross income.

(b) Any nontaxable interest from any bond issue or any nontaxable dividend from a security is included in determining gross income.

(c) Losses from any of the following activities are not deductible in computing gross income:

(i) A farming syndication as described in section 464 of the internal revenue code.

(ii) Any type of corporation or partnership engaged in exploring for, or the exploiting of, oil and gas resources.

(iii) Any type of corporation or partnership engaged in equipment leasing.

(iv) Any type of corporation or partnership engaged in holding, producing, or distributing motion picture films or video tapes.

(v) Depreciation attributable to real or personal property.

(vi) Any activity that entails the owning, leasing, or renting of real estate.

(d) Any funds paid into a tax-sheltered retirement account are included in determining gross income.

History: 1954 ACS 69, p. 5, Eff. Nov. 5, 1971; 1954 ACS 94, p. 7, Eff. Dec. 17, 1977; 1954 ACS 98, p. 2, Eff. Dec. 27, 1978.

R 125.103 Definitions; H to S.

Rule 103. (1) "Housing unit" means living accommodations intended for occupancy by a single family and which will be owned by the occupant thereof.

(2) "Local community" means a public body or agency, a quasi-governmental body approved by the authority and established by state or federal law, the governing board of which is elected by the residents of a definite geographical area, a park or playground association established pursuant to Act No. 161 of the Public Acts of 1911, being §§455.301 to 455.313 of the Michigan Compiled Laws, or a nonprofit corporation, limited dividend housing corporation, or limited dividend housing association which presents evidence that it is acting in a manner consistent with the objectives of the act with respect to the provision of housing.

(3) "Mortgage loan" means a loan authorized by resolution of the authority or by a mortgage loan commitment issued on behalf of the authority and made or to be made to an applicant for a housing project or a housing unit from the proceeds of sale of the authority's bonds or notes and any other available funds, for the purpose of providing construction financing, long-term financing, or both, the repayment of which is secured or to be secured as provided in the act.

(4) "Permanent general improvements" means additions, alterations, renovations, or repairs upon, or in connection with, an existing residential structure, which substantially protects or improves the basic livability or utility of the residential structure to be improved, thereby making the residential structure safe, sanitary, or adequate. Permanent general improvements do not include materials, fixtures, or landscaping of a type or quality exceeding that customarily used in the locality for residential structures of the same general type as the structure to be improved.

(5) "Qualified sponsor" means a local community or an eligible applicant pursuant to R 125.122.

(6) "Residential structure" means real property which is improved by a structure, which structure is used primarily for residential purposes on a year-round basis. This term does not include a mobile home or a trailer.

(7) "Sponsor" means an individual, group, or organization that stimulates or promotes an applicant and that continues to be interested in the activities of such applicant with respect to a housing project.

History: 1954 ACS 69, p. 6, Eff. Nov. 5, 1971; 1954 ACS 98, p. 3, Eff. Dec. 27, 1978.

R 125.105 Income limitations.

Rule 105. (1) In order for a family to be considered eligible for initial occupancy in a housing project or housing unit financed by the authority, that family's income shall not exceed the family income limitations hereafter provided:

(a) For housing which has been financed by the proceeds of authority bonds, which bonds have been delivered prior to June 9, 1977, the effective date of certain emergency rules which temporarily effectuated the provisions of subdivisions (b) and (c) of this rule, a family shall not have an adjusted family income greater than $12,000.00 plus $500.00 for each family member in addition to the head of the household and the head's spouse; provided, however, that the authority by resolution may determine with respect to a particular housing project that 20% of the dwelling units in that project shall be available for occupancy by families having an adjusted family income not greater than 125% of that established in this subdivision. Any such resolution shall include determinations by the authority that such project could not be marketed successfully without the higher income limit and that the project is either (i) Located in a city, other than a central city, with a per capita personal income less than the per capita personal income

for the state, or (ii) Located elsewhere and the number of units for families with incomes eligible for public housing or a program equivalent is at least equal to the number of units for families with incomes between the 100% and 125% limits.

The $12,000.00 amount established in this subdivision shall be automatically increased in accordance with the following formula:

($12,000.00) + ($12,000.00 × .07 × n) where n is the number of complete years elapsed since January 1, 1973.

(b) For housing which has not been financed by proceeds of authority bonds, which bonds have been delivered prior to June 9, 1977, a family shall not have a gross income greater than $19,078.00.

(c) Notwithstanding the provisions of subdivisions (a) and (b), a family may have a gross income up to that established pursuant to the following formula: $1.5 \times a \times 1.07^n$ where a is that number identified in the publication entitled 1969 and estimated 1977 decile distributions of family income by SMSAs and non-metropolitan counties prepared by the United States department of housing and urban development office of economic affairs, economic and market analysis division, June 1, 1977, copies of which are available without cost at the Lansing office of the state housing development authority, as the median family income for the county in which the proposed housing is to be located and n is the number of complete years elapsed since June 1, 1977, where the authority by resolution makes the following determinations:

(i) The economic integration encouraged by the higher income limits shall promote the financial and social stability of housing financed or to be financed by the authority.

(ii) Private enterprise has failed to provide a substantial supply of adequate, safe, and sanitary dwellings in the area of the housing proposed for occupancy by families who qualify for assistance pursuant to subdivision (c) within the financial means of and suitable for such families.

(iii) The housing shall be located in an area in a central city which meets the criterion set forth in subdivision (c)(ii).

(2) Whenever federal subsidy payments are made on behalf of occupants of authority-financed dwelling units or housing units, the income limitations established herein shall be superseded by federal laws and regulations applicable with respect to those occupants.

(3) This rule does not apply to families applying for a home improvement loan pursuant to part 8 of the general rules of the authority.

History: 1954 ACS 69, p. 6, Eff. Nov. 5, 1971; 1954 ACS 82, p. 5, Eff. Feb. 8, 1975; 1954 ACS 88, p. 34, Eff. June 18, 1976; 1954 ACS 94, p. 7, Eff. Dec. 17, 1977; 1954 ACS 98, p. 3, Eff. Dec. 27, 1978.

R 125.107 Asset criteria.

Rule 107. The authority by resolution may establish asset criteria when it determines that action to be necessary to preserve the integrity of established income limitations and to effectuate the purposes of the act.

History: 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

R 125.109 Acceptance of aid and guarantees.

Rule 109. (1) Pursuant to sections 22(c) and 22(k) of the act, the authority, by resolution, may accept gifts, grants, loans or other aid, including guarantees, from the federal government or any persons or corporations, agree and comply with any condition attached thereto, and authorize and direct the execution on behalf of the authority or any agreement which it considers necessary or appropriate to implement any such gifts, grants, loans, guarantees or other aid.

(2) Without limitation on the provisions of subrule (1), the authority by resolution may accept any guarantee or commitment to guarantee its bonds or notes issued for the purpose of financing real property acquisition and land development pursuant to community development programs, accept any grant with respect to bonds or notes guaranteed and accept any public service grants for providing essential public services, including educational, health and safety services, and authorize and direct the execution on behalf of the authority of any agreement which it considers necessary or appropriate with respect thereto.

History: 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

R 125.111 Hearings.

Rule 111. (1) To inform itself and the public the authority may hold public hearings anywhere in the state and may limit the scope of such hearings.

(2) A person, firm, corporation, or public body or agency, aggrieved by a decision of the authority or the executive director, may request in writing that the authority hold a hearing in accordance with Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

History: 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

R 125.115 Bylaws.

Rule 115. The bylaws of the authority shall be adopted and amended by resolution and shall be public records. The bylaws shall include the time and place of regular meetings, the manner of calling special meetings and such internal procedures as the authority requires.

History: 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

R 125.119 Rescission.

Rule 119. The General Rules of the authority, as amended, being R 125.1 to R 125.73 of the Michigan Administrative Code and appearing on pages 4963 to 4969 of the 1969 Annual Supplement to the Code, page 5 of Supplement No. 63 to the Code and page 5 of Supplement No. 64 to the Code, are rescinded. This rescission shall not defeat or impair any right accrued, or affect any penalty incurred, under such rules, and applications pending with the authority may be amended to conform with these rules.

History: 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

PART 2. APPLICATIONS AND APPLICANT ELIGIBILITY

R 125.121 Applications.

Rule 121. (1) The authority staff may provide staff services to assist an applicant in complying with the requirements of the act and these rules. The executive director may establish a preapplication procedure.

(2) Forms to be employed for applications may be prepared by the authority staff and shall be approved by the executive director and shall specify the information to be included therein and the supporting materials to be submitted therewith.

History: 1954 ACS 69, p. 7, Eff. Nov. 5, 1971.

R 125.122 Eligible applicants.

Rule 122. (1) A development fund loan or mortgage loan, or part thereof, shall not be made or disbursed to an applicant until such time as the applicant is an eligible applicant.

(2) An eligible applicant is an applicant authorized by the act to receive a development fund loan or a mortgage loan. In order to become an eligible applicant, an applicant shall obtain the authority's approval of its organizational documents, where applicable, as provided in R 125.123.

History: 1954 ACS 69, p. 8, Eff. Nov. 5, 1971.

R 125.123 Approval of organizational documents.

Rule 123. (1) Proposed articles of incorporation and proposed amendments to existing articles of incorporation of a nonprofit housing corporation, consumer housing cooperative, or limited dividend housing corporation, and the proposed partnership agreement, joint venture agreement, trust agreement, or other document then existing of a limited dividend housing association shall be submitted in duplicate originals to the executive director, together with a request for the authority's approval of the documents.

(2) The authority staff shall review such organizational documents to determine the compliance with the requirements of the act and these rules, and, if it is determined that the documents so comply, the executive director or other employee of the authority authorized by resolution of the authority shall issue, on behalf of the authority, a certificate of approval with respect to the organizational documents, on a form approved by the executive director.

History: 1954 ACS 69, p. 8, Eff. Nov. 5, 1971; 1954 ACS 94, p. 8, Eff. Dec. 17, 1977.

PART 3. DEVELOPMENT FUND LOANS AND FEASIBLE PROJECTS

R 125.131 Applications.

Rule 131. An application for a development fund loan or a determination that a proposed housing project is a feasible housing project, or both, shall include information and, where required by the authority staff, supporting materials and evidence, with respect to all of the following:

(a) The status of the applicant as an eligible applicant, or that reasonable steps have been taken to become an eligible applicant.

(b) The site of the proposed housing project, including location, dimensions, ownership, present zoning, present use and occupancy and relocation requirements as to present occupants, present on-site improvements, such as streets, utilities, and structures, status of off-site utilities and streets, present property taxes and assessments, utility charges, and liens or other charges on the land, and all physical characteristics of the site that may affect construction.

(c) The status and characteristics of the proposed housing project, including number and size of dwelling units, type of occupancy (ownership, rental, or cooperative), rehabilitation or new construction, range of proposed rents, occupancy charges or sale prices, building type, federally-aided mortgage or otherwise, and social, recreational, commercial, and communal facilities proposed to serve and improve the residential area in which the proposed housing is located or to be located.

(d) A schedule of the proposed uses of any requested development fund loan and the amounts proposed to be allocated to each such use.

(e) Other matters as to the proposed housing project, the applicant, and other parties involved in the housing project as the authority staff and the executive director may require.

History: 1954 ACS 69, p. 8, Eff. Nov. 5, 1971; 1954 ACS 94, p. 8, Eff. Dec. 17, 1977.

R 125.132 Processing and evaluation of applications.

Rule 132. (1) An application for a development fund loan or a determination that a proposed housing project is a feasible housing project, or both, shall be processed by the authority staff on the basis of processing and underwriting procedures and guidelines developed by the authority staff under direction of the executive director on behalf of the authority.

(2) An applicant may be required to furnish to the authority staff supplementary information and to amend the application to cause the proposed housing project to be consistent with the authority's processing and underwriting procedures and guidelines.

(3) Upon completion of the processing and the approval of the application by the executive director, the authority staff analysis of the application and the executive director's recommendation with respect thereto shall be presented to the authority.

History: 1954 ACS 69, p. 8, Eff. Nov. 5, 1971; 1954 ACS 94, p. 9, Eff. Dec. 17, 1977.

R 125.133 Determinations of feasibility and authorization of loans.

Rule 133. (1) The authority shall review each analysis and recommendation, and, if it determines that the application meets the requirements of the act and these rules and is consistent with the authority's processing and underwriting procedures and guidelines, by resolution, it may determine that the proposed housing project is a feasible housing project or authorize a development fund loan to the applicant, or both.

(2) The resolution shall include determinations by the authority that:

(a) The proposed housing project will provide housing for persons of low and moderate income or will serve and improve the residential area in which authority financed housing is located or is planned to be located thereby enhancing the viability of such housing.

(b) The applicant is reasonably expected to be able to achieve successful completion of the proposed housing project.

(c) The proposed housing project will meet a social need in the area in which it is to be located.

(d) A mortgage loan, or a mortgage loan not made by the authority that is a federally-aided mortgage, can reasonably be anticipated to be obtained to provide financing for the proposed housing project.

(e) The proposed housing project is a feasible housing project, if a determination of feasible housing project status has been applied for.

(f) The development fund loan authorized thereby, if any, can reasonably be anticipated to be recoverable from the proceeds of a mortgage loan, or a mortgage loan not made by the authority that is a federally-aided mortgage, to be obtained to provide financing for the proposed housing project.

(3) The resolution may include such conditions as the authority considers appropriate with respect to an application for a mortgage loan as to such feasible housing project or the use, disbursement, and repayment of the development fund loan.

History: 1954 ACS 69, p. 9, Eff. Nov. 5, 1971; 1954 ACS 94, p. 9, Eff. Dec. 17, 1977.

R 125.134 Priorities for allocation of development fund monies.

Rule 134. Priorities for allocation of monies in the housing development fund available for development fund loans may be established and revised by the authority. Priorities shall be based on criteria established by the authority as best effectuating the purposes of the act including, without limitation, a determination

by the authority of an area's need for housing for persons of low and moderate income as compared to the authority's determination of the overall housing needs of the state.

History: 1954 ACS 69, p. 9, Eff. Nov. 5, 1971.

PART 4. MORTGAGE LOANS

R 125.141 Applications.

Rule 141. An application for a mortgage loan shall include information, and where required by the authority staff, supporting materials, and evidence, with respect to all of the following:

(a) The status of the applicant as an eligible applicant.

(b) The site of the proposed housing project, including location, dimensions, ownership, present zoning, present use and occupancy and relocation requirements as to present occupants, present on-site improvements, such as streets, utilities, and structures, status of off-site utilities and streets, present property taxes and assessments, utility charges, and liens or other charges on the land, and all physical characteristics of the site that may affect construction.

(c) The status and characteristics of the proposed housing project, including number and size of dwelling units, type of occupancy (ownership, rental, or cooperative), rehabilitation or new construction, building type, federally-aided mortgage or otherwise, and social, recreational, commercial, and communal facilities proposed to serve and improve the residential area in which the proposed housing is or is to be located.

(d) Identity and qualifications of the design architect, supervisory architect, applicant's attorney, housing consultant, general contractor, marketing or sales agent, and management agent.

(e) Architectural drawings and specifications, site plan, schedule of construction costs, reports of soil tests or engineering studies performed, and evidence of approval of the architectural drawings, specifications, and site plan by governmental bodies having jurisdiction.

(f) Proposed marketing plan, reports of market surveys or analyses, schedule of proposed rents, occupancy charges or sale prices, proposed operating budget, proposed management plan, proposed relocation plan and cost analysis, schedule of the proposed uses of the requested mortgage loan and the amounts to be allocated to each such use including the applicant's equity investment, where applicable, and a proposed construction schedule.

(g) The applicant's compliance with, and the fulfillment of, the terms and conditions of any prior determination by the authority that the proposed housing project is a feasible housing project.

(h) The applicant's proposed plans for compliance with the nondiscrimination provisions of section 46 of the act and the proposed affirmative action plans for minority group employment in construction of the proposed housing project.

(i) Other matters as to the proposed housing project, the applicant, and other parties involved in the housing project as the authority staff and the executive director may require.

History: 1954 ACS 69, p. 9, Eff. Nov. 5, 1971; 1954 ACS 94, p. 9, Eff. Dec. 17, 1977.

R 125.142 Processing and evaluation of applications.

Rule 142. (1) An application for a mortgage loan shall be processed by the authority staff on the basis of the authority's processing and underwriting

procedures and guidelines. The authority staff shall undertake such land appraisals, market surveys and analyses, reviews of the architectural design, site plan, and construction costs, materials and methods, and other matters as may be determined to be appropriate to insure that the proposed housing project is consistent with the authority's processing and underwriting procedures and guidelines.

(2) An applicant may be required to furnish the authority staff supplementary information and to amend the application to cause the proposed housing project to be consistent with the authority's processing and underwriting procedures and guidelines.

(3) Upon completion of the processing and approval of the application by the executive director, the authority staff's analysis of the application and the executive director's recommendation with respect thereto shall be presented to the authority.

History: 1954 ACS 69, p. 10, Eff. Nov. 5, 1971; 1954 ACS 94, p. 10, Eff. Dec. 17, 1977.

R 125.143 Authorization of mortgage loans.

Rule 143. (1) The authority shall review each analysis and recommendation, and, if it determines that the application meets the requirements of the act and these rules and is consistent with the authority's processing and underwriting procedures and guidelines, by resolution, it may authorize a mortgage loan to the applicant. The resolution may authorize the executive director to issue a separate authority mortgage loan commitment to the applicant with respect to the proposed housing project.

(2) The resolution shall include determinations by the authority that:

(a) The applicant is an eligible applicant.

(b) The proposed housing project will provide housing for persons of low and moderate income or will serve and improve the residential area in which authority-financed housing is located or is planned to be located thereby enhancing the viability of such housing.

(c) The applicant is reasonably expected to be able to achieve successful completion of the proposed housing project.

(d) The proposed housing project will meet a social need in the area in which it is to be located.

(e) The proposed housing project may reasonably be expected to be marketed successfully.

(f) All elements of the proposed housing project, including, without limitation, the ownership, design, construction, occupancy, management, and operation thereof, have been established in a manner consistent with the authority's processing and underwriting procedures and guidelines, except as to any such elements as are the subject of conditions as to the authorization of the mortgage loan as provided in R 125.144.

(g) In light of the estimated project cost of the proposed housing project, the amount of the mortgage loan authorized by such resolution is consistent with the requirements of the act as to the maximum limitation on the ratio of mortgage loan amount to estimated project cost.

History: 1954 ACS 69, p. 10, Eff. Nov. 5, 1971; 1954 ACS 94, p. 10, Eff. Dec. 17, 1977.

R 125.144 Conditions and special determinations in authorizations.

Rule 144. A resolution of the authority authorizing a mortgage loan or a mortgage loan commitment of the authority, the issuance of which is authorized by such a resolution, shall include such conditions as the authority considers appropriate with respect to the commencement of construction of the proposed

housing project, the marketing and occupancy of such housing project and the use, disbursement, and repayment of the mortgage loan authorized. A resolution or mortgage loan commitment may include a financial analysis of the subject housing project, which shall establish the initial schedule of rents or occupancy charges, the approved budget for operation of the housing project, and the schedule of use of the proceeds of the mortgage loan. A resolution authorizing a mortgage loan to an applicant which is a limited dividend housing corporation or limited dividend housing association shall include a determination of the maximum reasonable and proper rate of return on the investment of the applicant in the proposed housing project, which determination shall be made upon a consideration of the then existing conditions in the housing industry and financial markets and rates of return then prescribed by other governmental agencies.

History: 1954 ACS 69, p. 11, Eff. Nov. 5, 1971.

R 125.145 Priorities for allocation of monies for mortgage loans.

Rule 145. Priorities for allocation of authority monies available for mortgage loans may be established and revised by the authority. Priorities shall be based on criteria established by the authority as best effectuating the purposes of the act, including, without limitation, a determination by the authority of an area's need for housing for persons of low and moderate income as compared to the authority's determination of the overall housing needs of the state.

History: 1954 ACS 69, p. 11, Eff. Nov. 5, 1971.

R 125.146 Mortgage loans to individuals.

Rule 146. (1) An application by an individual for a mortgage loan for long-term financing of a housing unit to be purchased by the individual shall include information, and where required by the authority staff, supporting materials and evidence with respect to the eligibility of the applicant and to the housing unit proposed to be purchased.

(2) An application for such a mortgage loan shall be processed by the authority staff and the authority staff's analysis of such application shall be presented to the executive director.

(3) The executive director shall review each such analysis, and, if he determines that the applicant is an eligible applicant and that the application meets the requirements of the act and these rules and is consistent with the authority's processing and underwriting procedures and guidelines as to the housing unit to be purchased, he may issue, on behalf of the authority and pursuant to resolution of the authority, the authority's mortgage loan commitment to the applicant with respect to the housing unit proposed to be purchased. The mortgage loan commitment shall contain terms, conditions, and requirements as the executive director considers appropriate, including, without limitation, conditions establishing that the purchase price of the subject housing unit, the method of making payments after the purchase thereof, the security afforded, and the interest rate and fees and charges, if any, to be paid by the eligible applicant shall at all times be sufficient to permit the authority to make the payments on its bonds and notes plus any administrative or other costs to the authority in connection with the transaction.

(4) The authority, by resolution, may authorize the execution on behalf of the authority of agreements with corporations, partnerships, individuals, financial institutions, or other entities, qualified to do business within this state, which agreements may provide that the authority shall make mortgage loans to individual eligible applicants for the long-term financing of housing units to be

PART 5. DEVELOPMENT FUND GRANTS

R 125.151 Applications.

Rule 151. An application for a development fund grant shall include information, and where required by the authority staff, supporting materials and evidence, with respect to:

(a) The status of the applicant as a local community.

(b) The proposed housing or community development activities for which assistance in planning or implementation is being requested.

(c) The site upon and the neighborhood in which the housing project or housing development to which the housing or community development activities shall relate is, or is to be, located.

(d) The relation of the proposed housing or community development activities to the site upon which the housing project or housing development is, or is to be, located, and its relation to the housing project or housing development and the neighborhood in which the housing project or housing development is, or is to be, located.

(e) The total cost of the planned activities, the net costs to the applicant thereof, and a schedule of the proposed uses of the requested development fund grant and the amounts proposed to be allocated to each use.

(f) Other matters with respect to the proposal, the applicant and other parties involved therein as the authority staff and the executive director require.

History: 1954 ACS 69, p. 11, Eff. Nov. 5, 1971; 1954 ACS 94, p. 11, Eff. Dec. 17, 1977.

R 125.152 Processing and evaluation of applications.

Rule 152. (1) An application for a development fund grant shall be processed by the authority staff on the basis of the authority's evaluation factors.

(2) An applicant may be required to furnish to the authority staff supplementary information and to amend the application to cause the planned activities to be fully consistent with the authority's evaluation factors.

(3) Upon completion of the processing and approval of the application by the executive director, the authority staff's analysis of the application and the executive director's recommendation with respect thereto shall be presented to the authority.

History: 1954 ACS 69, p. 12, Eff. Nov. 5, 1971; 1954 ACS 94, p. 12, Eff. Dec. 17, 1977.

R 125.153 Authorization of development fund grants.

Rule 153. (1) The authority shall review each analysis and recommendation presented, and, if it determines that the application meets the requirements of the act and these rules and is consistent with the authority's evaluation factors, by resolution, it may authorize a development fund grant to the applicant in an amount not to exceed the net costs to the applicant of the plan.

(2) The resolution of the authority shall include determinations by the authority that:

(a) The applicant is a local community.

(b) The grant funds shall be used exclusively in planning for or implementing any of the following community or housing development activities:

(i) Land and building acquisition.

(ii) Housing rehabilitation.

(iii) Capital improvements or modifications thereto, including streets, open space utilities, recreation or community centers, and parking facilities.

(iv) The provision of necessary supportive services.

(c) The plans for community or housing development reasonably relate to the site upon which a housing project or housing development is, or is to be, located, and reasonably relate to the housing project or housing development and the neighborhood in which the housing project or housing development is, or is to be, located.

(d) The applicant is reasonably expected to be able to implement successfully the proposal.

(e) The proposed activities shall meet a social need in the area in which they are to be operative.

(3) The resolution may include conditions which the authority considers appropriate with respect to the use and disbursement of the development fund grant.

History: 1954 ACS 69, p. 12, Eff. Nov. 5, 1971; 1954 ACS 94, p. 12, Eff. Dec. 17, 1977.

R 125.154 Priorities for allocation of development fund monies.

Rule 154. Priorities for allocation of monies in the housing development fund available for development fund grants may be established and revised by the authority. Priorities shall be based on criteria established by the authority as best effectuating the purposes of the act.

History: 1954 ACS 69, p. 12, Eff. Nov. 5, 1971.

PART 6. AUTHORITY LOAN DOCUMENTS

R 125.161 Authority loan documents.

Rule 161. (1) Forms of documents to be used with respect to development fund loans, mortgage loans, and the issuance and sale of authority notes and bonds shall be prepared, and may be revised and amended, by the authority staff under direction of the executive director on behalf of the authority, subject to legal requirements.

(2) The appropriate forms of such documents shall be employed with respect to all matters relating to development fund loans and mortgage loans.

History: 1954 ACS 69, p. 12, Eff. Nov. 5, 1971.

R 125.162 Remedies.

Rule 162. The authority reserves the right to pursue all remedies prescribed by law or in the act for breach or violation of any provision of any authority loan document described in R 125.161.

History: 1954 ACS 69, p. 12, Eff. Nov. 5, 1971.

PART 7. LAND ACQUISITION AND DEVELOPMENT

R 125.171 Land acquisition and development proposals.

Rule 171. (1) The authority staff may develop proposals for the use of monies in the land acquisition and development fund created by the act. Such a proposal may be for:

(a) The acquisition by grant, purchase, or otherwise of real property, which for purposes of this part 7 shall be defined as any interest, including a fee and leasehold interest, in land or improvements to land, or a portion thereof, by the authority under any of the following circumstances:

(i) The real property may be suitable for a future housing development or housing project.

(ii) The real property is located in a residential area where the authority has financed or has planned to finance housing, and the proposed use of the real property shall improve the quality of the residential area by eliminating blight or provide needed public or commercial facilities.

(iii) The real property is so situated that the present or future use of the real property, if not acquired by the authority, shall adversely affect the value or marketability of the authority-financed housing project.

(b) Any of the following types of improvements to real property purchased or otherwise acquired for the purposes of the fund:

(i) Improvements that are necessary to place the real property in a safe, sanitary, and decent condition, including demolition, excavation, and landscaping.

(ii) Improvements to real property which is to be dedicated for the public use and enjoyment, including the installation of recreational facilities, benches, shelters, lighting, and walkways.

(iii) Improvements that are necessary to insure the planned development of the real property, including the installation of roads, sidewalks, sewers, and utilities.

(c) The payment of any of the following costs on real property purchased or being purchased with monies from this fund or acquired by gift, grant, or exchange for the purposes of this fund:

(i) The costs of property taxes, insurance premiums, interest, maintenance expenses, and other carrying charges on real property. Notwithstanding the provisions of section 42 of the act, during the period when real property is owned or is being purchased by the authority or its agent, the authority shall pay all property taxes levied against the real property unless a taxing jurisdiction exempts the real property from property taxes. The assessed valuation of the real property while it is owned or being purchased by the authority or its agent shall not be increased by any taxing jurisdiction, except to reflect the state equalization valuation process.

(ii) The costs of planning the development of the real property, including, but not limited to, the costs of economic feasibility studies, land use studies, site development planning, architectural and engineering design, market analysis and all related analyses, studies, and planning services.

(iii) The costs incurred in the transfer of real property, including brokerage and appraisal fees, recording expenses, and the costs of surveys and title insurance.

(d) The costs of improvements to real property permitted by section 24b(2) of the act.

(2) A proposal shall contain information as to the description and fair market value of any real property or interest therein proposed to be acquired and the proposed method of acquisition thereof, the nature and cost of any improvements proposed to be undertaken or carrying charges or transfer expenses proposed to be paid, the nature and cost of any planning of the development of real property proposed to be undertaken. A proposal, upon completion, and the executive director's recommendation with respect thereto shall be presented to the authority.

mentation thereof and the use of appropriate monies of the authority in connection with the implementation.

(2) The resolution may provide that any real property or interest therein to be acquired by the authority may be acquired in the authority's name or through and in the name of a duly authorized agent of the authority. If any such real property or interest therein is to be purchased on land contract, option, or other form of deferred payment agreement, or subject to mortgages or other encumbrances, the authority, by the resolution, shall reserve monies in the land acquisition and development fund or authorization to issue notes and bonds, the aggregate amount of which equals the unpaid principal balance of such land contract, option, mortgage, or other encumbrance or deferred payment agreement plus any anticipated carrying charges, including without limitation, insurance premiums, interest, maintenance expenses, and property taxes. In the event that such acquisition is to be accomplished through a duly authorized agent of the authority, the authority shall require such agent to protect the authority's interest in the property and to convey the property interest therein to the authority upon the authority's request, and the records of the authority shall reflect the existence of, and the authority's rights in, the real property or interest therein.

History: 1954 ACS 69, p. 13, Eff. Nov. 5, 1971; 1954 ACS 94, p. 13, Eff. Dec. 17, 1977.

R 125.173 Sale or exchange of property of authority.

Rule 173. (1) The authority, by resolution, may authorize and direct the sale, assignment, transfer, conveyance, lease, mortgage, or other disposal or encumbrance of real or personal property or any interest therein, or part thereof, with respect to which monies from the land acquisition and development fund have been expended to any individual, firm, partnership or corporation, county, municipality, authority, or federal or state agency at such price and on such terms and conditions as meet the requirements of the act and are considered appropriate by the authority.

(2) The authority, by resolution, may authorize and direct the exchange of real property with respect to which monies from the land acquisition and development fund have been expended, if the authority determines that the real property proposed for acquisition meets the requirements of R 125.171(1)(a).

History: 1954 ACS 69, p. 13, Eff. Nov. 5, 1971; 1954 ACS 94, p. 14, Eff. Dec. 17, 1977.

PART 8. HOME IMPROVEMENT LOANS

R 125.181 Eligible applications.

Rule 181. An application for a home improvement loan shall satisfy the following requirements:

(a) An applicant shall be an individual fee owner or purchaser under a land contract of the residential structure to be improved or an individual member-shareholder in a nonprofit cooperative housing corporation which member-shareholder has a proprietary interest in a residential structure. The residential structure may be subject to a mortgage or other lien securing a debt. However, occupancy of the residential structure by the applicant shall not be required, except in the case of an individual member-shareholder in a nonprofit cooperative housing corporation.

(b) An applicant shall be a family which shall not have an adjusted annual income greater than $13,999.00.

(c) An applicant shall be a reasonable credit risk with the ability to pay the loan obligation, as determined by the authority and by the lending institution, if any, originating the loan on behalf of the authority.

(d) The residential structure to be improved shall be not less than 20 years old, or in need of repair to correct damage resulting from a natural disaster, or to correct serious defects or deficiencies that are hazardous to health or safety, or to directly improve the energy efficiency of the residential structure. Improvements which directly improve energy efficiency are those which have as a central purpose the conservation of energy. With respect to residential structures which are less than 20 years old, only those improvements which come within the exceptions set forth herein are eligible home improvements.

(e) The residential structure to be improved shall not be in violation of applicable zoning ordinances or other applicable land use guidelines.

(f) The residential structure shall not contain more than 4 dwelling units.

(g) All families occupying dwelling units shall have an adjusted annual income not greater than $13,999.00.

(h) Home improvement loan proceeds shall be used to finance only new improvements upon, or in connection with, existing structures and shall not be used for the refinancing of an existing mortgage or debt, nor for the completion of an unfinished residential structure.

(i) All improvements shall be reasonably capable of being completed, except for causes beyond the applicant's reasonable control, such as fire, strike, and shortages of materials, within 6 months of the date of the first disbursement of funds pursuant to the home improvement loan. The authority may extend this period for an additional 6 months for good cause shown.

History: 1954 ACS 98, p. 4, Eff. Dec. 27, 1978.

R 125.182 Eligible improvements.

Rule 182. Improvements made with home improvement loan proceeds shall satisfy the following requirements:

(a) Improvements may be made in order to comply with applicable state, county, and municipal health, housing, building, fire prevention, and housing maintenance codes, or other public standards applicable to housing.

(b) Improvements may also be made which protect or improve the basic livability or utility of a residential structure, thereby making the residential structure safe, sanitary, or adequate. However, to be an eligible improvement, it shall be a permanent general improvement.

(c) An improvement shall be made in compliance with all applicable health, fire prevention, building, housing, and housing maintenance codes, and other public standards applicable to housing. However, no application for a home improvement loan for a dwelling unit occupied by the owner shall be denied solely because the improvements will not bring the dwelling unit into full compliance with all applicable codes and standards.

(d) Home improvement loan proceeds shall not be used for the payment, wholly or in part, of an assessment for public improvements. However, proceeds may be used for improvements which will bring an individual sewage disposal system, including septic systems, located on the residential real property improved by a residential structure into compliance with local, state, and federal environmental and sanitary standards.

(e) The authority may require that all contracts covering all or any portion of an improvement contain an authority-approved warranty on workmanship and materials.

History: 1954 ACS 98, p. 5, Eff. Dec. 27, 1978.

R 125.183 General requirements.

Rule 183. A home improvement loan shall be made in compliance with the following requirements:

(a) The maximum principal loan amount, exclusive of financing charges are as follows:

(i) Fifteen thousand dollars for residential structures containing 1 dwelling unit.

(ii) Seven thousand five hundred dollars per dwelling unit for residential structures containing 2 to 4 dwelling units.

(b) The maximum loan term is 15 years and 32 days.

(c) The requirements of any loan subsidy or loan insurance program which the authority may utilize or participate in.

History: 1954 ACS 98, p. 5. Eff. Dec. 27, 1978.

R 125.184 Availability of loans.

Rule 184. In order to provide for the availability of home improvement loans on an equitable basis to qualified applicants in all geographic areas of this state, the authority shall implement the following allocation system:

(a) The authority shall invite all lenders which meet the authority's qualification requirements to participate as eligible sellers.

(b) The authority shall solicit from eligible sellers requests for home improvement loan note purchase commitments.

(c) The authority shall, to the extent feasible, allocate its commitments for the purchase of qualified home improvement loan notes on an equitable basis to all geographic areas of the state. In determining an equitable basis upon which to make allocations, the authority may utilize recognized enumerations of housing age, housing conditions, and family income.

(d) The authority shall take affirmative action to locate and contract with eligible sellers who will agree to originate home improvement loans for sale to the authority in those geographic areas which have not been adequately covered under the procedure set forth in subdivisions (a), (b), and (c) of this rule.

History: 1954 ACS 98, p. 5. Eff. Dec. 27, 1978.

DEPARTMENT OF COMMERCE

JOB DEVELOPMENT AUTHORITY

GENERAL RULES

(By authority conferred on the job development authority by section 14(f) of Act No. 301 of the Public Acts of 1975, as amended, being §125.1714(f) of the Michigan Compiled Laws)

R 125.501 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 301 of the Public Acts of 1975, as amended, being §125.1401 et seq. of the Michigan Compiled Laws.

(b) "Applicant" means:

(i) In the case of a direct loan or participation loan, the business enterprise establishing or expanding the industrial facilities.

(ii) In the case of a loan guarantee, the financial institution requesting the loan guarantee.

(c) "Application" means a formal request under the act made on forms furnished by the authority and containing or being supported by such information and documentation as the authority requires, signed and sworn to by an authorized representative of the applicant designated by formal action of the applicant and consistent with its organizational documents.

(d) "Authority" means the Michigan job development authority created by the act.

(e) "Eligible applicant" means an applicant that legally can qualify for a direct loan, participation loan, or loan guarantee from the authority and has been approved by the authority. An eligible applicant may receive a loan only upon a determination by the authority in accordance with the act and with these rules.

(f) "Executive director" means the chief executive officer of the authority.

(g) "Project" means the application of project costs for industrial buildings and industrial machinery and equipment, the reasonable aggregate cost of which, in the opinion of the authority, exceeds $50,000.00.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 97, p. 9, Eff. Nov. 8, 1978.

R 125.502 Informal screening procedures.

Rule 2. The executive director may establish such informal screening procedures as he deems necessary and appropriate to assist potential applicants in understanding the programs offered by the authority and in determining minimal eligibility under the act and these rules. Such procedures may include the filing with the authority of information and supporting documentation on such forms as the executive director may require.

History: 1954 ACS 97, p. 10, Eff. Nov. 8, 1978.

R 125.503 Application for direct loan, participation loan, or loan guarantee; supporting materials and evidence.

Rule 3. An application for a direct loan, participation loan, or loan guarantee shall be verified and submitted to the authority by an applicant or its duly authorized representative and shall include, where applicable, information, and

where required by the authority staff, supporting materials and evidence, with respect to and including, but not by way of limitation, the following:

(a) The form and nature of the applicant, whether a single proprietorship, corporation, firm, partnership, or other association or persons organized for industrial purposes or a public utility, local industrial development corporation, or economic development corporation.

(b) A description of the project together with a financial feasibility study.

(c) A current appraisal of the land by an appraiser deemed to be qualified by the authority or, in the case of an existing building to be acquired, of the land and building, including substantiation of comparables and photograph and map exhibits.

(d) Quotations from suppliers of the total cost of all machinery and equipment to be financed. Quotations shall be firm for a period of time sufficient to allow the processing of the application and disbursal of the funds for their purchase.

(e) In projects calling for the construction of new buildings, all estimates of construction costs shall be prepared by construction firms deemed to be qualified by the authority. All estimates shall be firm for a period of time sufficient to allow the processing of the application and disbursal of the funds for its acquisition.

(f) For each borrower, guarantor, endorser, or co-maker, all of the following:

(i) Audited profit and loss statements and balance sheets covering the last 5 fiscal years. If statements are not audited, a borrower shall submit signed statements certifying that the statements are true and correct and shall submit federal income tax returns for the preceding 5 years. The names and addresses of officers and principal shareholders, if a corporation, shall be included.

(ii) Current, independent credit reports and personal financial statements for each borrower, guarantor, endorser, or co-maker.

(iii) Details of business experience and background.

(g) Copies of purchase agreements, if applicable.

(h) In the case of a loan guarantee application only, a copy of the lender's loan agreement.

(i) Such other information as the executive director may reasonably request.

History: 1954 ACS 97, p. 10, Eff. Nov. 8, 1978.

R 125.504 Other sources of funds; demonstration.

Rule 4. An applicant shall demonstrate the other sources of funds, in the form of equity investment or other debt sources, or both, which, together with the funds for which application is being made, will be sufficient to complete the project.

History: 1954 ACS 97, p. 10, Eff. Nov. 8, 1978.

R 125.505 Application; processing.

Rule 5. (1) The executive director shall process an application and forward it to the authority with his analysis and recommendation.

(2) The authority may require an applicant to amend the application.

(3) Upon forwarding by the executive director of an application to the authority, the authority shall, at the next meeting of the authority, place the application on its agenda.

History: 1954 ACS 97, p. 10, Eff. Nov. 8, 1978.

R 125.506 Application; review.

Rule 6. The authority shall review and consider approval of an application for a direct loan, participation loan, or loan guarantee on the basis of effectuating the purposes of the act, including determination of all of the following:

(a) That the applicant is an eligible applicant.

(b) That the eligible applicant reasonably can be expected to maintain a sound financial condition in the operation of the industrial facilities and to retire the principal and pay the interest on the loan made or guaranteed in accordance with the terms of the loan agreement.

(c) That the project is economically feasible with a reasonable expectation that the life of its economic feasibility will exceed the maturity of the loan or loan guarantee.

(d) That the project will create a sufficient number and type of jobs to justify authority participation in its financing.

(e) That the project feasibility is sufficient to allow the authority to borrow the funds required for its financing.

(f) That a project has been filed with the authority, along with a certified copy of a resolution of the governing body of the municipality in which the project is to be located approving the project plan and consenting to the location of the project.

(g) That the project and its development is economically advantageous to the state, that the provision to meet increased demand upon public facilities as a result of the project is reasonably assured, and that energy sources to support the successful operation of the project are adequate.

(h) That if the project shall have the effect of a transfer of employment from 1 municipality of this state to another in which the project is to be located, the authority has notified and consulted with the municipality from which employment would be transferred and that the municipality:

(i) Has by resolution given its consent and approval to the project or,

(ii) If no resolution of consent is received, the authority determines that both of the following circumstances exist:

(A) The project is necessary to the continued operation of the business enterprise within the state.

(B) The approval of the project will not impose undue hardship on the workers and the municipality from which the employment would be transferred.

(i) That other criteria have been met that the authority has determined will effectuate the purposes of the act.

History: 1954 ACS 97, p. 10, Eff. Nov. 8, 1978.

R 125.507 Direct loan funds and participation funds; conditions for use.

Rule 7. The authority shall prescribe conditions for the use of the direct loan funds; and shall jointly with the other participating lenders prescribe conditions for the use of participation funds, including the manner in which the loan proceeds are to be disbursed to the applicant.

History: 1954 ACS 97, p. 11, Eff. Nov. 8, 1978.

R 125.508 Establishment and revision of priorities to approved applicants; criteria.

Rule 8. The authority may establish and revise priorities to approved applicants based on criteria which best effectuate the purposes of the act, including, but not limited to, all of the following:

(a) Determination of the need within the state for the type of industrial facility proposed by the applicant.

(b) Determination of the public benefit afforded by the project and the effect the project would have on diversifying the state's economy.

(c) Determination that the authority reasonably expects that the project can be funded on terms satisfactory to the authority.

History: 1954 ACS 97, p. 11, Eff. Nov. 8, 1978.

R 125.509 Contracts and loan documents.

Rule 9. (1) Contracts, agreements, and loan or loan guarantee documents shall be authorized by resolution of the authority.

(2) Contracts authorizing loans or loan guarantees may have provisions concerning the requirement for municipal government certification of satisfaction effectuating section 55 of the act.

(3) The authority may include any conditions authorized by law or within the authority's powers in any contract, loan, or loan guarantee documents.

(4) An applicant shall execute such documents as required by the authority to secure the loan or loan guarantee made to the applicant.

History: 1954 ACS 97, p. 11, Eff. Nov. 8, 1978.

R 125.510 Direct loans and participation loans; interest rates, fees, and payment schedules.

Rule 10. The authority shall establish the interest rate or fees, or both, and the schedule for payment of interest and principal on direct loans and shall, jointly with the other participating lenders, establish such rate or fees, or both, and the schedule on participation loans.

History: 1954 ACS 97, p. 11, Eff. Nov. 8, 1978.

R 125.511 Direct loan, participation loan, or loan guarantee; additional requirements.

Rule 11. In addition to any other requirements, the authority, in conjunction with a direct loan, participation loan, or loan guarantee, may require any of the following:

(a) A review or audit of financial statements and such other information as may be reasonably requested during the period of construction or acquisition and continuing while any portion of the loan made or guaranteed is outstanding.

(b) A physical inspection of the site and construction progress.

(c) Evidence of completion of certain percentages of construction before allocation of further funds.

History: 1954 ACS 97, p. 12, Eff. Nov. 8, 1978.

R 125.512 Remedies.

Rule 12. The authority reserves the right to pursue remedies prescribed by law or in the act for violation of any contract or agreement.

History: 1954 ACS 97, p. 12, Eff. Nov. 8, 1978.

R 125.513 Hearings.

Rule 13. (1) To inform itself and the public, the authority may call public hearings anywhere in the state and may limit the scope of the hearings.

(2) A person, firm, corporation, or public body or agency aggrieved by a decision of the authority may make a request in writing to the authority for hearing in accordance with Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 97, p. 12, Eff. Nov. 8, 1978.

DEPARTMENT OF LABOR

BARRIER FREE DESIGN BOARD

BARRIER FREE DESIGN REQUIREMENTS

(By authority conferred on the barrier free design board by section 4 of Act No. 1 of the Public Acts of 1966, as amended, being §125.1354 of the Michigan Compiled Laws)

R 125.1001 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 1 of the Public Acts of 1966, as amended, being §125.1351 et seq. of the Michigan Compiled Laws. The terms defined in the act shall have the same meaning when used in these rules.

(b) "Barrier free design requirements" means the requirements set forth in the code.

(c) "Board" means the barrier free design board created by section 5 of the act, or an authorized agent of the board.

(d) "Business day" means any day except Saturday, Sunday, or a state holiday.

(e) "Code" means the state construction code promulgated pursuant to Act No. 230 of the Public Acts of 1972, as amended, being §125.1501 et seq. of the Michigan Compiled Laws. The terms defined in the code shall have the same meaning when used in these rules.

(f) "Day" means a calendar day.

(g) "Party" means, not by way of limitation, a public or private agency, a person, firm, corporation, or nonprofit corporation or organization.

(h) "Presiding officer" means the board, 1 or more board members, or 1 or more hearing officers designated by the board.

History: 1954 ACS 91, p. 5, Eff. June 10, 1977.

R 125.1002 Plans and specifications; preliminary review; findings; modification; exception.

Rule 2. (1) A party may submit plans and specifications, including those for site development, for preliminary review by the appropriate administrative authority, being either the department of management and budget, department of education, department of labor, or a local unit of government having the duty and responsibility of issuing building permits.

(2) Upon completion of the preliminary review, the appropriate administrative authority shall notify in writing the party submitting the plans or specifications, or both, of the review findings. Not more than 15 days after receipt shall be allowed for the review of plans and specifications by the appropriate administrative authority.

(3) If the appropriate administrative authority finds that the plans and specifications comply with the barrier free design requirements, a party submitting the plans may proceed pursuant to the procedure in R 125.1003.

(4) Upon receiving notice that plans and specifications submitted do not comply with barrier free design requirements, a party may modify the plans and specifications to comply with the requirements, or submit an application for exception

(5) Exceptions to the barrier free design requirements shall be granted only pursuant to R 125.1004.

History: 1954 ACS 91, p. 6, Eff. June 10, 1977.

R 125.1003 Plans and specifications; final review; notice of noncompliance; modification; application for exception; notice of compliance; building permit; changes after approval; review.

Rule 3. (1) Completed plans and specifications, including those for site development, shall be forwarded by a party to the appropriate administrative authority for approval.

(2) Plans and specifications forwarded to an administrative authority for barrier free design approval shall be pursuant to Act No. 240 of the Public Acts of 1937, as amended, being §338.551 et seq. of the Michigan Compiled Laws.

(3) Not more than 15 days after receipt shall be allowed for the review of plans and specifications by the appropriate administrative authority.

(4) Upon completion of the review, the appropriate administrative authority shall notify the party in writing of any plans or specifications which do not comply with the barrier free design requirements. Upon receipt of a notice of noncompliance, the party may modify the plans and specifications to comply with the barrier free design requirements and resubmit them to the appropriate administrative authority for review, or submit an application for exception to the board pursuant to R 125.1004.

(5) If the completed plans and specifications comply with the barrier free design requirements, then notice in writing shall be given to the party submitting such plans and specifications. The issuance of a building permit shall constitute such notice.

(6) If there are proposed changes in the plans and specifications after final review and approval of the design which affect the implementation of the barrier free design requirements, the changed plans and specifications shall be submitted to the appropriate administrative authority for review.

History: 1954 ACS 91, p. 6, Eff. June 10, 1977.

R 125.1004 Application for exception; form; review.

Rule 4. (1) Upon receiving notice that plans and specifications submitted for preliminary or final review do not comply with the barrier free design requirements, an application for an exception to the barrier free design requirements may be submitted to the board by a party.

(2) An application for an exception shall be on a form containing all information so designated by the board, and shall be accompanied by detailed building or site drawings of nonconforming areas on 8½-inch by 11-inch sheets of paper. Dimensioned, lined drawings to scale are sufficient. Photographs or a brief written explanation, or both, may be included.

(3) An application for an exception to the barrier free design requirements shall be mailed or delivered to the office of the Barrier Free Design Board, Department of Labor, State Secondary Complex, 7150 Harris Drive, Box 30015, Lansing, Michigan, 48909.

(4) Upon receipt of the application for an exception, personnel so designated by the board shall review the application within 15 days.

(5) An applicant who has been notified of noncomplying plans and specifications, has the right to a hearing before the board.

History: 1954 ACS 91, p. 6, Eff. June 10, 1977.

R 125.1005 Hearing; notice; presiding officer.

Rule 5. (1) Within 7 business days after receipt of a request for a hearing, the board shall give notice of the hearing to the necessary parties. The notice shall include the date, time, place, and nature of the hearing.

(2) The notice of a hearing shall be mailed not less than 15 days before the date of the hearing.

(3) A hearing shall be conducted by the presiding officer pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

(4) The board before making a final hearing decision shall review plans submitted to personnel so designated by the board.

History: 1954 ACS 91, p. 7, Eff. June 10, 1977.

R 125.1006 Complaint; investigation; dismissal of complaint; determination of noncompliance; notice; right to hearing; waiver.

Rule 6. A complaint of noncompliance shall be in writing and filed with the appropriate administrative authority, which shall send a copy of the complaint to the party against whom the complaint was made. If an investigation results in a determination that the complaint is without merit, the complaint shall be dismissed by the appropriate authority and written notice shall be given to the party making the complaint and the party against whom the complaint was made. If an investigation reveals evidence of noncompliance, the party against whom the complaint was made shall be given notice of opportunity to show compliance. Response to the notice of opportunity to show compliance shall be in writing or at an informal conference with the board's representative. If such response does not dispose of the matter, the party against whom the complaint was made shall be sent a notice of the right to a formal hearing before the board. The failure to request a hearing before the board within 15 days after receipt of the noncompliance notice shall constitute a waiver of the right to a hearing before the board. An appropriate administrative authority which receives a complaint of noncompliance pursuant to the act shall establish necessary administrative procedures, which shall include forwarding to the board copies of all complaints, investigation reports, and final dispositions of the matters within 30 days after the receipt of the complaint. The party who made the complaint and the party against whom the complaint was made shall be notified of the final disposition of the complaint.

History: 1954 ACS 91, p. 7, Eff. June 10, 1977.

R 125.1007 Complaint; filed with board; procedure; notice of decision; correction time limit.

Rule 7. A written complaint of noncompliance also may be filed with the board, which shall follow the procedure set forth in R 125.1006. An investigation of a noncompliance complaint shall be conducted by personnel so designated by the board. A hearing shall be conducted by personnel so designated by the board. A hearing shall be conducted by the presiding officer pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws. Written notice of the hearing decision shall be mailed to the party against whom the complaint was made and the complainant by the board. If the hearing results in a finding of noncompliance, the party shall correct the noncompliance within 30 days after notice is mailed by the board.

History: 1954 ACS 91, p. 7, Eff. June 10, 1977.

R 125.1008 Extension; correction; legal remedies.

Rule 8. If the noncomplying party can prove, to the satisfaction of the appropriate administrative authority or the board, extenuating circumstances that prevent compliance within 30 days after notice is mailed, the appropriate administrative authority or the board may grant such party an additional 60 days to correct the noncompliance. After the time granted has elapsed and the noncompliance has not been corrected, the board or the appropriate administrative authority may pursue the legal remedies set forth in section 6 of the act.

MOBILE HOME COMMISSION

MOBILE HOME CODE

(By authority conferred on the mobile home commission by sections 4, 5, 9, 22 to 25, 27, and 38 of Act No. 419 of the Public Acts of 1976, as amended, being §§125.1104, 125.1105, 125.1109, 125.1122 to 125.1125, 125.1127, and 125.1138 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 125.1101 Definitions.

Rule 101. (1) As used in these rules:

(a) "Act" means Act No. 419 of the Public Acts of 1976, as amended, being §125.1101 et seq. of the Michigan Compiled Laws.

(b) "Advertising" means the publication, or causing to be published, of all material which is prepared for public distribution and consumption, by any means of communication. The term does not include stockholder communications, such as annual reports, interim financial reports, proxy materials, registration statements, securities, business or financial prospectuses, and applications for licensing.

(c) "Binding date" means 5 business days after the date a purchaser of a mobile home receives a legible copy of the executed purchase agreement, or if within 5 business days an application for a mobile home certificate of title is executed, at the time of execution.

(d) "Bureau" means the corporations and securities bureau of the department of commerce.

(e) "Certificate of mobile home title" means a document issued by the department or its authorized representative that establishes lawful transfer and ownership of a mobile home.

(f) "Commission" means the mobile home commission.

(g) "Consignment" means the commitment of a mobile home to a mobile home dealer, by a commercial or private owner, for the purpose of sale.

(h) "Consumer" means a purchaser.

(i) "Consumer deposit" means the payment of cash, personal check, money order, certified or cashier's checks, or similar instrument or other collateral or security paid by the consumer for the right to purchase a mobile home subject to return upon cancellation of the purchase agreement.

(j) "Cost" means the actual price paid by a mobile home dealer to a manufacturer for a specific mobile home as that price appears on the dealer invoice received from the manufacturer.

(k) "Dealer termination" means the permanent closing of a mobile home dealership.

(l) "Delivered," for the purpose of these rules, means that all documents pertaining to the sale of a mobile home, including consumer deposits, shall be considered received when deposited with the U.S. postal service for mailing by certified mail.

(m) "Director" means the director, mobile home section, corporations and securities bureau, department of commerce.

(n) "Down payment" means all partial payments, whether made in cash or otherwise, received by or for the benefit of the seller prior to, or substantially contemporaneous with, either the execution of the installment sale contract or the delivery of the goods sold thereunder, whichever occurs later.

(o) "Mobile home broker" means a person who, with intent to collect or receive a commission, sells or offers for sale, buys or offers to buy, lists or offers to list, or negotiates the purchase of, a used mobile home or does any of the following:

(i) Engages in more than 5 used mobile home sales in any 12-month period.

(ii) Holds himself out to the public as being principally engaged in the brokering of mobile homes.

(iii) Derives over 50% of his net annual income for 3 consecutive years from the brokering of mobile homes.

(iv) Devotes 50% of his working time, or more than 15 hours per week in any 6-month period, to the brokering of mobile homes.

(p) "Purchase agreement," for the purpose of records maintained under these rules, means an express written agreement in which a person agrees to buy, and another person agrees to sell, a mobile home and includes, but is not limited to, specific mobile home identification information, the agreed price of the mobile home, price of each buyer-selected option and accessory, and other costs to the buyer, such as insurance, finance charges, taxes, and title fees. This agreememt may be used to quote a price or as a receipt for down payment. All conditions of sale shall be included in the purchase agreement.

(q) "Retail sale," for the purpose of these rules, means to sell a mobile home, accessory, or item of equipment directly to a consumer.

(r) "Successor" means a person who succeeds to all rights and powers of a former owner.

(s) "Type 1 license" means a license issued to a person by the commission allowing the person to maintain a mobile home dealership and a mobile home brokerage.

(t) "Type 2 license" means a license issued to a person by the commission allowing the person to only engage in the brokering of used mobile homes.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 96 p. 10, Eff. July 12, 1978; 1954 ACS 100, p. 5, Eff. Sept. 5, 1979.

R 125.1105 Commission; voting; advisor.

Rule 105. Each member of the commission shall have 1 vote. An advisor to the commission may participate in all commission activities, but shall not have a vote.

History: 1954 ACS 96, p. 11, Eff. July 12, 1978.

R 125.1110 Commission; meeting; quorum; agenda.

Rule 110. (1) A quorum shall be required for the conduct of commission business.

(2) A quorum of the commission shall be a majority of the commission members.

(3) The chairperson shall determine the meeting agenda with the director. A member may place an item on the agenda 7 days before the scheduled meeting date.

(4) A meeting shall be called by the chairperson. Except in emergency circumstances, the call for a meeting, specifying the time and place of the meeting, shall be personally communicated or mailed to the business or home

address of each member of the commission not less than 7 days before the date of the meeting.

(5) The vice-chairperson shall fulfill the duties of the chairperson if the chairperson is absent.

(6) The chairperson shall appoint committees of the commission.

(7) A quorum of a committee shall be a majority of the committee members.

(8) A meeting shall be conducted pursuant to Robert's Rules of Order.

History: 1954 ACS 96, p. 11, Eff. July 12, 1978.

R 125.1115 Commission; meeting; public participation; public hearing.

Rule 115. (1) A member of the public may attend meetings of the commission.

(2) During a commission meeting, a member of the public may participate in the discussion of an agenda item if the consideration of that agenda item is before the commission.

(3) Testimony by a member of the public shall be given in the same manner as at a public hearing.

(4) Testimony or comments, or both, presented by a member of the public during public hearing shall be limited to 10 minutes for a person representing an organization and limited to 5 minutes for a person not representing an organization. The person presiding over the hearing may grant 10 additional minutes to anyone. Additional comments may be submitted to the commission in writing.

History: 1954 ACS 96, p. 11, Eff. July 12, 1978.

R 125.1120 Proposed higher standard; filing; approval and disapproval; adoption by ordinance.

Rule 120. (1) Pursuant to section 7(1) of the act, local governments proposing a higher standard than promulgated by these rules shall, after public hearing, file the proposed standard with the commission for review and approval.

(2) The filing shall be in letter form and shall contain, but not be limited to, the following:

(a) A statement pertaining to the current specific standard for which a higher standard is being proposed.

(b) The proposed higher standard.

(c) A statement or statements pertaining to why the local government requires a higher standard than the existing standard.

(d) A statement or statements that the proposed higher standard is not designed to generally exclude mobile homes or persons who engage in any aspect pertaining to the business of mobile homes.

(e) Any other information and data that provides justification for the proposed higher standard.

(3) The commission shall approve or disapprove the proposed higher standard within 60 days after filing with the commission and shall notify, in writing, the local government of its decision. If the commission denies the request, the local unit of government is entitled to a hearing before the commission or its designated representative pursuant to R 125.1135.

(4) If the commission does not approve or disapprove the proposed higher standard within 60 days after filing with the commission, the standard shall be considered approved unless the local government has granted the commission additional time to consider the proposal.

(5) After receipt of approval, or if the 60 days or extended time limit has lapsed, the local government may adopt the standard by ordinance.

R 125.1125 Proposed higher standard; intent to deny; order.

Rule 125. (1) The commission may deny a proposed higher standard by local government pursuant to section 7(1) of the act. Before issuing an order of intent to deny, the commission shall notify the local government by certified mail or personal delivery of its intent and the reasons for denial. This notice shall constitute notification within the 60-day time limit, and extension if any, pursuant to the act.

(2) The order of intent to deny shall automatically be effective after 15 days following the date of mailing of the notice of intent to deny unless the local government requests, in writing, a hearing before the commission pursuant to section 71 of Act No. 306 of the Public Acts of 1969, as amended, being §24.271 of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 6, Eff. Feb. 28, 1979.

R 125.1130 Enacting ordinances designed as exclusionary to mobile homes prohibited; proposed higher standard; aggrieved persons; hearing.

Rule 130. (1) Pursuant to section 7(2) of the act, a municipality or a local government, as defined in the act, shall not enact ordinances that are designed as generally exclusionary to mobile homes.

(2) A municipality or local government which proposes a higher standard than that in the act or in these rules shall comply with R 125.1120.

(3) A person aggrieved by any local action which becomes final shall be given an opportunity for a hearing by the commission to review the local decision pursuant to sections 4(c) and (d), 7, and 18(5) of the act.

History: 1954 ACS 98, p. 7, Eff. Feb. 28, 1979.

R 125.1135 Hearing; notice and conduct.

Rule 135. (1) Upon notice of request for hearing by an aggrieved party, the commission shall, without undue delay, set the time and date for the hearing.

(2) The local government shall be notified of the time, date, and location of the hearing by certified mail or personal delivery at the address that appears on the original request for review of a proposed higher standard. The notice of hearing shall not be sent less than 20 days before the hearing date.

(3) The hearing shall be open to the public and shall be conducted in accordance with Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

(4) The hearing shall be conducted by a presiding officer who shall be appointed by the commission. The decision of the commission shall be the final decision.

History: 1954 ACS 98, p. 7, Eff. Feb. 28, 1979.

R 125.1140 Hearing; appearances; adjournment or continuance; statements and briefs; service.

Rule 140. (1) A local government shall be represented by a duly authorized agent.

(2) If a local government or its authorized agent fails to appear after proper service of notice, the presiding officer, if no adjournment is granted, may proceed with the hearing and make a proposal decision in the absence of the party or parties.

(3) A prior adjournment or continuance may be granted by the commission or the person it designates for good cause shown by a party to the hearing or on motion or after stipulation and agreement between all parties. A request for

adjournment by a local government shall be made in writing not less than 5 days before the date set for the hearing.

(4) A local government or its authorized agent may file a written statement or brief or may present an oral statement at the time of the hearing. Copies of written statements and briefs shall be served on the commission, or its designated agent, and all other parties not less than 5 days before the date set for the hearing.

History: 1954 ACS 98, p. 7, Eff. Feb. 28, 1979.

R 125.1145 Intervention.

Rule 145. (1) A person not defined in the rules as an applicant, petitioner, or respondent, but who claims an interest in a proceeding, may petition for leave to intervene in the proceeding. An original and 2 copies of the petition to intervene shall be filed with the commission not less than 5 days prior to the date set for hearing, and the petition, when filed, shall show service of copies thereof upon all parties to the proceeding.

(2) A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as to fully and completely advise the parties and the commission of the specific issues of fact or law to be raised or controverted. The commission may grant a petition to intervene if it appears that intervention is in the public interest and that a leave to be heard is an inadequate participation in the proceeding.

(3) A petition to intervene which is not timely filed with the commission or presiding officer shall not be granted unless the denial of the petition is shown to be detrimental to the public interest or is shown to be likely to result in a miscarriage of justice, and unless all parties, excluding intervenors, have an adequate opportunity to file answers as hereinafter set forth and to be heard with respect thereto.

History: 1954 ACS 98, p. 7, Eff. Feb. 28, 1979.

R 125.1150 Leave to be heard.

Rule 150. (1) A person may, at the discretion of the commission or the presiding officer, be given leave to be heard in a proceeding as to an issue affecting the person's interests. A request for leave to be heard shall be in writing, shall set forth the nature and extent of the applicant's interest in the proceeding, and, except where good cause for late filing is shown, shall be filed not later than 2 days prior to the date fixed for the commencement of the hearing. The presiding officer may direct that persons requesting to be heard to submit themselves to examination as to their interest in the proceeding.

(2) A person granted a leave to be heard shall have only those rights as the commission or the presiding officer may deem appropriate.

History: 1954 ACS 98, p. 7, Eff. Feb. 28, 1979.

R 125.1155 Amicus curiae briefs.

Rule 155. In a contested case hearing, any person may submit an amicus curiae brief to the commission or the presiding officer. The brief shall be filed not more than 30 days after the hearing officer's proposed findings of fact and conclusions of law are transmitted to the commission. In a case heard by the commission, and in all other instances, the briefs shall be filed not more than 30 days after the conclusion of the hearing.

R 125.1160 Consolidation and conduct of proceedings.

Rule 160. (1) By order of the commission or by ruling of the presiding officer, a proceeding involving a question of law or fact in common with another proceeding may be joined with that other proceeding for a hearing of any or all matters in issue in the proceeding, and the proceedings may be consolidated.

(2) The commission or presiding officer may make orders concerning the conduct of the proceedings and shall avoid unnecessary costs or delays.

History: 1954 ACS 98, p. 8, Eff. Feb. 28, 1979.

R 125.1165 Testimony; depositions.

Rule 165. (1) Testimony shall be under oath or affirmation.

(2) A deposition shall be taken only on order of the commission or its authorized agent upon a showing that it is impracticable or impossible to obtain necessary evidence otherwise. It shall be taken in accordance with provisions for taking depositions in civil cases, as set forth in the Michigan general court rules or other applicable court rules.

History: 1954 ACS 98, p. 8, Eff. Feb. 28, 1979.

R 125.1170 Decisions, orders, and rehearings.

Rule 170. (1) Within a reasonable time after completion of a hearing, the commission shall send by certified mail or personal delivery to the last known address of the parties the decision and orders, which shall include findings of fact and conclusions of law.

(2) A rehearing may be granted by the commission upon application in writing by a local government or any other party to the hearing or upon its own motion in accordance with Act No. 306 of the Public Acts of 1969, as amended. A rehearing shall be noticed and conducted in the same manner as an original hearing.

History: 1954 ACS 98, p. 8, Eff. Feb. 28, 1979.

R 125.1175 Declaratory rulings.

Rule 175. (1) The commission and the bureau, on request of an interested person, may issue a declaratory ruling as to the applicability to an actual statement of facts of the act or a rule promulgated under the act upon submission to either party of the following:

(a) A clear and concise statement of the actual statement of facts.

(b) If the interested person desires, a brief or other reference to legal authorities relied upon for determination of the applicability of the act or rule to the statement of facts.

(2) The commission and the bureau, if they determine they will issue a declaratory ruling, shall furnish the person with a statement to that effect and establish the time in which they will issue the ruling.

(3) A ruling shall repeat the actual statement of facts, the legal authority on which the commission relies for its ruling, if any, and the ruling it makes.

(4) A ruling, once issued, is binding on the commission and the bureau, and may not be retroactively changed, but this rule does not prohibit the commission and the bureau from changing a ruling in the future.

History: 1954 ACS 98, p. 8, Eff. Feb. 28, 1979.

R 125.1190 Inspections.

Rule 190. (1) The department or its authorized representative shall not conduct an inspection pursuant to this act or the rules promulgated thereunder without first identifying itself to the developer, owner, or operator of the mobile home business to be inspected. "Inspections," for the purpose of this rule, means, but is not limited to, drive-throughs, walk-throughs, compliance inspections, or

any other means from which visual or oral information would be obtained pertaining to the management or operation, or both, or any other aspect of the mobile home business in which the person being inspected is engaged.

(2) This rule does not apply to investigations conducted under the authority of section 36(1)(a) of the act.

History: 1954 ACS 98, p. 8, Eff. Feb. 28, 1979.

R 125.1195 Credit reporting.

Rule 195. A person applying for an initial license pursuant to the act or these rules shall have a credit reporting agency forward a credit report on the applicant to the department as part of the application process. Credit reports shall be for the confidential use of the agency only and shall not be available for public inspection pursuant to section 13(1)(a) of Act No. 442 of the Public Acts of 1977, being §15.243(1)(a) of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 9, Eff. Feb. 28, 1979.

R 125.1200 Partnership disclosure.

Rule 200. (1) Pursuant to section 38 of the act, when filing an application under the act or these rules, a limited partner in a partnership shall be required to provide only the following information:

(a) Disclosure of any conviction or administrative or civil judgment rendered against the limited partner within 10 years before the date of the application in connection with any aspect of the business of mobile homes which includes, but is not limited to, sales; brokering; installation and repair; financing and insuring mobile homes; and any aspect of mobile home park ownership, management, and operation, or development and construction.

(b) Disclosure of any conviction or administrative or civil judgment rendered against the limited partner within 10 years before the date of application in connection with a violation of a statute regulating the offering of securities or franchises or regulating builders, real estate brokers, or real estate salespersons, or of a violation of Act No. 286 of the Public Acts of 1972, as amended, being §565.801 et seq. of the Michigan Compiled Laws.

(c) A criminal record check on a form provided by the commission.

(2) A general partner shall provide a current financial statement, a credit report, and the disclosures required under subrule (1) of this rule.

History: 1954 ACS 98, p. 9, Eff. Feb. 28, 1979.

R 125.1200a Additional licenses; filing of information.

Rule 200a. If an applicant holds a license issued under the act and subsequently applies for an additional license issued under the act, the applicant shall be required to file only that information not on file with the bureau in addition to the appropriate application and fee.

History: 1954 ACS 100, p. 48, Eff. Sept. 5, 1979.

PART 2. DEALERS

R 125.1201 Application; form; filing.

Rule 201. A completed original application shall, on the form prescribed by the commission, be filed with the department not less than 30 days before the date on which the applicant wishes to engage in retail sales.

History: 1954 ACS 68, p. 71, Eff. July 12, 1978.

R 125.1202 Application; answering questions truthfully.

Rule 202. An applicant for a license under the act shall answer all questions on the application truthfully and shall not misrepresent any material fact on the application.

History: 1954 ACS 98, p. 11, Eff. July 12, 1978.

R 125.1203 Application; filing as successor.

Rule 203. If an applicant files an application for the license as a successor, whether or not the successor is then in existence, the application shall meet all requirements of an original application.

History: 1954 ACS 98, p. 12, Eff. July 12, 1978.

R 125.1204 Applications; changes, additions, or corrections.

Rule 204. All changes, additions, or corrections to the original application, including, but not limited to, changes in business address, officers, and directors, shall be filed with the department within 10 days after the change or changes are made.

History: 1954 ACS 98, p. 12, Eff. July 12, 1978.

R 125.1205 Surety bonds; cancellation.

Rule 205. (1) A surety bond of $10,000.00 or a deposit of $10,000.00 in cash or securities, made out to the People of the State of Michigan, on forms prescribed by the commission, is required for each dealership location and shall accompany an application for a dealer's license.

(2) Cancellation of the surety bond required by subrule (1) is cause for suspension or revocation of a dealer license.

History: 1954 ACS 98, p. 12, Eff. July 12, 1978.

R 125.1206 Financial statement.

Rule 206. An applicant shall prepare and submit to the department a notarized financial statement of the corporation, or each partner of a partnership, or an individual on a form prescribed by the commission.

History: 1954 ACS 98, p. 12, Eff. July 12, 1978.

R 125.1207 License for each location required; application for more than 1 license.

Rule 207. An applicant shall secure a license for each location from which it proposes to operate. If an applicant applies for more than 1 dealer's license concurrently, or within 6 months of the original application date, the commission shall require the applicant to file 1 original application form with appropriate fees for each license, but the department may waive the requirement of including supporting documents.

History: 1954 ACS 98, p. 12, Eff. July 12, 1978.

R 125.1208 Original license required to engage in retail sale of mobile homes; duplicate license.

Rule 208. A dealer shall not engage in the retail sale of mobile homes until the dealer receives an original license, issued and approved by the commission, from the department on original application. A duplicate license shall be issued on submission of a verified statement of loss of the original license to the commission.

History: 1954 ACS 98, p. 12, Eff. July 12, 1978.

R 125.1209 License; issuance generally.

Rule 209. A dealer's license may be issued to an individual, partnership, association, trust, or corporation, or any other legal entity, or combination thereof, which meets the requirements of the act and these rules.

History: 1954 ACS 96, p. 12, Eff. July 12, 1978.

R 125.1210 License; issuance to person under age 18 prohibited.

Rule 210. A dealer's license shall not be issued to a person who is under the age of 18.

History: 1954 ACS 96, p. 12, Eff. July 12, 1978.

R 125.1211 License; issuance to limited partnership.

Rule 211. A dealer's license shall not be issued to a limited partnership if the person who applies for the license on behalf of the limited partnership is not a general partner.

History: 1954 ACS 96, p. 12, Eff. July 12, 1978.

R 125.1212 License; request for renewal.

Rule 212. A request for the renewal of a dealer's license shall be on a form provided by the commission and shall be accompanied by a certification of bonding, a notarized financial statement as provided in R 125.1206, and the fee specified in section 21 of the act.

History: 1954 ACS 96, p. 12, Eff. July 12, 1978.

R 125.1213 Temporary original license.

Rule 213. The commission may authorize or issue temporary original licenses, containing such information as the commission prescribes, as evidence of proper licensing.

History: 1954 ACS 96, p. 12, Eff. July 12, 1978.

R 125.1214 Operation after expiration of license.

Rule 214. A licensee may continue to operate as previously licensed using only his expired wall license as evidence of proper licensing if his completed application for renewal, with proper fee, has been received by the department prior to September 30. A licensee or an applicant for a new license, whose application is received by the department after September 30, shall not operate until he receives a current license.

History: 1954 ACS 96, p. 13, Eff. July 12, 1978.

R 125.1215 Employment of person whose license is suspended.

Rule 215. A dealer shall not employ a person whose license has been suspended under this act during the time of the suspension.

History: 1954 ACS 96, p. 13, Eff. July 12, 1978.

R 125.1216 Advertising; prohibited acts.

Rule 216. A mobile home dealer, in connection with the sale of mobile homes, equipment, or accessories, shall not, directly or indirectly, engage in any of the following acts:

(a) Advertise a mobile home for sale if the name of the dealership does not appear in the advertisement. A mobile home consigned by a private party to a dealer for sale may be advertised if the offer visibly states that the mobile home is "offered on consignment."

Digitized by Google Original from UNIVERSITY OF MICHIGAN

(b) Advertise a mobile home and offer any year, make, type, model, serial number, fixed location, price, equipment or terms, or to make a claim or condition to the sale of a mobile home which is not truthful.

(c) Advertise the terms "close out," "final clearance," or "going out of business," or similar terms, in connection with mobile home sales, without clarification if this is not the case. A dealer who is going out of business shall comply with the provisions of Act No. 39 of the Public Acts of 1961, being §§442.211 to 442.225 of the Michigan Compiled Laws.

(d) Advertise the term "authorized dealer" if the dealer is not a manufacturer's authorized dealer or shall not advertise as a franchised dealer when the dealer is not a registered franchised dealer under Act No. 269 of the Public Acts of 1974, being §§445.1501 to 445.1545 of the Michigan Compiled Laws.

(e) Advertise a mobile home by making inaccurate, misleading, or false comparisons with competitors' services, prices, products, quality, or business methods.

(f) Use a picture or photograph of a mobile home in advertising if the picture or photograph does not represent a mobile home of the same year, make and model, and does not contain all the standard equipment of the model that is actually being offered for sale at the price quoted in the advertisement.

(g) Advertise a mobile home for sale in a manner which conveys or creates an erroneous impression as to which mobile home is being offered at the advertised price.

(h) Advertise the statements "write your own deal," "name your own price," or similar statements, unless these statements are true and a buyer can, in fact, negotiate his or her own price.

(i) Advertise the terms "at cost," "below cost," "below wholesale," "below invoice," or "above cost," "above wholesale," "above invoice," or similar terms in connection with a retail sale unless the terms are true.

(j) Advertise a specific trade-in amount or range of amounts for a used mobile home without offering the advertised trade-in amount or range of amounts regardless of the condition of the used mobile home when presented to the dealer for trade-in by a prospective customer unless the statement "subject to condition appraisal" is contained in the advertisement.

(k) Advertise that "no dealer has lower prices," "the dealer is never undersold," or terms of similar meaning unless the statements are true.

(l) Advertise in a manner which is false or misleading as to what a new mobile home guarantee, warranty, or protection includes.

(m) Advertise the terms "manufacturer's warranty" unless referring to a new mobile home covered by a bona fide written manufacturer's warranty.

(n) Advertise equipment, accessories, or other merchandise as "free" if the cost, or any part of the cost, is included in the quoted price of the mobile home.

(o) Advertise the terms "no credit rejected," "we finance everyone," or similar terms unless the terms are true.

(p) Advertise the offering of a rebate or referral bonus unless they are true.

(q) Advertise a mobile home as new unless it has never been occupied. A mobile home which is not of a current model or calendar year, but which has never been occupied, may be advertised as new if the model or calendar year is stated in the advertisement.

(r) Advertise, or infer by advertising, that a mobile home is "repossessed" unless it is true.

(s) Advertise in any manner which infers that a purchaser will be receiving benefits of an existing loan on a mobile home if such benefits do not exist.

(t) Advertise used mobile homes as carrying an unused portion of the original manufacturer's warranty unless this is true.

History: 1954 ACS 96, p. 13, Eff. July 12, 1978.

R 125.1217 Accounts and records.

Rule 217. (1) In addition to accounts and records required by local ordinances, other laws, or as prescribed elsewhere in these rules, a mobile home dealer shall retain a record of all mobile homes bought, sold, or exchanged. The record shall be kept in a hard cover, bound volume with entries recorded in ink. The dealer shall complete the following entries for each mobile home bought, sold, and exchanged by the dealership:

(a) The date each mobile home is taken into inventory.

(b) The name and address of the person from whom the mobile home was obtained.

(c) The purchase or stock number of the mobile home.

(d) The identification number of the mobile home.

(e) The manufacturer's trade name.

(f) The model year and model name of the mobile home.

(g) The dates bought, sold, and exchanged.

(h) The name and address of the purchaser.

(2) At the time of sale, each mobile home dealer shall, on a form prescribed by the commission, prepare, execute, and file with the department or its authorized representative, an application for a certificate of mobile home title which shall include the appropriate fee and any lien held against the mobile home.

(3) All sales of a mobile home shall be executed pursuant to a purchase agreement.

(4) A mobile home dealer shall retain all of the following:

(a) A copy of the manufacturer's invoice for each new mobile home.

(b) A copy of each purchase agreement, as defined in these rules, with any attachments for each mobile home bought, sold, and exchanged.

(c) The dealer's copy of the application for certificate of mobile home title.

(d) Service records for each mobile home sold. If the mobile home is used, all records that the dealer may have knowledge of shall be retained.

(e) A list of all options purchased with a specific mobile home, unless otherwise contained in the purchase agreement.

(5) A mobile home dealer who maintains an escrow account shall maintain a separate record system for consumer deposits at his principal place of business. The record system, with all entries recorded in ink, shall consist of, but not be limited to, all of the following:

(a) A bound record book which shows the chronological sequence in which consumer deposits are received and disbursed.

(b) For consumer deposits received, the record shall include the date of receipt, the name of the party who is giving the consumer deposit, the name of the person receiving the consumer deposit, and the amount.

(c) If the consumer deposit is in the form of collateral or security other than cash or a cash negotiable instrument, the record shall specifically identify the collateral or security, and the cash value shall be the same as contained in the purchase agreement.

(d) For disbursements, the record shall include the date, the payee, the check number, and the amount.

(e) A running balance shall be shown after each entry of receipt and disbursement.

(6) All accounts and records required by these rules for retention shall be available for inspection by an authorized representative of the bureau during normal business hours.

(7) A mobile home dealer maintaining a bond, cash, or security deposits in lieu of an escrow account shall maintain a record system consisting of, but is not limited to, the following:

(a) For consumer deposits received, the record shall include the date of receipt, name of the party who is giving the consumer deposit, name of the person receiving the consumer deposit, and amount.

(b) If the consumer deposit is collateral or security other than cash or a cash instrument, the record shall specifically identify the collateral or security and the cash value shall be the same as contained in the purchase agreement.

(c) For disbursements, the record shall include the date, payee, check number and amount.

History: 1954 ACS 98, p. 14, Eff. July 12, 1978; 1954 ACS 100, p. 48, Eff. Sept. 5, 1979.

R 125.1218 Consumer deposits.

Rule 218. (1) A mobile home dealer shall give to a consumer, before receiving a consumer deposit, an itemized statement of all costs to the consumer for a mobile home or accessory.

(2) A mobile home dealer shall record on each request for financing sent to a lending institution the exact amount of the down payment.

(3) A mobile home dealer shall refund to the consumer the total amount of consumer deposit on the purchase of a mobile home not more than 15 banking days after a request for financing has been rejected by the lending institution, or if the consumer cancels the purchase agreement before the binding date as provided in these rules, or if the manufacturer agrees to cancel the order for a new mobile home without penalty to the dealer.

(4) A mobile home dealer has no obligation to refund the consumer deposit if the purchaser cancels the purchase agreement of a new or used mobile home after the binding date.

(5) The consumer shall notify the mobile home dealer in writing of his intent to cancel the purchase agreement. The notification shall be delivered to the mobile home dealer before the close of the business day on the binding date to be eligible for return of a consumer deposit.

(6) An employee who accepts consumer deposits and purchase agreements in the name of a mobile home dealership shall be deemed authorized by the mobile home dealer to accept the deposit.

(7) A mobile home dealer shall place all consumer cash deposits or similar negotiable instruments of the consumer's deposit in an escrow account by the end of the second banking day following receipt. Escrow accounts shall be maintained as checking accounts. The mobile home dealer or person authorized in writing by the mobile home dealer may be a signatory on checks drawn on the accounts.

(8) A mobile home dealer may maintain more than 1 escrow account. He may maintain his own funds in an amount not to exceed $100.00 in each deposit escrow account to cover bank service charges and to avoid the account being closed or overdrawn if there are no other funds in the account. These funds shall be accounted for in a bookkeeping system as prescribed in these rules.

(9) In place of an escrow account, a mobile home dealer may maintain a consumer deposit bond of not less than $10,000.00, a consumer deposit bond or cash deposits or security in an amount equal to the highest monthly receipts of consumer cash deposits and cash value of other security recorded over the

previous 3 years. If the highest monthly receipts formula is used to determine the amount of the bond or deposit, the amount of the bond or deposit shall be adjusted to reflect the previous 3 years' experience before a license is renewed. If at any time the consumer deposits received exceed the amount of the bond or deposit established under the formula, the dealer shall immediately increase the amount of the bond or deposit or escrow the excess amount. All bonds shall be made out to the People of the State of Michigan on a form prescribed by the commission and shall accompany an application for a dealer's license. All cash deposits or security shall be deposited with the state of Michigan upon application for a dealer's license.

(10) Effective 6 months after filing of this subrule, the front of each purchase agreement shall contain the following statement in boldface type:

> Five business days after the purchaser receives a legible copy of the executed purchase agreement, or if at any time within the 5 days an application for a certificate of mobile home title is executed, the sale is final and the dealer is not obligated to refund the consumer deposit if the purchaser subsequently cancels the agreement. If the purchaser elects to cancel the purchase agreement within the 5 business day limit and has not executed an application for a certificate of mobile home title, the purchaser shall notify the dealer in writing by certified mail or personal delivery and dealer receipt given to be eligible for full refund of the consumer deposit.

R 125.1218a Mobile home dealers; escrow account; bonds; cash or other securities.

Rule 218a. (1) As a condition of licensing, a mobile home dealer shall establish an escrow account, post a consumer deposit bond, or deposit cash or other securities in compliance with section 24(c) of the act for the protection of consumer deposits received by the dealership.

(2) If a dealer establishes an escrow account, it shall be maintained in compliance with R 125.1218(7) and (8).

(3) If a dealer posts a bond or deposits cash or other securities they shall be maintained in compliance with R 125.1218(9), except that a dealer filing an initial application shall maintain the bond, cash, or other securities at a minimum of $10,000.00 until sufficient data is available to comply with R 125.1218(9).

(4) A copy of the consumer deposit bond shall be filed with the bureau as an enclosure to the dealer license application. If the application is for a renewal license only, and if a copy of the bond is on file and the bond is continuous, this subrule shall not apply.

(5) If the dealer establishes an escrow account or deposits cash or other securities, the dealer shall file with the bureau, on a form prescribed by the commission, an affidavit attesting to the fact that such accounts have been established. The affidavit shall be filed as an enclosure to the dealer license application.

History: 1954 ACS 100, p. 50, Eff. Sept. 5, 1979.

R 125.1219 Prohibited business practices.

Rule 219. (1) In addition to other laws and rules promulgated for the purpose of regulating business practices, a mobile home dealer shall not engage in any of the following practices:

(a) Alter or substitute a mobile home purchased from inventory for which a purchase agreement has been executed by all parties to the transaction, without the express written consent of the purchaser. The purchaser's consent shall become an attachment to the purchase agreement.

(b) Alter, substitute, or remove a part, option, accessory, or item of standard equipment of a mobile home purchased from inventory for which a purchase agreement has been executed by all parties to the transaction, without the express written consent of the purchaser. The purchaser's consent shall become an attachment to the purchase agreement.

(c) Alter, or substitute a part or entry of a purchase or financing agreement after the agreement has been executed by all parties to the transaction, without the express written consent of the purchaser. The purchaser's consent shall become an attachment to the purchase or financing agreement.

(d) Perform repairs on a mobile home, including an option, accessory, or item of standard equipment of a mobile home which results in the alteration or substitution to the manufacturer's construction and performance standards in effect at the time of manufacturing.

(2) A mobile home dealer shall comply with the provision of Act No. 331 of the Public Acts of 1976, being §§445.901 to 445.922 of the Michigan Compiled Laws.

History: 1954 ACS 96, p. 15, Eff. July 12, 1978.

R 125.1220 Disclosure of business relationships with lending institutions and insurance companies.

Rule 220. (1) A mobile home dealer shall disclose, at the time of filing with the bureau on the prescribed application, all direct or indirect business relationships which the dealer has with financial and loan institutions, banks, all other lending institutions, and insurance companies. Agreements reached subsequent to filing shall be submitted to the department, on a form prescribed by the commission, within 15 working days.

(2) All retail installment sales agreements utilized by a mobile home dealer shall conform to the federal consumer credit protection act, Public Law 90-321; and to the retail installment sales act, Act No. 224 of the Public Acts of 1966, as amended. Any retail installment sales agreement shall fully disclose the terms and conditions of finance charges in credit transactions or in offers to extend credit.

(3) A mobile home dealer shall not require dealer-obtained financing of a mobile home as a condition of sale.

History: 1954 ACS 96, p. 16, Eff. July 12, 1978.

R 125.1221 Making insurance condition to sale.

Rule 221. A mobile home dealer shall not make insurance a condition to the sale of a mobile home.

History: 1954 ACS 96, p. 16, Eff. July 12, 1978.

R 125.1222 Dealer termination.

Rule 222. (1) Immediately upon determination to terminate a mobile home dealership, a mobile home dealer shall do all of the following:

(a) By certified mail, notify the bureau and each bonding agency, each financial and loaning institution, each manufacturer of a new mobile home for which the dealer is an authorized agent, and each insurance company that the dealer is doing business with of his proposed termination.

(b) On a form prescribed by the commission, notify by certified mail each purchaser of a new or used mobile home who, within 1 year of the proposed

termination date, purchased a mobile home from the dealer that the dealership shall be terminated. The notification shall clearly state the responsibilities for future service and repair under guarantees and warranties, financial claims, and all other dealer claims and obligations previously issued under the purchase agreement.

(c) By certified mail, send each manufacturer of new mobile homes sold by the dealer 1 year before the proposed termination date a complete list of all mobile home purchasers. The list shall contain, but not be limited to, the name and most recent known address of the purchaser, the name, model, and serial number of the mobile home, the date the manufacturer's warranty was effective, and the remaining warranty.

(2) In addition to complying with the notifications required in subdivisions (a), (b), and (c) of this rule, a mobile home dealer shall, before the bureau terminates the dealership license, send the bureau, by certified mail, a statement that contains his proposal of the settlement of all service, warranty and guarantee, and financial obligations previously issued by the dealer under an agreement. The proposed settlement of service, guarantee, and warranty obligations shall clearly state a reasonable area or distance that the dealer intends to obligate himself to fulfill his commitments under previously issued agreements.

(3) A terminated mobile home dealer shall maintain a full $10,000.00 surety bond for the current license year.

(4) A terminated mobile home dealer shall retain all accounts and records prescribed by these rules for 3 years after the date of termination.

(5) Before a subsequent issue of a mobile home dealer's license, a previously terminated mobile home dealer shall attach a statement to his application attesting to the fact that all obligations and complaints incurred during his dealership have been resolved.

History: 1954 ACS 96, p. 16, Eff. July 12, 1978.

R 125.1223 Warranties and service.

Rule 223. (1) A new mobile home sold by a dealer situated in this state shall be covered by a written warranty from the manufacturer or dealer which complies with Act No. 288 of the Public Acts of 1974, being §§125.991 et seq. of the Michigan Compiled Laws, and known as the uniform mobile homes warranty act.

(a) A manufacturer shall warrant that the mobile home is free from substantial defects in materials or workmanship and was delivered to the dealer in such condition. A manufacturer shall also warrant that the Michigan laws and rules existing at the time of construction as to construction and fire protection and detection were complied with.

(b) A dealer shall warrant that the mobile home is free from substantial defects in materials or workmanship when sold to the buyer.

(c) A manufacturer and dealer shall warrant that they, or 1 of them, shall take appropriate corrective action at the site of the mobile home for breach of their respective warranty obligations, which defect becomes evident within 1 year from the date of the delivery of the mobile home to the purchaser, if the purchaser gives written notice of the defect to the manufacturer or dealer at their last known business address not later than 1 year and 11 days after date of delivery to the first retail buyer.

(2) A mobile home includes the structure, plumbing, electrical, heating, and fire detection systems installed therein, and also includes the appliances situated therein, unless covered by a warranty from the appliance manufacturer, equaling or exceeding the warranty provided in subrule (1)(a), (b), and (c).

R 125.1224 Mobile home broker.

Rule 224. (1) In order to become a licensed mobile home broker, a person shall do both of the following:

(a) Complete an application on a form prescribed by the commission for each mobile home brokerage location.

(b) Establish a $10,000.00 surety bond for each mobile home brokerage location.

(2) In addition to maintaining accounts and records as prescribed by law, a mobile home broker shall maintain accounts and records pertaining to consumer deposits, listing agreements, offers to purchase, applications for a certificate of mobile home title, closing statements, and a copy of each written complaint received pursuant to these rules.

(3) A mobile home broker who obtains a mobile home listing shall give a true copy of the listing agreement to the listing owner. A listing agreement shall be completed by the mobile home broker before it is signed by the listing owner.

(4) A listing agreement shall set forth an expiration date and shall not contain a provision requiring the listing owner to notify the mobile home broker of the listing owner's intention to cancel the listing upon or after the expiration date.

(5) A mobile home broker shall deliver to an offeror a signed copy of the offer to purchase immediately after it is signed by the offeror. A mobile home broker, upon receipt of the written offer to purchase, shall promptly deliver the written offer to purchase to the seller. Upon obtaining a proper acceptance of the offer to purchase, signed by the seller, the mobile home broker shall promptly deliver true copies of the acceptance to the purchaser and the seller. A mobile home broker shall certify in writing that all conditions of the mobile home transaction are included in the offer to purchase.

(6) A mobile home broker involved in the consummation of a mobile home transaction shall furnish the buyer and seller with a complete and detailed closing statement, signed by the mobile home broker, showing all receipts and disbursements of the transaction. A mobile home broker shall submit on the prescribed form an application for a certificate of mobile home title and collect, record, and remit the appropriate fee and sales tax within 15 days after the closing of the mobile home transaction.

(7) A mobile home broker shall not close a mobile home transaction contrary to the terms or conditions of the offer to purchase unless the written amendments are approved and signed by the purchaser and the seller.

(8) A mobile home dealer may broker used mobile homes upon approval of a "type 1" license.

(9) A mobile home park owner may broker used mobile homes only upon approval of a "type 1" or "type 2" license.

(10) A person seeking an exclusion to the definition and rules of a mobile home broker shall show proof of the exclusion.

(11) In addition to accounts and records prescribed by these rules, a mobile home broker shall retain copies of all listing agreements, offers to purchase, applications for a certificate of mobile home title, closing statements, leasing agreements, and a copy of each written complaint received for 3 years.

(12) A mobile home dealer acting as a broker and a mobile home broker shall place consumer deposits or similar negotiable instruments in a separate escrow account by the end of the second banking day following receipt. Escrow accounts shall be maintained as checking accounts. The mobile home broker or persons authorized by him may be a signatory on checks drawn on the accounts.

(13) Pursuant to these rules, a mobile home broker shall comply with the following rules: R 125.1216, R 125.1218, R 125.1219, R 125.1220, and R 125.1222.

History: 1954 ACS 98, p. 17, Eff. July 12, 1978; 1954 ACS 100, p. 51, Eff. Sept. 5, 1979.

R 125.1225 Mobile home dealer and broker; place of business.

Rule 225. A mobile home dealer and a mobile home broker shall maintain a place of business which is an actual, physically established location from which business can be conducted and where accounts and records shall be available for inspection during normal business hours by a representative of the bureau. A post office box, secretarial service, telephone answering service, or similar entity does not constitute an actual, physically established location.

History: 1954 ACS 98, p. 9, Eff. Feb. 28, 1979.

R 125.1226 Dealer or broker; prohibited acts.

Rule 226. A mobile home dealer or broker shall not aid or abet an unlicensed person to evade the provisions of the act or these rules, or knowingly combine or conspire with, or act as an agent, partner, or associate for, an unlicensed person, or allow one's license to be used by an unlicensed person, or act as or be an apparent licensed mobile home dealer or broker for undisclosed persons who do or will control or direct, or who may have the right to control or direct, directly or indirectly, the business operations or performance, or both, of the licensee.

History: 1954 ACS 98, p. 9, Eff. Feb. 28, 1979.

R 125.1227 "Otherwise transfers" explained.

Rule 227. "Otherwise transfers," as used in section 30c(4) of the act, includes in the event of death of an owner of 1 or more mobile homes whose total value does not exceed $10,000.00, who does not leave other property necessitating procuring of letters administration or letters testamentary as required in section 114 of the revised probate code, the surviving husband or wife, heirs in the order named in section 115 of the revised probate code, may apply for a title, after first having furnished the department proper proof of the death of the registered owner, attaching to the proof an affidavit setting forth the fact that the applicant is the surviving husband or wife, or heirs, and upon proper petition the department shall furnish applicant with a certificate of title.

History: 1954 ACS 100, p. 51, Eff. Sept. 5, 1979.

R 125.1228 Brokers; disclosures in listing agreements and closing statements.

Rule 228. A mobile home broker shall do all of the following:

(a) Disclose in the listing agreement that the park in which the mobile home is located has agreed in writing to permit the in-park, on-site sale of the mobile home offered, and that the mobile home meets the criteria for such sales pursuant to the written park rules.

(b) Disclose in the closing statement before closing that the mobile home offered is located on-site in a mobile home park, that the in-park, on-site sale is agreed to in writing by the park, that the prospective purchaser has been accepted, in writing, by the park for tenancy, and that the purchaser shall not be required to relocate within or outside the park if the purchaser complies with the conditions of tenancy as contained in the lease agreement and the published park rules.

(c) Disclose in the listing agreement the percent of commission to be received by the broker upon closing.

PART 3. FEES

R 125.1301 Rescinded.

History: 1954 ACS 96, p. 18, Eff. July 12, 1978; rescinded 1954 ACS 100, p. 52, Eff. Sept. 5, 1979.

R 125.1305 Mobile home park license; renewal.

Rule 305. (1) Each applicant for a mobile home park license or for a license renewal shall make application for the license or the license renewal on a form prescribed by the department. The fee for the annual license is $25.00 plus an additional 50 cents for each site in excess of 25 sites per mobile home park.

(2) The fee shall be submitted with the application to the department.

History: 1954 ACS 96, p. 18, Eff. July 12, 1978.

R 125.1310 Late fee.

Rule 310. A late fee of $50.00 shall be charged for any license issued under the act if timely application is not made by the applicant pursuant to the submission date contained in these rules or the act.

History: 1954 ACS 98, p. 9, Eff. Feb. 28, 1979.

R 125.1315 Mobile home park construction and conversion fees.

Rule 315. (1) If filed separately, the following fees shall accompany the documents submitted pursuant to R 125.1905 and R 125.1915 for new mobile home park construction, or expansion to an existing, licensed park:

(a) Construction plans approval $160.00
(b) Application for a permit to construct 25.00

(2) If a request for construction plans approval and an application for a permit to construct are filed simultaneously, the accompanying fee shall be $185.00.

(3) A fee of $505.00 shall accompany the documents submitted for the construction of a new mobile home condominium.

(4) For existing mobile home parks converting to a mobile home condominium with no expansion to the number of mobile home sites within the park, the accompanying fee shall be $480.00.

(5) For existing mobile home parks converting to a mobile home condominium with expansion to the number of mobile home sites within the park, the accompanying fee shall be $505.00.

History: 1954 ACS 98, p. 10, Eff. Feb. 28, 1979.

R 125.1320 Fees for public documents.

Rule 320. (1) Upon written request, the bureau shall provide to the requestor copies of any document retained by the bureau that is determined a matter of public record.

(2) A minimum fee of $5.00 shall be charged for any request. For requests that exceed the minimum fee, the following schedule of fees apply:

(a) Standard document ..... $ .25 per page
(b) Certified document ..... 5.00 per page
(c) Microfiche ..... .50 per fiche
(d) Magnetic tape ..... 21.70 per reel
(e) Cassette tape ..... 20.00 per cassette
(f) Hearing transcript ..... .50 per page
(g) Computer print-out ..... Actual cost
(h) Postage ..... Actual cost
(i) Labor ..... 4.09 per hour

PART 4. INSTALLER AND REPAIRER LICENSING

R 125.1401 Installer or repairer; licensing required.

Rule 401. A person who installs or repairs mobile homes for compensation shall be licensed as a mobile home installer and repairer.

History: 1954 ACS 98, p. 18, Eff. July 28, 1978.

R 125.1402 Application; form; filing; duplicate license.

Rule 402. As of October 1, 1978, a completed original application on a form prescribed by the commission shall be filed not less than 30 days before the date on which the applicant intends to engage in the installation and repair of mobile homes. A duplicate license shall be issued on submission of a verified statement of loss of the original license.

History: 1954 ACS 98, p. 19, Eff. July 28, 1978.

R 125.1403 Application; answering questions truthfully.

Rule 403. An applicant shall answer all questions truthfully and shall not misrepresent any material fact on the application.

History: 1954 ACS 98, p. 19, Eff. July 28, 1978.

R 125.1404 Application; filing as successor.

Rule 404. If an applicant files an application for a license as a successor, whether or not the successor is then in existence, the application shall meet all requirements of an original application.

History: 1954 ACS 98, p. 19, Eff. July 28, 1978.

R 125.1405 Application; changes, additions, or corrections.

Rule 405. Changes, additions, or corrections to the original application, including, but not limited to, changes in business address, officers, and directors, shall be filed with the department within 10 days after the changes are made.

History: 1954 ACS 98, p. 19, Eff. July 28, 1978.

R 125.1406 Financial statement.

Rule 406. An applicant shall prepare and submit to the department a notarized financial statement of the corporation, or each partner of a partnership, or individual on a form prescribed by the commission.

History: 1954 ACS 98, p. 19, Eff. July 28, 1978.

R 125.1407 License; issuance generally.

Rule 407. An installer and repairer license may be issued to an individual, partnership, association, trust, or corporation, or any other legal entity, or combination thereof, which meets the requirements of the act and these rules.

History: 1954 ACS 98, p. 19, Eff. July 28, 1978.

History: 1954 ACS 96, p. 19, Eff. July 26, 1978.

R 125.1409 License; issuance to limited partnership.

Rule 409. An installer and repairer license shall not be issued to a limited partnership when the person who applies for such limited partnership is not a general partner.

History: 1954 ACS 96, p. 19, Eff. July 26, 1978.

R 125.1410 License; request for renewal.

Rule 410. A request for renewal of an installer and repairer license shall be on a form provided by the commission and shall be accompanied by a notarized financial statement and the fee specified in section 21(4) of the act.

History: 1954 ACS 96, p. 19, Eff. July 26, 1978.

R 125.1411 Temporary original license.

Rule 411. The commission may authorize or issue temporary original licenses as evidence of proper licensing, containing such information as the commission prescribes.

History: 1954 ACS 96, p. 19, Eff. July 26, 1978.

R 125.1412 Employment of person with suspended license prohibited.

Rule 412. A dealer or an installer and repairer shall not employ, during the time of suspension, an installer or repairer who has had his license suspended under this act.

History: 1954 ACS 96, p. 19, Eff. July 26, 1978.

R 125.1413 Licensed dealer; installation and repair of mobile homes; employee not required to obtain license; nonapplicability of rules.

Rule 413. (1) Pursuant to the act, a licensed mobile home dealer may install and repair mobile homes as an integral part of his business.

(2) A person who is employed by a licensed mobile home dealer as an installer and repairer is not required to obtain a license. If an employee of a licensed mobile home dealer engages in the installation and repair of mobile homes on his own behalf other than in the scope of employment, the person shall obtain a mobile home installer and repairer license. Any employee of a dealer or installer and repairer who engages in installing and repairing mobile homes other than as a result of his employment, shall notify the consumer, in writing, that he is working on his own behalf.

(3) These rules do not apply to the following:

(a) A person who is licensed and is in good standing under the provisions of Act No. 217 of the Public Acts of 1956, as amended, being §§338.881 to 338.892 of the Michigan Compiled Laws, so far as he is engaging in conduct regulated by that act, being the electrical installation, electrical maintenance, or electrical repair work performed on a mobile home.

(b) A person who is licensed and is in good standing under the provisions of Act No. 266 of the Public Acts of 1929, being §§338.901 to 338.965 of the Michigan Compiled Laws, so far as he is engaging in conduct regulated by that act, being the plumbing installation, plumbing maintenance, or plumbing repair work performed on a mobile home.

History: 1954 ACS 96, p. 19, Eff. July 26, 1978.

PART 5. INSTALLER AND REPAIRER BUSINESS PRACTICES

R 125.1501 Definitions.

Rule 501. As used in this part:

(a) "Add-a-room," for the purpose of these rules, means a room specifically designed, manufactured, and completely assembled at the factory for attachment to a mobile home, and is transportable on its own chassis. An add-a-room requires a certificate of mobile home title.

(b) "Work order" means an express written agreement in which a person agrees to install or repair the mobile home and shall include the permanent I.D. license number assigned by the department.

History: 1954 ACS 96, p. 20, Eff. July 26, 1978; 1954 ACS 100, p. 52, Eff. Sept. 5, 1979.

R 125.1502 Advertising.

Rule 502. (1) Advertising by a mobile home installer and repairer shall not misrepresent facts.

(2) A mobile home installer or repairer shall not advertise the term "authorized factory service" or "authorized manufacturer's service representative" or similar terms when he does not have the express written manufacturer's authorization.

History: 1954 ACS 96, p. 20, Eff. July 26, 1978.

R 125.1503 Place of business.

Rule 503. A mobile home installer and repairer shall maintain a place of business which is an actual, physically established location from which he can and does conduct business and where accounts and records shall be available for inspection during normal business hours by a representative of the bureau. A post office box, secretarial service, telephone answering service, or similar entity does not constitute an actual, physically established location.

History: 1954 ACS 96, p. 20, Eff. July 26, 1978.

R 125.1504 Work orders; estimates; warranties; abandonment.

Rule 504. (1) All installation and repair of a mobile home shall be executed pursuant to a work order. The conditions set forth in a work order may vary according to type of work required and desired specification, but as a minimum shall include the specific work to be performed and itemized cost based on information available at the time the work order is executed. The work order may be used for separate cost estimates or as a receipt for customer deposits. All conditions of the installation or repair shall be included in the work order.

(2) All estimates for installation and repair of a mobile home shall be executed pursuant to a work order.

(3) Changes in a work order shall not be made by an installer and repairer without the express consent of the customer. Verbal consent shall be noted on the work order.

(4) If a warranty is offered by the installer or repairer, the warranty shall be in express written form with an executed copy given to the customer and a copy attached to the work order.

(5) If, for any reason, an installer and repairer intends to abandon a work order, he shall notify, in writing and by certified mail, each consumer for which he has outstanding obligations pursuant to the conditions of the work order stating the exact reason for abandonment. Abandonment of a work order by an installer and repairer includes, but is not limited to, the following acts or omissions:

(a) Failure to start and complete work according to the conditions of the work order, unless the express written consent of the consumer is given.

(b) Failure to request and procure within 5 business days after the work order has been executed the necessary permits to perform the work agreed upon in the work order, unless the express written consent of the consumer is given.

(c) Failure to maintain the schedule of performance agreed upon in the work order without good cause, unless the express written consent of the consumer is given.

History: 1954 ACS 96, p. 20, Eff. July 26, 1978.

R 125.1505 Accounts and records.

Rule 505. In addition to accounts and records required by local ordinances, other laws, and these rules, a mobile home installer and repairer shall retain a copy of each work order with attachments and a copy of each written complaint received for 3 years.

History: 1954 ACS 96, p. 21, Eff. July 26, 1978; 1954 ACS 100, p. 52, Eff. Sept. 5, 1979.

R 125.1506 Add-a-room; purchase; installation and repair.

Rule 506. (1) A person who engages in the business of the retail sale of an add-a-room shall be licensed in the same manner as a mobile home dealer.

(2) Purchase of an add-a-room shall be executed pursuant to the rules for the purchase of a mobile home.

(3) Installation and repair of an add-a-room shall be executed pursuant to a work order.

History: 1954 ACS 96, p. 21, Eff. July 26, 1978.

R 125.1507 Voluntary termination; retention of accounts and records; application for new license.

Rule 507. (1) An installer and repairer may voluntarily terminate upon performance of both of the following:

(a) Notifying, by certified mail, the bureau of his intent to terminate and the proposed date of termination.

(b) Notifying, by certified mail, each consumer to which he has outstanding obligations pursuant to the conditions of the work order, and warranty, if given.

(2) A terminated installer and repairer shall retain all accounts and records prescribed by these rules for 3 years after the date of termination.

(3) A previously licensed installer and repairer applying for a new license shall attach a statement to his application stating that all obligations and complaints incurred during his previous licensing have been resolved to the best of his knowledge.

History: 1954 ACS 96, p. 21, Eff. July 26, 1978.

R 125.1508 Unlawful practices; complaint.

Rule 508. (1) A mobile home installer and repairer shall not install or repair a mobile home, or a part, option, accessory, or item of standard equipment of a mobile home which, to the best of his knowledge, shall result in an alteration or substitution to the manufacturer's installation, construction, and performance standard in effect at the time of manufacture without the express written consent of the consumer. The consumer's consent shall be attached to the work order.

(2) If the consumer desires installation and repair that alters or substitutes the manufacturer's standard, the engaged installer and repairer shall notify the consumer on a form prescribed by the commission, and by certified mail or personal delivery, that to the best of his knowledge, the desired installation and

repair alters or substitutes the manufacturer's standard which may void the manufacturer's warranty.

(3) A mobile home installer and repairer shall not do any of the following:

(a) Divert monies or other security received for the prosecution or completion of an installation or repair, or both, of a mobile home, a part, option, accessory, or item of equipment pursuant to the conditions of the work order.

(b) Fail to account for or remit monies in his possession which belongs to others.

(c) Wilfully depart from or disregard plans, specifications, or the conditions set forth in the work order without the written consent of the consumer.

(d) Wilfully violate or disregard the building laws, codes, and ordinances of the state or of a political subdivision thereof.

(e) Make a misrepresentation or a false promise which is likely to influence, persuade, or induce.

(f) If requested by a lender for the disbursement of funds, fail to furnish the consumer's signed completion certificate executed upon completion of the installation and repair performed pursuant to the conditions of the work order.

(g) Fail to deliver to the consumer the entire executed work order, including itemized cost of materials and other changes arising out of, or incidental to, the work order for the installation or repair, or both, of a mobile home.

(h) Aid or abet an unlicensed person to evade the provisions of the act or rules promulgated pursuant to the act, or knowingly combining or conspiring with, or acting as agent, partner, or associate for an unlicensed person, or allowing one's license to be used by an unlicensed person, or acting as, or being an apparent licensed mobile home installer and repairer for, undisclosed persons who do or will control or direct, or who may have the right to control or direct, directly or indirectly, the business operations or performance, or both, of the licensee.

(4) A mobile home owner or occupant or his authorized representative may file a written complaint with the bureau pertaining to faulty installation or repair workmanship, which shall be considered by the bureau after evaluation of the complaint by the authority charged with enforcement of the laws governing mobile home installation and repair. The evaluation shall be considered by the bureau along with other evidence in making a determination as to the merits of the complaint. If the authority fails to make a written evaluation of the complaint within 30 days of the request, the bureau shall consider the complaint in the absence of the written evaluation. A complaint shall be filed by the mobile home owner or occupant or his authorized representative within 12 months after completion of the installation or repair, or both.

History: 1954 ACS 98, p. 21, Eff. July 28, 1978.

PART 6. MOBILE HOME INSTALLATION

R 125.1601 Definitions.

Rule 601. As used in this part:

(a) "Anchoring equipment" means straps, cables, turnbuckles, chains, including tension devices, or other securing devices which are used with ties to secure a mobile home to ground anchors.

(b) "Anchoring system" means a combination of ties, anchoring equipment, and ground anchors that will, when properly installed, resist movement of an implaced mobile home caused by wind forces.

(c) "Cap" means a solid concrete block, solid wood block, or solid steel plate which is placed on top of the pillar covering the width and length of the pillar.

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

Digitized by Google Original from UNIVERSITY OF MICHIGAN

(d) "Foundation" means the base upon which a mobile home rests.

(e) "Ground anchor" means any device designed to transfer the mobile home anchoring loads to the ground.

(f) "Installation" means the process of mounting the mobile home on a foundation. It includes the initial acts of jacking up the mobile home, leveling, and connecting utilities, and the attachments of skirting, expandos, cabanas, carports, any device relating to barrier free design, and other fixtures to the mobile home pursuant to a signed work order.

(g) "Pillar" means the portion of the mobile home support system between the platform and the mobile home frame, exclusive of caps and shims.

(h) "Platform" means a 16-inch by 16-inch by 4-inch solid concrete block that is placed directly on the ground and serves as the foundation of a pillar. As an alternative, 2 8-inch by 16-inch by 4-inch solid concrete blocks may be used as platforms if the joint between the blocks is parallel to the steel I-beam frame.

(i) "Shim" means a wooden wedge with a 1-inch maximum thickness and not less than 4 inches wide and 6 inches long which, when driven in tightly in pairs between the cap and the mobile home frame, acts as a lending and stabilizing device.

(j) "Tie" means straps, cables, or a securing device used to connect a mobile home to ground anchors.

History: 1954 ACS 96, p. 22, Eff. July 28, 1978; 1954 ACS 98, p. 10, Eff. Feb. 28, 1979; 1954 ACS 100, p. 52, Eff. Sept. 5, 1979.

R 125.1602 Installation.

Rule 602. (1) For all new mobile homes sold in Michigan, the manufacturer shall provide express written instructions for the installation specifying the location and required minimum imposed load capacity of pillars and the location and the required minimum imposed load capacity of any other recommended stabilizing devices.

(2) The installation of mobile homes shall, at a minimum, comply with the following specifications:

(a) Pillars shall be installed directly under each main frame beam. If the distance between the main frame beams does not conform to the pad or pillars that are permanently installed on the mobile home site, cross beams shall be used. These cross beams may be of steel, or pressure-treated wood which resists decay, and has an imposed load capacity of 3,000 pounds per square foot (PSF). The cross beams shall extend a minimum of 6 inches beyond each main frame beam, but shall not extend beyond the sides of the mobile home. A wood beam shall not rest on the ground, but shall rest on the cap. If the cross beam interferes with a utility to the mobile home, the cross beam placement may be between blocks. If a cross beam is used between blocks, it shall be a minimum of 6 inches by 8 inches.

(b) Pillars shall be placed on 10-foot centers along the length of each main frame beam, but may be placed at less than 10-foot centers. If the pillars interfere with the axle area, they may be placed to a maximum of 13-foot centers, but the pillar placement shall not be less in number than if placed on 10-foot centers.

(c) The pillars nearest each end of the mobile home shall be within 3 feet of either end.

(d) All grass and organic material shall be removed and the pillar or platform shall be placed on stable soil.

(e) Pillars shall be constructed of solid concrete, cored concrete blocks unless other cored concrete blocks are supplied by the consumer, or a heavy metal screw column which bears on both frame and foundation or other acceptable design and construction meeting mobile home industry standards.

(f) Concrete block pillars shall be constructed of regular 8-inch by 8-inch by 16-inch blocks and placed on the pillar platform. The blocks shall be placed with the open cells vertical and the blocking of the pillar shall be single tiered. A cap shall be placed on top of the pillar. A wood plate 1 inch by 8 inches by 16 inches or 2 inches by 8 inches by 16 inches may be placed on top of the cap for leveling. Shims may be fitted and driven tight between the wood plate or cap and the main frame and shall not take up more than 1 inch of vertical height.

(g) Pillars shall be installed perpendicular to the main frame of the mobile home.

(3) Solid concrete pillars may be of cone or pyramid design with a minimum 16-inch base tapered to a minimum 9-inch top. Shimming shall be the same as for the concrete block pillar.

(4) All pillars shall have a minimum imposed load capacity of 3,000 pounds.

(5) If the manufacturer's recommended installation specifications exceed the minimum specifications stated in these rules, the manufacturer's specifications shall in all cases be complied with.

(6) Mobile homes may be installed on a basement or crawl space-type foundation, provided the foundation complies with local building codes and ordinances, and meets the manufacturer's specifications for pillar placement and imposed load capacity.

History: 1954 ACS 96, p. 22, Eff. July 26, 1978.

R 125.1603 Utility hook-ups.

Rule 603. All utility hook-ups to a mobile home shall comply with the following minimum standards:

(a) Water. Each mobile home shall be connected to the service outlet by semi-rigid tubing, such as copper tubing or approved plastic piping. The minimum size shall be ½-inch inside diameter, or ⅝-inch outside diameter. An easily accessible hand manipulated shut off valve shall be installed on the water supply inlet to the mobile home. A water supply protection device such as a heat tape, UL or similarly listed, shall be installed at the time the mobile home is installed on site to prevent the freezing of service lines, valves, and riser pipes. The starting point of the protection device, excluding the plug-in cord, shall be attached 1 inch beyond the underside and extend beyond the point of entry of the water supply inlet of the mobile home. The wrapping or spiralling of the protection device shall comply with the manufacturer's specification. If an extension cord is used, it shall be UL or similarly listed, and approved for exterior use.

(b) Mobile home fuel supply systems shall be as follows:

(i) Furnaces, hot water heaters, appliances, or any item of equipment in a mobile home using gas shall be fully compatible to the type of gas used. An easily accessible approved hand shut off valve controlling the flow of gas to the entire gas piping system shall be installed as close as possible to the service meter or supply connection of the liquified petroleum gas container. Approved piping with a minimum ½-inch inside diameter, or ⅝-inch outside diameter shall be used for any gas line. After appliances are connected, the piping system shall be tested to not less than 10 inches nor more than 14 inches of water column (½ PSI) and the appliance connections tested for leakage with soapy water or a bubble solution.

(ii) A mobile home fuel supply system other than gas shall comply with state and local codes and ordinances, but as a minimum, shall comply with the standards contained in paragraph 4.3.1 to 4.3.4, NFPA number 501B, 1974, standard for mobile homes, body and frame design and construction require-

ments; installation of plumbing, heating and electrical systems, which are adopted herein by reference. Copies of the standards are available from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210 at a cost of $4.00, or from the Department of Commerce, Corporation and Securities Bureau, Mobile Home Section, P.O. Box 30222, Lansing, Michigan 48909 at a cost of $4.00.

(c) Sewer. As a minimum, schedule 30 plastic pipe with a minimum 3-inch diameter shall be used from the mobile home outlet to the site sewer service line. The sewer line shall be supported at not less than 4 feet intervals. Plumber's strapping shall be used for support wherever possible. All joints shall be sealed to preclude leaks. There shall be an approved seal at the sewer riser. All plumbing shall be installed pursuant to local codes.

(d) The electrical supply line from the service line to the mobile home shall be completed in a safe and workmanlike manner. Where the calculated load exceeds 50 amperes or where a permanent feeder is used the supply shall be connected by a person licensed under Act No. 217 of the Public Acts of 1956.

History: 1954 ACS 96, p. 23, Eff. July 26, 1978.

R 125.1604 Skirting.

Rule 604. (1) Mobile home skirting shall be vented. Louvered or similar vents shall be at a minimum of 600 square inches per 1,000 square feet of living space. A minimum of 1 vent shall be placed at the front and rear of the mobile home and 2 to each exposed side. An access panel of sufficient size to allow full access to utility hook-ups located beneath the mobile home shall be installed. All skirting shall be manufactured of fire-resistant material and certified as such by the manufacturer.

(2) Skirting shall be installed in a manner so as to resist damage under normal weather conditions to include, but not limited to, damage caused by freezing and frost, wind, snow, and rain.

History: 1954 ACS 96, p. 24, Eff. July 26, 1978.

R 125.1605 Anchoring systems generally.

Rule 605. (1) Effective 6 months after filing of these rules with the secretary of state, a mobile home anchoring system sold and installed in this state shall comply with the following:

(a) Be designed and constructed in compliance with the United States department of housing and urban development regulations entitled "Mobile Home Construction and Safety Standards," which are adopted herein by reference. Copies of the standards may be obtained from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402 upon request for 24 C.F.R., Parts 0-499, (mobile home construction and safety standards) at a cost of $5.00, or from the Department of Commerce, Corporations and Securities Bureau, Mobile Home Section, P.O. Box 30222, Lansing, Michigan 48909 at a cost of $5.00.

(b) Be installed in compliance with the manufacturer's specifications.

(c) Be approved for sale and use within this state by the Michigan construction code commission.

(2) An anchoring system that is sold in this state shall be certified in writing by the manufacturer as meeting the standards required by these rules.

(3) A manufacturer shall furnish and ship with each approved anchor system information pertaining to the type or types of soil the system has been tested and

certified to be installed in, and instructions as to the method of installation and periodic maintenance required.

(4) Model number shall be permanently marked on each anchor system.

History: 1954 ACS 98, p. 11, Eff. Feb. 28, 1979.

R 125.1606 Anchoring systems; request for approval; exhibits.

Rule 606. (1) To obtain approval to sell a mobile home anchoring system in this state, each system's manufacturer shall, in letter form, submit a request for approval to the Michigan construction code commission.

(2) The following exhibits shall be attached to the request for approval letter.

(a) Detailed drawings of each type of anchor system, containing, but not limited to, brand name, name and address of manufacturer, model identification, all dimensions, type and location of welds or fastenings, type of materials, tie method, and ground anchor method. Each drawing shall bear the seal of an engineer who is registered in the state of the anchor system's manufacturer, or the state of Michigan.

(b) Certified test results that were conducted by an accredited independent testing laboratory or engineering firm which shall include, but is not limited to:

(i) Model tested as described in the engineering drawings.

(ii) Method of installation.

(iii) Date of installation.

(iv) Date of test or tests.

(v) Type of test or tests.

(vi) Date and type of field test.

(vii) Soil profile description or descriptions in which tests were conducted.

(viii) Test equipment used.

(ix) Ground anchor used.

(x) Pounds of force exerted and resultant uplift of the anchor system.

(xi) Failure point of the anchor system.

(xii) A copy of the installation and periodic maintenance instructions that shall be provided with each model.

History: 1954 ACS 98, p. 11, Eff. Feb. 28, 1979.

R 125.1607 Anchoring systems; changes in design, construction, and materials.

Rule 607. Changes in design, construction, and materials used in an approved model shall not be made. If changes are made to an approved system by the manufacturer, the revised model shall be resubmitted to the Michigan construction code commission for approval pursuant to R 125.1606.

History: 1954 ACS 98, p. 11, Eff. Feb. 28, 1979.

R 125.1608 Anchoring system; approval or disapproval for sale and installation; notice.

Rule 608. Within 90 days after receipt of the anchoring systems manufacturer's request for approval, the Michigan construction code commission may approve or disapprove the system for sale and installation in the state. The manufacturer shall be notified by certified mail of the action taken.

History: 1954 ACS 98, p. 11, Eff. Feb. 28, 1979.

PART 7. MOBILE HOME PARK SAFETY RULES

R 125.1701 Signs.

Rule 701. (1) Speed limits on internal mobile home park roads shall be posted not to exceed 15 miles per hour.

(2) Intersection of roads shall be clearly marked with appropriate traffic signs.

(3) Roads shall be named and so identified by street signs located at all road intersections.

(4) Signs depicting "Children Playing" shall be appropriately located on all streets adjacent to recreational and playground areas.

History: 1954 ACS 96, p. 24, Eff. July 28, 1978.

R 125.1702 Swimming pools.

Rule 702. With respect to swimming pools, Act No. 230 of the Public Acts of 1966, being §§325.601 to 325.620 of the Michigan Compiled Laws, and R 325.2111 to R 325.2198 of the Michigan Administrative Code, shall be complied with.

History: 1954 ACS 96, p. 24, Eff. July 28, 1978.

R 125.1702a Fire safety.

Rule 702a. (1) The mobile home park management shall notify each tenant upon occupancy, in writing, that the site shall be kept free of fire hazards. This information may be made a part of the park rules.

(2) The mobile home park management shall notify each tenant, in writing, that if fire hydrants are available within the mobile home park, vehicular parking is prohibited within 10 feet of the hydrant. This information may be made a part of the park rules.

(3) Each mobile home site shall be numbered and clearly marked for positive identification. Each number shall be easily readable from the street servicing the site.

(4) Liquefied petroleum gas containers shall not be stored on the mobile home site when not connected to the mobile home. Any containers not connected to the mobile home shall be stored in an area designated by the park management and approved by the servicing fire department.

(5) Individual mobile home liquefied petroleum gas containers and fuel oil tanks shall be installed, mounted, and secured in compliance with the national fire protection association's 1974 standard for mobile homes 501B, part D, chapter 4, paragraphs 4.2.3 and 4.3, adopted herein by reference. NFPA 501B is available from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210 or the Department of Commerce, Corporations and Securities Bureau, Mobile Home Section, P.O. Box 30222, Lansing, Michigan 48909, at a cost of $4.00.

(6) Combustible materials shall not be stored under a mobile home.

History: 1954 ACS 100, p. 52, Eff. Sept. 5, 1979.

R 125.1703 Fire extinguishers and smoke detectors.

Rule 703. (1) Before a mobile home can be accepted for placement in a mobile home park, it shall be equipped with at least 1 extinguisher with a minimum 2A-10-B-C rating and approved by a nationally recognized independent testing laboratory. It shall also be equipped with at least 1 smoke detector approved by a nationally recognized independent testing laboratory. The mobile home park management shall notify in writing each tenant that Act No. 133 of the

Public Acts of 1974, being §125.771 et seq. of the Michigan Compiled Laws, requires that all mobile homes manufactured, sold, or brought into this state shall be equipped with at least 1 fire extinguisher and 1 smoke detector. This information shall be included in the park rules.

(2) Fire extinguishers bearing a nationally recognized independent testing laboratory and of a type approved for such service by the director of state police shall be placed in the caretaker's office and all service or recreational buildings within the park. Each fire extinguisher shall be examined periodically and shall be kept at all times in a usable condition.

History: 1954 ACS 96, p. 24, Eff. July 26, 1978.

R 125.1704 Emergency telephone numbers.

Rule 704. Immediately upon occupancy, each tenant of the mobile home park shall be provided by the park management a list containing, but not limited to, the following information:

(a) The telephone number of the servicing fire department.

(b) The telephone number of the servicing law enforcement agency.

(c) The telephone number of the mobile home park office, including the normal business hours and emergency telephone number where the park manager or person can be reached after normal business hours. When an answering service is used, a person shall be available to respond to emergencies.

History: 1954 ACS 96, p. 24, Eff. July 26, 1978; 1954 ACS 100, p. 53, Eff. Sept. 5, 1979.

R 125.1705 Playgrounds and equipment; recreational and athletic areas; inspections.

Rule 705. (1) Each playground, recreational, and athletic area shall be kept free of safety hazards.

(2) Playground equipment shall be inspected for defects by the mobile home park management or authorized representative once each calendar month when in use. All defective equipment shall be removed from the site, rendered unusable, or the defects corrected immediately.

(3) A written record of the inspection shall be maintained at the mobile home park office. The record shall contain, but is not limited to, the date of inspection for each item of equipment, defects noted, if any, date corrected, and the name of the person performing the inspection. These records shall be maintained in accordance with the rules pertaining to mobile home park accounts and records.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1706 Severe weather warning; shelters.

Rule 706. Immediately upon occupancy, each mobile home park tenant shall be provided by the park management written information pertaining to the severe weather warning system used by local government, if provided, which shall contain, but is not limited to, the following:

(a) Signals used to alert the mobile home park population to impending severe weather.

(b) In areas where local government has designated shelters, a mobile home park management shall, in writing, provide each tenant with the location of the approved shelter designated by local government to serve the mobile home park.

(c) The location of the park-owned shelter, if any.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1707 Snow removal and ice conditions.

Rule 707. All streets and roadways in every mobile home park shall b maintained in a passable condition at all times and reasonably free of ice ar snow.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1708 Electrical maintenance.

Rule 708. (1) Every building, structure, or part thereof, and any part of th park-owned electrical system shall be kept in good repair by the park owner operator.

(2) Any part of the park electrical system that may present a real or potenti safety hazard shall be immediately disconnected and repaired or condemned compliance with the Michigan electrical code, being R 408.30801 et seq. of th Michigan Administrative Code, so as to protect against injury or loss of life.

History: 1954 ACS 100, p. 53, Eff. Sept. 5, 1979.

PART 8. MOBILE HOME PARK LICENSING

R 125.1801 "Conditional license" defined.

Rule 801. "Conditional license" means a license limited by time or terms, both. The initial conditional license time may be extended by the departme within the license year without payment of additional fees.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1802 Operation of mobile home park; license required.

Rule 802. A person shall not maintain or operate a mobile home park with this state unless the person obtains a current license issued by the department i the name of a specific mobile home park.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1803 Application; form; filing.

Rule 803. A completed application on the prescribed form shall be filed wit the department not less than 30 days before the date on which the applica intends to operate the mobile home park.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1804 Application; filing as successor.

Rule 804. If an applicant files an application for the license as a successo whether or not the successor is then in existence, the application shall meet al requirements of an original application.

History: 1954 ACS 96, p. 25, Eff. July 26, 1978.

R 125.1805 Application; changes, additions, or corrections.

Rule 805. All changes, additions, or corrections to the original applicatio including, but not limited to, changes in business address, officers, and director shall be filed with the department within 10 days after the aforementioned chang or changes are made.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1806 Financial statement.

Rule 806. An applicant shall prepare and submit to the department a financial statement of the corporation, or each general partner of a partnership, or the mobile home park applying for a license.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978; 1954 ACS 100, p. 53, Eff. Sept. 5, 1979.

R 125.1807 License; issuance generally.

Rule 807. A park license may be issued to a park operated by an individual, partnership, association, trust, or corporation, or any other legal entity, or combination thereof, which meets the requirements of the act and these rules.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1808 License; issuance to person under age 18 prohibited.

Rule 808. A mobile home park license shall not be issued to a person under the age of 18.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1809 License; issuance to limited partnership.

Rule 809. A mobile home park license shall not be issued to a limited partnership unless the person applying is a general partner.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1810 License; issuance upon receipt of department of public health certification of compliance; conditional license.

Rule 810. (1) The department may issue a license upon receipt of a certification of compliance from the department of public health that a mobile home park is licensable.

(2) If the department of public health issues a conditional certificate of compliance to the department, the department may issue a conditional license. All conditions set forth in the conditional certification of compliance shall be filed with the department. Even though the department of public health has issued an unconditional certificate, the department may, after notice of hearing, issue a conditional license if other sections of the act and these rules are not met by the licensee. A conditional license may be issued if the applicant or licensee and the department stipulate to a schedule which corrects the deficiencies.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1811 License; request for renewal.

Rule 811. A request for the renewal of a park license shall be on a form provided by the commission and shall be accompanied by a notarized financial statement as provided in R 125.1806 and the fee specified in R 125.1305.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1812 License; application for renewal; tax payment statement.

Rule 812. In addition to other information prescribed by these rules, an application for the renewal of a mobile home park license shall be accompanied by a written and signed statement from the local tax authority stating that all specific taxes are paid to date.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1813 Temporary original license.

Rule 813. The department may authorize or issue temporary original licenses as evidence of proper licensing, containing such information as the department prescribes.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1814 Operation after expiration of license.

Rule 814. A licensed park owner may continue to do business using the expired wall license as evidence of proper licensing if a completed application for renewal and the proper fee have been filed with the department on or before September 30. A license or an applicant for a new license whose application was filed with the department after September 30 shall not do business until a current license is received.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1815 Disposal of interest in park; notice.

Rule 815. A licensee shall notify the bureau in writing within 10 days after having sold, transferred, given away, or otherwise disposed of interest in, or control of, a mobile home park. The notice shall include the name and address of the successor to the ownership or control of the mobile home park.

History: 1954 ACS 96, p. 26, Eff. July 26, 1978.

R 125.1816 New park license; application; issuance; conditions.

Rule 816. (1) An application for a new park license shall be submitted to the department pursuant to R 125.1801 to R 125.1815.

(2) Before an initial license for a new park is issued by the department, the following shall be certified complete pursuant to section 14 of the act:

(a) Fifty percent or 25, whichever is less, of the mobile home sites approved for construction as contained in the permit to construct.

(b) Roads, mobile home site walkways, parking servicing the mobile home sites, and street lighting servicing the sites completed.

(c) At a minimum, the stabilization of the soil on the completed mobile home sites to prevent, as much as possible, erosion and soil runoff.

(3) All easements required for establishment and operation of a mobile home park, whether for benefit or burden, shall be recorded before the issuance of a license. The application shall include as an attachment, a description of these easements by reference to the liber and page number.

(4) If construction is to continue within the mobile home park, the owner or operator shall, when possible, provide a route to future construction areas other than through tenant-occupied areas. The application for a license shall contain a statement to the fact that this rule has been complied with.

(5) Subsequent to the granting of an initial license to a new mobile home park, the developer, owner, or operator shall, at the applicant's discretion, be permitted to file 4 additional applications for a certificate of mobile home site approval before the expiration date of the permit to construct under which the construction of the park project was approved. All applications shall be accompanied with the fee required in R 125.1305.

History: 1954 ACS 98, p. 12, Eff. Feb. 28, 1979.

R 125.1817 Expanded park; certificate of mobile home site approval; certificate of compliance; easements.

Rule 817. (1) On a form prescribed by the commission, the park owner or operator of an existing licensed mobile home park who has expanded his park

PART 9. MOBILE HOME PARK CONSTRUCTION

R 125.1901 Definitions.

Rule 901. As used in this part:

(a) "Access point" means the intersection of the main park entrance or entrances with a public thoroughfare.

(b) "Alley" means a public or private right-of-way which serves as rear access to a parcel or parcels of land and is dedicated as such.

(c) "Blunt-end road" means a dead-end road constructed with no additional turning area.

(d) "Certificate of mobile home site approval" means an order issued by the department which permits a licensed mobile home park owner or operator to rent mobile home sites that were added to the park pursuant to a permit to construct.

(e) "Common pedestrian walkway" means a walk in a mobile home park other than an individual pedestrian walkway, which is intended for the common use of all occupants in the park.

(f) "Dead-end road" means a road in a mobile home park that has no exit at one end.

(g) "Hard surface" means any surfacing method approved by the department which results in a satisfactory walking or driving surface.

(h) "Individual pedestrian walkway" means a private walkway from the common walks or drives to the mobile home site intended for the use of that particular site occupant only.

(i) "Ingress and egress road" means that road which connects a public road with the internal road system of a mobile home park.

(j) "Integral valley curb and gutter" means a curb constructed at the same time the road is constructed, out of the same materials, which provides adequate drainage to carry road surface water.

(k) "Internal road" means a road contained within the boundaries of a mobile home park and includes a road constructed over an easement.

(l) "Length" means the longitudinal axis of a mobile home or mobile home site.

(m) "Meter" means a nationally recognized and approved device that measures the quantity of electricity, natural gas, liquefied petroleum gas, or fuel oil used.

(n) "Minor recreational area" means children's playground areas which are not a major recreational area.

(o) "Mobile home site" means the entire area which is designated for use by a specific mobile home.

(p) "Pad" means that part of the mobile home site specifically designated for the placement of a mobile home.

(q) "Parking bay" means any area in which more than 2 parking spaces are provided, other than on a mobile home site.

(r) "Permanent foundation" means a base which is not subject to excessive movement caused by changes in weather or mobile home weight distribution.

(s) "Permit to construct" means an order issued by the department upon approval of an application for a permit to construct which permits a developer to construct a mobile home park or permits a licensed park to add mobile home sites or optional improvements, or both.

(t) "Public thoroughfare" means a public road on which access to a mobile home park is gained.

(u) "Service facility" means an optional improvement, which includes, but is not limited to, laundries, vending machine areas, and drying areas.

(v) "Type of site" means a mobile home site designed for installation of a single-wide, double-wide, or triple-wide mobile home.

History: 1954 ACS 98, p. 12, Eff. Feb. 28, 1979; 1954 ACS 100, p. 53, Eff. Sept. 5, 1979.

R 125.1902 Processing of park construction project.

Rule 902. (1) A mobile home park construction project shall be processed according to the following schedule:

(a) If the proposed mobile home park project abuts a lake, stream, or channel or lies entirely or in part within the flood plain of a lake, stream, river, or channel, the developer shall apply to the flood plain management section, department of natural resources, for a permit to occupy or alter the flood plain or channel of a watercourse.

(b) Submission of the identical preliminary plan simultaneously to the municipality, county road commission, county drain commission, and the local health department.

(c) The municipality, county road commission, county drain commission, and the local health department issues approvals to the developer pursuant to section 11(5) of the act.

(d) Submission of all preliminary approvals and 2 copies of the final construction plans to the department of public health.

(e) The department of public health issues approved construction plans to the developer.

(f) The developer submits an application for approval of the construction plans to the department.

(g) The department issues the approved plans to the developer.

(h) The developer submits an application for a permit to construct to the department.

(i) The department issues a certificate of a permit to construct.

(j) Submission of an affidavit of completion pursuant to section 14 of the act and final plans pursuant to R 125.1913.

(k) Submission of an application for licensure pursuant to R 125.1816, or an application for a certificate of mobile home site approval pursuant to R 125.1817.

(l) The department issues a license or certificate of mobile home site approval.

(2) A developer may simultaneously submit an application for approval of construction plans and an application for a permit to construct to the department, providing the applications are complete pursuant to R 125.1905 and R 125.1915.

(3) If a developer has submitted an application for approval of the construction plans to the department before submission of the application for permit to construct, and the department has approved the construction plans, the department may, within 15 days after filing, issue a permit to construct or an intent to deny.

(4) A developer may designate the department of public health as agent for the purpose of submitting the final construction plans to the department. This designation shall be in writing and shall accompany the local government's preliminary approval and final construction plans filed by the developer with the department of public health.

(5) The affidavit of completion and final plans and application for licensure or certificate of mobile home site approval may be submitted simultaneously.

(6) Approvals or permits pertaining to a mobile home park construction project shall be by written order and mailed or otherwise conveyed to the developer or agent.

History: 1954 ACS 98, p. 13, Eff. Feb. 28, 1979.

R 125.1903 Documents filed with department; form; copies.

Rule 903. A document filed with the department shall be typewritten. One copy of each exhibit or document shall be submitted; however, the department may require more than 1 copy of any exhibit or document. All documents filed pursuant to these rules shall be copies of the originals and shall become part of the department's records. All documents are subject to the provision of Act No. 442 of the Public Acts of 1976, being §§15.231 to 15.246 of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 14, Eff. Feb. 28, 1979.

R 125.1904 Preliminary plan; review by local agencies; notice of approval or deficiencies.

Rule 904. (1) A permit to construct a mobile home park shall not be issued until the approval by the county road commission, county drain commission, municipality, and local health department is obtained by the developer or the statutory time limit has expired pursuant to section 11(5) of the act.

(2) A preliminary plan shall be submitted to the reviewing agencies indicated in this rule, which shall be responsible for implementing its standards for a preliminary plan, pursuant to the requirements of section 11(1), (2), (3), and (4) of the act.

(3) The reviewing agencies shall examine the preliminary plan and notify the developer, in writing, of approval or deficiencies.

(4) A copy of each preliminary approval and the plans shall be submitted to the department of public health by the developer for approval by that department pursuant to section 11(7) of the act.

R 125.1905 Construction plans; application for approval; exhibits; issuance of approval or intent to deny.

Rule 905. (1) The department shall not issue an approval of the construction plans until all of the following are received from the developer and are approved by the department:

(a) Mobile home park construction plans and specifications.

(b) The fee as specified in R 125.1315.

(c) On a form prescribed by the commission, an application and required exhibits completely and accurately filled out and executed.

(2) An application shall be executed in the presence of witnesses and notarized.

(3) An application shall not be considered complete until the items listed in subrule (1)(a), (b), and (c) have been received.

(4) The following exhibits shall be submitted with the application by the developer:

(a) Copies of all existing and proposed easements or dedications.

(b) Certified copy of soil analysis showing frostline data, if foundations are intended to be constructed at less than 42 inches.

(c) Approvals of the local health department, county road commission, county drain commission, and local municipality, or an affidavit from the developer that the statutory time limit pursuant to section 11(5) of the act has expired without the unit of local government taking the appropriate action.

(d) Approval of the department of public health, pursuant to the act.

(e) Approval by the flood plain management section, department of natural resources, if needed.

(5) The department shall issue an approval of the construction plans or intent to deny order within 90 days after receipt of a complete application.

History: 1954 ACS 98, p. 14, Eff. Feb. 28, 1979.

R 125.1906 Construction plan; drawings; preparation and contents.

Rule 906. (1) The drawings which constitute the plan shall be prepared by an architect or engineer who is licensed to practice in this state. More than 1 such individual may prepare different segments of the same mobile home park construction plan. Submissions for review shall be reproductions of original drawings. Each sheet shall contain the name of the mobile home park, name and address of the firm responsible for the preparation of that sheet, and shall bear a seal and signature of the person responsible for the preparation of that sheet.

(2) A complete set of working drawings and specifications for the construction of a proposed mobile home park shall include types of materials, details, plans, sections and elevations, where applicable, for the construction of all internal roads, parking facilities, utilities, recreational facilities, and optional improvements and any other facilities which are intended for use by the mobile home park, residents, or visitors.

History: 1954 ACS 98, p. 15, Eff. Feb. 28, 1979.

R 125.1907 Construction plan; preparation requirements.

Rule 907. When preparing a mobile home park construction plan the architect or engineer shall comply with the following:

(a) A scale shall be used in preparing the drawings.

(b) Each sheet shall be numbered and the total number of sheets in the set shall be shown.

(c) The plan submitted for review may be reproduced in any conventional manner.

(d) All prints of plans submitted for review shall be free of unnecessary background and legible for photo-reduction.

(e) The scale of each drawing shall be depicted on each plan.

(f) All sheets shall be dated.

(g) The name of the mobile home park shall be shown on each sheet.

(h) Match lines shall be used when the survey plan, site plan, or floor plans are shown on more than 1 sheet.

(i) A 3-inch by 3-inch space shall be provided by the department's approval stamp on each sheet.

History: 1954 ACS 98, p. 15, Eff. Feb. 28, 1979.

R 125.1908 Construction plans; contents.

Rule 908. A complete set of mobile home park construction plans shall include specifications and working drawings. These documents shall show the design, location, dimensions, materials, quality of materials, and workmanship standards necessary to construct the proposed mobile home park as related to road construction, utilities construction, mobile home site construction, density, layout, open spaces, and other improvements to protect the health, safety, and welfare of mobile home park residents. Recreational facilities and any optional improvements for tenant convenience shall be included on the plans. Specific plans shall include all of the following:

(a) A cover sheet containing the following:

(i) The name and location of the mobile home park.

(ii) A comprehensive sheet index.

(iii) Legend of materials.

(iv) List of abbreviations.

(v) Schedule of symbols.

(b) A site plan showing all of the following:

(i) Location of all structures, walkways, roads, parking and street frontage.

(ii) Proposed contours and related earth work information to show how the site is to be graded.

(iii) All existing and proposed easements and encroachments, whether of benefit or burden, dimensioned and identified.

(iv) A boundary survey of the property and legal description performed by a land surveyor registered in this state.

(v) A survey bench mark shown by symbol and described with its elevation referenced to an official bench mark of the national geodetic survey or the United States geological survey, which are based on the national geodetic vertical datum of 1929.

(vi) Identification of all contiguous properties or waterways.

(vii) If future park expansion is contemplated beyond that for which the plans are submitted, all land on which the current project is to be located shall be shown, complete with distances, bearings, and curve data.

(viii) A location map of the project with its relationship to the surrounding area.

(ix) Flood plain data when the mobile home park lies within or abuts a 100-year flood plain showing the 100-year contour line to the point where it intersects with the boundaries of the mobile home park or its limits, whichever is greater.

(x) If a flood plain area exists, it shall be clearly labeled with the words "FLOOD PLAIN AREA."

(xi) A mobile home pad shall not be placed at an elevation below the 100-year contour line.

(c) A typical mobile home site at an enlarged scale showing the following:

(i) Foundation construction.

(ii) Pad sizes and location within the site.

(iii) Details and location of sewer and water connections.

(iv) Details and location of the utility pedestal which includes location and types of meters, location of the system circuit breaker for electricity, and location and types of shutoff valves for gas.

(v) Type of site.

(vi) On-site parking and other improvements.

(d) A utility plan showing the following:

(i) All primary and secondary distribution lines for gas, electricity, telephones, or services of a similar nature.

(ii) The size and material type of the various utility lines.

(e) The remainder of the plans required may be floor plans, sections and elevations, and related details as required to sufficiently describe the construction of the mobile home park.

(f) Where appropriate, plans may be combined, provided legibility is not impaired.

History: 1954 ACS 98, p. 15, Eff. Feb. 28, 1979.

R 125.1909 Construction plans; identifying mobile home sites and optional site improvements.

Rule 909. Individual mobile home site or optional site improvements, or both, shall be identified as follows:

(a) Each mobile home site within a park shall be numbered consecutively starting with the number 1.

(b) Each mobile home site number shall be shown within the area of that particular site on the mobile home park construction plans.

(c) Each structure or optional improvement, other than the mobile home sites, shall be identified by its title.

History: 1954 ACS 98, p. 16, Eff. Feb. 28, 1979.

R 125.1910 Site plan; illustration of facilities.

Rule 910. A facility which is part of the mobile home park shall be illustrated on the site plan in its proposed location and shall be so identified. Actual floor plans, sections, elevations, and related details of the facility, if it involves a structure, shall be included.

History: 1954 ACS 98, p. 16, Eff. Feb. 28, 1979.

R 125.1911 Surveys.

Rule 911. A survey shall be performed and established in accordance with Act No. 132 of the Public Acts of 1970, being §§54.211 to 54.213 of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 16, Eff. Feb. 28, 1979.

R 125.1912 Filing changes in plans with department; notice of approval or disapproval.

Rule 912. Bulletins, addendums, or shop drawings depicting changes shall be filed with the department for approval before any physical changes are made. The department shall notify the developer within 10 days after receipt of the change of approval or disapproval.

History: 1954 ACS 98, p. 16, Eff. Feb. 28, 1979.

R 125.1913 Filing affidavit certifying completion with department; submission of final plans and specifications to department.

Rule 913. (1) Final plans shall be required on all mobile home park construction projects.

(2) Upon completion of construction of all buildings and site improvements represented on the approved mobile home park construction plans and specifications, the developer, owner, or operator of the park, in conjunction with an architect or engineer, shall file an affidavit with the department, certifying that the mobile home park, sites, and related work were completed pursuant to the approved plans and specifications and the permit to construct.

(3) Upon or after filing of the affidavit, the developer shall submit the final plans and specifications to the department.

(4) The final plans and specifications shall be an update of the original documents depicting all approved changes. Each sheet of the final plans shall be labeled "FINAL PLANS" and dated, and any notations referencing the project as proposed shall be removed.

(5) A developer shall submit the final plans and specifications on 35 millimeter microfilm aperture cards. The microfilm aperture cards shall be standard cards measuring approximately 3¼ inches by 7⅜ inches, with a window suitable for framing 1 frame of 35 millimeter film. A card shall identify the name of the mobile home park, the file number, and identification of what is on that particular frame. A card shall also have the following wording along the top edge for filing purposes: Lot No. _____ Box No. _____.

History: 1954 ACS 98, p. 17, Eff. Feb. 28, 1979.

R 125.1914 Correction of construction plan errors; consolidation.

Rule 914. All corrections of errors shall be reviewed by the department before an approval of the plans or a permit to construct shall be issued. Where an error involves only the correction of certain pages of the mobile home park construction plans, insert pages will be accepted and retained by the department. A final consolidation of all corrections shall be made on the original drawings when filing the final plans under R 125.1913.

History: 1954 ACS 98, p. 17, Eff. Feb. 28, 1979.

R 125.1915 Permit to construct; application; exhibits; issuance of permit or intent to deny order.

Rule 915. (1) The department shall not issue a permit to construct until all of the following are received from the developer and are approved by the department:

(a) Mobile home park construction plans.

(b) On a form prescribed by the commission, an application with required exhibits completely and accurately filled out and executed.

(c) The fee as specified in R 125.1315.

(2) An application shall be executed in the presence of witnesses and notarized.

(3) An application shall not be considered complete until the items referred to in subrule (1)(a) and (b) have been received.

(4) The following exhibits shall be submitted with the application by the developer:

(a) In affidavit form, evidence of title to the property, or a copy of any land contracts of purchase, including any prior land contracts in effect.

(b) Schedule of completion, including, but not limited to, number of sites to be constructed and optional improvements.

(5) The department shall issue a permit to construct or intent to deny order within 15 days after receipt of a complete application.

History: 1954 ACS 98, p. 17, Eff. Feb. 28, 1979.

R 125.1916 Review of application for permit to construct.

Rule 916. To facilitate the review of the application for permit to construct, the department may request advice from other state agencies and may require the developer to submit engineering reports, site reports, topographic and other maps, and other data.

History: 1954 ACS 98, p. 17, Eff. Feb. 28, 1979.

R 125.1917 Construction reports, tests, and other data; availability to department.

Rule 917. All reports, tests, or other data used to determine construction suitability or structural stability shall be available to the department or its authorized representative upon request.

History: 1954 ACS 98, p. 17, Eff. Feb. 28, 1979.

R 125.1918 Field inspections.

Rule 918. The department or its authorized representative may make field inspections as it deems necessary to constitute an accurate evaluation and review of the park before, during, or after construction to insure compliance with these rules and the approved plans.

History: 1954 ACS 98, p. 18, Eff. Feb. 28, 1979.

R 125.1919 Permit to construct; issuance; validity; transferability; notice of changes in schedule of completion.

Rule 919. (1) Pursuant to a permit to construct, a developer, owner, or operator may construct a new mobile home park or expand an existing licensed mobile home park, and advertise the new park or expansion. All park advertising shall comply with R 125.2002.

(2) When the permit to construct has been issued, the department shall return 1 copy of the approved mobile home park construction plans to the developer. The park shall retain the approved plans for permanent records and shall render these plans available upon request for inspections by the department, the department of public health, or their authorized representatives.

(3) The developer shall notify the department in writing of any changes in the approved schedule of completion. The reason for the change shall be clearly stated.

(4) A permit to construct shall be valid for 5 years after the date of issuance and may be renewed, after notice of hearing, by the department.

(5) A permit to construct is not transferable unless approved by the department.

History: 1954 ACS 98, p. 18, Eff. Feb. 28, 1979.

R 125.1920 Internal roads; general requirements; local conditions.

Rule 920. (1) An internal road is subject to approval by the department and shall comply with the following general requirements:

(a) The road shall be hard surfaced.

(b) The road shall have access to public thoroughfare or be connected to a public thoroughfare by a permanent easement, recorded prior to approval by the department. Sole access by an alley is prohibited.

(c) A dead-end road shall terminate with an adequate turning area. A blunt end road is prohibited.

(d) An adequate safe-sight distance shall be provided at intersections.

(e) An offset at an intersection and an intersection of more than 2 streets is prohibited.

(f) An intersection of roads shall be clearly marked with appropriate traffic signs.

(g) A road shall be named and so identified by street signs located at all road intersections.

(h) A name for an internal road shall be approved by the municipality.

(i) A road shall have a driving surface of not less than the following:

(i) One way, with no parking.....13 feet

(ii) Two way, with no parking.....21 feet

(iii) At access points where general traffic enters or leaves the park, the widths shall be sufficient to permit free movement from or to the stream of traffic on the public roads.

(2) Local conditions, such as heavy snowfall, may dictate the need for wider roads to provide for free flow of vehicular and pedestrian traffic, parking, and to facilitate removal without blocking access to the mobile home site.

History: 1954 ACS 98, p. 18, Eff. Feb. 28, 1979.

R 125.1921 Internal roads; alignment and gradient.

Rule 921. The alignment and gradient of an internal road shall be adapted to the topography and shall be graded for its full width to drain surface water. When grading roads in length, the finish grade of the street shall not be greater than 8% and not less than 0.4% of the length. Short lengths with a maximum grade of 12% may be permitted, provided traffic safety is assured.

History: 1954 ACS 98, p. 18, Eff. Feb. 28, 1979.

R 125.1922 Internal roads; construction materials.

Rule 922. (1) An internal road shall be constructed of materials suitable for subgrades and hard surface in compliance with the standards of the American association of state highway and transportation officials (AASHTO), 1974 edition, adopted herein by reference. Copies are available from the American Association of State Highway and Transportation Officials, 444 North Capitol Street, N.W., Suite 225, Washington, D.C. 20001 at a prepaid cost of $4.25, or from the Department of Commerce, Corporations and Securities Bureau, Mobile Home Section, P.O. Box 30222, Lansing, Michigan 48909 at a cost of $4.25.

(2) The park developer may use other suitable materials of equal quality, if approved by the department.

History: 1954 ACS 98, p. 18, Eff. Feb. 28, 1979.

R 125.1923 Internal roads; curbing.

Rule 923. Curbing may be installed on all internal roads. If curbing is used, it shall be constructed as follows:

(a) Curbing shall be concrete with the exception of the integral valley curb and gutter (gravity drains), which may be either concrete or asphalt.

(b) If integral valley curbing and gutter or mountable curb and gutter is used, the height of the curb measured from the gutter line shall be between 3 and 5 inches.

(c) Crosswalks shall conform to Act No. 8 of the Public Acts of 1973, being §125.1361 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 19, Eff. Feb. 28, 1979.

R 125.1924 Driveways.

Rule 924. Improved hard surface driveways shall be provided on the site where necessary for convenient access to service entrances of buildings; to delivery and collection points for fuel, refuse, and other materials; and elsewhere as needed. The minimum width shall be 10 feet. The entrance shall have the flare or radii, and horizontal alignment for safe and convenient ingress and egress.

History: 1954 ACS 98, p. 19, Eff. Feb. 28, 1979.

R 125.1925 On-site vehicle parking.

Rule 925. If on-site vehicle parking is provided, it shall be in compliance with the following:

(a) Each mobile home site shall have 2 parking spaces either in tandem or side-by-side. If in tandem, the width shall not be less than 10 feet and the combined length shall not be less than 40 feet. If side-by-side, the combined width of the 2 parking spaces shall not be less than 19 feet and the length shall be 20 feet. In either method, the length shall be measured from the curb or inner walkway edge.

(b) A parking space shall be hard surface and constructed in compliance with Act No. 8 of the Public Acts of 1973, being §125.1361 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 19, Eff. Feb. 28, 1979.

R 125.1926 Additional parking facilities.

Rule 926. (1) Parking facilities shall be provided for the storage of mobile homes if a sales office is a part of the park operation.

(2) Parking facilities shall be provided for the storage of maintenance vehicles.

(3) Parking facilities shall be provided at the office location for office visitors.

(4) A minimum of 1 parking space for every 3 mobile home sites shall be provided for visitor parking located convenient to the area served.

(5) If off-street parking bays are provided, they shall comply with the following:

Parking angle	Curb length per car	Minimum bay depth
Parallel	20 feet	10 feet
90 degrees	10 feet	20 feet
60 degrees	12.5 feet	19 feet
45 degrees	12.7 feet	18 feet

(6) If off-site parking facilities are provided in bays and at office or other facilities, they shall be in compliance with R 408.30427 of the Michigan Administrative Code.

(7) If not provided for on-site or in parking bays, a separate parking area may be provided for vehicles that cannot be accommodated within the standards set forth in these rules and for recreational vehicles, such as motor homes, travel trailers, and snowmobiles.

History: 1954 ACS 98, p. 19, Eff. Feb. 28, 1979; 1954 ACS 100, p. 54, Eff. Sept. 5, 1979.

R 125.1927 Vehicular circulation system.

Rule 927. An internal road system shall provide safe, convenient vehicular circulation to and from any access points, all mobile home sites, laundry facilities,

recreational facilities, office facilities, and any other facilities necessary for the normal operation of the mobile home park.

History: 1954 ACS 98, p. 19, Eff. Feb. 28, 1979.

R 125.1928 Pedestrian circulation system.

Rule 928. A pedestrian circulation system shall be designed, constructed, and maintained for safe and convenient movement from all mobile home sites to principal destinations within the park and connection to the public pedestrian circulation system outside the park, if such a system exists. A pedestrian circulation system shall satisfy the following requirements:

(a) Internal roads may be used as pedestrian ways except where concentrations of either pedestrian or vehicular traffic are likely to lead to congestion or hazards.

(b) Separate pedestrian ways shall be provided in locations where pedestrian traffic is concentrated, if use of the roads creates a hazard because of concentrations of either pedestrian or vehicular traffic.

(c) Separate pedestrian ways shall be provided at points where use of roads would lead to unduly circuitous pedestrian routes to principal destinations. If possible, walks shall be through interior areas away from heavy or fast-moving traffic.

(d) Where steps are installed, they shall rise no steeper than 5 feet vertically and 10 feet horizontally. Handrails shall be installed in compliance with R 408.30446 of the Michigan Administrative Code.

(e) Where steps are installed along common pedestrian walkways, ramps shall be installed in compliance with R 408.30445 of the Michigan Administrative Code.

(f) A common pedestrian walkway shall have a minimum width of 3 feet.

(g) An individual pedestrian walkway shall connect to a common pedestrian walkway, or to a road where common walkways do not exist to individual driveways or parking spaces and the mobile home foundation. An individual pedestrian walkway shall be not less than 3 feet in width.

History: 1954 ACS 98, p. 20, Eff. Feb. 28, 1979.

R 125.1929 Vehicular and pedestrian circulation systems; illumination levels.

Rule 929. All vehicular and pedestrian circulation systems within a mobile home park shall be illuminated as follows:

(a) Access points to public thoroughfares shall be lighted. If the public thoroughfare is lighted, the illumination level shall not exceed the average illumination level of an adjacent illuminated thoroughfare.

(b) At all street intersections and designated pedestrian crosswalks, the minimum illumination shall be not less than .25 footcandles.

(c) Roads, parking bays, and pedestrian walkways shall be illuminated at no less than .15 footcandles.

(d) If a central park mail box area or park directories, or both, are provided, they shall be illuminated at not less than 10 horizontal footcandles on any box or any entry on the directory.

(e) Outdoor recreational facilities shall be adequately lighted, when in use.

History: 1954 ACS 98, p. 20, Eff. Feb. 28, 1979.

R 125.1930 Maintaining hard surface roads, walkways, driveways, and mobile home sites.

Rule 930. Hard surface roads, walkways, driveways, and mobile home sites shall be maintained in such a manner that they are of a sound and reasonably smooth surface for either walking or driving. Surfaces shall be maintained

reasonably free of cracks, holes, upheavals, buckling, depressions, rutting, or channeling of the wearing surface, or shiftings of the pavement base and subbase, or both.

History: 1954 ACS 98, p. 20, Eff. Feb. 28, 1979.

R 125.1931 Compliance.

Rule 931. It shall be incumbent upon the park to show proof of compliance with these rules upon request of the department or its authorized representative.

History: 1954 ACS 98, p. 20, Eff. Feb. 28, 1979.

R 125.1932 Mobile home park electrical system.

Rule 932. A park electrical system shall, at a minimum, be designed, installed, operated, and maintained in compliance with the rules entitled "Electrical Lines and Equipment," being R 460.521 to R 460.572 of the Michigan Administrative Code, and pursuant to the construction, installation, and safety standards of the servicing public service company. In addition, the following shall be complied with:

(a) Primary and secondary distribution lines shall be installed underground.

(b) The system shall be designed to provide adequate service pursuant to applicable codes and the manufacturer's standard for the appliance or appliances to be served.

(c) A mobile home site shall have installed an approved individual weatherproof meter. A park master meter shall not be used.

History: 1954 ACS 98, p. 20, Eff. Feb. 28, 1979.

R 125.1933 Circuit breakers.

Rule 933. A mobile home site shall have installed an approved easily accessible electrical systems circuit breaker located at the pedestal, which shall be installed by a licensed electrician. The circuit breaker shall be covered.

History: 1954 ACS 98, p. 21, Eff. Feb. 28, 1979.

R 125.1934 Mobile home park natural gas system.

Rule 934. The design, installation, operation, and maintenance of a park natural gas system shall, at a minimum, comply with the rules entitled "Gas Safety Code," being R 460.14001 to R 460.14999 of the Michigan Administrative Code and the rules entitled "Technical Standards for Gas Service," being R 460.2301 to R 460.2384 of the Michigan Administrative Code, and pursuant to the construction, installation, and safety standards of the servicing public utility company. In addition, the following shall be complied with:

(a) Main and site service lines shall be installed underground.

(b) Gas piping shall not be installed under a mobile home pad or mobile home, except for the piping required to connect the mobile home to the servicing pedestal.

(c) A mobile home site shall be equipped with an approved weatherproof gas regulator and individual meter. A park master meter shall not be used.

(d) A mobile home site shall have an approved gas shutoff valve installed upstream of the site gas outlet and located on the inlet riser not less than 4 inches above the ground. This valve shall not be located under a mobile home.

(e) The minimum hourly volume of gas required at each point shall be designed pursuant to applicable codes and the manufacturer's standard for the appliance or appliances served.

History: 1954 ACS 98, p. 21, Eff. Feb. 28, 1979.

R 125.1935 Mobile home park centralized liquefied petroleum gas (LPG) system.

Rule 935. If provided, a centralized park liquefied petroleum gas (LPG) system shall be designed, installed, operated, and maintained pursuant to the rules entitled "Liquefied Petroleum Gases," being R 28.3801 to R 28.3818 of the Michigan Administrative Code and pursuant to R 460.14051 of the Michigan Administrative Code. In addition to the aforementioned rules, the following shall be complied with:

(a) Main and site service lines shall be installed underground.

(b) A mobile home site shall have installed an approved liquefied petroleum gas meter.

(c) The minimum hourly volume of liquefied petroleum gas required at each point in the system shall be calculated pursuant to applicable codes and the manufacturer's standard for the appliance or appliances to be served.

History: 1954 ACS 98, p. 21, Eff. Feb. 28, 1979.

R 125.1936 Individual mobile home liquefied petroleum gas (LPG) system.

Rule 936. If individual mobile home liquefied petroleum gas systems are permitted, the installation, operation, and maintenance shall comply with the system's and mobile home manufacturer's installation standard and the rules entitled "Liquefied Petroleum Gases," being R 28.3801 to R 28.3818 of the Michigan Administrative Code.

History: 1954 ACS 98, p. 21, Eff. Feb. 28, 1979.

R 125.1937 Mobile home park centralized fuel oil systems.

Rule 937. (1) If provided, park centralized fuel oil systems shall be designed, installed, operated, and maintained in compliance with NFPA no. 31, 1974, standards for the installation of oil burning equipment which is adopted herein by reference, and the rules entitled "Flammable Liquids," being R 28.601 to R 28.740 of the Michigan Administrative Code. Copies of NFPA no. 31 are available from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210 at a cost of $4.40, or from the Department of Commerce, Corporations and Securities Bureau, Mobile Home Section, P.O. Box 30222, Lansing, Michigan 48909 at a cost of $4.40.

(2) In addition to standards set forth in subrule (1) of this rule, the following shall be complied with:

(a) Main and site service lines shall be installed underground.

(b) Each mobile home site shall have installed an approved weatherproof fuel oil meter.

(c) If needed, the fuel oil system shall be equipped with an approved underwriters laboratory (UL) or similarly listed heating system to prevent freezing in cold weather.

History: 1954 ACS 98, p. 21, Eff. Feb. 28, 1979.

R 125.1938 Mobile home site meter calibration.

Rule 938. A mobile home site meter connected to a centralized park electric and fuel service system shall, at a minimum, be calibrated upon installation, and every seventh year thereafter by an independent calibrating company.

History: 1954 ACS 98, p. 21, Eff. Feb. 28, 1979.

R 125.1939 Individual mobile home site fuel oil systems.

Rule 939. If individual fuel oil systems are permitted, they shall comply with the rules entitled "Flammable Liquids," being R 28.601 to R 28.740 of the Michigan Administrative Code and the following:

(a) A mobile home site shall be equipped with an individual fuel oil tank of not less than 100-gallon capacity constructed in accordance with state and local codes and ordinances, but as a minimum, in accordance with chapter 2, NFPA no. 31 which is adopted by reference pursuant to R 125.1937. A commercial shipping container (drum) or similar container shall not be used.

(b) The fuel oil tank may be above or below ground.

(c) If the fuel oil tank is above the ground, it shall be securely installed. Piping to the mobile home shall be securely fastened in place to prevent damage.

(d) Fuel oil tanks shall be a minimum of 10 feet from any mobile home exit door.

(e) Fuel oil tanks shall be vented by a minimum of 1¼-inch vertical pipe and designed to prevent the entrance of rain or debris.

(f) A manual shutoff valve shall be installed at the fuel oil tank on the fuel oil line.

(g) Piping for the fuel oil system shall be approved brass or copper tubing, or approved flexible metal hose at a minimum of ⅜-inch outside diameter.

(h) Valves and connectors shall be listed standard fittings and maintained liquid-tight to prevent spillage of the fuel oil on the ground.

(i) If needed, a fuel oil tank shall be equipped with an approved underwriters laboratory (UL) or similarly listed heating device to prevent the fuel oil from freezing during cold weather.

History: 1954 ACS 98, p. 22, Eff. Feb. 28, 1979.

R 125.1940 Television, telephone, and certain heating systems; compliance with state or local codes and ordinances.

Rule 940. (1) If central television antenna systems, cable television, or other such services are provided, the distribution systems shall be underground and shall be constructed and installed pursuant to state and local codes and ordinances.

(2) Telephone systems shall be installed underground and shall comply with state and local codes and ordinances. If state and local codes and ordinances do not exist, the system shall be installed pursuant to the construction, installation, and safety standards established by the servicing telephone company.

(3) When a heating system other than natural gas, liquefied petroleum gas (LPG), or fuel oil is used, the system shall comply with state or local codes and ordinances.

History: 1954 ACS 98, p. 22, Eff. Feb. 28, 1979.

R 125.1941 Mobile home; required distances from other structures; site length and dimensions.

Rule 941. (1) A mobile home shall be a minimum of:

(a) Twenty feet from any part or attached structure of another mobile home and used for living purposes.

(b) Ten feet from any detached structure and on-site parking on an adjacent mobile home site.

(c) Fifty feet from a permanent building.

(d) One hundred feet from a baseball or softball field.

(2) Any part or structure belonging to a mobile home shall be set back a minimum of:

(a) Ten feet from the edge of an internal road and 7½ feet from a parking bay.

(b) Seven feet from a common pedestrian walkway.

(c) Ten feet from a natural or man-made lake, or other natural or man-made objects or waterways.

(3) A mobile home site length may vary depending on park design and layout, and the mobile home to be installed; however, the minimum standards pertaining to distance between mobile homes shall be complied with.

(4) Site dimensions may be computed with consideration given to anticipated add-a-room attachments to a placed mobile home, or expando or similar expansions.

History: 1954 ACS 98, p. 22, Eff. Feb. 28, 1979.

R 125.1942 Layout.

Rule 942. Layout of a mobile home park and other facilities intended for tenant use shall be in accordance with acceptable architectural and engineering practices and shall provide for the convenience, health, safety, and welfare of the tenants.

History: 1954 ACS 98, p. 22, Eff. Feb. 28, 1979.

R 125.1943 Mobile home site construction.

Rule 943. (1) A mobile home site shall have installed a means by which the mobile home shall be supported on a permanent foundation.

(2) The location of the pedestal may vary according to park design and layout, and for ease of mobile home installation and utility hook-ups.

(3) Pads shall be constructed to achieve adequate surface drainage.

(4) On-site parking spaces may be provided with car stops.

(5) A mobile home site shall be designed for the exclusive use of 1 mobile home family. If a mobile home on a site is to be used as a multiple dwelling, the site shall be constructed to accommodate each family pursuant to these rules.

History: 1954 ACS 98, p. 23, Eff. Feb. 28, 1979.

R 125.1944 Setbacks from property boundary lines.

Rule 944. (1) Mobile homes, permanent park buildings and facilities, and other structures shall not be located closer than 10 feet from the property boundary line of the park.

(2) If mobile homes, permanent park buildings and facilities, and other structures abut a public right-of-way, they shall not be located closer than 25 feet from the park boundary line. This rule does not apply to internal park roads if dedicated for public use, providing the roads do not present a nuisance or safety hazard to the park tenants.

History: 1954 ACS 98, p. 23, Eff. Feb. 28, 1979.

R 125.1945 Screening; fencing.

Rule 945. (1) Mobile home parks may be completely screened by fencing or natural growth along the entire property boundary line, including the line abutting a public thoroughfare, except at access points.

(2) Individual mobile home site fencing, if permitted by the park, shall be not more than 3 feet high and shall have not less than 2 access gates which provide free access to all sides of the mobile home in the event of an emergency. The fencing shall be approved by the park before installation and upon completion.

History: 1954 ACS 98, p. 23, Eff. Feb. 28, 1979.

R 125.1946 Open space requirements.

Rule 946. (1) A mobile home park that contains 50 or more mobile home sites shall have at least 1 easily accessible open space area containing not less than 25,000 square feet.

(2) The total of the land dedicated for open space shall not be less than 2% of the park's gross acreage that is approved for construction pursuant to a permit to construct, but not less than 25,000 square feet.

History: 1954 ACS 98, p. 23, Eff. Feb. 28, 1979.

R 125.1947 Optional improvements.

Rule 947. (1) Optional improvements such as swimming pools, recreational buildings, children's playgrounds, picnic areas, game fields and courts or similar areas or facilities shall be considered as fulfilling part or all of the total open space requirement.

(2) Optional improvements such as laundries, swimming pools, buildings and other structures, service facilities, and areas for recreational or service use shall comply with current state building codes pertinent to construction.

(3) If optional improvements are provided, they may be consolidated into a single facility.

History: 1954 ACS 98, p. 23, Eff. Feb. 28, 1979.

R 125.1948 Mobile home park design and construction variance; procedure.

Rule 948. (1) Pursuant to section 18 of the act, the commission subject to its approval delegates the authority to the bureau to enter into agreements with mobile home park developers, owners, or operators for the purpose of granting a variance to the park design and construction rules promulgated by the commission.

(2) A mobile home park developer, owner, or operator may file a request with the bureau for a specific variance to the park design and construction rules if the specific requirement would cause an exceptional practical difficulty in the development of a new park or the expansion of an existing park.

(3) The applicant shall file with the local government and the department of health a notice of request at the time the request is filed with the bureau. The request shall be in written letter form and shall include, but is not limited to, the following:

(a) Specific identification of the rule requirement by rule number, paragraph, and subparagraph, if needed.

(b) Specific reason or reasons for the variance.

(c) A statement or statements pertaining to why the condition caused by the requirement is not general or recurring in nature so as to cause the bureau to recommend to the commission that consideration be given to amend the rules as the most practical means to rectify the difficulty.

(d) A statement or statements specifically pertaining to the difficulty encountered if the specific requirement of the rule was literally applied.

(e) A statement or statements specifically pertaining to the difficulty encountered in insuring the protection of the health, safety, and welfare of park tenants if the specific requirement of the code was literally applied, if applicable.

(f) Any other specific information and data pertinent to justification for the specific variance.

(4) If the variance conflicts only with the mobile home park design and construction rules, the request shall be reviewed together with the local government's and the department of public health's comments by the bureau which shall

approve the request or issue an intent to deny letter stating the reasons for denial, giving the proponent reasonable notice and opportunity for a hearing.

(5) If a local government grants a specific variance which permits a mobile home park developer, owner, or operator to engage in activities that are in violation of the minimum design and construction standards required by these rules, the local government shall file with the bureau, within 15 days of the approval, a copy of the variance order and a detailed explanation pertaining to the reasons for granting the variance. The bureau may approve or disapprove the variance.

(6) When necessary, the bureau may, in writing, attach a condition to the granting of a variance to protect the health, safety, and welfare of the citizens of this state.

(7) In all instances, the variance shall be the minimum necessary to relieve the specific condition which causes exceptional, practical difficulty to the applicant.

(8) If a developer, owner, or operator of a mobile home park, or a local government is aggrieved by the decision of the bureau, the aggrieved party shall have the right to petition the commission for a hearing pursuant to R 125.1135.

(9) This rule does not apply to a request for a variance to a local ordinance, zoning requirement, or local rules which may be granted only by local government pursuant to section 18(4) of the act.

History: 1954 ACS 98, p. 23, Eff. Feb. 28, 1979.

PART 10. MOBILE HOME PARK BUSINESS PRACTICES

R 125.2001 Definitions.

Rule 1001. As used in this part:

(a) "Complaint record" means a written record of each written complaint pertaining to the park received from tenants submitted to the mobile home park and shall include the nature of the complaint, name of tenant submitting the complaint, date submitted, date resolved, and resolution.

(b) "Entrance fee" means a fee charged by a mobile home park as a condition precedent, subsequent, or concurrent to the right to reside in the park. It does not include any of the following:

(i) Security deposits.

(ii) Fees and taxes charged by a unit of government. This does not ordinarily include fees and taxes, which are related to capital improvements, to be paid by the park.

(iii) Deposits for service charged by public utilities.

(iv) Utility charges billed directly to the tenant by the park.

(v) Rent.

(vi) Actual cost of a credit report, if one is obtained.

(vii) Such other fees as may, from time to time, be determined by the commission by declaratory ruling, rule, or interpretive statement.

(viii) Nonrefundable cleaning fee as allowed by law.

(c) "Exit fee" means any fee charged by a mobile home park as a condition precedent, subsequent, or concurrent to the right to terminate tenancy. This does not foreclose the right of the park to retain the security deposit under Act No. 348 of the Public Acts of 1972, being §§554.601 to 554.616 of the Michigan Compiled Laws.

(d) "Inventory checklist" means the identical written form used at the commencement and termination of tenancy that shall record the condition of all items on the mobile home site that are owned by the mobile home park, including, but not limited to, pads, utility hook-ups, patios, driveways, parking spaces, sewer connections, and mobile home installation materials.

(e) "Lease" means a written agreement for the use, possession, and occupancy of a mobile home site or mobile home, or both, which contains all conditions of tenancy and may include the rules and regulations of the park.

(f) "Optional improvement" means an amenity in new park construction or existing licensed park expansion which is not a requirement under the park construction rules contained herein.

(g) "Park rules" means a written document promulgated by the mobile home park that may regulate, but is not limited to, yard maintenance, automobiles, children, pets, guests, garbage and rubbish disposal, rental payments, or other conditions of tenancy and includes the informational and disclosure items included in R 125.2006.

(h) "Rent" means any consideration paid by a tenant for the right of use, possession, and occupancy of a mobile home site or mobile home, or both, and other facilities made available to the tenant by the mobile home park.

(i) "Security deposit" means a deposit, in any amount, paid by the tenant to the landlord or his agent to be held for the term of the rental agreement, or any part thereof, and includes any required prepayment of rent other than the first full rental period of the lease agreement; any sum required to be paid as rent in any rental period in excess of the average rent for the term; and any other amount of money or property returnable to the tenant on condition of return of the rental unit by the tenant in condition as required by the rental agreement. Security deposit does not include an amount paid for an option to purchase, pursuant to a lease with option to purchase, unless it is shown the intent was to evade this act.

(j) "Specific tax" means the tax levied upon a mobile home under Act No. 243 of the Public Acts of 1959, being §§125.1041 to 125.1043 of the Michigan Compiled Laws.

(k) "Tax payment record" means a written record of specific taxes paid by the mobile home park, including dates due and dates paid, in accordance with Act No. 243 of the Public Acts of 1959, as amended, being §§125.1041 to 125.1043 of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 24, Eff. Feb. 28, 1979; 1954 ACS 100, p. 55, Eff. Sept. 5, 1979.

R 125.2002 Advertising.

Rule 1002. A mobile home park shall not advertise that facilities or physical conditions, or both, exist when this is not true.

History: 1954 ACS 98, p. 25, Eff. Feb. 28, 1979.

R 125.2003 Means to assure completion of optional improvements.

Rule 1003. A mobile home park, or a part thereof on which construction of an optional improvement for tenant use or convenience has not been completed, shall not be advertised unless the completion of the optional improvement is assured by substantial completion or the advertising discloses the promised date of completion, or both. If an optional improvement is not completed by the date promised, the bureau may, after notice of opportunity for hearing, require an irrevocable bank letter of credit, bond, or similar undertaking posted with a public authority and acceptable to the bureau, or by adequate reserves established and maintained in a trust escrow account to insure completion of the optional improvement. In determining adequacy of the account, the bureau shall be guided by the facts and circumstances of each individual case, but the account shall comply with the following:

(a) Funds shall be kept and maintained in a separate escrow account.

(b) The account shall be approved by the bureau and shall be established in a financial institution doing business in this state, or another state where the account is required to be maintained there by the laws of that state.

(c) Monthly progress reports shall be furnished to the bureau and the commission by the park for a new project for the first 6 months and in the bureau's discretion, quarterly or semi-annually thereafter.

(d) The trust or escrow agreement shall state that its purpose is to protect the tenant or prospective tenant in case the park fails to complete construction of promised optional improvements and shall authorize the bureau to inspect the records of the trustee relating thereto.

(e) The bureau, by its director, shall execute an acknowledgment on the face of each agreement. This acknowledgment indicates approval of the form and content of the agreements, but shall not be construed to make the bureau a party thereto.

History: 1954 ACS 98, p. 25, Eff. Feb. 28, 1979.

R 125.2004 Mobile home sales in parks.

Rule 1004. (1) A mobile home park shall not deny a tenant the right to sell his or her mobile home, on site, at a price of his or her own choosing, to any individual, if the purchaser qualifies for tenancy and the mobile home meets the conditions of the written park rules, except that age shall not be used as the sole basis for refusing to allow a mobile home to remain in the park.

(2) A mobile home sold on site shall conform to R 125.1703 pertaining to fire extinguishers and smoke detectors.

(3) Unless licensed as a broker/dealer pursuant to the act, a charge connected to the sale by the park is an entrance or exit fee.

(4) A park may charge a reasonable fee to inspect the home prior to sale. The charge shall not exceed $30.00.

(5) Subrule (1) of this rule does not apply if the mobile home park is changing its method of doing business, which includes, but is not limited to, any of the following:

(a) Conversion to a mobile home park condominium pursuant to Act No. 59 of the Public Acts of 1978, being §§559.101 to 559.272 of the Michigan Compiled Laws.

(b) Converting to total rental of both mobile home site and park-owned mobile home.

(c) A mobile home park owner or operator, or both, has the burden of proof to show compliance with this rule.

History: 1954 ACS 98, p. 28, Eff. Feb. 28, 1979.

R 125.2005 Security deposits; lease; inventory checklists.

Rule 1005. (1) A security deposit received by a park shall be maintained in accordance with the procedures set forth in Act No. 348 of the Public Acts of 1972, being §§554.601 to 554.616 of the Michigan Compiled Laws.

(2) A minimum 6-month lease shall be offered for each mobile home site. If a tenant refuses a lease, the park shall require a written statement of the refusal. A park may offer different terms of tenancy between tenants with a lease and tenants without a lease.

(3) An inventory checklist shall be utilized at the beginning and termination of the tenancy to determine damages. The procedure set forth in Act No. 348 of the Public Acts of 1972, being §§554.601 to 554.616 of the Michigan Compiled Laws shall be complied with.

R 125.2006 Mobile home park rules; rent charges.

Rule 1006. (1) The park management shall provide each prospective and existing tenant with a copy of the park rules. A written receipt for the rules shall be executed by the tenant.

(2) Changes to the park rules shall be posted at a conspicuous place in the park office and shall be given to each tenant, at a minimum, and displayed conspicuously at other convenient locations, if possible, not less than 30 days before the date on which the changes become effective.

(3) If proposed rules are altered or changed within 10 days after the changes to the park rules are effective, a copy shall be furnished to each tenant.

(4) The park shall post in a conspicuous place in the park office a detailed list of current rent ranges, a detailed list of any other charges that are added to the base rent which would establish the monthly rental a tenant is to pay, and the following statement for resolving complaints under the act:

Under the mobile home commission act you have the right to file a valid complaint that pertains to violations of that act or rules published under the act. Before a complaint can be filed under this act or these rules, you must notify the park, dealer, broker, or installer/repairer in writing that a problem exists. If they do not provide a reasonable response within 15 days of receipt of your complaint, you may file a complaint with the Michigan Department of Commerce, Corporations and Securities Bureau, Mobile Home Section, P.O. Box 30222, Lansing, Michigan 48909. Please note that only violations pertaining to the mobile home commission act or these rules can be accepted by the mobile home section. Complaints pertaining to mobile home park rent costs do not fall under the authority of the act.

History: 1954 ACS 98, p. 26, Eff. Feb. 28, 1979; 1954 ACS 100, p. 55, Eff. Sept. 5, 1979.

R 125.2006a Tenant-provided utility service.

Rule 1006a. If a mobile home park tenant provides any utility service that results in common park use, such as park lighting, and that tenant is directly charged for that service by a public or park-owned utility, the park shall disclose the charge to all affected tenants.

History: 1954 ACS 100, p. 56, Eff. Sept. 5, 1979.

R 125.2007 Accounts and records.

Rule 1007. (1) In addition to other accounts and records required by law, the park shall maintain the following accounts and records at the park office or at a central office:

(a) A copy of the lease for each tenant, or a copy of the statement of refusal signed by the tenant.

(b) A copy of the inventory checklists for each tenant.

(c) A copy of the tenant receipt for park rules.

(d) A record of the rent receipts for each tenant.

(e) A record of all specific tax payments and receipts.

(f) A record of the playground equipment inspections.

(g) A copy of each written complaint received.

(2) All accounts and records required by these rules shall be available for inspection by an authorized representative of the bureau during normal business hours.

(3) Unless otherwise provided for by law, these or other rules, or local ordinances which require a longer retention period, the following accounts and records shall be maintained pursuant to the following schedule of retention:

(a) Three years:

(i) The record of rent receipts.

(ii) The record of the playground equipment inspection.

(iii) A copy of each written complaint received.

(iv) The record of specific tax payments or receipts.

(b) Three years after tenancy termination:

(i) The copy of the lease for each tenant, or the copy of the statement of refusal signed by the tenant.

(ii) The copy of the inventory checklist for each tenant.

(iii) The copy of the tenant's receipt for park rules.

History: 1954 ACS 98, p. 26, Eff. Feb. 28, 1979; 1954 ACS 100, p. 56, Eff. Sept. 5, 1979.

R 125.2008 Mobile home parks constructed pursuant to previous acts.

Rule 1008. (1) A mobile home park, as defined in the act, that was licensed under the construction standards of previous acts, and the license was legally issued and valid at the time these rules take effect, is not required to fulfill all the requirements pertaining to park construction pursuant to these rules. However, at a minimum, all existing mobile home parks shall, within 1 year after issuance of a license under the act, conform to the following:

(a) A mobile home park shall be adequately lighted during darkness.

(b) The installation of individual mobile home site meters shall be pursuant to R 125.1932, R 125.1934, R 125.1935, and R 125.1937.

(c) Meters which are owned by the park shall be calibrated pursuant to R 125.1938.

(2) An existing mobile home park licensed under the act or previous acts that expands shall conform to all the requirements pertaining to park construction in these rules for all expansions.

History: 1954 ACS 98, p. 27, Eff. Feb. 28, 1979.

R 125.2009 Mobile home park owner or operator; prohibited practices.

Rule 1009. A mobile home park owner or operator shall not aid or abet an unlicensed person to evade the provisions of the act or these rules, or knowingly combine or conspire with, or act as an agent, partner, or associate for an unlicensed person, or allow one's license to be used by an unlicensed person, or act as or be an apparent licensed mobile home dealer, or broker, for undisclosed persons who do or will control or direct, or who may have the right to control or direct, directly or indirectly, the business operations or performance, or both, of the licensee.

DEPARTMENT OF TREASURY

MUNICIPAL FINANCE COMMISSION

BONDS

(By authority of section 2, chapter 2, of Act No. 202 of the Public Acts of 1943, being §132.2 of the Michigan Compiled Laws)

R 132.1 Applications for issuance of bonds or for notice of sale of bonds; filing; actions.

Rule 1. (1) The commission will not act upon applications made for its approval for the issuance of bonds or for the notice of sale of bonds until completed applications, including certified copies of all supporting ordinances and resolutions relating to the obligations proposed and for which its permission to issue is sought, shall have been filed with it as follows:

(a) Seven days in case of requested permission for the issuance of or for the approval of a notice of sale of any bonds except refunding bonds, revenue bonds or revenue refunding bonds.

(b) Ten days in the case of requested permission for the issuance of or for the approval of a notice of sale of refunding bonds, except revenue refunding bonds.

(c) Twenty days in the case of requested permission for the issuance of or for the approval of a notice of sale of revenue or revenue refunding bonds.

(d) In the event any resolution or ordinance relative to revenue bonds, or revenue refunding bonds, proposed to be issued, including those relating to notices of sale thereof, shall be amended while an application is pending before the commission, or before it shall have finally acted thereon, final action will not be taken by the commission until certified copies of such amendatory resolutions or ordinances shall have been on file with it for a period of 5 days.

(2) In computing the number of days an application or other paper shall have been on file with the commission, the day of its receipt in the office of the commission and the day upon which the commission acts shall not be counted.

History: 1944 AC, p. 473; 1944 ACS 6, p. 58; 1944 ACS 12, p. 28; 1944 ACS 25, p. 14; 1954 AC, p. 801.

HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 132.101 Notice of grievance; service.

Rule 1. If any municipality shall feel aggrieved at any order of the commission, the governing body of such municipality shall cause a notice thereof to be served on the commission as hereinafter provided. Such notice shall state the reasons for the municipality being so aggrieved and the issues involved. A certified copy of the resolution of the governing body of the municipality setting forth the said reasons and issues may constitute notice hereunder. Such notice shall be served on the commission either by giving a certified copy thereof personally to any member of the commission at Lansing, Michigan, or by mail addressed to the commission.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

R 132.102 Notice of hearing by commission; adjournments.

Rule 2. Notification by the municipal finance commission of any hearing before it shall be addressed to the officer certifying the notice of the municipality, or to counsel for the municipality, as directed in its notice, and shall be mailed at least 7 days prior to the date of the hearing. Such hearings may be adjourned from time to time as provided in Act No. 202, Public Acts of 1943, as amended, and notice of any adjourned hearing shall be mailed to the officer of the municipality as above provided at least 3 days before such adjourned hearing. Unless otherwise indicated, all hearings will be held in the office of the municipal finance commission at Lansing, Michigan, or any other place in the capitol selected by the commission. Any party may request an adjournment of a hearing, for cause shown, by filing such request in writing with the secretary of the commission at least 6 days prior to the hearing or any adjournment thereof.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

R 132.103 Appearances.

Rule 3. When an appearance is made at a hearing, it shall be made by a duly authorized representative or by counsel.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

R 132.104 Statement of facts.

Rule 4. When any municipality feeling aggrieved at any order of the commission shall serve a notice thereof on the commission as hereinbefore provided, the municipality shall submit in writing therewith a fair and accurate statement of the facts on which it bases its notice of being aggrieved.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

R 132.105 Briefs.

Rule 5. The commission or any member thereof, either before, during or after the hearing, may request that briefs be filed and may designate the manner and time of filing and serving the same. An original and 5 copies shall be filed with the commission.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

R 132.106 Depositions.

Rule 6. Depositions shall only be taken upon written authority of the commission where it is shown in writing to the commission that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being §§617.6 to 617.15 of the Michigan Compiled Laws, with all parties given an opportunity to cross-examine the witness under oath.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

R 132.107 Stenographic report.

Rule 7. The testimony at any hearing before the commission shall be taken stenographically and any party may obtain a copy by payment of the cost hereof.

History: 1954 ACS 4, p. 5, Eff. Dec. 23, 1955.

DEPARTMENT OF STATE

ELECTIONS DIVISION

ELECTRONIC VOTING SYSTEMS

(By authority conferred on the secretary of state by section 794c of Act No. 116 of the Public Acts of 1954, being §168.794c of the Michigan Compiled Laws)

R 168.771 Definitions.

Rule 1. (1) As used in these rules:

(a) "Absent voter ballot card" means a ballot card attached to a backing that aids a voter to punch out the scored positions on the ballot card.

(b) "Accuracy test" means a test conducted to determine that the program and the computer being used to tabulate the results of the election count the votes in the manner prescribed by the act.

(c) "Act" means Act No. 116 of the Public Acts of 1954, as amended, being §168.1 et seq. of the Michigan Compiled Laws, and known as the Michigan election law.

(d) "Approved computer" means a manufacturer model which has been approved by the board of state canvassers to tabulate ballot cards in this state.

(e) "Ballot card" means a data processing card approved by the board of state canvassers.

(f) "Ballot label assembly" means the assembled unit containing ballot labels and mask.

(g) "Certifying board" means a board consisting of not less than 2 members of differing political party preference which certifies the precinct results on election night.

(h) "Chad" means the scored rectangular portion of the ballot card which is punched out of the ballot card by the voter when casting a vote.

(i) "Combination ballot card and write-in ballot" means a ballot card with a separate card attached to it by perforation and which contains instructions and spaces for write-ins. The write-in portion shall be of a size other than that of the ballot card.

(j) "Computer" means 1 or more pieces of automatic tabulating equipment which examines, tabulates, and counts votes recorded on ballot cards or magnetic tapes and prints results.

(k) "Console log" means a listing of the computer responses to program instructions and of instructions to the computer by the operator.

(l) "Correction tape" means a tape designed solely for use in correcting errors on data processing cards.

(m) "Demonstration ballot card" means a ballot card of a distinctive color used to instruct voters on the use of the voting device. The card shall have the word "DEMONSTRATION" printed or stamped on it.

(n) "Demonstrator model" means a voting device on which voters are instructed in the use of the device.

(o) "Duplicate ballot card" means a ballot card on which the word "DUPLICATE" is printed, stamped, or written and which is used to transfer a voter's valid selections from the original ballot card.

(p) "Edit listing" means a listing showing the names, rotation sequence, and ballot position numbers for each candidate and proposal as they appear in the program for each precinct.

(q) "End card" means a data processing card which instructs the computer that all ballots of a precinct have been counted.

(r) "Header card" means a data processing card which contains the necessary data to identify a precinct to the computer. A header card may be an end card for the preceding precinct.

(s) "Mask" means a piece of material with defined areas for each voting position, into which holes are punched corresponding only to the voting positions appearing on the ballot label.

(t) "Overvote" means a combination of votes, including write-in votes, which exceeds the number for which the elector is entitled to vote.

(u) "Program" means the operating instructions for a computer by which it examines, counts, tabulates, and prints the results of the votes cast on a ballot card.

(v) "Receiving board" means a board consisting of not less than 2 members of differing political party preference which receives the sealed transfer case from the precinct election inspectors.

(w) "Receiving station" means a site which is located at a building or place other than where the counting center is located.

(x) "Self-contained voting station" means a unit containing a voting device having curtains on not less than 3 sides and which, when assembled, creates an individual voting station.

(y) "Specialized computer" means automatic tabulating equipment constructed primarily for the purpose of tabulating ballots and printing results.

(z) "Spoiled ballot" means a ballot card which has been returned by a voter and for which a new ballot card has been issued.

(aa) "Template" means a piece of material containing precisely located holes, conical in shape and positioned so that a stylus tip can penetrate only the scored areas of the ballot card.

(bb) "Transfer case" means a metal container used for transporting and storing voted ballot cards. The container shall be capable of being sealed with a metal seal and be approved in the manner ballot boxes are approved pursuant to section 24j of the act.

(cc) "Valid punch" means a punch of a ballot card such that the chad is completely removed or is hanging by 1 or 2 corners.

(2) A term defined in the act has the same meaning when used in these rules.

History: 1954 ACS 96, p. 27, Eff. Aug. 8, 1978.

R 168.772 General provisions.

Rule 2. (1) The paper ballot procedures in the act shall be applicable in elections in which electronic voting systems are used, except where superseded by specific provisions of the act or these rules.

(2) A precinct in which electronic voting systems are used shall not contain more than the number of registered voters permitted by the act in a precinct using voting machines.

(3) Where the board of county commissioners provides for the purchase and use of an electronic voting system in a county, the county clerk shall have custody of the devices and be responsible for their maintenance, repair, and preparation for elections.

(4) Where the legislative body of a city, township, or village provides for the purchase and use of an electronic voting system, the clerk of the city, township, or village shall have custody of the devices and be responsible for their maintenance, repair, and preparation for elections.

(5) If a county owns the voting devices and the election is an election at which state or county offices or proposals are to be voted upon, or an election at which state, county, and local offices are to be voted upon, the county election commission shall provide programming and computer time and furnish the necessary supplies, including printing.

(6) If a county owns the voting devices and the election is an election at which only local offices and proposals are to be voted upon, the county election commission shall provide programming and computer time and furnish the necessary supplies, including printing, and the local unit shall reimburse the county for the costs of the supplies; or the local unit may agree with the county that the local unit shall perform the functions required by this rule to be performed by the county.

(7) If a city or township owns the voting devices and the election is an election at which state or county offices or proposals are to be voted upon, or an election at which state, county, and local offices and proposals are to be voted upon, the city election commission shall provide the devices, programming, and computer time, and the county election commission shall provide ballot cards, ballot envelopes, and the printing of the ballot labels. A city or township and a county may enter into a mutual agreement that the county shall provide programming or computer time, or both.

(8) If a city or township owns the voting devices and the election is an election at which only local offices and proposals are to be voted upon, the city or township election commission shall provide the devices, programming, computer time, ballot cards, ballot envelopes, and the printing of ballot labels. A city or township and a county may enter into a mutual agreement that the county shall provide programming or computer time, or both.

(9) A village or school district may contract with a city, county, or township for the use of voting devices, programming, and computer time.

(10) Notwithstanding any other provision of these rules, the election commissions of local units of government may enter into a mutual agreement for the joint use of a program and computer. The agreement shall state which local unit has control of the programs and computer. An agreement may be made with the county election commission stating control of the program and computer shall be vested in the county clerk.

(11) For the purpose of these rules, when a school election is conducted and the school district is supplying the program, the term "election commission" means the secretary and president of the school board and the superintendent of the school district.

History: 1954 ACS 96, p. 28, Eff. Aug. 8, 1978.

R 168.773 Preparation of program.

Rule 3. (1) A program shall be written so as to accurately tabulate a voter's choices for each candidate, office, and measure for which the voter is lawfully entitled to vote, in conformity with the act and these rules.

(2) A program shall include an instruction requiring that 2 identical header cards precede the deck of ballot cards for each precinct. The program shall provide that if 2 identical header cards do not appear in front of the ballot cards of a precinct, the counting of ballots for that precinct shall not take place. In programs to be used on a specialized computer, 1 header card is required, unless the function of the header card is performed by the program.

(3) An end card shall follow the ballots of each precinct. The program may provide that if a header card contains instructions to the computer that all ballots

of the preceding precinct have been counted, a separate end card is not required. In a program to be used in a specialized computer, an end card is not required.

(4) A program may be maintained by a generally accepted method, within the computer industry, of input or output or a combination of methods.

(5) Two edit listings shall be prepared and, not less than 3 days before the preliminary accuracy test, shall be delivered to the election commission responsible for supplying the program.

(6) The election commission responsible for supplying the program shall provide necessary information to the person or company designated to write or prepare the program.

(7) The program for an election and a duplicate copy shall be completed and delivered to the election commission responsible for supplying the program not less than 3 days before the preliminary accuracy test. A duplicate is not required where a specialized computer is used.

(8) If a program is written to be used on a general purpose computer, the person or company providing the program shall, at the time the program is delivered, submit to the election commission a certificate stating that the program was prepared from all relevant input data, describing the procedures which were used to determine its accuracy, and stating that the program has been written pursuant to the act and these rules.

(9) The person preparing the program shall submit to the election commission responsible for supplying the program instructions containing the information and procedures required to operate the program. The election commission shall make the instructions available to the computer operators.

(10) The vote tabulation portion of the program shall be written:

(a) To reflect the rotation sequence of the candidates' names and ballot position numbers as they appear on the ballot labels in the various precincts.

(b) To count valid votes cast by a voter for candidates for an office.

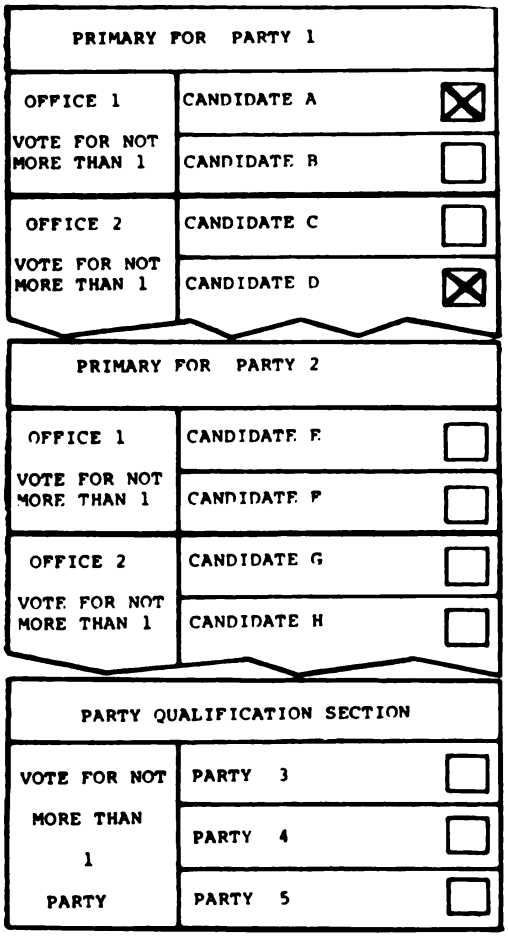
(c) To count valid votes cast by a voter for or against any question.

(d) So as not to count votes cast by a voter for an office or question if the number of votes cast by a voter exceeds the number which the voter is entitled to vote for on that office or question.

(e) To ignore punches in a ballot card in positions where a candidate's name or questions do not appear on the official ballot. These punches shall not have an effect on the ballot.

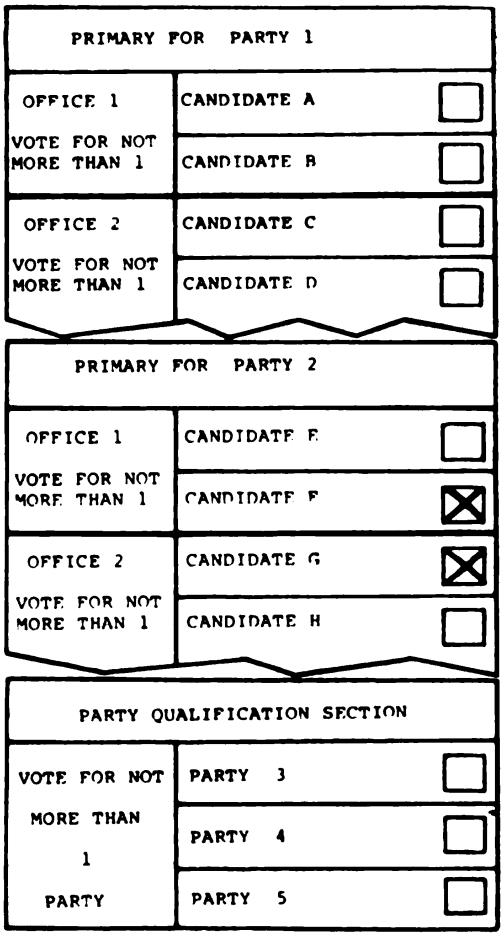
(f) So that the partisan, nonpartisan, and proposal sections of the ballot are considered separate sections of the ballot. The action of a voter in 1 section of the ballot shall not affect the voter's action on another section of the ballot.

(11) For a partisan primary election, the vote tabulation section of the program shall be written:



(a) To determine if a voter has cast votes for candidates of more than 1 political party.

(b) To determine if a voter has cast votes for a candidate of 1 or more political parties and a vote in the "party qualification section" of the ballot.



(c) To count the votes when they are recorded by a voter for candidates of 1 political party only where a vote is not recorded in the "party qualification section" of the ballot; or to count the vote when it is recorded by the voter for 1 selection only in the "party qualification section" of the ballot and where a vote is not recorded for 1 or more partisan candidates, as in examples 1, 2, 3, and 4.

R 168.774 Preparation of ballots and ballot labels.

Rule 4. (1) On a ballot card used after the effective date of these rules, the words "OFFICIAL BALLOT CARD" shall be printed on the face of the detachable stub. The ballot card shall have a corner cut on 1 corner.

(2) The following statement shall be printed or stamped on the back of the stub on official ballot cards in boldface capital letters:

STOP
WRONG SIDE
TURN CARD OVER

(3) The precinct or absent voter counting board number shall be printed, stamped, written, or punched on each ballot card used in an election to designate the precinct or county board from which it originated.

(4) A combination ballot card and write-in ballot to be used in an election shall be approved by the board of state canvassers.

(5) A ballot envelope to be used in an election shall be approved by the board of state canvassers and shall satisfy all of the following requirements:

(a) Be made of paper of a sufficient size, weight, and design to preserve the secrecy of the ballot card.

(b) Have an inner pocket into which the ballot card may be inserted.

(c) Display printed instructions as to the method of inserting the ballot card after voting, and if the ballot envelope is to be used for write-ins, shall display instructions and space for casting a write-in vote.

(6) The number of ballot cards and envelopes required to be printed and distributed to each precinct shall:

(a) For the general election, be a number equal to the number of registered voters as of the close of registration.

(b) For a primary election, be not less than a number equal to the total number of votes cast in the most recent corresponding primary election plus 25%.

(c) For a special or local election, be a number determined by the local clerk.

(7) A question, proposal, or proposition shall be placed last on the ballot label following the names of candidates and shall be placed in the following order: state, county, local. An exemption from this requirement may be obtained prior to the election from the secretary of state in writing.

(8) For a general election, the name of the party which a candidate represents shall be printed along with the name of the candidate.

(9) The names of candidates on ballot labels shall be rotated as follows:

(a) For a primary election, the names under each office shall be rotated when there are more names than there are candidates to be nominated for office.

(b) For a general election, the names of partisan candidates under the title of each office shall not be rotated.

(c) In any election, the names of nonpartisan candidates shall be rotated when there are more names than there are candidates to be elected for the office.

(d) Rotation shall be by precinct in the manner provided by law for voting machines.

(e) Rotation shall be throughout the local unit of government preparing the labels.

(f) When absent voter ballots are to be processed in the precinct, the rotation shall be the same as in that precinct.

(g) When absent voter ballot cards are to be processed by an absent voter counting board, the rotation may be either by precinct using each absent voter counting board as a separate precinct, or by individual ballot in the same manner

as paper ballots. In the latter instance, the punch number assigned to a candidate which corresponds to the respective position number on the ballot card shall be rotated with the candidate's name.

(10) Voting instructions shall be printed on the first page of the ballot label. The ballot label shall contain instructions as to where the voter is to continue voting. Additional instructions which conform with the act may be printed on the ballot label.

(11) Absent voter instruction ballots which are used in conjunction with a ballot card shall be printed in plain, clear type and contain instructions for voting. There shall be printed in boldface type alongside each candidate's name and the choice for each measure, a number which corresponds to the respective position number on the ballot card. The words "ABSENT VOTER INSTRUCTION BALLOT" shall appear at the head of the absent voter instruction ballot. An absent voter instruction ballot may be a facsimile of the ballot label used in the absent voter's precinct. Arrows placed on the ballot labels may be omitted from the absent voter instruction ballot.

(12) When a state office or question appears on the ballot, the county election commission shall forward to the secretary of state for approval 2 copies of an instruction ballot or ballot label, 2 copies of an absent voter instruction ballot including all instructions forwarded to absent voters, 2 copies of a ballot card, and 2 copies of a ballot envelope.

History: 1954 ACS 98, p. 40, Eff. Aug. 8, 1978.

R 168.775 Preparation of voting device.

Rule 5. (1) The clerk or an authorized assistant shall prepare each voting device pursuant to the provisions of the act and these rules.

(2) A voting device shall be identified with the precinct number in which it shall be used.

(3) A ballot label page used in the voting device shall be firmly attached for insertion and positioning in the ballot frame. A person shall not attach a ballot label by tape to a rod, or place a ballot label into a clear plastic envelope through which a rod is inserted.

(4) The ballot label assembly shall be inserted and sealed into each voting device so that the ballot label assembly cannot be removed without breaking the seal. Seals approved by the board of state canvassers shall be used for this purpose.

(5) The ballot label of each voting device of a precinct shall be compared against the edit listing and instruction ballot for the precinct to ascertain that the offices, candidates' names, and ballot position numbers are the same and appear in the same position.

(6) The ballot labels of each device shall be examined to ascertain that holes in the mask appear directly opposite each arrow, that other holes do not appear in the mask, and that the ballot labels are in proper sequence.

(7) An assembled voting device shall be tested to determine if it is operating properly.

(8) The identifying number of the voting device and the seal number used to seal the ballot label assembly to the device shall be recorded on the certificate in the poll book for the precinct in which the device is to be used. The clerk or an authorized assistant who sealed the device shall sign the certificate.

(9) When a voting device has been prepared for the election, the election commission, the clerk, or an authorized assistant shall execute a certificate in writing, which shall be filed with the election commission of the jurisdiction in which they are authorized to act. The certificate shall contain the precinct number, the identifying number of the device, and the number of the seal or seals used to seal the device, and state that the ballot labels have been compared against the edit list for that precinct and that the candidates' names and ballot numbers agree and appear in the same position and that the device has been properly prepared and tested. If the certificate is signed by other than the election commission, the election commission or its authorized assistant shall be offered an opportunity to inspect the voting devices to determine whether they are properly prepared. In an election when state and county officers or measures are to be voted for, a duplicate certificate shall be filed with the county clerk.

History: 1954 ACS 98, p. 42, Eff. Aug. 8, 1978.

R 168.776 Preparation of official test deck.

Rule 6. (1) The election commission providing the program or its authorized assistant shall prepare a test deck with predetermined results.

(2) The test deck shall consist of ballot cards of the same type to be used in the election with the word "TEST" stamped, printed, or written on each card.

(3) A document, record, chart, or listing shall be prepared indicating the punches recorded in the test ballot card. This documentation shall indicate each valid or invalid vote.

(4) In addition to other requirements of the act, a ballot card for use in the test deck for a partisan general election shall be prepared:

(a) So that each political party receives not less than 2 straight ticket votes and so that any 2 parties do not receive the same number of straight ticket votes.

(b) So that 2 or more parties receive straight ticket votes on 1 ballot.

(c) So that at least 1 of the ballots with a straight ticket vote for a party shall be individual punches for candidates of the same party, candidates of a different party, candidates for the same office of different parties, and nonpartisan candidates and proposals.

(d) In which punches appear in positions other than those used for candidates, proposals, or to indicate straight party voting.

(e) In which a punch does not appear.

(f) In which a punch appears in each position where a candidate or proposal appears on the ballot label.

(5) In addition to other requirements of the act, a ballot card for use in the test deck for a partisan primary shall be prepared:

(a) So that punches appear on the same ballot card for candidates of different political parties, along with candidates for nonpartisan offices and votes for proposals.

(b) So that punches appear on the same ballot card for candidates of 1 or more political party and a punch made in the "party qualification section" of the ballot, and shall include punches for nonpartisan offices and for proposals.

(c) So that more than 1 punch appears in the "party qualification section" of the ballot.

(6) When 2 or more valid punch positions exist in the combination of numbers listed below, each of the valid punch positions shall be punched into 1 or more ballot cards:

(7) A duplicate of the test deck shall be prepared. The duplicate of the test deck may consist of standard data processing cards.

History: 1954 ACS 96, p. 42, Eff. Aug. 8, 1978.

R 168.777 Preliminary accuracy test.

Rule 7. (1) The election commission providing the program or its authorized assistant shall conduct a preliminary accuracy test of the computers and programs for all precincts prior to the accuracy test.

(2) The preliminary accuracy test shall be conducted using the test decks prepared under the direction of the commission. For the purpose of this test, the test deck may be reproduced onto standard data processing cards.

(3) When an errorless count has been made for all precincts, the commission or its authorized assistant providing the program shall do all of the following:

(a) Secure the programs, test decks, and predetermined results in a metal container, which shall be sealed with a metal seal.

(b) Certify that all precincts have been tested using the test deck prepared under the direction of the commission and that the results agree with the predetermined results of the test deck. The certificate shall contain the number of the seal which was used to secure the program.

(c) Deliver programs, test decks, predetermined results, and the certificate to the clerk of the unit of government providing the program.

History: 1954 ACS 98, p. 43, Eff. Aug. 8, 1978.

R 168.778 Accuracy test.

Rule 8. (1) The commission providing the program shall designate a time and place for an accuracy test, which shall be held not less than 5 days before the election.

(2) The accuracy test shall be conducted by an accuracy board, which shall be the election commission supplying the program. A member of the commission may designate a person to serve in his or her place on the accuracy board. A member of the commission who so designates a person to serve at the accuracy test shall notify the clerk before the test. The clerk of the commission or the designated representative of the clerk shall be chairperson.

(3) Members of the accuracy board shall be present at the accuracy test.

(4) The clerk in charge of the program may limit the number of persons who may be in the computer room and the duration of their stay in the computer room.

(5) The initial testing of the computers and programs shall be with the test deck prepared under the direction of the commission. The number of precincts to be tested shall be determined by the accuracy board. The members of the accuracy board may prepare or cause to have prepared additional ballot cards to be included in the test deck.

(6) Each program and test deck shall be tested on the computer on which it is to be used for the election.

(7) After demonstrating the accuracy of the programs and computers, the following persons may prepare test ballot cards for testing:

(a) A member of a board of canvassers which shall certify all or part of the election or a designated representative.

(b) The county chairperson of each political party appearing on the ballot or a designated representative.

(c) A candidate whose name appears on the ballot or a designated representative.

(d) A representative from each group interested in a proposal or measure who has informed the commission in writing of that person's intent to participate in the testing procedure. The number of cards each eligible person is allowed to prepare shall be determined by the accuracy board, except that an eligible person shall not be limited to less than 10 cards.

(8) The commission supplying the program shall provide the following items at the accuracy test:

(a) An edit listing.

(b) Test ballot cards.

(c) At least 1 set of ballot labels or sample ballots for each precinct.

(9) If an error is detected in the testing, the cause shall be ascertained, the error shall be corrected, and an errorless count shall be made for all precincts. If determined by the accuracy board, the meeting may be adjourned to a time and date certain.

(10) The secretary of state or a designated representative may provide a test deck for a program. If so, it shall be delivered at the accuracy test. At the discretion of the secretary of state, it may be used in place of, or in addition to, the test deck prepared by the commission.

(11) The accuracy board shall certify the accuracy of the test. The certification may be attached to, or written on, the computer results of the accuracy test.

(12) The accuracy board shall secure all programs, test decks, certified computer results of the test, and the predetermined results in a metal container, which shall be sealed with a metal seal in a manner so that the container cannot be opened without breaking the seal. Attached to or inside the container shall be a certificate describing its contents and on which the number of the seal has been recorded. The certificate shall be signed by the members of the accuracy board and, if attached to the container in a plastic envelope, it shall be attached in such a manner that it cannot be removed without breaking the seal.

(13) The accuracy board shall immediately deliver to the clerk in charge of the election the metal case containing the programs and test decks. The clerk shall retain and secure the programs.

History: 1954 ACS 96, p. 44, Eff. Aug. 8, 1978.

R 168.779 Preparation and delivery of election supplies.

Rule 9. (1) The clerk of the unit of government providing the voting devices or an authorized assistant shall place into a transfer case the ballot cards for each precinct. The transfer case shall be secured with a metal seal and contain a certificate signed by the clerk or an authorized assistant setting forth the number of ballots in the case and that the ballots were counted and sealed by the clerk or by an authorized assistant. Ballot cards not issued to a precinct or assigned for absentee voting shall be secured and accounted for by the clerk. The clerk shall maintain a record of the number of ballot cards and serial numbers issued to each precinct. The ballot cards shall be delivered to the chairperson or a member of the board of inspectors of the proper precinct.

(2) Precinct supplies shall include the following items:

(a) An edit listing for the precinct.

(b) A pencil for each voting device.

(c) A set of instructions for operating the precinct on election day.

(d) An envelope labeled "SPOILED BALLOT CARDS".

(e) An envelope labeled "ORIGINAL BALLOT CARDS FOR WHICH DUPLICATES HAVE BEEN MADE FOR ANY REASON" if the duplication is to be done at the precinct.

(3) If the precinct header card is sent to the precinct, it shall be contained in an envelope for that purpose and included in the transfer case for the precinct.

(4) The voting devices, demonstration voting devices, voting booths, ballot cards, ballot envelopes, transfer case, and all other necessary supplies shall be delivered to the precinct not later than 6:30 a.m. on election day.

(5) A ballot box shall be provided to each precinct for the deposit of voted ballot cards. The ballot box shall be capable of being locked or sealed during election day.

History: 1954 ACS 96, p. 45, Eff. Aug. 8, 1978.

R 168.780 Election inspectors; duties prior to opening of polls.

Rule 10. (1) Voting devices shall be used in voting booths or in self-contained voting stations.

(2) If voting devices are used in self-contained voting stations, the stations shall be arranged so that the secrecy of the ballot is not violated.

(3) The election inspectors shall do all of the following:

(a) Compare the seal number and identifying numbers on the devices with the numbers recorded in the poll book.

(b) Compare the names, proposals, and ballot position numbers printed on the ballot labels, edit listing, and precinct instruction ballot to ascertain that the offices, proposals, and candidate names are the same and appear in the same order on each.

(c) Verify that the ballot label pages are in the proper order.

(d) Check the mask to see that holes only appear directly opposite each arrow and that the arrow points directly to the hole opposite it.

(e) Place a demonstration card into each device and make a punch for each candidate and proposal on the ballot. The inspector shall examine the card to see that each candidate and proposition received a proper punch.

(f) Verify that there is a pencil provided for each device.

(g) Check each stylus to see that it is not broken.

(h) Determine that there is adequate lighting.

(4) In the event of a discrepancy, the election inspectors shall notify the clerk immediately and the voting device shall not be used until the discrepancy is resolved.

(5) The demonstration voting device shall be placed so as to afford each voter an opportunity to use it prior to voting.

History: 1954 ACS 96, p. 45, Eff. Aug. 8, 1978.

R 168.781 Conduct of election and manner of voting.

Rule 11. (1) The election inspector having charge of the ballots shall deliver to the voter an official ballot card and envelope. The ballot card number shall be entered onto the application to vote at the time the card is issued. The name of the voter and ballot card number issued shall then be entered into the poll book and the voter number entered upon the application to vote.

(2) Upon being issued a ballot card and envelope, the voter shall enter a voting station and record his or her selections on the ballot card. Before leaving the booth, the voter shall insert the ballot card in the ballot envelope with the detachable stub on the outside and so that any part of the face of the voting portion of the ballot card is not exposed.

(3) The election inspector designated to receive the ballot from the voter shall ascertain by comparing the number on the ballot card with the number recorded on the poll list whether the ballot given to the inspector is the same ballot furnished to the voter. If it is the same ballot, the inspector shall remove the detachable stub and in the presence of the voter, deposit the ballot into the ballot box. If the ballot received is not the same ballot furnished to the voter, the ballot shall not be counted and the voter shall not be permitted to vote at the election. The ballot shall be marked void with the reason therefor and inserted in an envelope and placed in the transfer case. In any event, the ballot shall not be deposited with the valid voted ballots.

(4) If a voter is challenged, the election inspector shall do all of the following:

(a) Record the ballot number appearing on the stub onto the back of the ballot envelope.

(b) Cover the number with a slip of paper so as to conceal the number.

(c) Issue a ballot to the challenged voter who will vote and cast the ballot in the usual manner. If a combination ballot card and write-in ballot is used, the ballot number shall be recorded on the back of the write-in portion of the ballot and covered in the same manner as described in this rule.

(5) It shall not be necessary to identify the ballot of an assisted voter in the same manner as that of a challenged voter.

(6) The election inspectors shall frequently check the seals and ballot label pages of the voting devices to ensure that none have been altered or defaced. If the board finds that the ballot pages of a device have been altered, mutilated, or damaged in such a manner that the board cannot correct them without doing damage to the offices, names and proposals appearing on the pages, the device shall not be used until the condition is corrected. A note of the occurrence shall be made in the remarks section of the poll book.

(7) A ballot card found in a booth or device shall be marked with the words "FOUND IN BOOTH." The card shall be placed in an envelope which shall be placed in the transfer case. A note of the occurrence shall be made in the remarks section of the poll book.

History: 1954 ACS 98, p. 45, Eff. Aug. 8, 1978.

R 168.782 Election inspectors; duties after polls are closed.

Rule 12. (1) The ballot labels and seals of each voting device shall be inspected to ensure that they have not been altered and are intact and that seal numbers agree with the numbers as verified at the opening of the polls. A discrepancy shall be noted in the remarks section of the poll book.

(2) The election inspectors shall open the ballot box and remove the ballots. Prior to removing the ballots from their envelopes, they shall be counted to determine the total number. The inspector shall compare the total number counted with the number of names recorded in the poll book. If the ballots are in excess of the number of voters according to the poll lists and it is impossible to reconcile the number, 1 of the inspectors shall publicly remove as many ballots as shall be equal to the excess. The removed ballots, while still in their envelopes, shall be marked "EXCESS," placed in an envelope, and sealed. The board shall note on the outside of the envelope its contents and place it in the transfer case. A notation of the pertinent facts shall be made in the remarks section of the poll book. If the number of ballots counted is less than the number of voters according to the poll lists, the reason for the discrepancy shall be noted in the remarks section of the poll book. If the inspectors are unable to explain the discrepancy, they shall so state in the remarks section of the poll book. The inspectors' determination shall constitute conclusive and sufficient explanation for purposes of a recount.

(3) At an election where a candidate appears on the ballot, the election inspectors shall identify each ballot card and its corresponding official ballot envelope by utilizing a method of unique identification with each. Combination ballot card and write-in ballots shall be identified in a like manner.

(4) At the discretion of the clerk in charge of the election, the examination of ballot cards for damage, hanging chads, distinguishing marks made by the voter, and for indications of write-in votes may be done at the precinct or at the counting center.

(5) Any distinguished ballot shall be placed in an envelope on which the words "DISTINGUISHED BALLOT" shall appear. The envelope shall be placed in the transfer case. A notation of this occurrence shall be made in the remarks section of the poll book.

(6) When the ballot cards have been processed and checked, the inspectors shall determine that the number of ballot cards which they are submitting to the counting center for tabulation agrees with the number of names recorded on the poll lists less discrepancies for which notations have been made in the poll book. The number of ballot cards which are being submitted for tabulation shall be entered in the appropriate place on the certificate prepared by the election inspectors.

(7) The election inspectors shall prepare a certificate indicating the number of ballot cards issued to the precinct, number of ballot cards issued to voters, number of spoiled ballot cards, and the number of unused ballot cards. The certificate shall be placed in the transfer case or included in the poll book.

(8) The election inspectors shall place into the transfer case for delivery, as directed, all of the following:

(a) Voted ballot cards.

(b) Ballot envelopes used in the election, unless they are placed and sealed in a separate metal container at which time they may be delivered to a place other than the counting center at the direction of the clerk.

(c) An envelope marked "ORIGINAL BALLOT CARDS FOR WHICH DUPLICATES HAVE BEEN MADE FOR ANY REASON" and containing those ballots, if used.

(d) An envelope containing spoiled ballot cards.

(e) Envelopes, with notations and contents, containing any other issued ballot cards which are not to be counted.

(f) A certificate signed by the inspectors indicating the number of ballot cards issued, spoiled, and unused, unless included in the poll book pursuant to subrule (7).

(g) The write-in tally return sheet, unless included in poll book.

(h) Unused ballot cards, unless sealed in a separate container.

(9) The election inspectors shall sign a certificate of election inspectors in the poll book. The certificate shall state all of the following:

(a) The number of voters who voted as shown by the poll list.

(b) That the challenged and disabled voter list is correct.

(c) That prior to opening the polls, each device was examined and found to be sealed with metal seals bearing the same numbers as certified by the election commission.

(d) That the ballot labels were in their proper places and conformed to the instruction ballots.

(e) That the position of candidate names and ballot numbers on the ballot labels was the same and appeared in the same position as indicated on the edit listing.

(f) That at the close of the polls, each device was examined and found to be sealed with the same numbers as verified at the opening of the polls and that the ballot labels were in their correct position.

(g) That the poll lists were compared, that the mistakes found in the lists were corrected, and that the poll lists are corrected and agree with each other or that exceptions are noted in the remarks section of the poll book.

(h) The number of ballot cards submitted for tabulation.

(i) That if the number of ballots being submitted for tabulation does not agree with the number of voters as indicated by the poll list, the discrepancy is noted in the remarks section of the poll book.

(j) That ballot cards have been identified to their corresponding ballot envelopes.

(k) That ballot cards required to be duplicated by the election inspectors have been properly duplicated.

(l) That write-in votes counted at the precinct have been properly recorded, that ballot cards, duplicated cards, and ballot envelopes used in the election have been placed in the transfer case and that the case was securely sealed with an official metal seal in such a manner as to render it impossible to open the case without breaking the seal.

(m) The number of the seal used to seal the transfer case.

(10) The election inspector shall do either of the following:

(a) Place the poll book in the envelope, seal it with a red paper seal, and deliver it with or in the transfer case.

(b) Insert the poll book into the transfer case for delivery.

(11) If the space in 1 transfer case is inadequate, a second transfer case or metal container of a type approved by the board of county canvassers for the storage of ballots shall be used and the sealing and security handled in the same manner as the transfer case.

(12) The transfer case shall be sealed with a metal seal in a manner as to render it impossible to open the case or insert or remove ballots without breaking the seal. Attached to the transfer case by the seal shall be a transfer case identification tag indicating the date of election, the jurisdiction, the precinct, and the number of the metal seal used to seal the case. The seal number shall be recorded in the certificate of election inspectors in the poll book.

(13) The poll book and the transfer case containing the required items shall be delivered by 2 election inspectors to the location designated by the clerk.

History: 1954 ACS 96, p. 46, Eff. Aug. 8, 1978.

R 168.783 Hanging chads.

Rule 13. (1) A ballot card with a hanging chad shall be processed by not less than 2 election inspectors of differing political party preference.

(2) A ballot card with a hanging chad shall be processed as follows:

(a) When a chad is found attached to the card by 1 or 2 corners, the chad shall be removed by the inspector and the ballot card placed with the other ballot cards to be tabulated.

(b) When a chad is found attached to the card by 3 corners, the number not punched shall be circled on the original card. The original ballot card shall then be placed in the envelope for "ORIGINAL BALLOT CARDS FOR WHICH DUPLICATES HAVE BEEN MADE FOR ANY REASON" and the duplicated ballot card, if made, placed with the other ballot cards to be tabulated. A chad hanging by 3 corners may be covered with a piece of correction tape instead of being duplicated. The original ballot card, after being corrected, shall be placed with the other ballot cards to be tabulated.

History: 1954 ACS 96, p. 48, Eff. Aug. 8, 1978.

R 168.784 Processing write-in ballots.

Rule 14. (1) Write-in ballots shall be processed by not less than 2 election inspectors of differing political party preference.

(2) In processing write-in ballots, the election inspectors shall first determine if a voter has recorded a write-in vote on the designated place for write-in votes. A write-in vote placed in any other space shall not be processed further, except that if there are more write-in votes than designated spaces, the voter may place additional write-in votes on the ballot envelope or on the combination ballot card and write-in ballot.

(3) The election inspectors shall next determine if the voter has recorded the following information for a write-in vote:

(a) The name of an office to be voted on at that election.

(b) The name of a candidate for that office.

(c) If a partisan primary, the name of a party appearing on the primary ballot.

(4) Write-in votes which do not state an appropriate office, a candidate's name, or for which the name of a party in a partisan primary is omitted shall not be processed further.

(5) The election inspectors shall next determine if the write-in vote has caused an overvote. A straight party ticket vote and a write-in vote for a partisan office is not an overvote. An individual punch for an office and a write-in for that office shall be considered an overvote, if the total exceeds the number of permitted choices for that office.

(6) Where a write-in vote is determined to meet the qualifications set forth in subrules (2) and (3) and an overvote does not exist, the election inspectors shall enter the candidate's name, the office, and if a partisan primary, the name of the party on the write-in tally return. The ballot card shall be placed with the other ballot cards for tabulation and the envelope containing the write-in vote shall be placed with the other envelopes used in the election.

(7) When a write-in vote is determined to meet the qualifications set forth in subrules (2) and (3) and an overvote exists, the election inspectors shall duplicate the original ballot card, omitting the punches for the office for which the write-in caused an overvote. A duplicate ballot card shall be placed with the original ballot cards to be tabulated. In place of duplication, correction tape may be used to cover up holes for an office for which the write-in caused an overvote. If correction tape is used, the original ballot card after being corrected shall be placed with the other ballot cards to be tabulated. The envelopes containing the write-in shall be placed with the other envelopes used in the election and a write-in shall not be recorded for the office which was overvoted.

(8) In a partisan general election, if the voter has voted a straight party ticket and has voted a write-in vote for a partisan office, the election inspectors shall duplicate the ballot card by omitting the straight party ticket punch and by punching a vote for every candidate of that party except for the office where a write-in vote was made. Correction tape shall not be used for this purpose. An alternate procedure may be used to count write-in votes when a straight ticket has been voted if the alternate system is presented to the secretary of state detailing the procedure and the secretary of state approves the procedure. The procedure shall only be approved for use in the units of government requesting use of the procedure. The secretary of state may rescind approval if at a later date it is determined that the procedure is not affording voters proper protection.

History: 1954 ACS 98, p. 48, Eff. Aug. 8, 1978.

R 168.785 Duplication of ballot cards.

Rule 15. (1) When a ballot card is duplicated, the duplication process shall be performed by not less than 2 election inspectors of differing political party preference.

(2) A duplicate ballot card shall be marked "DUPLICATE # _____." The number to be recorded on the duplicate card shall be the same identifying number recorded on the original card by the precinct inspector. The precinct number shall be recorded on the duplicate card.

(3) A duplicate ballot card shall be compared against the original ballot card to ensure that it has been accurately duplicated.

(4) An original ballot card which required duplication shall be placed in the envelope marked "ORIGINAL BALLOT CARDS FOR WHICH DUPLICATES HAVE BEEN MADE FOR ANY REASON" and shall be placed in the transfer case for that precinct. The duplicated ballot cards shall be placed with the ballot cards to be tabulated.

History: 1954 ACS 96, p. 49, Eff. Aug. 8, 1978.

R 168.786 Absentee ballots; issuance, processing, and tabulation.

Rule 16. (1) In a community in which electronic voting devices are used and absentee votes are cast on regular paper ballots, the absentee ballots shall be counted by absent voter counting boards as paper ballots.

(2) In a community in which electronic voting devices are used and absentee votes are cast on absent voter ballot cards, the absentee ballots may be sent to the proper precinct to be tabulated with the precinct ballot cards or to an absent voter counting board to be processed and tabulated as separate precincts.

(3) In a community using voting machines, absentee votes may be cast on absent voter ballot cards. The absentee ballots shall be sent to absent voter counting boards to be processed and tabulated as separate precincts.

(4) If the voter is to vote by means of an absent voter ballot card, the clerk shall prepare and issue an absent voter ballot packet consisting of the following:

(a) Absent voter ballot card.

(b) Punching tool.

(c) Absent voter instruction ballot.

(d) Ballot envelope for the voter to insert the voted portion of the ballot card after voting.

(e) Return envelope as required in section 761 of the act.

(f) A copy of section 758 of the act.

(g) Absent voting instructions prescribed by the secretary of state.

(5) If absent voter ballot cards are used and the voter fails to return a ballot card envelope, the inspectors shall place the ballot card into a ballot envelope in a manner as to preserve the secrecy of the ballot.

(6) If absent voter counting boards are used, certifications which are not relevant to the operation of an absent voter counting board may be omitted from the certificate of election inspectors in the poll book.

History: 1954 ACS 96, p. 49, Eff. Aug. 8, 1978.

R 168.787 Delegate to county convention.

Rule 17. (1) When 1 or more cities or townships uses electronic voting devices, the board of county election commissioners may provide for the election of delegates to the county convention by means of electronic voting devices.

(2) In communities using electronic voting devices, when the names of candidates for the office of delegate have been printed on the ballot label, the following shall apply:

(a) The precinct inspectors and, when applicable, the absent voter counting board inspectors shall certify and forward the counting center certifying board the write-in votes received for the office of delegate to the county convention, the party for which each vote was cast, the registration status, and street address of each write-in for delegate.

(b) The clerk in charge of the election shall provide to the certifying board the street addresses of those candidates for delegates whose names are printed on the ballot label and, upon request, the registration status of a candidate receiving write-in votes for the office of delegate to the county convention.

(c) The counting center certifying board shall certify the election of delegates to the county convention from the computer results and the write-in certifications. The members of the counting center certifying board shall be deemed to be precinct inspectors of the various election precincts for this purpose.

(3) In communities using electronic voting devices and when the names of delegates have been printed on the ballot labels and absent voters vote for delegates by absent voter ballot card, the absent voter ballot cards may be sent for processing to absent voter counting boards. Absent voter ballots shall be processed and counted as follows:

(a) Absent voter ballot cards shall be identified as to precinct.

(b) Absent voter counting boards shall process the ballots by precinct.

(c) Absent voter counting boards shall maintain and certify a separate poll list for each precinct which shall be transported to the counting center.

(d) The ballot cards shall be transported to the counting center in sealed transfer cases in the same manner proved for precinct ballot cards. A transfer case may contain the absent voter ballot cards for more than 1 precinct.

(e) At the counting center, the absent voter ballot cards of a precinct shall be placed with the ballot cards of its corresponding precinct and shall be tabulated and certified together.

(f) The absent voter precinct poll book shall be attached and become part of the precinct poll book.

(g) The transfer case containing the ballot cards may be delivered to the counting center by 2 inspectors appointed by the clerk.

History: 1954 ACS 98, p. 50, Eff. Aug. 8, 1978.

R 168.788 Receiving station.

Rule 18. (1) At the option of the clerk in charge of the election, a transfer case may be delivered by the precinct inspectors to a receiving station instead of directly to the counting center. If a receiving station is used, the clerk shall appoint at least 1 receiving board.

(2) The clerk in charge of the election shall determine the number of precincts which may be received by a receiving station.

(3) Upon receipt of the transfer case from the precinct inspectors, the receiving board shall verify that the seal number on the transfer case is the same as that recorded by the election inspectors. The case shall then be opened and the receiving board shall determine whether it contains the ballot cards and other required items. A discrepancy in the seal number or contents shall be noted and explained in the poll book by the precinct inspectors delivering the transfer case.

(4) The receiving board shall issue a receipt for the transfer case to the election inspectors delivering the case. The receipt shall indicate in general terms the contents of the transfer case and be made in duplicate. The original copy shall be given to the inspectors delivering the transfer case and the duplicate retained for delivery to the clerk in charge of the election.

(5) The receiving board shall place the metal seal with which the case was originally sealed inside the transfer case and reseal the transfer case with an official metal seal. The number of the seal used to reseal the transfer case shall be recorded on the transfer case identification tag and the receiving station certificate portion of the poll book.

(6) The transfer case upon resealing shall contain the items required by these rules. Resealing shall be done in a manner as to render it impossible to open the case or remove or insert ballots without breaking the seal. The transfer case identification tag shall be attached to the transfer case by the seal.

(7) The receiving station certificate section of the poll book shall read substantially as follows:

RECEIVING STATION CERTIFICATE

We hereby certify that the transfer case, properly sealed, containing ballots for this precinct was received by the receiving board. The seal number agreed with the number recorded in the poll book.

We further certify that after examining the transfer case as to the contents, the original seal was placed inside the transfer case. The transfer case was then resealed with seal number _____.

(8) The receiving board shall complete and sign the certificate.

(9) Not less than 2 election inspectors of differing political party preference shall transport the transfer cases to the counting center.

History: 1954 ACS 96, p. 50, Eff. Aug. 8, 1978.

R 168.789 Counting center election inspectors; appointment.

Rule 19. (1) If a counting center is used, the election commission of a local unit of government using that counting center shall appoint not less than 1 receiving board and 1 certifying board.

(2) If the county owns the devices and supplies the program, and when more than 1 local unit of government shares a computer center and a mutual agreement exists with the county as provided in R 168.772(10), the county election commission shall appoint not less than 1 receiving board and 1 certifying board. In this case, the county clerk shall be in charge of the counting center.

(3) An election commission may appoint a separate board for the purpose of examining, processing, and duplicating ballot cards. The board shall consist of not less than 2 members of differing political party preference.

(4) An election commission in charge of the computer counting center may appoint the same persons to the receiving, certifying, and other boards.

(5) The election commission supplying the program shall appoint a person knowledgeable and capable of operating the computer on which the ballots shall be tabulated. They may, in addition, appoint another person to observe the operation of the computer. These persons shall be considered election officials. When more than 1 local unit of government shares a computer and an agreement has been made with the county as provided in R 168.772(10), the election commission of the county shall make the appointments.

(6) The person who operates the computer used for tabulation of ballots shall not be the same person who prepared the computer program. This shall not preclude the clerk or the clerk's authorized assistant who prepares precinct control cards for use with a specialized computer from operating the computer.

(7) A member of a board of canvassers which certifies all or part of the election shall not serve on any board established under this rule.

History: 1954 ACS 96, p. 51, Eff. Aug. 8, 1978.

R 168.790 Counting center; receiving, tabulating, and certifying ballots.

Rule 20. (1) The certifying board shall determine that the seal number on the container containing the programs, official test deck, and predetermined results agree with those recorded in the certificate of the accuracy board.

(2) The certifying board shall test the program and computer as to accuracy prior to the tabulation of ballots and again after the last precinct has been counted,

and shall certify the results. The accuracy test shall be conducted using the official test deck prepared under the direction of the election commission and certified by the accuracy board. The certifying board shall use the same test as was conducted by the accuracy board. The certifying board shall ascertain that their results agree with the results as certified by the accuracy board. The computer results of the certifying board accuracy test shall be identified as to date and time they were conducted. The certifying board shall certify that the required tests have been performed. This certificate shall be placed under seal with the program, test deck results, and other required materials and shall be delivered to the clerk in charge of the election.

(3) The certifying board may periodically during the tabulation of ballots test the program and computer, using the official test deck.

(4) A console log of the ballot tabulation shall be maintained and, at the completion of the count and accuracy test, certified by the computer operator and any observer appointed by the election commission. The console log shall be delivered to the clerk in charge of the election. If the computer used to tabulate the ballots is not capable of generating a console log, then a manual log of any abnormal events shall be maintained.

(5) Upon receipt of the transfer case from the inspectors, the receiving board shall verify that the seal number on the transfer case is the same as that recorded by the election inspectors. The case shall then be opened and the computer center receiving board shall determine whether it contains ballot cards and other required items. A discrepancy in the seal number or contents shall be noted and explained in the remarks section of the poll book by the election inspectors delivering the transfer case.

(6) The computer center receiving board shall issue a receipt for the transfer case to the election inspectors delivering the case. The receipt shall indicate in general terms the contents of the transfer case and shall be made in duplicate. The original copy shall be given to the inspectors delivering the transfer case and the duplicate retained for delivery to the clerk in charge of the election.

(7) The computer center receiving board shall place the metal seal with which the case was sealed inside the transfer case. The receiving board shall complete the certificate in the poll book, which shall read substantially as follows:

RECEIVING BOARD CERTIFICATE

> We hereby certify that the transfer case, properly sealed, containing the ballot cards for this precinct was received by the counting center receiving board. The seal number agreed with the number recorded on the transfer case identification tag and in the poll book.

(8) The clerk in charge of the election, the designated representatives of the clerk, the observer appointed by the election commission, computer personnel, data processing installation employees, authorized challengers, and the certifying board shall be allowed in the immediate area of the computer. The immediate area of the computer shall be defined by the clerk, but the clerk shall provide the public with a means of observing the computer.

(9) The clerk in charge of the election or the designated representative of the clerk shall be present in the computer room until the count is completed and all items required to be sealed have been sealed.

(10) The certifying board shall determine if the number of ballot cards tabulated by the computer agrees with the number of ballot cards submitted by the inspectors as indicated by the poll book. If a discrepancy exists, the board

shall endeavor to correct it. If the discrepancy cannot be resolved, a notation of the pertinent facts shall be made in the remarks section of the poll book.

(11) The certifying board shall complete and certify a statement of returns in duplicate. The certificate of the statement of returns shall read substantially as follows:

STATEMENT OF RETURNS CERTIFICATE

We hereby certify that this is a statement of votes cast in this precinct as indicated by the tabulating equipment and that upon completion of the count, all ballots were placed in the transfer case, and that the case was sealed with seal number _____, and that the seal number was recorded in the poll book.

(12) Precinct inspectors may serve as members of the certifying board at the discretion of the clerk in charge of the election.

(13) Upon the completion of the count of a precinct, the ballot cards shall be returned to the transfer case. The transfer case shall be sealed with a metal seal in a manner as to render it impossible to open the case or insert or remove ballots without breaking the seal. If the transfer case is identified as to political unit and precinct, the transfer case identification tag shall be placed in the transfer case. If not, the transfer case identification tag shall be attached to the transfer case by means of a seal.

(14) The seal number used to seal the transfer case shall be recorded on the certificate in the poll book and on the statement of returns.

(15) The precinct statement of returns and poll books shall be delivered to the persons authorized by statute to receive them. If permitted by the clerk of the board of canvassers, precinct statements of returns from 1 or more precincts and poll books may be included in a single envelope or package.

(16) The secretary of state or the clerk in charge of the counting center may require that a manual count of 1 or more offices or proposals in a precinct be conducted by the certifying board prior to certification of the computer tabulated results for that precinct. If the manual count and the computer tabulated results do not agree, the certifying board shall not certify the results until the discrepancy has been reconciled.

(17) After the last precinct has been counted and the final accuracy test has been conducted, the certifying board shall secure all programs, test decks, certified results of accuracy tests, and other related material in a metal container, which shall be sealed with a flat metal seal in a manner so that the container cannot be opened without breaking the seal. Attached to the container shall be a certificate describing the contents and on which the number of the seal has been recorded. The certificate shall be signed by the members of the certifying board.

(18) The clerk in charge of the election shall secure the container containing the programs, test deck, accuracy test results, and other related materials, and the original edit listing until 30 days following the certification of the election if a recount has not been requested or until a date prescribed by the secretary of state.

(19) Ballots used at an election may be destroyed after 30 days following the final determination of the board of canvassers with respect to the election, unless their destruction has been stayed by an order of a court or the secretary of state. Ballots shall not be released for examination, review, or research unless prior approval is obtained by the board of state canvassers.

R 168.791 Challengers at counting center.

Rule 21. Challengers designated pursuant to section 730 of the act may be at the counting center and a receiving station, including 1 challenger for each separate receiving, ballot inspection, duplicating, and certifying board and for each computer being used to tabulate the ballots.

History: 1954 ACS 98, p. 53, Eff. Aug. 8, 1978.

R 168.792 Canvass.

Rule 22. (1) A board of canvassers may, for reasonable cause, require the person who prepared the program to appear before the board, to bring documents pertinent to the program, and to answer questions relevant to the program.

(2) A board of canvassers may, for reasonable cause, require the person having the custody of the program to appear with the program before the board. A board of canvassers may conduct a test to determine the accuracy of the program.

(3) After testing, if it is found that the program which was used to tabulate the ballots produced incorrect returns, a board of canvassers may require the person who prepared and supplied the program to correct the portions of the program found to be in error and submit to it a corrected program to be used to retabulate the ballots. In that event, an accuracy test shall be held under the direction of the board of canvassers at which time the corrected program shall be tested and certified as provided in these rules. The ballots of the precincts shall be retabulated using the corrected program in the same manner as prescribed in R 168.790. A board of canvassers may summon the certifying board which originally certified the returns to retabulate the ballots and make correct returns. The board of canvassers shall canvass the votes from the corrected returns.

(4) When an examination of documents or programs is completed or the ballots have been counted or retabulated, they shall be returned to the transfer case or containers and shall be sealed and delivered to their legal custodian. The number of the seal shall be recorded on a certificate to be filed with the clerk of the board of canvassers.

(5) When an election of a local unit of government is held at the same time as a county or state election and is to be certified by a local board of canvassers, that board shall not proceed under this rule until obtaining approval from the board of county canvassers.

History: 1954 ACS 98, p. 53, Eff. Aug. 8, 1978.

R 168.793 Recount.

Rule 23. (1) In a recount of a precinct using an electronic voting system, rules promulgated by the board of state canvassers for use in recounts shall apply except where superseded by these rules.

(2) The ballots of a precinct shall be recountable unless any of the following conditions occur:

(a) The seal on the transfer case is broken or bears a different number than that recorded on the poll book, the breaking or discrepancy is unexplained, and security has not been preserved.

(b) The number of ballot cards and the number of voters shown on the poll list do not conform, and the difference cannot be explained to the satisfaction of the board of canvassers conducting the recount.

(c) The seal used to seal the ballot label assembly to a voting device in the precinct is broken or bears a different number than recorded, and the ballot labels or rotation of candidate names is different than that shown by the other devices in the precinct and records of the election commission.

(3) If a board of canvassers determines that the ballots of a precinct are not recountable, the original return of the votes for that precinct shall be taken as correct.

(4) A board of canvassers may conduct a recount by:

(a) A manual tally of ballot cards.

(b) A tabulation of the ballot cards on a computer using a program designated specifically to count only the offices or proposals being recounted.

(c) A tabulation of the ballot cards on a computer using the same program used on election day.

(d) A combination of subrule (4)(a), (b), and (c).

(5) If a computer is used in a recount, a board of canvassers shall test the program by use of a test deck to determine that the program accurately counts the votes for the offices or proposals being recounted.

BOARD OF STATE CANVASSERS

CONDUCT OF ELECTION RECOUNTS

R 168.861—R 168.890 Rescinded.

History: 1954 ACS 9, pp. 5-10, Eff. Feb. 14, 1957; rescinded 1954 ACS 35, p. 9, Eff. Aug. 14, 1963.

CONDUCT OF ELECTION RECOUNTS

(By authority conferred on the board of state canvassers by section 889 of Act No. 116 of the Public Acts of 1954, being §168.889 of the Michigan Compiled Laws)

R 168.901 Enforcement of rules; decisions subject to appeal.

Rule 1. The rules and regulations prescribed herein shall be enforced by the board of state canvassers and its representatives to insure the fair, impartial, and uniform conduct of recounts. Decisions of the boards of county canvassers, under these rules and regulations, applicable statutes and court decisions, shall be subject to appeal to the board of state canvassers, as hereinafter set forth.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.902 Security arrangements.

Rule 2. Upon the filing of a petition for recount, the board of state canvassers will make arrangements with the state police to provide for security of all ballots, ballot boxes and voting machines used in the election precincts to be recounted until the recount is completed and the results thereof certified by the board of state canvassers. All such ballots, ballot boxes, their keys, voting machines and the keys thereto shall remain in the possession of the city or township clerks charged by law with the custody thereof until requisitioned by the boards of county canvassers as hereinafter provided.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.903 Time and place of recount.

Rule 3. The board of state canvassers will publicly announce the time and place for the recount of votes cast in each county affected by such petition for recount. The boards of county canvassers shall arrange for the delivery of the ballots, ballot boxes, ballot box keys, poll lists, tally sheets, statements of returns and such other documents and reports including registration cards as the boards

of county canvassers may deem necessary, at the time and place designated for the recount by the board of state canvassers. Voting machines and the keys thereto shall remain in the possession of the officials charged with the security and custody thereof, as above provided.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.904 Review of rules, regulations, and arrangements prior to recount.

Rule 4. Prior to commencement of the recount, the board of state canvassers or its representatives and the board of county canvassers or its representatives shall meet for the purpose of reviewing these rules and regulations and the arrangements made or to be made by the board of county canvassers for the proper conduct of the recount as herein provided.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.905 Meeting between state board and county board.

Rule 5. At the time and place designated for the commencement of the recount in each county, the board of county canvassers therefor shall meet with the board of state canvassers or its representatives for the purpose of commencing the recount.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.906 Court reporter or stenographer.

Rule 6. The boards of county canvassers shall provide a court reporter or a competent stenographer who shall be present at all times during the recount and who shall make a stenographic record of the proceeding as hereinafter provided.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.906a Order of counting precincts.

Rule 6a. Paper ballot precincts within a county shall be counted first unless otherwise specifically provided by the board of state canvassers. Precincts shall be counted in the order which will result in the most expeditious conduct of the recount without regard for who requested the counting of a particular precinct.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

VOTING MACHINES

R 168.907 Persons present at recount; procedure.

Rule 7. (1) Representatives of the board of county canvassers and of the board of state canvassers together with 1 recount clerk, 2 tally clerks and a court reporter or competent stenographer as above provided, and not more than 2 representatives and an attorney of each candidate for the office or offices the votes for which are being recounted and of each of the petitioners in the case of a recount of a proposition shall be present during the opening and recount of each such voting machine. Prior to the opening of the counter compartment of any of the automatic machines or the unsealing of the rear door on any of the Shoup machines used in a precinct, a representative of the board of county canvassers shall dictate for the record, any part of which may be on forms prepared by the board of state canvassers, the following:

(a) The precinct in which the voting machines were used.
(b) Any unusual conditions relative to any of the voting machines.
(c) The identification numbers on each voting machine.
(d) The seal number on each of the voting machines.

(e) The condition of the seal on each of the voting machines.

(f) The numbers recorded on the public and protective counters of each voting machine.

(2) Such representative shall also dictate for the record the entries contained in the poll book and inspectors' return sheets relative to the number of voters who voted in the precinct, the identification numbers on the various voting machines, the number shown on the respective protective counters prior to the opening of the polls, the readings on the various public and protective counters upon the close of the polls, and the number on the various seals used to seal the voting machines.

(3) A representative of any interested party or of the board of state canvassers shall have the right to dictate into the stenographic record any objection, proposed correction, or addition to such information.

History: 1954 ACS 35, p. 10, Eff. Aug. 14, 1963.

R 168.908 Machine not to be recounted; conditions.

Rule 8. If a voting machine is not locked and sealed in such manner as to render it impossible to vote on the machine or to otherwise change the totals appearing on the individual candidate or proposition counters, or if the seal contains a number other than the number recorded by the inspectors on their returns, that voting machine shall not be recounted and the original return of the inspectors of election for that machine shall be taken as correct.

History: 1954 ACS 35, p. 11, Eff. Aug. 14, 1963.

R 168.909 Machine not to be recounted; additional condition.

Rule 9. If the number appearing on the protective counter of a machine at the time of the recount does not equal the total of:

(a) The number appearing on the protective counter at the opening of the polls as shown by the certificate of election inspectors, and

(b) The number appearing on the public counter at the close of the polls, as shown on the certificate of election inspectors, the voting machine shall not be recounted and the original return of the inspectors of election shall be taken as correct.

History: 1954 ACS 35, p. 11, Eff. Aug. 14, 1963.

R 168.909a Machine not to be recounted; additional condition.

Rule 9a. If the sum of the numbers appearing on the public counters of all machines used in a precinct is in excess of the total of:

(a) The number of voters who voted in the precinct as shown by the poll book, and

(b) The number of times the machine was operated by the inspectors and custodians, as shown by the record of the election inspectors, the returns for that precinct as made by the election inspectors shall be deemed correct and no machines shall be recounted in that precinct.

History: 1954 ACS 35, p. 11, Eff. Aug. 14, 1963.

R 168.910 Opening or unsealing machine subject to recount.

Rule 10. If 1 or more voting machines in a precinct is subject to recount, these voting machines shall be opened and if necessary unsealed. A representative of the board of county canvassers shall enter into the record the name and position of the person opening or unsealing the machines, a description of any unusual conditions relating to any of the machines and a description of their contents. The

recount clerk shall read and announce in a distinct voice the name and number, if any, of each candidate for the office involved in the recount and the number of votes shown on the individual candidate counters for each candidate, and shall, in like manner, read and announce the vote on each proposition involved in the recount. The votes so called shall be recorded simultaneously by the 2 tally clerks on proper forms provided for that purpose and shall then be called back from the tally sheets by one of the tally clerks and verified on the voting machine by the other tally clerk. The count as shown by the inspectors' returns shall be used for those machines not subject to recount.

History: 1954 ACS 35, p. 11, Eff. Aug. 14, 1963.

R 168.911 Recounting absent voters' ballots.

Rule 11. (1) Absent voters' ballots shall be recounted in the manner hereafter described for counting paper ballots.

(2) Absent voters' ballots in original sealed envelopes shall be counted as the same should have been voted if the recount board determines they are eligible for voting.

(3) Absent voters' ballots which have been voted shall be recounted to determine whether the ballots were validly marked.

(4) Validly marked ballots found not to have been voted shall be counted as the same should have been voted.

(5) Invalidly marked ballots found to have been voted shall be rejected.

(6) Appropriate additions and deductions shall be made to or from the precinct count.

(7) Unless clearly shown to the contrary, the presumption of regularity of action by precinct inspectors shall obtain. To determine facts required for decision of issues under this rule, precinct inspectors may, if necessary, be called and sworn to give evidence.

(8) In communities using absent voter counting precincts, absent voter ballots shall be recounted as provided in the rules for paper ballots.

History: 1954 ACS 35, p. 11, Eff. Aug. 14, 1963.

R 168.912 Opportunity to observe reading of counters.

Rule 12. The representatives of each interested party shall be afforded an opportunity to observe the reading of the individual candidates or proposition counters and each absent voters' ballot, if any, as the votes are called and to make such notations on their private records as they may desire.

History: 1954 ACS 35, p. 12, Eff. Aug. 14, 1963.

R 168.913 Record of recount proceedings.

Rule 13. All proceedings taken in the recount of any voting machines shall be recorded as above provided by the stenographer provided by the board of county canvassers. Representatives of all interested parties shall be afforded an opportunity to make a full and complete stenographic record of any challenges or objections to the proceedings. Upon request of the board of state canvassers, such record shall be transcribed and a copy furnished to the board of state canvassers at the cost of the county. Upon request by any other party, the cost of transcription shall be borne by the party requesting the transcription. Cost of copies of the transcription shall be borne by the recipients.

History: 1954 ACS 35, p. 12, Eff. Aug. 14, 1963.

R 168.914 Challenges or objections to recount of voting machines.

Rule 14. (1) Upon completion of the recount of all voting machines in a precinct, all challenges or objections shall be presented to the board of county canvassers for its decision. Upon request by the board of county canvassers, the stenographic record of such challenges or objections shall be read to the board of county canvassers. Representatives of each interested party shall be afforded an opportunity to submit authorities and argument to the board of county canvassers for and against such challenges or objections and to make a full and complete stenographic record thereof, including the decision of the board of county canvassers and its grounds therefor. Nothing herein contained shall limit the right of the board of county canvassers to examine any voting machine against the recount of which challenges or objections have been made. Any interested party who considers himself aggrieved by the decision of the board of county canvassers may at the time the decision is rendered appeal such decision to the representatives of the board of state canvassers in the same manner as hereinabove provided for presenting challenges or objections to the recount of voting machines to the board of county canvassers.

(2) The decisions of the board of county canvassers may be confirmed, set aside, or modified by the representative of the board of state canvassers.

(3) At the conclusion of the recount in the several counties, the board of state canvassers shall notify each interested party that such county recounts have been completed. Such notice shall be by registered mail, return receipt demanded at the address furnished to the secretary of state by the interested parties.

(4) The decisions of the representatives of the board of state canvassers may be confirmed, set aside, or modified by the board of state canvassers upon review by written petition therefor setting forth the grounds in detail by any interested party or upon its own motion. Such petition shall be filed with the board of state canvassers not later than 5 days after the mailing of the notice above provided for, Saturdays, Sundays and legal holidays excluded.

PAPER BALLOTS

R 168.915 Providing tables, recount clerks, and tally clerks.

Rule 15. The boards of county canvassers shall provide 1 table where all ballot boxes in each county shall be opened in the manner hereinafter provided and as many other tables as shall be necessary to efficiently recount the ballots in the manner hereinafter provided. The boards of county canvassers shall also provide 1 recount clerk and 2 tally clerks for duty at each such table whenever a ballot box is opened or ballots are recounted.

History: 1954 ACS 35, p. 12, Eff. Aug. 14, 1963.

R 168.916 Candidate and petitioner representatives; powers.

Rule 16. Each candidate for the office or offices the votes for which are being recounted and each of the petitioners in the case of a recount of a proposition shall be entitled to have not to exceed 2 representatives present at each table where ballot boxes are being opened or ballots recounted, and they shall be afforded an opportunity to observe the opening of ballot boxes and each ballot as the votes are called and to make such notations on their private records as they may desire.

History: 1954 ACS 35, p. 13, Eff. Aug. 14, 1963.

R 168.917 Board of county canvassers and of state canvasser representatives; duties.

Rule 17. (1) A representative of the board of county canvassers and of the board of state canvassers shall be present during the opening of such ballot boxes. A representative of the board of county canvassers shall dictate for the record, any part of which may be on forms provided by the board of state canvassers, the following:

(a) The precinct being recounted.

(b) Any unusual conditions relative to the ballot box.

(c) The manner in which the ballot box is sealed.

(d) Its seal number.

(e) The condition of the seal.

(f) The name and official position of the person who unseals and opens the ballot box.

(g) A description of any ballot package or roll of ballots which is, may be, or is claimed to be involved in the recount. The description shall include a description of the manner in which the ballot packages or rolls are wrapped, tied, sealed, and endorsed. If ballot bags are used in lieu of packages or rolls, the description shall set forth the manner in which the bag is sealed and the number on the seal.

(2) Such representative shall also dictate for the record the entries contained in the poll book and statement book relative to the number of voters who voted at the election and the seal numbers with which ballot boxes and ballot bags, if used, were sealed. A representative of any interested party or of the board of state canvassers shall have the right to dictate into the stenographic record, any objection, proposed correction, or addition to such information.

History: 1954 ACS 35, p. 13, Eff. Aug. 14, 1963.

R 168.918 Recounting ballots where ballot box locked and sealed.

Rule 18. If the ballot box is locked and sealed in such manner as to render it impossible to open it without breaking such seal, and if the ballots therein contained are properly wrapped, tied, and sealed, the ballots shall be recounted; but if the ballots are not properly wrapped, tied, and sealed or if the seal, tape, or wrapper shall have been loosened or broken, such ballots shall be recounted only if they correspond in number with the poll list delivered to the county clerk.

History: 1954 ACS 35, p. 13, Eff. Aug. 14, 1963.

R 168.919 Recounting ballots where ballot box not locked and sealed.

Rule 19. If the ballot box is not locked and sealed in such manner as to render it impossible to open it without breaking such seal, the ballots therein contained shall be recounted if they are properly wrapped, tied, and sealed in such manner as to render it impossible to open such package or roll or remove any of the contents thereof without breaking said seal, but only if they correspond in number with the poll list delivered to the county clerk.

History: 1954 ACS 35, p. 13, Eff. Aug. 14, 1963.

R 168.920 Recount where ballots in ballot box must correspond in number with poll book; procedure.

Rule 20. If ballots in a ballot box must correspond in number with the poll book as above provided before they may be recounted, such ballots shall be returned to their ballot box and assigned to a recount table for a physical count. The recount clerk shall remove such ballots from their wrappers, place them face down upon the recount table, and count the number of ballots. If there are the

proper number of ballots, such ballots shall be recounted in the manner hereinafter provided; if such ballots do not correspond in number with the poll book as above provided, such ballots shall not be recounted and the recount clerk shall report such fact to the representative of the board of county canvassers at the ballot box opening table for instructions as to the disposition of said ballots. With reference to such precinct, the original return of the inspectors of election shall stand.

History: 1954 ACS 35, p. 13, Eff. Aug. 14, 1963.

R 168.921 Recount where correspondence in number between ballot box and poll list not required; procedure.

Rule 21. If any ballots are subject to recount regardless of their corresponding in number with the poll list, such ballots shall be returned to their ballot box and assigned to a table for recount. The recount clerk shall remove such ballots from their wrappers, place them face down upon the recount table, and count the number of ballots. If the number of ballots is equal to or less than the number of ballots issued on election day, as shown by the poll list, such ballots shall be recounted in the manner hereinafter provided. If the number of ballots is in excess of the number of ballots issued on election day, as shown by the poll list, the ballots shall be turned face up and so many blank ballots or ballots upon which there is no attempted vote for the office or offices or for the proposition or propositions being recounted shall first be withdrawn as shall be equal to the excess. If there are not sufficient blank ballots or ballots upon which there is no such attempted vote to equal such excess, the remaining ballots shall be shuffled and mixed and replaced in the ballot box and the recount clerk shall then draw out so many ballots therefrom as shall be equal to the excess remaining. All such ballots withdrawn shall be publicly destroyed by the recount clerk and the remaining ballots shall be recounted in the manner hereinafter provided. Such ballots shall be laid aside but not destroyed in case a recount of another office or proposition involving the same ballots is being conducted or is pending.

History: 1954 ACS 35, p. 14, Eff. Aug. 14, 1963.

R 168.922 Recounting ballots; procedure.

Rule 22. The ballots shall be placed face up on the recount table and, where applicable, separated by the recount clerk in piles of straight ballots, split ballots and special proposition ballots. Where applicable, the recount clerk shall take each pile of ballots separately and count the straight ballots first. The total straights for each candidate shall then be entered in the proper place on the tally sheet. The split and mixed votes for each office involved in the recount shall then be tallied. When votes are called, they shall be recorded simultaneously by the 2 tally clerks on proper forms provided for that purpose. Votes for and against each proposition involved in the recount shall be separated into piles and then counted. The counting shall be done at least twice and by different people. The whole number of votes cast for each candidate and for and against each proposition shall be recorded.

History: 1954 ACS 35, p. 14, Eff. Aug. 14, 1963.

R 168.923 Rules governing recounting of votes.

Rule 23. The following rules shall govern the recounting of votes:

(a) Where it is clearly evident from an examination of any ballot that the same has been mutilated for the purpose of distinguishing it or that there has been placed thereon some mark, printing, or writing for the purpose of distinguishing

it, then such ballot shall be void and shall not be counted. The following criteria must be met to find a mark or mutilation to be distinguishing:

(i) It must be clearly evident.

(ii) That the mark or mutilation was placed on the ballot by the voter.

(iii) For the purpose of distinguishing it.

(b) A cross, the intersection of which shall be within or on the line of the proper circle or square, shall be valid. Crosses otherwise located on the ballot shall be void;

(c) Marks other than crosses used to designate the intention of the voter shall not be counted;

(d) A cross shall be valid even though 1 or both lines thereof shall be duplicated, provided that the lines intersect within or on the line of the square or circle;

(e) Two lines meeting within or on the line of the square or circle, although not crossing each other, shall be deemed to be a valid cross where it is apparent that the voter intended to make a cross. This provision shall not be construed as validating so-called "check marks";

(f) A failure to properly mark a ballot as to 1 or more candidates shall not of itself invalidate the entire ballot if the same has been properly marked as to other candidates unless such improper marking shall constitute a distinguishing mark as herein defined;

(g) Erasures and corrections on a ballot made by the elector in a manner frequently used for such purpose shall not be deemed distinguishing marks or mutilations;

(h) Any ballot or part of a ballot from which it is impossible to determine the elector's choice of candidate shall be void as to the candidate or candidates thereby affected;

(i) Any votes cast for a deceased candidate shall be void and not counted;

(j) All ballots cast which are not counted shall be marked by the inspector "not counted," kept separate from the others by being tied or held in 1 package, and placed in the ballot box with the counted ballots; and

(k) No vote shall be counted for any candidate unless a cross has been placed by the voter in the circle at the head of the party ticket, if any, on which the name of the candidate has been printed, written or placed or unless a cross has been placed by the voter in the square before the space in which the name of the candidate has been printed, written or placed.

History: 1954 ACS 35, p. 14, Eff. Aug. 14, 1963.

R 168.924 Determining how ballot recounted; rules.

Rule 24. The following rules as set forth in §168.737 of the Michigan Compiled Laws, as amended, together with applicable court decisions, shall be followed in determining how a ballot shall be recounted.

(a) If the elector makes a cross (x) in the circle under the name of his party at the head of the ballot and does nothing further, he has voted a straight ticket.

(b) Where only 1 candidate is to be elected to an office, to vote for a candidate not on his party ticket, the elector should make a cross (x) in the circle under the name of his party, and also make a cross (x) in the square before the name of the candidate for whom he desires to vote on the other ticket. In such case, it shall not be necessary to cross off the name of the candidate on his party ticket. If the elector votes for more than 1 candidate for the same office where only 1 candidate is to be elected to said office, said ballot shall not be counted for either of such candidates, but shall be as to them null and void.

(c) When 2 or more candidates are to be elected to the same or like office, such as coroners, to vote for a candidate or candidates not on his party ticket for such office, the elector should mark a cross (x) in the circle under his party name, and mark a cross (x) in the square before the name or names of the candidate or candidates for whom he desires to vote on the other ticket or tickets, and also cross off an equal number of names of the candidates for such office on his party ticket; but if such elector shall not have crossed off the names of an equal number of candidates for such office on his party ticket, he shall be deemed to have crossed off the name of each candidate for such office which is printed on his party ballot opposite the name of the candidate on some other party ticket in front of which name he has made a cross (x);

(d) To vote for a candidate not on any ticket, the elector should write or place the name of such candidate on his ticket opposite the name of the office and make a cross (x) in the circle under the party name;

(e) A ticket marked with a cross (x) in a circle under a party name shall be deemed a vote for each of the candidates named in such party column whose name is not crossed off, except those candidates where a cross (x) is placed in the square before the name of some opposing candidate on another ticket, or where there is written or pasted on the party ticket a name which is not printed on any party ticket;

(f) If the name of any person who is not a candidate on any ticket is written or placed on the party ticket opposite the name of the office and there is a cross (x) in the circle under the party name, the name so written or placed shall be counted 1 vote for such person, whether the original name on the party ticket is erased or not, excepting cases where there is a cross (x) in the square before the name of some opposite candidate on some other party ticket;

(g) If no cross (x) is placed in the circle under the party name, a cross (x) in the square before the name of any candidate shall be deemed a vote for such candidate except in cases where the elector votes for more candidates for the same office than are to be elected; and

(h) Such elector shall indicate his preference on any constitutional amendment or other submitted question by making a cross (x) in the square opposite the word "Yes" or in the square opposite the word "No" opposite or below such question on the proper ballots.

History: 1954 ACS 35, p. 15, Eff. Aug. 14, 1963.

R 168.925 Ballots counted or rejected for recount under protest.

Rule 25. (1) Any ballot counted or rejected for recount by the recount clerk under protest made by any interested party's representative shall be identified by a numbered exhibit card stapled to the challenged ballot. Upon completion of the recount of all ballots in a precinct, all challenged ballots shall be presented to the board of county canvassers for its decision. Representatives of each interested party shall be afforded an opportunity to submit authorities and argument to the board of county canvassers for counting or rejecting each such challenged ballot and to make a full and complete stenographic record thereof, including the decision of the board of county canvassers and its grounds therefor. Any interested party who considers himself aggrieved by the decision of the board of county canvassers may at the time the decision is rendered appeal such decision to the representatives of the board of state canvassers in the same manner as hereinabove provided for presenting challenged ballots to the board of county canvassers.

(2) The decisions of the board of county canvassers may be confirmed, set aside, or modified by the representative of the board of state canvassers.

(3) At the conclusion of the recount in the several counties, the board of state canvassers shall notify each interested party that such county recounts have been completed. Such notice shall be by registered mail, return receipt demanded at the address furnished to the secretary of state by the interested parties.

(4) The decisions of the representatives of the board of state canvassers may be confirmed, set aside, or modified by the board of state canvassers upon review by written petition therefor, setting forth the grounds in detail by any interested party or upon its own motion. Such petition shall be filed with the board of state canvassers not later than 5 days after the mailing of the notice above provided for, Saturdays, Sundays, and legal holidays excluded.

(5) Challenged ballots shall not be disposed of as provided in R 168.929, but shall be placed in envelopes provided by the board of county canvassers for that purpose. The contents of such envelopes shall be identified as required on forms provided by the board of state canvassers. Such envelopes shall be sealed with a state election seal, initialed by at least 2 members of the board of county canvassers and delivered to the county clerk for safekeeping.

History: 1954 ACS 35, p. 16, Eff. Aug. 14, 1963.

R 168.925a Ballot bags used in lieu of ballot packages; references; tags.

Rule 25a. Where ballot bags are used in lieu of ballot packages, all references to ballot packages shall be deemed to include ballot bags, except that references to seals shall be to metal rather than paper seals.

History: 1954 ACS 35, p. 16, Eff. Aug. 14, 1963.

GENERAL PROVISIONS

R 168.925b Withdrawal of petition; discontinuance of recount.

Rule 25b. (1) If the person petitioning for a recount shall withdraw his petition or discontinue the recount before the completion of the recount of the precincts for which he petitioned, then in such event the original return shall be deemed to be correct regardless of any change shown by the recount of the precincts he or the counter petitioner petitioned to be recounted. In the event of such withdrawal by the petitioner, it shall not be necessary for the counter petitioner to withdraw or ask for a discontinuance.

(2) If the counter petitioner for a recount shall withdraw his petition or discontinue the recount of the precincts he petitioned to have recounted, then the original returns for all precincts for which he requested a recount shall be deemed to be correct regardless of any changes shown by the recount at the time of the withdrawal. A counter petitioner shall not be permitted to withdraw if all precincts for which he petitioned have been recounted. In the event that a counter petitioner withdraws, the recount as to the precincts petitioned for by the original petitioner shall continue until the completion thereof or until such time as he withdraws.

(3) All withdrawals must be in writing signed by the petitioning party.

History: 1954 ACS 35, p. 16, Eff. Aug. 14, 1963.

R 168.926 Candidate and petitioner representatives; identification.

Rule 26. Each candidate for the office or offices the votes for which are being recounted and each of the petitioners in case of a recount of a proposition shall be entitled to have present at the recount not to exceed 1 representative for every table at which ballot boxes are being opened or ballots recounted, and for every voting machine which is being recounted and not to exceed 1 watcher and tallier

at each such table and voting machine provided for in R 168.907 and R 168.916 hereof. Every such representative shall be furnished written identification by the candidate he represents, or the candidate's political party, or by the proponents or opponents of a proposition whom he represents.

History: 1954 ACS 35, p. 16, Eff. Aug. 14, 1963.

R 168.927 Public observance of recounts.

Rule 27. Provision shall be made for public observance of the conduct of recounts, but the public shall not be allowed within the confines of the actual working area, nor shall vocal or other disturbance of the recount staff by the public be permitted.

History: 1954 ACS 35, p. 17, Eff. Aug. 14, 1963.

R 168.928 Designated representative of board of state canvassers.

Rule 28. The board of state canvassers may designate 1 or more representatives in each county to supervise in its behalf the conduct of recounts, as above set forth. In those counties designated by the board of state canvassers, at least 1 such representative shall be on duty at all times and the decisions of the representative on duty shall prevail. In those counties so designated by the board of state canvassers, at least 2 representatives shall be on duty at all times and any 2 representatives concurring shall have the power to make decisions. In any such county designated by the board of state canvassers, such representatives shall be divided into teams of 3 representatives each, 1 such team to be on duty at all times and a majority decision of the team shall prevail.

History: 1954 ACS 35, p. 17, Eff. Aug. 14, 1963.

R 168.929 Completion of recount; procedure.

Rule 29. Upon completion of the recount of any precinct, all ballots shall be properly wrapped by the recount clerk with a statement of the number and kind of ballots included in each such package, and placed in the voting machine or ballot box. The ballot boxes and voting machines shall then be properly locked and the ballot boxes sealed with a state seal to be supplied by the board of state canvassers and delivered, together with the lock keys, to the respective officers having the care and custody thereof.

History: 1954 ACS 35, p. 17, Eff. Aug. 14, 1963.

R 168.930 Certificate of recount results.

Rule 30. The results of the recount for each county shall then be entered upon a certificate provided for that purpose by the board of state canvassers, signed by the board of county canvassers and representative of the board of state canvassers. The county clerk shall certify that the persons signing the certificate as members of the board of county canvassers are such members of that county. The certificate shall then be forthwith delivered to the board of state canvassers at Lansing, Michigan, which shall then compile said returns from each county and certify the result.

History: 1954 ACS 35, p. 17, Eff. Aug. 14, 1963.

CAMPAIGN FINANCING

(By authority conferred on the secretary of state by section 15 of Act No. 388 of the Public Acts of 1976, being §169.215 of the Michigan Compiled Laws)

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

PART 1. GENERAL PROVISIONS

R 169.1 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 388 of the Public Acts of 1976, being §169.201 et seq. of the Michigan Compiled Laws.

(b) "Address" means building number, street or rural route, city, state, and zip code.

(c) "Campaign" or "candidate's campaign" means the candidate committee's activities for a specific election.

(d) "Official depository" means a bank, savings and loan association, or credit union, chartered by the state or the United States, and located and doing business in Michigan.

(e) "Value," "ascertainable monetary value," "anything of value," "thing of value," or "cash equivalent" means the amount usually received in the open market for goods and services.

(2) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 91, p. 8, Eff. May 3, 1977.

R 169.2 Secretary of state and county clerk; duties and requirements.

Rule 2. (1) The duties and requirements imposed upon the secretary of state by the act and these rules may be performed by an agent, and at a place, designated by the secretary of state.

(2) The duties and requirements imposed upon a county clerk by the act and these rules may be performed by an agent, and at a place, designated by the county clerk.

History: 1954 ACS 91, p. 8, Eff. May 3, 1977.

R 169.3 Statements, reports, amendments, or applications; form; attachments; entries; signature; inspection and copying.

Rule 3. (1) A statement, report, amendment, or application required to be filed by the act shall be filed in duplicate on a form prescribed or approved previously by the secretary of state. An attachment to a form shall not be on a page differing in size from the form prescribed, unless approved previously by the filing official.

(2) An entry on a statement, report, amendment, or application shall be printed legibly or typed.

(3) A person filing a statement or report required by the act shall complete each item of information requested, or note clearly the item of information is not applicable to the filer.

(4) Committee statements and reports shall be signed by the treasurer of the committee and, if a candidate committee, also by the candidate, on the line indicated following the verification statement. A person other than a committee required to file by the act shall sign a document on the line indicated following the verification statement.

(5) Inspection and copying of statements and reports shall take place only at the office of the filing official.

(6) A filing official shall prepare and post a list of general guidelines and rules with respect to the inspection and copying of documents, and shall post a schedule of charges for copies.

History: 1954 ACS 91, p. 8, Eff. May 3, 1977.

R 169.4 Reports or statements; late filing fee; date of filing.

Rule 4. (1) If a report or statement is filed after the filing date and is not accompanied by a late filing fee, the report or statement shall be received and considered filed as of that date. The filer shall be given a written notice of the amount of the late filing fee due and unpaid. If payment of the late filing fee is not made within 30 days of the date of the written notice, the filing official shall notify immediately the Michigan department of treasury of the failure to pay so the latter may collect the late filing fee.

(2) A late filing fee shall be forwarded to the state treasurer for deposit to the credit of the general fund of the state.

(3) If a committee is required to file a report or statement with the secretary of state and a county clerk, the filing shall not be complete until the report or statement has been received by both filing officials. The date of filing shall be the date the filing is completed.

(4) If a committee is required to file a report or statement with more than 1 filing official, the late filing fee shall apply for each day until the filing is completed. The late filing fee shall not apply separately for each part of the required filing.

History: 1954 ACS 91, p. 9, Eff. May 3, 1977.

R 169.5 Reports or statements; nonreceipt; list; requests for information; telephone inquiries.

Rule 5. (1) A filing official, within 5 days following a filing date required by the act, shall prepare a list of persons whose required reports or statements have not been received. This list shall be available for public inspection and copying. Prior to completion of the list, inquiries relative to the receipt of filings shall be submitted only in writing or in person.

(2) Upon receipt of any inquiry requesting information relative to the contents of any report or statement filed with a filing official, the filing official shall inform the person requesting information that:

(a) The report or statement is available for inspection or copying at the office of the filing official.

(b) A copy of any page of the report or statement requested may be obtained by payment of the applicable copying charge.

(c) A request for a copy of a report or statement shall not be honored until receipt by the filing official of the applicable copying charge.

(3) A telephone inquiry relative to a substantive matter in a filed report or statement shall not be answered. A telephone inquiry by a filer or an agent of the filer, relative to a report or statement of the filer, shall be answered.

History: 1954 ACS 91, p. 9, Eff. May 3, 1977.

R 169.6 Declaratory rulings.

Rule 6. (1) The secretary of state, on written request of an interested person, may issue a declaratory ruling as to the applicability of the act or these rules to an actual statement of facts. An interested person is a person whose course of action would be affected by the declaratory ruling. A brief or other reference to legal authorities, upon which the person relies for determination of the applicability of the act or of a rule to the statement of facts, may be submitted with the request.

(2) If the secretary of state decides to issue a declaratory ruling, the person requesting it shall be furnished with a statement to that effect. The statement shall set forth the time in which the ruling shall be issued.

(3) The secretary of state may refuse to issue a declaratory ruling if the request is anonymous, or it is determined the subject matter is frivolous on its face, indefinite, or lacks specificity. If the secretary of state refuses to issue a declaratory ruling, the person making the request, if known, shall be notified of the reason for the refusal.

(4) A ruling shall include the statement of facts, the legal authority, if any, and the rationale on which the secretary of state relies for the ruling, and the determination.

History: 1954 ACS 91, p. 9, Eff. May 3, 1977.

PART 2. COMMITTEES

R 169.21 Committee treasurer; appointment.

Rule 21. A committee shall appoint a treasurer before filing a statement of organization.

History: 1954 ACS 91, p. 9, Eff. May 3, 1977.

R 169.22 Committee treasurer; vacancy.

Rule 22. A vacancy in the office of committee treasurer is created by death, resignation, or removal from office by the appointing authority.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.23 Statement of organization; date filed.

Rule 23. A statement of organization on a prescribed form, received by a filing officer prior to the effective date of the act, shall be considered filed on the effective date of the act.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.24 Statement of organization; designation of committee name.

Rule 24. A statement of organization, filed by a committee which is commonly known by initials only, shall state the full name of the committee. Thereafter, filing of reports and amendments may designate the name of the committee by initials only.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.25 Statement of organization; receipt; acknowledgement; identifying symbol.

Rule 25. Upon receipt of a statement of organization, the filing official shall assign an identifying symbol to the filing committee, acknowledge receipt of the filing, and notify the committee of the identifying symbol. The identifying symbol shall be entered by the committee on each page of subsequent statements or reports filed and on communications concerning statements or reports.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.26 Statement of organization; changes, corrections, or amendments.

Rule 26. A change, correction, or amendment to a statement of organization shall identify the paragraph containing the information to be changed, corrected, or amended.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.27 Statement of organization; committee supporting candidates for state and federal office.

Rule 27. A committee supporting a candidate for federal office and a candidate for office in this state shall file a statement of organization for the committee of the candidate for office in this state.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.28 Dissolution statement.

Rule 28. (1) A committee which determines it will no longer receive contributions or make expenditures shall file a dissolution statement on a form prescribed by the secretary of state.

(2) A dissolution statement shall consist of a campaign statement that covers the period from the closing date of the last report filed to the date of dissolution, and shall include a statement as to the disposition of residual funds.

(3) A committee may not file a dissolution statement or report if it has assets or outstanding debts.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

PART 3. REPORTS, CONTRIBUTIONS, AND EXPENDITURES

R 169.31 Recording and reporting contributions from same donor.

Rule 31. A committee treasurer shall record and report each contribution from the same donor under the identical name used to record the original contribution.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.32 Reporting unpaid debts.

Rule 32. Unpaid debts of a committee shall be reported until paid or discharged.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.33 Expenditure; notation on receipt or cancelled check.

Rule 33. A receipt or cancelled check, or a copy thereof, which is used to vouch for an expenditure, shall have a notation on or attached thereto stating the purpose of the expenditure.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.34 In-kind contributions.

Rule 34. (1) The value of an in-kind contribution is the amount which could usually be received in the open market for goods and services. The value of an in-kind contribution, which is loaned or permitted to be used, is the fair market rental value of the item or services. A committee which is charged less than the fair market value or fair rental value of an item or services shall report the difference between the amount charged and the fair market value or fair rental value as an in-kind contribution.

(2) An in-kind contribution shall be declared as an expenditure at the same amount as the value assigned to it as a contribution. It shall be reported on the appropriate expenditure schedule and identified as an in-kind contribution. An in-kind contribution received during a reporting period shall be reported as an expenditure during the same reporting period.

History: 1954 ACS 91, p. 10, Eff. May 3, 1977.

R 169.35 Contribution; corporate check.

Rule 35. A candidate committee treasurer shall not accept as a contribution a check written on a corporate account, except as provided in sections 54 and 55 of the act.

History: 1954 ACS 91, p. 11, Eff. May 3, 1977.

R 169.36 Printed material or other campaign media; identification or disclaimer; exemptions.

Rule 36. (1) Printed material relating to a candidate shall bear the identification or disclaimer, or both, provided in section 47 of the act in a place and in a print clearly visible to and readable by an observer. Any other medium used for campaign purposes shall clearly and unequivocally include the identification or disclaimer, or both, provided in section 47 of the act.

(2) Buttons, balloons, and similar campaign items, the size of which makes it unreasonable to add an identification or disclaimer, or both, are exempted from this rule.

History: 1954 ACS 91, p. 11, Eff. May 3, 1977.

R 169.37 Cash or cash equivalents on hand following election; reporting.

Rule 37. A committee which has filed with its statement of organization a sworn statement as provided in section 24(4) of the act and which, following an election, has cash or cash equivalents on hand shall, for the next ensuing election, report the same as "cash on hand at beginning of accounting period." The "cash on hand at beginning of accounting period" shall be a part of the aggregate receipts for the next ensuing election, but need not be further itemized.

History: 1954 ACS 91, p. 11, Eff. May 3, 1977.

R 169.38 Petty cash fund.

Rule 38. (1) A committee treasurer may establish a petty cash fund.

(2) A petty cash fund shall be established only from funds withdrawn from a committee account. It shall not be used for payment of salaries or wages.

(3) A person making payments from a petty cash fund shall maintain records of the amount and purpose of each expenditure, and deliver them to the committee treasurer.

History: 1954 ACS 91, p. 11, Eff. May 3, 1977.

R 169.39 Officeholder's expense fund.

Rule 39. (1) An elected officeholder shall indicate on the statement of organization, or on an amendment thereto, filed by the officeholder's candidate committee, the existence of an officeholder's expense fund or whether establishment of one is contemplated.

(2) Money given specifically to an officeholder's expense fund shall be designated for that purpose by the donor.

(3) Money received by an officeholder's expense fund shall be kept in a depository account separate from the candidate committee's funds.

(4) The treasurer of an officeholder's expense fund shall keep records of all receipts to, and disbursements from, the fund for a period of 1 year longer than the officeholder's term of office.

(5) Receipts to, and disbursements from, the officeholder's expense fund shall be reported pursuant to the provisions of the act.

(6) The officeholder's expense fund report shall be signed by the treasurer of the fund and by the officeholder on the lines indicated following the verification statement.

(7) The officeholder's expense fund report shall be filed with the filing official designated by the act to receive the officeholder's candidate committee campaign statements.

(8) Money may be transferred from the candidate committee of an elected public official to the officeholder expense fund of that public official in accordance with the provisions of the act.

History: 1954 ACS 91, p. 11, Eff. May 3, 1977.

PART 4. STATE CAMPAIGN FUND

R 169.41 State campaign fund; reservation of funds.

Rule 41. On or before January 1 of each year in which an election for governor is held, the state treasurer shall:

(a) Reserve 3% of the funds available in the state campaign fund to make necessary adjustments required by formulas set forth in sections 65(2), 65(3), 65(4), and 65(5) of the act.

(b) Reserve the maximum amount that each candidate for governor of a major political party is entitled to receive for the general election.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.42 State campaign fund; payments to candidates.

Rule 42. The state treasurer, beginning on January 1 of each year in which an election for governor is held, shall make payment immediately from the state campaign fund to eligible candidates on the basis of candidate applications which have been approved by the secretary of state and forwarded to the state treasurer.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.43 Public funding of elections; qualifying contributions.

Rule 43. Qualifying contributions for public funding of the primary or general elections may be obtained from April 1 of the year preceding the year in which a governor is elected until December 31 of the year in which a governor is elected, or until the candidate committee files a dissolution statement, whichever occurs first.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

PART 5. COMPLAINTS AND INVESTIGATIONS

R 169.51 Complaint generally.

Rule 51. A person who believes a violation of the act or these rules has occurred may file a written complaint in person or by mail with the secretary of state.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.52 Complaint; form and contents.

Rule 52. (1) A complaint shall be typewritten or handwritten in ink. The complainant's name, address, and telephone number shall be typewritten or handprinted upon the complaint. A complaint shall include the following verification statement: "I certify that the statements set forth above are true to the best of my knowledge and belief." A complaint shall be signed by the complainant immediately following the verification statement.

(2) A complaint shall name the alleged violator, set forth the alleged violator's address, describe in reasonable detail the alleged violation, and identify all available evidentiary material.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.53 Complaint; dismissal.

Rule 53. If, upon reading the complaint, the secretary of state determines a complaint is frivolous, illegible, indefinite, or unsigned, or does not identify an alleged violator, allege a violation of the act or these rules, or contain a verification statement, the secretary of state may summarily dismiss the complaint without prejudice. If a complaint is summarily dismissed, the complainant shall be notified in writing as to the reason the complaint was dismissed.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.54 Complaint; indication to person against whom allegation made.

Rule 54. If a complaint is not summarily dismissed, or if the secretary of state, upon examination of a report filed pursuant to the act, finds there may be reason to believe a violation of the act or these rules has occurred, the secretary of state shall indicate immediately, to the person against whom an allegation is made, the following:

(a) A complaint has been made alleging, or examination of a filed report indicates, possible violation of the act or these rules.

(b) The specifics of the alleged violation.

(c) The identity of the complainant if a complaint has been filed.

(d) The provisions of these rules relative to complaints and investigations.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.55 Preliminary review of alleged violation; dismissal of complaint; notice of informal hearing.

Rule 55. (1) The secretary of state, upon written complaint or examination of a report filed pursuant to the act, may conduct a preliminary review of an alleged violation to determine if there may be reason to believe a violation of the act or these rules has occurred.

(2) If, following a preliminary review, the secretary of state determines there is no reason to believe an allegation is true, the complaint shall be dismissed. The secretary of state shall notify the complainant and the person against whom an allegation has been made of this decision.

(3) If, following a preliminary review, the secretary of state determines there may be reason to believe an allegation is true, the person against whom the allegation is made and the complainant shall be notified that an informal hearing shall be held to determine whether there is reason to believe a violation of the act or these rules has occurred.

(4) The notice shall give the parties involved reasonable time to appear, if they choose to do so. The parties shall be notified of the time and place of the hearing, that they may appear in person or by counsel, and that they may give testimony.

History: 1954 ACS 91, p. 12, Eff. May 3, 1977.

R 169.56 Informal hearing; dismissal of complaint; notice of decision.

Rule 56. (1) If, following the informal hearing, the secretary of state determines there is no reason to believe a violation of the act or these rules has occurred, the complaint shall be dismissed. The parties shall be notified of this decision.

(2) If, following the informal hearing, the secretary of state determines there is reason to believe a violation of the act or these rules has occurred, the secretary of state may notify the attorney general of the decision if the allegation was made as the result of a complaint. If the allegation was made as the result of an examination of a report filed pursuant to the act, the secretary of state shall notify the attorney general of the decision.

(3) If, following the informal hearing, the secretary of state determines not to report the hearing's results to the attorney general, the secretary of state shall notify the parties of this decision.

DEPARTMENT OF TREASURY

REVENUE DIVISION

GENERAL SALES AND USE TAX RULES

(By authority conferred on the department of treasury by Act No. 167 of the Public Acts of 1933, Act No. 94 of the Public Acts of 1937, sections 3 and 13 of Act No. 122 of the Public Acts of 1941, as amended, and sections 9 and 83 of Act No. 380 of the Public Acts of 1965, being §§205.51 et seq., 205.91 et seq., 205.3, 205.13, 16.109, and 16.183 of the Michigan Compiled Laws)

R 205.1 Sales tax licenses.

Rule 1. (1) A Michigan sales tax license shall be obtained by every person selling tangible personal property at retail. (See also R 205.3, R 205.5, R 205.6, and R 205.7) A person shall not engage or continue in a business taxable under the sales tax law without securing a license, regardless of the amount of sales or the manner of obtaining goods for sale. An application for a license before or at the time of beginning business, shall be made to the revenue division of the department of treasury on the form prescribed by the department. All licenses shall be displayed in full view on the licensed premises. Penalties for failure to secure a license or for remaining in business without a valid sales tax license are prescribed by R 205.19.

(2) Every sales tax license expires on June 30 each year and shall be renewed by furnishing such information as the department may require, together with the annual license fee of $1.00. Regardless of the date a license is issued, it expires on the following June 30, and the fee charged for it is the same, even if the license is used only a portion of the year. Persons selling at retail at more than 1 location or place of business shall obtain a license for each location. If a valid license is lost or destroyed, it may be replaced without charge by notifying the department.

(3) A license is not transferable and a new license shall be secured immediately whenever there is a change of ownership of the business. For example, if a partner is added or dropped, or if a corporation is formed or dissolved, this constitutes a change of ownership necessitating application in the name of the new ownership for a sales tax license to sell at retail. If the new owner fails to apply for a license, that person may be subjected to penalty for operating without a valid sales tax license.

(4) The department reserves the right to deny a license to an applicant if the department considers the applicant to be the agent or representative of a principal required to be licensed and responsible for filing the monthly sales tax returns.

(5) Under the following circumstances the department shall require an applicant for a sales tax license to submit a surety bond of not less than $1,000.00, nor more than $25,000.00, payable to the state. At the discretion of the department, a cash bond may be accepted in lieu of the surety bond:

(a) If the applicant, at any previous time, has failed, refused, or neglected to pay a tax, interest, or penalty upon a tax due the state.

(b) If the applicant has ever attempted to evade payment of a tax, interest, or penalty by petition in bankruptcy.

(c) If the applicant is a corporation, and the department has reason to believe the corporation is under the management or control of a person who has failed to pay tax, interest, or penalty upon a tax.

(d) Whenever the department deems it necessary to ensure the collection of the tax.

History: 1944 AC, p. 1314; 1954 AC, p. 901; 1954 ACS 29, p. 5, Eff. Feb. 14, 1962; 1954 ACS 88, p. 37, Eff. Aug. 6, 1976.

R 205.2 Business.

Rule 2. The term "business" includes all activities engaged in by any person or caused to be engaged in by him with the object of gain, benefit or advantage, either direct or indirect.

History: 1944 AC, p. 1314; 1954 AC, p. 901.

R 205.3 Person.

Rule 3. The term "person" includes any individual, firm, co-partnership, joint venture, association, social club, fraternal organization, municipal or private corporation whether organized for profit or not, company, estate, trust, receiver, trustee, syndicate, the United States, the state, a county or any other group or combination acting as a unit, and the plural as well as the singular number, unless the intention to give a more limited meaning is disclosed by the context.

History: 1944 AC, p. 1314; 1954 AC, p. 901; 1954 ACS 78, p. 5, Eff. Mar. 1, 1974.

R 205.4 Imposition of tax.

Rule 4. There shall be collected from all persons engaged in the business of making sales of tangible personal property at retail, an annual tax for the privilege of engaging in such business equal to 4% of the gross proceeds thereof, less deductions allowed by law and indicated in these rules and regulations. (Need to stress records of persons engaged in more than one type of business.) When one and the same person is engaged in both taxable and nontaxable businesses separate books and records must be maintained. In the absence of such separate records entire proceeds from both businesses must be taxed.

History: 1944 AC, p. 1314; 1954 AC, p. 901; 1954 ACS 26, p. 17, Eff. May 15, 1961.

R 205.5 Tangible personal property.

Rule 5. Tangible personal property embraces all goods, wares, merchandise, products and commodities, all tangible things and substances which are dealt in, capable of being possessed and exchanged.

History: 1944 AC, p. 1314; 1954 AC, p. 902.

R 205.6 Retailer.

Rule 6. The term "retailer" includes all persons who sell to the last or final buyer, user or consumer. Manufacturers, jobbers, wholesalers and others are subject to the sales tax, if sales are made by them to the ultimate user or final buyer.

History: 1944 AC, p. 1315; 1954 AC, p. 902.

R 205.7 Sales at retail.

Rule 7. The term "sale at retail" means any transaction by which is transferred for consideration the ownership of tangible personal property, when such transfer is made in the ordinary course of the transferor's business and is made to the transferee for consumption or use, or for any other purpose than for resale in the form of tangible personal property, except as provided in these rules and regulations.

History: 1944 AC, p. 1315; 1954 AC, p. 902.

R 205.8 Consumer.

Rule 8. (1) "Consumer" means the person who shall have purchased tangible personal property for storage, consumption or use.

(2) A "consumer" is further defined as a person who does not purchase goods for sale. The buyer who disposes of goods in any other manner than by resale becomes the final consumer. He is the last person in the chain of transactions to make a purchase. The seller, who is the taxpayer under the sales tax act, is also the consumer for such articles used or consumed in the conduct of his business and sales made to him for his consumption or use are taxable. The fact that a person may be licensed by this department to sell at retail does not in itself exempt sales to such licensee.

History: 1944 AC, p. 1315; 1954 AC, p. 902.

R 205.9 Sales for purposes of resale.

Rule 9. Sales for purposes of resale include sales of tangible personal property not to be consumed or used by the immediate purchaser, but to be resold in the regular course of business by the purchaser; provided that property purchased for resale purposes which is not resold, but is used or consumed by the purchaser, is taxable on the delivered cost to the purchaser who shall remit the tax to the state.

History: 1944 AC, p. 1315; 1954 AC, p. 902.

R 205.10 Gross proceeds.

Rule 10. The term "gross proceeds," "gross sales," or "gross receipts" used herein means the total of all sales made during a given month or period. It means the amount received or to be received in money, credits, subsidies, property or other money's worth in consideration of sales at retail within this state, without any deduction on account of the cost of the property sold, the cost of materials used, the cost of labor or services purchased, amount paid for interest or discounts, taxes paid on beer and liquor at time of purchase, or any other expenses whatsoever, nor shall any deduction be allowed for losses. When credits, property or other money's worth become or becomes all or part of the consideration then the dollar value of such credits, property or other money's worth must be determined and made a part of the seller's records. Such determination is only acceptable for sales tax purposes when the dollar value is not less than the wholesale dollar value of the trade-in at the time of making the previously mentioned retail sale.

History: 1944 AC, p. 1315; 1944 ACS 13, p. 12; 1954 AC, p. 902; 1954 ACS 69, p. 14, Eff. Nov. 1, 1971.

R 205.11 Determination of tax.

Rule 11. (1) Sellers of tangible personal property must determine when sales are made whether the buyer purchases such goods for use or for resale. When sale for resale has been determined, the department rules that the seller must secure the sales tax license number issued to the purchaser and hold such number on file for reference when called upon to furnish proof of exemption from the tax. The securing of sales tax license numbers of purchasers, however, must not lead to the assumption that all sales made to such licensees are to be for resale. For example, coal to retail merchants for heating stores, mops and brooms to restaurants, soap and towels to automobile dealers, etc., are clearly sales for consumption and use and not for resale and are subject to the tax. The liability for payment of tax rests with the seller. Any claim for exemption must be proven by the person claiming exemption. On all sales the final use of the article sold determines the tax liability.

The article itself or the nature of the purchaser's business does not determine whether the sale is taxable or exempt.

(2) Sellers of tangible personal property to "industrial processors" or "agricultural producers" shall determine at the time of sale whether the particular sales are exempt by consulting these rules and regulations (R 205.51 and R 205.90) or by submitting the facts to the department for an opinion. The seller is held responsible for the tax on all taxable sales and therefore he should be very careful in determining which sales are not taxable. It is essential that the seller, the buyer and the department shall know which sales were for "industrial processing" or "agricultural producing" or are otherwise exempt.

(3) The department will not attempt to prescribe the method the seller shall adopt, but he is required to justify deductions under the exemptions granted in the sales tax act. The seller may secure from the buyer a certificate or other evidence that the sales are entitled to exemption, but a certificate of sale shall not relieve the retailer from tax liability should it be established that the sales were taxable.

(4) Retailers frequently will be called upon to define what is taxable and the department requests that in all cases of doubt the questions be submitted to it for clarification.

History: 1944 AC, p. 1315; 1954 AC, p. 903.

R 205.12 Statutory deduction.

Rule 12. (1) The taxpayer is allowed a deduction from the gross proceeds of his sales at a rate of $50.00 for any 1 month. When a business operates less than a full month, the statutory deduction shall be computed at the rate of $1.64 per day. A carry-over of all or part of this statutory deduction for use on a succeeding return is not permissible.

(2) The use tax act does not provide for a statutory deduction to registrants.

History: 1944 AC, p. 1316; 1954 AC, p. 903; 1954 ACS 28, p. 17, Eff. May 15, 1961.

R 205.13 Casual or isolated sales.

Rule 13. (1) Sales at retail shall not include an isolated transaction made other than in the ordinary course of repeated and successive transactions of a like character. Examples: A person sells his household furniture, a farmer sells his farm machinery or other farm equipment, a merchant sells his cash register, counters or other store fixtures at auction or otherwise. Such sales are "casual or isolated transactions" and are not subject to tax. However, any person who in any manner or at any time advertises, solicits or offers tangible personal property for sale for the purpose of repeated sales is deemed to be regularly engaged in business and his sales are not considered casual or isolated, even though they may be few or infrequent.

(2) Vehicles, airplanes, snowmobiles and watercraft acquired in an isolated transaction from a person not a retailer are subject to use tax. The use tax on vehicles, snowmobiles and watercraft shall be paid to the secretary of state prior to the transfer of a vehicle title, snowmobile registration or watercraft registration. The use tax on airplanes shall be paid directly to the department of revenue by the purchaser.

(See R 205.135. Isolated vehicle, aircraft, watercraft, and snowmobile transfers.)

History: 1944 AC, p. 1316; 1954 AC, p. 903; 1954 ACS 29, p. 5, Eff. Feb. 14, 1962; 1954 ACS 42, p. 5, Eff. May 15, 1965; 1954 ACS 78, p. 5, Eff. Mar. 1, 1974.

R 205.14 Tax returns.

Rule 14. (1) The sales and use taxes are a personal obligation of the seller (taxpayer) and are due and payable on or before the fifteenth day of the month

next succeeding the month in which the tax accrued. The commissioner of revenue may require filing of returns on other than a monthly basis. The taxpayer shall make out a tax return for the preceding month on the form required by the department, showing the amount of the tax for which he is liable and mail the return, together with a remittance for the amount of the tax, payable to the state of Michigan, to the address as indicated on the return, on or before the fifteenth day of the month. The return shall be signed by the taxpayer or the duly authorized agent of the taxpayer.

(2) A person engaged in business in 2 or more places, when the business or businesses are taxable, shall file a consolidated return covering all of that person's sales within this state. A person who is obligated to file a consolidated return is entitled to only 1 statutory exemption of $50.00 a month.

History: 1944 AC, p. 1816; 1954 AC, p. 903; 1954 ACS 26, p. 17, Eff. May 15, 1961; 1954 ACS 69, p. 14, Eff. Nov. 1, 1971; 1954 ACS 88, p. 37, Eff. Aug. 6, 1976.

R 205.15 Trade-in deduction.

Rule 15. (1) No deduction from the gross proceeds of a sale is permitted for any credit allowed by the seller for a trade-in taken in exchange or part payment and the tax applies to the full selling price.

(2) The retail sale of used tangible personal property which has been acquired by the seller by purchase is taxable upon the full selling price. When an article acquired by the taxpayer by trade-in is sold, this sale also is taxable on the full selling price.

(3) No deduction for a trade-in may be taken under any circumstances in computing the use tax.

History: 1944 AC, p. 1316; 1954 AC, p. 904; 1954 ACS 78, p. 5, Eff. Mar. 1, 1974.

R 205.16 Returned goods.

Rule 16. (1) Credits or refunds for returned goods, the sales of which have been subject to tax, may be deducted only if the goods are voluntarily returned for full exchange, an entire refund of purchase price, or full credit. When the property is returned within a reasonable time after the date of sale, and the purchase is made whole, a credit may be had on the tax paid on the rescinded sale. The term "returned goods" does not include repossession or recapture of merchandise by legal process, abandonment of contract, voluntary surrender of goods without an entire refund, or full credit being given for the amount paid or for goods accepted in trade or barter.

(2) A rehandling charge by the seller in connection with returned goods is not deemed to be a reduction of the purchase price for refund purposes unless the charge includes cost attributable to use of the returned goods by the purchaser.

History: 1944 AC, p. 1316; 1954 AC, p. 904; 1954 ACS 88, p. 37, Eff. Aug. 6, 1976.

R 205.17 Remittance of tax.

Rule 17. All remittances of sales and use taxes shall be made to the department by bank draft, check, cashier's check, money order, certificate of deposit or money. No remittance other than cash shall be a final discharge of liability for the tax unless and until it has been paid in cash.

History: 1944 AC, p. 1316; 1954 AC, p. 904.

R 205.18 Tax lien and successor liability.

Rule 18. (1) The sales and use tax, interest, penalties and costs that may accrue in addition thereto shall be a lien in favor of the state against all property and

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

rights of property, both real and personal, then owned or afterwards acquired by any person liable therefor. (See R 205.3) The lien attaches to the property from and after the date such tax is due and payable to the state. The lien takes precedence over all other liens and encumbrances except previously recorded bona fide financing.

(2) Officers of a corporation having control, supervision of, or charged with the responsibility of making and paying sales and use tax returns can be held personally liable for any unpaid corporate deficiency. Dissolution of a corporation does not discharge the officers' liability.

(3) If any person liable for tax sells his business or stock of goods or quits the business, he shall make a final return within 15 days after the date of selling or quitting business. His successor or succeeding successors, if any, shall withhold sufficient purchase money to cover the due and unpaid taxes, interest and penalties until the former owner produces a receipt or acknowledgment from the department showing that they have been paid or a certificate stating that no taxes are due. If the purchaser or succeeding purchasers of a business or stock of goods fails to withhold purchase money, he is personally liable for payment of the unpaid taxes, interest and penalties due from the former owner.

History: 1944 AC, p. 1316; 1954 AC, p. 904; 1954 ACS 69, p. 15, Eff. Nov. 1, 1971; 1954 ACS 78, p. 5, Eff. Mar. 1, 1974.

R 205.19 Sales tax penalties and interest.

Rule 19. The following penalties are prescribed by law:

(a) For failure to secure a license or for continuing in business after a license expires or has been suspended: a fine of not more than $1,000.00 or imprisonment for not more than 1 year, or both.

(b) For failure to file a return on time or pay the tax due: 5% of the tax due, plus 5% per month for each additional month or fraction thereof, up to a maximum of 25%, or a penalty of $5.00, whichever amount is greater, plus interest at ¾ of 1% per month.

(c) For failure to file an information return, or an information report, as required by the act: $5.00 per day, up to a maximum of $200.00.

(d) For filing a false or fraudulent return, with an intent to defraud the state, or for aiding or abetting another in the evasion of the tax: a fine of not more than $1,000.00 or imprisonment for not more than 1 year, or both.

(e) For failure to file a correct current return: ¾ of 1% interest per month from the time the tax is due.

(f) For negligence or intentional disregard of the sales tax act or the rules and regulations of the department: ¾ of 1% interest per month, from the time the tax is due, plus 10% of the tax deficiency.

(g) For fraudulent intent to evade the tax: 100% of the tax deficiency, plus interest at 1% per month.

(h) For a person designing to evade the tax by departing from the state or removing property therefrom, for concealing himself or property, or for doing any other act tending to render ineffectual proceedings to collect the tax: jeopardy assessment and warrant.

History: 1944 AC, p. 1317; 1954 AC, p. 904; 1954 ACS 26, p. 17, Eff. May 15, 1961; 1954 ACS 88, p. 38, Eff. Aug. 6, 1976.

R 205.20 General application.

Rule 20. For the convenience of the taxpayer these rules and regulations are indexed, usually with reference to particular lines of business. The taxpayer is responsible for obtaining knowledge of all rules and regulations affecting his liability for tax, in order that the proper amount of tax can be ascertained and paid

to the state. These rules and regulations must be read and interpreted in their entirety rather than merely acquainting yourself with a rule briefly stated pertaining to your particular type of business.

History: 1944 AC, p. 1317; 1954 AC, p. 905; 1954 ACS 26, p. 18, Eff. May 15, 1961.

Editor's note: Former R 205.20 was abrogated by 1954 ACS 26, p. 18. Former R 205.21 was renumbered by 1954 ACS 26, p. 18, to appear as present R 205.20.

R 205.21 Sales tax included in gross sales and collection bracket.

Rule 21. (1) A taxpayer shall include the sales tax as part of the selling price of tangible personal property sold by the taxpayer. The taxpayer is not required to state the tax as a separate item to the consumer, but may not advertise or hold out to the public in any manner, directly or indirectly, that the tax is not considered as an element in the price to the consumer.

(2) The following brackets shall be used by retailers in determining the amount to be added to the sale price for reimbursement purposes:

Sale of	1 cent	to	12 cents	0
Sale of	13 cents	to	31 cents	1 cent
Sale of	32 cents	to	54 cents	2 cents
Sale of	55 cents	to	81 cents	3 cents
Sale of	82 cents	to	$1.08	4 cents
Sale of	$1.09	to	$1.35	5 cents
Sale of	$1.36	to	$1.62	6 cents

On each further addition of 25¢ to the sale price, 1 additional cent may be collected. A person, other than the state, shall not enrich himself from the collection of the sales tax, nor shall use of the bracket system relieve the retailer from having to remit to the state any excess of tax collected.

(3) When the taxpayer's gross proceeds from sales include sales tax collected and when the gross proceeds, including the tax, are entered as gross sales on the tax return, then the taxpayer may deduct from the gross sales the amount of tax included therein, if it is shown as a separate deduction on the taxpayer's return. Only under these conditions, however, may the taxpayer take such a deduction, and then only in the following manner:

(a) Show the total gross sales, including sales tax, opposite item no. 1 on the return.

(b) Subtract from item no. 1 the amount of the nontaxable deductions, excluding the $50.00 statutory exemption, to arrive at the net sales.

(c) Divide the net sales as obtained by 104 to arrive at 1%, then multiply by 4 to obtain the amount of the tax included in the gross sales, which amount shall be shown as a separate deduction on the return and described as "sales tax included in gross sales."

History: 1944 AC, p. 1312; 1954 AC, p. 905; 1954 ACS 26, p. 18, Eff. May 15, 1961; 1954 ACS 42, p. 5, Eff. May 15, 1965; 1954 ACS 88, p. 38, Eff. Aug. 6, 1976.

Editor's note: Former R 205.22 was renumbered by 1954 ACS 26, p. 18, to appear as present R 205.21.

R 205.22 Discounts.

Rule 22. (1) Cash, trade, and quantity discounts to customers are deductible in arriving at the net sale price which is taxable. Such discounts must appear on the invoices, records and accounts of the retailer and be substantiated to the satisfaction of the department.

(2) Trade and quantity discounts are usually known and available to the purchaser at the time of sale, and are deductible immediately on the invoice before determining the tax. A cash discount is usually offered by the seller as an inducement for payment within a specified time and may not be deducted by the

seller until it has been given to the purchaser. Such discounts will be allowed as a deduction on the seller's tax return when there is sufficient evidence in the records of the taxpayer to indicate that such discounts have been the regular policy of the seller and have been given to the purchaser.

History: 1944 AC, p. 1318; 1954 AC, p. 905; 1954 ACS 26, p. 18, Eff. May 15, 1961.
Editor's note: Former R 205.23 was renumbered by 1954 ACS 26, p. 18, to appear as present R 205.22.

R 205.23 Records.

Rule 23. (1) The department, through its field auditors and other employees, may examine the books, records and papers of any person liable for payment of the sales and use taxes. It may issue a subpoena requiring any person to appear for examination and produce any books, records or papers within the scope of the inquiry.

(2) It is the duty of every person engaging in any business subject to the tax to keep and preserve suitable and adequate records of his business to enable such person, as well as the state, to determine the correct amount of the tax for which he is liable.

(3) Failure to produce and keep records for the purpose of examination by the department will be considered willful noncompliance with the sales tax law and subject to its penalties. In the absence of sufficient records the department may determine the amount of tax due the state by using any information available whether obtained at the taxpayer's place of business or from any other sources, and assess the taxpayer for any deficiencies, plus penalties.

(4) Licensees are required to keep complete and accurate daily records of all sales, whether for cash or credit, bartered or traded, irrespective of whether the seller regards the receipts from the sales as taxable or exempt. The taxpayer is also required to keep a complete and accurate record of beginning and ending inventories, purchase records, daily sales records, receipts, invoices, bills of lading and all other pertinent documents pertaining to the business.

(5) If the seller claims sales for exemption on certain sales, it shall be required that he will keep a record of the name and address of the person to whom the sale is made, the date of the sale, the article purchased, the amount of the exemption and the use to be made of the article sold. If exemption is claimed by reason of a sale for resale, the taxpayer shall obtain the sales tax license number of the purchaser.

(6) Records and files shall be kept on the premises of the place of business and maintained in a legible manner. They shall also be kept clean and as much as possible free from deterioration. All invoices, sales slips, bank statements and canceled checks should be kept in chronological order so as to be balanced with the records to which they pertain.

(7) Any person not having his principal place of business in Michigan but maintaining within this state a branch store, warehouse or distributing depot for the sale or distribution of tangible personal property is required to keep complete records showing all sales made within the state. If such records are not located in Michigan, then the seller must defray the additional expense incurred by the state in making an audit at the out-of-state location of the seller. Sellers desiring to follow the latter method must make suitable arrangements with the department.

History: 1944 AC, p. 1318; 1954 AC, p. 906; 1954 ACS 26, p. 18, Eff. May 15, 1961.
Editor's note: Former R 205.24 was renumbered by 1954 ACS 26, p. 18, to appear as present R 205.23.

R 205.24 Taxpayer.

Rule 24. The word "taxpayer" means any person liable for any tax hereunder.

History: 1944 AC, p. 1318; 1954 AC, p. 906; 1954 ACS 26, p. 18, Eff. May 15, 1961.

R 205.25 Tax.

Rule 25. The word "tax" shall include all taxes, interest, or penalties levied under this act.

History: 1944 AC, p. 1318; 1954 AC, p. 906; 1954 ACS 26, p. 18, Eff. May 15, 1961.
Editor's note: Former R 205.26 was renumbered by 1954 ACS 26, p. 18, to appear as present R 205.25.

R 205.26 Use tax registration.

Rule 26. (1) The following activities require a registration under the use tax act:

(a) An out-of-state seller, not registered as a retailer under Act No. 167 of the Public Acts of 1933 (sales tax act), actively soliciting sales of tangible personal property in Michigan. (See section 5 of Act No. 94 of the Public Acts of 1937, as amended.)

(b) A Michigan consumer buying tangible personal property from nonregistered sellers. (See section 6 of Act No. 94 of the Public Acts of 1937, as amended.)

(c) A lessor of tangible personal property when rental receipts are taxable under Act No. 94 of the Public Acts of 1937, as amended. (See R 205.132)

(d) A seller of intrastate communication services. (See R 205.110)

(e) A seller of rental accommodations to the public. (See R 205.88)

(2) An application for a use tax registration shall be obtained from the department of revenue upon a form prescribed by the department. A license fee is not required.

(3) A use tax registration is not transferable from 1 ownership to another. For example: if a partner is added or dropped, or if a corporation is formed or dissolved, this constitutes a change in ownership necessitating an application in the name of the new ownership for another registration.

(4) Registration under the use tax act requires the filing of monthly, quarterly or annual tax returns on forms furnished and pre-identified by the department. Failure to register and file returns can subject the taxpayer to heavy penalties.

History: 1944 AC, p. 1318; 1954 AC, p. 906; 1954 ACS 26, p. 19, Eff. May 15, 1961; 1954 ACS 29, p. 6, Eff. Feb. 14, 1962; 1954 ACS 69, p. 15, Eff. Nov. 1, 1971.
Editor's note: Former R 205.26 was renumbered by 1954 ACS 26, p. 18, to appear as present R 205.25.

R 205.27 Use tax penalties and interest.

Rule 27. The following penalties are prescribed by law:

(a) For failure on the part of a "seller" to register with the department: a fine of $25.00 for each day the failure continues, after the seller has been notified by the department that the seller is required to register under the act. Upon conviction for failure to file a return, or pay the tax due, a seller shall be fined not less than $100.00 nor more than $500.00. If convicted for a second or subsequent offense, the fine shall be not less than $500.00 nor more than $5,000.00.

(b) For failure to file a return on time or to pay a tax due: 5% of the tax due, plus 5% per month for each additional month or fraction thereof, up to a maximum of 25%, or a penalty of $5.00, whichever amount is greater, plus interest at ¾ of 1% per month.

(c) For failure to file an information return, or an information report, as required by the act, within the time specified, $5.00 per day, up to a maximum of $200.00.

(d) For failure to file a correct current return: ¾ of 1% interest per month, from the time the tax is due.

(e) For negligence or intentional disregard of the use tax act or the rules and regulations of the department: ¾ of 1% interest per month, from the time the tax is due, plus 10% of the tax deficiency.

(f) For fraudulent intent to evade the tax: 100% of the tax deficiency, plus interest at 1% per month.

(g) For failure on the part of a "consumer" to pay the full and exact tax required under the act: a fine of not less than $500.00, nor more than $5,000.00, or imprisonment for 1 year, or both.

History: 1954 ACS 26, p. 19, Eff. May 15, 1961; 1954 ACS 68, p. 39, Eff. Aug. 6, 1976.

R 205.28 Use tax included in gross proceeds.

Rule 28. The use tax act requires a seller to collect use tax as a separate item and forbids the including of such charge as part of the sales price. Therefore, a deduction cannot be taken, computed on the "tax in gross" method, and only that portion of the gross proceeds that represents use tax actually collected can be deducted on the monthly return.

History: 1954 ACS 26, p. 20, Eff. May 15, 1961.

SPECIFIC SALES AND USE TAX RULES

R 205.51 Agricultural producing.

Rule 1. (1) For the purpose of this rule, "agricultural producing" means the commercial production, for sale, of crops, livestock, poultry, and other products by persons regularly engaged in business as farmers, nurserymen, or agriculturists.

(2) Sales of tangible personal property are subject to the sales or use tax under this rule, if the sales are to persons other than those specified in subrule (1), or if the sales are made to persons specified in subrule (1), but the property is used or consumed by those persons for a purpose other than the commercial production of agricultural products for sale.

(3) Sales to farmers of fuel, clothing, and all other tangible personal property for personal living or human consumption or use are taxable. Sales of tangible personal property to all persons are taxable when the property is used in producing food or other products for personal consumption and not for sale.

(4) All sales to persons using land, but not included in the definition of "agricultural producing" in subrule (1), are taxable. For example, a mowing machine is taxable when sold to the operator of a riding stable for use in cutting hay to be fed to the operator's riding horses. The sale of the machine is exempt, however, if made to a person regularly engaged in business as a farmer for use in cutting hay to be fed to the farmer's work horses or cattle.

(5) Sales of the following are exempt only when used in "agricultural producing" as defined in subrule (1):

(a) Seeds and other propagative portions of plants.

(b) Fertilizer and similar substances for improving quality of the soil.

(c) Spray materials for insecticides, germicides, and fungicides.

(d) Livestock, poultry, their feeds, and foodstuffs, including salt, bone meal, cod liver oil, limestone, grit, oyster shell, and other similar substances used to sustain animals or poultry.

(e) Sacks, wrappers, and other nonreturnable containers resold with crops; also, binding twine and baling wire.

(f) Machinery, tools, other equipment, repair parts, motor fuel, oil, grease, and other tangible personal property necessary for their operation and maintenance, except that sales of such equipment are taxable under the following circumstances:

(i) If the equipment is to be attached to and becomes a part of real estate.

(ii) If a motor vehicle is used on a public highway and is required by the motor vehicle law to have registration license plates.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-google

(iii) Gasoline, oil, tires, and parts for a motor vehicle specified in paragraph (ii).

(g) Electricity or gas used directly in producing agricultural products. When a separate meter is not installed for recording exempt electrical use, an allocation for exemption may be utilized if the total electrical consumption exceeds 1,500 kwh per month, or 2,500 kwh per month for homes with electric heat during the months of November to March. (See R 205.115)

(6) Sales of all tangible personal property used to improve real estate, or attached to and becoming a structural part of real estate, are taxable. Sales of tangible personal property consumed or used in the construction, alteration, repair, or maintenance of houses, barns, water supply systems, fences, drains, and all other structures and appurtenances forming a part of real estate are taxable. Readily movable equipment, such as portable hog houses and feeding troughs, is not considered a part of real estate and is not taxable if used in commercial agricultural producing. Sales of tangible personal property used in clearing land of trees, stumps, and rocks or used in ditching, tiling, or otherwise improving real estate are taxable.

(7) Sales of seed, fertilizer, equipment, and all other tangible personal property to anyone for use on homes or other noncommercial gardens, lawns, parks, boulevards, and golf courses or for use by landscape gardeners are taxable.

(8) Every person, including farmers, nurserymen, and agriculturists, who sells tangible personal property, other than food at retail, to persons for consumption or use, and not for resale, shall obtain a sales tax license and pay the tax to the state on the entire gross proceeds from those sales. It is immaterial whether the retail sales are made at the place of production, a roadside stand, a market, from a vehicle, or elsewhere.

(9) A retail sale of tangible personal property used for agricultural production may be deducted from gross proceeds before computation of the tax if, at the time of sale, the following certificate is signed by the purchaser:

CERTIFICATE UNDER AGRICULTURAL PRODUCING EXEMPTION

The undersigned hereby certifies that all items, except as indicated hereon, are purchased for use or consumption in connection with the production of horticultural or agricultural products as a business enterprise, and agrees to reimburse the seller the sales tax if used or consumed otherwise.

DATE_____ SIGNED _____
Purchaser

ADDRESS _____

Unlawful use of this certificate subjects persons to the penalties of the sales tax act.

(10) A deduction for sales in agricultural producing shall not be taken from gross sales for agricultural production in the absence of an executed exemption certificate, as specified in subrule (9), covering each deductible sale. A blanket or so-called standing or continuous certificate is not acceptable, except for continuous sales of utilities wherein the taxability for consumption does not change from month to month. More than 1 item upon which a claim for exemption is made may be covered by 1 certificate if all the items are purchased at the time of the given sale. Taxable and nontaxable sales may be listed on the sales invoice, if taxable items are indicated. For example, the letter "T" may be placed before a taxable item.

(11) Separate copies of the certificate may be used by sellers, or the wording may be imprinted or rubber stamped on sales invoices. All language expressed in the certificate shall be used. The date of purchase or address of the purchaser may be made to appear anywhere on the invoices; however, provision for the signature of the purchaser shall follow the wording of the certificate. Selection of the size of type used in the preparation of certificates is discretionary.

(12) A deduction for agricultural producing shall not be considered in the absence of the seller being in possession of executed certificates.

History: 1944 AC, p. 1318; 1954 AC, p. 908; 1954 ACS 69, p. 15, Eff. Nov. 1, 1971; 1954 ACS 88, p. 39, Eff. Aug. 6, 1976; 1954 ACS 100, p. 57, Eff. July 27, 1979.

R 205.52 Antiques, works of art, and artists.

Rule 2. Sales of antiques and works of art are taxable, without deductions for trade-in values or expenses of any kind. If the seller is regularly engaged in the business of selling antiques or works of art, his sales are taxable, regardless of the infrequency of the sales.

History: 1944 AC, p. 1319; 1944 ACS 31, p. 15; 1954 AC, p. 908; 1954 ACS 88, p. 41, Eff. Aug. 6, 1976.

R 205.53 Auctioneers, agents, factors, and brokers.

Rule 3. (1) Auctioneers, agents, factors, brokers, etc., selling tangible personal property on a repeated basis from a fixed location, are retailers regardless of whether the sales are on their own behalf or for a principal.

(2) Where an auctioneer is engaged by a manufacturer, farmer or householder to act as his agent in selling tangible property at the premises of the manufacturer, farmer or householder, the auctioneer will not be liable for sales tax on such sales unless the auctioneer actually purchases the merchandise and then sells the property acquired on his own behalf.

History: 1944 AC, p. 1319; 1954 AC, p. 908; 1954 ACS 28, p. 20, Eff. May 15, 1961.

R 205.54 Automobile and other vehicle dealers.

Rule 4. (1) Sales of new and used automobiles, buses, trucks, tractors, trailers, housetrailers, motorcycles, motor scooters, and other vehicles for consumption or use are subject to the tax on the full original retail sales price without any deductions for federal taxes, freight, handling, delivery, commissions, trade-ins, repossessions, advertising, future free service, or any expense incurred as part of the cost of doing business.

(2) The sales tax shall be paid to the secretary of state at the time application for title is submitted by the dealer. Vehicle transfers between individuals are subject to use tax to be paid to the secretary of state at the time application for title is submitted by the purchaser.

(3) When a vehicle is sold by a dealer the same delivered selling price, together with the amount of sales tax to be paid to the secretary of state, shall be indicated on the invoice, sales order, the statement of Michigan retail sales tax paid (form RD 108), and on the records of the dealer. Authorized discounts are deductible only when given to the purchaser at the time of sale and shown on the invoice, sales order, the statement of sales tax paid (form RD 108), and on the records of the dealer.

(4) The sale of a vehicle for delivery and use outside Michigan is exempt if all the following conditions exist:

(a) The dealer, in order to consummate a sale, must deliver and assume all responsibility for delivery without knowledge that such vehicle will be returned to Michigan except for a temporary use therein.

(b) Title to the vehicle passes to the purchaser at a point outside the state.

(c) A Michigan vehicle title and license are not required.

(d) The dealer's records substantiate each of the 3 preceding facts.

(5) A dealer may claim exemption on the sale of a new or used vehicle when the purchaser will license and title the unit for use in another state. To obtain such an exemption, the purchaser shall qualify for a special registration issued by the secretary of state and appear in person, or by power of attorney, at an office of the secretary of state to attest that he is the bona fide purchaser and that the vehicle is dedicated for use in another state. If the purchaser later returns the vehicle to Michigan for registration, a use tax will apply on the value of the vehicle at that time.

(6) Vehicles which will be used in Michigan for a period of more than 30 days are subject to sales tax irrespective of whether the purchaser may be a legal resident of Michigan or whether the vehicle will be titled in another state except when purchaser is an active nonresident military person, a sworn statement of nonresidency is furnished by his commanding officer and the vehicle is titled and registered by the purchaser in his state of residency or domicile.

(7) When a vehicle that has been sold is returned to the dealer voluntarily by the purchaser and the dealer refunds the full amount of money or other consideration given by the purchaser, the dealer may receive a refund or credit for the amount of sales tax paid to the state, but only by submitting an affidavit in the following form:

APPLICATION

For credit or refund of sales tax paid on motor vehicle which through mistake, defect or nonconformity to order or specification was voluntarily returned within a reasonable time from date of sale for full exchange, refund of total purchase price or full credit.

COUNTY OF _____ }
STATE OF MICHIGAN } ss.

_____ first being duly sworn deposes and says that he was the purchaser of the described motor vehicle and that he voluntarily returned the same to the dealer because _____ and that the contract of purchase was mutually canceled, a complete return made of the purchase consideration, together with a refund of all purchased monies, including the payment of $_____ made to cover the Michigan state tax on the purchase.

(8) Upon the sale of a new or used vehicle, the tax applies to the total amount of the sale and no deduction is allowed for another vehicle taken in trade on such transaction. The total amount of the sale means the amount received in money, credits, property or other money's worth. When credits, property or other money's worth becomes all or part of the consideration, then the dollar value of such credits, property or other money's worth must be determined and made a part of the seller's record. For sales tax purposes the trade in value of a vehicle shall not be less than its wholesale dollar value at the time of trade. The dealer may use, as a guide, the wholesale dollar value as shown in the current issue of any nationally recognized used vehicle guide for financial institution appraisal purposes in Michigan. However, when such traded in vehicle is resold, the sales tax applied to the full amount of the sale of such traded in vehicle and not upon the amount originally allowed for the trade-in.

(9) Each franchised new car dealer shall be allowed a certain number of tax-free demonstrators in accordance with the total number of new cars and trucks sold in a calendar year as follows:

Zero to 25 ..... 2 tax-free demonstrators
26 to 100..... 7 tax-free demonstrators
101 to 500.....20 tax-free demonstrators
501 or more.....25 tax-free demonstrators
(Maximum allowable for each calendar year).

(10) To qualify as a demonstrator the vehicle shall be titled in the name of a dealer upon submission of an affidavit in the following form:

ORIGINAL TO SECRETARY OF STATE
AFFIDAVIT TO LICENSE AND TITLE A DEMONSTRATOR

Notary Public, County, Michigan

(11) Vehicle dealers may also be engaged in the business of leasing vehicles wherein the use tax will apply on rental income. It is not necessary that a dealer have a separate use tax registration to report tax on such rentals unless the ownership of the leasing company is different from that of the dealership. It is required, however, that the rental income be reported in the use tax column of the combined sales and use tax return. Dealers leasing vehicles to salesmen or employees will be required to remit use tax on a base rental figure which cannot be less than their monthly costs of ownership. This would include depreciation, finance charges, insurance charges and any other incidental costs involved in operating the vehicle. (See R 205.132—Rentals.)

(12) The annual surety bond required of each new and used vehicle dealer under the Michigan vehicle code shall provide for indemnification or reimbursement to the state for sales or use tax deficiencies for the year in which the bond was in effect upon the entry of a final judgment in a court of record against the dealer.

History: 1944 AC, p. 1320; 1944 ACS 13, p. 12; 1944 ACS 14, p. 10; 1944 ACS 31, p. 15; 1954 AC, p. 908; 1954 ACS 7, p. 5, Eff. Aug. 14, 1956; 1954 ACS 26, p. 20, Eff. May 15, 1961; 1954 ACS 34, p. 5, Eff. May 15, 1963; 1954 ACS 42, p. 5, Eff. May 15, 1965; 1954 ACS 69, p. 17, Eff. Nov. 1, 1971.

R 205.55 Automotive parts dealers.

Rule 5. (1) Sales at retail of automobile parts for consumption or use are taxable. (See R 205.117—Repairers and servicers.) Every retailer of automotive parts such as a garage, car dealer, service station, etc., is required to have a sales tax license. Sales for resale by a wholesaler to such a licensed retailer are exempt. However, the wholesaler is liable for the tax when he sells to the consumer or user, including a person with a sales tax license who purchases automobile parts or tools, equipment and supplies for consumption or use. For instance, the sale of piston rings to a duly licensed garage operator is exempt if the rings are to be resold over the counter to a person who will install them; sold in connection with repair work for a customer; or installed in a used car that the retailer has purchased or taken as a trade-in, which is being reconditioned for sale. However, the sale of the rings to the retailer is taxable if he installs them in a vehicle kept for his own use, such as a wrecker used in his business or a car kept for use by his family.

(2) All sales not for resale to a person not having a sales tax license are taxable, regardless of what he buys, the nature of his business or the manner in which he uses the material.

(3) Any amount allowed or allowable as a trade-in, exchange or deposit is part of the gross proceeds subject to tax.

History: 1944 AC, p. 1322; 1954 AC, p. 911; 1954 ACS 69, p. 19, Eff. Nov. 1, 1971.

R 205.56 Bakeries.

Rule 6. (1) Sales of bakery products for home consumption are exempt.

(2) Sales of bakery products for immediate consumption are taxable. This includes bakery items sold in conjunction with hot coffee, tea, or milk on a "to go" basis. (See R 205.136—Food for home consumption.)

(3) Tangible personal property is taxable, unless that tangible personal property becomes an ingredient or component part used or consumed in the preparation of bakery products produced for sale by a retailer for retail sale.

(4) The purchase of tangible personal property by a person regularly engaged in the baking business is exempt as a purchase for resale if the item purchased becomes an ingredient or component part of a bakery product produced for sale. (See R 205.90—Industrial processing.)

History: 1944 AC, p. 1322; 1954 AC, p. 912; 1954 ACS 69, p. 19, Eff. Nov. 1, 1971; 1954 ACS 88, p. 41, Eff. Aug. 6, 1976.

R 205.57 Barber and beauty shops.

Rule 7. (1) Barber or beauty shop operators are engaged primarily in rendering personal services not subject to tax. Sales of tangible personal property to them are taxable. Sellers of cosmetics, tonics, lotions, shaving soaps, barber tools and supplies, barber chairs, shop equipment, furniture and fixtures and other tangible personal property purchased for use in barber and beauty shops are required to remit the tax thereon.

(2) However, if a barber or beauty shop operator sells tangible personal property separately from the rendering of personal services, these sales are taxable but he may deduct in his tax return the amount on which tax was paid at the time of purchase.

History: 1944 AC, p. 1322; 1954 AC, p. 912.

R 205.58 Beer, wine, and liquors.

Rule 8. (1) Sales of beer, wine, and spirituous liquors for consumption and use are taxable. The seller shall also include in the gross sales reported on his tax return all other retail sales.

(2) Sales of spirituous liquor and wine by specially designated distributors shall be included in total gross sales reported by such distributors. Sales of spirituous liquor and wine by a club to its members and guests are subject to the tax on the full retail price with no deduction for the cost of such liquor and wine. (See R 205.68—Containers, cartons, and wrapping materials.)

History: 1944 AC, p. 1322; 1954 AC, p. 912; 1954 ACS 28, p. 23, Eff. May 15, 1961; 1954 ACS 29, p. 6, Eff. Feb. 14, 1962; 1954 ACS 34, p. 7, Eff. May 15, 1963; 1954 ACS 69, p. 20, Eff. Nov. 1, 1971.

R 205.59 Blacksmiths.

Rule 9. (1) Blacksmiths are considered to be in the business of selling tangible personal property to users or consumers, and also rendering services. They are liable for the tax only with respect to their receipts from the sale of their tangible personal property either by itself or furnished in connection with repair work.

(2) Where a blacksmith makes or fabricates tangible personal property for sale separately from the rendering of services, he is liable for the tax on the gross receipts of the sale of such articles.

(3) The sale of horse or mule shoes in connection with services rendered to a person regularly engaged in "agricultural producing" is not taxable, provided such animals are used directly on farm work. Sales of similar property to riding stables or jockey clubs are taxable.

History: 1944 AC, p. 1323; 1954 AC, p. 912.

R 205.60 Bookbinders and paper cutters.

Rule 10. (1) Persons engaged in the business of binding books, magazines, and printed matter for others, wherein the value of the tangible property transferred is negligible, are considered to be selling a service and tax applies on the cost of the equipment, materials, and supplies purchased.

(2) If a bookbinder binds his own printed matter and sells the finished products to users or consumers or makes and sells loose-leaf binders or other articles at retail, he shall remit the tax on the entire receipts from such sales.

(3) A person engaged in the business of paper cutting, folding, gathering, padding, or punching circulars, office forms, or other printed matter belonging to others renders nontaxable services. Sales of tangible personal property to such persons for use or consumption in the performance of these services are taxable.

History: 1944 AC, p. 1323; 1954 AC, p. 913; 1954 ACS 78, p. 6, Eff. Mar. 1, 1974; 1954 ACS 100, p. 58, Eff. July 27, 1979.

R 205.61 Books and rental libraries.

Rule 11. (1) Sales not for resale of books, laboratory or other educational supplies to public schools and other educational institutions not operated for profit, are exempt.

(2) Sales of books to a rental library for rental to its clients are taxable sales except when the rental library has claimed exemption for the purpose of remitting use tax on rental receipts as provided in R 205.132. When a rental library also sells books, the tax applies to the total receipts from sales by such rental libraries and such sellers must have a sales tax license.

History: 1944 AC, p. 1323; 1954 AC, p. 913; 1954 ACS 26, p. 23, Eff. May 15, 1961; 1954 ACS 78, p. 6, Eff. Mar. 1, 1974.

R 205.62 Airplanes and airlines.

Rule 12. (1) The sales of new and used aircraft are subject to sales tax on the full selling price without any deductions for expenses incurred as part of the cost of doing business. Trade-ins are not deductible.

(2) Gasoline, jet fuel, oil, repair parts, and other tangible personal property sold and delivered in Michigan for operation of aircraft are subject to sales tax regardless of where the plane will be flown or used. Tax applies whether such sales are to private or commercial airlines.

(3) An airplane retailer is required to remit sales tax on sales of planes solicited through his sales organization regardless of whether such sales are on his own behalf or on behalf of the plane owner. So-called "brokerage" transactions are taxable on the full selling price.

(4) Aircraft purchased for consumption or use in Michigan from individuals or retailers outside the state of Michigan are subject to the 4% use tax.

(5) A purchaser of airplanes who is licensed as a retailer of airplanes, who uses such property solely for demonstration or display and for which no charge is made while holding it for sale in the regular course of business, is not required to pay a tax on account of such use.

(6) A retailer of aircraft who purchases new or used aircraft for the primary purpose of demonstration, who is licensed by the Michigan department of revenue as an aircraft retailer and, further, who has secured registration certificates for each aircraft from the Michigan department of aeronautics, shall pay a use tax on all revenue derived from the utilization of such aircraft or on the amount taken as depreciation charges plus operating costs, whichever is greater, during the period such property is held in inventory and retained as a valid demonstrator.

(7) Sales tax applies to the retail sale of the airplane following its use for demonstration, display or other use. This is a distinct and separate transaction from the prior election to convert the plane to personal use. Thus, sales tax must be paid by the dealer on the full selling price without deduction for use tax previously paid.

(8) The transfer of an aircraft registration from one individual owner to another is subject to imposition of use tax. Such tax shall be paid directly to the Michigan department of revenue. (See R 205.135—Isolated vehicle, aircraft, watercraft, and snowmobile transfers.)

History: 1944 AC, p. 1323; 1954 AC, p. 913; 1954 ACS 26, p. 23, Eff. May 15, 1961; 1954 ACS 42, p. 8, Eff. May 15, 1965.

R 205.63 Cemeteries and crematories.

Rule 13. (1) Sales of tangible personal property (boxes, urns, markers, vases, flowers, etc.) by cemeteries and crematories are taxable.

(2) The sale of lots, crypts and niches are considered to be real estate and are not taxable.

(3) Sales not for resale to cemeteries and crematories are taxable. These include materials and supplies used in construction, maintenance, improvement, or alteration of buildings and grounds, such as seeds, plants, fertilizer, etc.

(4) Sales of equipment to cemeteries and crematories for consumption and use are taxable.

History: 1944 AC, p. 1323; 1954 AC, p. 913.

R 205.64 Chemicals.

Rule 14. (1) Sales of chemicals are taxable when sold to persons who consume or use them in experimental or development work not connected with an industrial process. Chemicals used in the rendering of services, repair work, and other nonindustrial activities are taxable.

(2) Sales of chemicals are not taxable when consumed or used in industrial processing. (See R 205.90—Industrial Processing.)

History: 1944 AC, p. 1324; 1954 AC, p. 914; 1954 ACS 29, p. 6, Eff. Feb. 14, 1982.

R 205.65 Churches and houses of religious worship.

Rule 15. (1) Sales, not for resale, to regularly organized churches and houses of religious worship are not subject to the tax if the item purchased is paid for by the church from church funds; however, sales of property used in a commercial enterprise by a church or house of religious worship, and sales of vehicles licensed for use on the public highways, are taxable. Sales of tangible personal property, including sales of meals in a commercial activity, when conducted as a retail business for gain, benefit, or advantage, direct or indirect, are taxable, and a sales tax license shall be obtained for the purpose of reporting and paying the tax due.

(2) Sales to religious organizations and societies composed of church members are taxable.

(3) Sales of merchandise to be given as prizes in games of skill or chance are taxable.

(4) Sales to all church employees for their own use are taxable.

(5) If an exemption is to be claimed, the seller, at the time of transfer of the tangible personal property, shall retain, as part of the seller's records, an executed exemption certificate which reads as follows:

CERTIFICATE TO BE EXECUTED WHEN TAX EXEMPT SALE IS MADE TO AN EXEMPT INSTITUTION OR AGENCY

The undersigned hereby certifies that the item or items being purchased are to be used or consumed in connection with the operation of the exempt institution or agency named in the space provided below, and that the consideration for this purchase moves from the funds of the designated institution or agency. In the

R 205.66 Clipping bureaus.

Rule 16. (1) Sales of press clippings are taxable. If a press clipping bureau merely furnishes special information derived from press clippings to which it retains title, its receipts are deemed to be derived from rendering service and not taxable.

(2) Sales of lists of names, statistics, and other information in the form of cards, sheets, or other tangible personal property are taxable.

History: 1944 AC, p. 1324; 1954 AC, p. 914.

R 205.67 Coal and other fuel dealers.

Rule 17. (1) The sale of coal, coke, wood, fuel oil, liquid petroleum gas, and other fuel to consumers or users is taxable on the basis of the delivery price, including all transportation charges. However, a separate charge for wheeling or carrying coal from the residence street of purchaser to his bin or cellar is deemed to be a service charge and is not taxable since such services are beyond the trade practice of dumping from vehicle into purchaser's bin.

(2) The sale of equipment, tools, materials, supplies, etc. consumed or used in handling and preparing fuel for market or delivery is taxable.

(3) Sales of bottle gas equipment to dealers and distributors are subject to sales or use tax except when purchased for rental to the gas user with use tax then to be paid on the rental charge. For purposes of determination, only those rentals which are collected under a specific written rental agreement carrying a reasonable rental rate consistent with the actual cost of the equipment will be considered as a rental subject to use tax. All other use of bottle gas equipment will be subject to tax at the time of purchase. (See R 205.132—Rentals.)

(4) The sale of fuel is taxable if for consumption or use by ships, tugs, dredges, barges, fishing boats, and other watercraft, either for commercial, pleasure, or private use, irrespective of where the buyer and seller are located or whether the purchaser, subsequent to the delivery of such property within the state, transports it out of the state or uses it in interstate commerce. Sales of bunker and galley fuel sold for use by certain vessels with a registered tonnage of 500 tons or more, and engaged in interstate commerce, are exempt. Sales for use of vessels operating in foreign commerce are taxable.

(5) The sale of fuel to public utilities to be used or consumed in the manufacturing of power, heat, light or gas to be sold at retail is not taxable.

(For sales of fuel for industrial processing purposes, see R 205.90.)

History: 1944 AC, p. 1324; 1954 AC, p. 914; 1954 ACS 26, p. 24, Eff. May 15, 1961; 1954 ACS 69, p. 20, Eff. Nov. 1, 1971.

R 205.68 Containers, cartons, and wrapping materials.

Rule 18. (1) "Containers" means the articles and devices in which tangible personal property is placed for shipment and delivery, such as wrapping materials, bags, cans, twines, gummed tapes, barrels, boxes, tote boxes, pallets, racks, bottles, drums, carboys, cartons, sacks, and materials from which such containers are manufactured.

(2) Sales of containers to persons regularly engaged in rendering a service are taxable.

(3) Sales of containers to persons for resale are exempt. If a separate charge is made for the sale of a container to a person, other than for resale, the receipts from the sales are taxable.

(4) Sales of containers to a person, such as a manufacturer, wholesaler, jobber, or retailer, who uses the containers to ship or deliver goods, and who retains the ownership or legal right of possession of the containers, are taxable.

(5) Sales or purchases, for a single use only, of bracings, blocking, skidding, shoring, and other materials, commonly known as "dunnage," are taxable when used in the shipment of a product to a customer.

(6) Deposits on a returnable container for a beverage, or the deposit on a carton or case which is used for returnable beverage containers, are not taxable when sold in conjunction with a sale of a beverage.

History: 1944 AC, p. 1324; 1954 AC, p. 914; 1954 ACS 30, p. 5, Eff. May 15, 1962; 1954 ACS 69, p. 21, Eff. Nov. 1, 1971; 1954 ACS 88, p. 41, Eff. Aug. 6, 1976; 1954 ACS 100, p. 59, Eff. July 27, 1979.

R 205.70 Consignments.

Rule 20. (1) Sales of tangible personal property consigned, delivered, or entrusted to a retailer for the purpose of sale are taxable on the total retail sale price without deduction for any expense such as storage, rental, commission, repairs, etc. It is immaterial whether such goods are different from those sold in the regular business of the seller.

(2) Where a retailer selling tangible personal property belonging to another has the right to withhold or claim a portion of the sale price as his compensation, he shall include the total amount received from the sale of such goods in his tax return.

History: 1944 AC, p. 1326; 1954 AC, p. 915.

R 205.71 Contractors.

Rule 21. (1) "Contractor" includes only prime, general, and subcontractors directly engaged in the business of constructing, altering, repairing, or improving real estate for others.

(2) Contractors are consumers of the materials used by them. All sales to or purchases by contractors of tangible personal property are taxable, except when affixed and made a structural part of real estate for a qualified exempt nonprofit hospital or a nonprofit housing entity qualified as exempt under the sales and use tax acts. All materials consumed in the performance of such contracts and not affixed and made a structural part of real property are taxable. Retailers making exempt sales shall obtain the following exemption certificate.

SALES OR USE TAX

Certification is made that the merchandise specified in the instrument to which this is made part will become part of the completed structure for a nonprofit hospital or a nonprofit housing entity qualified as exempt under the sales and use tax acts.

Should determination be made that any or all of this merchandise is used for a taxable purpose, it is agreed that tax, penalty, and interest will be paid to the seller.

_____
Name of exempt entity

_____
Name of contractor

Signed by _____ Dated _____

(3) Sales and rentals of tools, machinery, and equipment to contractors are taxable.

(4) Where a contractor is exclusively engaged in the contracting business and makes no direct sales to other contractors or consumers, he does not need a sales tax license. Such nonlicensed contractors are required to maintain a use tax registration and pay the use tax to the state on purchases made from out-of-state sellers.

(5) Where a contractor is not engaged exclusively in the contracting business but makes sales of tangible property at retail to other contractors and consumers, he shall secure a sales tax license and file returns to report sales on such transactions. Use tax due on out-of-state purchases and on merchandise acquired for resale and later consumed in contract operations shall be reported on the combined sales and use tax return.

(6) Where a manufacturer affixes his product to real estate for others, he qualifies as a contractor and shall remit use tax on the inventory value of the property at the time the property is converted to the contract which value shall include all costs of manufacturing, fabricating, and processing.

(7) A contractor purchasing tangible personal property for affixation to realty where delivery is taken in Michigan is subject to sales or use tax on the purchase price whether the improvement or construction of realty takes place within or without Michigan, except as noted in subrule (2).

History: 1944 AC, p. 1326; 1944 ACS 19, p. 17; 1944 ACS 31, p. 19; 1954 AC, p. 915; 1954 ACS 7, p. 9, Eff. Aug. 14, 1956; 1954 ACS 29, p. 6, Eff. Feb. 14, 1962; 1954 ACS 42, p. 8, Eff. May 15, 1965; 1954 ACS 69, p. 21, Eff. Nov. 1, 1971; 1954 ACS 100, p. 59, Eff. July 27, 1979.

R 205.72 Milk dealers and dairy products.

Rule 22. (1) The producing of milk is covered by R 205.51. The sale of all tangible personal property consumed or used directly in such producing prior to shipment from the place of production is not taxable.

(2) Sales of tangible personal property consumed or used in the receiving, storage, transportation, or delivery of milk are taxable. Transportation of milk from the place where it is produced, as well as the receiving and storage of the milk at the processing plant, is taxable. Processing includes all necessary operations performed on the milk prior to shipment from the plant. Sales of tools and equipment used directly in the processing of milk or milk products, and lubricants and other materials consumed or used in the maintenance of that equipment, are not taxable. Sales of tangible personal property consumed or used in the construction, alteration, repair, or improvement of buildings and grounds are taxable.

(3) Sales of equipment used or consumed in the delivery of milk and milk products are taxable, including horses, harnesses, wagons, trucks, cases, crates, etc., and property used for the maintenance and operation of that equipment.

(4) Sales of milk bottles and milk cans to dairies for use in processing milk for sale at retail by others, together with washing machines for the same and cleaning compounds used in connection therewith by such processors, are not subject to tax. Sale of milk bottle crates or cases for transportation, receiving, storage, or delivery are subject to tax. Sales of milk cans to farmers for use in cooling milk prior to shipment to dairies are not taxable.

(5) Dairy products sold by retailers to consumers for home preparation of meals are not subject to sales tax.

(6) Sales of prepackaged ice cream or sherbet in pints, quarts, gallons, or larger quantities are exempt when sold for home consumption. Sales of sundaes, cones, milk shakes, soft drinks, and similar items sold for immediate consumption, on or off the premises, are taxable.

History: 1944 AC, p. 1327; 1954 AC, p. 917; 1954 ACS 69, p. 22, Eff. Nov. 1, 1971; 1954 ACS 88, p. 42, Eff. Aug. 6, 1976.

R 205.73 Directories.

Rule 23. (1) Sales of business, telephone, city, and other similar directories are taxable.

(2) When such directories are given without charge to users, the tax applies to the cost when sold to the donor.

History: 1944 AC, p. 1327; 1954 AC, p. 917; 1954 ACS 78, p. 6, Eff. Mar. 1, 1974.

R 205.74 Educational institutions.

Rule 24. (1) Sales, not for resale, to regularly organized educational institutions not operated for profit are not taxable. "Not operated for profit," as used in this rule, means operated by an entity of government, a regularly organized church, religious or fraternal organization, where the income from the operation does not inure, in whole or in part, to the benefit of individuals or private shareholders, directly or indirectly, and where the activities of the entity are carried on exclusively for the benefit of the public at large and are not limited to the advantage, interests, or benefits of its members or a restricted group. "Educational institution," as used in this rule, means an institution of learning, organized solely for educational purposes, which maintains a faculty of qualified instructors, and teaches regular, continuous courses of study, and which confers upon students a recognized diploma after completion of a specific curriculum.

(2) Sales of athletic equipment to a regularly organized educational institution for consumption or use are not taxable if the athletic activities are under the management and control of the educational institution and the entire receipts are expended for athletic or educational purposes.

(3) Educational institutions which are not operated for profit, and which operate lunchrooms, cafeterias, or dining rooms for the exclusive use of bona fide enrolled students, are not taxable. Whenever such a lunchroom, school cafeteria, or dining room sells to nonstudents, including teachers, the institution operating it is subject to the tax on those sales.

(4) Sales of class pins, rings, and similar articles are taxable when paid for, directly or indirectly, by the students.

(5) Sales to educational associations, parent teacher organizations, teachers, and other personnel of an educational institution are taxable.

(6) If an exemption is claimed, then at the time of the transfer of the tangible personal property, the seller shall retain, as part of the seller's records, an executed exemption certificate which reads as follows:

CERTIFICATE TO BE EXECUTED WHEN TAX EXEMPT SALE IS MADE TO AN EXEMPT INSTITUTION OR AGENCY

The undersigned hereby certifies that the item or items being purchased are to be used or consumed in connection with the operation of the exempt institution or agency named in the space provided below and that the consideration for this purchase moves from the funds of the designated institution or agency. In the event this claim is disallowed the transferee promises to reimburse the seller for the amount of tax involved.

_____
Name of exempt institution or agency

Date _____

_____
Signature and title of person making certification

(7) Schools operating a kindergarten through twelfth grade program are not required to pay tax on the sales of textbooks to enrolled students. Sales of textbooks to nonstudents are taxable. Sales of yearbooks and annuals to both students and nonstudents are taxable.

History: 1944 AC, p. 1327; 1944 ACS 31, p. 20; 1954 AC, p. 918; 1954 ACS 7, p. 11, Eff. Aug. 14, 1956; 1954 ACS 71, p. 6, Eff. May 31, 1972; 1954 ACS 88, p. 42, Eff. Aug. 6, 1976.

R 205.75 Employee associations and organizations.

Rule 25. Organizations of employees which sell tangible personal property of any kind to their members or others must procure a sales tax license and pay the tax on such sales.

History: 1944 AC, p. 1328; 1954 AC, p. 918.

R 205.76 Employer sales to employees.

Rule 26. (1) When an employer sells tangible personal property to his employees, permits them to purchase through his organization or to buy from others on discounts available to him or in any other manner obtain goods through him, such sales are taxable. The employer shall include such sales in his tax return and pay the tax regardless of whether such articles are charged to the employee.

(2) If the employer is exempt from the tax on his regular business, he must apply for a license and pay the tax on such sales.

(3) When an employer purchases tangible property for free distribution to employees, the tax applies to the sale of such property to him. (See R 205.112—Premiums and gifts.)

History: 1944 AC, p. 1328; 1954 AC, p. 918.

R 205.77 Fairs, circuses, carnivals, and other public exhibitions.

Rule 27. (1) Persons conducting games of chance or skill at fairs, carnivals, circuses, expositions, celebrations, bazaars, picnics, and similar places and delivering merchandise as prizes are deemed consumers of such articles. All sales to them of tangible personal property, including merchandise, devices, apparatus, furnishings, and other equipment are taxable. Credit cards and extension of credit in any form, given as prizes, will be deemed merchandise and taxable, unless the tax is paid at the time the credit is exchanged for merchandise.

(2) Concessionaires at fairs, circuses, carnivals, etc., shall procure a sales tax license and pay the tax on all their sales at retail. The department reserves the right

to require a concessionaire to file a report and pay the tax at the close of any business day or period during which he operates.

(3) Persons operating or sponsoring a fair, circus, carnival, etc., shall be held liable, as the principal, for the tax upon the sale or use of tangible personal property sold, given as prizes or otherwise disposed of by a person engaged in business without a sales tax license at such exhibition, unless the tax is paid by the dispenser of such property.

History: 1944 AC, p. 1328; 1954 AC, p. 918.

R 205.78 Farmers, market masters, and other marketers.

Rule 28. (1) Farmers, market masters, and other persons who sell at retail tangible personal property, other than food for home consumption or use, shall secure a license and pay the tax on those sales.

(2) Sales of the property specified in subrule (1) for resale to persons possessing a sales tax license are not taxable.

(3) Where a person selling other than food at retail rents or occupies space in a general market or other place operated for the purpose of transacting sales, that person shall secure a sales tax license, and shall pay the tax on the sales made by that person. If the seller does not have a sales tax license, the market master, as the principal, is responsible for paying the tax on the sales made by that person.

History: 1944 AC, p. 1328; 1954 AC, p. 919; 1954 ACS 88, p. 43, Eff. Aug. 6, 1976.

R 205.79 Federal and state governments.

Rule 29. (1) Sales to the United States government, the state and its political subdivisions, departments and institutions are not taxable if such sales are ordered on the prescribed respective government form or purchase order and are paid for directly to the seller by warrant on government funds.

(2) When such sales are made without the required purchase order form being supplied in advance, the sale is taxable but the licensee may later take credit for the tax payment upon his subsequent receipt of purchase order and warrant covering such sales.

(3) Sales to governmental employees for their own consumption or use are taxable.

(4) The tax applies on sales by private entrepreneurs on federal areas, if the sale is not made directly to an exempt federal instrumentality.

(5) The tax does not apply on sales to the regular departments of the United States government. Exempt also are sales to federal agencies, offices, establishments and instrumentalities which the state is prohibited from taxing under the constitution or laws of the United States. Address inquiries to the department of revenue as to the taxability of sales to specific federal agencies, giving full information concerning the transaction.

(6) A person subject to a tax under this act need not include in the amount of his gross proceeds used for the computation of the tax any proceeds of his business derived from sales to the United States, its unincorporated agencies and instrumentalities, any incorporated agency or instrumentality of the United States wholly owned by the United States or by a corporation wholly owned by the United States, the American red cross and its chapters and branches, and the state or its departments and institutions or any of its political subdivisions.

(7) Sales to and purchases by national banks are taxable.

History: 1944 AC, p. 1328; 1954 AC, p. 919; 1954 ACS 7, p. 12, Eff. Aug. 14, 1956; 1954 ACS 26, p. 24, Eff. May 15, 1961; 1954 ACS 42, p. 10, Eff. May 15, 1965; 1954 ACS 69, p. 22, Eff. Nov. 1, 1971.

R 205.80 Florists and nurserymen.

Rule 30. (1) Florists and nurserymen regularly engaged in the business of selling tangible personal property at retail, such as flowers, trees, plants, shrubs, seeds, grass, etc., are liable for the tax on their gross sales. The tax is applicable irrespective of where or how such items are grown or produced and regardless of whether sold from a store, curb, market, greenhouse, farm, or other place. (Sales for commercial production explained in R 205.51, Agricultural producing.)

(2) The following apply to sales made through telegraphic delivery association or in similar manner:

(a) On all orders taken by a Michigan florist and telegraphed to a second florist, either in Michigan or to a point outside the state, the florist taking the order is liable for the tax.

(b) Where Michigan florists receive telegraphic instructions from other florists located either within or outside of Michigan for the delivery of flowers, the florist receiving the telegraphic instructions is not held liable for the tax with respect to any proceeds which he may realize from the transaction.

(3) Where a florist or nurseryman contracts to furnish and plant shrubbery, plants, trees, etc., for others he is deemed to be improving real estate and use tax, based on the fair market value of the stock consumed, will apply.

History: 1944 AC, p. 1329; 1954 AC, p. 920; 1954 ACS 69, p. 23, Eff. Nov. 1, 1971.

R 205.81 Foreign commerce.

Rule 31. (1) The tax does not apply to export sales when, as a necessary incident to the contract of sale, the exporter must and does deliver the goods to the purchaser at a foreign destination, or is bound, under terms of contract of sale, to place the goods in the hands of a common carrier consigned to the buyer at a foreign destination. It is immaterial whether title to the goods passes upon delivery to the carrier or upon arrival of the goods at their destination.

(2) A sale to an exporter is not taxable if the contract requires the seller to deliver the goods on board ship or in the hands of a common carrier consigned on board ship.

(3) The principal factors giving evidence to a shipment for export are that the foreign destination be shown on the container of such goods and on a bill of lading or other evidence of shipment to a carrier or forwarder acting for the shipper or carrier and that the goods remain in the original, unbroken container until arrival at destination.

(4) The tax will apply to sales made by an importer of tangible personal property imported into the state from a foreign country in like manner and to the same extent as sales made by a retailer of domestic tangible personal property.

History: 1944 AC, p. 1329; 1954 AC, p. 920.

R 205.82 Altering, repairing, and remodeling furs.

Rule 32. (1) Persons altering, repairing, or remodeling furs for others are retailers of the fur used in connection with such altering, repairing, or remodeling and shall pay the tax upon the retail selling price thereof. The retail selling price of such fur shall be segregated on the bills or sales checks to the customer from the charge for labor in connection with such altering, repairing, or remodeling. Failure to separate the sale of material from the sale of labor requires payment of the tax on the entire amount charged to customers.

(2) Persons altering, repairing, or remodeling furs are consumers of the thread, buttons, lining, and materials other than fur used in connection with such altering,

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

repairing, or remodeling, unless a separate charge is made to customers for such thread, buttons, and lining, in which case the tax applies to such separate charge.

(3) Sales of furs to persons altering, repairing, or remodeling furs and sales of thread, buttons, and lining for which a separate charge is made to their customers are sales for resale and the gross receipts therefrom are not taxable. The tax applies, however, to the gross receipts from sales to persons altering, repairing, or remodeling furs, of thread, buttons and lining, for which a separate charge is not made by such persons to their customers.

(4) Sales of sewing machines, pressing machines, and other tools, instruments, and materials sold to fur and garment repairers for use in their business are taxable.

History: 1944 AC, p. 1330; 1954 AC, p. 920; 1954 ACS 100, p. 60, Eff. July 27, 1979.

R 205.83 Gasoline stations and other motor fuel retailers.

Rule 33. (1) The sale of motor fuel, oil, grease, antifreeze, and other tangible personal property for use or consumption in motor vehicles operated on public highways or for any other use not specifically exempted by law is taxable. Such sales are taxable on the basis of the total receipts, without deduction for labor or other expenses or losses.

(2) The sale of aviation gasoline, turbojet fuel, jet fuel, and other fuels, oils, and lubricants to commercial airlines and to other operators of aircraft is taxable on the total receipts, without deduction for labor or other expenses or losses.

(3) The sale of fuel and lubricants for use in commercial fishing craft, pleasure craft, and boats under 500 tons is taxable.

(4) The sale of equipment, material, and supplies consumed or used by a person in the business of marketing gasoline and other petroleum products is taxable.

(5) The sale of chassis lubricants, wheel greases, and other products sold to a gasoline station operator or to others for use in performing a service is taxable.

(6) Motor fuel retailers may take a deduction from gross proceeds on their sales tax returns for the state motor fuel taxes paid by the retailer to the state or to the distributor.

(7) The manufacturers' federal excise tax on gasoline, lubricating oils, tires, and tubes shall be included as part of the retailers' gross proceeds subject to tax.

(8) Dealers paying retailers' federal excise taxes on special motor fuels, such as diesel fuel or liquid petroleum gas, are not required to include the excise taxes as part of the gross proceeds subject to sales tax.

(9) Sales or use tax does not apply on sales or purchases of diesel fuel for use in passenger vehicles of 10 or more capacity operated for hire under a certificate issued by the public service commission when such vehicles operate over regularly scheduled routes in this state. Exemption does not prevail for charter trips.

History: 1944 AC, p. 1330; 1954 AC, p. 921; 1954 ACS 17, p. 5, Eff. Feb. 14, 1959; 1954 ACS 29, p. 8, Eff. Feb. 14, 1962; 1954 ACS 69, p. 23, Eff. Nov. 1, 1971; 1954 ACS 88, p. 43, Eff. Aug. 6, 1976; 1954 ACS 100, p. 60, Eff. July 27, 1979.

R 205.84 Golf and country clubs.

Rule 34. (1) Sales of tangible personal property by golf and country clubs are taxable and such clubs must obtain and maintain a sales tax license.

(2) Sales, not for resale, to these clubs are taxable, including seeds, plants, fertilizer, etc., used to improve the grounds, and equipment, supplies and other tangible personal property. (See also R 205.116—Restaurants, hotels, lunchrooms,

and other establishments; R 205.95—Leased departments; and R 205.98—Meals.)

History: 1944 AC, p. 1330; 1954 AC, p. 921.

R 205.85 Hatcheries and incubators.

Rule 35. (1) Sales by a person regularly engaged in the business of selling poultry or operating a hatchery, of chicks or other poultry for consumption by the purchaser, are taxable.

(2) Such sales are exempt when made to a person regularly engaged in the business of raising and reselling poultry or producing eggs for sale. However, the seller is liable for the tax if the chicks or other poultry are consumed or used by the purchaser, and the seller must have evidence to the contrary when deduction for "resale" is taken on his return.

(3) The charge for the hatching of eggs for a person owning such eggs is not taxable.

(4) The sale of eggs, feeds, sprouters, medicines, insecticides, etc., for consumption or use by a person regularly engaged in the business of producing poultry products for sale is not taxable. The sale of such items to persons keeping poultry mainly for their own consumption are taxable even though resales are made occasionally to dispose of temporary surpluses.

History: 1944 AC, p. 1330; 1954 AC, p. 921.

R 205.86 Homes for children and aged persons.

Rule 36. (1) Sales not for resale to homes for the care and maintenance of children or aged persons, when not operated for profit and when operated by an entity of government, a regularly organized church, religious or fraternal organization, a veterans' organization or a corporation incorporated under the laws of the state, are exempt when the income or benefit from the operation does not inure, in whole or in part, to any individual or private shareholder, directly or indirectly, and when the activities of the entity or agency are carried on exclusively for the benefit of the public at large and are not limited to the advantage, interests and benefits of its members or any restricted group.

(2) If exemption is claimed, then at time of transfer of the tangible personal property the seller shall retain as part of his records an executed exemption certificate which reads as follows:

CERTIFICATE TO BE EXECUTED WHEN TAX EXEMPT SALE IS MADE TO AN EXEMPT INSTITUTION OR AGENCY

The undersigned hereby certifies that the item or items being purchased is or are to be used or consumed in connection with the operation of the exempt institution or agency named in the space provided below and that the consideration for this purchase moves from the funds of the designated institution or agency. In the event this claim is disallowed the transferee promises to reimburse the seller for the amount of tax involved.

R 205.87 Hospitals.

Rule 37. (1) Sales, not for resale, of tangible personal property to hospitals not operated for profit, are not taxable. A "hospital," for the purpose of this rule, means only a separately organized institution or establishment, the primary purpose of which is to provide medical, obstetrical, psychiatric, or surgical attention and nursing to persons requiring the same. The sales tax exemption for sales to a hospital which is not operated for profit does not apply to an institution, establishment, or organization that is not a hospital as defined above, notwithstanding the fact that it may not be operated for profit. "Not operated for profit" means that the income or benefit from the operation of the hospital does not inure, in whole or in part, to individuals or private shareholders, directly or indirectly, and that the activities of the entity or agency are carried on exclusively for the benefit of the public at large, and are not limited to the advantage, interests, and benefits of its members or a restricted group.

(2) If an exemption is claimed, then, at the time of transfer of the tangible personal property, the seller shall retain, as part of the seller's records, an executed exemption certificate which reads as follows:

CERTIFICATE TO BE EXECUTED WHEN TAX EXEMPT SALE IS MADE TO AN EXEMPT INSTITUTION OR AGENCY

The undersigned hereby certifies that the item or items being purchased are to be used or consumed in connection with the operation of the exempt institution or agency named in the space provided below and that the consideration for this purchase moves from the funds of the designated institution or agency. In the event this claim is disallowed, the transferee promises to reimburse the seller for the amount of tax involved.

Date _____

_____

Name of exempt institution or agency

_____

Signature and title of person making certification

(3) A hospital claiming an exemption shall prove by its articles of association and bylaws that it is not directly or indirectly operated for profit, and that its income and assets may not inure, in whole or in part, directly or indirectly, to the benefit of any individuals, members, or private shareholders whatsoever. A copy of the articles of association and bylaws shall be submitted to the revenue division of the department of treasury for determination as to whether the hospital is entitled to the exemption.

(4) Sales by hospitals which are taxable retail sales include, but are not limited to, the following:

(a) Meals sold to visitors and employees.

(b) Nonprescription drugs, nonprescription medicines, and supplies sold to patients, doctors, employees, and the general public for consumption off the premises.

(c) Sales of cosmetics, souvenirs, and other similar merchandise.

(5) Sales by hospitals which are not taxable retail sales include, but are not limited to, the following:

(a) Drugs, medicines, insulin, and meals furnished patients and consumed on the premises.

(b) Charges for oxygen, blood plasma, and blood administered to patients.

(c) Dressings and bandages applied in the hospital.

R 205.88 Hotels, motels, cabins, and camps; accommodations.

Rule 38. (1) Effective September 1, 1959, a 4% use tax is imposed on rental receipts from rooms or lodgings furnished by hotel keepers, motel operators and other persons furnishing accommodations that are available to the public on the basis of a commercial and business enterprise, irrespective of whether membership is required for use of the accommodations.

(2) The following rentals are exempt from the tax:

(a) Rooms or accommodations rented for a continuous period of more than 1 month to the same tenant.

(b) Rooms or accommodations furnished by hospitals, nursing homes, convalescent homes and mental institutions or similar institutions dedicated to the care and treatment of the sick under medical supervision.

(c) Rooms or accommodations furnished by summer camps operated by a legally qualified nonprofit corporation or association and camps licensed under Act No. 47, Public Acts of 1944, as amended, administered by the social welfare department.

(d) Rooms or accommodations furnished directly to the federal government provided exemption certificates are executed as issued by the comptroller general.

(e) Rooms or accommodations furnished directly to state and local governmental entities provided payment for such accommodations are made to the seller by a prescribed warrant on government funds.

(f) Rooms or accommodations furnished directly to legally qualified nonprofit corporations or associations, as prescribed in section 4, subsection (j), of the use tax act, and regularly organized churches and houses of religious worship. Organizations and societies of church members are taxable.

(3) As used in the act "hotel" or "motel" means a building or group of buildings in which the public may obtain accommodations for a consideration, including, without limitation, such establishments as inns, motels, tourist homes, tourist houses or units, lodging houses, apartment hotels, rooming houses, camps, resort lodges and cabins and any other building or group of buildings in which accommodations are available to the public.

(4) All tangible personal property purchased by a hotel or motel operator is subject to sales or use tax.

(5) A motel or hotel operator making sales of tangible personal property, in addition to the renting of rooms, will be required to have a sales tax license for the purpose of reporting both sales and use tax. If no retail sales of tangible personal property are made, a use tax registration is needed.

History: 1944 AC, p. 1331; 1944 ACS 31, p. 21; 1954 AC, p. 922; 1954 ACS 28, p. 25, Eff. May 15, 1961; 1954 ACS 34, p. 8, Eff. May 15, 1963.

R 205.89 Ice producing.

Rule 39. (1) Sales tax applies on the full retail selling price of ice sold to the final consumer by a retailer maintaining a sales tax license. The entire gross proceeds from sales of ice through vending machines and other automatic sales devices are taxable without any deductions for commissions, rentals and other expenses paid. It is immaterial whether the business operator owns such machine or the merchandise sold thereby.

(2) Ice producers and manufacturers selling directly to final consumers, except sales through vending machines as provided in subrule (1), shall maintain a sales tax license and remit tax on the sales.

(3) The sale of tools, equipment, materials and supplies consumed or used by an ice producer in the manufacturing of ice for sale is not taxable. Tangible personal property acquired for storing and delivery of ice is taxable.

History: 1944 AC, p. 1331; 1954 AC, p. 922; 1954 ACS 26, p. 26, Eff. May 15, 1961; 1954 ACS 29, p. 8, Eff. Feb. 14, 1962; 1954 ACS 69, p. 25, Eff. Nov. 1, 1971.

R 205.90 Industrial processing.

Rule 40. (1) This rule applies to sales, purchases and rentals of tangible personal property to persons for use or consumption in industrial processing, and the word "sales" hereafter used shall be construed to be either sale, purchase or rental. The word "manufacturing" as used in this rule is included within those activities which are considered "industrial processing."

(2) "Industrial processing" means the activity of converting or conditioning tangible personal property by changing the form, composition, quality, combination or character of the property for ultimate sale at retail or use in manufacturing of a product to be ultimately sold at retail.

(3) The sale of tangible personal property to manufacturers, which property becomes an ingredient or component part of the finished product or that which is consumed, destroyed or loses its identity in a manufacturing process, together with the processing machinery and equipment (including maintenance and repairs thereof) used in the manufacturing of a product which is either to be sold ultimately at retail or to be used as tangible personal property in the manufacture of a product to be sold ultimately at retail, is not taxable. The consumption or use of the tangible personal property rather than the kind or character of the property sold is the determining factor as to whether or not such a sale is taxable. The industrial processing exemption does not include:

(a) Tangible personal property permanently affixed and becoming a structural part of real estate. This includes building utility systems such as heating, air conditioning, ventilating, plumbing, lighting and electrical distribution. Example: all electrical transmission and distribution materials and equipment which are installed in the construction of plant facilities for, or by, an industrial processor for use in transmitting electrical energy is taxable up to the last transformer, switch or other device at which point usable power is diverted from distribution circuits for use in industrial processing.

(b) Tangible personal property used or consumed in performing services upon property owned by others where the services do not transform, alter or modify the property so as to place it in a different form, composition or character.

(c) Office equipment, including data processing equipment used for nonindustrial processing purposes, and office furniture and office supplies wherever and however used.

(d) Tangible personal property used for receiving and storage of materials, supplies, parts and components purchased by the user or consumer.

(e) Tangible personal property used for receiving and storage of natural resources extracted by the user or consumer.

(f) Vehicles, including special bodies or attachments, licensed and titled for use on public highways.

(g) Tangible personal property used for preparation of food and beverages by a retailer for retail sale.

(h) Tangible personal property used or consumed for the preserving or maintaining of a product in the form and condition in which it is to be sold.

(4) The following examples of nontaxable sales illustrate the application of the industrial processing exemption:

(a) Property which becomes an ingredient or component part of the finished product to be sold ultimately at retail.

(b) Machinery, tools, dies, patterns, machinery and equipment foundations and other processing equipment, including repair and maintenance of all of these, used in an industrial processing operation.

(c) Property which is consumed, destroyed or loses its identity in a manufacturing or other production process.

(d) Tangible personal property, not permanently affixed and not becoming a structural part of real estate, which becomes a part of, or is used and consumed in installation and maintenance of, systems used for processing purposes.

(e) Fuel or energy used or consumed for industrial processing.

(f) Machinery, equipment and materials used within a plant site for movement of tangible personal property in process of production.

(g) Office equipment, including data processing equipment, used for industrial processing purposes.

(5) Industrial processing includes the following activities:

(a) Production.

(b) Patent, experimental, development, engineering inspection and quality control.

(c) Planning, scheduling and production control.

(d) Design, construction and maintenance of factory machinery, equipment and tooling.

(e) Disposal of production scrap and waste.

(f) Production supervision.

(g) Production material handling.

(6) Industrial processing does not include the following activities:

(a) Purchasing, receiving and storage of raw materials.

(b) Sales, distribution, warehousing, shipping and advertising departments. (See R 205.68.)

(c) Administrative, accounting and personnel.

(d) Design, construction and maintenance of real property and nonprocessing equipment.

(e) Plant security, fire prevention and hospitals.

(7) The foregoing examples of taxable and exempt activities shall not be considered as exclusive in either category but are included as generally descriptive of industrial processing operations which are considered exempt as distinguished from nonexempt activities.

(8) Where the industrial processing areas or spaces are not separate and distinct from other departments or activities, or where the same tangible personal property can be used or consumed in the industrial processing area and 1 or more other areas, the tax will apply to such property unless it can be determined and

substantiated to the satisfaction of the revenue division, department of treasury that a percentage or other apportionment thereof is equitable and practical.

History: 1944 AC, p. 1332; 1954 AC, p. 923; 1954 ACS 30, p. 5, Eff. May 15, 1962; 1954 ACS 71, p. 7, Eff. May 31, 1972.

R 205.91 Interstate commerce.

Rule 41. (1) The tax does not apply on any sale of tangible personal property when such tax is prohibited by the constitution or laws of the United States. Whether or not the tax on a sale at retail is prohibited by the constitution or laws of the United States depends primarily on the facts in each individual case. The department requests your inquiries concerning specific transactions involving interstate commerce.

(2) Where tangible personal property is located within the state at the time of sale and is delivered within the state it is taxable. It is immaterial that the purchaser may, subsequent to the sale, transport the property out of the state or use it in interstate commerce.

(3) A sale taking place within the state is taxable as an intrastate transaction. For example: tax would apply when a customer in Michigan purchases tangible personal property from a Michigan retailer, pays the seller the required sales price together with insurance or postage or freight regardless of the destination of the property purchased; tax would not apply on sales where the seller is obligated to make delivery to the purchaser at an out-of-state delivery point when the property will not be returned to Michigan for storage, use or consumption.

(4) When making a valid sale in interstate commerce, it is necessary for the seller to retain documentary evidence of shipment outside the state for the purpose of substantiating a deduction on the tax return. If the shipment of the property is diverted in transit or if for any reason it does not arrive at the indicated destination outside the state, or is reshipped into the state, the sale is taxable. The documents acceptable to the department are any of the following:

(a) A waybill or bill of lading made out to the seller's order and calling for delivery outside the state.

(b) An insurance or registry receipt issued by the United States postal service.

(c) A trip sheet signed by the seller's delivery agent and showing the signature and address of the person, outside the state, who received the goods delivered.

(d) Sales slips or other sales and shipping forms regularly used by the seller for interstate transactions must be filed separately from intrastate, in an accessible manner to facilitate an audit by the state.

History: 1944 AC, p. 1334; 1954 AC, p. 925; 1954 ACS 69, p. 25, Eff. Nov. 1, 1971.

R 205.92 Jewelers and jewelry repairers.

Rule 42. (1) Sales, not for resale, of watches, clocks, jewelry and other items by jewelers and jewelry repairers, are taxable.

(2) Sales of jewelry, such as class rings and pins, to high school and college students, members of fraternities, sororities, etc., are subject to the tax. This is true even when sales are made through a school official acting as agent either for the seller or the purchaser. Manufacturing jewelers making such sales by contract, either through school officials or through retail jewelers acting as commission agents, are to report and pay the tax on the full sales price of such transactions. They are not deemed to be either sales for resale or sales to educational institutions.

(3) Sales of trophies, medals, etc., to nonprofit educational institutions, intended for awards to students, are not taxable.

History: 1944 AC, p. 1334; 1954 AC, p. 926; 1954 ACS 26, p. 26, Eff. May 15, 1961.

R 205.93 Kennels, stables, and pet shops.

Rule 43. (1) Sales, not for resale, of tangible personal property for use and consumption in operating boarding kennels and stables, or pet shops, are subject to tax.

(2) Persons operating boarding kennels and stables only, and making no retail sales of animals, are considered as consumers subject to tax on acquisition cost of property purchased.

(3) Sales of horses, dogs, other animals, birds, goldfish and other pets are subject to tax, except when sold to a person regularly engaged in the business of breeding such livestock for resale and conditioned that such breeder or propagator is the holder of a sales tax license.

History: 1944 AC, p. 1335; 1954 AC, p. 928; 1954 ACS 42, p. 10, Eff. May 15, 1965.

R 205.94 Labels, tags, and nameplates.

Rule 44. (1) Sales of labels, tags, or nameplates to persons using them in rendering services or for personal or business use or which do not accompany products sold, are sales for consumption and are taxable.

(2) Sales of labels or nameplates to be affixed to tangible personal property which is taxable when sold at retail, or to the containers sold with such property, are not subject to tax if the labels or nameplates are an inseparable part of the property sold and purchased by the buyer as a part of such property.

(3) Sales of labels to persons retaining title to containers to which the labels are affixed are not sales for resale but are sales for consumption and subject to tax.

History: 1944 AC, p. 1335; 1954 AC, p. 927.

R 205.95 Leased departments.

Rule 45. (1) Where an established business leases a portion of its shelves, counters, or floor space to other persons selling tangible personal property to consumers, the sales of tangible personal property by the leased departments shall be included in the tax return of the lessor, who shall pay the tax thereon to the state. A lessor not otherwise subject to the tax shall obtain a license in behalf of the lessee.

(2) When the lessee conducts the leased department in the same manner as an established like business, and gives evidence to the public that he is conducting his department separately from the lessor's business, or if separate business records are kept, the lessee may apply for a sales tax license, if the lessee keeps separate records of his business and files separate returns. The lessor shall be responsible for the tax unless the lessee obtains such a license.

(3) The word "lease," as used in this rule, includes permitted occupancy, regardless of consideration. The liquor commission restrains persons licensed by the commission from subleasing or surrendering any part of the business conducted at or on the licensed premises.

History: 1944 AC, p. 1335; 1944 ACS 31, p. 21; 1954 AC, p. 927; 1954 ACS 88, p. 45, Eff. Aug. 6, 1976.

R 205.96 Lumber dealers.

Rule 46. (1) Sales to a consumer or user are taxable. Sales for resale are exempt but the seller is required to establish the fact to avoid liability for tax.

(2) Sales to a person regularly engaged in "industrial processing" or "agricultural producing" may be either taxable or exempt, depending upon the specific use of the material sold. (See R 205.90—Industrial processing; R 205.51—Agricultural producing.)

(3) The seller must have proof that any sale is exempt. If in doubt as to the taxability of a sale, address an inquiry to the Michigan department of revenue

giving full information concerning the use made of the item sold. (See R 205.71—Contractors.)

History: 1944 AC, p. 1335; 1954 AC, p. 927; 1954 ACS 26, p. 26, Eff. May 15, 1961.

R 205.97 Linen and laundry suppliers and laundries.

Rule 47. (1) Persons engaged in the business of laundering clothes and other textiles for others and persons operating a linen service or providing the use of clean jackets and other garments, towels and similar articles to hotels, barber shops and other establishments are deemed to be rendering a service. All sales to them of tangible personal property of any kind are taxable.

(2) Sales of tangible personal property at retail by such persons are taxable, but they may deduct on their tax returns the amount of gross sales upon which they paid the tax at time of purchase.

(3) Rentals of linens and other similar articles are subject to use tax unless the lessor has paid Michigan sales or use tax on the purchase price of the articles to be rented. A person remitting tax on the purchase price as a purchaser-consumer or remitting tax on rental receipts as a lessor, shall follow 1 or the other methods of remitting for his entire business operation.

History: 1944 AC, p. 1335; 1954 AC, p. 927; 1954 ACS 71, p. 8, Eff. May 31, 1972.

R 205.98 Meals.

Rule 48. (1) The sale of meals or other tangible personal property by railroad, pullman car, steamship, airplane, or other transportation companies, while operating in the state of Michigan, or upon Michigan waters, is taxable.

(2) Fraternities, sororities, and other student societies, with members residing at a common location and jointly sharing household expenses, including meals, are not considered to be selling at retail, and meals furnished to members are not taxable. Caterers or other persons selling meals to fraternities and sororities are taxable on their gross proceeds from meals so furnished.

History: 1944 AC, p. 1336; 1954 AC, p. 928; 1954 ACS 88, p. 45, Eff. Aug. 6, 1976.

R 205.99 Mining, oil wells, and extractive operations.

Rule 49. (1) An extractive operator includes a person who, from his own land or from the land of another, either directly or by contract, takes or extracts for resale ore, oil, gas, coal, timber, stone, gravel, clay, minerals or other natural resource material.

(2) An extractive operation begins when contact is made with the actual type of natural raw product being recovered and no exemptions in the nature of industrial processing are to be considered pending such contact. Processing includes all necessary processing operations before shipment from the place of extraction, except that tangible personal property consumed or used in the construction, alteration, improvement or repair of buildings, storage tanks, storage and housing facilities is taxable. The sale of tangible personal property for consumption or use in transporting the product from the place of extraction is taxable.

(3) If an extractive operator sells any part of his product at retail, or if he consumes or uses it himself in other than the manufacturing or producing of a product for ultimate sale, extractions thus sold or used are taxable and the extractor shall account for and remit the tax to the state. When he consumes or uses his own product, the tax shall be based upon its fair market value. Where an extractor sells to a wholesaler, refiner, manufacturer or other person for resale, the tax does not apply. However, where an extractor sells to a final buyer or ultimate consumer, the tax applies to the gross proceeds of such sales.

(4) The drilling or prospecting for oil, gas, brine or other natural resources does not constitute industrial processing. Sales of equipment, materials and supplies used in exploring for natural resources and sales of equipment and materials used in the drilling of oil, gas and brine wells are taxable.

(5) The actual production of oil, gas, brine or other natural resources constitutes industrial processing and exempts from application of the tax casing pipe and drive pipe commonly known as 8-inch or under (8⅝-inch O.D.); tubing; well-pumping equipment; chemicals, explosives and acids used in fracturing, acidizing or shooting wells; Christmas trees and other well-head equipment; treatment tanks; piping, valves and pumps used before movement or transportation of the natural resource from the production area; and chemicals and acids used in treating such crude oil, gas, brine or other natural resources.

(6) The storage of oil, gas, brine or other natural resources (including underground storage) does not constitute industrial processing. Sales of equipment, material and supplies used in the storing, withdrawing or distribution of oil, gas or brine from a storage facility are taxable.

History: 1944 AC, p. 1336; 1944 ACS 31, p. 22; 1954 AC, p. 928; 1954 ACS 29, p. 8, Eff. Feb. 14, 1962; 1954 ACS 42, p. 10, Eff. May 15, 1965; 1954 ACS 71, p. 9, Eff. May 31, 1972.

R 205.100 Tombstones, markers, and other memorials.

Rule 50. (1) Memorial dealers are retailers of tombstones, markers and other memorials sold by them and also of the materials used in setting a memorial in the cemetery. Such sales are subject to tax.

(2) If the memorial dealer furnishes a memorial and sets it in the cemetery for a lump sum, the tax applies to the entire amount charged. If a separate and additional charge is made for the labor of setting the memorial, the tax does not apply to this labor charge. No deduction may be made of charges for cutting, shaping, polishing or lettering a memorial or for transporting it to the cemetery.

(3) When a cemetery constructs the foundation upon which a memorial is placed and collects the charges therefor from the memorial dealer who then either collects that amount from his customer or includes it in the charge for the memorial, the memorial dealer is the retailer of the foundation or the material used therein and must pay the tax on it. The cemetery in this case is deemed to be acting as the agent of the memorial dealer in constructing the foundation.

(4) If the cemetery collects the charges for foundations directly from customers of the memorial dealer, the cemetery is the retailer and must pay the tax to the state on the charges for the foundations or for the materials alone when the latter are charged separately.

History: 1944 AC, p. 1336; 1954 AC, p. 928.

R 205.101 Morticians, undertakers, and funeral directors.

Rule 51. (1) Morticians, undertakers, and funeral directors are construed to be rendering a service beyond the selling of tangible personal property, therefore, their sales are taxable as follows.

(2) Where a lump sum charge is made for the ordinary funeral, consisting of the casket complete with rough box, embalming and care of the deceased, use of hearse, limousine, funeral chapel and establishment and professional services, it is assumed that 50% of such lump sum charge is tangible personal property and subject to the tax.

(3) The tax will apply to the entire charges made on purchases that are not included in lump sum billing which may be in the nature of extras. The tax will not apply to accommodation cash advances for such items as cemetery charges, newspaper notices, railroad tickets, ministerial fee, choir, etc.

(4) If the casket and other tangible personal property furnished for a funeral are segregated on the invoice and also in the records of the undertaker, the tax applies to the price charged for each item of tangible personal property, provided such price is the fair retail value of such personal property.

(5) Direct sales to a governmental entity are exempt. This exemption does not include payments from social security benefits, veterans' administration benefits, and similar participation benefits accruing to the deceased under various federal and state laws.

(6) All equipment, ambulances, hearses, embalming equipment and materials, chapel furnishings, etc., are presumed to be used or consumed by the mortician, undertaker or funeral director in rendering a service and such sales to them are subject to the tax. Generally speaking, these commodities are classified as trade tools or equipment that have more than a 1 time use.

History: 1944 AC, p. 1337; 1954 AC, p. 929; 1954 ACS 69, p. 25, Eff. Nov. 1, 1971.

R 205.102 Multigraphers and mimeographers.

Rule 52. (1) Sales of tangible personal property by multigraphers, mimeographers, and similar establishments are taxable, except when for resale or to be used in "industrial processing" (R 205.90).

(2) A multigrapher or mimeographer may not deduct from the selling price of an item, the labor or other service charge in performing the job even though it is shown separately and regardless of when the services are performed. The labor cost is considered part of the cost of the article sold. Amount paid for postal privileges never becomes part of the price upon which tax is figured.

(3) When a customer furnishes his own printed paper stock and a multigrapher or mimeographer imprints thereon the name, address, telephone number, etc., this is merely service and not taxable.

(4) If government post cards or stamped envelopes are furnished by the customer to the multigrapher or mimeographer, receipts for imprinting the cards or envelopes are not taxable.

(5) Sales to multigraphers and mimeographers of equipment and materials consumed or used directly in the processing of their product are not taxable. However, when sold to persons not regularly engaged in mimeographing or multigraphing for sale, they are taxable.

(6) This rule also applies to persons engaged in the business of conducting a letter service for others, regardless of the method used to produce such letters.

History: 1944 AC, p. 1337; 1944 ACS 31, p. 22; 1954 AC, p. 929; 1954 ACS 69, p. 25, Eff. Nov. 1, 1971.

R 205.103 Newspapers, magazines, and other publications.

Rule 53. (1) The sale or purchase of the following types of newspapers and periodicals is exempt from application of sales or use taxes:

(a) As admitted under present federal postal laws and regulations as second class mail matter.

(b) As admitted under present federal postal laws and regulations as controlled circulation publications.

(c) Qualified to accept legal notices for publication in this state.

(d) Of general circulation if established at least 2 years and published at least once a week.

(2) All tangible personal property used or consumed and not becoming a component part of newspapers and periodicals is subject to tax. (See R 205.113.)

History: 1944 AC, p. 1337; 1944 ACS 31, p. 23; 1954 AC, p. 930; 1954 ACS 7, p. 14, Eff. Aug. 14, 1956; 1954 ACS 69, p. 26, Eff. Nov. 1, 1971.

R 205.104 Optometrists, ophthalmologists, opticians, and optical supply houses.

Rule 54. (1) Licensed optometrists and ophthalmologists who examine, prescribe, and dispense eyeglasses and contact lenses are considered for sales tax purposes to be making retail sales. A sales tax license is required for this activity.

(2) Sales of eyeglasses prescribed or dispensed to correct a person's vision by an ophthalmologist, optometrist, or optician, and repair and replacement parts for such eyeglasses, are exempt. Contact lenses are taxable, except when prescribed by an optometrist or ophthalmologist for a specific disease which precludes the use of eyeglasses. Examination charges when billed separately are exempt.

(3) Sales by opticians and optical supply houses to optometrists and ophthalmologists are exempt in both of the following situations:

(a) When sold for resale, provided the optometrist or ophthalmologist is properly registered as a retailer as noted in subrule (1).

(b) When sold pursuant to a specific prescription, except as noted in subrule (2).

(4) Sales of machinery and apparatus used directly in the manufacture of eyeglasses for resale are not taxable. Sales of all other equipment and materials to opticians are taxable.

(5) Sales at retail by a person regularly engaged in any of the businesses mentioned above of stock accessories, such as sunglasses, barometers, thermometers, telescopes, opera glasses, solutions for cleaning glasses, lorgnettes, chains, ribbons, and similar items, are taxable.

(6) If an optician employs an optometrist or ophthalmologist, and sells eyeglasses directly to the ultimate consumer, the sale will be exempt if in fulfillment of a prescription issued by the optometrist or ophthalmologist.

(7) Physicians acting in the capacity of optometrists or ophthalmologists are subject to this rule. (See R 205.111.)

History: 1944 AC, p. 1337; 1954 AC, p. 930; 1954 ACS 78, p. 6, Eff. Mar. 1, 1974; 1954 ACS 100, p. 62, Eff. July 27, 1979.

R 205.105 Paper and paper products.

Rule 55. (1) The sale of paper or paper products to be used or consumed in "industrial processing" (R 205.90), "agricultural producing" (R 205.51), or as certain "containers" (R 205.68) is not taxable. However, responsibility for the tax is upon the person selling to the consumer and the seller should assure himself that the sale is not taxable in accordance with the cited rules.

(2) The sale of paper or paper products to persons regularly engaged in the printing business, which paper actually becomes a part of, or is used directly in the processing of, a printer's product to be sold at retail is not taxable. All other sales, not for resale, of paper or paper products to printers are taxable.

(3) All sales of paper and paper products are taxable when consumed or used by servicers, repairers, professions and other businesses whose gross receipts are not taxable.

(4) The sale of paper or paper products used or consumed in the actual processing of dairy products is not taxable. All other sales of paper or paper products for use in dairies or creameries are taxable.

(5) If in doubt as to the taxability of certain sales, write to the department giving full information as to how the product is actually used or consumed.

History: 1944 AC, p. 1338; 1954 AC, p. 930; 1954 ACS 69, p. 28, Eff. Nov. 1, 1971.

R 205.106 Pawnbrokers.

Rule 56. Pawnbrokers are engaged primarily in the business of lending money for the repayment of which they accept as security tangible personal property

Digitized by Google

from the pawner or pledger. In case the pawner or pledger does not redeem the property pledged or pawned within the specified time and the property is forfeited and title rests in the pawnbroker, the gross proceeds realized by the pawnbroker from a subsequent sale of the articles are taxable.

History: 1944 AC, p. 1338; 1954 AC, p. 931.

R 205.107 Pharmacists.

Rule 57. (1) The sale of prescription drugs for human use by a licensed pharmacist is exempt from tax. To qualify for this exemption, the pharmacist shall have a specific prescription as prescribed by a physician or other licensed practitioner of the healing arts.

(2) Retail sales of any apparatus, device, appliance, or equipment used to replace or substitute for any part of the human body, or used to assist the disabled person to lead a reasonably normal life, are exempt when the tangible personal property is purchased on a written prescription or order issued by a licensed health professional. (See R 205.139 for definition of "licensed health professional.")

(3) To support the exemption claimed when filing the required return, a pharmacist shall keep a record showing the date the prescription is issued, the name of the person issuing it, the name of the individual for whose consumption it is issued, the contents of the formula prescribed, and the amount charged to the consumer. This information may appear either in the form of the original prescription attached to a substantial record in chronological order or in a transcribed record in the same order. These records shall be kept for a period of 4 years.

(4) Insulin dispensed by a pharmacist, either with or without a prescription, is exempt from the tax.

(5) The sale to consumers of drugs without a prescription is taxable.

(6) Sales of nonprescription apparatuses, devices, or equipment are taxable. Repair and replacement parts are also taxable.

History: 1944 AC, p. 1338; 1954 AC, p. 931; 1954 ACS 88, p. 45, Eff. Aug. 6, 1976; 1954 ACS 100, p. 62, Eff. July 27, 1979.

R 205.108 Philatelists; antiques, curios, and old coins.

Rule 58. (1) Sales of curios, antiques, art work, coins, postage stamps and like articles to art collectors, philatelists, numismatists or other persons who purchase such items for use or storage and not for immediate resale are sales subject to tax.

(2) Sales of uncancelled United States postage or revenue stamps valid for transportation of mail or for revenue tax purposes are not taxable. Sales of cancelled domestic or foreign stamps or of uncancelled foreign postage stamps not valid for transportation of mail in the United States are taxable.

History: 1944 AC, p. 1338; 1954 AC, p. 931.

R 205.109 Photographers and photo finishers.

Rule 59. (1) The making of photographs for sale is an industrial process, and tangible personal property used and consumed directly in the process is not taxable.

(2) The total amount charged for making photographs, including the camera charge, is taxable. When an order is not received from proofs, the amount of the deposit retained is not taxable.

(3) The development and processing of exposed film or negatives in black and white or in color, and the production of film strips, slides, or prints therefrom, are subject to sales tax on the total price charged to the customer. The purchase of

machinery, equipment, materials, and supplies used by the processor in processing the exposed film, and in the production of the film strips, slides, and prints, are exempt from tax as being a part of an industrial process.

(4) The coloring or tinting of photographs returned to the photographer for such a purpose is a nontaxable service. However, if the coloring or tinting of the photograph is included in a quoted price, the total amount is taxable.

(5) Sales of cameras, films, frames, and other articles to the consumer are taxable.

(6) Sales of x-ray films to laboratories, physicians, surgeons, and dentists, and to other persons primarily engaged in rendering x-ray services, are taxable.

History: 1944 AC, p. 1338; 1944 ACS 31, p. 23; 1954 AC, p. 931; 1954 ACS 26, p. 26, Eff. May 15, 1961; 1954 ACS 69, p. 27, Eff. Nov. 1, 1971; 1954 ACS 88, p. 45, Eff. Aug. 6, 1976.

R 205.110 Telephone and telegraph.

Rule 60. (1) Use tax applies on income derived from intrastate telephone, telegraph, leased wire, private line, teletypewriter and similar communications services. The tax applies only on such services which both originate and terminate in Michigan.

(2) The tax does not apply on income from coin-operated installations, directory advertising proceeds, or on charges to telephone answering services for switchboards, concentrator-identifiers, interoffice circuitry and their accessories. Charges for lines, stations, toll calls and other services and equipment to such answering services which are normally furnished to a subscriber are taxable.

(3) The tax does not apply on sales of services to the United States government, the state of Michigan, political subdivisions of the state of Michigan or to the American red cross.

(4) The tax does not apply on services sold to schools, hospitals, homes for the aged or children, or other health, welfare, educational or charitable institutions or agencies not operated for profit or benefit to the shareholders.

(5) Sales or use tax applies on purchases of tangible personal property by sellers of taxable communication services except exemption will prevail on the necessary exchange equipment and on the tangible personal property acquired for installation on the premises of the subscriber.

(6) Sales or use tax will apply on tangible personal property purchased and used in providing the exempt services noted in preceding paragraphs.

History: 1944 AC, p. 1339; 1944 ACS 31, p. 23; 1954 AC, p. 932; 1954 ACS 26, p. 27, Eff. May 15, 1961; 1954 ACS 29, p. 9, Eff. Feb. 14, 1962; 1954 ACS 34, p. 8, Eff. May 15, 1963.

R 205.111 Physicians, surgeons, dentists, veterinarians, osteopaths, and other practitioners.

Rule 61. (1) Physicians, surgeons, dentists, veterinarians, osteopaths or other practitioners of the healing arts not otherwise specifically provided for in these rules render nontaxable services.

(2) Sales of drugs, medications, instruments, equipment and other tangible personal property to such persons for use in rendering professional services or in connection with their office, laboratory or other similar quarters are taxable.

(3) Sales by dental supply houses and others to dentists or dental laboratories of materials, supplies and equipment used in the rendition of their services are taxable.

(4) If a dental laboratory sells to dentists tangible personal property in its original form upon which no professional services are performed such as cement, gold, cleaning preparations, etc., then such sales shall be considered as sales at

retail and the dental laboratory so engaged must obtain a sales tax license and pay the tax on these sales.

History: 1944 AC, p. 1339; 1954 AC, p. 932; 1954 ACS 26, p. 27, Eff. May 15, 1961; 1954 ACS 78, p. 7, Eff. Mar. 1, 1974.

R 205.112 Premiums and gifts.

Rule 62. (1) Donors of tangible personal property are regarded as consumers thereof and the sale of such property to them is taxable. The sale of goods to be given away for advertising purposes is taxable.

(2) If goods purchased for resale are subsequently given away or used by the retailer, he must include in his use tax return the cost of such goods and pay the tax thereon.

(3) The redemption of trading stamps for premiums is a taxable sale at retail and sales tax is to be paid on the redemption value of the stamps. Sales tax will not apply on stamps redeemed for cash rather than for merchandise. Premiums acquired for "resale" purposes are not subject to sales or use tax.

(4) Purchasers of property to be awarded as prizes, the winning of which depends upon chance or skill, are regarded as consumers thereof and the tax applies to sales of such property to them. Sales of tangible personal property to the operator of a game of skill or chance or similar device are taxable as he is considered the consumer of property used in connection therewith.

History: 1944 AC, p. 1339; 1954 AC, p. 932; 1954 ACS 26, p. 27, Eff. May 15, 1961.

R 205.113 Printers, lithographers, photostaters, typographers, and blueprinters.

Rule 63. (1) Sales of tangible personal property by printers, lithographers, photostaters, typographers and blueprinters are taxable except when such sales are for resale purposes or used in "industrial processing." (See R 205.90.)

(2) Labor charges involved in producing the property for sale cannot be deducted from the selling price regardless of whether or not the charge is billed separately on the sales invoice. The labor cost is considered as part of the "gross proceeds" derived from the sale.

(3) If a customer furnishes his own printing stock which was acquired from another source and the printer imprints thereon the name, address and telephone number, this constitutes the rendition of a service and is not taxable.

(4) Purchases of tangible personal property by a printer, lithographer, photostater, typographer or blueprinter are not taxable when such materials are to be consumed in the producing of a product for resale. (See R 205.90.)

History: 1944 AC, p. 1340; 1954 AC, p. 933; 1954 ACS 26, p. 28, Eff. May 15, 1961; 1954 ACS 69, p. 27, Eff. Nov. 1, 1971; 1954 ACS 78, p. 7, Eff. Mar. 1, 1974.

R 205.114 Professional shoppers.

Rule 64. (1) When a professional shopper purchases tangible personal property either in his own name or in the name of his client, such sales are taxable without deduction for any commission or other compensation of the shopper.

(2) The commission or other compensation paid to professional shoppers employed by retailers to assist customers in selecting and purchasing tangible personal property is not deductible from the selling price of such property on which the tax applies.

History: 1944 AC, p. 1340; 1954 AC, p. 933.

R 205.115 Public utilities; gas, electricity, and steam.

Rule 65. (1) Sales of tangible personal property, including sales of gas, electricity, and steam by public and private utilities, are subject to sales tax, except in

those cases wherein the purchaser is entitled to exemption as specifically provided in the sales and use tax statutes. (See R 205.51 and R 205.90.)

(2) When gas, electricity, or steam is sold to a customer for 2 or more purposes through 1 meter, and 1 of the purposes is taxable while another is exempt, the total consumption as shown by the meter is taxable, except where it is impractical to install separate meters and the consumption for each use can be substantiated in a manner acceptable to the department. On sales of electricity to farmers, if the farmer's total electrical consumption exceeds 1,500 kwh per month, or 2,500 kwh per month for a home with electric heat, during the period of November to March, the consumption in excess will be considered exempt if the farmer provides the seller with the prescribed agricultural producing exemption certificate.

(3) The sale of tangible personal property is not taxable when consumed or used in the process of manufacturing or generating electricity, gas, or steam which is taxable when sold at retail. Transformers used in industrial processing are not taxable.

(4) The sale of tangible personal property consumed or used in the transmission or distribution of electricity, gas, or steam is taxable. Such transmission or distribution starts at the place where the product leaves the immediate premises from which it is manufactured.

(5) When a public utility uses or consumes its own product for purposes not included in "industrial processing" (see R 205.90), the tax applies upon the basis of the cost of the part of its product thus used.

History: 1944 AC, p. 1340; 1954 AC, p. 933; 1954 ACS 26, p. 28, Eff. May 15, 1961; 1954 ACS 69, p. 27, Eff. Nov. 1, 1971; 1954 ACS 100, p. 62, Eff. July 27, 1979.

R 205.116 Restaurants, hotels, lunchrooms, and other establishments.

Rule 66. (1) The tax applies to sales of meals, foods, or beverages of any kind, and to sales of other tangible personal property, by restaurants, hotels, cafes, bars, caterers, lunch counters, lunch wagons, and other establishments engaged in the business of preparing and selling food or beverages for direct consumption, on or off the premises.

(2) The tax applies to the cover or minimum charge and all other charges, except to those charges for entertainment and dancing, separately listed on the bill or collected as an admission fee or fixed charge.

(3) When food is delivered or served at a location other than the place of business of the retailer or in a room other than a regular dining room, and an extra charge is made for that service, the entire amount is taxable.

(4) Banquets, dinners, and similar functions served by hotels or other establishments covered by this rule are subject to tax at the contracted price per plate or seat, or at the minimum price, whichever is greater. Charges for flowers are taxable.

(5) Amounts paid as a gratuity and distributed to the employees as a gratuity, and not as a wage, are not considered as part of the tax base when that gratuity is separately identified and itemized on the guest check or billed to the customer. All service charges in connection with the transfer of tangible personal property shall be included as part of the tax base.

(6) All tools, equipment, and materials used or consumed in the preparation of food or beverages for retail sale are taxable. Materials which become an ingredient or component part of the prepared food or beverage may be purchased for resale by the preparer, tax exempt.

(7) Meals provided to employees are taxable. When provided without charge, the actual cost of the meals shall be taxed at the cost shown by the employer's

records. When records are not available, each meal furnished shall be taxed at the cost of 45 cents a meal. The actual number of meals served shall be taxed if satisfactory records are maintained to establish the number. If the employer furnishes board and room, it is presumed that 3 meals a day per employee are served 7 days a week. If meals only are provided, it is presumed that 2 meals a day per employee are served each working day.

(8) Fraternities, sororities, and other student societies, with members residing at a common location and jointly sharing household expenses, including meals, are not considered to be selling at retail. Sales to these organizations of tangible personal property, other than food and nonalcoholic beverages for preparation and consumption at the consumer's location, are subject to tax.

History: 1944 AC, p. 1340; 1944 ACS 31, p. 24; 1954 AC, p. 934; 1954 ACS 28, p. 28, Eff. May 15, 1961; 1954 ACS 42, p. 11, Eff. May 15, 1965; 1954 ACS 69, p. 28, Eff. Nov. 1, 1971; 1954 ACS 88, p. 46, Eff. Aug. 6, 1976.

R 205.117 Repairers and servicers.

Rule 67. (1) Persons regularly and exclusively engaged in the business of repairing, improving, or altering tangible personal property owned by others, in which work the value of the material used is incidental or negligible, render a nontaxable service. Sales of equipment, materials, and supplies to such persons are taxable. For example, sales to the following are taxable: Bootblacks, cleaners and dyers, garment repairers, jewelry and watch repairers, linen suppliers and laundries, radio repairers (radio tubes not being considered repair material), refrigerator repairers, small tool sharpeners, and welders.

(2) Sales for resale to a person who has a sales tax license and an established business of one of the following types are not taxable, but sales to such a person of all other tangible personal property are taxable: Automobile repairers or garages, electrical repairers, machinery repairers, upholsterers and furniture repairers, and shoe repairers.

(3) Persons selling tangible personal property in addition to providing labor or service shall obtain a sales tax license and pay the tax on their sales of tangible personal property, including such property sold in connection with repair work. When both labor and service charges are involved in repair work for others, the retailer shall separately itemize the amount charged for the tangible personal property sold; otherwise, the tax shall apply to the total gross proceeds.

(4) A person engaged in a repair or service business not specifically covered may write the department for information.

History: 1944 AC, p. 1341; 1954 AC, p. 934; 1954 ACS 88, p. 46, Eff. Aug. 6, 1976.

R 205.118 Shoe repairers.

Rule 68. (1) When persons in the business of repairing shoes affix soles, heels, laces, sewing thread, nails, etc., to the property of their customers they sell tangible personal property at retail and also render services. It shall be considered that of the amount received by them for repairing shoes, etc., the taxable sale of tangible personal property is 35% and the sale of the nontaxable services 65% of such amount.

(2) The sale of leather, heels, laces and other shoe findings by shoe repairers (not used in connection with repair work but sold directly to purchasers for use) is taxable on the full amount of such sale.

(3) Vendors who sell machinery, tools and other equipment to shoe repairmen are subject to either the sales or use taxes, as the case may be, on the full amount of such sales.

History: 1944 AC, p. 1341; 1954 AC, p. 934.

R 205.119 Sign painting.

Rule 69. (1) The painting and selling of detached metal, wood, cardboard or paper signs constitute a retail sale and tax applies on the full selling price without deduction for any costs incurred in producing the sign.

(2) A sign painter, working on the property of others, is a servicer and a sales tax license is not required unless, in addition to this work, he also makes retail sales of manufactured signs. Sales of tangible personal property to sign painters for use or consumption in performing services for others are taxable.

History: 1944 AC, p. 1341; 1954 AC, p. 935; 1954 ACS 28, p. 29, Eff. May 15, 1961.

R 205.120 Small loans.

Rule 70. Persons regularly engaged in the business of granting loans, the repayment of which is secured by tangible personal property, are deemed to be in the business of selling at retail, insofar as the sale of such property is necessitated by the default of the loanee. Such persons engaged in the small loan business should obtain a sales tax license and remit the tax to the state on sales of such property.

History: 1944 AC, p. 1341; 1954 AC, p. 935.

R 205.121 Social and fraternal organizations.

Rule 71. (1) The sale of tangible personal property to all social and fraternal organizations is taxable. Such organizations include fraternal societies, trade or professional associations, lodges, orders and their auxiliaries and other similar organizations.

(2) If such an organization operates a cafeteria, soda fountain or other eating or beverage place of business or sells athletic equipment, clothing or other tangible personal property, it shall obtain a sales tax license and pay the tax to the state on total receipts from such sales. However, such organization is entitled to a deduction on its tax return of the amount on which it paid the tax when purchasing the property.

History: 1944 AC, p. 1341; 1954 AC, p. 935; 1954 ACS 7, p. 14, Eff. Aug. 14, 1956.

R 205.122 Tailors, clothiers, dressmakers, and milliners.

Rule 72. (1) Total gross receipts from all sales of tangible personal property by custom tailors, clothiers, dressmakers and milliners for consumption or use are taxable, with no deduction for services or other costs.

(2) When such a person does not provide the goods worked upon and sells services only, such services are exempt even though they include incidental and negligible items of material like thread, tape, buttons, etc., but the sale of such items to him are taxable.

(3) Where ready-to-wear suits, dresses, hats, etc., are sold at an established price, charges for alterations are not taxable only if charged separately. If such alterations involve the sale of material such as linings, trimmings, etc., the tax applies to the total charge unless the material is billed separately.

History: 1944 AC, p. 1342; 1954 AC, p. 935.

R 205.123 Theaters and motion picture houses.

Rule 73. (1) Sales to theaters, motion picture houses, and other similar places or sources of amusement or entertainment are taxable. Such sales include equipment and fixtures of all kinds and materials used in constructing, altering, improving or repairing buildings, grounds, fixtures or equipment.

(2) Where such establishments also sell tangible personal property directly or indirectly to the ultimate consumer, the sales tax rules applicable to the particular kind of sales or class of business will govern. For indirect sales R 205.95, "Leased departments," and R 205.70, "Consignments," will apply.

History: 1944 AC, p. 1342; 1954 AC, p. 935; 1954 ACS 26, p. 29, Eff. May 15, 1961.

R 205.124 Transportation charges.

Rule 74. For the purpose of computing the tax, no deduction is allowable on account of freight, express, mail, cartage or other transportation or delivery charges incurred or to be incurred on tangible personal property prior to completion of transfer of ownership of such property from the seller to the purchaser for use or consumption. It is immaterial whether such transportation charges are billed separately or whether they are paid by the seller or the purchaser.

History: 1944 AC, p. 1342; 1954 AC, p. 936.

R 205.125 Upholsterers and furniture repairers.

Rule 75. (1) A furniture repairer or upholsterer primarily renders services and is considered the consumer of incidental items like glue, tacks, nails, paints, varnishes, etc. Sales to him of such items are taxable.

(2) However, sales by an upholsterer or furniture repairer of replacement material such as tapestries, cloth, springs, etc., are taxable. He must obtain a sales tax license and pay the tax to the state. When tangible personal property is sold with repair work, the tax applies to the entire charge unless the taxable items are separately itemized.

(3) Sales of machinery, tools, etc., to furniture repairers and upholsterers for use in their business are taxable.

History: 1944 AC, p. 1342; 1954 AC, p. 936.

R 205.126 Vending machines and other automatic sales devices.

Rule 76. (1) The gross receipts from sales of tangible personal property through vending machines and other automatic sale devices are taxable, except for sales of milk, juices, fresh fruit, candy, nuts, chewing gum, cookies, crackers, and chips. It is immaterial whether the sales are made for money, coins, tokens, or coupons redeemable in money or merchandise. If both taxable and exempt merchandise is sold through the same vending machine, sales tax applies on the total gross proceeds from that machine, unless it can be determined and substantiated to the satisfaction of the department that a percentage or other apportionment is equitable or practical.

(2) The operator of a nonelectric vending machine business, having sales of merchandise wherein the consideration is 10 cents or less, may deduct from the operator's gross proceeds the commissions paid to an exempt nonprofit entity, if the sales are of unsorted nuts, confections, or other merchandise, dispensed at random in substantially equal portions upon insertion of a coin.

(3) The business operator of a vending machine or other automatic sales device is defined, for the purpose of this rule, as the person who, personally or through an agent, removes the coins or other means of payment from the machines and is responsible for their disposition.

(4) The business operator of a vending machine or other automatic sales device shall maintain a sales tax license and shall pay the tax to the state on all taxable sales made through every such machine or device operated by that person.

(5) It is immaterial whether the business operator owns the machine or the merchandise sold thereby. If merchandise belonging to another is sold, the merchandise shall be considered consigned or entrusted to the control of the business operator for sale. (See R 205.70—Consignments.)

(6) The name, address, and sales tax license number of its current business operator shall appear at all times on every vending machine or other automatic sales device from which tangible personal property is sold.

(7) Sales or purchases of vending machines and parts, as well as the tools and equipment for the maintenance thereof, are subject to sales or use tax. Machines used in retail vending of tangible personal property cannot qualify as exempt equipment acquired for "industrial processing" purposes.

History: 1944 AC, p. 1342; 1954 AC, p. 936; 1954 ACS 29, p. 9, Eff. Feb. 14, 1962; 1954 ACS 88, p. 47, Eff. Aug. 6, 1976; 1954 ACS 100, p. 63, Eff. July 27, 1979.

R 205.127 Water.

Rule 77. (1) Sales of water when delivered in bottles, containers or in any manner other than through mains or in bulk tanks in quantities of not less than 500 gallons to a consumer, are taxable, regardless of the use or purpose of the water unless exempt under R 205.90, "Industrial processing" or R 205.51, "Agricultural producing."

(2) The sale of equipment, tools, machinery, pipes, fittings and supplies to a person for consumption or use in distributing and carrying water is taxable.

History: 1944 AC, p. 1343; 1954 AC, p. 936; 1954 ACS 7, p. 14, Eff. Aug. 14, 1956.

R 205.128 Federal and state taxes.

Rule 78. (1) Federal manufacturers' excise taxes imposed on the following products are not deductible from a retailer's gross proceeds in computing sales or use taxes: Trucks, buses, tractors, accessories and similar products, tires and tubes, gasoline and lubricating oil, fishing equipment, and firearms.

(2) The federal retailers' excise taxes imposed on the following products are deductible from a retailer's gross proceeds in computing sales or use taxes: Diesel fuel, liquid petroleum gas, and other special motor fuels.

(3) The federal communications tax imposed on persons using communication services is not part of the tax base for computing the use tax on such services.

(4) Michigan taxes which are deductible when included in gross are as follows:

(a) Motor fuel retailers may deduct from gross proceeds on their sales tax return the amount of Michigan motor fuel tax paid to the state or to the distributor.

(b) The Michigan cigarette tax may be deducted only by taxpayers engaged in the business of selling cigarettes at retail if the seller is not enriched by collecting the sales tax on the full selling price.

History: 1944 AC, p. 1343; 1954 AC, p. 937; 1954 ACS 26, p. 29, Eff. May 15, 1961; 1954 ACS 29, p. 10, Eff. Feb. 14, 1962; 1954 ACS 34, p. 9, Eff. May 15, 1963; 1954 ACS 69, p. 28, Eff. Nov. 1, 1971; 1954 ACS 88, p. 47, Eff. Aug. 6, 1976.

R 205.129 Peddlers and street vendors.

Rule 79. (1) Peddlers and street vendors who do not have regularly established places of business, and not licensed pursuant to the sales tax act, are deemed to be the final users or consumers of the tangible personal property which they purchase. Therefore, persons selling tangible personal property to such persons are making sales at retail, the receipts from which are subject to the sales tax.

(2) Peddlers and street vendors must pay the Michigan use tax on purchases of tangible personal property purchased from outside the state. Such peddler or street vendor may pay such use taxes to his supplier, provided such supplier is authorized to collect use taxes for the state, otherwise, such peddler or street vendor shall be liable for payment of such use taxes directly to the state.

History: 1944 AC, p. 1343; 1954 AC, p. 937.

R 205.130 Tire retreading and vulcanizing.

Rule 80. (1) Gross receipts from retail sales of retreaded tires are taxable. When a person in the business of retreading tires purchases old tires and retreads and sells them to consumers or users, the sales tax applies to the full retail selling price of the tires. Sales of equipment and supplies used for retreading and vulcanizing tires for retail sale are exempt.

(2) When tires are supplied by a customer for retreading or vulcanizing, the sales tax shall apply on the selling price of the materials sold. Labor charges, billed separately to the customer, are not taxable. The materials consumed directly in the retreading or vulcanizing of tires may be purchased for resale without tax. However, sales of all equipment used for retreading and vulcanizing tires for others are taxable.

(3) If tires that require retreading or vulcanizing are traded in or credited for tires that have been retreaded or vulcanized, or for the purchase of other tires, the sales tax applies to the full selling price of the tires accepted by the purchaser.

History: 1944 AC, p. 1344; 1954 AC, p. 938; 1954 ACS 88, p. 47, Eff. Aug. 6, 1976.

R 205.131 Vessels and watercraft.

Rule 81. (1) Sales of vessels designed for commercial use of registered tonnage of 500 tons or more, when produced upon special order of the purchaser, are exempt from tax. Also nontaxable are sales of bunker and galley fuel, provisions, supplies, maintenance, and repairs for the exclusive use of those vessels of 500 tons or more, if those vessels travel from a point in Michigan to a destination in another state. Sales of such items for the use of vessels operating in foreign commerce are taxable.

(2) All sales and purchases of vessels and watercraft, except those noted in subrule (1), are subject to sales or use tax. Persons acquiring watercraft from other than a registered retailer shall be required to pay the use tax to the secretary of state at the time of registration. (See R 205.135—Isolated vehicle, aircraft, watercraft, and snowmobile transfers.)

(3) Sales of fuel and supplies for use on commercial fishing or pleasure craft are subject to tax.

(4) Sales of food for resale on vessels plying the Great Lakes are exempt if the vessel operator has a sales tax license and remits tax on all sales within the territorial waters of Michigan.

History: 1944 AC, p. 1344; 1954 AC, p. 938; 1954 ACS 42, p. 11, Eff. May 15, 1965; 1954 ACS 69, p. 29, Eff. Nov. 1, 1971; 1954 ACS 88, p. 48, Eff. Aug. 6, 1976.

R 205.132 Rentals.

Rule 82. (1) A person engaged in the business of renting or leasing tangible personal property to others shall pay the Michigan sales or use tax at the time he purchases tangible personal property, or he may report and pay use tax on the rental receipts from the rental thereof. A person remitting tax on the purchase

price as a purchaser-consumer or remitting tax on rental receipts as a lessor, shall follow 1 or the other methods of remitting for his entire business operation. A person remitting tax on rental receipts shall be the holder of a sales tax license, or a registration as is provided in the use tax act. Each month such lessor shall compute and pay use taxes on the total rentals charged.

(2) A lessor remitting tax on rental receipts may deduct direct rentals to the United States, the state of Michigan or its local governmental entities, churches (excluding vehicles), schools and other qualified nonprofit institutions or agencies, or to persons or concerns for use in agricultural producing or industrial processing. However, rentals to construction contractors engaged in contract work for such entities are taxable.

History: 1954 ACS 7, p. 14, Eff. Aug. 14, 1956; 1954 ACS 29, p. 10, Eff. Feb. 14, 1962; 1954 ACS 71, p. 9, Eff. May 31, 1972.

R 205.133 Advertising agencies.

Rule 83. (1) The primary function of an advertising agency is to plan, create and arrange for production of advertising on the special order of clients. Their activities are in the nature of special creative services. Part of their services consist in ordering the services, publication space, and the materials necessary to produce advertising as directed by the client. For the convenience of the client it is the practice for the agency to pay for these services and materials and to re-bill the client. The compensation of the agency is derived from discounts available to agencies, but not to advertisers from publications, and from percentage charges added to the cost of services and materials acquired for the client. The practice is to attach invoices from the suppliers to the agency invoice to the client. These activities constitute a service and not a purchase and resale of tangible personal property.

(2) Materials and supplies purchased by the agency and consumed in the operation of the agency are taxable except when such materials or supplies are purchased and are exempt by reason of R 205.69 or R 205.103. When an advertising agency goes beyond the rendition of services and enters the business of selling matrices, sales manuals, record books, advertising novelties, data books, and other tangible personal property, it is required to be licensed and to remit the proper tax.

History: 1944 ACS 31, p. 25; 1954 AC, p. 938.

R 205.134 Radio and television stations.

Rule 84. (1) Sales of tangible personal property to operators of licensed commercial radio or television stations are taxable except when such property is used as a component in the direct production of a film, tape or recording produced for resale or transmission purposes. Production begins at the time of the electronic processing of the signal in the studio and ends at the point at which the signal leaves the studio production equipment and begins transmission to the transmitter.

(2) When a station makes retail sales of cook books or other books, toys, gadgets, nursery stock, building plans, pictures or other tangible personal property, the persons owning such station shall also hold a sales tax license and remit the tax.

History: 1944 ACS 31, p. 25; 1954 AC, p. 938; 1954 ACS 7, p. 15, Eff. Aug. 14, 1956; 1954 ACS 71, p. 10, Eff. May 31, 1972.

R 205.135 Isolated vehicle, aircraft, watercraft, and snowmobile transfers.

Rule 85. (1) The use tax applies on the transfer of vehicles, aircraft, watercraft, and snowmobiles between persons other than for resale by registered dealers. The

tax shall be collected by the Michigan secretary of state before the transfer of any vehicle title or watercraft or snowmobile registration. The tax due on aircraft shall be paid directly to the revenue division, department of treasury, by the purchaser.

(2) All vehicles, aircraft, watercraft, and snowmobiles brought into the state of Michigan for registration purposes within 90 days after the date of purchase are taxable, unless the unit was properly registered by the purchaser in the state or country of purchase, thus signifying the intent of having purchased the unit for first use and consumption in that jurisdiction.

(3) Exemption from use tax is allowed only under the following conditions:

(a) When the transferee or purchaser is the spouse, mother, father, brother, sister, or child of the transferor.

(b) When the transfer is a gift to a beneficiary in the administration of an estate. Sales by an administrator of an estate are taxable.

(c) When a vehicle, aircraft, watercraft, or snowmobile which has once been subjected to sales or use tax is transferred in connection with the organization, reorganization, dissolution, or partial liquidation of an incorporated or unincorporated business in which the beneficial ownership is not changed.

(4) Vehicles, aircraft, watercraft, or snowmobiles purchased as part of the total assets of a business are taxable. The tax due shall be computed on the actual book value of the property at the time of transfer.

(5) The base price to be used in computing the tax liability shall not be less than its retail dollar value as listed in any recognized guide for use or appraisal purposes.

(6) Questions regarding taxability of specific transactions shall be referred to the revenue division, department of treasury.

History: 1954 ACS 29, p. 11, Eff. Feb. 14, 1962; 1954 ACS 34, p. 9, Eff. May 15, 1963; 1954 ACS 42, p. 12, Eff. May 15, 1965; 1954 ACS 71, p. 10, Eff. May 31, 1972; 1954 ACS 100, p. 63, Eff. July 27, 1979.

R 205.136 Food for home consumption.

Rule 86. (1) Retail sales of food for human consumption normally considered as grocery items for home consumption are tax exempt.

(2) Alcoholic products, such as beer, wine, and liquor, are taxable.

(3) Tobacco and tobacco products are taxable.

(4) Prepared food intended for immediate consumption is taxable. All prepared food and drink items sold by a restaurant, coffee shop, cafeteria, short order cafe, luncheonette, lunch counter, grill, tea room, take-out food service, drive-in, or similar establishments, are taxable.

(5) Prepared food sold by various organizations, such as churches or charitable, benevolent, social, or fraternal groups, including fund raising projects, is taxable. Such organizations shall have a sales tax license for the purpose of reporting the tax due.

(6) Sales of prepared food and drink by a caterer are subject to tax.

(7) Sales of prepared food cooked to the order of the purchaser, or maintained at a temperature higher than normal room temperature, are taxable.

(8) Vending machine sales of tangible personal property are subject to sales tax, except sales of milk, juices, fresh fruit, candy, nuts, chewing gum, cookies, crackers, and chips. If both taxable and exempt merchandise is sold through the same vending machine, sales tax applies on the total gross proceeds from that machine, unless it can be determined and substantiated to the satisfaction of the department that a percentage or other apportionment of sales is equitable and practical.

(9) Examples of nontaxable food items normally sold by a grocer or other food retailer for off-premises consumption are listed below to serve as a guide for both the retailer and the consumer.

Baby foods
Bakery products
Baking soda
Boullion cubes
Candy and confectionery
Carbonated beverages
(bottle deposits are exempt)
Candied apples
Caramel-coated popcorn
Cereal and cereal products
Chewing gum (nonmedicated)
Chocolate
Cocoa
Coconut
Coffee and coffee substitutes
Condiments
Cookies
Crackers
Dehydrated fruit and vegetables
Diet food
Dietary supplements
Eggs and egg products
Extracts, flavoring as an
ingredient of food products
Fish and fish products
Flour
Food coloring
Fruit and fruit products
Fruit juices
Gelatin
Health foods
Honey
Ice cream, topping, and novelties
Insulin
Jams
Jellies
Lard
Marshmallows
Mayonnaise
Meat and meat products
Milk and milk products
Mustard
Nuts
Oleomargarine
Olive oil
Olives
Peanut butter
Pepper
Pickles
Pop (bottle deposits are exempt)
Popcorn
Potato chips
Powdered drink mixes
(pre-sweetened or natural)
Prescription drugs
Relishes
Salad dressings and dressing mixes
Salt
Sauces
Sherbets
Shortenings
Soft drinks
Soups
Spices
Sandwich spreads
Sugar, sugar products, and
sugar substitutes
Syrups
Tea
Vegetables and vegetable products
Vegetable juices
Vegetable oils
Vitamins
Yeast

(10) The following examples of nonfood items are subject to tax:

Alcoholic beverages
Cocktail mixes (dry or liquid)
Drugs (nonprescription)
Household supplies
Hot prepared foods
Ice
Nonprescription medicines
Paper products
Pet foods and supplies
Prepared foods for immediate consumption
Soap and soap products
Toothpaste
Water, including mineral and distilled

History: 1954 ACS 88, p. 48, Eff. Aug. 6, 1976; 1954 ACS 100, p. 64, Eff. July 27, 1979.

R 205.137 Air and water pollution.

Rule 87. (1) Tangible personal property purchased for installation as a component part of a water pollution control facility or an air pollution control facility

for which a tax exemption certificate is issued by the state tax commission is exempt from tax.

(2) When sales or use tax has been paid on tangible personal property which later qualifies for exemption as a result of obtaining a certificate of exemption from the state tax commission, a refund may be requested by the purchaser upon submission of both of the following documents to the revenue division:

(a) A copy of the exemption certificate issued by the tax commission indicating the approved cost of the tangible personal property installed and entitled to exemption.

(b) A copy of the seller's invoice showing the name and address of seller, identification of purchaser, identification of the items purchased, date of purchase, and amount of tax paid to seller.

History: 1954 ACS 100, p. 65, Eff. July 27, 1979.

R 205.138 Energy conversion devices.

Rule 88. (1) Sales of tangible property for a solar, wind, or water energy conversion device to heat, cool, or electrify an existing or new residential or commercial building, or to heat water for use in such buildings, are exempt, provided a tax exemption certificate is obtained from the state tax commission covering the cost of materials used in the installation.

(2) To qualify for this exemption, an application for such a certificate shall be filed with the assessor in the city or township in which the installation will be made. Forms for this purpose are prescribed by the state tax commission.

(3) On those occasions when sales or use tax has been paid on tangible property which has later qualified for exemption as the result of obtaining a certificate of the exemption from the state tax commission, a refund can be obtained by the purchaser upon submission of both of the following documents to the revenue division:

(a) A copy of the exemption certificate indicating the cost of the tangible property installed.

(b) A copy of the purchase invoice showing the specific item or items purchased, date of purchase, and the amount of tax paid.

History: 1954 ACS 100, p. 65, Eff. July 27, 1979.

R 205.139 Medical equipment and appliances.

Rule 89. (1) Retail sales of hearing aids and replacement parts are exempt from tax.

(2) Retail sales of any apparatus, device, appliance, or equipment used to replace or substitute for any part of the human body, or used to assist the disabled person to lead a reasonably normal life, are exempt if purchased on a written prescription or order issued by a licensed health professional. Repair and replacement parts for such items are also exempt.

(3) A "licensed health professional" means a physician, dentist, nurse, podiatrist, optometrist, or other individual licensed, certified, or authorized by the director of the department of public health to practice that specific profession in his or her respective state.

(4) To support the exemption claimed for prescription sales when filing the required tax return, the seller shall keep a record showing the date the prescription was issued, the name of the person issuing it, the name of the individual for whose consumption it was issued, a brief description of the property sold, and the amount charged to the customer. The prescription should be attached to the

seller's copy of the sales invoice or retained in such a manner as will permit the department to verify the authenticity of the exemption.

(5) Examples of the kind of medical appliances that may qualify for exemption if sold pursuant to a written prescription or order are as follows:

Artificial eyes
Artificial limbs
Braces
Canes
Corrective shoes
Crutches
Dialysis machine
Hydraulic (patient) lifts
Hypodermic syringes & needles
Orthotic supports (bandages, belts, and similar supplies)
Oxygen equipment
Pacemakers
Post-surgical bust forms
Pressure pads
Specially built hospital beds
Stoma appliances (colostomy, ileostomy, ureterostomy, catheters)
Trusses
Walkers
Wheelchairs

(6) Sales of nonprescription apparatus, devices, or equipment, are taxable. Repair and replacement parts are also taxable.

History: 1954 ACS 100, p. 66, Eff. July 27, 1979.

R 205.140 Nonprofit entities.

Rule 90. (1) Sales of tangible personal property and services to properly qualified nonprofit entities for their own use and consumption, but not for resale, are exempt.

(2) The claimant shall meet the following requirements for exemption:

(a) Qualify as a school, hospital, home for the care and maintenance of children or aged persons, and other health, welfare, educational, charitable, or benevolent institutions and agencies.

(b) Be operated by an entity of government, a regularly organized church, religious or fraternal organization, a veterans organization, or a corporation incorporated under laws of the state.

(c) The income or benefit from the operation shall not inure, in whole or in part, to any individuals or private shareholders, directly or indirectly.

(d) The activities of the entity or agency shall be carried on exclusively for the benefit of the public at large and not limited to the advantage, interests, and benefits of its members or any restricted group.

(3) When an exemption is claimed, the seller, at the time of the transfer of the tangible property or services, shall retain, as part of the seller's records, an executed exemption certificate which reads as follows:

CERTIFICATE IS TO BE EXECUTED WHEN TAX-EXEMPT SALE IS MADE TO AN EXEMPT INSTITUTION OR AGENCY

The undersigned hereby certifies that the item or items being purchased are to be used or consumed in connection with the operation of the exempt institution or agency named in the space provided below, and that the consideration for this purchase moves from the funds of the designated institution or agency. In the event this claim is disallowed, the transferee promises to reimburse the seller for the amount of tax involved.

Date _____

_____
Name of exempt institution or agency

_____
Signature and title of person making certification

(4) The department does not issue so-called "exemption numbers." If there is some question regarding exemption status, the claimant may contact the department for a ruling.

(5) Nonprofit entities engaged in a retail sales activity of any kind are required to have a sales tax license. The fact that the receipts or profits from such sales may be used for otherwise exempt purposes is not material.

History: 1954 ACS 100, p. 66, Eff. July 27, 1979.

INTANGIBLES TAX

(By authority conferred on the department of revenue by section 12 of Act No. 301 of the Public Acts of 1939, as amended, being §205.142 of the Michigan Compiled Laws)

R 205.201 Filing of returns.

Rule 1. (1) No return shall be required under this act from any person not liable to the tax imposed by the act, over and above all exemptions and deductions, except as provided in sections 4, 4a, and 10 of the act or as may be requested by the department of revenue.

(2) Information returns shall be filed in such form as shall be precribed by the department listing by name or description all intangible personal property which is subject to tax under the act and held for an owner for investment or reinvestment as agent, trustee, manager or attorney. Such returns shall also be filed by any person domiciled in or carrying on or transacting business in Michigan, as trustee or agent for another, and who has in his custody any taxable intangible personal property of another for investment or collection. Such information returns shall be filed on or before 90 days after the close of the calendar year unless permission of the department to file on some other date shall have been granted.

(3) It will be unnecessary for information returns to be filed as required in the foregoing provisions if the person having intangible personal property of another in his custody shall file the tax return and pay the tax on such property in behalf of the owner, as defined in the act.

History: 1944 AC, p. 1344; 1944 ACS 5, p. 28; 1954 AC, p. 939.

R 205.202 Records of taxpayer.

Rule 2. (1) Any person liable for any tax under the act must at all times keep such data as shall be necessary to prepare a tax return and preserve the same, at some place in the state of Michigan available to representatives of the department of revenue, for a period of not less than 3 years after the date set for the filing of the return for the tax to which they relate. No particular form of keeping records is required. The records must be sufficient to enable the department of revenue to ascertain whether the tax for which the taxpayer is liable is correctly computed.

(2) Any person making a return under the act shall keep on file a copy thereof and the records pertaining thereto for a period of not less than 3 years after the date of the filing thereof, unless previously audited by the department of revenue, at some place in the state of Michigan available to representatives of the department of revenue.

History: 1944 AC, p. 1344; 1944 ACS 5, p. 28; 1954 AC, p. 939.

R 205.203 Parent and subsidiary companies.

Rule 3. (1) Subsidiary and parent corporations are separate legal entities, and are to be treated as separate entities with respect to their intangible personal property, including their receivables and payables.

Digitized by Google

R 205.205 Other corporation reports.

Rule 5. Every corporation, domestic or foreign, doing business in the state of Michigan, will be required to file with the department of revenue a copy of its return filed annually with the Michigan corporation and securities commission in connection with the payment of its annual privilege fee, concurrently with the filing of the original thereof. In case the department of revenue shall consider that such report does not furnish the necessary information, the department may require a special or supplemental report from the corporation.

History: 1944 AC, p. 1345; 1944 ACS 5, p. 26; 1944 ACS 16, p. 16; 1954 AC, p. 940.

R 205.206 List of stockholders.

Rule 6. Every domestic or foreign corporation, doing business in Michigan, upon request by the department of revenue, shall file with the department a list of its Michigan resident shareholders. Such list shall contain the names, addresses and amount of its stock held by such shareholder, according to the last available records of the corporation. Such list shall also contain a statement of the dividends paid, if any, per share on each class of stock outstanding during the year.

History: 1944 AC, p. 1345; 1944 ACS 5, p. 26; 1944 ACS 16, p. 16; 1954 AC, p. 940.

R 205.207 Rescinded.

History: 1944 AC, p. 1345; 1944 ACS 5, p. 27; 1954 AC, p. 940; rescinded 1954 ACS 48, p. 6, Eff. Nov. 14, 1966.

R 205.208 Worthless securities and debts.

Rule 8. (1) Securities and debts which have definitely been ascertained to be worthless and which have been actually charged off or written off by the taxpayer are not subject to the tax. In the event a court has determined that certain securities in reorganization have no value and do not participate in the liquidation or reorganization, such securities may be considered as worthless and omitted from the return.

(2) Partial charge-offs and reserves for loss on securities or bad debts will not be recognized and may not be deducted for the purpose of computation of the tax.

History: 1944 AC, p. 1345; 1944 ACS 5, p. 27; 1954 AC, p. 940.

R 205.209 Margined or pledged stocks or other intangible property.

Rule 9. (1) Securities purchased on marginal accounts are taxable in full to the purchaser thereof, without deduction of the amount of liens thereon. The broker handling such transactions or holding such securities for the purchaser is deemed to be an agent, acting for and on behalf of the purchaser.

(2) A note which is pledged as security for a loan remains the property of the pledgor. If a note is actually discounted so that the bank or other pledgee becomes the legal owner with merely the right to rely on endorsement of the person

discounting the note, the bank or pledgee is the owner. The same principle applies to other securities and intangibles.

History: 1944 AC, p. 1345; 1944 ACS 5, p. 27; 1954 AC, p. 941.

R 205.210 Investment trust shares.

Rule 10. Investment trust shares and voting trust certificates are taxable the same as stock in other corporations. It makes no difference whether or not the trust itself is incorporated.

History: 1944 AC, p. 1346; 1944 ACS 5, p. 27; 1954 AC, p. 941.

R 205.211 Employees' stock purchase plans.

Rule 11. Stock acquired under employees' stock purchase plans is taxable in the same manner as other stock unless such plans involve the holding of the shares in a trust in which case the shares will be subject to tax in the same manner as other trust property. As soon as the stock is set aside for the employee and he becomes entitled to receive dividends thereon, if any, the employee becomes the owner within the meaning of the statute and is subject to liability for the tax.

History: 1944 AC, p. 1346; 1944 ACS 5, p. 27; 1954 AC, p. 941.

R 205.212 Goodwill.

Rule 12. Goodwill is not taxable under the intangibles tax act.

History: 1944 AC, p. 1346; 1944 ACS 5, p. 27; 1954 AC, p. 941.

R 205.213 Nonprofit corporations.

Rule 13. Nonprofit corporations are subject to the intangibles tax act, unless they are incorporated under the laws of the state of Michigan and are expressly exempt as being charitable, religious, educational, or scientific institutions.

History: 1944 AC, p. 1346; 1944 ACS 5, p. 27; 1954 AC, p. 941.

R 205.214 Building and loan associations.

Rule 14. (1) Building and loan and savings and loan associations are exempt from the intangibles tax on the ownership of their own intangible personal property. The individual deduction of $20.00 against the amount of the tax does not apply to the tax on stock in building and loan or savings and loan associations. Shares of stock in building and loan associations located outside of Michigan but owned by a resident of Michigan are taxable to such resident.

(2) Every building and loan or savings and loan association engaged in business in Michigan shall pay the tax imposed under this act upon the ownership of its shares of stock for and in behalf of its shareholders. In carrying out the provisions of the act providing for the payment of the tax by such associations in behalf of its shareholders, certain options are open to each association:

(a) Under the provisions of section 3(a) of the act, the association may render the ownership of all its outstanding shares exempt from the tax imposed by this act by voluntarily electing to pay the department an amount equivalent to ⅓ of 1% of that amount of its assets as is equal to the amount of its total outstanding share liabilities as of the close of business on December 31 of each year less the amount of the paid-in value of its shares owned on that date by the federal government or any agency or instrumentality thereof or by the state of Michigan or any of its political subdivisions. Any such association electing to follow this procedure shall so notify the department prior to December 31 of each year by filing with the department a written declaration of its intent. In proceeding under this option the

return filed by the association shall disclose the total paid-in value of all outstanding shares at the close of business on December 31 and the total paid-in value of shares owned by the governmental units listed above and the amount to be paid shall be computed on the difference between such totals. The department may require the shares claimed to be exempt to be itemized as to ownership but shall not require the listing of any other shareholders. The association will include with its return a copy of its statement of condition as of December 31.

(b) Under the provisions of section 6 of the act, the association may pay the tax and charge the same to the shareholder. In proceeding under this option the return filed by the association shall disclose the total paid-in value of all outstanding shares as of the retroactive date selected each year by the department of revenue and the total paid-in value of outstanding shares owned by persons not subject to the tax, and the amount to be paid shall be computed on the difference between such totals. Included in the class of persons not subject to the tax are any shareholders who owned outstanding shares on the retroactive date but did not own any such shares when the tax is paid by the association, but in no case later than March 31 following the tax year. If the association follows this plan it is entitled to 3% of the total amount of said taxes as compensation for services rendered in acting as the agent of the department in collecting and paying such tax. All shares claimed exempt will be listed, showing the name and address of each such exempt shareholder and the total paid-in value of outstanding shares held by each such shareholder at the close of business on the retroactive date, on which the association is not paying the tax and the reasons by which it contends that no tax is due on such shares. The association will include with its return a copy of its statement of condition as of the retroactive date. The department of revenue may require such additional information as is necessary to substantiate the elimination of any shares from the tax, and may assess the association for any deficiency due to improper computation of the tax due or erroneous exemptions claimed.

(c) Under the provisions of section 6 of the act, the association may pay the tax in behalf of its shareholders and assume the tax imposed upon the owner. In proceeding under this option the return filed by the association shall disclose the total paid-in value of all outstanding shares as of the retroactive date selected each year by the department of revenue and the total paid-in value of outstanding shares owned by persons not subject to the tax, and the amount to be paid shall be computed on the difference between such totals. Included in the class of persons not subject to the tax are any shareholders who owned outstanding shares on the retroactive date but did not own any such shares on the date the tax is paid by the association, but in no case later than March 31 following the tax year. All shares claimed exempt will be listed, showing the name and address of each such exempt shareholder and the total paid-in value of such shares held by each such shareholder at the close of business on the retroactive date, on which the association is not paying the tax and the reasons by which it contends that no tax is due on such shares. The association will include with its return a copy of its statement of condition as of the retroactive date. The department of revenue may require additional information to substantiate the elimination of any shares from the tax and may assess the association for any deficiency due to improper computation of the tax due or erroneous exemptions claimed.

tions and receivers are subject to the tax. The $20.00 individual deduction against the amount of the tax does not apply to the tax on bank deposits. Money impounded in closed banks is taxable as accounts receivable. Holders of beneficial interest certificates in the segregated assets of closed banks under a trusteeship are taxable on the amount of the balance owing thereon on the same basis as accounts receivable.

(2) All shares of stock in banks and trust companies doing business in this state under whatsoever authority organized shall, irrespective of the domicile of the owner thereof, be deemed to have a situs in this state. Shares of stock of a bank located in any other state and owned by a Michigan resident are not taxable. The tax on shares of stock of state and national banks and trust companies located in Michigan shall be paid by said bank or trust company on behalf of its shareholders annually on or before March 31 of each year and the tax so paid may be charged against the shareholders for whom the tax was paid or assumed by said bank.

(3) Every bank engaged in the business of receiving moneys for deposit subject to check or other withdrawal, upon which a tax is imposed under this act, shall collect and pay the tax imposed thereon. Certificates of deposit constitute deposits within the meaning of the statute and shall be included by the bank with other deposits. Items such as cashier's checks, bank money orders, expense checks and the like shall be considered as cash on hand and items in transit in the hands of the holders (see R 205.216) and may be deducted by the bank in computing the tax on bank deposits. In carrying out the provision of the act which provides for payment of the tax by the banks on behalf of their depositors, certain options are open to each bank:

(a) Under the provisions of section 3a of the act, the bank may render all deposits in it tax exempt to the owner by voluntarily electing to pay to the department an amount equivalent to ⅛ of 1% of that amount of its assets as is equal to the amount of its total deposit liabilities as of the close of business on December 31 of each year less the amount of all its deposit liabilities owing to the federal government or any agency or instrumentality thereof and to the state of Michigan and any political subdivision, instrumentality and agency thereof. Any bank electing to follow this procedure shall so notify the department prior to December 31 of each year by filing with the department a written declaration of its intent. In proceeding under this option the return filed by the bank shall disclose the total of all deposit liabilities at the close of business on December 31 and the total amount of deposits of the governmental units and exempt items listed above and the amount to be paid shall be computed on the difference between such totals. The department may require the deposits claimed to be exempt to be itemized as to ownership but shall not require the listing of any other deposits. The bank will include with its return a copy of its statement of condition as of December 31 in sufficient detail to enable the department to properly check the return.

(b) Under the provisions of section 6 of the act, the bank may pay the tax and charge the same to the depositor. In proceeding under this option, the return filed by the bank shall disclose the total deposit liabilities as of the retroactive date selected each year by the department of revenue and the total deposit liabilities owing to persons not subject to the tax, and the amount to be paid shall be computed on the difference between such totals. Included in the class of persons not subject to the tax are any depositors who had moneys on deposit on the retroactive date but for whom the bank has no moneys or property in its possession on the date the tax is paid by the bank, but in no case later than March 31 following the tax year. If the bank follows this plan it is entitled to retain 3% of the total amount of said taxes as compensation for services rendered in acting as

the agent of the department in collecting and paying such tax. All deposits claimed exempt will be listed, showing the name and address of such exempt depositor and the balance of their account at the close of business on the retroactive date, on which the bank is not paying the tax and the reasons by which it contends that no tax is due on such deposits. The bank will include with its return a copy of its statement of condition as of the retroactive date. The department of revenue may require such additional information as is necessary to substantiate the elimination of any account from the tax, and may assess the bank for any deficiency due to improper computation of the tax due or erroneous exemptions claimed.

(c) Under the provisions of section 6 of the act, the bank may pay the tax in behalf of its depositors and assume the tax imposed upon the owner. In proceeding under this option, the return filed by the bank shall disclose the total deposit liabilities as of the retroactive date selected each year by the department of revenue and the total deposit liabilities owing to persons not subject to the tax, and the amount to be paid shall be computed on the difference between such totals. Included in the class of persons not subject to the tax are any depositors who had moneys on deposit on the retroactive date but for whom the bank has no moneys or property in its possession on the date the tax is paid by the bank, but in no case later than March 31 following the tax year. All deposits claimed exempt will be listed showing the name and address of such exempt depositor and the balance of each account at the close of business on the retroactive date, on which the bank is not paying the tax and the reasons by which it contends that no tax is due on such deposits. The bank will include with its return a copy of its statement of condition as of the retroactive date. The department of revenue may require additional information to substantiate the elimination of any account from the tax, and may assess the bank for any deficiency due to improper computation of the tax due or erroneous exemptions claimed.

History: 1944 AC, p. 1346; 1944 ACS 5, p. 27; 1944 ACS 16, p. 16; 1944 ACS 36, p. 45; 1954 AC, p. 942.

R 205.216 Moneys on hand.

Rule 16. All cash on hand of any description must be included in the return. This includes uncashed or undeposited checks, bank drafts, money orders, moneys on hand or in transit or in safe deposit boxes or any other place of safe keeping or hiding. The individual deduction of $20.00 against the amount of tax due does not apply to the tax on such items.

History: 1944 AC, p. 1347; 1944 ACS 5, p. 29; 1954 AC, p. 944.

R 205.217 Bonds.

Rule 17. (1) All bonds are taxable unless they are (a) specifically exempted by the statute, or (b) the specific tax was paid thereon prior to September 29, 1939, or (c) unless they are mortgage bonds issued prior to September 29, 1939, and the underlying mortgages cover Michigan property and the mortgage tax on said mortgage was paid prior to the aforementioned date; provided, however, that such bonds with underlying mortgage covering property partly within and partly without the state, are only exempt to the extent that the mortgage tax was paid on the portion of the property within the state.

(2) The following bonds are not taxable: Michigan state college auditorium; university of Michigan stadium; state board of education revenue bonds, under Act 15, Public Acts of 1937, for purchase or construction of buildings at state normal colleges or state normal schools; all United States bonds; postal savings bonds; H.O.L.C. bonds; F.H.A. bonds; federal land bank bonds; national farm

loan association bonds; all bonds of the state of Michigan or any of its political subdivisions.

(3) Bonds, as well as stocks, of corporations in liquidation or reorganization are taxable at their par, face or contributed value less the proportionate share of any liquidating dividends which have been paid. Each taxpayer shall keep a list of all bonds and mortgages upon which he claims exemption from taxation due to the payment of the specific or mortgage tax thereon. This list shall state the date of payment, the number of the certificate, the name of the instrument, and the designation of the office where the tax was paid.
